Feier und Freude in Deutschland beim Klassentreffen*

One afternoon in Karlsruhe, Germany, four Maine alumni decided to advertise in an American military newspaper to invite other UMO alumni to a reunion. What followed was a spirituous party sponsored by the Officer's Club of Karlsruhe. Two dozen alumni and their families feasted on lobsters imported from Rockport, Maine, corn on the cob, french fries and beer. A distinctively English version of the Maine Stein Song brought gales of laughter. If you are in Germany this year and want to be part of the fun in '81, write: 1LT Kevin and Mary Bushey, Box 15, USMCA, APO New York 09162.

Commencement Awards Alfond, Sarton Degrees

A Waterville man, known for his philanthropy, and a woman who has been called one of America's most significant poets, were both awarded honorary doctoral degrees at UMO's 163rd commencement ceremonies Saturday, May 9.

Harold A. Alfond, owner of Dexter Shoe Company, and May Sarton of York, Maine, were awarded Doctor of Humane Letters degrees at the Orono campus while 1,500 students walked off Alumni Field as the university's newest batch of alumni.

Alfond was cited for programs he sponsored which enable family members of his employees and some underprivileged children in Maine to attend college.

A principle owner of the Boston Red Sox baseball team, Alfond made possible the construction of the Harold Alfond Sports Arena at UMO, another sports arena at Colby College in Waterville, and a swimming pool at Rollins College in Winter Park, Florida.

A native of Swampscott, Massachusetts, Alfond has lived in Waterville for 35 years and has contributed to such projects as the local YMCA, Boy's Club, Thayer Hospital and Kents Hill School.

Alfond has also been a major supporter of Governor Dummer Academy in Byfield, Massachusetts and the cancer care unit at the Mid-Maine Medical Center. He serves as overseer of the board of trustees for Colby College, and trustee for both Kents Hill School and Rollins College.

May Sarton, a native of Belgium, was awarded American citizenship in 1924. She has lived in York, Maine since 1973 and was a featured participant in UMO's Great Living Poets Institute in 1980.

Her distinguished writing career began at age 25, when she published a volume of poems. Her 35th work, a novel, was published in 1980.

Some of Ms. Sarton's books include As We Are Now, Kinds of Love and The Reckoning. She combines writing with theatre work and a demanding lecture schedule.

In 1945, Sarton was awarded both the Golden Rose Award for poetry and Poetry Magazine's Edward Bland Memorial Prize. She has been named a fellow of both the Guggenheim Foundation and the American Academy of Arts and Sciences.

The National Poetry Foundation, housed at UMO, will release a volume called "May Sarton: Woman and Poet" in its critical series. The book will be edited by English Department lecturer, Constance Hunting, and is the first major critical work about the poet.

The guest speaker for commencement was former Maine governor Kenneth M. Curtis. A native of Leeds, Maine, Curtis became the youngest elected governor in the nation at the age of 35.

President Jimmy Carter named Curtis chairman of the Democratic National Committee and in 1979, Curtis took over the post of U.S. Ambassador to Canada. At present, he practices law with the Portland firm of Thaxter, Lipez, Stevens, Broder and McKeeleau.

Wrist Watch Sings Maine Stein Song

A New Jersey electronics firm is marketing a watch that will play 12 musical alarms, including a short rendition of the "Maine Stein Song," the University of Maine's official song, made famous by local-boy-made-good, Rudy Vallee.

The 79-year-old Vallee was born in Vermont but lived most of his youth in Westbrook where he held such jobs as a soda jerk and operator of the movie projector at that city's Star Theater.

He attended UMO in 1921 but left one year later for various reasons, including an unsuccessful love affair, went to Yale University and graduated with a philosophy degree.

(continued on page 3)
The "Stein Song," originally a German march without words, was created when two UMO students wrote lyrics to the tune and submitted them in a contest to determine the best Maine song. Vallee heard it first as a freshman and, for unknown reasons, it stayed on his mind until 1930 when he crooned it over the radio along with other college songs.

The UM tune was an immediate hit — today more than 13 million copies have been sold, half of those in foreign countries.

Vallee went on to bigger and better things as a singer, saxophone player, band leader and movie actor but he was always remembered for the tune that made him famous. And that recognition brought him back to the state 40 years later. In 1975, he appeared at UMO for its 100th homecoming celebration.

Understandably, Vallee received a gold version of the watch that plays his signature tune. With it, he'll be reminded to "fill the steins to dear old Maine, Shout 'til the rafters ring!"

**Planetarium Fans Seek New Projectors**

Friends of the Planetarium fund drive have raised more than one quarter of the $60,000 goal set to rescue the aging solar system model at the university.

A committee of astronomy fans and advocates of the planetarium's program for school children has been at work since early March seeking private donors and contributions from business groups.

Committee chairperson Rita Schreiber of Bangor, told the *Alumnus* that a Brewer woman pledged $3,000 to the effort and an Orrington electrician offered to rewire the building. The committee also wants to buy a new star projector, a slide viewer, a special effects projector, and new seats for the audience.

Growing use of the planetarium, which has continued since star gazing at UMO began in 1954, has placed a strain on the equipment, particularly during heavy Christmas season usage.

A neighboring restaurant, Napoli's Pizza of Orono, sponsored a spring concert to benefit the fund.

---

**GAA Hires Technologist, Fundraiser**

**Lloyd Named Computer Manager**

In an effort to meet the challenge of increased computer programming demands, the General Alumni Association has added a data processing manager to the GAA staff.

Joseph A. Lloyd, 23, a graduate of the class of '80, joined the GAA in March to fill a new, part-time post. Lloyd, who earned a bachelor's degree in business, worked at the university's Aroostook State Farm in Presque Isle as a program analyst in tuber research.

Lloyd's duties include furnishing computer services for the GAA.

**Crowley Will Direct GAA Canvassing**

At a time when the General Alumni Association was honoring major givers to the University of Maine's Annual Fund during President's Club Weekend, the GAA's first full-time assistant fundraiser joined the staff.

Michael R. Crowley, 26, charged with increasing the contributions to the Annual Fund, will direct annual phonothon programs in Maine, Boston and Rhode Island. He succeeds Laura Irwin, who left the post in April.

Crowley, a Millinocket native, earned a baccalaureate degree in speech communication at commencement exercises just one week after he opened his office in the Crossland Alumni Center.

According to Robert Holmes, director of alumni activities, Crowley will organize volunteers for nationwide canvassing, chart giving schedules for returning alumni and supervise on-campus fundraising events.

Before joining the GAA, Crowley was assigned work/study jobs with the general alumni association and was hired to assist the director of the University of Maine Development Office.
Students Could Lose College Aid

Economics has been called the dismal science. One of the early effects of President Ronald Reagan’s effort to pare government spending is a reduction of $23.4 million in federal revenues to the Department of Education.

The proposed revisions in the federal aid program for students could mean losses of up to $4 million at the Orono campus.

If all of the president’s budget cut proposals are passed by Congress, this could create a “devastating loss” for students who need financial aid, said UMO student aid director, Burt Batty. “It is now clear that all students applying for financial assistance will be competing for scarce funds,” Batty wrote in a sobering letter which his office mailed to all returning and newly entering students.

Batty estimates that UMO could lose as much as 6 percent of its enrollment if Reagan’s proposals are passed unscathed. On the other hand, observers have surmised that public campuses may get many transfer students from expensive private campuses.

UMO gives various types of financial aid to 7,000 of its 11,000 students, said Batty. The average grant is $2,714, he said.

“The pressure on this legislature is great,” added John Coupe, acting vice president for finance and administration. “If you want to talk to someone who’s optimistic, call another number,” he said.

The cutbacks to colleges “would be very significant” according to Harold Raynolds, Jr., commissioner of the State Department of Educational and Cultural Services. He puts the minimum state loss at $11.5 million for a year. Many have looked to increased private giving as the only means to balance the losses.

Alumni Directory Released

The Bernard C. Harris Publishing Company, publishers of our official alumni directory, have finished an exhaustive, person-to-person telephone check of the accuracy of names and data which will appear in the up-dated directory.

At the same time, the telephoneers invited alumni to purchase personal copies of the listing as well as to place advertising in the soft-bound volume.

The directory is scheduled for release at the end of June. If you have not received the copy you ordered by August, or if you want a directory and have not heard from the publisher, write to the company at this address: 170 Hamilton Avenue, White Plains, NY 10601.

seniors pledge $50,000 for general fund

More than 100 University of Maine seniors pledged to contribute $100 over a period of five years as part of the Student Alumni Association’s “Senior Challenge ’81” program. Above, graduating seniors, honored at a banquet, each agreed to ask ten classmates to make pledges totaling $50,000. Under the plan, seniors will give $10 by June of 1982, and then gifts increasing by $5 for each of the subsequent years. Co-chairpersons Marcia Green (left) and Barbara Brown offer a chair embossed with the university emblem to the senior who records the greatest number of pledges. This year’s top solicitor was Rebecca J. Florey of Pittsburgh, PA, who tallied 20 pledges.
Editorial
by cathy palmer

Winston Churchill once suggested that Englishmen and Americans were two peoples divided by a common language. They both used the same words, but differently. In a sense, the faculty at the University of Maine is divided by its similarities. Everyone is considered a professor, but each is as different as the Cockneyed Londoner and the Bronx-born American.

While preparing the cover story for this issue, I took the time to look at the faculty at both the Bangor and Orono campuses. I saw unparalleled excellence and crowning merit, hidden even from one another.

If the faculty is so superb, I reason, why do professors find it awkward to praise each other’s achievements, even when it is warranted?

My guess is that many young pros are squirrely about what could be unfair promotion and tenure review procedures. Some complain of low pay scales. If the faculty can’t work for money, what can they work for? Even national acclaim doesn’t pay the mortgage.

Some of the younger faculty are doing superior and advanced work in the laboratory and in the classroom. Yet they are judged by tenured faculty who may or may not appreciate their success or expertise.

The university has one of the finest collections of cultured people in the state. Excellence on all campuses has taken a quantum leap upwards. I believe that good work can be rewarded without hurting someone else.

UMO President Silverman has said, “The heart of the university is its faculty.” Permit me to expand on his metaphor. This “heart” has been donating blood, so-to-speak, ever since our land grant college was developed. The recipients, the students, may have moved to other parts of the country to earn higher salaries than their former teachers, who are still in Maine.

Why not give the faculty back some of that we have taken? Let’s celebrate their differences with public announcement. Saying nothing means we don’t care. I care. I used four years’ worth of blood while I studied here.

This column reflects only the opinions of the author.

To the editor:

I would like to publicly thank the more than 2,000 people who contributed, directly or indirectly, to the O.J. Logue III Deaf Olympic Fund. Our goal of $4,200 has been reached.

Also, thanks to all the runners who participated in the November road races in Windham and at the University of Maine at Orono; to the race directors, Danny Paul, Skip Howard and Bob Booker; and to many members of the media, like Ed Rice of the Maine Alumnus, who provided coverage.

I feel very privileged to have participated in this drive and know that win, lose, or draw, O.J. Logue III will be an outstanding representative of the State of Maine and the USA Deaf Olympic team at the XIV World Games for the Deaf in Cologne, West Germany in July.

Stuart R. Dexter, Chairman
O.J. Logue III Fund

To the editor:

2. I’d be interested in some alternative life “beginnings” from fellow grads ’72 to present. That’s brought to mind by a movie, The Return of the Secaucus 7, which I saw last week. It’s about the class of ’72 turning 30. Looking back, during a friendly weekend, at the peace marches, etc. Why not take a look at some of the people of the 70s? Hint: John McGraw ’70 is a water engineer for the Detroit Water Company. That will be interesting to many.

John Bastey ’72, Director,
Division of Enforcement and
Field Services
Bureau of Land Quality Control
Maine Department of
Environmental Protection

To the editor:

I liked your first issue of the Alumnus and I am especially glad to see that a UMO graduate is in the editor’s chair again.

There was one mistake in the issue which I feel should be noted . . . and perhaps others from coast to coast have mentioned it to you. In the USS Groves story, the reporter said the ship will be launched “one hour after high tide.”

In no way is that possible . . . the Carleton Bridge connecting Bath and Woolwich would probably do down with the ship. The ship must be launched at “slack high tide.” The currents in the Kennebec River, into which the ship is being launched, are so tricky and swift that the ship must be launched just before the tide starts to turn, from high tide to low tide.

Perhaps you were thinking that the tide at Portland was the same as at Bath. Not so — it takes the tide one hour to get up the river from the coast.

I would also like to have seen Bath Iron Works’ name mentioned in the lead . . . it is a great yard and many UMO people are working there.

Millie Simpson Stewart ’62

Brunswick, ME 04011

(more letters to the editor on page 10)
Some say the temper of the nation, which has a big effect on higher education, is right now one of doubt and frustration. Critics say leaders of advanced learning are exaggerating the negative unduly and failing to accentuate the positive. Bangor Community College has its sights only on constructive possibilities. The 162-acre campus on the former Dow Air Force Base grounds, has taken a giant "outreach" step to help young and old in the transition from school to the workplace and from work back to school.

In the generic sense, a community college is an attitude. BCC's outlook is bright and the college invites its learners to a complex world, saying, in a sense, "How can we help you fare better?"

Bangor Community College and its graduates have rich possibilities ahead. Consider these reasons why:

- Our state needs more advanced levels of occupational skills.
- Maine needs better ideas and people everywhere want a higher quality in their lives. Campuses are where the intellectual tasks will be performed.
- It is possible to pay more attention to the creative arts and to produce in Bangor a cultural center for eastern Maine.

- We all live global lives and need more relevant courses.
- UMO must participate in the electronic and scientific revolutions.
- Maine colleges must be ready for a different kind of student body, with more minorities, more women, more part-time students, commuters and short-term students.

In its role as a community college, BCC's objectives are to offer two-year associate degree programs, one-year certificates and short-term programs to meet the educational needs of adults.

This is a challenging agenda for BCC, one of UMO's six academic colleges. Though four-year colleges face an enrollment crunch because of declining numbers of high school graduates, BCC is not likely to be vulnerable.

Enrollment is up 40 percent at the Bangor college this year. Estimates from the Carnegie Commission on Higher Education are that by the year 2000, two-fifths of enrollments will be in community colleges. The makeup of the student bodies works in their favor and the functions of a community college are most subject to expansion.

Given the best resources, the maximum size of the daytime population at BCC would be about 1,200. Current enrollees for day classes number about 700. Another 150 people take night courses in "outreach centers" like Ellsworth, Bucksport, Dexter, Old Town and (soon) Millinocket. Those centers could accommodate 400 BCC students easily, which puts the college about half way to being filled to capacity.

This bold effort to take the college off campus is the idée fixe of BCC Dean Charles R. MacRoy, 40, who was hired in September of 1979.

MacRoy doesn't buy the argument that only certain people should go to college. "I believe there should be access for people who want it," he said, "BCC offers that access."

Dean MacRoy also insists that students be given initial academic credit for what he calls "life experiences" — previous jobs or volunteer service, for example. BCC enjoys the unique advantage of being a small college with access to resources at UMO, situated 10 miles to the north. Under the tutelage of former BCC Dean Constance Carlson, liaison with Orono was established in the early 1970s. With her start, the relationship between the two campuses has flourished and the marriage is working.

"We don't view attrition as a sign of failure, nor do we look toward degrees as a sign of success."

-Tracy Gran
Assistant Dean

(continued on page 7)
A Conversation
With Tracy Gran

"A community college should go
to the people if people don't want
to come to us. We're a catalyst in
many ways. It's one of our
functions to give a little bit of a
spark."

So says Tracy Gran, 41, of
Winterport, assistant dean at
Bangor Community College, after
nearly a decade at work with the
growing campus.

Hired in 1972 to teach sociology,
part-time, at what was then
Penobscot Community College,
Gran has seen the school through
two name changes and the
accompanying identity crises, to
today, when BCC gives men and
women what they need to become
what they want.

"Two-year colleges are the thing
around the country," Gran said,
"particularly for non-traditional
students. We've just begun to see a
crest of a wave developing in this
area."

From his office in Acadia Hall,
one of a cluster of buildings at the
former Dow Air Force Base, Gran
talks about Bangor Community
College:

Why enroll at BCC?
"Two-year programs for adults
are just going to expand like
wildfire because a lot of people
have been out of school 10-20 years.
For them, four years at college is
too long and too expensive. They
probably don't need the credentials
to get a job. A lot of students take
community college courses just to
build their confidence.

"The older student has this false
assumption that the 19-year-olds
have more energy and more
discipline. Actually, many of them
are more disciplined students. After
you graduate from college, it's not
the time to never read again, to put
your books away. That's just the
beginning.

What has changed about BCC?
"We have a new 'dynamo' dean
who understands the missions of a
community college — to reach out
to the towns — to go anywhere,
teach anything, and teach at any
time the situation demands it.
"It's a lot more logical in
inflationary times to take one
professor and move him or her out
to 30 or 40 students, twice a week
for 15 weeks than to ask them to
drive here.

Why does a 50-year-old go back
to school?
Most of the older students are
women who want self betterment.
They're not trying to get away from
the doldrums of the house and
family, but they are insecure. That's
typical. They soon overcome their
fear by realizing that they usually
have better discipline than the
18-year-olds. They're not caught up
in courting behavior, dorm life or
drinking. They do very, very well.

Cooperatively with Orono, BCC grants
two-year associate of science degrees in
dental hygiene, law enforcement and
human services (with options in chemical
addiction counseling, child mental health,
developmental disabilities, gerontology,
and mental health technology).

A two-year associate of arts degree is
offered in liberal studies and one-year
certificates are granted in dental assisting
and law enforcement.

What is good for the people of Maine is
good for BCC, says one grateful graduate,
Connie Burgess, 42, of Bucksport. Her
decision to attend college came after she
saw one of BCC's regular television ads.

"After my marriage broke up," the
divorced mother of three teenage boys
explained, "I was on my own and I
wanted to make it. I decided I really
needed to make a future for myself."

The next day, Ms. Burgess telephoned
BCC for information, started classes
within two weeks, and now describes her
two years at BCC as "wonderful,
especially for people who need financial
aid and who need to get their feet
underneath them."

By commuting 40 miles daily, Burgess
graduated from BCC in 1979 with an
associate degree in human services.
Instead of marketing her new skills
immediately, she enrolled in a bachelor's
program at Orono, graduated with honors
in May, and already has two job offers.
Burgess likens the step from BCC to
Orono as "my family's way of raising our
own social mobility."

(continued on page 8)
In many ways, BCC’s policy of if you don’t want to come here, we’ll come to you, has been the catalyst for its evolving charge: ride the crest of the wave which brings two-year colleges to the cutting edge of change for adult students.

A community college is not the same thing as a junior college, explains Dean MacRoy. It’s not the 13th and 14th year of high school, but serves a vital, comprehensive function to the community.

BCC is particularly unique because it houses 60 percent of its own daytime students and transfer and readmitted students from Orono in its five on-campus dormitories. Although about 20 percent of BCC graduates eventually transfer to Orono to complete a baccalaureate degree, most opt to go to work.

The school has a checkered history from the days of Penobscot County Community College in 1972 with about 250 students. At that time, only two major career programs were offered: law enforcement and a barebones human services curriculum.

“We feared we were an unwanted appendage of Orono,” said Assistant Dean Tracy Gran, who has been with the college since he was hired as a part-time sociology instructor in 1972.

“No one knew what to do with us. We were a sister college, but an illegitimate sister and we had a lot of growing pains.”

BCC underwent another name change shortly after that. It was called University of Maine at Bangor, a south campus of UMO, as it were.

In January of 1974, a shift in UMO’s allegiance to BCC occurred when former President Howard R. Neville, in his inaugural address, renamed the school Bangor Community College of the University of Maine at Orono and gave it a solid charge — to develop a liberal studies program fully transferable to Orono.

With that consolidating and affirming move, BCC sprouted beyond Neville’s forecast. The 45 faculty and staff in Bangor have added programs on campus and off campus. BCC’s following is growing noticeably in Penobscot, Piscataquis and Hancock Counties.

It used to be that older students would begin part-time in the evenings or use the traditional channels which the 18-year-olds use. Now, adults can start school immediately by going to school nights in Orono or at outreach centers, or by attending full-time Bangor day classes.

As four-year colleges nationwide tighten entrance requirements for all ages, the “new majority” of older students may take the new access route — open admissions at Bangor Community College.

UMO’s director of Continuing Education, Edward W. Hackett, calls it “forced enrollment” because both the admissions office at Orono and the CED staff refer students to BCC. Many walk in on their own and enroll.

One retired VA hospital administrator, A.L. “Pappy” Gaubert, 71, of Trenton, ME, told the Alumnus, “I hope the university has some realization of how meaningful (taking night courses) was for me.”

Being the oldest student at BCC doesn’t stop him. Gaubert plans to study biological sciences next fall. He takes the winter semesters off because of hazardous traveling.

The woman who taught Gaubert twice a week in Ellsworth, said senior citizens are mature, responsible students, disciplined and “fun to teach.”

“I wonder,” said Hilary Poisson of East Holden, “how many people like Pappy are out there who drive by BCC every day to jobs and think about going to school but say ‘I can’t do it.’ They’ve raised a family and prepare meals every day. That’s discipline. They would fare very well in college.”

“That’s what a non-traditional student is,” Ms. Poisson added, “if they’ve worked 8-4, they have enough discipline to enroll in college.”

Although the short academic life of most students does not lend itself to extracurricular activities, sometimes the most enthusiastic are older adults who commute to and from home.

According to Joyce Henckler, associate dean of student affairs, timid MCC students generally study during the first year. In the second and final year, they don’t bother to take part in clubs or special functions because they are graduating soon.

“That leaves us in a vacuum sometimes,” she said. “This is a good place for a lot of change. They can grow from here to a four-year campus or choose to leave. BCC open options for everyone.”

The identity crisis of which the Bangor college experienced in its early history as a south campus of UMO are over. The clear mission now: to go anywhere and teach wherever the situation demands it.

Community colleges are a product of the times. As more adult students re-enter the classrooms, Bangor Community College emerges from a dynamic stage of development to proffer higher education to anyone who wants it.

“We make the classes what the people want,” says Dean MacRoy, “so they are constantly changing. We are in the midst of a healthy growth.”

The likelihood of BCC’s continued growth is undeniable. One BCC alumnus, 37-year-old Bangor police sergeant, Michael C. Hosmer, who graduated with the first batch of law enforcement officers at the college, would have BCC’s program expanded to four years.

“The laws are changing all the time,” Hosmer said in an interview, “so it’s important to have a background in constitutional law and criminal science.”

It has been said that living institutions either change and grow or fossilize. No doubt, Bangor Community College will diversify and its graduates will contribute innovative ideas to the state.
Six Good Reasons To Consider BCC

Student enrollment at two-year community colleges is climbing. The reason: schools like Bangor Community College offer learning alternatives that are especially appealing if you want to attend a college close to home, or for older, reentering students with families.

Men and women interested in getting job training skills at BCC as well as taking courses that lead to a baccalaureate degree seem to do so for the following reasons:

1. Small, flexible classes. The most inviting reason to sign up for courses at BCC is that the curriculum is designed for part-time students who want to work while going to school. It’s as easy to take courses at night as during the day, and the college if offering weekend sessions for students who work 40 hours or more. The small, intimate classes ease older adults or veterans into college preparatory work.

2. Low cost tuition. Going to BCC is the least expensive way to earn a degree or get specialized job training. The tuition at BCC is $980 a year, somewhat less than at most four-year public colleges. Full-time students are eligible for financial aid, but the majority pay a larger share of their own expenses than do students at four-year universities.

3. Academic consideration. About 30 percent of those who go from high school to a community college are in what the National Center for Educational Statistics calls the “high ability level.”

Students face less academic competition than at academically prestigious colleges. One advantage to that is that good students in two-year programs have a better chance of being singled out as achievers.

On the other hand, tutorial help is available for students with poor skills in reading, English or math. Often one semester of developmental course work will enable a student to handle college-level work.

4. Job training programs. BCC helps people develop marketable skills. Nationally, more than half of the students in community colleges are enrolled in either one- or two-year occupational programs.

Because Bangor Community College is geared to the needs of the local industry, students have a good chance of getting a job after graduation. Many of Maine’s law enforcement personnel and dental hygienists, for example, are BCC alumni.

5. Easy transfer of credits. Students who plan to earn a baccalaureate degree have few hassles when transferring to the university’s four-year program. Many colleges are happy to admit students from community colleges, since the number of prospective high school graduates is declining.

6. Classroom oriented professors. Unlike professors at Orono, the faculty at BCC spend little time doing research or writing; teaching is usually their only responsibility. That’s a big plus for a student who enjoys developing a rapport with educators.

As for faculty credentials, figures show that 80 percent of community college professors who teach academic subjects have master’s degrees and 15 percent have a Ph.D. Most faculty who teach occupational subjects have a baccalaureate degree, and about one-fourth of them have a master’s. Even more important, most professors in vocational programs have worked or are currently working in the field in which they are teaching.
Alumni Headliners

George O. Morton '50 — Winner of American Cyanamid Company’s prestigious Scientific Achievement Award for his work in drug research in antibiotics research.

Dwight R. Holmes '52 — Appointed vice president of international operations of Quigley Co., Inc., a Pfizer Inc. subsidiary which manufactures refractories for the steel industry. Holmes, who is a Waterville native, will head Quigley operations in parts of Asia, Africa and Latin America.

Normand R. Roux '56 — This chemist moves into a vice president’s chair at Fabricated Products Department of Exxon Chemical Americas in Houston, Texas.

Douglas M. Morton '57 — Awarded Northeast Utilities’ Employee Community Service prize for his volunteer efforts in Rocky Hill, CT town politics.

John H. Keegan '59 — Recipient of the Navy’s second highest civilian honor — The Superior Civilian Service Award. The prize cites Keegan for his contributions while serving as science advisor to the U.S. Sixth Fleet in Italy from 1977-79. Keegan, of Snug Harbor, RI, now heads the Fleet Scientific Advisory Division of the Naval Underwater System’s Center in New London, CT.

Fred A. Clough '67 — Appointed director of marketing services for the Salomon Company, an advertising and public relations agency in Peabody, Massachusetts. Clough managed his own ad agency in Augusta, Maine before joining Salomon in 1978.

Barbara Cottrell '71 — First woman director, Maine State Development Office. Cottrell told graduating seniors at a spring meeting of the American Association of University Women, “You’ve got to be aggressive . . . go tell (them) why you’re the best person for the job.”

James M. Walsh, Jr. '75 — Named director of one of the six divisions of the B&M Railroad. Walsh will supervise nearly 275 employees.

Catherine A. McGreavy '77 — The only woman forester in the history of Rhode Island’s forest management team. McGreavy graduated with only three other women forestry majors in a class of 102 UMO students.

Daniel Burns '80 — This North Whitefield, ME alumnus has joined General Electric Company’s Installation and Service Engineering Division in Schenectady, NY.

GAA Offers Scholarships

To encourage students in academic pursuits, the General Alumni Association will award $100 scholarships to each of three students in the Hilltop Commons who show the greatest improvement in grade point average (GPA) from the Fall semester (1980) to Spring of 1981.

One member of the freshman class, and one each of returning sophomores and juniors will receive $100 for their accomplishments. The GAA made the $300 in scholarship money available to the Committee on Encouraging Academic Achievement at the Hilltop. Winners will have their names engraved on a plaque at the Commons.

Four other $100 scholarships will be awarded by President Silverman’s Office to a junior, sophomore, freshman, and two-year program senior who achieve the highest cumulative GPA at the end of Winter 1981 semester.

The academic awards are part of a program called “Upward to Excellence” designed to encourage students to compete academically with each other and with other dormitories. The floor in each building which has the best overall score will receive an ice cream party. The floor which has the best overall score in the Complex will be given a steak dinner.

To the editor:

The Spring 1981 issue of the Alumni is much more interesting than average of the past 30 years. Good work. And good luck in the future.

Edward J. Holland '44
El Dorado, AR

To the editor:

I did not realize until I read your column (Spring '81) that the word “Alumnus” was an inherently masculine name. A check of my Webster’s dictionary also failed to provide a clue as to gender.

I must confess that I have never given all that much thought about the word; if I had to place a bet I’d conclude that it was as neutral a word as could be to describe a Maine graduate.

Paul C. Harris
Dr. Mary Tyler

Distinguished Maine Professor Cited for "Uncommon Ability"

"There is no honor that could have meant more to me," said Assistant Professor Mary Tyler, a zoologist, who became the third woman to be named Distinguished Maine Professor in the 19-year history of the prize.

Cited for her "uncommon ability and worth" at the university's 21st annual Scholastic Honor Societies banquet in April, Dr. Tyler was awarded $1,500, funded by UMO's General Alumni Association.

"I didn't know it was for me until half way through the citation," Dr. Tyler said in an interview with the Alumni.

"When they got to the part about being a runner, and temporarily disabled, I figured they were talking about me." Dr. Tyler and her husband, Seth, await the birth of the couple's first child.

Described as a dedicated teacher, Dr. Tyler was cited for her concern and professionalism in her work with her students.

A member of the UMO faculty since 1976, she earned a B.A. degree from Swarthmore (PA) College in 1971, and an M.S. and Ph.D. in zoology from the University of North Carolina at Chapel Hill. She has authored several articles on embryology and has received grants and fellowships from the National Institute of Health, National Institute of Dental Research, National Science Foundation and the University of Maine.

14 Positive Steps to Health, Says Alumnus

You can improve your overall health, mentally and physically, according to a 14-step guide that one UMO alumnus endorsed for a national magazine.

According to Dr. O. Spurgeon English of Narberth, PA (Class of '22), an emeritus professor of psychiatry at Temple University Medical Science Center, the will to live helps people overcome serious illness.

Here are his 14 suggestions:

1. Wake up on the bright side. Train yourself to spring out of bed enthusiastically instead of lying there after the alarm goes off, or hanging your feet over the side of the bed and staring at them morosely.

2. Start out with positive thoughts. Take 5 to 10 minutes to visualize some of the pleasant things you expect to happen to you in the next 24 hours. Picture yourself in a positive place.

3. Be nice to other people. Make them feel good. It will bounce back to you if you say something positive instead of complaining.

4. Put a spring in your step. If you find yourself dragging through the morning chores, you're also probably dragging yourself through life the same way.

5. Learn something new every day. It can be just learning a new word. But if you set a goal of learning one new thing each day — and look forward to learning it — it will add excitement to your life.

6. Adopt a positive attitude toward your job. If you find you dread going to work, check your attitude to see if that's at the root of your problem. But if you do try a positive attitude and you still don't enjoy your work, think about changing jobs.

7. Take time to smell. Pause outside your door to enjoy the beauty and the colors of nature.

8. Leave yourself time to get to work. If you're worried about being late to work, you'll begin the day in an anxious, grumpy mood. Leave 10-15 minutes early. It will help you enjoy going to work instead of dreading it.

9. Learn to enjoy your traveling time. If you're driving, listen to music that you enjoy. Observe the scenery. If you travel on a train or bus, talk to the people around you.

10. Take pride in your work but don't expect praise from others. There is nothing wrong with patting yourself on the back for a job well done.

11. Congratulate yourself each day for being alive. Remember how much of a gift life is, and that there are many people who are dying and fighting for their lives who would love to be in your position.

12. Picture your body as invincible against illness or injury. Have faith in your body's ability to fight things from a cold to cancer. If you do get seriously ill, see a doctor.

13. Take time out for others. The happiest people are those who unselfishly try to help others without being busybodies.

14. Take time out for yourself, too. There's a part of you that's you and doesn't belong to anyone else, not even your spouse or kids.

In sum, the experts advise: use these 14 steps and you will live longer. You may enjoy fully the life you've got.

Dr. English authored several medical texts including: The Emotional Problems of Living, Psychosomatic Medicine, Analysis of Schizophrenia, and Fathers are Parents Too.
Spring Team Roundup

All five UMO spring teams met competition in early May before recessing for a one-week exam break.

The baseball, softball and tennis teams were set to play at home, while both men’s and women’s track teams went out of town for championship meets. For the tennis and women’s track teams, the May competition closed out their 1981 campaigns.

Coach John Winkin’s baseball squad, winner of ten straight games and sporting a 21-11 record, took on the UConn Huskies at Mahaney Diamond for an important twinbill. The Bears were scheduled to roll with the ECAC New Englands at Holy Cross on May 15. UConn has won 13 of its last 17 games and is on a roll of its own. Coach Any Baylock’s club hit .421 (58 of 130) in wins over UMass (11-10), BC (16-6) and Fairfield (15-7) earlier in the season.

The Bears are tackling a few records of their own. Maine has scored 255 runs, 18 more than the previous high set in 1976. The Bears need just two more doubles to break another standard (61) set by that College World Series entry.

Individually, All-New England outfielder Kevin Buckley (.371) has set one record, tied another and is closing in on a third career mark. His RBI double at UNH brought his RBI total to 82, one better than Russ Quetti (1975-78). That double was also his 31st two-base hit and ties him with John Dumont (1974-76). The senior co-captain needs 12 more hits to tie Quetti’s mark for most hits (145).

DH Dickie Whitten (.304), who leads the Bears in runs scored (31), needed just two more to tie Tony DiBiase (1976) for runs scored in one season.

The Bears’ doubleheader sweep at UNH brought to seven the number of consecutive seasons the Bears have won 20 or more games under Winkin, who closed out his seventh season at Maine this year.

In softball, coach Janet Anderson’s team, 7-6 going into an early May game against Bates, also hosted Plymouth State Saturday for two games to close out Maine’s homestand on their new field this season. The State Tournament was at Bates, May 9.

The tennis squad closed out its 1981 season with a match at UMO against Bowdoin. Maine dropped a close 5-4 decision earlier this season to a fine Bates team.

In men’s track, the Bears faced Bates, Bowdoin and Colby in May as the teams resumed the State Meet competition. The meet gave Maine a chance to defend its title from two years ago, the last time all four teams have been able to schedule the meet. The Bears were fresh from a fine showing at the Dartmouth Invitational, a non-scoring meet held at the end of April. Kevin Tarr (100 meters) and Sherrill Sprague (steeplechase) earned first-place finishes, while Kevin Dyer (triple jump and long jump) came back with two second-place finishes. Others who excelled were Shawn Kuprewicz (long jump and triple jump) and Charlie Greenhalgh (steeplechase).

In another non-scoring April meet, the women’s track team turned in several solid performances. The Bears, who sent four women to the New Englands at BU, competed in the Fitchburg (Mass.) Tournament. The Bears were led by Barb Lucas (shot), who took a second; Marsha Cook (shot) and Tina Berube (long jump), who each finished third; and Dawn Newman (high jump), who came in sixth. Cook also was fifth in the discus.

The New England meet will close out the women’s track season, the team’s first varsity competition.
Swimmers Move Up a Notch to Eighth Place

Al Switzer’s University of Maine swimmers turned in best personal times throughout the Eastern Seaboard Swimming and Diving Championships held in early March at Dartmouth College.

The UMO swim team finished eighth (only three points out of seventh place) for a strong Eastern league showing. Five school records were set during the meet.

“We moved up from ninth place last year,” Switzer said after the season’s records were tallied. “We were up against some of the best swimmers in the east.”

UMO attained a fifth place finish in the 400 medley relay (3:29.3) and also finished fifth in the 400 freestyle relay when sophomore Steve Ferenczy led off with a 46.9 followed by two freshmen — Jeff Smith’s 47.3 and Peter Zeiger’s 47.1.

Junior Chuck Martin won with 46.4. This exciting finish time of 3:07.76 missed the school record by two-tenths. All members of that relay will be returning next season to UMO.

Chuck Martin just missed the top 12 in the 500 freestyle. His time of 436.10 was a personal best and a school record. Steve Ferenczy also set a school record in the 50 free at 21.62 and Brian Strachan (390.45) placed 10th in the one-meter diving.

In the 200 breaststroke, Maine’s Rich Wells established a UMO mark of 59.3 to finish 10th. Jerry Traub also turned in his best time, 1:00.46, even though he did not score. Wells placed ninth.

Martin finished 8th in the 200 freestyle. His time of 1:42.04 is a school record. Pete Zeiger did not place but recorded a personal best of 1:44.90. In the butterfly, Steve Ferenczy and Bruce Johanson each won best times of 52.51 and 52.59, respectively. In the 100 backstroke, Peter Faragher finished 8th (53.53 trials).

The 800 Freestyle Relay missed the Championship Finals (6:56.08), but came back strong in consolations to finish seventh and record the fifth fastest time of the day in that event. Their time of 3:52.74 was just a second off the school’s best.

The 400 Freestyle Relay was the last event and an exciting finish to the meet, according to Coach Switzer. Chuck Martin anchored a relay of Steve Ferenczy, Jeff Smith and Pete Zeiger. Their time of 3:07.76 missed the school record by two-tenths, and the team finished fifth.

Closing his outstanding swim career at UMO was Peter Farragher. Farragher, a UMO ace in both the freestyle and backstroke events, finished sixth in the 200 back (1:54.5). Narrowly missing a scoring place in the backstroke was Martin as he finished 13th at 1:57.2, his best time.

Contributing to the Black Bear point total were UMO divers Brian Strachan and Dale Schultz, who both placed in the consolations. Switzer’s team closed its dual meet season at 11-2. According to the coach, a “strong nucleus of underclassmen” will lead the Black Bears to the 1981-82 season.
Gender-Free Curriculum Builds Fresh Perspectives on Women’s Roles

A fresh perspective on women’s roles and sex stereotypes is coming from the University of Maine, and it is a change that could shake up traditional thinking and revolutionize the way professors think.

Applying a feminist lens to the myriad of textbooks, course materials, teaching methods, attitudes and assumptions at UMO, the administration and faculty are replacing what they call a “gender-biased curriculum” with one which infuses perspectives and scholarship by women and about women.

In a long-range proposal submitted to the Fund for the Improvement of Postsecondary Education (FIPSE), JoAnn Fritsche, director of Equal Opportunity, writes “Neither what is included in nor what is omitted from academic and professional courses is ‘value free.’ The FIPSE grant would continue the work begun by a pilot study now underway at the university.

Growing support for the bias-free curriculum came from all levels of the university, Dr. Fritsche said, even before President Silverman gave his solid endorsement by designating $20,000 for the preliminary work.

Because of concern about gender bias, each of four male/female faculty teams are studying existing courses and are seeing sexism pervade teaching attitudes, assumptions, methods and content, according to the committee reports. Under the direction of President Silverman, The Equal Opportunity office is compiling research materials, journals, grant narratives and curriculum guides for faculty use.

According to Nancy MacKnight, who chairs both the UMO English Department and the Women and the Curriculum Committee, professors must learn how important viewing history and science
from a gender-free perspective is to their own teaching.

"Whatever the outcome of Dr. Fritsche's FIPSE proposal," MacKnight said, "we have made an excellent beginning. The findings . . . will be immediately useful in courses across the campus and will also provide new, exciting avenues for colleagues' exploration of the future."

In his letter endorsing the curriculum renewal, President Silverman wrote "Curriculum content, issues and questions that have been labeled 'women's' studies have profound implications not only for women students . . . but for male and female students and faculty. . . . The problem addressed in this proposal involves our entire culture, and, of course, our whole educational system. . . . Instruction and scholarship are distorted and limited by it."

Although several other universities and colleges have begun to infuse scholarship and perspectives of and about women into introductory level liberal arts curricula, the gender balancing of UMO's courses reaches both undergraduate and graduate programs in liberal arts as well as in life sciences, agriculture and engineering.

Dr. Evelyn Fox Keller, a member of the natural science faculty at the State University of New York at Purchase, told a UMO faculty seminar that the way science is presented in the classroom may evoke a belief that engineering can only be understood through traditionally male value systems.

More women students are considering entering the technologies, said Dr. Fox Keller, a biophysicist, but social and political barriers keep them out.

"The uses of science are affected by the gender of its participants," she said. "If more women were in science there would be a more humanistic use of science."

Dr. Fox Keller and a feminist critic, Dr. Catharine Stimpson, English Professor at Rutgers University, both joined the UMO Women and the Curriculum Project for two spring seminars designed to promote the importance of moving toward a balanced curriculum.

Most women are considered "transgressors" for wanting to enter the domains of literacy and literature, traditionally a man's realm, Dr. Stimpson said. It is her belief that the period of the early 1960s called for a re-examination of culture and that women began to forge a more humane future through literature.

A two-day university-wide faculty colloquium was set for May and eight faculty members have agreed to work this summer on a course materials analysis.

Dr. Martha Tolpin, who studied a similar infusion of women's perspectives into Wheaton College's curriculum, will serve as UMO's project evaluator.

What A Man Thinks About It

by Dwight Cathcart
Associate Professor of English

"I am having to change the way I think about literature, the way I read books and the way I teach, for I thought I knew what male and what female was. We nod when Lady Macbeth thinks she has to be unsexed to be as ambitious (or as monstrous) as her husband or when Hamlet says, 'Frailty, thy name is woman.'"

Many of our ideas which we have inherited are suspect. I think it is probably true that our ignorance of each other as we are male and female has led to a failure in our literary criticism, for we have failed to discover the biases of the writers when they dealt with gender differences, and we have failed to discover the uses to which those biases are put. And we have lost the richness which was available to us all along, the richness of two perspectives, male and female, on our lives.

Can we do this, alter our consciousness this much? Well, sure. Though it is the kind of effort that will go on the rest of my life, I can be comfortable with it, as an English teacher. I have always looked for a more honest, more informed, more sensitive response to words and their meanings and their ability to manipulate my awareness of life.

It seems to me that women have always been there, in the curriculum. It is just that now we must begin to train ourselves to start listening, to hear the specifically female voice, free of stereotyping.

Along the way, of course, it is possible that we may, finally, hear a man's voice, too, free of poses."
Inaugural
by Jack Walas

Chancellor Patrick McCarthy and President Paul Silverman—a medallion that wouldn't stay tied to its ribbon.
hotographs

Greeting the guests.
1910 WALTER SCOTT MERRILL, 95, of Lake Wales, FL, died October 27, 1980. He was graduated with a B.S. degree in civil engineering and received his M.S. degree from Cornell University in 1917. He was a surveyor in Montana, taught at Rhode Island State College and worked for Electric Bond and Share, later Ebasco Services, in New York City for 40 years as a draftsman and civil engineer. After retirement, he was chief civil engineer, hydroelectric, under the U.S. Government aid to Greece. He and his wife were instrumental in building the Church of God in Athens, having been active in Christian work for many years. Surviving are two daughters, five grandchildren, five great-grandchildren and four sisters.

1911 GEORGE ALFRED PHILLIPS, 91, of Groton, CT, died February 15, 1981. He was graduated with a B.S. degree in civil engineering and was a member of Alpha Tau Omega fraternity. He was retired chief engineer of the former Delaware, Lackawanna and Western Railroad Company, a member of the railroad Board of Managers, and was considered one of the nation's foremost railroad engineering experts. He belonged to numerous fraternal bodies, including the Irem Temple of Shriners. Surviving are three daughters, 11 grandchildren and 15 great-grandchildren.

1912 ROLLS ANGOVE SEABURY, 90, of Des Plaines, IL, died June 13, 1980. While at Maine he majored in chemistry and later earned his B.A. degree in music from the University of North Dakota and his M.S. degree from Northwestern University. He taught for 35 years, 28 of them in Illinois. Surviving is his wife, Anne.

1914 ESTELLE INEZ BEAUPRE, 89, of Bangor, ME, died March 8, 1981. She was graduated with a B.A. degree in romance languages and received her M.A. degree from Columbia University in 1927. She was a member of Alpha Omicron Pi sorority. She taught French at Bangor High School for 32 years and after retirement in 1954 she operated a private school of French instruction. Surviving are several cousins.

1914 HAROLD LEE DINSMORE, 88, of New London, NH, died December 28, 1980. He was graduated with a B.S. degree in electrical engineering and was a member of Phi Kappa Sigma fraternity. He had been an executive in a leather mill and machine shop in Fall River, MA and New Jersey, and later proprietor of the Cracker Barrel Country Store in new London. Surviving are his wife, Marjorie, one daughter and two grandchildren.

1918 HARVARD WILBUR BLAISDELL, 82, of Ellsworth, ME, died January 13, 1981. He was graduated with a B.A. degree in economics and sociology, received his LL.B. from Harvard in 1930 and was a member of Alpha Tau Omega fraternity. He practiced law in Ellsworth for 50 years and was a member of the Maine State and Hancock County Bar Associations. He was a veteran of WW I, belonged to several fraternal bodies and was a former director of the Liberty National Bank, Ellsworth. Surviving are his wife, Marion, three children (including Kenneth W. '41 and Ruth Blaisdell Silby '44, both of Ellsworth), six grandchildren, one great-grandchild and two brothers.

1918 CLIFFORD MAURICE WINTER, 84, of Prescott, AZ, died December 8, 1980. While at Maine he majored in engineering and was a member of Delta Tau Delta fraternity. Before retirement in 1961, he had been a test engineer with General Electric Co. in Lynn, MA. Surviving are his wife, Pauline, four children (including Clifford M. '49 of Huntsville, AL), a step-daughter (Barbara J. Kelly '58 of Moscow, ID), ten grandchildren and nine great-grandchildren.

1919 CARL ALFRED ANDERSON, 83, of Thetford, VT, died January 20, 1981. He was graduated with a B.S. degree in forestry and received his M.S. degree in 1925. He was a member of Kappa Phi Alpha honor society. He served as headmaster of Thetford Academy from 1925 to 1961. Following retirement he was elected a trustee and chairman of the executive committee of the school, a post he held until 1980 when he was designated an honorary trustee. In 1965, he was elected to the Vermont House of Representatives and served for three terms until 1970. He had been a trustee and dean of the Thetford Hill Church, served as town auditor, had been an active participant in the Thetford Federated Library and was a member of the town budget committee. Surviving are his wife, Virginia, three daughters, a sister, 11 grandchildren (including Deborah Lee (Tullar) O'Brien '74).

1919 GEORGE ANNAND FAULKNER, 84, of Ellsworth, ME, died December 13, 1980. He was graduated with a B.S. degree in forestry and was a member of Kappa Sigma fraternity. He was a veteran of WW I and later served with the Maine Forestry Service for 32 years. He was a member of several fraternal bodies and one of the oldest members of Annah Temple Shrine, Bangor. Surviving are three children, ten grandchildren and three great-grandchildren.

1920 BENTLEY LAWRENCE BARBOUR, of Brewer, ME, died February 15, 1981. He majored in chemistry and was a member of Phi Kappa Sigma fraternity. He was manager of Swift & Company of Bangor for 26 years, retiring after 39 years of service. He was a former trustee of the Dedham Congregational Church, a member of numerous fraternal bodies and served with the U.S. Army during WW II. Surviving are his wife, Alice, a daughter, two brothers (Cecil Garland '24 of Beaver Dams, NY and Carl Garland '39 of Sandy Point, ME), three grandchildren and six great-grandchildren.

1920 PEARL ERNEST (Johnny) JOHNSON, 83, of Yarmouth, ME, died December 16, 1980. He was graduated with a B.S. degree in agricultural education and was a member of Sigma Nu fraternity. He taught science in secondary schools throughout Maine for 30 years, served also as a principal and coach and played semi-professional baseball in Auburn and other towns. He was a member of several professional and fraternal organizations including service as district governor for Lions International and as a scoutmaster for 15 years.
1920 DR. PHILLIP ALLEN LIBBY, 83, of Carlsbad, CA, died February 10, 1981. He was graduated with a B.A. degree in mathematics and was a member of Sigma Nu fraternity. He received his M.A. and Ph.D. degrees from the University of Southern California and taught there until WW II. He was a Naval aviator in WW I and Commander in the Navy during WW II. He later returned to USC as director of veterans programs where he received national recognition for his work. He retired in 1960 as head of the department of business administration. Surviving are two sons, seven grandchildren and four great-grandchildren.

1921 ROBERT JUSTIN COHEN, 81, of Fall River, MA, died February 15, 1981. He was graduated with a B.S. degree in chemical engineering and received his M.S. degree in 1925. He was a member of Phi Epsilon Pi fraternity. He had been employed in the industrial real estate field in the Fall River area. Among other activities, he had been a former board member of Temple Beth AI, a member of the Fall River Jewish War Veterans Home of the Aged and the Aleppo Shrine, Boston. In 1961 he was honored as Man of the Year by the Fall River YMCA, of which he was a board member. Surviving are his wife, three daughters and nine grandchildren.

1921 RAYMOND JOSEPH CURRAN, 82, of Bangor, ME, died February 28, 1981. He was graduated with a B.S. degree in mechanical engineering and was a member of Alpha Tau Omega fraternity. He was employed as a sales representative for MGM Motion Pictures for 42 years, retiring in 1963. A veteran of WW II, he also served in the 102nd through 105th Maine Legislative Delegation of the House. He was a member of St. John's Catholic Church and the Knights of Columbus. Surviving are his wife, Mary, two sons, his brother, and four grandchildren.

1922 ANNA HARDEN LURVEY, 83, of Orrington, ME, died December 20, 1980. She was graduated with a B.A. degree in German and was a member of Phi Mu sorority. She had been employed for many years as a clerk at Eastern Implement Store. Surviving are two daughters, a sister (Hortense Harden Noel '25 of Haverhill, MA), two granddaughters and five great-grandchildren.

1922 IRVING CROSBY WEYMOUTH, 81, of Alborne, ME, died January 20, 1981. He was a member of Alpha Tau Omega fraternity. He retired in 1956 from the Maine State Employment Service where he had served for 18 years. He had been a member of the War Manpower Commission and served with the U.S. Navy.

1922 ANNIE LOUISE BARTLETT, 80, of Ashland, ME, died January 25, 1981. She was graduated with a B.A. degree in history and was a member of Chi Omega sorority. She had been employed by the Traveler’s Insurance Company of Hartford, CT for 41 years, retiring in 1965. Surviving is her husband, Theodore.

1923 GEORGE VINTON BLANCHARD, 79, of North Palm Beach, FL, died July 7, 1980. He was graduated with a B.A. degree in economics and sociology and received his LL.B. from Boston University in 1933. He was a member of Kappa Phi Kappa honor society and Lambda Chi Alpha fraternity. He practiced with the Apparel Industry for 40 years, serving as president of the Aroostook and Maine State Bar Associations. He was also a member of the American Bar Association, the American Probate Conference, the American Academy of Municipal and County Judges. He served two terms in the Maine State House and one term in the Senate. He was active in civic and fraternal organizations, served as chairman of the Board of Deacons of the Congregational Church of Presque Isle and over the years received numerous service awards. Surviving are his wife, Josephine, three daughters and four grandchildren.

1923 JOHN ARTHUR KENNEDY, 80, of Pawtucket, RI, died August 16, 1980. While at Maine he was a member of Sigma Chi fraternity. He had been a pharmacist in Portland for many years and later a salesmen for the Beacon Brush Co., Boston, for 20 years, retiring in 1965. Surviving are his wife, Jeannette, a daughter, a sister and four grandchildren.

1923 EJRWIN STUART, 83, of Sarasota, FL, died February 6, 1981. He was graduated with a B.A. degree in economics and sociology and was a member of Beta Theta Phi fraternity. He received his Master's degree in education from Bates in 1937. He had been a teacher in the Weymouth public schools for many years. He was a past president of the Sarasota, FL Alumni Club, University of Maine and received the General Alumni Association Block 'M' award for his efforts in that group. Surviving are his wife, Mildred, a stepson (Joseph E. Young '55 of East Windsor, NJ) and two grandchildren.

1923 WALTER ORLANDO WILSON, 81, of Delray Beach, FL, died December 5, 1980. He was graduated with a B.S. degree in dairy husbandry and was a member of Sigma Alpha Epsilon fraternity. He was a retired assistant manager with the Traveler's Insurance Company, Hartford, CT. Surviving is his wife, Meecie.

1924 ROLAND GREELEY DOLLEY, 78, of Brewer, ME, died February 7, 1981. He served with the U.S. Coast Guard during WW II, managed a family-owned laundry in Bangor for ten years and later managed the Bangor Box Company from 1955 to 1961. He retired from the U.S. Postal Service in 1968 and was a member of the National Postal Transportation Association for many years. He had been a member of various social and business organizations and a member of All Souls Congregational Church, Bangor. Surviving are his wife, Ruth, four children (including Michael D. '61 of Bangor, Marcia L. '62 of Chelemsford, MA and Stephen E. '75G of Brewer), and six grandchildren.

1924 HELEN BERNICE WENTWORTH, 78, of Rocky Mount, NC, died February 1, 1981. She was graduated with a B.A. degree in English and received her M.A. degree in 1926. She was a member of the Phi Kappa Phi and Phi Beta Kappa honor societies and Delta Zeta sorority. She held several positions throughout her career, including publications writer for the Bureau of Engraving and Printing, and Department Publications Officer in Washington, DC, and service engineer, Good--Year Aircraft Corporation. She had been a writer and researcher for Consumers Union and at the time of her death was completing a text on problems of the adolescent child. Surviving are several nephews and nieces (including Brian '75 of Hampden, ME, Bruce '63 of Warren, RI, Helen (Canty) Parkhurst '53 of Bangor, ME, Faith (Canty) Peters '54 of Weston, CT and Tamar Parkhurst '81).

1925 REGINALD FLANDERS CRATTY, 79, of Bangor, ME, died November 15, 1980. He was owner and manager of the Penobscot Exchange Hotel until its closing in 1968. He was a member of the U.S. Coast Guard Auxiliary and a charter member of the Penobscot Valley Country Club. Surviving are his wife, Dorothy, four children (including Constance Craty Klemme '47 of Susun City, CA) and eight grandchildren.

1925 FERNALD HODGDON, 79, of Falmouth, ME, died March 2, 1981. He was graduated with a B.S. degree in agronomy, was a member of Alpha Tau Omega fraternity and Beta Theta Pi honor society. He taught school for 37 years, the last 15 years at Falmouth Junior High School retiring from the math department in 1966. During WW II he stopped teaching to work at South Portland Shipyard. He was a 32nd degree Mason and a 50-year member of Blue Lodge. Surviving is his wife, Eunice.

1925 PHILIP CARROLL ROBERTS, 90, of Portland, ME, died November 14, 1980. He was graduated with a B.A. degree in economics and sociology and was a member of Sigma Chi fraternity. He had been a teacher, principal and superintendent, later doing surveying work. He was a veteran of WW I, a member of the American Legion, Masons, 100F and Stroudwater Grange. Surviving is a son (Philip C. '53 of Portland).

1926 CHRISTINE ESTEBER BECKETT, 76, of Calais, ME, died January 2, 1981. She was graduated with a B.A. degree in Spanish. She had been a bookkeeper with ROWEN-Moore Co. and later with Beckett & Co., retiring in 1958. Contributions have been made in her name to the First Congregational Church Memorial Fund, Calais. Surviving is a brother, Paul.

1928 ELIZABETH MCGARRIGLE BURR, 74, of Bangor, ME, died March 12, 1981. She was graduated with a B.A. in English. She had been employed as a social worker with the Massachusetts Veterans Administration before moving back to Maine. Surviving is a nephew.

1928 KENNETH CRAM, 75, of Waterville, ME, died February 23, 1981. While at Maine he majored in engineering. Until his retirement in 1976, he was a utilities engineer for the Maine Department of Transportation. He belonged to several fraternal bodies and was a member of the Congregational Church of Litchfield. Surviving are a son (Earle D. '87 of Avon, CT) and three grandchildren.

1929 ALBERT FIELD GILMORE, 75, of East Walpole, MA, died December 8, 1980. He was graduated with a B.A. degree in English. He had been employed as a social worker with the Veterans Administration. He had been a manager of the paper division for Bird & Son, East Walpole. He was a member of the Wayne Methodist Church. Surviving are his wife, Mae, one son, a sister and three grandchildren (including Alison Gilmore '80 and Scott Gilmore '82).

1929 EDWIN MILLER NYDER, 73, of Carver, MA, died August 30, 1980. While at Maine he majored in forestry and was a member of Beta Theta Pi fraternity. He was a U.S. Naval veteran of WW II and was a member of the Disabled American Veterans of Middleton. Prior to his retirement he was a nursing assistant at the Veterans Administration Hospital in Brockton. He had been a member and deacon of the Carver Baptist Church and a member of the American Legion. Surviving are his wife, Elizabeth, and two brothers.

1929 ELMER ALBERT STEVENS, 75, of Dover-Foxcroft, ME, died December 2, 1980. He was graduated with a B.S. degree in forestry. He retired from the U.S. Soil Conservation Department and was a member of numerous fraternal bodies, including the South Fish & Grange Association and was past patron of the Order of Eastern Star. Surviving are his wife, Lydia, a daughter, two brothers, a sister, four grandchildren and six great-grandchildren.

1930 FRANKLIN LARRABEE, 74, of Bucksport, ME, died January 31, 1981. He was graduated with a B.A. degree in economics and sociology and was a member of Phi Mu Delta fraternity. For several years he operated a family-owned sporting camp on Moosehead Lake, later working for St. Regis Paper Company in accounting and purchasing and public relations. He retired in 1971 after 24 years with the company. Surviving are his wife, Vera, two sons and two grandchildren.

1930 LEE EUGENE WESSELMAN, 74, of Seagoe Lake, ME, died October 19, 1980. He was graduated with a B.S. degree in forestry and was a member of Xi Sigma Pi and Phi Sigma Pi honor societies. He belonged to
Phi Eta Kappa fraternity and was a Senior Skull. He was first employed by the Civilian Conservation Corps and later the U.S. Soil Conservation Service as a supervisor and forester where he was responsible for the construction of nine parks in Maine, including Sebago Lake State Park. He retired in 1970 after 30 years' service with the Portland Montreal Pipeline Corporation as a valuation engineer. Surviving are his wife, Frances, two children (including Albert '65 of Norway, ME), a brother and a grandson.

1932 LEWIS WILLIAM BARRETT, 72, of Arcadia, CA, died November 22, 1980. He was graduated with a B.S. degree in chemical engineering and was a member of Phi Beta Kappa Sigma fraternity. He had been a district engineer with Sylvania from 1945 until 1975. A retired Lieutenant Colonel, he had served in WW II. Surviving is his wife, Anne.

1934 PAUL RAYMOND LANGLOIS, 68, of Tampa, FL, died February 9, 1981. He was graduated with a B.A. degree in English, and received his M.Ed. from Stetson University in 1941. He belonged to Lambda Chi Alpha fraternity and was a member of Phi Kappa Phi honor society. He had been a teacher, guidance counselor and school administrator for 37 years, first in Agawam, MA, and later at Amherst, MA Regional High School where he adopted many innovative programs. He had been chairman of the West-Central MA Headmasters Committee, organizer and treasurer of the Agawam Employee Credit Union and was active in local civic activities including the Boy Scouts. Surviving are his wife (Elizabeth Kimball '34) two children, a sister and five grandchildren.

1935 DANA RALPH McNALLY, 67, of Portage, ME, died August 19, 1980. While at Maine he majored in engineering and was a member of Kappa Sigma fraternity. He was an electronics engineer and was a founder and operated the McNally Sporting Camps on Fish and Musquashaks lakes. Surviving are his wife, Alden, a daughter, two grandchildren, two great-grandchildren and three sisters.

1935 WOODROW LENOX PALMER, 67, of Fryeburg, ME, died February 7, 1981. He was graduated with a B.S. degree in forestry and was a member of Sigma Xi fraternity. He served with the U.S. Army in WW II and was discharged as a lieutenant colonel. He was a territory manager for the John Deere Company of Syracuse, NY, retiring in 1972. He had been active in civic activities, was a Mason, a life member of the West Oxford Agricultural Society, a 20-year service officer for the American Legion and a registered professional forester for the State of Maine. Surviving are his wife, Olive, and a sister.

1936 BEULAH BEAL, 97, of Auburn, ME, died August 2, 1980. She was graduated from Gorham Normal School and received her B.S. degree in Education. She taught and was principal for many years in the Jacksonville, FL schools, retiring in 1948. An elementary school was named in her honor. She was a member of the National Retired Teachers Association. Surviving are several cousins.

1936 BETTINA FRANCES SULLIVAN, 65, of Millbrae, CA, died July 22, 1980. She was graduated with a B.A. degree in drama and was a member of Chi Omega sorority. She served with the Office of Naval Intelligence during WW II, then joined Dean Winter & Company, a brokerage firm, where she remained for twenty years. She was a past president of the San Francisco Financial Women's Club and helped incorporate the Millbrae Players, a local dramatic group. Surviving is a sister (Jane Sullivan Beaumont '37 of San Carlos, CA).

1937 GEORGE BIRDFOOT WEATHERBEER, 65, of Brea, CA, died November 2, 1980. He was graduated with a B.A. degree in English and received his M.A. degree in 1938. He was a member of Phi Eta Kappa fraternity. For several years he had been an instructor at Phillips Academy, Andover, MA. He was a resident of California for more than 30 years. Surviving are his wife, Josephine (49 of Hampden, ME) and his sister.

1938 WALLACE FRED GLEASON, Jr., 64, of Sparta, NJ, died February 10, 1981. He was graduated with a B.A. degree in mathematics and received his M.S. degree from Columbia University. He was a Senior Skull and a member of Lambda Chi Alpha fraternity. He was an Army Captain during WW II and spent 38 years in education, mostly in the New Jersey area. He was a member of the Sparta Presbyterian Church, the Masons, and was past president of the Ashbury Park Kiwanis. Surviving are his wife, Esther, two sons (Robert W. '60 of Dresden, ME and Richard D. '69 of Norway, ME), a brother (John '47 of North Yarmouth, ME), a sister (Beatrice Gleason Dafnost '40 of Sudbury, MA) and three grandchildren.

1940 MARY SCRIBNER DAVIDSON, 60, of Topsham, ME, died September 17, 1980. She was graduated with a B.A. degree in psychology and was a member of Alpha Omicron Pi. She furthered her studies at Bliss College and Bates. During WW II, she was a member of the Women's Army Corps and was a member of the Alpha Chi Rho fraternity. She was a member of the First Congregational Church of Brunswick. Surviving are her husband, Stanley, and a Daughter, Temple.

1940 JOHN THOMAS LITTLEFIELD, 63, of Brewer, ME, died February 4, 1981. He majored in engineering and was a member of Beta Theta Pi fraternity. He served in the Coast Guard during WW II and was the owner and operator of Brooks Brick Company. He was a member of the Pilgrim Orthodox Presbyterian Church in Bangor and treasurer of the Penobscot Salmon Club. Surviving are his wife, Catherine, his mother, two sons, a sister and two grandchildren.

1940 ADA SALTZMAN SILVERMAN, 62, of Narberth, PA, died December 19, 1980. She was graduated with a B.A. degree in English. Surviving are her husband, Harry, her mother, two children (including Dr. James M. '70 of Kansas City, KS), three brothers (William '18 of South Bend, IN, Elmer '44 of Bangor, ME, and Robert '50 of Wilmington, DE).

1941 BLANCHE CONLAN RUSSELL, 60, of Windsor, CT, died August 29, 1980. She was graduated with a B.A. degree in mathematics. She had been employed by the Sylvania Co., Hartford. Surviving are her husband (L. Reid Russell '39), two sons, her stepmother, a sister and a granddaughter.

1943 BARBARA STEARNS JOHNSON, 60, of Hampden, ME, died February 10, 1981. She was graduated with a B.S. degree in education and was a member of Delta Delta Delta sorority. She had been a teacher in Hampden for 17 years and had a lifetime interest in drama and the arts. She was a member of several professional organizations, the Shakespeare Club and the Junior League of Bangor. Surviving are her husband (Philip E. '43), three sons (including David S. '73 of Secaucus, NJ and Michael V. '81 of Hampden), a sister and a granddaughter.

1943 JOHN LEWIS, 62, of Camden, ME, died November 11, 1980. He was graduated with a B.S. degree in chemical engineering and received his M.S. degree in 1948. He was a member of Phi Kappa Sigma fraternity. He was a former professor and department head of paper engineering at Lowell Technological Institute, technical director, Pulp and Paper Research Center, Lawrence, MA and director, Pulp and Paper Development and Research, Birmingham, AL. He had recently been employed in Camden as a research director for Knox Woolen Company. He was a member of T.A.P.P.I. since 1950 and had been a member of its board for three years. He was a charter member of the University of Maine Pulp and Paper Foundation and a director of the North Carolina State Pulp and Paper Foundation. Surviving is his wife, Lucille.

1945 ROBERT ARMAND OUDELLETTE, 57, of Seabrook, FL, died December 19, 1980. While at Maine he majored in engineering and was a member of Kappa Sigma fraternity. He was a U.S. Naval pilot during WW II, received the distinguished flying cross, presidential unit citation and the armed forces reserve medal. From 1950 to 1969 he was a member of the Naval Reserve, retiring as a commander. He was chairman of the Maine Highway Safety committee, a member of the Maine Safety Council, the Knights of Columbus and American Legion of Brunswick. Surviving are his wife, Irene, three children and three grandchildren.

1948 PHILLIP KENT FIELDS, 53, of Fort Fairfield, ME, died March 6, 1981. He was graduated with a B.A. degree in psychology and was a member of Sigma Nu fraternity. He later attended Boston University Graduate School. He was a public relations coordinator at Aroostook Medical Health Center where he received various outstanding achievement awards. He served with the U.S. Army during the Korean War and was a member of the Marantha Church of Presque Isle. Surviving are his wife, Gloria, his mother and two sons.

1948 FLORENCE BICKFORD MacDONALD, 54, of Carabassett Valley, ME, died January 21, 1981. While at Maine she majored in home economics, was a member of Delta Delta Delta sorority and was named azaphonemore eagle. She was employed for several years at the Harvey Boynton Ski Shop at Sugarloaf! She was a member of the Congregational Church and Reddington-Fairview Hospital Auxiliary. Surviving are her husband (Thomas '49), two children (including Nancy '72 of Augusta), a brother and a sister (Frances MacDonald DeCourcy '42 of West Hartford, CT).

1949 MARGARET HURLEY DOHERTY, 90, of Ellsworth, ME, died February 18, 1981. A graduate of Castine Normal School, she received a B.S. and an M.Ed. in education. She taught school in Ellsworth for 35 years. She was active in local clubs and was a member of St. Joseph's Catholic Church and its Women's Council, as well as the Women's Auxiliary of the Maine Coast Memorial Hospital. Surviving are her husband, Leo, and a sister.

1950 BERYL LYON ALDRICH, 52, of Federalburg, MD, died April 20, 1980. She was graduated with a B.S. degree in sociology and received her M.A. degree in social work from the University of Chicago in 1961. She was a member of Delta Zeta sorority. She worked for ten years as regional coordinator of mental health services at Eastern Shore State Hospital, Cambridge, MD. She was a former professor of social work at Antioch College and served as a psychiatric field instructor at the University of Maryland. In 1969 she conducted Project Aetna to promote an Act of Congress for delinquency control. She was a boatswain, receiving the offshore cup in 1976 from...
the Eastern Shore Sailing Association. She had completed 7,310 miles of open ocean sailing in 1975-76. Surviving are her husband (Harry C. '50 of Salisbury, MD), their son and a brother (Arvah Lyon '54 of Hallowell, ME).

1950 WILLIAM JAMES CLISHAM, 61, of Hampden, ME, died February 18, 1981. While at Maine he majored in business and economics. After serving with the U.S. Army in WW II, he was employed by Eastern Fine Paper for 15 years and later was a real estate broker as well as a sub-rural mail carrier in Bangor. Surviving are his wife, Faye, two children, a brother and two sisters.

1950 DONALD WILLIAM DUTTON, 50, of Bangor, ME, died February 12, 1981. She was graduated with a B.S. degree in education. She had been employed by General Electric, as a technical machinist for Hyde Windlass in Bath during 1951-52 and with United Airlines, San Francisco, as an aviation machinist during 1952-53. After graduation from UMO, she taught trigonometry and calculus in schools throughout Maine, retiring in 1973 from Cony High School. Surviving are her wife, Audrey, six children, three brothers and five sisters.

1960 WILLIAM ROSS LOGUERCIO, 68, of West Gardiner, ME, died November 30, 1980. He was graduated with a B.S. degree in education. He had been employed by General Electric, as a technical machinist for Hyde Windlass in Bath during 1951-52 and with United Airlines, San Francisco, as an aviation machinist during 1952-53. After graduation from UMO, he taught trigonometry and calculus in schools throughout Maine, retiring in 1973 from Cony High School. Surviving are two children (including Leah Loguerco Burns '71 of Randolph, ME), a brother, a sister and three grandchildren.

1962 MARY BROWN DICKINSON, 41, of Lisbon Falls, ME, died February 12, 1981. She was graduated with a B.S. degree in education and was a member of Delta Delta Delta sorority. A teacher in the Sabattus elementary schools for the last 13 years, she was also president of the teachers association and a past chief negotiator. Surviving are her husband, Dean, her parents, two sons, two sisters and two brothers.

1962 LOUISE COBB DUTTON, 70, of Cape Elizabeth, ME, died January 13, 1981. She was graduated from Leslie Normal School, Boston, in 1930 and received her B.S. in education. She taught school for 26 years, ten of which were spent in Auburn. She retired in 1971 and was a member of the Maine and National Retired Teachers Associations. She was a member of the First Congregational Church of Scarborough and the Women's Fellowship. Surviving are two sons and five grandchildren.

1962 RICHARD WAREN KNOWLTON, 50, of Deer Isle, ME, died February 23, 1981. He was graduated with a B.S. in education, received his M.Ed. in 1967 and a Master's degree in administration from Columbia University. He was a veteran of the Korean Conflict, serving in the U.S. Navy. He was a member of the Reorganized Church of Jesus Christ of Latter Day Saints, Stonington. Surviving are his mother, Beatrice, two sons, two sisters and four granddaughters.

1963 MATTHEW FRANCIS BARRETT, 67, of Winthrop, ME, died March 23, 1981. He received his B.S. degree in education. He was a teacher and administrator in several Maine schools, served with the U.S. Immigration Service and owned automobile dealerships in Biddeford and Winthrop. Surviving are his wife, Hilda, three daughters, one brother, one sister and a granddaughter.

1963 EMELINE MERRILL ESANCY, 67, of North Vassalboro, ME, died November 11, 1980. She was graduated from Farmington Normal School in 1931 and received her B.S. degree in education. She taught school for many years throughout Maine and later was employed by the Maine Department of Human Services, retiring in 1976. She was a member of several professional organizations including past master and president lecturer of the Grange. She belonged to the North Windsor Baptist Church. Surviving are four children, 14 grandchildren and nine great-grandchildren.

1968 JOHN WENDELL TARR, 34, of Nanaimo, British Columbia, died November 22, 1980. While at Maine he was a member of Sigma Chi fraternity and received his D.D.S. from McGill University in 1971. He practiced dentistry in Maine for three years before moving to Nanaimo where he continued practicing dentistry. Surviving are his parents, Mr. and Mrs. John W. Tarr of Augusta, one son and a sister.

1970 HAZEL BROOKS BLODGETT, 72, of West Brookville, ME, died December 2, 1980. She was graduated from Eastern State Normal School and received her B.S. in education. She taught for 45 years in several Maine communities and during that time served as a principal for 25 years, retiring in 1975. She was a member and past deaconess of the West Brookville Congregational Church and chairman of the Christian Education Committee. Surviving are a son, Dwight, three grandchildren and a brother.

1970 CAROLE LEE GUIL THIBAUT, 36, of Narragansett, RI, died December 2, 1980. After receiving an associate degree in chemical engineering and paper option she worked as an industrial research assistant. She was graduated with a B.S. degree in education and would have been awarded a Master's degree from the University of Rhode Island in January, 1981. She was a member of Alpha Delta Pi sorority. She had been a research analyst in the CRDC department, and was listed in the Who's Who Among Students in American Colleges & Universities, 1969-79 edition. Surviving are her husband, Douglas, two children, a sister and a brother. Donations may be sent in her memory to the Steve Gould Scholarship Fund, Development Office, Crossland Hall, University of Maine, Orono, ME 04469.

1979 CAROLYN HALL GORHAM, 25, of Old Town, ME, died February 14, 1981. She was graduated with a B.S. degree in special education and was employed as a counselor for the Family Advocacy Council, Bangor. Surviving are her husband, Douglas, two children, a sister and a brother. Donations may be made in her memory to the Maine Baby Fund, P.O. Box 1941, Bangor, Maine 04402.
A RETIREE WHO CARED — Roy Peaslee, 90, who once said he was as "renewable" as the trees on his farm, talks here with a staff member of the Concord, NH hospital where this alumnus (Class of '14) volunteered at the Patient Activity Center. As this issue of the Alumnus went to press, April 5, Roy Peaslee died at the hospital where he worked. His full death notice will appear in the fall issue. According to Peaslee, who also managed a tree farm and garden in Concord, "I have an advantage as a volunteer since I've lived here quite some time and know so many people. With a patient, well, I try to build a bridge between that person and myself. We get to talking about relatives or friends in the town that we might know — some isn't very good and some isn't very bad. You do get rebuffed by a patient every now and then but I look at it as just the beginning of the baseball season — I've still got more chances up to bat." In a letter to the Maine Alumnus, Peaslee said he was grateful for such retirement "blessings" — fresh fruit and berries, a picturesque place to live, and New England baked beans every Saturday night.

Orono, ME 04473

I call your attention to the article in the spring issue of the Alumnus bestowing on our class president the honor of renaming North Hall. It is now the Charles E. Crosland Alumnus Center. Congratulations! Charles, Noel Godfrey has been honored by the Calais Rotary Club, who made him a Paul Harris Fellow of Rotary International. This is the highest honor the Rotary, with nearly one million, can bestow. Noel recently gave his 56th talk to the Calais Club. The profile and picture of Frances Wood which appeared in a recent issue was clipped by her dentist in Newport, RI and now adorns the wall of his office.

I recently spent a week in St. Petersburg, visiting Marjorie (Burden) Whitcomb '20 and son John. I attended an alumni luncheon in Sarasota and saw many old friends including Ruth (March) Dolloff. I was happy to meet Dr. Silverman, who was the speaker. I called on many old friends, one of them the 102-year-old widow of the late William E. Barrows, formerly head of electrical engineering at UMO. On the way home I spent two days with my grandson, David, and his family, returning to Hahira, GA on March 30, to find my daughter-in-law in the hospital, waiting for surgery. Her husband, Fred Glover '49, away preaching in Montesuma, GA, left me as head nurse.

After visiting other family members, I arrive back in Orono May 15.

18 Mr. Francis Head
The Village Inn
Lenox, MA 01240

Fern Ross (Mrs. H. Stanley) Weymouth reports: With no practice teaching in those days, she started in Home Ec. at M.C.I. in Pittsfield. Board and room and supervision in girls' dormitory. Two years, and she went to Deering High, brand new building. Summer courses at Orono. Long enough for some students to teach under her, now head of department. Established the first course in pre-nursing, affiliated with Portland General Hospital. Left to marry a high school friend with a step-daughter. He was in Highway Dept. in Augusta. After her husband's death they moved to an apartment, still a refuge from Florida's heat in summer. She was a member of an honorary sorority for women teachers. She now has no car. Neither have I. It cramps.
i

First, thanks to you who sent me messages of goodwill. Your thoughts added greatly to my recovery. I'm home today for the first time in two weeks.

From Lucy Kilby: "After my B.S. at Maine I earned my master's at Columbia U. I taught one year in Everett, MA and for the rest of my career I taught science in Maine. In 1935 I received a teacher's medal from the Valley Ford Foundation. I retired in 1951 and have traveled much through the years. I served a term as librarian of a new school. I am retired now and use a walker at home in Eastport."

Marion Bragg: "I am taking physical therapy and learning to walk again. That will take four more weeks, I suspect. I am very thankful. With my brother Herbert '25 (winner of the career award) I traveled to California and Europe. I have exhibited some of my own sketches, watercolors, pastels and charcoal, some of which I purchased to buy a summer apartment to share with my friends. Herbert and I have lived in a retirement community since 1972."

Says Dot (Hart) Cook: "Off in April for my 1st trip to Europe to be with Dick who is once again stationed in Munich, Germany. Peg Blieden always sees Dot off. They take several hours to catch up on current news. Peg and I met at North Hampton, Brookline, MA 02146. Peg was our first class secretary and served 25 years.

Percy Blackwell: "I still have a huge garden here in Oakton, VA, where I help my wife with freezing and canning the fruits of our labor." We plan to spend a couple of months in Florida visiting our daughter and her family — six grandchildren there. In July, 1980, I became an octogenarian.

Francis Foley (Mike), who is blind, dictated the following: "For 20 years I was manager of the northern market district of the New England Milk Producers Association. In 1945 I returned to Maine and since 1959 I have devoted most of my time to our 'drive-on' on Route 1. The business goes on as a family affair. I spent 15 years on the planning board and five years on the Greater Portland Planning Foundation. I have one daughter and two sons." (Mike was once our class president).

From Mildred (Bissell) Wess (Billee): "I am legally blind, but I have enough vision to live alone in my apartment with the help of my daughters. My family is somewhat scattered but when we get together there are 20 of us. I belong to a local club here in Goffstown, NH. They furnish me with many friends. I applaud the loyalty of you, George and Roger for what you do for the class. I send greetings to all who remember me."

Verna Norton writes: "I am 86 years old and somewhat crippled with arthritis, but I get around. Last winter I took my sister and niece through the Panama Canal on the Queen Elizabeth II. I am looking forward to the summer of gardening. And I am also greatly interested in politics. I write to my congressman, entertain our 'know your neighborhood club' every month because I have the health and a large house."

My humble apology to Arthur Chapman for the error in the Spring Issue. When I wrote that number, I was a patient in a nursing home and wrote with difficulty. I was not able to come to reunion but I shall continue to "nag" you for news for the fall issue. We have good friends at the Alumni Office who are always ready to serve us. Call on them when you are on campus.

Leslie W. Hutchins 20 Alan Road Waban, MA 02168

We are saddened to report that Leslie Hutchins died Thursday, April 25, just as this issue was going to press. We extend our deepest sympathy to the family.

I apologize for missing two issues and having no words in the column for our readers in the class of 1922. I just saw a girl kiss a boy in front of my house so I know that summer is not far away. Let us think of springtime and put a little more jump in our lives even if it takes our last breath. As your bloodstream moves faster than before, go and send us a few notes for the column as did two other loyal writers, Ivan Craig and "Doc" English.

"Doc" writes that he still plays golf and tennis although he is not very good at either and never was. "It's important that we play the game with someone who plays at our level. In that way, we don't frustrate ourselves or others unduly. My wife and I are living happily at our home in Northberth, PA."

"I practice from 40 to 50 hours weekly. We keep excitement in our lives beyond the day-to-day life at home by taking a vacation for a week, more or less, four or five times a year. Every year that we return to my home in Presque Isle, we drive through the Maine campus and note its beauty and any improvements I pass through a wave of nostalgia at the good and beneficial time I spent there between 1918 and 1920. It's been a wonderful life thus far and one of the best parts of it was to attend the University of Maine."

Ivan has been retired for 17 years from Bell Telephone of which we both work. We keep busy ever since. At the time of my retirement I was on the Borough Council and remained on it for about eight years. I have also worked for Dan & Bradstreet, the Red Cross, drive for Meals on Wheels, am a member of the Civil Service Commission and like many others, I am active in Masonic work, church, etc. I have sisters living in Idaho, Florida, a son in California and grandchildren in Michigan, California and Montana, so we have an excuse to travel some."

Ruth Spear Rich Prides Crossing, MA 01965

Arthur E. Wilson was guest preacher on Forefathers Sunday, Nov. 23, at the First Congregational Church. His topic was "We Also Are Foreparents." Formerly of the Beneficent Church in Providence, RI, Dr. Wilson served as interim minister of the First Congregational Church from the fall of 1970 through the spring of 1971. He is currently the president of the Congregational Christian Historical Society. Dr. Wilson holds honorary degrees from Brown University and the University of Maine. He was a delegate to the World Council of Churches from 1954 to 1960. He had a year's internship in Adelaide, Australia. In 1967 he received the Roger Williams "Man of the Year" award from the Providence Chamber of Commerce. He is the author of Paddy Wilson's Meeting House, Weymouth Bridge, and Churches of Foster, R.I."

Ethelyn (Percival) Howard 112 Eastern Ave. Apt. 22 Augusta, ME 04330

We extend sympathy to the families of Bernice Wentworth, Roland Dolley and Frank Burke. For the second time, Charles Whitten had a hip operation. He gets around fine now. Julian Merrill wrote about the Maine Alumni meeting in March in Sarasota, FL with 236 present to hear the new Univ. president, Harold Durgin and wife who winter in Venice, Oscar '26 and Leah Wyman were among those present. President Silverman gave an excellent talk about the aims and activities at UMO. George Stackpole had a heart attack recently, but is recovering nicely. Julian and Elva called on the widow of Ervin Stuart '23 in Sarasota. He had a stroke last September and died Feb. 23. Wines Julian wrote, they were having a tornado watch that day. Cecil Garland lost a brother Feb. 15, Bentley L. Barbour, Class of 1913.

Please send me news before July 1 for the next Alumnus.

Mildred (Brown) Schrumpf 84 College Ave. Onoro, ME 04673

Veina Oliver keeps busy as vice president of the Meals for Me program, as well as civic and church duties in the Onoro and Bangor area. At the annual meeting of the United Way, in Waterville, Chet Baker was...
Congratulations to our class president, Oren Fraser and his wife, who celebrated their 50th wedding anniversary. An open house party for this occasion was arranged by their daughter, Barbara Czavinsky, of Orono. The Frasers received hundreds of cards and guests came from all parts of New England.

Mary Larkin Dunn, of Sharon, MA is a former president of the Sharon Women's Club. She has two daughters and two grandchildren. Kern Chaplin, now retired, lives in Cornish, ME with her sister, Leola Chaplin Ellis '17.

In case you are wondering what happened to the material you sent me I can only report the column was clipped. Our new editor had a pair of Reagan shears.

First the remaining Christmas letter news. Florence Poor McDonald still finds time to tutor high school pupils in English. Florence's three children are all teachers. Paul teaches in Newport; Lois teaches music and German at University of Southern Maine and Stephen is a math professor at the University of Southern Maine. "It pleases us much that the grandchildren are involved with music. The six local kids all have violin lessons. On Wednesday evenings several of them play in the Young Peoples String Consort, a training orchestra sponsored by the Portland Symphony."

Ruth Grady writes that she has to watch her step and not overdo. She is active as Citizen Chairman in Extension Service and is a senior volunteer in the Retired Senior Volunteer Program.

Two California news items: A visit by Hitchings Allee enjoyed a trip to Mexico City when her husband was an honorary delegate to a conference of OAS (formerly Pan American Union). "It was fun to see old friends, mostly from Costa Rica where we worked for fourteen years."

Xmas found Betty Collins battling a month-old bronchial attack. She hopes to join up with the Allees for a desert tour later in the spring.

With Red Culbertson it is business as usual. "I should be thinking about retirement but think I would soon tire of doing nothing."

Selden and Ruth Pearce wrote: "Sparked by the King Tut exhibit we chose Egypt and Greece for our annual vacation. By mid-June we were in Maine entertaining our grandchildren. With the first hint of frost it was back to Pittsburgh. Selden has had health problems but 'rises above them.' Uter surgery two years ago and last year a slight stroke in the optic nerve cost the sight in one eye."

Marada Johnson continues a busy life doing book reviews, promoting Bird Club activities, and for the fourth year, chairing the state church convention. The December issue of Maine Life offered "Handwriting Was My Hobby" by Sylvia Kuson. Delightful reading as always.

When Henry Waldo called on us last year we learned of his negotiations involving the Northern Railroad. A recent letter and a Newcomen Society Report, "Headlights and Highlights — The Northern Railroad of New Hampshire 1844-1849" brought us up to date on his endeavors. In 1890 the railroad was leased to Boston and Maine for ninety-nine years. Henry as a long time director of the Northern was active in restoring its assets when the trustees for the bankrupt Boston and Maine were about to disaffirm the lease which called for the return of all Northern Railroad property. This being impossible the lease was renegotiated with payments to Northern stockholders and annual payments plus full title to any assets of Northern when the lease was terminated. In June Henry's grandson's graduation in Millinocket will not prevent his being at Orono on reunion weekend.

Hope to see many '27ers at the June 6th Senior Alumni Breakfast and Annual Meeting. Let's get together and discuss what we want to do about our 55th reunion. Do we want one? Let me hear from you.

Quality...Since 1887
Clothes from Dunham's of Maine have always been considered an excellent investment. Our collections, chosen from the finest merchandise available in the world, reflect a commitment to quality, tradition, elegance, and classic good taste.

Write today for your free color catalogue or call 1-800-341-0471. In Maine call 1-800-492-0659.

Matthew Williams
171 Pleasant Street
Dover-Foxcroft, ME 04426

You may have noticed the death notices in the spring issue of the Alumni in respect to George F. Dudley, Dana Bliss Brockway, and Charles Edmund Doole.

Needless to say we will miss these members but most especially George since he was such a loyal class member.

Horace Bell suffered a heart attack in August of 1979 and due to its effects he and his wife have moved next door and are living with their son. We will miss seeing Hod running the old Country Store at the State Museum in Augusta. Hod had been class secretary since his graduation from the University and has turned his records over to the Library at the University.

Harry Grant writes that he and his wife plan to spend six months in Massachusetts and six months in Florida. He and his wife have 4 grandchildren — two in Maine and two in Massachusetts. His home address is Bridgewater and in Florida he stays at 1213 Grovedale Court in Holiday, FL.

John Hobart Pierce says he shifted courses four times while at the University, the Pram confirms this! After working for John Hancock Mutual Life Insurance Company he retired to farming on the Mayflower Hill Farm in Waterville, where he and his wife, Katherine, plant and till 30 acres of farm produce. With a marriage lasting 52 years and having produced six children during that marriage, he now enjoys 19 grandchildren and 17 great-grandchildren. Any class member able to top that one? Their youngest daughter was graduated from the University in 1974.
Al Parker wrote me last fall and spoke of the death of his daughter in Florida last June. Our sympathy for this loss.

Lloyd Boynton is at the Lakewood Nursing Home on Kenneth Street in Waterville. Doc Pierce reports that Lloyd welcomes people to call on him. Thanks to Harry and Al and Doc for your notes and letters. Now how about the rest of you sending along some news of your family or your fortune, or mis-fortune, as the case may be?

29
Reginald H. Merrill, Sr.
105 Colonial Circle
Brewer, ME 04412

The sympathy of the class of 1929 is extended to our immediate past president H. Richard Izard, whose wife, Evelyn, died on December 9, 1980.

We were also saddened to learn in March of the death of Ellsworth attorney Charles J. Hurley, 72. Two Maine governors had appointed Hurley judge of the Ellsworth Municipal Court and he also held many prominent civic and municipal offices. Charles was on the executive board for the 50th reunion of our class.

The Rt. Rev. D. Burkill was elected President of Mission Valley Golf and Country Club, Sarasota, FL and writes that he may be "the only left-handed bishop who is president of a golf club in the United States." He also consultant to write the pension fund of the Episcopal Church and conducts retirement conferences for clergy and their families.

Our class president, Col. Frank F. Bostrom, writes: "My air force bomb group, the 490th, had a reunion every two years. This year it will be in Orlando, FL and Ruth and I will attend. This is also the beginning of the gardening and log cutting season for me."

Edwin T. White was our proud 50th wedding anniversary. Our sons, Dr. James F. White, Dr. Davis A. White and Professor Stephen T. White were here for the occasion. In September we drove through England for ten days and visited the White Manor House which the British government is restoring. It was acquired from Queen Elizabeth I in 1557. We joined a tour in London for Belgium, Austria, Germany, Hungary and Czechoslovakia. I still play tennis five times a week.

From Wisconsin Rapids, WI, George and Ruth (Greenlaw) Sawyer tell us: "Ruth Greenlaw and George W. Sawyer had a 60th wedding anniversary at the 49th, a week after our graduation. We celebrate our own wedding anniversary at about the same time as our class reunions, so we don't show up in Orono! I retired as sales manager of a division of Consolidated Papers, Inc. on Dec. 31, 1970. We both love to travel and have visited Greece, Italy, the Mediterranean, Japan, Hong Kong, Hawaii and Mexico a couple of times. The last few years we spent the cold weather in Angorea and 6-8 weeks at York Beach, ME in the summer time. We have three children and ten grandchildren. All of our children graduated from college. Elmer and Anne Horton are looking forward to having their daughter and her family, who live in Salzburg, Austria, visit them for a couple weeks in July. Harold Pierce reports that he and Dot are well and doing a quiet life. They both play bridge, are active in Meals-on-Wheels and transport patients for the cancer society. Last summer they went on a bus trip to Montreal, and are looking forward to our 55th reunion in 1984.

Donald W. Brockway of Hamilton, Ontario, is retired after working for 22 years as Campaign Director for the local United Way fund-raising organization. Since retirement Don has done volunteer work as a member of the Big Brother Association, the YMCA and as treasurer of his local church.

Don writes: "Mary (Rosey) Pero, a retired school teacher who taught sewing and home decorating in a local high school. She still teaches a class of young mothers in sewing children's clothing one evening a week. Ours is a second marriage (we were widow and widower). Eileen has two daughters and I have two sons. Between us we have eight grandchildren — six granddaughters and two grandsons. All our "family" live in this general area (the gorgeous Great Lakes region — unique in all the world!) so we see them from time to time at very happy and joyous family get-togethers. We have traveled a lot since our marriage. In 1980 (June, 1980) took us to the Passion Play in Oberammergau, Germany. The play took us through Holland, Germany, Austria, Switzerland, France, Belgium and England. Our summer activity is lawn bowling at the local Hamilton Thistle Club. In the winter we play bridge, teach school and attend local plays and concerts.

30
Jeanette (Roney) Pero
11 West End Avenue
Westboro, MA 01581

Greetings from Florida! We had a good winter. We stayed in Tampa, next door to our treasurer Horace Croxford and his wife Isabelle (Robinson) ’32. We attended three UMO Alumni meetings and saw several of our classmates. Nine of us met in Sarasota in March to hear our new President Silverman.

Attending were Eugene "Red" Vail, Ruth (Taylor) Madsen, Eunice (Barrow) Powell, Polly Dunn, Horace Croxford, Tom Smith, Bea (Carter) Cushman, Ray and Norma (Green) Hull, and Harold and Jeanette (Greenlaw) Sawyer. It was good to see them all and many from our neighboring classes.

In earlier winter we had a pleasant visit with Polly Dunn who has a winter home in Englewood, N.J. Ray and Norma Green also visited here.

I am happy to report that Ruth Taylor Madsen was able to be with us again after a serious illness.

Congratulations to Dorothy (Mayo) Morris who has been granted the Distinguished Service Award by the Honoraries Degrees Com. of Southern Ill. Univ. where her husband was President for many years. Dot represented SIU at Brigham Young Univ. Hawaii campus last summer. She had vacationed in Hawaii during the winter months. Both her sons are college professors. Peter, who is on sabbatical from Shepherd College, WV, has been a visiting professor at SIU this school year.

Leaman Berry of Tybee Island, GA is a past president and member of the board of directors of Tybee Island Civic Club. He is also a past president and director of the Tybee Museum Assn. and a trustee of the Tybee Island Foundation. Sounds as if Lee keeps busy these days.

A note from Harold Lloyd reminds us that a year has passed since we became members of the Senior Alumni. He writes "1930 class reunion in Orono last June was superb. Kudos to Frank McGann and his many helpers. Can we do it again some time before we get too old to enjoy it!"

Horace has asked me to remind you to put (Benefit of the 1930 Reunion Fund) on your yearly alumni contribution.

Have a good summer and keep in touch.

31
Francis McGuire
59 College Avenue
Orono, ME 04473

In late March your secretary had the good fortune of attending the Sarasota Area University of Maine Alumni Association luncheon meeting. It was obvious from the numbers present (238) that most University retirees wind up in Florida, either as residents or as "snowbirds." The Class of '31 had the highest number present (16). A most enjoyable gathering, particularly so as it brought together Manners who hadn't seen each other for upwards to fifty years.

Our own Sam Serak was honored (yet again) in late 1980 by the Bangor Daily News for his ceaseless efforts on behalf of athletic scholarships for University aspirants, especially so, since Sam "retired" in 1971 from active work at the Orono campus.

Now that "yours truly" has concluded his stint as class secretary, he wishes to thank all of you who took the time to write for the column on occasion. It was an enjoyable experience. Au revoir!

32
Linwood S. Elliott
85 Leighton Rd.
Falmouth, ME 04105

In March I sent out some letters to various classmates begging them for news. No letters so far (April), so like the Chaplin in the Senator who had no audience, I'll have to pray for myself.

Don Lester is recovered from his recent bout with a very sticky skin trouble and we hope he made it to the luncheon-reunion. Reports will be in the Fall issue, not the Summer issue.

Yours truly, since 1971, has had an eye cataract in his shooting eye which has been getting worse; so that daylight and dark are the only objects noted by that eye. When riding with me, my wife has to scream when a car passes me on the night. Thanks to Florence '31, I am still alive and kicking.

Yesterday the eye Doc told me the details of an eye lens replacement. Florence's distant cousin has had one lens already replaced. Although she is over 80 now she sees as well as at sweet sixteen.

There are many good reasons why you should look at Gould Academy.

The first: it's in Maine!

More than a third of our students come from Maine. They can't tear themselves away. The rest come from all over the world to enjoy what Maine and Gould have to offer.

We don't have to tell you about Maine It's just a great place to live. . . and to learn.

Gould Academy is an intellectually challenging coeducational community of about 200 students and 30 adults committed to the idea that education is a serious yet enjoyable pursuit.

We offer courses in all the traditional preparatory school subjects, plus some unusual ones such as mineralogy, international relations, literature of the sea, and glass blowing. Students can pursue their interests in depth, in sequential programs that develop their learning skills. Our exchange program enables students to spend a term in France, Germany, or Mexico.

And of course, we make the most of the cultural and natural advantages of our location in the Mahoosuc range at the edge of The White Mountain National Forest.

For further information, write:
Edward Hitchcock, Box M, Gould Academy, Bethel, Maine 04217.
Said the Doc, all you have to do is report to the hospital the evening before, we will have a talk, then tomorrow you climb up onto the table & I will give you a local anesthetic. When do I go home, said I, and the Doc said tomorrow. And then he added, in about 3 weeks you should be able to move your head without worry! (If you want more of this DON'T send me any news of yourself!)
Polly Weatherbee and Art '39 are living at 1012 E. Del Webb Blvd., Sun City Center, FL 33570, enjoying warm weather and meeting with Maine friends, Joe and Ruth Hamlin ('38 and '39) and Frank and Mary Wright Donnini ('38). Polly and Art will return to Kennebunk, ME in April.

Eileen (Flanagan) Baragwanath says that she and Barry are senior citizens of Westchester living in Larchmont, NY. Eileen still does speed ice skating at the practice rink for the New York Rangers! The B's have two daughters and two sons and two grandchildren.

Betty (Jones) Benjamin lives at 2548 Ward Drive, Lakewood, CO 80215. Betty has been 19 years as a teacher and counselor and is now coordinator in Early Childhood Education. Betty enjoys her four grandchildren, square dancing and traveling abroad. Betty has four sons and one daughter. She says she spent the first 20 years after graduation as a mother, homemaker and assistant on a chicken farm, and now pursues a career in education for farming.

Bob Cameron is also in Colorado, where he is Executive Director of the Denver Urban Renewal Authority. Bob likes to hike, play golf, play bridge, mow lawns and shovel snow. Bob and his wife, Lee, have lived in Colorado for 33 years, have one son, Douglas. Bob writes that he works closely with Buzz Sherry '38, who also lives in Denver.

Gordon Carter lives in Rochester, NY, where he is Supervisor of Engineering and Maintenance for Eastman Kodak Company. Gordon is a retired Captain in the U.S. Naval Reserve and planned to retire after 40 years with Eastman Kodak in 1980.

Mary Curran lives in Chestnut Hill, MA and is presently Office Manager for Southern Railway, the third railway she has worked for. Mary likes to read, travel and is active in organizations related to her work.

Peg (Peaslee) Danforth and husband Ralph live in Manchester, NH and have a son, Andrew. Peg likes to knit and sew and serves as a volunteer at a center for the retarded.

Estelle (Lawrence) Emery was at reunion. She lives in Gray, ME where she teaches home economics. Estelle's husband, Edwin, died in 1975. She has a son and daughter, Sally '68 and a grandchild.

Stanley Gates was farm superintendent of Erdenheim Farm in Lafayette Hill, PA for 34 years, now lives in South Paris, ME.

Margaret (Steinmetz) Mosher in real estate with her husband, Ralph, in Auburn, NY. Margaret was at reunion. The Mosheres have three children and a grandchild.

John Maines and wife Julia '45 were also at reunion. John retired from Great Northern Paper Company in 1972 after 32 years. John now farms and carves duck decoys. The Maineses have two sons and three daughters — all graduated from UMO except one son who graduated from UNH. John and Julia live in Brewer, ME.

Marion (Fitzgerald) Murphy's husband, Paul, died suddenly in October. Our deepest sympathy goes to Fitze and her daughter, Pat. Fitze lives at 165 Fullerton Ave., Newbury, NH 03255. She was to spend Christmas in California with her daughter, Pat, and husband, Jerry Casman.

Roger Trask lives in Brewer, ME. He retired from the New England Telephone Company after 32 years working as an engineer. The Trasks have a son and a daughter.

Betty Whitney '41 wrote that Cliff died suddenly the day before Thanksgiving 1979. Cliff and Betty had planned to attend our 40th reunion in June 1980. Betty has a son living in Vermont, two daughters living in Alaska and one daughter in Brestwood, NH. We extend belated sympathy to Betty and her family.

My best wishes for a happy summer — I hope to get a bit of relief from Georgia by escaping to New England in July or August. It's warm here!
management positions with ALCOA in Messina, NY and Pittsburgh prior to their retirement.

When speaking to Maine legislators in April, Bucket Taverner ran into Esther (Wright) Cousins and hubby Nat ’42, Nat, one of Maine’s best known schoolboy coaches and teachers retired and was elected a Representative in the 110th Maine Legislature.

Dr. Frank P. Gilley
Box 177, RFD #1
Brewer, ME 04412

As this column is written we have to remember when it will be read. Here in Eastern Maine we had a short but strong winter. By mid-February we had a thaw that we thought was temporary, but the weather kept getting better and better. Great for us country people that cut and prepare our own wood. Tough for snowmobilers, skiers and ski areas.

Now in early April we are seeing rhubarb sprouting. Ice out in the whole eastern area. Snowmobilers and snowblowers being put away and rototillers and boats coming out of the barn. Enough philosophy and on to the news of ’44.

It’s nice to hear from Al Hutchins and his good wife Edie who was classmate in that two outstanding members of ’44 have returned to God’s country to retire. Al McNulty to Owls Head and Jean Huggafeld to Camden.

From the Wenochop Times of 12/10/80 we see that Assoc. Prof. Richard Hale—Wood Technology—UMO, has been honored by co-workers as a recipient of the School of Forest Resources “Formula Award.”

Bob Peterson writes that he has been issued two patents that he hopes will pay off some day. Bob is a Professor of Chemistry at Loyola Univ., New Orleans, with 18 years of tenure. Good luck, Bob.

From the Fort Fairfield Review comes news that Harris G. Whited of Fort Fairfield has been named sales representative for Maine Potato Growers International Organization. Harris has been a farmer for 24 years and brings considerable experience to his new position with sales machinery in Aroostook County. Harris is married to the former Frances Houghton and they have four married children.

Just before going to press, we received a release that Gerald Tabenken, President of H. Tabenken & Co., was named by President Carter as a member of the President’s Commission on Executive Exchange. Congratulations, Jerry. Best to you and Ruth.

This winds up the news for the summer edition. We hope that during the good months ahead you always have a fair wind at your back and sun overhead as you go sailing, golfing, fishing or gardening. We at Tip Top send our best to all.

Babs (Haines) Pancost
Edgebrook Drive
Centerville, QI 04459

The Pancost family is still celebrating the arrival in February of our first grandson, after 100 years of girls on my side of the family. I had a great trip to San Francisco to meet him and can guarantee that boys are as nice as girls (and as beautiful, intelligent, etc.). A note from Opal (Cox) Gray reports that she and Lee ’49 have homes in Clarks Summit and Huntington Valley, PA. Lee is president of Anemostat Products, and their four children are all established in life.

Hartlottt (Daw) and Howard Cousins still live in Bangor. Howie is now the vice president of marketing for the Bangor & Aroostook Railroad Co. and was elected president of the Greater Bangor Chamber of Commerce this past winter. Son Douglas also works for B&A.

Wendell Johnson, vice president, Yankee Atomic Electric Co., Westboro, MA, was awarded the

Bernard F. Langer Nuclear Codes and Standards Award from the American Society of Mechanical Engineers at the Society’s 1980 winter annual meeting. Wendell has been with the firm since 1957 and is now responsible for all phases of engineering, construction, project management and quality assurance for the company.

After 33 years as a rate engineer for New York Telephone, Charlie Camack retired to upstate New York. Apparently, NYTEL is “in the blood,” as both Camack sons work for the company.

Dick McFarland, Westport, CT, has been an executive for Heidrick and Strzaanz, Inc. for 10 years and enjoys sailing and skiing in season. He reported seeing Cliff Davis of Sanford, ME.

Myra (Sawyer) Andrew now lives in Manassas, VA with her retired husband, Robert. Like so many of us, they are enjoying their grandchildren and a quieter life.

Hub Ranger, 1353 E. Goodrich Lane, Milwaukee, WI 53217, is interested in getting together with fellow classmates in the Milwaukee area. Hub has worked for a wide variety of companies since leaving Maine and has been a consultant for 10 years to the packing industry.

Ruth Starnes Shepardson has taught 12 years at a Bangor school and 6 years at Eastern Maine Medical Center Dietary Department.

Robert Smith is the owner of a farm equipment and supply firm in Presque Isle, father of 6 and grandfather of 6 . . . who are spread from Maine to California.

Another Westport, CT resident is Royal Graves, who has been an educator for 30 years. Royal returns to Maine summers and pursues his hobby of genealogy.

Jean Devoe Chapman, LaHabra Heights, CA, having raised and watched three children marry, is now working in an antique shop in the former home of Richard Nixon in Whittier, CA. Sounds like fun. I’d love to drop in!

One voice from the past claiming to have lost touch with all classmates except one is that of Grover Crowder. Grover has been a sales & operations research analyst for the US Army for 19 years in the Baltimore area. If you are near Aberdeen, MD, give Grover a call, please, so he knows that you’re there!

As you travel on vacations, etc., remember to send me a note of interesting experiences and Maine people you meet.

Bety (Perkins) Stebbins
29 Oxford Street
Winchester, MA 01890

A nice long note from Althea (Barstow) Barstow. She and husband Ray ’47 live and teach in Springfield, VT. Their daughters Bonnie and Laurie are at U. of VT. and Syracuse Univ. in New York. The Barstows have retired in Woodland and neighbor to Francis Brown ’43. Roy hails from Brewer. "We moved to Manchester, VT after our honeymoon in 1956. We think this very lovely and highly of UMO. We wish one of our daughters had gone there to see for herself. I am currently excited about 'The Vermont Writing Program' out of the University of Vermont. It's making great progress. I am especially interested in the novel writing workshops led by Dr. Jan '39. We are a great interest to me."

Joan (Potter) Robart is living in Centerville, MA where she works as a Service Representative in the Telephone Store. Sons Mark and Peter are married and living in the New Bedford area. Mark is a graduate of U. of Michigan and Peter, UNH. Jean (Ross) Nelson is now living in Chatham, MA.

Barbare (McNeil) Marsanski
29 Miller Street
Belfast, ME 04913

Ora (MacDonald) Hook sent news from Encino, CA where she chairs the Psychology Department at L.A. City College. She is also executive vice president of Psi-Corn, a corporation that she, other psychologists, and a former investigator for law enforcement groups, recently formed. They are conducting seminars for law enforcement officials in the use of speech analysis in criminal investigations. Ora also has a private office in Beverly Hills for diagnostic testing of children for private school placement. Along with such interesting work, Ora and husband Joe, find time for travel, and were making plans to attend the inauguration in January. It was great to hear from you, Ora!

Donald Crossland has recently resigned as president of the B.A. Mortgage Co. of Denver, Inc. and plans to engage in consulting to further develop the mortgage business. How about a personal note, Don, with all your news? I also had a note from Barbara (Mills) Browne. Barbara is still teaching speech and oral interpretation at Bangor High, and Barbara’s superior court judge in Maine. They make their home in Bangor. I am going to quote directly from her note as I know you’ll enjoy it as much as I did. "On Aug. 2, in his Judge’s robes, Bob married our daughter, Melinda, to Olaf Sager. Nelson on the motor yacht, Cabaret, in New York Harbor, with the Statue of Liberty and the twinkling lights of the Big Apple as the theatrical backdrop. Dining and dancing aboard, as the ship plied the Hudson, helped to make the wedding a most joyous occasion. Olaf, from Sweden, is president of a company dealing primarily with energy, and Mindy has her own interior design business. They live in Manhattan, but have ‘retreats’ at Sugar Loaf and on Fisher’s Island (off Long Island) where a house’s under way. . . .”

Walter C. Hinds, Jr., of Sudbury, MA has been named senior vice president for GenRad, Inc. Hinds will also head a company task force in asset management in addition to serving as chairman for three of the company’s six division boards. Since 1977, Hinds has been vice president and general manager for GenRad’s Electronic Manufacturing Test Division.

Mrs. William S. (Marit Andersen) Wilson
Box 258
Hampden Highlands, ME 04445

Brunswick Town Manager John P. Bibber was named Maine Manager of the Year at the New England Management Institute held at the University, John, who has been town manager of Brunswick for 18 years, was formerly town manager of Islesboro and Berwick and city manager of Old Town. His address is 333 Railroad Drive, Berwick, ME 03901.

A note from Ron Zimmerman, who owns and manages the Ocean Mist Motor Lodge at Bays River, MA, where he lives from March to November. During the winter he returns to Longwood, MA. He and his wife have a daughter, a student at Goucher College in Towson, MD.

Bill and I went to Machias for a Christmas party at Helen (Wallington) and Fred Mawhinney’s home. Bill sees Helen frequently on his visits to the Downeast Hospital where she is the social service worker. Dick and Joanie (Frey) Reserve were there. Joanie is at Naraguis High School and Dick stepped down last year from the administration of Downeast Hospital and is the assistant administrator. Taking his place was Tom Harrington, who with his wife Marie (Crate) moved to Machias last year. It was great fun to see the Harringtons after such a long time. This column depends on you, so send along a card or note.

Ramona (McLaughlin) Dtementropy
46 Cedar Street
East Millinocket, ME 04430

Robert C. Haraden, a native of Bar Harbor and son of Mr. and Mrs. Shirley Haraden of Cottage St. was selected to become the 16th supervisor to head Glacier National Park in Montana. Martin C. Rielke, head of maintenance and operations for the Maine State Department of Transportation stepped down from that post at the end of January ’81. Dr. Carroll R. McGarry of Southport, ME has been elected to the College faculty of Thomas College in Waterville, ME.
Church on the Village Green, in addition to his other duties), and daughter Meredith live in York Harbor, ME.

Lawrence P. Smith (302 E. Thunderbird Drive, Phoenix, AZ 85040) has been teaching in the Scottsdale Public School System for 17 years; had 8th graders for 12 years, and transferred to the high school level five years ago. Gloria Brunswyke wrote that she enjoys her work, and resides in Cleveland Heights, OH (1703 Proyer Road — 44118). Gloria received her MA from Columbia University, and is a social worker in a counseling agency, and is vitally interested in human rights issues. The Chapple-Bromhalls are living in Palm Harbor, FL (2862 Thistle Court North — 33756). Charles recently retired after working for 26 years, and is playing golf and "enjoying retirement."

Elaine Lockhard Brown (290 W. Hidden Valley Drive, Reno, NV 89502) reports that she is working for American Airlines again as a Kiwi (ex-stewardess) sales representative. In addition to flying (including her own planes), Elaine is quite a horsewoman; she and her buckskin horse captured 5th place for International Arabian Association Dressage Horse of the Year Competition. Lloyd Capen recently retired after working for a number of years in education, and is living at Deer Isle. He is very involved currently, establishing an apple farm, tending bees and preparing handwork connected with membership in the United Maine Craftsmen.

Keep those cards and letters coming!

Martha Round in "the Portland phone book and would love to hear from old (?) friends." Jan (Bishop) and Dave "for the new winter address is 149 Sweetbay Avenue, New Smyrna Beach, FL, summer is still Hancock Orville G. "Robbie" Robertson received the 1980 Town-Gown award from Colby-Sawyer College (formerly Colby Junior) in New London, NH. His 28 years of service to the college and many town activities were recognized.

Another profile next month.

55 Miss Hilda Sterling
427 Apple Valley Drive
Belford, NJ 07718

"Twas a blessed and busy 1980 for Ted and Ruth (Dow) Durst . . . they became grandparents on June 20; and on Christmas Day. turri, became Mrs. Tim Horton eight days later; and sat on the groom's side of the church when youngest offspring, Mike, was married on November 21. While Ruth was creating three wedding cakes of planning receptions for both affairs, Ted ended six years with the Federal Environmental Protection Agency in early July to become Chef of the Regulatory Function Branch, U.S. Army corps of Engineers, South Pacific Division in San Francisco.

Developer Joe DiGiovanni has taken a different approach to season living and built an U-shaped cluster of townhouses on "Roeve Estates," a small rocky peninsula in Rockport, MA. This "simple, yet elegantly proportioned project set within dramatic natural surroundings; has two and three-bedroom units selling for $175,000 and up. One unique feature of each townhouse is an attached "carriage house" where guests can enjoy their own privacy . . . a new setting, perchance for those annual Phi Eta family holidays!

We received a lovely photo of the Calkin family taken at the wedding of their daughter, Jan, on September 20. This year, Bill and Connie (Lewis) will be celebrating her Ph.D. from the University of Denver and their 25th wedding anniversary on August 19.

With three of their five daughters away at school, Joe '58 and Dot (Johnston) Pelc are trying to keep up with those college tuitions . . . but their pride is worth every penny. Nancy, homemaker engineer at Duke University, is now studying at Northwestern University while Patti, a senior, is majoring in physical therapy at Ithaca College. Beth has finished her freshman year at Cornell University. Julie, 24, a Lesley College alumna, is now a working gal. They were all home to celebrate a white Christmas with Sandy, 13, a junior high miss.

Wallie Silverman, a native of Fairhaven, MA and American government teacher at Dartmouth High School, was a Democratic candidate for state representative in the November elections. This father of four children has been Fairhaven Town Meeting member, a Fairhaven School Board member and a member of the board of the Greater New Bedford Vocational Technical High School for nine years. He completed graduate studies at the University of Massachusetts and Bridgewater State College.

Another November candidate was Harold Silverman, who waged a low-cost, old-fashioned campaign for Maine's 2nd Congressional District seat. The retired outdoor sporting goods store owner of Calpas has the apparent distinction of being the only person in history to have served as a Republican member of the Maine House, as the state's first Independent senator since the last century and now as a Democrat. He joined the latter party in late February 1980. Hale served two terms in the House and one in the Senate, broken by a stint as an advisor to former Governor James B. Longley. Last summer, Hal, who did graduate work at the N.Y.U. School of Finance, took a campaign break and spent some time on an Israeli kibbutz.

Dr. David A. Shirley, a member of the National Academy of Sciences, has been appointed director of the Lawrence Berkeley Laboratory at the University of California, Berkeley. He had been associate director of the Lab and served as chairman of the University's Chemistry department from 1971 to 1975. The Shirley clan — David, Virginia, David, 22; Diane, 21; Michael, 18; Eric, 15; and Carol, 10 — reside at 89 Southampton Street, Berkeley, CA 94707.

In top-level appointment changes, UMO President Paul H. Silverman named Dr. Bradford A. Hall as Acting President for Research and Public Service, effective last September 1.

Rudy Violette '50
Ed Smith '50

University of California and Tufts University. Albert L. Godfrey, Sr. of Winthrop will continue as head of the Bureau of Safety following its transfer from the Department of Transportation to the Department of Public Safety. A1 has directed the bureau for the past four years and will continue as director of the federal highway safety program. A1 feels that the transfer of the bureau will allow for the establishment of a consolidated safety program for the highways and byways of Maine.

59 Nancy (Roberts) Munson
3 Tanglewood Drive
Glastonbury, CT 06033

Bob Munson has been promoted to Vice President of Product Integrity, Commercial Products Division, Pratt and Whitney Aircraft. In his new job, he will be responsible for all division activities relating to the integrity of division products, to assure that customer expectations and the desired standards of quality, performance, reliability, and life are attained. He will report to the office of the president.

Bob Munson

Donald Kelly, of Gardiner, has been named assistant vice president and manager of power supply for the Central Maine Power Co. Ernest E. Hollis has received a patent on a Fiber Optic Connector. He is currently Project Manager Custom LSI, teaches in-house courses on VLSI Gate Arrays, holds two other patents, has published and presented numerous papers and articles, and reviews for two major journals. Both of his children are in the Mass. Gifted Students Program.

Dr. Peter Dingley has opened his practice of veterinary medicine in Farmington. Peter is married to the former Lorraine Hill of Wilton. They have two children.

Education:

Karen Smith is at UCT, working on a Ph.D. degree in medieval studies, majoring in art and history. She is a teaching assistant in the Department of Romance and Classical Languages. Michael Towey is a speech and language pathologist at the Mid-Coast Speech and Hearing Center. He has a professional paper accepted for presentation at the annual convention of the American Speech-Language Association in November. The paper was entitled “The Treatment of Global Aphasia through a Communication Competence Approach.”

Nancy Master-Hudak is in her 2nd year of study at the U of M School of Law in Portland. Nancy lives in E. Sebago with her husband, Ernest, and daughter, Kate. Denise Hohenstein graduated in December ’79, from The Cathedral, Charleston, SC with an M.Ed. in Counseling. Marjorie Neander is now a student at the U of CA, Davis Veterinary School after working at the Yale University School of Medicine in a cancer research lab for the past few years.

Susan RollinsCreightt writes that she and her husband, George, are living in Aston, PA and would appreciate hearing about any employment leads to bring them home to ME. George is the Production Control Manager for the Consolidation of Conway’s fleet of both locomotives and freight cars. Susan has been working for a publishing company developing marketing programs.

Cindy Cote wrote from MA. She and Paul ’76 have been married 4 years. Paul is a Civil Engineer with Whelan. Edward New London. Cindy is an accountant with Honeywell in Newton.

Alice Ellis is keeping busy writing lively histories of Maine. In 1955, her history of Stockton Springs was published. Last year her history of Prospect was released, and she’s currently working on a manuscript for Searsport’s Penobscot Marine Museum.

Jeff and Patti (Donohue) Robbins of Brookings, SD have been busy since graduation. Their jobs have included: teaching at the UMO children’s center, teaching Head Start, coordinating a nutrition education training program for the UM cooperative extension service and the Maine State Office on Volunteerism. From 1977 to 1979 Patti taught at a day care center while Jeff worked on his Masters degree at URI. Currently Patti is a Head Start teacher and Jeff is an instructor in Child development and family relations at South Dakota State University. For those who remember, their Alumnae page appeared in the EMU annual. Patti is attending UMO classes regularly, is comfortably retired at home after having spent the last several years teaching with Patti or Jeff.

The call for non-fiction prose and let me know what’s happening with you. If anyone is in the Riverside area, be sure to contact me. I may be moving during the summer but you will be able to contact me through the school for the defed here in Riverside.
I have received a number of letters since last time. Larry Miller writes to tell us he met and married Sandy (Beder) while both were pursuing Masters in forestry at North Carolina State. They spent some time on the west coast, but then came back to Timmons, Ontario, where Larry has been named Regional Tree Improvement Specialist for the Ontario Ministry of Natural Resources. They have a daughter, Laura, and live at 146 Cameron St., Timmons, Ontario.

Mike Doble also wrote, telling us he has been promoted to Captain in the Army. He has received an M.B.A. from Golden Gate University, while his wife, Jane, (Huston), received her B.A. from Christopher Newport College. He is now stationed at Fort Jackson, SC.

John Paddock also wrote from his Los Angeles residence. He is a Production Assistant for TV star Bonnie Franklin (“One Day at a Time”). He is helping to prepare her upcoming variety special for this fall. Sherry Porter also dropped us a note. She is with the Nova Scotia Museum of Agriculture as a livestock marketing specialist. She also serves as the Dean of Students at the Nova Scotia Agricultural College. Her address is P.O. Box 550, Truro, Nova Scotia B2N 5E2.

Denise (Carrier) Mailhot has been instrumental in organizing and maintaining a Christian coffee house, The Giving Tree, in Lewiston. Kristin Spahn has been selected as a Governor’s Young Woman of America. She presently is the Executive Director of the Maine Democratic Committee. Mike Murphy is on a tour of the Far East, courtesy of the U.S. Marines. He is a first lieutenant flying helicopters based at Kaneohe Bay, HI.

Marriages are as follows: Susan (Knight) to Steve Gavett ’80, Lisbon Falls; Robert Theriou to Cornitha (Colburn), Newfane; Bob (Hall) to Donald Perkins, Charleston, NH; Carlton McGary to Lillian (Santangelo), Bangor; Linda (Farmh) to Jeffrey Choate, Augusta; and Judith (Dearden) to William Morgan, Belgrade Lakes, ME.

Well, what did you all think of the long column last time? I guess that’s what happens when you try to combine three columns into one. Also I apologize for the quickness of each mention last time. I’ve decided that most of us must be married but here are a few more:

Some other news tid-bits I’ve heard of are: John W. McVulty of Gayton has been appointed District Forester in the St. John River district of the Seven Islands Land Co. John resides in Fort Kent. Deborah L. Smith, originally of Brunswick, will be joining the South Portland, ME Parks and Recreation Department as program coordinator.

Steven L. Gagnon of Caribou was promoted to Manager of the Presque Isle office of Depositors Trust. Steve, who has his wife, Virginia, in Caribou. Katharine J. MacLean of Manchester says she has been working for Kennebec Valley Community Action Program Family Services in Waterville as a Family Planning Specialist. Kathy has also been working on her Masters of Social Work degree. She is living on McGrath Pond in Oakland.

Eric J. Kennedy writes that he is working as a Sales Engineer for Dowe, Inc. (a materials handling firm located in North Andover, MA). Eric is living in Wrentham, MA. Robert F. Anderson of Greene is in his 2nd year at Tufts University School of Medicine on a U.S. Army Health Service Commission.

Paula M. Goodwin of Dedham, MA is working as Medical Research Associate for the Radiology Department at the Brigham and Woman’s Hospital in Boston and working on her masters degree in computer science. Paula would love to hear from anyone in the Boston area. Her address is: 134 Scott Circle, Dedham, MA 02026. Mary L. Dionne of Norway is working on her M.S. in Portland.

Christopher R. Blanchard of Portland is employed by Edward C. Jordan Co. in Portland. Chris is currently working on the process design for the McDonald’s company’s new Drive Through.

Richard J. Brewer of Presque Isle is currently a 1st lieutenant in the U.S. Army in the Infantry. He is a rifle company executive officer. Richard is stationed at Fort Riley, KS. Daniel A. Plourde of Winslow has been named the new master of LeVendre’s in Pittsfield. Catherine W. Ames of Fort Fairfield has been appointed as Vista field organizer for Aroostook countyside in her role as a Maine Small Farmer Project. John S. Eldridge of Plattsburgh, NY, currently the town manager of Bradley, ME, has been named the town manager of South Berwick, their first ever to hold that position. Sally C. Hall of Cape Elizabeth has been named assistant manager of LeVendre’s in South Portland. She is a sales associate specializing in residential properties.

Peter A. Axelrod of P.O. Box 120, East Millestone, NJ 08873 writes that he is working for Exxon Biomedical Sciences as a Biomedical Photographer and Animal Technician in East Millestone. Peter wants to come back to Maine by autumn and if anyone has some job leads, drop me a line. Richard A. Young writes that he is working on finishing up his Masters Degree in Architectural Engineering at Penn State. Bob was also married in July, 1980, to Debbie Mann (UMF ’77). He is currently working at Albert Kalin Assoc. in Detroit, as an engineer. Their address is: 3073 West Warren Road, Westland, MI 48185.

In the correction corner I will attempt to straighten out a few things. Someone wrote and confused — sorry guys. I hope I have it right now! Candid L. Rogers (Chi Omega) is married to Terry Shehata ’76. Terry is working on his doctorate in bioclinical science at UConn and they may be moving to New Haven, CT where Terry has a post-doctorate position. Oh yes, Candy says they are expecting an addition to the family — any day. Their address is: 35-H University Park, Groton, ME 04473. And the other Candy Rogers, Candace E. Rodgers, was married to Dale B. Andrews on August 9, 1980, in Jonesport. Candace is currently teaching secondary mathematics at Londonderry Junior High School in Londonderry, NH. They have purchased a house in Derry. They reside at R.F.D. #7, 176 Scenic Drive, Derry, NH 03038.

And last but not least, the last part of my column was edited so much that I must correct my information, too. Jim and I are finally settled in our own house. I was also promoted to Field Account Supervisor for Arnold & Co. Advertising. I’m in charge of the local store marketing for McDonald’s in Maine. Jim keeps very busy with running Burgers Maine and dogs.

There, Jess and I are all up to date! I love to hear from you all. Have a wonderful summer!

Best wishes to all members of the Class of ’80. Have a great summer and join the 128 who made news in this issue. Write! Ah, Jim Hewes, where are you?

81 Barbara Ellen Brown 21E Jacquetly Avenue Waltham, MA 02154

I look forward to hearing from all my classmates after graduation. Please let me know what happens to you and how things work out.

Does Your Diet Rate?

“I love fruits and I eat foods that make me feel good,” UMO President Paul Silverman tells Lynne Richards, a senior majoring in food and nutrition. The top administrator, who stands 5’10” and weighs 155, lacks calcium and B vitamins, according to senior Jack Vondras (second from left) who programmed the nutrition computer from Pillsbury Foods. Waiting for a turn are Fred Hutchinson, acting vice president for academic affairs, and Ross Moriarty, director of residential life.
From Maine to Rhode Island, at seven strategically located deep-water terminals, Sprague Energy discharges, stores and transports a variety of bulk commodities. Salt, pumice, wood chips, chemical compounds, coal or oil—when New England industries need them they call Sprague Energy. And they've been calling us for 110 years.

The Homecoming
YOU DON'T WANT TO MISS

October 9-11, 1981

This shocking photo from the Alumnus files captures Class of 1912 celebrants (from left: Helen Worster Cleaves, Edith Folsom Sawyer, Hazel Mariner Buzzell, Ruth Merrill Dana and June Kelley) in get-ups which some of you may remember. We invite you to join in the merriment this fall with your own classmates. It will be a Homecoming you won't want to miss.

HOMECOMING brochures will be mailed in August. If you do not receive a brochure by September 1, please clip this form:

Name ................................................................. (class) ....
Address .....................................................................................

MAIL to: Nancy Dysart, 108 Crossland Alumni Center, University of Maine, Orono, Maine 04469.
