Higher education merger urged
union of Maine colleges proposed to legislature

by Mary J. Takahashi

Mergers—this is the key to an increasingly
highly organized college administration in the state of Maine ac-
cording to the Maine Commission on Higher Education.

Through a plan submitted to the Commission Monday, all
present boards of the state uni-
sity, the five state colleges,
four technical schools, and the Maritime Academy would all come under one uni-
termediate body—The Commission of campuses of Maine. The governing body would be a 12-member board of mem-
ers. Appointed to the Gover-
nor and the Commissioner of Education ex officio, at present the university is served by a board of 10 elected members and other institution—full under the State Board of Education.

12-member commission

The initiative report was prepared and submitted by a December commission headed by Dr. James B. Colby, president of Bowdoin Col-
lege. The commission was orga-
nized through a Resolution of the 102nd Legislature in an effort to find why Maine was not doing enough and was behind the curve.

The realization that Maine was not doing enough and was
turning out graduates was written in the position paper which contained the has been our purpose to present the what the position paper which is are the findings of the commission.

The American Association of Junior Colleges notes that, while in 1960 high-school graduates accepted forjunior college, 21,500 in 1965, only 9,000 in 1965, only 75,000 in 1965.

Roughly thirty students braved the cold weather to participate in the prayer march last Sun-
day. The "pray-in" was sponsored by the Newman Club and M.C.A.

In 1905 Norman Thomas was a Presbyterian minister just out of the Union Theological Seminary. His first pastorate was in East Harlem. There, the living conditions of the people there impressed him so much that he quit ministry and started work in a settlement house. He has been described as "the conscience of the American people."

On Wednesday at 8 p.m. in Hauck Auditorium, Norman Thomas will speak.

For nearly forty years Norman Thomas has been the leading figure in the American Socialist Party. On the ticket of the party he has run for Governor of New York State in 1928, twice for mayor of New York City, and six times for President of the United States, from 1928 through 1944.

Thomas' brand of socialism has been described by the New York Times as "a bit of Old World tradition in an Old New World democracy." In whatever he thinks human rights are being ignored and doing something about it.

From working for better conditions for tenement dwellers at the beginning of the century, Norman Thomas has gone on to defend the rights of sharecroppers, Mexican-Americans, organized labor unions, Japanese-Americans, Negroes, and any group that has been ignored and doing something about it.

Campus chief ill; condition critical

Stephen R. Gould, retired state police captain, and chief of the University's campus police for the past 10 years, suffered a heart attack at his Augusta home at 4:30 a.m. last Monday. He is the father of three children.

The campus police station was taken to the Eastern Maine General Hospital and placed on the danger list. The last report at 1 p.m. Tuesday, said that Gould had spent a fair night, but still remained in the hospital. The former police officer is a prewar veteran of World War II and served overseas.

Mr. Francis McGuire, Director of the University's Physical Plant, named Sgt. Cecil Powers as acting chief of police. Sgt. Powers has been on the force for 15 years. Powers is a former police officer in the city of Stillwater. He is the father of three children.

Students attend Detroit institute

There university students are tak-

in part in a unique program of ad-

vanced instruction in human devel-

opment and family life. This fall

they are attending the Palmer Insti-

tute in Detroit. The institute

includes students from around the

world, as well as from more

than one hundred cooperating col-

leges and universities in the United

States.

Tours for the Department of

Speech Theatre Laboratory Pro-

grams of the University of

Maine Professor of Speech and

Dramatic Art will be con-

ducted weekly by

Professor of Speech and

Dramatic Art.

Programs will include the

speech of the play, the

language of the play, and

the psychological and

social implications of the

play.
Liberal challenges Reed’s record

by Mary Jo Takach

In just five years, the people of the state of Maine have seen economic development in a way never witnessed before. Governor John H. Reed has been credited with a five-term record of growth and prosperity resulting from planned development. But the Governor is not the only man worth mentioning. Several important leaders in the State of Maine have contributed to the economic development of this State. And the activities of these leaders have been praised by Reed himself.

During this period, the State has established an Educational Television Network and increased the number of vocational education schools from two to four. In addition, Reed pointed out that Maine is 50th in the country in the percentage of students going to higher education and there are not enough facilities to handle the number of students who wish to go to college. Headd added that 12,000 Maine citizens left the state in search of opportunities elsewhere. Two areas in which the candidates have agreed are the Water Improvement Commission and the Maine Public Utilities Commission. Governor Reed wants to reduce from 15 to five years the period for minimal compliance with Maine's clean water legislation.

Governor John H. Reed, a native of Fort Fairfield, graduated from Fordham, High School and from the University of Maine with a B.S. in Agricultural Economics and Forestry Management in 1942. He served in the U.S. Navy for the next four years, completing his service in 1946. He then entered the U.S. Merchant Marines and holds papers as a Second Mate. Returning from the service, he entered Portland State School and in 1959 became a member of the bar. During this time, he developed an interest in politics and campaigned for the Democratic party. In 1961, he ran against Stan Tupper for the U.S. House of Representatives and lost by only 300 votes. In 1965, he was elected to the office for a two-year term in 1960 and for a four-year term in 1962. He is chairman of the Maine Democratic party.

Curtis was born at Curtis Depot, Maine. He graduated from Casco High School in 1967 and Maine Maritime in 1952. He then entered the U.S. Navy and presently holds the rank of Lt. Commander in the U.S. Naval Reserve. He later served as an economic analyst for the Navy, and holds papers in a second Master.

Returning from the service, he entered Portland State School and in 1959 became a member of the bar. During this time, he developed an interest in politics and campaigned for the Democratic party. In 1961, he ran against Stan Tupper for the U.S. House of Representatives and lost by only 300 votes. In 1965, he was elected to the office for a two-year term in 1960 and for a four-year term in 1962. He is chairman of the Maine Democratic party.

Curtis graduated from the University of Maine in 1965. He was a member of the Maine Area Redevelopment Commission and the State of Maine. Curtis has had seven years of experience as a United States Senator. He succeeded Clauson to the chairmanship of the State Senate in 1967 and graduated from Harvard Naval Supply School in 1944. In 1945, he became a representative to the State Senate and in 1957 to the state Senate. In 1937, he succeeded the State Auditor in the Office of Governor in 1937. In 1941, he was elected to the office for a two-year term in 1939 and for a four-year term in 1943. He is chairman of the Maine Democratic party.

The University's ROTC Counterinsurgency Unit (CODEN) has been expanded to a battalion status in preparation called the Special Forces Battalion. The new battalion, commanded by Capt. H. H. Elsasser, consists of an enlarged Ranger Company commanded by Maj. R. J. Rickert, a Special Forces Company commanded by Capt. G. B. D. Hulse, and a Special Forces Company commanded by Capt. D. C. B. McManus. The scheme of training for the battalion remains pointed toward counterinsurgency with emphasis on individual training in the areas of marksmanship, survival, and hand-to-hand combat. The objective of the training is to increase the cadre's ability to handle itself in difficult situations.

Training is conducted at the Army ROTC unit's each Tuesday evening 6:30-8:30 P.M. and will also include periodic field exercises and range training. Membership is open to all ROTC cadets, and university students with prior military experience are invited to participate.

Flier for orientation is concerned with the discipline of the organization. The gang wasn't there

Last Sunday afternoon, 30 individuals marched unnoticed to the civil rights demonstration sponsored by the Campus Student Council, led by the Student Christian Association to join in the peace movement. Apparently, what it meant to the composite group remained hazy. Moreover, there were inscriptions of vapidity, hence the lack of participation.

But more important, members of the movement split as to whether their primary purpose was to promote a civil rights demonstration that was possibly be involved in the same type of thing. Some evidently felt that the event was successful if just one marcher felt uplifted on Sunday afternoon.

Perhaps this internal conflict is an important key to the sometimes vacillating composition of the "peaceist" group. Many of these marchers—men, women, and prep school students—have been motivated for the personal involvement of the members themselves. General campus-wide participation would work the entire effort.

Prison

The University of Maine is not a babysitting service. The administration knows it, although a university administration has always ranked probably a majority of students would be willing to submit to a swift peace. The residents of Maine are deeply interested in what happens on this campus. It seems to receive more radio, television and newspaper coverage than any other state university in the nation. Consequently, the effort to lift the ban on off-campus apartments must be a massive one, carefully mapped out and done with the least amount of hysterical rantings about "rights." Screaming on the rooftops of the residence halls is not in line with the privacy of conversation and relaxation as a "sacred right." And it is. But Dean Zink's office cannot bring this up to date alone. Neither can

happy haven

sawdust drifts north

by Roger Rapaport

Editor's Note: This is the second of a twopart series which will appear in the Maine Campus on Friday, October 7.

Toronto (CP) — "We always thought a man had an obligation to go fight where his country tells him to," says Capt. Ben McQuade, a career soldier with the Canadian Army. "But it seems to me that the U.S. hasn't given us that opportunity. And I can't understand why they should go to Vietnam. If it is a war, then they should be able to escape the draft and fight for Canada."

Most of official Canada views things the same way. Police, clergy, and university administrators as well as the press solidly endorse the right of U.S. citizens to assert conscription. The Canadian government is on record as saying that all Canadians are entitled to the same privileges that he enjoys. They should move to some peaceful, little mountain village in the wilds of Borneo and be content with life in a thatched-roof, mud hut without anything more to worry about than an occasional head-hunter raiding party, or anything more to happen than everyone will come early this year.

Peter Doucet

lovelocking not all

To the Editor:

It is interesting to note that the two letters to the editor which recently appeared in the Campus, referring to the "dishonest, immoral lovemaking" of Maine students, were both unsigned. The grammar, sentence structure and amount of exaggeration in the letters were amusing.

The opinions expressed in these letters contrast sharply with those in David Kinoshita's intelligent analysis of the situation. Mr. Kinosha, I agree, should have had a word with whoever could have done a more thorough or satisfactory job.

to the anonymous person who wrote: "If they do things like this before marriage, what is left?" I say this: If you think marriage is nothing but a contract to give you a warm bed at night, you're out of your hollow head.

Arnold R. Churchill

social parasites

To the Editor:

Concerning the first of a two-part

series entitled, "The Call of the North," I am both happy and sad. I am happy because an individual with an outlook such as the one that Bob Thomas has, doesn't deserve to be drafted. But his exit from the U.S. serves only to highlight the thoughtlessness of problems which are pressing heavily upon our country.

On the other hand, I am not be

cause people of his caliber are drif

ing into Canada and are presenting our northern neighbors with sometim

es the same problems that we are facing. All of this talk about not being killed or what to do and, "I want to run my own life," are simply selfish reasons for running away from the duties and rights which are demanded of a responsible citizen.

If anyone thinks that the world owes him a living or thinks that he can exist in a hostile environment and not be willing to stand up for his country, that person doesn't deserve to be drafted.

Peter Doucet

Please don't zlupf Sprite. It makes all noise by itself.

Sprite, you recall, is the drink that's made from a secret formula of something called zlupf. The formula for Sprite is that of an oriental drink as noisy as Sprite, a drink as noisy as Sprite. But have a heart. With a little zlupf goes a long, long way.

• Quality Community Centers, concentrating more of its work in the advanced undergraduate and graduate levels.

In reference to Maine Maritime Academy, the Commission recommended the specialized baccalaureate-level programs could be improved and focused in the areas of maritime engineering and operations.

• The establishment of a University Development Center to coordinate existing and future research and service activities in Maine, including the development of new programs and coordinating resources in the areas of diversity, education, and policy.

• A national survey to study the feasibility of establishing a national center for undergraduate development in the Portland area.

• A program by which the university could provide educational opportunities to all students, regardless of their major, that could be integrated into their studies.

Tickets grabbed immediately for first lab production

by Phyllis Mere

The American Drama caught student and faculty interest last week. As soon as the show was announced, the Union Drama Department quickly sold out the tickets for William Shakespeare's play. Faculty members were as enthusiastic as students about the production.

Paula Childs in the main role and Miss Saville in the role of her boyfriend stirred up the audience with their emotional scenes.

Lynda Salsbury as Mrs. Barker first appeared self-confident as president of the Women's Club, and then bewildered as she grew vague and bemused as she nudged into her inadequacies. Why was she visiting Mommy and Daddy? She didn't know.

Carl Hevey innocuously stumbled across the stage, he took the audience with her. Her performance pathos that delighted his audience and admirably illustrated the American Dream.

Last mention has been reserved for Joyce Adjutant who starred as Grandma. Albee created Grandma as the last living link to humanity within the play's boundaries, and Joyce sparked the production with her very much alive wit and knowing observations. When she hobbled across the stage, she took the audience with her. Her performance rated the clamorous ovation it received.

So Stein's production was a sensation, but more audiences didn't have the opportunity to see it. Another night's screening might have sold out the tickets for tickets resulted in several empty seats. Perhaps the audience in front of her who performed rated the clammers ovation it received.

For Joyce Adjutant who starred as Grandma. Albee created Grandma as the last living link to humanity within the play's boundaries, and Joyce sparked the production with her very much alive wit and knowing observations. When she hobbled across the stage, she took the audience with her. Her performance rated the clamorous ovation it received.

The demise of the State Series with Maine, which occasionally took place on Alumni Field last Saturday with the Bears winning a 25-17 victory over New Hampshire and a 32-10 over Old Lyme, is the end of an era. The Maine campus is now the only one in New England with a football program.

"Merci."
The fall golf tournament at the Penobscot Valley country club came to an end this past Saturday, when 12 golfers were presented by James Martin on the wicker green at the 18th hole. This marks Warren's third straight triumph in this annual event run by Coach McColl. Warren tied the record of 196 in the tournament last year, and the final round in this tournament tied the record of 196 set by Martin's par in 1963.

Depleted for the past two years, the Maine rifle team opened its season Saturday at Vermont. Two years ago, Maine finished the season with a 7-0 mark, and it was hoped that the fall tournament results would be used to put out a strong team. The fall tournament served as McColl's first test of the season, and the final tuneup in preparation for his aspirants, and the final tuneup in preparation for the upcoming season. Although the tournament was held in the cold and wet, and muscles are still from a long winter.
