## Jan Churchill Snares State Dept. Internship

Janice Churchill will get a first-hand glimpse of a world in which water shut-offs at Guantanamo Bay and crises in Cyprus are part of the day's work.

Jan is one of 35 students chosen from throughout the country to participate in the Department of State Summer Internship program in Washington, D. C. She was selected from among 255 students from as many colleges and universities. Jan has been tentatively accepted pending a security check.

The junior international affairs major in history and government will participate in seminars with top State Department officials and

She is a sister in Delta Delta Delta sorority and is treasurer of Panhellenic Council. She is also on the Varsity Debate team, a cheerleader, and a member of the Winter Carnival Committee.

Jan has appeared in three major plays staged by the Maine Masque Theatre. Last year she served as sophomore class secretary and she won the Oakes Speech Contest in May. She has also worked as a cafeteria waitress on campus for 2½ years.

## Hartgen Exhibits Twenty Paintings At Bates College

Last Sunday began a month-long art exhibit at Bates University by Vincent Hartgen, Huddilston Professor of Art and head of the U-M art department.

Seventeen of the twenty works have never been shown before. The main theme, although Hartgen had not specifically thought of it at the time, concerns the four seasons of Maine.

Some of the paintings are woodscapes or seascapes. Only four of them are small, the others are quite large.

Following the Bates exhibition, many of these paintings will go on to the Chase Galleries in New York City or to the Weeden Gallery in Boston. The remainder will return to Orono and be reframed for Prof. Hartgen's annual faculty-student lawn show at his home which will be held this year on the last day of classes in May.

Professor Hartgen has been a member of the University faculty since 1946 when he completely revamped the art program here. His paintings of the Maine coast and woodlands are hung in the country's leading galleries and since 1947, when he staged his first one-man show in New York, he has appeared in over 125 exhibitions.

**BIG SWITCH**—Workmen hoist the WMEB-TV videotape recorder from the fourth floor of the library to transport it to the ETV Studio in Alumni Hall.

## WMEB-TV Moves Videotape Recorder

Educational television finished moving into new headquarters last Friday. A 60-foot crane plucked the \$53,000 videotape recorder from its perch on the fourth floor of the Library, transferred the machine to a truck and moved across the road to set the recorder in ETV's permanent home, Alumni Hall.

The three transmitting stations, Channel 12 at U-M, Orono, Channel 10 in Presque Isle, and Channel 13 in Calais, comprise the State of Maine Educational T.V. Network which the voters of the state approved in a referendum about two years ago. The legislature appropriated a one-and-one-half-million dollar bond issue for construction of the network.

ETV has many unique characteristics which point out the potential of the system.

It is one of the first systems conceived and designed in the planning stages as a network; that is, it is possible that each program seen on one station also may be seen on the other two.

Channel 12, the University of Maine station, has maximum power facilities and is capable of programming separately to each of the three stations in the network simultaneously.

When the three-station network is completed and interconnected with WCBB—Colby, Bates, and Bowdoin—ETV will serve approximately 98% of the state of Maine, and fewer than 5000 school children will be without ETV services from at least one station.

The three-station network is an affiliate of the Eastern Educational Network and also National Educational Television.

A microwave system, which is one of the next big steps for ETV will allow greater flexibility in programming. Instead of sending ETV material to the Orono network by way of Durham and Mount Washington, the microwave will avoid the middle man and permit the program to be tapped directly by the Orono network.

## Narrated Movie Explores Riddle Of Easter Island

One of the world's great mystery stories — the riddle of Easter Island — will be presented in a color motion picture on Thursday, February 27, at 8 p.m. Geza de Rosner, professional film producer, will narrate in person the single showing in the Hauck Auditorium.

There are world-wide disagreements over the origins of the people of Easter Island. Some experts believe they came from Asia; others claim that Indians of Peru arrived there a thousand years before the Asiatics.

Complicating the controversy is the fact that the island lies some 2200 miles from the nearest mainland, and 1600 miles from the closest inhabited piece of land, Pitcairn Island.

Among the many mysteries is the riddle of the gigantic stone carvings of the island; no others like them appear anywhere else in the world. The greatest question is how, on an island having no metal and almost no trees, were these fifty foot stone images carved, transported, and erected.

Among Mr. de Rosner's professional credits are an Edinburgh Film Festival prize-winner, *Hunters of the Deep*, and a television Emmy for "TV University," an educational program. His scripts include *The Life of Saint Paul*, . . . *And One Survived*, and *From Man to Man*. He is the author of two novels now under preparation by publishers.

Advance tickets for *Easter Island* — *Navel of the World*, which de Rosner will present, will be on sale Wednesday and Thursday, February 26 and 27, from 10 a.m. to 2 p.m. at the ticket office in the Union. Tickets will also be available at the door.

## Zachary & Brown Will Head 'Campus'

Carolyn Zachary and Jim Brown will take over in April as editor-in-chief and business manager, respectively, of the *Maine Campus*. They were elected last week by the Student Faculty Committee on Student Publications.

Carolyn, a junior, hails from Essex Falls, New Jersey. A journalism major, she has worked as a re-

porter, make-up editor, and assistant editor of the *Campus*. During the summer she is an employee of the *Newark (N. J.) News*.

Jim, also a junior, is a history and government major from Waterford, Maine. This year he has worked as business manager of the *Prism* and assistant business manager of the *Campus*.

## Prof. Stewart Will Deliver Year's Sole 'Last Lecture'

History Professor Alice Stewart will deliver this year's only *Last Lecture* in the Memorial Union, February 27 at 7 p.m.

Enthusiastic about the coming talk, Dr. Stewart said that the topic for her *Last Lecture*, "What History Means to Me," was chosen because, "for the first time in my teaching career, I will have an opportunity to discuss not a period of history, like Modern England, or a country, like Russia or Canada, or a survey, like Western Europe, but the reasons which attracted me to history as a profession, and which have

continued to make it a subject which is fun to teach."

Dr. Stewart was graduated from Brunswick High School and the University of Maine. She did graduate work at Radcliffe College and taught in several Maine high schools, including Andover, Fox-

DR. ALICE STEWART

## WMEM-TV Joins Maine Educational Television Network

WMEM-TV in Presque Isle began operations Monday to become the second station of the Maine ETV network to go on the air.

The network's in-school programs will be carried beginning Monday. All programs to be aired during the immediate future will be the same as those televised by WMEB at the University of Maine. The Presque Isle station's transmitter is at Mars Hill. Its power will be 299,000 watts visual and 149,500 aural.

**INTERNATIONAL PUPPET SHOW**—Delta Tau copped first place in the fraternity division for their Winter Carnival snow sculpture. Sigma Chi took second, and Alpha Gam rated honorable mention. Hart Hall took first among the women's dorms, with Androscoggin placing second. In the men's dorm division, Gannett took first and Cumberland placed second.

# U-M Fraternities Gain 210 Pledges

The sixteen Maine fraternities boast an additional 139 pledges to the 71 pledges the Maine Campus listed recently. At the end of formal rushing, the 210 member pledge class is just three members shy of meeting last year's total. The pledges are:

**ALPHA GAMMA RHO:** Stephen S. Hale, Gary L. Morse, William G. Moulton, Kenneth J. Pecci, Richard T. Beck, Dana L. Berry, Alan C. Chandler, Dennis M. Dunn, David R. Edelman, David F. Hale, Norman R. Kalloch, David J. Keene, William C. McNally, Dale R. Nitschke, Joseph B. Thomas Jr., and Charles R. Titcomb.

**ALPHA TAU OMEGA:** Cobb A. Blake, Bertrand R. Bolduc, William D. Carsley, Harold L. Emerson, Stephen Gardner, Douglas P. MacPherson, Michael A. Marino, John A. Savage, Robert J. Tancredi, Peter N. Thompson, Stephen F. Twitchell, Donald S. Vafiades, and David K. Young.

**BETA THETA PI:** William J. Baker, Dexter E. Breault, Allan T. Bullard, Norwood P. Hallowell, and Karl W. Stritter.

**DELTA TAU DELTA:** Robert W. Conley, Bruce W. Plimpton, Robert G. Robertson, and Frank J. Bush.

**KAPPA SIGMA:** Richard M. Angell, Robert M. Bell, Norris F. Beyant, Reginald L. Dyer, Carl B. Freymouth, Toby B. Hammond, John R. Huard, Fred J. Lovejoy, Cyrus A. Morris, Dale E. Maxwell, and Mark M. Pitcher.

**LAMBDA CHI ALPHA:** Ronald L. Belyea, Richard E. Blake, Steven D. Garland, John S. Getchell, Richard S. White, William W. Adams, Peter C. Allen, Arthur Chapman III, Douglas L. Cooney, Weston S. Evans III, Thomas A. Green, Bruce C. MacFadyen, Barry P. Titcomb, Robert J. Yambor, and Frederick Woodruff.

**PHI ETA KAPPA:** Michael L. Hodges, Jan E. Klisiewicz, Charles S. Wentzell, and Douglas M. Williams.

**PHI GAMMA DELTA:** Thomas

E. Foster, Robert E. Harrison, Robert J. Lewy, Robert F. Milligan, Kenneth P. Stetson, Augustus B. Colangelo, Alan F. Cheney, and Joseph A. Lacasse.

**PHI KAPPA SIGMA:** Peter A. Cummings, John S. Dyhrberg, Robert E. Farley, James S. Harmon, Stephen C. Foster, David E. Johnson, Eben B. Marsh, Scott R. Smith, Robert J. Stone, and Stephen E. Watts.

**PHI MU DELTA:** Gerald R. Perkins, and John P. Sherry.

**SIGMA CHI:** Frank J. Bush, Frederick A. Clough, Stephen J. Procter, James C. Webber, David W. Hodgkins, and Lenwood B. Ladd.

**SIGMA NU:** Kenneth S. Blakeslee, Edmund B. Fladung, George N. Georgarakos, Donald M. Haley, Carol P. Hevey, Eugene C. Leighton, Frank Parker, and Percy F. Perkins.

**SIGMA PHI EPSILON:** Trevor F. Goodell, Paul J. Herer, David L. Kimball, Leonard R. Lyons, David R. Meyer, Thomas F. O'Connell, Ronald L. Rizer, Carl E. Upham, Edward T. Baum, Ronald A. Gordon, Benjamin E. Haskell II, Raymond H. Houston III, Edwin H. MacArthur, John K. Sparrow, Barry F. Bowden, Gerald G. Love, Steven J. Maines, Russell T. Peterson, and Richard A. Watson.

**TAU EPSILON PHI:** Jeffrey I. Gass, Robert J. Tardy, and Douglas S. Thornton.

**TAU KAPPA EPSILON:** Fred-

erick W. Russell Jr., and Peter A. Martin.

**THETA CHI:** William J. Dinsmore, Raymond P. Jones, Joseph P. Kenna, James C. Lindsay, James E. Rier Jr., John E. Toffling, Ralph C. Baldwin, Douglas M. Dimond, James Goffi, William S. Hemmens, Theron K. London, William H. McIntire, and Clyde W. Park Jr.

## Philip Lown Appointed To Development Group

Philip W. Lown, honorary U-M alumnus, has been appointed to membership on the University's Development Council. His appointment was approved by the Board of Trustees in January.

Lown, who received an honorary LL.D. degree from the University of Maine in 1954, is a resident of West Newton, Massachusetts.

He has been associated for many years with the Penobscot Shoe Company in Old Town and with Lown Shoes, Inc., in Auburn.

## Testing And Counseling Service Offers Personality Improvement

Dr. Apostol of the Testing and Counseling Service has announced the availability to students of a program for improvement in interpersonal relationships.

Generally, this program is designed to assist persons to increase in self-understanding and in understanding of others. The program is conducted in a private, interpersonal setting of two persons working together and consists of ten sessions of approximately one hour per session. Depending on the demand for the program, one session per week is recommended.

Friends may wish to go through the program together or a person may rather work with a complete stranger. Interested persons should make an appointment at the Testing and Counseling Service, Education Building.

## C. J. Cutts Chosen Advisers' Officer

Cecil J. Cutts, U-M foreign student adviser, has been elected treasurer of the New England Association of the National Association of Foreign Student Advisers.

Cutts, who has been a member of the Maine faculty since 1959, also serves as associate director of student aid for the University.

He served as superintendent of schools at Saco for 11 years before joining the U-M faculty.

## U-M Enrollment Slated To Increase By 373

"We're going to use a shoehorn in a lot of places," said University President Lloyd H. Elliott discussing the problems of accommodating the rapidly expanding enrollment next fall and in the coming years.

Speaking before the Board of Trustees last month, Elliott said, "Somehow we're going to take care of them." They referred to the estimated enrollment increase of 373 students who must be absorbed at the Orono and Portland campuses in the fall of 1964.

The total enrollment for both

campuses in 1963 was 5292. The projected enrollment for 1964 is 5665; 6310 for 1965; 6795 for 1966; and 7340 for 1967. By 1970 enrollment is expected to pass 7800.

The increase from 1963 to 1970 is estimated at 47.6%. This figure is broken down into an estimated 41.6% increase at the Orono campus, and a 105.2% increase at UMP.

Elliott said that last fall Director of Admissions James Harmon predicted a 15% increase in applications this year. As of January 2 the increase was over 30%.

This year the usual low group of unqualified applicants does not exist, indicating, according to Elliott, that the University's policy of discouraging unqualified students from applying is paying off.

Transfer applications have increased this year, also, Elliott added.

Based on a U-M survey, Elliott

reported that 50% of the students enrolled in Maine colleges attend the University of Maine.

There will be 100 spaces in dormitories and an additional 100 spaces in fraternity houses to accommodate part of the overflow next year, Elliott pointed out. Additional housing, perhaps for senior men and graduate students, must be found in Orono and Bangor, he added.

Regular evening classes may be instituted, Elliott mentioned, in order to accommodate the increasing numbers of students in courses of study.

Board member Arthur H. Benoit said that UMP will probably have to expand to a four-year institution to handle the future increase.

Lawrence M. Cutler, president of the Board, suggested that the possibility be explored for the establishment of another day branch of the University, perhaps in Augusta.

## Notices

### MRS. MAINE CLUB

The Mrs. Maine Club will meet at 8 p.m. Tuesday, February 25, in the Coe Lounge. A card party and Scotch Auction are planned. All student wives are invited to attend.

### MATH CLUB

There will be a meeting of the Mathematics Club Thursday, February 20, at 7 p.m. Dr. Howard Eves will speak on his mathematical museum.

### FAMILY SPORTS

"Family Fun and Fitness," a program of sports activities for faculty and staff families will be held Sundays from 3-5 p.m. at Lengyel Hall. Children must be accompanied by parents.

### HAMLET CONTEST

All interested students are encouraged to submit entries in the Hamlet Playwriting Contest before May 1, 1964. The prize will be about \$40. For rules contact the Department of English, Stevens Hall.

### DEN DANCE

The Cumberlands will play at a Den Dance at 8 p.m. Saturday, February 22.

## THE BELL TELEPHONE COMPANIES SALUTE: STANTON PEEL

With Southern New England Telephone in New Haven, Stanton Peel (B.S., 1962) handles important engineering assignments for the Current Plans Office.

His projects have been as short as a matter of minutes, as long as several weeks. They have ranged from studies such as he made on the telephone facilities layout around Saybrook and Middlesex Junction, Connecticut, to the very comprehensive package he put together on Weather An-

nouncement Service. Even though he's been with Southern New England Telephone less than a year, Stanton Peel has already established an enviable reputation for his thoroughness and keen analytical ability.

Stanton Peel, like many young engineers, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.

### Salty Advice

Chances are the weekend snowstorm didn't create a warm spot in many hearts for this feature of vacationland. So when warmer vacationlands are more the topics of mid-winter reveries, a name such as Daytona Beach not uncommonly swims into thought. Well, what happens in Daytona about this time? For one thing, the police department polishes its list of regulations governing the annual influx of chilly collegians. Restrictions against starting fires on the beach, using profane language in public, littering streets with beer cans, or attempting to use false identification to obtain intoxicating beverages would not surprise too many persons. There is a further admonition to prospective sun-seekers worthy of contemplation—Do not drive your vehicle in the ocean.

### The Greatest Hypocrisy

Why don't we practice what we preach? It's not a novel idea, and perhaps the phrase has lost any punch it might have had through the overly active lip service it has been given.

One reason the phrase still has relevance is simply because the preaching rarely gets into practice. Last week, Mr. Thomas Atkins Executive Secretary of the Boston chapter of the NAACP, urged listeners at the Brotherhood Week banquet to practice what they preach. In the course of his speech Mr. Atkins mentioned the preaching of integration and the hypocrisy of segregation. The troublesome point of this whole idea is that we cannot dismiss the disparity between talk and action as a "Southern" problem, because the hypocrisy is much more prevalent in northern cities and northern minds. When signs are displayed in buses telling Negroes to sit in the back, or in restaurants and lunch counters informing Negroes that they will not be served, that's not hypocrisy—that's plain discrimination. Those signs aren't seen around here. There are plenty of people who have never seen them.

But around here this just means one thing: the discrimination is not so plain. It's underground and nobody likes to talk about it. Some people have never been aware that it exists. These people are not Negroes who have tried to find homes for their families. The people who turn away these bids for homes are guilty of racial discrimination. But they don't display signs to warn potential homebuyers (or to reveal their feelings about segregation). That's hypocrisy. Some people don't know that housing is the area of strictest segregation around here. That's ignorance. But you know, don't you? You can forget all about it if you want to. That's the greatest hypocrisy.

## Against Dorm Site

To the Editor:

Are President Elliott and the Board of Trustees really going ahead against everyone's advice to cram a new dormitory into that space by the cannons? It's not so much that the site is too small, on a side hill in the most congested area on campus with no room for parking facilities, but rather that it will despoil one of the most beautiful, historic areas of the Maine campus which has always been a part of the Maine tradition.

It would seem that the parking lot next to Dunn and Corbett would be the ideal spot for a new dorm to augment the West Commons. It is a large, flat, bare, uncongested area adjacent to abundant space for parking and closer to the Commons than the cannons site.

It was bad enough to decide to squeeze a new building in between Boardman, Crosby and Stevens, but putting a new dorm near the cannons is too much. Somebody had better pull the plug on this runaway bureaucratic building machine before it decides to place a new structure in the space between North and South Stevens.

Joel W. Eastman

## Fake Do-Gooders?

To The Editor:

I wish to congratulate the University of Maine student body on a truly fine display of fairness, brotherhood, and hypocrisy. The selection of a Negro as Carnival Queen is but one of many instances of the integration campaign here at Orono.

Liberal hypocrites and phony do-gooders; you are now full-fledged members of the pro-integration forces!

How many of you, who are pushing integration, have had a "meaningful" amount of contact with Negroes? Meaningful contact does not mean one Negro in your graduating class or two Negroes living in town. I mean where 50% of the population is non-white as I encountered on New York's West Side. How can you be for or against integration when you don't even know what it's all about?

I wish each of you who is so pro-Negro would live in a truly racially mixed area for a couple of years. Then you could learn for yourselves how truly wonderful integration is.

Jay Spencer

## Arm Twisting

To The Editor:

On February 4, Democratic Senator Edmund Muskie voted against an amendment to the tax bill which would have provided a tax credit of \$325 for college students or their parents. Muskie's No vote is an indication of his negative attitude toward federal measures which would ease the financial burdens of higher education. The amendment, defeated by a narrow margin of 48 to 45, was sponsored by Democratic Senator Abraham Ribicoff who complained of the arm twisting techniques used by President Lyndon Johnson to control the votes of Senators.

Next fall Senator Muskie must return to Maine to account to his constituents for his activities. His opponent in the election most likely will be Republican Representa-

tive Clifford McIntire, a University of Maine alumnus, who has joined Representative Stanley Tupper in sponsoring legislation in the House similar to that voted down by Muskie. Maine's progressive McIntire and Tupper have worked for many years to provide educational

advantages for all qualified students and they certainly deserve to be returned to Washington as Senator and Representative, respectively.

Ted Curtis, Jr.

Bowdoin '62

Harvard Law School '66

## Dean Praises Greeks

**EDITOR'S NOTE:** Two weeks ago the Campus published the entire text of the Faculty Committee's Report on Fraternities at the University of Maine. Dean of Men John E. Stewart is probably the best qualified person on campus to comment on the problems and the progress of the fraternity system. At the request of The Maine Campus he has provided the following.

It seems inappropriate for me to comment on the content of the faculty committee's report on fraternities at this time. Currently, committees of the Interfraternity Council and chapter advisors are each making extensive studies of the report, particularly in reference to the committee recommendations. The mere fact that a faculty committee has been at work for over a year has stimulated those associated with fraternities, both undergraduates and graduates, to carry on an extensive program of self-appraisal and should result in constructive recommendations pertaining to fraternities outside the scope of the faculty report. Those associated with fraternities are particularly grateful to the faculty committee for the many hours they have spent in evaluating our fraternity system and for their constructive recommendations directed at its improvement.

There is nothing unique about the study of fraternities at this University. In many major universities throughout the country such studies are currently in progress or recently have been completed. Unquestionably the fraternities have brought on these studies because of their failure to adapt rapidly enough to the accelerated pace and tone of the universities. For several years fraternities here have realized that they must adjust to the times in order to play a vital role in a maturing university. For this reason, the Interfraternity Council was reformed as a council of fraternity presidents in place of a council of fraternity representatives. This body has initiated certain policies beneficial to fraternities.

In 1953, after nearly eighty years of fraternity living on campus, the first fraternity rule affecting eligibility for pledging was introduced. From this point on, no freshman below 1.5 was eligible for pledging. Three years later the rule was raised to 1.8 for freshmen and 1.8 accumulative for upperclassmen, with plans to go to 2.00 as soon as the number of eligible freshmen warrants. As late as the middle fifties, the informal initiation period continued through until the week preceding Thanksgiving vacation. Pledges were involved in all kinds of activities both off and on campus, such as marches to classes in squadrons, outlandish dress worn to classes, stunts on the Mall between classes, guard duty in front of many houses, stunts and quests in nearby communities, and missions taking students to all parts of New England.

During the week preceding Thanksgiving vacation the Dean of Men's office received many telephone calls from faculty, local citizens and parents protesting the abuses inherent in the initiation programs. This fall initiation activities were confined to the premises of the houses and were concluded by all of the fraternities not later than the end of the fifth week of classes with one fraternity holding informal initiation before the opening of school. Undesirable practices remain that should be eliminated, particularly the physical exhaustion feature still present in some fraternity initiation programs. However, tremendous progress has been made.

The University Trustees approved plans for assisting fraternity treasurers in collecting board and room charges from members and this plan was adopted by the Interfraternity Council in the Spring of 1960. The Interfraternity Council is currently working on a judiciary which should be in operation for the beginning of the fall of 1964. After the University made clear its policy on drinking, the fraternities have demonstrated that they have the ability to enforce this regulation. Knowledge of these and other constructive policies enacted by the fraternities in recent years certainly influenced the faculty committee "to give the fraternities" a chance.

Every fraternity should strive to view the report constructively and use it as a means of upgrading its chapter. Let's work together to make our fraternities ones of which the University Community can be justly proud.

PLENTY OF ACTION—Last Friday afternoon, the history and government majors played the faculty in a broomball game at the University hockey rink. Action was extremely fast in this game that ended in a 3-3 tie.

## Graduate Fees Will Be Introduced

Application and leave of absence fees will be introduced as of June 1 in the University's Division of Graduate Study.

In January the Board of Trustees accepted the proposal for a \$10 non-refundable charge for processing

graduate study applications.

The Board also approved a non-refundable \$5 fee which provides for a maximum leave of absence of one calendar year.

A graduate student must request a leave of absence if he is to be absent from the University for longer than one calendar year. At or before the end of the period of the leave the student must register for courses (or secure permission for further leave). Otherwise it will be assumed that he has withdrawn from the University.

It was explained at the Board meeting that this measure is an effort to keep in touch with those students not pursuing full-time graduate study. The fee is also intended to give the students the incentive to keep the Office of Graduate Study informed of their plans.

## SOCIETY

By CAROL FARLEY

Winter Carnival was definitely a success. Congratulations to Alan Leathers and Phyllis Mayo, our new king and queen. Also, congratulations to Delta Tau, Androscoggin, and Gannett for taking first places for their snow sculptures. Count Basie and the Brandywines couldn't have been better.

This Friday night, all the sororities are holding their pledge formals. *Flower Drum Song* is playing at the Hauck Auditorium. There will also be a square dance in the Main Lounge at 8 p.m.

On Saturday night the **Cumberlands** will high-light the den dance. The MUAB Movie will be *The List of Adrian Messenger*.

**Sigma Nu** has elected the following to be officers: Commander, Richard Randall; Lt. Commander, Jeff Robertson; treasurer, Lyle Cramer; recorder, Jason Magill; pledge marshal, Phil Grant; chaplain, Dave Fant; sentinel, Dennis Purington; senate representative, Lyle Cramer; and IMAA representative, Grevis Grinnell.

**EARLED:** Carol Chezmar to Dick Bishop.

**PINNED:** Heather Cameron, Alpha Omicron Pi, to Ken Poole, Phi Mu Delta; Judy Holmes, Phi Mu, to Jeff Hall, Phi Mu Delta; Donna Gildart, Alpha Omicron Pi, to Tom Edge, Lambda Chi Alpha; and Pam Carruthers to Dave Fant, Sigma Nu; Diane Dorr to Don Chase, Beta Theta Pi.

**ENGAGED:** Deborah Hanna, Chi Omega, to Robert Donovan, Delta Tau Delta, '62.

**MARRIED:** Ann Griffiths, '63, to Art Bearce.

## BILLY BUDD

Sunday, February 23, MUAB presents its second Fine Arts Film, *Billy Budd*, from the work by Herman Melville. It stars Peter Ustinov, James Mason, and Terrence Stamp. The ticket office will open at 2 p.m. and the movie will start at 3 p.m.

**MR. G. SEZ**

It's one thing to tell you about this

**SALE OF SPORT SHIRTS**

and quite another for you to see it for yourself.

We urge you to do so at once. You never saw more beautiful sport shirts.

For a short time only

**THERE  
WILL BE  
AN EAGLE  
ON THE  
MOON**

Our world-recognized trademark—"the P&WA eagle"—has been identified with progress in flight propulsion for almost four decades, spanning the evolution of power from yesterday's reciprocating engines to today's rockets. Tomorrow will find that same Pratt & Whitney Aircraft eagle carrying men and equipment to the moon and to even more distant reaches of outer space.

Engineering achievement of this magnitude is directly traceable to our conviction that basic and applied research is essential to healthy progress. Today's engineers at Pratt & Whitney Aircraft accept no limiting criteria. They are moving ahead in many directions to advance our programs in *energy conversion for every environment*.

Our progress on current programs is *exciting*, for it anticipates the challenges of tomorrow. We are working, for example, in such areas as advanced gas turbines... rocket engines... fuel cells... nuclear power—all opening up new avenues of exploration in every field of aerospace, marine and industrial power application.

The breadth of Pratt & Whitney Aircraft programs requires virtually *every technical talent*... requires ambitious young engineers and scientists who can contribute to our advances of the state of the art. Your degree? It can be a B.S., M.S. or Ph.D. in:

**MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL and NUCLEAR ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • CERAMICS • MATHEMATICS • ENGINEERING SCIENCE or APPLIED MECHANICS.**

Career boundaries with us can be further extended through a corporation-financed Graduate Education Program. For further information regarding opportunities at Pratt & Whitney Aircraft, consult your college placement officer—or—write to Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford 8, Connecticut.

**SPECIALISTS IN POWER... POWER FOR PROPULSION—POWER FOR AUXILIARY SYSTEMS. CURRENT UTILIZATIONS INCLUDE AIRCRAFT, MISSILES, SPACE VEHICLES, MARINE AND INDUSTRIAL APPLICATIONS.**

## Bears After

By BOB

In what was an exciting home game, the Bear hoops team won Saturday's game against UNH. This year's season was Maine's second in N.H. this year and a single point.

The Wildcats scored first, but the Bears forged to an early lead. In the thirteen-minute stages of the game, the Bears used a zone press and as they upset the Wildcats. They managed to get a five point lead in the second half but with 50 seconds left, Dave Svendsen stepped outside to give the Bears a lead.

In the second half, New Hampshire's defense was extremely tight. When the Wildcats mounted to the basket, the Bears and nearly started a shift in hands in the second stanza which went right down to the minute to go. Maine's Hampshire came out ahead, 75-74. The shot the crucial one, the Bears to carry the victory. It was a ball that had gone either way. MacKinnon with 19 points for the Bears.

# Bears Come Back To Nip New Hampshire Maine Skiers Place First After Losing Squeaker To Bates College In EISA Championships

By BOB GARLAND

In what was definitely the most exciting home game of the season, the Bear hoopers knocked off UNH Saturday night, 76-75. This was Maine's second victory over N.H. this year and both were by a single point.

The Wildcats started off fast and forged to an early 17-9 lead at the thirteen-minute mark. In the early stages of the game, New Hampshire used a zone press to good advantage as they upset the Bear's offense. They managed to retain a four and five point lead until late in the first half but with 50 seconds to go, Dave Svendsen sunk one from the outside to give Maine a 39-37 half-time lead.

In the second half, Maine broke New Hampshire's press in action that was extremely fast. Tension mounted to the breaking point once when the Wildcats' Jim Rich fouled and nearly started a brawl. The lead shifted hands innumerable in this second stanza which saw the game go right down to the wire. With one minute to go, Maine led 74-73. New Hampshire came right back forging ahead, 75-74. Then John Gillette shot the crucial basket, enabling the Bears to carry away a 76-75 victory. It was a ball game that could have gone either way and was a well deserved win for the Bears. Bruce MacKinnon with 19 points was high man for the Bears and helped the

offense immensely with buckets at crucial points. Close behind were John Gillette with 18 and Dave Svendsen with 17. Also hitting the double figures was Bob Woodbury with 13 points. This victory upped Maine's overall record to 10-9 while UNH fell to 8-10 for the season.

Tom Horne, Nick Mandrevalis, and Jim Rich starred for the Wildcats with Rich coming out as overall high man for the night with 23 points followed by Horne with 18 and Mandrevalis with 12.

In the Freshman contest, Orono High came out on the short end of a game in which they led much of the first stanza. The second half saw the Frosh pour it on and come out with a 73-53 victory. High man for the game and the only one to hit double figures for Orono was Larry St. Louis, as five Frosh led by Dick Billings with 17, hit double figures.

## BATES NIPS MAINE, 81-75

Last Wednesday night at Lewiston, the Bates Bobcats surprised a hustling Maine quintet to keep the State Series race up in the air. Bates shot 45% from the floor and was equally as hot from the foul line in claiming their victory. High man for the Bears was John Gillette with 23 points followed by Dave Svendsen with 16. Four Bobcats also hit the double figures.

This Wednesday evening, the

Bears will again attempt to wrap up the State Series race against Bowdoin and Saturday night, the big three of McGovern, Chubin, and Nightingale from URI will be here to face the Bears.

## Intramural Hoop Tournament Starts

The final games of the regular intramural season were played Monday night to set the stage for the double elimination tournament which started Tuesday, Feb. 18. Corb 3 and Twags were the only teams forced to enter a play-off game. Corb 3 won the game, 46-36, putting them in the tournament with Gan 3.

Each league in all divisions will enter their top two teams in the tournament, the championship games to take place March 2. In the Dorm Division the teams will be: Red League — Cumb 1 (7-0) and BanComs (6-1); White — Misfits (6-1) and Chad 2 (6-1); Blue — Gan 3 (5-1) and Corb 3 (5-1); Green — Chad 4 (5-1) and Gan 4 (5-1).

In the Fraternity Division, the Beta swept the Minor League with a perfect 7-0 record and TKE grabbed second with 6-1. DTD finished first in the Major League with a 6-1 record and PEK second with 5-2.

The University of Maine Ski Team scored 562.7 points out of a possible 600, last weekend, to capture the E. I. S. A. Jr. championship. The win qualified Maine and second place, M. I. T. to compete in the Senior Divisional Championships to be held Feb. 28-29, at Williams College.

The downhill and slalom events were held at Sugarloaf on Friday, where the U of M finished first and second respectively. The icy slalom course held all scores down as MIT won with 85.1 points out of a hundred and the Bears placed second with 84.8. Parent, of Maine, won the downhill event, and with the aid of LaHaise and Viger, the Bears took the combined Alpine events with a total of 90.5.

Parent and LaHaise again teamed up in the jumping event, held at Orono on Saturday, this time with Dumas, to take second place with 94.1 total points. Army won this event with 94.4 points. Dudley and

Viger took first and second place in the cross-country event with Dumas finishing in fifth position. Dudley made the rugged 8½ mile loop in 58:04. Maine's other entry in this event, Taylor, finished 7th, completing the last mile of the race on only one ski. The efforts of Dudley, Viger and Dumas gave Maine the combined Nordic events with a total of 97.8.

The final tally for the entire meet placed Maine first with 562.7 points; MIT, second, with 527.6; Yale, third, with 511.7; Army, fourth, with 507.4; and Colby, fifth, with 429.1.

## INTRAMURAL VOLLEYBALL

The deadline for filing applications to participate in the annual Intramural Volleyball Competition for men is Monday, February 24. Applications must be turned in to the Office of Physical Education. The competition will begin early in March.

## Brown Subdues Trackmen

Saturday afternoon, the Maine tracksters met one of the strongest track teams in the East, Brown University, and succumbed to them, by the score of 73-40. The Maine trackmen put on a valiant effort and it wasn't until after the fifth event that Brown pulled into the lead, never to be caught again.

Two meet records were set by Maine. In the 35 lb. weight, Dick Nason broke the previous mark with a throw of 56' 10½" and in the pole vault, Jim Dean again came through with a leap of 13' 4½".

Brown was successful in smashing four meet records, the most impressive of which was the mile re-

lay, won in a record time of 3:20.5 by the combo of Rumsey, Lepage, Keates, and Henderson. Baylon of Brown won the 1000 with a time of 2:16.0 with Farley placing a close second. Boog won the two mile in 9:18.5 with Judkins of Maine second while Rumsey rounded out the record breakers with a victory in the 600 at 1:13.6.

Unlike the previous weekend when Maine completely dominated B.U., the Bears copped firsts in only four events. Besides Dean and Nason, Arnie Delaite won the shot put at 51' 11¼" and Dave Lahait won the high jump at 6'.

Meanwhile, Brown dominated the mile run, 50 yd. dash, 600, 45 yd. high hurdles, 1000, 65 yd. low hurdles, plus events in which they broke records.

This Saturday, Maine has an open date and will use the time advantageously by staging an intrasquad meet in the Field House beginning around 1:00 p.m.

## Two Essay Contests Offer \$1725 To U-M Contenders

Two constitutional essay contests offering \$1725 in prize money have been announced by Dr. Eugene Mawhinney, professor of government.

The annual Percival Wood Clement Essay Contest is open to juniors and seniors at Maine and 17 other New England colleges and universities. Essays not exceeding 3000 words in length are to be written on "The Constitution and the Problem of Presidential Succession and Disability." The prizes are as follows: 1st, \$700; 2nd, \$500; 3rd, \$300; and 4th, \$100. Professor Mawhinney is this year's chairman of the contest, having been a judge for two previous years. Other judges are Dean C. Scott Porter of Amherst College and Professor Ernest Muller of Bates College. Entries are to be in Professor Mawhinney's hands by April 15. Contest rules are posted in several places in Stevens Hall or may be obtained at 150 Stevens.

The University of Maine has its

own constitutional essay contest with prizes of \$75 and \$50 made available by a gift from the late Claude Dewing Graton, class of 1900. The Graton contest for 1964 includes the topic listed above for the Clement contest plus two others: "The Constitution and the Doctrine of Interposition" and "An Evaluation of Justice Frankfurter's Tenure on the Supreme Court."

Judges will be from the College of Arts and Sciences. Rules for this contest are also available in 150 Stevens Hall.

Professor Mawhinney calls attention to the fact that the same essay on the subject of presidential succession and disability may be entered in both contests. "As a judge for two years of the Clement contest, I can assure students that they should not be humbled by the inter-college competition. It is wide open for good papers, and note the prize money!"
