The School of Education

Its Program and Progress

By Dean Olin S. Lutes

A new chapter in the history of the University was started, when in 1930, with the splendid cooperation of Commissioner Packard, the trustees established the School of Education. It is perhaps not too much to say that with this new step a new era in educational relationships was established in Maine, affecting in particular the University's relations with the normal schools and the state department of education. This was an integral part of former President Boardman's program of establishing more harmonious relationships between the University and all other educational institutions of the State, a program which was eminently successful and which deserves recognition as one of his major accomplishments as president of the institution.

While not exactly a child of the depression, the infancy of the School of Education coincides strikingly with the history of the depression, which was first felt in Maine the next year after the School was established. Consequently we have had no boom growth. Perhaps the eventual results of this fact will be beneficial, in that our development will be gradual and on a stable, sound basis.

In the concluding paragraph of his address at the inauguration of President Hauck, trustee B. E. Packard, who is also Commissioner of Education for Maine, summarized very well indeed the essential purposes and field of service of this new division.

"The School of Education while still in its infancy has already demonstrated its ability to prepare more adequately teachers for work in our public schools. In no sense is the School of Education in direct competition with the other colleges of our State, which are all performing a valuable service in the training of teachers. We are simply recognizing the responsibility of the University as a part of our public school system in the important work of teacher preparation. In the matter of training teachers for this work we should exercise wise selection and should adopt such standards as would exclude from its courses all students save those who through ability, character, personality, and temperament shall prove themselves

qualified for the great work of teaching.

"The State has no more important responsibility than that of guaranteeing to its boys and girls the advantages to be derived from free public education. This is the State's Charter of Freedom. 'Where

DEAN OLIN S. LUTES

there is no vision, the people perish.' Only in this way in a democracy can the priceless heritage of free citizenship handed down to us through the sacrifices of our fathers be preserved. Under your leadership, President Hauck, we commit to you the responsibility of not only making each department of the University best serve the needs of our people but more especially do we commit to you the responsibility of leadership in this important field of teacher training in order that our graduates may be adequately prepared to engage in the important work of training our youth for the duties and responsibilities which will soon confront them as the active citizens of our State."

Student Teacher Training

Since our primary function is that of training teachers, one of the most vital phases of our program is the work Professor Jackman is conducting in super-

vised practice teaching. By cooperative arrangements with the authorities of the towns this work is done in the high schools of Orono and Old Town. Certain selected teachers on the high school staffs serve as critic teachers who with the principals of the schools supervise the work in cooperation with Professor Jackman. Since the facilities are limited, the privilege of doing practice teaching is limited to a selected group of students approved jointly by the School of Education and the academic department concerned.

The detailed method and procedure which Professor Jackman has worked out has been submitted to a symposium on supervised student-teaching held at New York University where it received high praise. The crying need of the University is more adequate facilities for this work. If we had a modern training school of our own, a university high school, there is no reason why the University could not take its place at the forefront of New England colleges in the work of teacher training.

The practice school for teachers may be compared with the clinic in medicine, and the farm in agriculture. It is here that for the first time it is possible to discover with any reliability the student's aptitude, or lack of it, for teaching, and it is here where truly effective training can take place. It is here that the University might make its greatest contribution to the improvement of teaching in our schools, if adequate facilities were available.

State Scholarship Contest

One of the most interesting activities sponsored by the School of Education has been that of conducting for the first time in Maine and the first in New England so far as we know, a state-wide scholarship contest for pupils in our secondary schools. This contest, under the leadership of Dr. J. R. Crawford, and sometimes known as an academic meet, was started on a small scale in 1931, and will be held this year for the fifth consecutive time. It is an effort to stimulate interest in scholarship in our secondary schools

(Continued on Page 114)

Dr. Small Receives National Recognition

Alumni of the last five classes who pursued the Shakespeare course will recognize in the picture below the familiar model of Shakespeare's stage. It has been on exhibition in 270 Stevens Hall since the spring of 1930 when it was begun. The model was constructed on the basis of research by Dr. George William Small of the Department of English.

National recognition of this work has been received in an article in the last issue of the *Shakespeare Association Bulletin*, the official publication of the Shakespeare Association of America. Dr. Small successfully opposes the reconstruction of the stage found in all text books up to this time, namely, a wedge-shaped stage narrow at the front. The article points out for the first time that the so-called *Roxana* and *Messalina* sketches, which show the only traces of a wedge shape, cannot be used as evidence for Shakespeare's day, although most authorities have so used them. These small sketches appeared on the title pages of plays under those names printed in 1632 and 1640 respectively.

To quote from the article: "A rectangular stage as broad in front as in the rear, or broader, is the only type of stage that finds support during Shakespeare's day, either from the side of unquestioned

documentary evidence, or from the side of the probable development out of the public inn-yards. The Fortune contract gives us the dimensions, forty-three feet as the width across the front of the stage and forty feet as the depth from front stage to back wall. DeWitt's sketch of the Swan shows the stage extending its full width out into the pit. Since the Swan sketch was made in 1596 and the Fortune contract drawn up in 1600 for an edifice that was in use during the rest of Shakespeare's lifetime, and since the Fortune is well known to have been modeled on the Globe, it is abundantly clear that the only positive evidence we possess reveals Shakespeare's stage as rectangular in shape, being as wide at the front as at the rear. Evidence of a narrowing at the front or of a wedge shape cannot be adduced for Shakespeare's productive period."

RECONSTRUCTION OF SHAKESPEARE'S STAGE

Orono D.A.R. Chapter Creates Loan Fund

Following a recent meeting of the University Board of Trustees, President Hauck announced the receipt and acceptance of a gift of \$200 from the Esther Eayres Chapter, Daughters of American Revolution of Orono.

Under the terms of the gift, this fund is to be loaned to a junior or senior girl, preferably a resident of the State of Maine. The amount loaned is to be limited to \$50 per person, to be repaid one year after graduation or withdrawal from college, or before if possible. No interest shall be charged until after graduation but interest at the current rate will be charged beginning July first following graduation or withdrawal. Interest on loans collected by the University shall be retained and added to the original fund. Loans are to be made at the discretion of the President and Treasurer of the University, and the Dean of Women. Report is to be made annually to the treasurer of the local Chapter.

This gift is especially helpful during these days of unusual need because of economic conditions. It is the third such loan fund established by local groups to aid women students. The Bangor Business and Professional Women's Club made an initial gift of \$40 in 1931-32 which thru supplementary gifts and interest has grown to a total of \$476.63.

The other organization which is assisting women students thru a loan fund is the local branch of the American Association of University Women. This Fund started in 1926-27 with a gift of \$477.79 has mounted to over \$1500 due largely to a substantial gift made each year.

These funds, expressing the interest of local organizations in the welfare of the University and its young women, are vital factors in assisting students who might otherwise be forced to withdraw.

Cover Picture

The picture on the front cover of this issue is taken from a 1935 *Prism* plate. It shows front entrance of Aubert Hall with Lord Hall just beyond. Aubert Hall is devoted exclusively to Chemistry, Pulp and Paper, and to Physics.

Placement Bureau Established

University and Alumni Association Cooperating in New Service

A Placement Bureau to assist undergraduates and alumni in securing positions has been established at the University, under a cooperative arrangement between the University and the General Alumni Association. This agency, operating for the present on a part time basis, will concentrate during the next few weeks on assisting seniors. Later the work will be broadened.

On March 27, Philip J. Brockway '31 assumed the role of placement director under the supervision of and in the same office with Alumni Secretary Charles E. Crossland in Room 11, Fernald Hall. Mr. Brockway will devote about half time to placement work. He is also to be assistant alumni secretary and among other duties will be largely responsible for the publication of the *Alumnus*. This new work is in the nature of a two year trial to determine in some degree at least, the value of placement to the seniors, to alumni, to the University, and to the Alumni Association.

The adoption of this new plan comes as a result of an extended study of the situation at the University by two committees, one of alumni and the other of faculty members. The alumni group appointed by the Alumni Council consisted of E. J. Dempsey '17, Works Manager, Calco Chemical Co., Bound Brook, N. J., Dr. A. Rogers '97, Head of Chemical Engineering Dept., Pratt Institute, Brooklyn, N. Y., G. K. Huntington '05, Treasurer, Western Union Telegraph Co., New York City, E. T. Walker '11, President, Walker-Turner Co., Inc., Plainfield, N. J., and G. Packard '31, Assistant to Personnel Manager, W. T. Grant Co., New York City. The faculty committee appointed by former President Boardman was composed of Deans Cloke, Lutes, Mulenburgh, and Deering.

With the coming of the depression the need of a more aggressive policy of placement became acute. This resulted in the appointment of the committees mentioned. President Arthur A. Hauck has shown a keen interest in this matter ever since coming to the University.

Three primary reasons led up to the decision that some agency was needed: (1) The distance of the University from large business centers makes it difficult for students to make contacts and inconvenient for personnel men to visit the campus, (2) placement work now being

done should be coordinated and supplemented, and (3) reliable information should be quickly available about those who are seeking positions that employers may be in a position to more accurately evaluate those who apply or who are recommended.

Faculty Active

Many of the deans and department heads have been active in past years in an effort to assist their seniors, and occasionally an alumnus to secure positions. Some of the departments have enjoyed marked success.

Under the new plan, faculty members are to continue their efforts as before. The Placement Bureau will supplement and coordinate campus activity.

There is to be a University Faculty Committee on placement and also a committee within each college. These committees will help to unify placement work and assist in formulating policies to be followed in the operation of the Bureau.

Teacher Placement

For several years a Teachers Appointment Bureau has been maintained by the School of Education. In addition, the Departments of Home Economics and Agricultural Education have generally been the source of home economics and agricultural teachers.

These agencies will continue to operate as in the past though in cooperation with the new bureau. Ultimately all placement may be brought together, and clear through the Bureau depending upon the development of the work.

Alumni Cooperation Essential

The success of this project rests in no small degree upon alumni. Their active interest is fundamental to any marked achievement. Although the Bureau does not propose to limit its contacts to employer alumni, nevertheless, it is based somewhat upon the expectation that alumni will find this a useful and a reliable source which will be of help to them in securing men qualified to fill positions which they have occasion to fill.

Alumni may be helpful in three ways: (1) By advice and assistance in formulating the policies which will govern the Bureau—this will be done through an alumni placement committee composed of one or more representatives in impor-

tant business centers in the East, (2) by furnishing contacts with desirable business concerns, and (3) by calling upon the Bureau when they have positions open or know of such openings.

Objects and Policies

As already stated the first work which the Bureau will undertake is to aid the present seniors in securing positions. Second on the list is to assist undergraduates in locating summer employment and next year to handle undergraduate part time work.

As time and funds permit, the Bureau will endeavor to assist those alumni who register with the Bureau. It is not expected that much can be done to be helpful to alumni this Spring.

The Bureau proposes to offer to employers a reliable service, which will function quickly and satisfactorily. The policy of absolute frankness and honesty with the employer will be followed. Only persons believed to be qualified for a stated position will be suggested or recommended. Moreover, more than one name will always be placed before a prospective employer.

Another subject closely allied with placement is that of occupational guidance. Through personal or group conferences it is hoped seniors may be given information and counsel which will aid them to decide the exact type of work for which they are qualified and in which they are most interested. As a corollary to this activity it is proposed that instruction be given on the technique of "getting a job."

Brockway Well Fitted

Mr. Brockway, a native of South Hadley, Mass., is well qualified for the dual position. He was outstanding as an undergraduate being active in sports, prominent in editorial work on the *Prism*, *Campus* and *Maine Renew* and a Senior Skull, as well as president of his fraternity, Sigma Alpha Epsilon. His major subject was English. His high academic standing won for him membership in Phi Kappa Phi and Phi Beta Kappa and nomination as a Rhodes Scholar. Following graduation he taught at the University. Since then he has been engaged in the paper manufacturing industry in which he received experience which should prove valuable to him in this new position.

Chamberlain '85 Specializes in Genealogy

"Author and book editor, Historical and Genealogical Research of New England and Old England" So reads the letterhead of George W Chamberlain '85, of Malden, Mass., who this year expects to return to commencement to observe the 50th anniversary of his graduation.

Although during the early years after graduating from the University his time was devoted chiefly to teaching nevertheless almost from the start his prime interest has appeared to be in writing historical material with the result that he has prepared well in excess of 5000 pages of copy covering a wide range of subjects. He has recently given to the University many interesting and valuable historical volumes. These are listed in a later paragraph.

Mr. Chamberlain is described by one who should know him well as being modest and retiring, always loyal to the University, and invariably guided by the highest of principles and integrity. As one would naturally expect of a person who prepares genealogical and historical material, Mr. Chamberlain is spoken of as being unusually careful and systematic as well as efficient.

As an undergraduate he registered from West Lebanon, Maine. He was one of the founders of K K F fraternity, forerunner of Kappa Sigma. He registered in Zoology and attained high rank. In recognition of his scholastic attainments as an undergraduate and of his literary achievements he was elected in 1930 to the Maine Chapter of Phi Beta Kappa, national honorary society.

For twenty years following graduation he taught school in towns of Berwick, Farmington (N H), Calais, and Augusta, and Weymouth (Mass.). During those years he wrote many articles and historical papers on subjects pertaining to the towns in which he was teaching. During that time also he attended Harvard Summer School two terms and earned a Master's degree from the University in 1898.

Since 1905 the books he has written or edited have been much more numerous. All of his writings pertain to New England and most of them to Massachusetts and to Maine. Lebanon, his native town, has been fortunate in having much historical data prepared concerning its family and town activities. Following is a list of the volumes which Mr. Chamberlain has so generously given to the University. They represent but a small part of the 50 or more volumes and extensive articles which he has either written or edited. They are also typical of the wide

scope of his investigations and writings.

The Descendants of Charles Glidden of Portsmouth and Exeter, New Hampshire. The Early New England Coolidges and Some of Their Descendants. Abstracts Relating to the Revolutionary War. John Chamberlain, the Indian Fighter at Pig-wacket. Vital Records of Lebanon, Maine, to the Year 1892. One Branch of the Descendants of Thomas Chamberlain of Woburn. Seven Generations of the Descendants of Aquila and Thomas Chase. Soldiers of the American Revolution of Lebanon, Maine. The Spragues of Malden, Massachusetts. Studies on Families Surnamed Cowell, Door (Dore or Dorr). William Chamberlain of Billerica, Massachusetts. York County, Maine, Marriage Returns, 1771-1794. Magazine of History, 19 V, Babson Genealogy.

Mr. Chamberlain is a life member of the New England Historic Genealogical Society and has been corresponding secretary of that society. He was for twenty years secretary for the Malden Historical Society and is a member of the

GEORGE W. CHAMBERLAIN, '85

University Club and prominently identified with the Methodist Church. He is looking forward with pleasure to returning to the institution and renewing with his classmates the happenings of fifty years ago.

School of Education

(Continued from Page 111)

by providing a recognition of excellence in this sphere comparable to the recognition so commonly accorded to athletic prowess by contests of an athletic character. The contest has grown in popularity and success until last year, by means of the cooperation of the state department of education and the other three colleges of the State, it was made possible for all the high schools of the State to participate. During the first four years approximately 25,000 high school pupils have participated in the various phases of the contest.

Of special interest to alumni should be the fact that the trustees have established eight tuition scholarships to be awarded each year by means of this contest. These scholarships, practically the only ones available to freshmen at the University, have been awarded to 33 high school seniors, of which 24 have been accepted. That this phase of the contest has been highly successful in attracting superior students to the University has been demonstrated by the superior scholastic records made by these students during their careers at the University. Of the 24 recipients, only two have failed to make satisfactory records, while the great majority have been dean's list students, and the grade-point average of all during the entire time they have been in the University to date is 3.05, or a dean's list rating. Furthermore, they have contributed their share to campus activities of a desirable nature.

Educational Research

Space permits brief mention of but one more phase of the work being done by the School of Education and its staff. Last but not least is the very definite contribution to scholarship being made by Dr. Ava H. Chadbourne, known to many alumni in the series of studies by her graduate students of the history of education in Maine. Three of these studies have been published in the form of bulletins in the University of Maine Studies, and others will follow till the entire state has been systematically covered in this field. Dr. Chadbourne has by her work practically preempted this field of investigation and is beginning to receive national recognition for her contributions to scholarship in the history of education.

The School of Education is the infant division of the University. Established during the depression, it has had to begin its existence on a depression diet. It should be able when more prosperous days arrive to make a more vital contribution to the life of the University and of the State.

Gladys Kavanah '10 Finds

High School Administration Fascinating

From a teacher in a small Maine high school with 70 pupils to the assistant principalship of a major high school in Connecticut with 1500 pupils is in brief the career of Gladys E. Kavanah, a member of the Class of 1910 which in June observes its 25th anniversary. These years have been full of experience which has led to her continuous advance so that today she occupies a somewhat unique position among alumnae of the University. So far as is known, she is the only alumna who has risen high in the field of secondary administrative work, and is in fact one of the relatively few women in the east if not in the country to whom such responsibilities have been entrusted.

When asked how it happened that she became an administrative officer, she said, "Oh, it started more by luck than anything else." In speaking of her work Miss Kavanah said, enthusiastically, "This administrative work is so full of variety, of new situations and of new problems, it is fascinating."

But before discussing that let's go back first to University days. Miss Kavanah is a native of Bangor. As an undergraduate she lived at home, she was so busy in many musical and other activities there that she had little time to join in student functions. In this connection she commented that she did not realize then how much she was missing by not living on the campus. Mathematics was her major subject. For most students it is enough to accomplish a course in four years but not so with Miss Kavanah who did the job well in three years. In 1911 she received a Master's degree in Mathematics. It is said she was the youngest person up to that time to have received such a degree. She has since done graduate work at Columbia and New York Universities, and has many credits towards a doctorate degree.

Her teaching experience started at Jay. While she was primarily a teacher of mathematics, actually she taught several other subjects. A year later found her at South Portland high school devoting most of her time to mathematics. During that year she also taught domestic science in a Portland Settlement House. Beginning in 1913 she returned to Bangor as teacher of mathematics in the high school where she remained until 1918 when she accepted a position in Beverly, Mass. high school.

In January, 1921, Miss Kavanah went to Bridgeport, Connecticut, in which city

GLADYS E. KAVANAH, '10

she has been located ever since. It seems that the man temporarily in charge of the high school in which she taught, enjoyed his golf and since her class room was next to the office it devolved upon her to ring the bells for class periods when the clock went wrong, as often happened. This was the luck mentioned earlier. One little administrative responsibility led to another, each being performed well with the result that in 1925 she was made assistant principal of Congress high school, composed of some 600-700 boys. When Bassick Junior High School was opened in 1929 she was appointed assistant principal. At that time she was relieved of most of her teaching to devote time to administrative duties. Last fall when Bassick was made a senior high school she gave up all classes. The school now has 1500 pupils and 55 teachers.

In her present position she is responsible for making the schedule for all teachers and pupils, she supervises the clerical staff, handles the finances of all the school organizations, including athletics, secures and superintends the work of substitute teachers for the school, and is charged with keeping attendance records. She works with the nurse to promote good health conditions in the school, and with the dean of girls in welfare work. The principal reported with justifiable pride 95-96% attendance for last year, with no tardiness for more than 99% of all pupils.

Perhaps one of the most peculiar of her duties is that of discipline of all boys—except the few severe cases which go to the principal. When queried as to her policies and how a woman could handle a bunch of high school boys, she just laughed and said boys are not difficult to handle—first impress upon them the seriousness of the work they are doing and then give them every possible help, in a friendly, sympathetic manner so far as possible, and they will respond. In speaking of discipline she commented that at present most of the cases are of boys who are forced to stay in school because of laws. She feels the recent 16-year-old rule has created a difficult problem for school administrative officials. On this subject she has just written a paper for a national educational magazine. In addition to these duties she also does some educational guidance in an effort to assist boys to find subjects and courses of interest to them.

Although mathematics has been her major subject, Miss Kavanah has taught practically all subjects except Latin and English. She feels this background of experience has been very valuable to her in administrative work, giving her an understanding of the problems and relationships of the various subjects. She has found use for almost every course she had in college, even, she says, for the "mechanics and drawing courses of Prof. Charles P. Weston, which were not elected by many girls in the early 1900's." She remembers with appreciation the training in patient and painstaking work under Dean Hart, her major instructor.

Golf is her hobby but only as a diversion and for exercise, and taken in moderation. She has traveled extensively in the United States and some in Europe and is an ardent admirer of England. During her career she has declined several opportunities to teach mathematics at colleges, so much has the administrative phase of high school work appealed to her. She is active in several organizations and writes for educational magazines. She is a member of Phi Mu sorority.

This is our answer to her reply, "You will find nothing interesting in my career for the *Alumnus*."

Deering High School won the cup awarded annually to that school having at least three graduates at the University in full standing and whose freshmen attain the highest standing for the fall semester.

ATHLETICS

Highly Successful Indoor Track Season

Winning all three of its dual meets, its relay races in the B A A meet and placing well in the University Club meet in Boston the Indoor Track team enjoyed a very successful season under the coaching of Chester Jenkins. Three new indoor records were made including the high jump mark of 6 ft 1½ in. by Ireland and Webb, the 300-yard dash mark of 32¾ sec by Huft, and the 1000-yard run in 2 min 17 sec by Marsh. The improvement of these men and the marked development of certain others is one of the outstanding features of the season. Joel Marsh '35 performed in stellar fashion at the University Club meet in Boston where he set a new half mile record of 1 minute and 58½ seconds. There are said to be in college now eight men who can do the half mile in two minutes or less. From this group Coach Jenkins will select his team which will compete in the Penn Relays at Philadelphia.

Colby Defeated by Track Team

Meeting Colby for the first time in a dual indoor track meet at Waterville, the Maine team scored a 78½ to 38½ victory. George Frame '36 garnered thirteen points for Maine and was the largest point winner. The most exciting race of the day was that between Veysey of Colby and E. Black of Maine, there being but two feet separating them at the finish of the one mile run.

Following are the results of the events won by Maine: Frame, discus, 123 feet, 11½ inches; Frame, 35 pound weight, 49 feet 7½ inches; Webb, high jump, 5 feet 10 inches; Murray, 40-yard dash, 4½ secs; Goddard, 45 yd high hurdles, 6 secs; DeWick, 600-yard dash, 1 min, 20¾ secs; Hunnewell, two mile, 9 mins, 55¾ secs; Murray, 300-yard dash, 34¾ secs; and Wishart, 1000-yard run, 2 mins, 27¾ secs.

Phi Eta Wins Basketball Championship

Phi Eta Kappa defeated Alpha Tau Omega 36-17 for the Intramural Basketball championship in the finals held March 9.

The new baseball field will be used this season for the first time.

SCHEDULES

Varsity Baseball

Apr. 20 Colby (exhibition) at Waterville
Apr. 24 Brown at Providence
Apr. 25 Rhode Island at Kingston
Apr. 27 Boston College at Newton
May 4 Colby at Orono
May 7 Bowdoin at Brunswick
May 8 Bates at Lewiston

Freshman Baseball

(all games at Orono)

May 11 Ricker
May 15 Kents Hill
May 17 M.C.I.
May 18 Hebron
May 23 Higgins
May 25 Bridgton

Outlook for Baseball

The outlook for the 1935 baseball season is very encouraging. In addition to nine men who played some if not regularly in 1934 there are several promising sophomores who performed well on the freshman team last year. Thanks to the Field House the members of the team have been at work since late in February.

Twelve men are trying out for pitchers, three of whom, Hoyt, Henderson, and Golobski, pitched last year. Hoyt was the box mainstay in 1934. Two especially promising sophomores, Kilgour, a south paw, and Greene, are certain to make it interesting for the three veterans. Kilgour turned in an excellent season's record last year. Other veterans who are available are Sanborn, catcher; Woodbury, first base; Anderson and Marshall, second base; MacBride, short stop; and Walton, outfield. A large number of candidates are working out for positions, including two or three promising men who were not eligible last season.

Tennis Recognized as a Minor Sport

By vote of the Athletic Board tennis regains official standing on the campus after a period of fifteen years during which the sport has had no recognition. Under the new regulations a minor "M" will be awarded to members of winning teams and the major "M" for winning conspicuous achievement as defined by the rules just adopted. Four years ago the question of recognition for tennis was brought to the Athletic Board. Since that time students have been demonstrating their interest in the sport by competing in meets and paying their own expenses.

Under the coaching of Dr. George W. Small of the Department of English, the sport has become popular and the teams have been making very creditable showing in competition. A winter tournament has been held in the new gymnasium and a doubles tournament with 52 teams entered is now in progress. Much credit for the rise of this sport is due to Dr. Small.

Frank Fellows, of Bangor, a sophomore and son of Raymond Fellows '08, won the indoor tennis tournament by a score of 10-8, 6-4, 6-3.

State Track Meet To Be Resumed

Alumni as well as undergraduates will welcome the news that State track meets are to be resumed beginning this spring after a lapse of one year. The meet this year is to be held May 11 at Bates. Due to a contract already made, Bowdoin may not be able to enter a complete team but according to press statements they will be represented.

The State meets hereafter will be held under the authority of the Maine Intercollegiate Athletic Association, the Maine Intercollegiate Track and Field Association which has governed college track athletics in the State for thirty-five years, having voted to disband. The M I A A has for years decided matters of policy, has been the agency through which schedules have been made, etc., for all sports with the exception of track. The I C 4-A rules of competition and eligibility will govern future State meets. One of the rules is that freshmen shall not be allowed to compete. For this year, however, by special vote this rule shall not apply in order that the colleges may make necessary adjustments. Maine has not used freshmen in varsity sports for a number of years. In 1936 the meet is scheduled to be held at Maine, 1937 at Colby, and 1938 at Bowdoin.

Maine Defeats Bates Track Team

In a dual meet held in the Indoor Field March 2, Maine defeated Bates 67½ to 49½. It was a very interesting meet, including several very close races. Joel

PHILIP J. BROCKWAY '31

Appointed to the position of Placement Director and Assistant Alumni Secretary

Marsh made a new 1000-yard record of 2 minutes 17 seconds. Harold Webb, sophomore, and Ken Ireland, junior, tied in making a new high jump record of 6 feet 1½ inches. Following are the Maine winners of the events and their time and distances, Marsh, 1000 yd. run, 2 min. 17 sec.; Webb and Ireland, high jump, 6 ft. 1½ in.; Goddard, 45 yd high hurdles, 6¾ sec.; E. Black one mile run, 4 min 29 sec.; DeWick, 600 yard run, 1 min. 10¼ sec.; Hunnewell, two mile run, 9 min. 57 sec.; and Huff, 300 yd dash, 32¾ sec.

Track Team Defeats B. C.

Winning nine first places, the University Indoor Track Team defeated Boston College 81 to 45 at Orono, March 9. Although Maine was decidedly stronger than B. C., there were nevertheless some exciting races. Following are the Maine winners of the events and their time and distances. Bell javelin, 185 feet 6 inches; Goddard, 45-yard high hurdles, 6 seconds; Marsh, 600-yard run, 1 minute 15 seconds; Hunnewell, 2 mile run, 9 minutes 46¼ seconds; K. Black, 1000-yard run, 2 minutes, 18¾ seconds; Ireland, high jump, 6 feet; Hathorne, pole vault, 11 feet ¼ inch; Frame, 35 pound weight throw, 51 feet 2½ inches, and Ireland, broad jump, 21 feet 6¼ inches.

Music Night

The annual music night sponsored by Delta Pi Kappa, honorary musical fraternity, was more largely attended than similar events of recent years with a much improved quality of program.

The numbers rendered by the Band brought considerable applause, and the trumpet solo by Gerald Hart, freshman, son of John W. Hart '13, of Brewer, was particularly appreciated. Other numbers of the program were rendered by a string quartet composed entirely of women, songs by the University Chorus numbers by a trio of which Evelyn Adriance, freshman, daughter of Florence B. Adriance '04 of Maplewood, N. J., was pianist, and three pieces by the University Orchestra. Vocal numbers by Bettina Sullivan '36, of Orono; Margaret Homer '36, of Franklin; and Dana Sidelinger '36, of South Portland, and flute solo by Armando Polito '38 were additional features of the evening. The program was under the direction of Professor Adelbert W. Sprague '05, the Band being led by Roy H. Monroe '35, of Milo.

The New York Alumni Chapter of University of Vermont gives annually \$500 to assist a student from New York or vicinity registered at the University of Vermont.

Merrill '98 Promoted to Brigadier General

Dana T. Merrill '98, heretofore ranking as a Colonel in the regular army, has been placed in charge of a brigade and is

BRIG. GEN. DANA T. MERRILL '98

now located at Fort Sheridan, Ill. So far as can be determined from records readily available, General Merrill is the first graduate of the University who has attained the rank of Brigadier General in the regular army.

During the war, A. A. Starbird '98 was advanced to brigadier rank but later resumed colonelcy until his retirement in 1930. A short time later by act of Congress he was given retirement rank of Brigadier General.

As an undergraduate, General Merrill was active in military affairs. Immediately upon graduation he enlisted as a private in Company H of Maine Infantry and later saw service in the Philippine Insurrection. During the World War he served as Chief of Staff of the 35th Division, participating in the Meuse-Argonne and the Lys-Ypres offensives. His outstanding services won for him the Distinguished Service Medal, the Belgium Croix de Guerre, the Order of Leopold (Belgium) and the Officer of the Legion d'Honneur (France).

General Merrill has held many responsible positions during his service in the Army. Recently he has been commanding officer of the 10th U. S. Infantry at Fort Thomas, Ky.

The Women's Physical Education Department is to give a course April 3 to 17, which aims to train girls for camp counselors.

On The Campus

Pledges

The uncertainty, anxiety, and almost fury of the rushing season concluded with the pledging of 28 women to 6 sororities and 243 men to 16 fraternities, according to announcements which were made at the close of the rushing period. Following are the number of students pledged to each group. Sororities: Alpha Omicron Pi (8), Chi Omega (7), Delta Delta Delta (5), Phi Mu (5), Pi Beta Phi (2), and Delta Zeta (1). Fraternities: Alpha Tau Omega (29), Delta Tau Delta (23), Phi Eta Kappa (23), Theta Chi (22), Phi Gamma Delta (18), Phi Mu Delta (16), Sigma Nu (16), Phi Kappa Sigma (15), Tau Epsilon Phi (14), Lambda Chi Alpha (13), Sigma Alpha Epsilon (11), Alpha Gamma Rho (11), Sigma Chi (10), Beta Theta Pi (10), Kappa Sigma (9), and Delta Chi Alpha (3). Three fraternities, Phi Kappa, Beta Kappa, and Sigma Phi Sigma did not pledge.

Sigma Chi House Burns

Sigma Chi fraternity house, overlooking the Stillwater river near the bridge, was practically ruined by fire March 4. The beautiful old house built in 1835 and occupied by the fraternity since 1902 became virtually a mass of ruins in a brief space of two hours. The fire started in a concealed closet while the house meeting was being held and spread rapidly before it could be brought under control.

Shortly after the burning of the Mount Vernon house, Sigma Chi secured an option on that site. It is reported that they intend to build a new fraternity home there although no official announcement has yet been made.

The loss of this house is the fifth one within a ten-year period. It is most fortunate that in five such fires there has not been a single loss of life.

Masque Play

The Maine Masque presented its third major production of the season March 13 and 14 in the Little Theatre. It was entitled "Double Door" and is said to have been the first melodrama which the Masque has undertaken in recent years. Alice Sisco '35 of Portland, and Norman Carlisle '37 of Bangor, played the lead parts.

Alumni Day, Saturday, June 8

ANNIE E. MACLELLAN, '35

Student Leader

Annie E. MacLellan, of Weeks Mills, a senior, has been prominent in girls' athletic affairs ever since coming to the University and now occupies the position of President of the Women's Athletic Association. She was chosen three times as a member of the All Maine Hockey Team and four times as a member of the All Maine Basketball Team, has been active in the Women's Athletic Association all four years, being vice-president last year and president for the current year. She was a Sophomore Eagle, a member of the Big Sister Council, and an All Maine Woman. In addition to these honors she has won other lesser important distinctions.

Debating

This forensic activity has taken on even more life than in recent years. Two prominent no-decision debates held during the past month were with the University of Puerto Rico and Lafayette College teams. The subject of both debates was the Prevention of International Shipment of Arms and Munitions. For the Puerto Rico debate the Little Theatre was filled practically to capacity and almost a similar condition was true for the Lafayette debate. The latter event was a new type to the Maine campus, being the so-called Oregon or cross-question type which proved to be rather interesting to the audience.

Reverend David L. Wilson, of Bath, father of four boys who have or are now attending the University, spoke to Technology freshmen as a part of their orientation course on February 27. The subject of his talk was "The Art of Successful Living."

Campus Issues 50th Anniversary Number

The March 15 number of the Maine *Campus* was dedicated to the 50th anniversary of the students' news publication at the University. This special number, which consisted of four sections and twenty-two pages, was the most ambitious production of its type undertaken certainly in recent years if not ever.

The first section of the four pages dealt largely with current news on the campus as usual. It was followed by a pictorial section of four pages portraying developments on the campus from the early days. The third section featured a history of the student news publications, reproducing a page from an 1885 issue of the *Cadet*. Included in this section was a letter from John D. Blagden '86, first editor of the *Cadet*. The last section was made up largely of a history of the presidents of the University, a few brief biographical sketches of some of the more noted alumni, and other historical material.

The number was dedicated to Dean James N. Hart '85 in recognition of his long service to the University.

Maine Day

Details concerning a new campus event to be known as Maine Day were announced at a Student Assembly held March 12. Following some entertaining numbers of music and sleight of hand, student speakers outlined the purpose and program of this feature which it is hoped may become a custom.

Maine Day proposes to replace the sophomore-freshman class war which occurs annually in the spring with a more constructive program which will be beneficial to the University, to campus organizations. It is expected that men and women students as well as faculty members will participate in the program which will consist of clean-up activities during the forenoon, sporting events in the afternoon, and social function in the evening.

The annual basketball game between alumnae and varsity basketball teams resulted in a 26-16 victory for the undergraduates. The alumnae who played were as follows: L. Myers, S. Young, B. White, E. Thompson, E. Cassidy, B. West, J. Kiersted, M. Rogers, and C. Profita.

With the Local Associations

Southern California

Twenty-four alumni and their wives were on hand to greet Dean James Muilenburg at the meeting in Los Angeles, February 15

His talk concerning the University and the College of Arts and Sciences in particular was very interesting. The motion picture films were quite entertaining and more should be made each year.

The Association is considering the possibility of a scholarship at the University and hopes to join the ranks soon.

Officers were elected as follows: G. E. Springer '10, president, and Ezekiel L. Chase '26, secretary.

G. E. Springer

New York Alumnae

The University of Maine Women's Alumni Association of New York held a tea, February 23, complimenting Dean Edith Wilson. All were grateful for this opportunity to meet Dean Wilson, and enjoyed her talk very much. She told of the changes which have taken place, and of the plans for the future. It was a delightful occasion and everyone felt that Dean Wilson was no longer a stranger.

Jean Campbell '31, Sec'y

Western Massachusetts

The annual spring meeting of the Western Massachusetts Alumni Association was held at the Hotel Worthy in Springfield on Wednesday, March 13, at 6:30 p.m., with President Hauck, Secretary Crossland, and George M. Gay '89 as guests. Thirty-nine were present.

The new officers are: President, Harold E. Ellis '29, vice-president, Miss Ethelyn M. Percival '24 and secretary-treasurer, Richard Thompson '29. Executive committee, Arthur L. Davis '16, Myron C. Peabody '16, and Edward M. Engel '27.

Royal Higgins announced a scholarship of \$50 to be given annually, preferably to a student from Western Massachusetts.

Secretary Crossland told about the new campus events and about the Placement Service. Then Toastmaster Peabody introduced President Hauck who told about the work of the University.

The new association president, Ellis appointed a committee to arrange a picnic in July. Ethelyn M. Percival, Sec'y

Help your local association raise its scholarship fund.

Schedule of Meetings

BALTIMORE, MARYLAND—April 2 Alumni Secretary C. E. Crossland, speaker. Hotel Southern—6:30. J. E. Totman '16, chairman.

CHICAGO, ILLINOIS—April 13, Engineers' Club, 314 Federal Street. Dr. James Muilenburg, Dean of the College of Arts and Sciences, speaker. L. I. Johnstone '05, 1816 S. Crescent Ave., Park Ridge.

DETROIT, MICHIGAN—April 12. Dr. James Muilenburg, Dean of the College of Arts and Sciences, speaker.

LEHIGH VALLEY—April 1. C. E. Crossland Alumni Secretary, speaker. E. P. Welsh '22, 1926 Green Street, Allentown, Penna., secretary.

NORTHEASTERN NEW YORK—Schenectady, N. Y., April 9. Dr. James Muilenburg, Dean of the College of Arts and Sciences, speaker. S. O. McCart '29, 70 Jackson Ave., Schenectady, N. Y., secretary.

PHILADELPHIA, PENNA.—Monthly luncheon, April 6 and May 4, 1:00 p.m., Electrical Association Restaurant, Architects Bldg., 17th and Sansom Sts. George O. Ladner '26, Summit Ave., Langhorne, Penna., secretary. Meet first Saturday each month.

PITTSBURGH, PENNA.—April 11. Dr. James Muilenburg, Dean of the College of Arts and Sciences, speaker. R. B. Adams '29, 712 South Avenue, Wilkesburg, Penna., secretary.

PORTLAND ALUMNAE—Portland, April 4 and May 2, 7:30 p.m., Y.W.C.A. Clubroom. Mrs. Virginia Lamb '28, 118 Brentwood St., Portland, secretary. Meet first Thursday each month.

RHODE ISLAND—Providence, April 1, 12:00 M., Lofts Candy Shop. L. Addison Curren '26, 789 Park Ave., Cranston, R. I., secretary. Meet first Monday each month.

SOUTHERN NEW HAMPSHIRE—April 17. President Arthur A. Hauck, speaker. Harold W. Ingham '11, 328 E. Penacook St., Concord, N. H., secretary.

WASHINGTON, D. C.—April 3, 6:30 p.m., Sholl's Cafe, 1219 G Street N.W. Marion E. Lord '27, 1423 Geranium Street N.W., Washington, D. C., sec.

WESTERN MAINE—Portland, April 10, Y.M.C.A. President Arthur A. Hauck and Coach Chester Jenkins, speakers. Reginald H. Merrill '29, 80 Exchange St., Portland, secretary.

WESTERN MASSACHUSETTS—Springfield, April 3 and May 1, 12:00 M., Hotel Bridgeway. Richard Thompson '29, 41 Santa Barbara St., Springfield, Mass., secretary. Meet first Wednesday each month.

WESTERN NEW YORK—Buffalo, April 10, Consistory. Dr. James Muilenburg, Dean of the College of Arts and Sciences, speaker. Clayton T. Knox '29, 45 W. Mohawk St., Buffalo, N. Y., sec.

WHITE MOUNTAIN (N.H.)—Berlin, Apr. 3 and May 1, 6:00 p.m., Hotel Costello. C. H. Goldsmith '15, 110 Washington St., Berlin, N. H., secretary. Meet first Wednesday each month.

Western Maine Alumni

Plans are being made by members of the Western Maine Alumni Association to hold their annual spring stag meeting at the Portland Y.M.C.A. on Wednesday, April 10. Invitations have been sent to President Arthur A. Hauck, Coach Chester Jenkins, and Alumni Secretary Charles E. Crossland to be present at this meeting.

Reginald H. Merrill '29, Sec'y

South Kennebec

Nearly 100 alumni and friends met to welcome Pres. Hauck for his first visit to the South Kennebec Alumni Association at the annual dinner held February 7 in Hotel North, Augusta.

Horton Flynt '30, president, introduced Judge Frank Southard as toastmaster. The speakers in addition to Dr. Hauck were Senator L. F. Hussey '19, G. S. Williams, president of the General Alumni Association, and Alumni Secretary Crossland.

Officers were elected as follows: President C. P. Osgood '24, vice-president, John Barnard '22, and secretary-treasurer, G. H. McGouldrick '23.

The Association voted to give annually a \$75 scholarship to an undergraduate at the University whose home is in the South Kennebec area.

G. H. McGouldrick, Sec'y

Portland Alumnae Club

Twenty-four members of the Portland Alumnae group met with Edith G. Wilson, dean of women at the University, Thursday, March 7, at the library of the Y.W.C.A. For most of the women it was their first opportunity to meet Dean Wilson and they were very enthused about her report of the broad activities of the women students on campus.

At the business meeting, Helen Findlay reported that the benefit bridge held for the purpose of raising funds for the watch awarded annually to an outstanding senior girl, had been very successful. Aiding Helen on the committee were Winona Harrison, Bea Cleaves Stevens, and Helene Douglass Daniels. Dorothy Findlay, treasurer, was named as chairman of a committee to select the watch.

Plans were made for the annual Spring luncheon to be held during Easter vacation.

Polly Stearns Loring, Virginia Berry Humphrey, and "Peg" Merrill Pratt were hostesses. Virginia S. Lamb, Sec'y

YORK COUNTY—Kennebunk, April 9, 6:30 p.m., Tavern. President Arthur A. Hauck, speaker. R. H. Lovejoy '18, 9 Maple St., Sanford, secretary.

More Association reports on next page.

Androscoggin Alumnae

The University of Maine Women's club of the two cities held a meeting Friday, March 8, at the W L U club house. The speaker, Dean Edith Wilson of the college told of some of the attempts to organize the women at the University in order that they might have more force on the campus. She told also of some of the recent changes on campus of interest to the alumnae.

Dr. Marion D. Sweetman of the Home Economics Department at the University of Maine, accompanied Dean Wilson here and was a guest of the club. Dr. Sweetman spoke briefly to the girls and answered questions relative to her department.

Hostesses for the social hour were Mrs. Charles L. Eastman, Mrs. Laurister N. Brown, and Miss Hortense Welch. Mrs. William F. Schoppe poured.

Mrs. Elizabeth Pendleton, Sec'y

Central Maine Alumni

In spite of the slippery traveling, a new record of sixty alumni and friends turned out February 26, to hear Dr. Hauck speak at the Tacomet Club House in Winslow. President A. P. Wyman '07 presided, and Mac McCarthy '11 led the singing.

After a chicken pie supper, President Wyman introduced J. L. Boyle '12 who welcomed President Hauck for the association. Following this welcome, Charles Crossland, Alumni Secretary, told about campus news and scholarships at the University. The highlight of the evening was the talk by the guest of honor, Dr. Hauck. He gave some very interesting details concerning the policies of the administration.

At a business session the following officers were elected: President, Leon E. Savage '32; and secretary and treasurer, Lovell C. Chase '32. It was voted that the president appoint a committee to investigate ways and means of earning money for a scholarship. This committee is to report at the next meeting of the association.

Lovell C. Chase, Sec'y

Pittsburgh Alumni

The annual meeting of the Pittsburgh Alumni Association was held at the home of Henry E. Cole, January 9, with 21 present. A short business meeting was held with the following election of officers: President, John W. Brown '09; vice-president, Elwood N. Osborne '25; and secretary-treasurer, R. B. Adams '29.

Mr. Cole entertained the group with moving pictures, taken at the time he vacationed in Alaska, The South Sea Islands, and the Rock Bound Coast of Maine. Delicious refreshments were

Named Department Head

DR. HUGH C. MCPHEE, '18

Since becoming associated with the Bureau of Animal Husbandry in 1923, Dr. McPhee has advanced rapidly. His recent appointment as chief of the Bureau makes him a national agricultural figure. He is one of the youngest men ever appointed as a department head. In addition to his bachelor's and master's degree from Maine, Dr. McPhee also holds a doctorate from Harvard.

served and the evening concluded in singing songs.

Our active group has been rather small these past two years, but I assure you that the spirit is still here in spite of the need for recruits. R. B. Adams '29, Sec'y

Lehigh Valley

A meeting of the Lehigh Valley Chapter was held on March 5, at the home of Mr. and Mrs. Woodsum with an attendance of 20. The first part of the evening was spent in playing cards and other games.

After cards, a business meeting was held, during which officers were elected: President, Paul S. Armstrong '21; secretary, E. P. Welch '22, and assistant secretary, Peter Kuntz '32. After the business meeting, Mrs. Woodsum served refreshments.

Worcester County

The Worcester (Mass.) County Alumni Assn. will meet in Worcester April 16 at which time Dr. Arthur L. Deering, Dean of the College of Agriculture will speak. Mrs. E. R. Fuller, 24 Neptune Road, Worcester, Secretary.

More Local Associations To Give Scholarships

Two more local alumni associations, Western Massachusetts and Central Maine have definitely voted to give undergraduate scholarships while two others, California and Philadelphia, are working to raise funds to do their part in forwarding the alumni program which aims to raise twenty additional scholarships from local groups. The total is now ten, Ohio, Boston, Southern Kennebec, and Penobscot Associations having previously announced their actions.

The Western Massachusetts group have not only raised their money but are to have it awarded to a Western Massachusetts undergraduate for the present spring semester. This was reported at the annual dinner in Springfield, March 13.

Central Maine alumni living in and around Waterville are considering ways and means, having definitely indicated their approval of giving a scholarship when they met February 26.

It is expected that both the California and Philadelphia organizations will have an announcement to make soon.

Here's a Laugh

C. E. Gilbert '94, of Bangor, in response to inquiry as to who was Maine's first football coach expressed the belief that Chesley Johnston, a member of the class of 1893, had that distinction, returning to coach at Maine after graduating from Tufts. He added, "He was one of a group from ten to sixteen who were suspended for one year. Principal reason was stealing a beehive containing a very active swarm of bees, from a nearby farmer. The guilty men were easily identified next morning."

1927 — 1927

Do you know? June 8 will be here before we realize it. Have you made plans to be on the campus with your families? Come prepared to forget your business, and worries, and really enjoy yourself. Be ready with all your stories of what you have been doing since that memorable day in June, 1927. We shall all want to hear them.

Come on—Dan Torrey, of Deer Isle; Dick Dolloff, of Presque Isle; Marion Lord, of Washington; Tommy Bixby, of New Mexico, and all you others, let's start thinking and talking June 8.

Crystal H. Dostie

Alumni Personals

DEATHS

'76 Word has been received from Louise Lothrop Oakey, daughter of the late L. R. Lothrop, '76, that Phillip Hubbard passed away recently.

Luther R. Lothrop, of San Bernardino, California, passed away on October 8, 1934, from hardening of the arteries of the brain. He had a very severe attack of illness from this cause in the summer of 1932 at which time he was taken to the hospital where he died. Mr. Lothrop was for twelve years with the Northern Pacific R.R. doing locating and construction work in all states from St. Paul to the Coast. Beginning in 1900 he was for three years chief engineer and general superintendent of Eureka & Kalmath River Railway. After that he did such work as location and construction of railways in California, Arizona, and Nevada and highway location and construction for the State of California. He was County Highway Commissioner in San Bernardino County for eight years and was also superintendent of streets in the city of San Bernardino. He retired in 1927. Mr. Lothrop was a member of the Masons for 55 years and the Elks, 25 years. He also was a member of the Rotary Club of San Bernardino.

'82 Thomas Walter Hine, 74, vice-president and resident manager of Holmes-Eureka Lumber Company, died at his home in Eureka, California, February 20, following a brief illness. Mr. Hine was born at Bowdoin and spent his early manhood on his father's farm. At the age of 21 he went to Phoenix, Arizona, where he was engaged in teaching school in a military reservation. Later he studied law and after being admitted to the bar opened a loan and trust company with his brother-in-law, continuing in the enterprise until his health failed. Mr. Hine then went to California to seek a desirable location for regaining his health, settling in Eureka, California, about 1898. He became connected with the California Iron Works and then operated a shingle mill. In 1904, Hine joined the Holmes-Eureka Lumber Company of which he was vice-president and resident manager until he retired approximately two years ago. He was a director of the California State Automobile Association and was one of the most prominent business men and leaders of Eureka, being identified with every progressive movement there for the past 35 years. He was at one time president of the Eureka Chamber of Commerce and took an active interest in the Boy Scouts, Camp Hine on the Van Duzen river being named for him. He was a Mason, a Shriner, a member of the Lodge of Elks and the Eureka Rotary Club. Mr. Hine is survived by his wife, Mrs. Rachel L. Hine, a son, Harry Hine, and a sister, Mrs. Margarette Millay, all of Eureka, California.

'91 George E. Thompson, 63, prominent Bangor attorney, died at his home March 8. He had not been able to attend to his law practice for a year or more. Mr. Thompson was recognized as a leader in his profession and his opinions on matters

of large importance were sought by fellow members of the bar. In 1909, he was elected County Attorney which office he held for two terms. He retired from public service in 1913 and resumed private practice. Prior to his service as County Attorney, in 1905 Mr. Thompson represented Orono in the House of Representatives. In private practice he was eminently successful. He represented many large corporations, among them being the Eastern Car Heater Co., the Travelers Insurance Co. and also was special counsel for the Bangor and Aroostook railroad. A dynamic trial lawyer, Mr. Thompson appeared in many courts in the state on important cases. Mr. Thompson was born and received his early education in Orono. After graduation from Maine, he applied himself to engineering, the subject in which he majored at the University. Very soon after, however, he attended Boston University, returning to Orono to practice law for a short time and then went to Bangor where he practiced law until ill health forced his retirement from active practice. He was a member of the Penobscot Bar Association, the Elks Club, the Knights of Columbus, and the Taratine Club. Surviving are his widow, Mrs. Belle E. Thompson, two daughters, Mrs. George L. Thompson '26, and Mrs. Merrill H. Thompson '28, both of Asbury Park, N. J.

'99 Howard P. Brett, 60, of Portland, died January 20th from carbon monoxide. Mr. Brett was born and spent much of his life in Bangor. He showed brilliancy in several lines of art and skill. He had lived in Portland for the past four years and for the past three had been employed at the Libby Garage Company. He leaves no immediate relatives.

'04 John Howard Haley, 60, prominent member of the Somerset County Bar, county attorney for two terms, judge of the Pittsfield Municipal Court and in general law practice in Hartland, died February 12 in a Waterville hospital following an operation. He was born in Cornville and was graduated from Somerset Academy and Skowhegan High School. Soon after graduation from the University he opened an office in Hartland which he has occupied ever since. He was a trustee of Somerset Academy and a member of the board of directors of the Scott-Webb Memorial Hospital. He is survived by his wife, Mrs. Nellie Wade Haley, a brother, a sister, and a niece and nephew.

'10 Word has been received at the Alumni Office that Andrew Percy Havey (law), who has been lost according to our files, died on June 10, 1927. He was a member of the Maine Legislature in 1907-08 when he was attending the University.

BY CLASSES

'85 Class Reunion, June 8, 1935.

Austin H. Keyes, who is retired, lives at 105 Rosemary St., Needham Heights, Mass.

'88 Class Reunion, June 8, 1935.

Thomas G. Lord is a funeral director at 11 Bridge St., Skowhegan.

Ralph H. Marsh is a physician and surgeon in Guilford.

'89 Class Reunion, June 8, 1935.

Eben R. Haggett, president of J. S. Hoskins Lumber Co., resides at 5221 Springlake Way, Baltimore, Md.

John Reed's address is R.F.D. No. 4, Waterville. He is a consulting engineer.

'90 Class Reunion, June 8, 1935.

George H. Babb, inspector and lecturer for Maine Department of Agriculture, State House, Augusta, is living at 108 Bridge Street.

'91 Class Reunion, June 8, 1935.

James W. Davis is a civil engineer and contractor. His address is Route 2, Box 13, Brownsville, Texas.

'93 William C. Hammatt is resident engineer inspector for Federal Emergency Administration of Public Works, 611 State Building, San Francisco, Calif.

'98 Brig. Gen. Dana T. Merrill is in command of the 12th Infantry Brigade, with headquarters at Fort Sheridan, Illinois.

'99 Allen W. Stephens presided at some of the sessions of the recent annual convention of the American Concrete Institute of which he is a director. He is also chairman of the Institute committee on Revision of standard Building Codes.

Charles C. Whittier, consulting engineer for Robert W. Hunt Co., Chicago, Illinois, is president of the Western Society of Engineers. His residence is 6025 University Avenue.

'00 Charles A. Robbins has been appointed acting postmaster of Lincoln. For ten years he was principal of Mattanawcook Academy and previously was principal of Mattawankeag High School, East Millinocket High School, and Patten Academy.

'02 William B. (Bill) Thombs, one of the best known automobile men in Northern New England and who for 18 years was the Buick dealer, has become associated with the Packard Motor Company's branch in Portland as a member of the sales force. In recent years he has been connected with the Franklin Sales and Service Company.

'03 Marion Cummings Patrick, wife of Stephen E. Patrick, of Augusta, state director of vocational education, died on Monday, February 18.

'04 A. E. Davenport is president of the Avalon Orange Groves Co., 29 West Central Ave., Orlando, Florida. He is also vice-president of Soil Builders, Inc. He resides in Winter Garden, Florida.

A. R. Small, formerly vice-president of Underwriters' Laboratories in charge of the New York branch, has been elected president of Underwriters' Laboratories. His Chicago business address is 207 E. Ohio Street.

'05 Freeman M. Sampson, of Bangor, has been awarded a clock for the second time in recognition of his splendid achievements in being one of the six agents of the Travelers Insurance Co. in Maine to make the required number of points in a recent life insurance contest.

'07 Class Reunion, June 8, 1935.

Arthur R. Lord is administrator, Work and Rehabilitation Division, Illinois Emergency Relief Commission, Chicago.

He is living at 127th St and Kean Ave., Palos Park, Illinois.

'10 Class Reunion, June 8, 1935.

Grover T. Corning is associated with Bond & Goodwin Inc., 30 Federal St., Boston, and resides at 11 Orchard Circle, Swampscott, Mass.

Albert E. Libby, manager of Portland Fruit Co., resides at 55 Bay View Ave., South Portland.

Allen E. Oak, assistant treasurer and manager of the Griffin Producing Co., has moved to 1412 S. Elwood Ave., Tulsa, Okla.

Calling Car 1910; Calling Car 1910; Attention, Please

The University of Maine has learned that a group of criminals, known in the underworld as "TEN-NERS," is collecting in all sections of the country with the idea of taking possession of the University on June eighth, to celebrate what is called their "TWENTY-FIFTH." The police are at a loss to understand what the term "TWENTY-FIFTH" means but have not forgotten the horror of June, 1920, when this same gang, disguised as Indians, took possession of the campus, and held full sway for three days, celebrating what they called their "TENTH."

The police have discovered that the organization is at present led by one known on their records as "Scudder" Moore, whose criminal past is only equaled by such men as those who form the group which composes his crafty lieutenants. It is learned that their organization is so perfected that every one of these law breakers will reach the campus on June eighth.

Although gravely disturbed, the authorities at the University feel perfectly capable of handling the situation and these men will receive a warm reception when they arrive on the campus.

'11 Raymond E. Davis, professor of Civil Engineering, University of California, was awarded for the second time in four years the Wason Medal given by the American Concrete Institute. This award is made annually to the person who submits the best paper on concrete to the Institute during the year. It is said Prof. Davis is the only one to have received this award twice, having previously received the medal in 1931.

'12 Walter E. Perkins, construction engineer for U. S. Treasury Dept., lives in Weehawken, N. J., at 1 Second Street.

'13 Andrew J. Beck, of Washburn, was elected president of the Aroostook County Council at an organization meeting at Presque Isle recently.

J. W. Hart, of Holden, has been appointed project manager in charge of Maine's sub-marginal land program, with offices located in Bangor.

'14 Phil Thomas' boy was a member of the Rumford High School basketball team which won the interscholastic championship of Maine.

Carl Weick, of Presque Isle, representative for Aroostook County Bankers

Association, is a member of the Aroostook County Council recently organized.

'15 Carl Magnus, of Richmond, Va., will play an important part in the arrangements for the national convention of the American Pulp and Paper Mill Superintendents Association which will be held in Richmond, June 5-6-7, with approximately 800 superintendents and executives in attendance. Mr. Magnus is chairman of the committee on registration.

'16 Burke Bradbury is radio receiver development engineer for General Electric Co. in Bridgeport, Conn. His residence address is 4531 Main St., Stratford, Conn.

'17 Ruth E. Brown is in the Inheritance Tax Department of Attorney General's Department, State House, Augusta. She lives at 17 Green Street.

Nathaniel F. Forsyth is assistant secretary, Board of Education of Methodist Episcopal Church in Chicago, Illinois. He is living at 10640 S. Irving St.

A daughter, Jean Elizabeth Nash, was born October 14, 1934 to Mr. and Mrs. William E. Nash. For the past two years Mr. Nash has been doing remodeling and rehabilitation work in the Chicago district for the Massachusetts Life Insurance Co. His address is 2305 E. 70th Street, Chicago.

'18 Robert Rich, prominent Berlin, N. H., attorney, is chairman of the Republican city committee.

Ruth (Chalmers) Rich of Berlin, N. H., was nominated in the Republican caucus held in Berlin recently for the position of library trustee.

James A. Gallagher, of Bangor, has received appointment as investigator in the Alcohol Tax Unit of the Bureau of Internal Revenue with headquarters in Portland. Much of his time will be spent in various New England cities. For the past several months he has been superintendent of the ERA mattress factory in Bangor.

Dr. Hugh C. McPhee, geneticist of the U. S. Department of Agriculture, has been appointed chief at the animal husbandry division, one of the major research units of the department. Doctor McPhee joined the department in 1923 and was placed in charge of animal genetics investigations in the Bureau of Animal Industry in 1926.

'19 Word has just been received that the husband of Etelle (Sawyer) Carlson has been made a Captain. They are now on duty at the American Legion Guard, Peking, China. The Carlsons expect to return to the United States in July after having completed a two-year tour of duty in Peking, China. This is the second tour they have had in China—from 1927 to 1929 they were in Shanghai.

Ralph A. Wilkins is general superintendent of paper, box and carton divisions of Bird & Son, Inc., East Walpole, Mass., and resides at 2 Park Lane.

'20 Verne C. Beverly, of Presque Isle, was elected secretary of the Aroostook County Council at an organization meeting at Presque Isle recently.

Raymond and Eleanor (Flint) Chaplin '22 are now living in Cornish where Mr. Chaplin has been appointed postmaster.

'21 Michael Pilot, Bangor attorney, has been appointed as part-time Assistant U. S. District Attorney for Maine. He

will serve in the northern division, with headquarters at Bangor. Mr. Pilot has practiced law in Bangor for more than fifteen years.

'22 Orlando A. Lester is agricultural instructor at Colebrook Academy, Colebrook, N. H.

Mr. and Mrs. John H. Needham, of Orono, are receiving congratulations upon the arrival of a son born February 21.

'24 H. Richard Trask, metallurgist in Hartford, Conn., is now living on Tunxis Ave., Bloomfield, Conn.

'25 I. Stanley Bailey has been promoted to sales manager of New England district of Bird Flooring Sales Corp., Business address—c/o Bird & Son, East Walpole, Mass. Residence—137 Beaconsfield Road, Brookline, Mass.

Harry Belyea is publicity manager of the Lafayette Hotel, Portland.

L. B. Chalmers is manager of Loft, Inc., 1435 St. Nicholas Ave., New York City.

Linwood L. (Zeke) Dwelley, Director of Athletics at Edward Little High School, has been encouraging winter sports in Maine high schools during recent years. He coaches varsity winter sports at Edward Little, his team winning the state championship last year. Coach Dwelley encourages the boys to keep up their activities after they have graduated from school, and this year three of his former pupils are starring here at the University.

William B. Lambert is a salesman for American Cyanamid & Chemical Corp., St. Bernard, Ohio. His residence address is 3774 Broadview Drive, Cincinnati, Ohio.

A daughter, Betty Ann, was born February 27, to George and Nan (Mahoney) Graham.

'26 Class Reunion, June 8, 1935.

Floyd J. Carr is associated with Frank Grocery Co., 115 State St., Bangor, and is living at 12 East Summer Street.

'27 Class Reunion, June 8, 1935.

Edward D. Johnson is assistant horticulturist in Dept. of Agriculture, State House, Augusta, and resides in Monmouth.

John E. Patch, draftsman for New England Tel. & Tel. Co., has moved to 61 Ocean View Ave., South Portland.

Raymond E. Wood is a research engineer on auto radios and is living at 6717 Glenwood Avenue, Chicago, Illinois.

'28 Class Reunion, June 8, 1935.

Earl F. Bennett is now with the Maine State Highway Department. He recently delivered a series of lectures to civil majors here at the University on phases of road construction. His address is 126 Sewall St., Augusta.

Granville C. Chase, who has been chemist with the Chemical Paper Company, of Holyoke, Mass., for the past four years, attended the annual meeting of T. A. P. P. I. held in New York February 18-21.

Whitcomb Haynes is track supervisor for Maine Central Railroad Co. at Mat-tawankeag.

The marriage of Marietta Alice Morgan of Falls Church, Virginia, to Albert Marcus Parker, of Washington, D. C., on Thursday, February 21, has been announced.

William C. Smith is associated with J. & P. Coats, Inc., Pawtucket, R. I., and resides at 224 Broadway.

SO LITTLE... SO LOVABLE

and so dependent on you

WHAT excitement there was when she got her first tooth. And her second! And now there are seven. Already she is making brave attempts to say a word or two.

Much of your life is given over to keeping her well and happy. For she is so little and lovable—and so dependent on you.

During the day and through the darkness of night you have a feeling of safety and security because of the telephone. It is an ever-watchful guardian of

your home—ready to serve you in the ordinary affairs of life and in time of emergency.

In office and store and factory and on the farm the telephone is an equally important part of every activity.

The telephone would not be what it is today if it were not for the nation-wide Bell System. Its unified plan of operation has developed telephone service to its present high efficiency and brought it within reach of people everywhere.

An extension telephone in your bedroom, sun room, kitchen or nursery will save many steps each day. It insures greater safety and privacy yet the monthly charge is small.

What Say—28er!

Have you made your vacation arrangements for June 8th? If not, it's time that you had. All the committees are functioning and all they need is your presence to make our reunion a howling success.

Andy Cushing and his committee are planning a great program for all of us and he promises it to be a top notcher with something of a surprise for everyone.

Virginia Smith, chairman of the stunt committee, says that everyone will be informed before long as to their part in a stunt which is original and should prove a knockout.

Have you contributed your dollar? If not, send it to Horace Bell, Machias, Maine. I needed some in a hurry for the circularizing of letters. Horace needs every dollar to pay the bills that will come due. We promise that you will get value received, if you give us your loyal support.

THINK OF IT—Two more months to go! No time to spare! Let us know as soon as possible if you plan to be there and to bring others in your family. Bob Scott, from way down in Texas, will be there and is bringing his wife. What about you who live nearby? How about taking the attendance cup? Bring all the family and let's make it a grand home coming reunion for 1928.

George F. Dudley

'29 Class Reunion, June 8, 1935.

The engagement of Raynor Fitzhugh to Miss Marion Fraizer Roberts (Greenwich Academy and St. Mary's School, Raleigh, N. C.) of Old Greenwich, Conn., has been announced. Raynor is connected with Abraham and Straus, Inc. in Brooklyn. His address is 12 Vista Ave., Old Greenwich, Conn.

H. Richard FitzMortis, staff engineer for New York Telephone Co., New York City, resides at 134-14 Franklin Ave., Flushing, N. H.

Paul D. Giddings of Augusta, student at Harvard Medical School, has been awarded a medical scholarship by the Bowdoin College committee on medical scholarship. Of the 33 other recipients all others were Bowdoin graduates or former students.

The engagement of Pauline June Seavey of Greenfield, Mass., to Dr. Stephen Girard Lee, Jr., of East Orange, N. J., has been announced. Miss Seavey is employed in New York City.

Mr. and Mrs. Donald E. Tracy announce the arrival of Donald Scott Tracy, 7 pounds, February 18.

'30 Pauline Hall, Secretary, Kennebunk.

Interesting news about an interesting person—Edda Bailey recently wrote from Marion, Virginia, that she had come on

from New York City, where she has resided the past few years, to join her mother. Together they will journey on to the West Coast, there to greet the rest of the family and sail en masse from San Francisco the 22nd of March on the S.S. Coolidge for the Orient. Eventually Edda plans to dock at Manila, the Philippines, for a year's visit with her sister.

A son, Edward Bartlett, was born December 8, 1934, to Mr. and Mrs. Philip Beckler, of Chatham, N. Y.

Howard DeCoster is an assistant engineer with the Maine State Planning Board in Augusta.

Mr. and Mrs. Horton Flynt have a young daughter, Margaret Jean, born last October 23rd.

In Q. S. T. for February, 1935 (a radio magazine), W. H. Goodell, Jr., has an excellent article entitled "Getting Cooperation in the Antenna System." This article includes a practical survey of the important features of different types of antennae.

Mrs. P. J. Gorman (Blanche McLaughlin) is superintending a nursery school in Milltown, Maine, at 354 North Street.

Dave Kingman and Miss Virginia de Borba were married January 18 at Hanover, Mass., where Dave is teaching in the high school.

Syl Pratt is back in Portland again, still with the Home Owner's Loan Corporation, 480 Congress Street. He had previously been with the Augusta office.

Herbert Randall is an inspector, blister rust control, with the Mass. State Department of Agriculture. He is living at 6 Chestnut St., Wakefield, Mass.

Philip Sawyer is owner and manager of Sawyer's Garage in Milbridge, and is also a car dealer.

Charles Schlosberg, M.D., is in the pediatric service of the Boston City Hospital.

Edward Tolman is principal of the high school in Monticello.

Announcement has been made of the engagement of Miss Ada M. Cram, of West Baldwin, to Paul Wadsworth, of Hiram. Miss Cram is a graduate of Bridgton High School and of Colby College, '31. Since her graduation she has taught at Fryeburg Academy. Paul is engaged in farming and is also a rural mail carrier.

Asa Wasegatt has been elected as one of five selectmen of Bar Harbor.

'31 Mary Carter, Secretary, Orono.

Greetings:

And isn't it grand to have Spring here? I'd know it without the puddles on the campus even, for every time I've been to Bangor lately I've seen some of '31. Who? Well, Glo' Wadleigh Brigham, Marg Mooers, and Viv Drinkwater were among the crowd yesterday. They're three hard-working school-ma'ams (to hear them tell it). I also saw Ermo Scott. He's quite the same "Scotty," busy with his job and extra-curricula activities at Castine Normal.

Then last week I saw Lou Durgan Hammons, but she was in too much of a hurry to talk long. Can you imagine? The reason was a 14 months old son waiting for her at home.

Helen Twombly was around a week ago. She says her brother Jim is with the Geologic survey down in Massies Hill, Virginia.

Polly Longley is teaching in the Junior

high school at New Haven, Conn

If any of you in N. Y. should see an ad for *Spanish Night* or hear strains of *La Paloma* I should advise you to investigate. Your troubles would be repaid, for you'd find Louis Cabrera behind it as of old. He's on the faculty of "The Institute of Adult Education," Stenway Hall, N. Y. City.

"Mose" Wadleigh is to graduate from MacAllister Embalming School in N. Y. City the latter part of March. Then where, Mose?

Dick Munce who is a senior at Harvard Medical School has had two honors recently. First he was accepted as a member of Alpha Omega Alpha, an international honorary medical society like Phi Beta Kappa. Then he successfully passed the stiff entrance exams to do 16 months internship at Peter Bent Brigham hospital after he graduates next June. Congratulations from us all, Dick.

Dick Page is a Research fellow in Industrial Hygiene at the Harvard School of Public Health, 55 Shattuck St., Boston. At present he's living at 76 Francis Street.

If you should happen to be on campus at lunch time, then hie yourself to the cafeteria at Merrill Hall where you may buy a swell lunch. There you'll find Mabel Lancaster Stewart. She's teaching a course in Institutional Management, and for practical experience, her girls are running this cafeteria. Mabel's there watching to see that things go right, and ready to greet everyone who comes.

It's a long jump to Cable, Wisconsin, but that's where Horace and Charlotte Bowman Flynn, their daughter, Martha, and son, Carl Winthrop, are living. Carl Winthrop is a new member of our class, for he only arrived Jan. 29th, but he weighed 7 pounds at the age of 2 weeks, so perhaps some day he'll be as big as his Dad! Charlie writes they've moved four times in the last year. Horace is now in charge of crews in two camps on a Planter Timber Stand Improvement Project, so she hopes to stay put in Cable for a while. I was more than glad to hear from them. C'mon some of you other "31-ers" follow their example and drop me a line 'ere I pine away and die. S'long, Mary.

Bee and Parker Cushman! You're the hardest people to keep up with! They're down in Ellsworth now, folks, where Parker's a highway bridge engineer working in Aurora.

"Wardy" Cleaves is down that way, too, technical foreman of forestry work in the 1104th Co. CCC, Ellsworth.

Phil Brockway's been holding out on us. He and Muriel have a daughter, Elizabeth Ann, born in March, 1934. They are living at 3437 Beaconsfield Ave., Montreal, Quebec.

On Feb. 23, Stan Eaton and Dot Curtis were married in the Methodist church in Winterport. Dot is the Waldo County social worker for the State Dept. Stan is principal of Appleton High School. They are living at 3 Court St., Belfast.

The engagement of Joe Stewart to Grace Riddle, of Rangeley, has been announced recently. Miss Riddle was graduated from Arnold College of Physical Education in New Haven, Conn., in 1934, and is now physical director in the Taunton State Hospital, Taunton, Mass. Joe is in the firm of Davis and Catterall, N. Y. City.

Dinner! So now for eats, see you all

again next month if—you send me some news. Please do.

Mary

'32 Helen S. Hincks, Secretary, Orono

Smith Ames is teaching Biology and General Science in the Franklin High School. He is living at 136 School St., Franklin, Mass.

Wm. Wirt Brown, Jr. is employed as floorman for the W. T. Grant Co. in Charlotte, North Carolina.

Newton C. Churchill has been promoted from field agent of the Federal Land Bank in the Auburn district to director of that work in the Bangor district. Newt and Mrs. Churchill and their young son are living at 269 French St., Bangor.

Paul Danforth is field organizer and representative for the International Assoc. of Lions Clubs, with headquarters at 26 Spring St., Belfast.

Cal Fickett is directing the Rural Electrical Survey for the FERA in Maine.

Harland F. Leathers has been pledged to Hughes Inn chapter of Phi Delta Phi, national honorary legal fraternity, at Duke University, N. Carolina, where he is studying.

Atwood Levensaler is instructor of English in Rockland High School. Address—17 Grove St., Rockland.

Robert H. Pitts is in theatrical work. At present he is dancing in vaudeville. Address—244 West 56th St., New York City.

Cyrus L. Ricker is stockman in the S. S. Kresoe Co. store in Portland. His address is c/o Y.M.C.A., 70 Forest Ave., Portland.

Leon E. Savage is employed in the engineering department of the Hollingsworth and Whitney Co., Waterville.

Edith Talbot has been transferred to Augusta by the Central Maine Power Company.

William Weiner is a medical student at Boston Univ. School of Medicine. Ad-

dress—105 Evans St., Dorchester, Mass.

Ronald E. Young is working for the Standard Oil Co. in Connecticut. His address is 236 Sigorney St., Hartford, Conn.

'33 Martha S. Baldwin, Secretary, 275 Broadway, Norwich, Conn.

Dear Classmates,

While Lawrence Tibbett is singing, I'll say "Hello" to you for this month. Do

you listen to this great baritone on WJZ at 8 30 p.m. on Tuesday evenings? He is fine

Tom is sitting here correcting papers. I tell him he shouldn't give quizzes and then he wouldn't have to suffer, too

I was so glad to hear from Bill McBrady the other day. He is in the U. S. Forest Service, Lufkin, Texas, as an Estimator. He says the weather "beats that Maine climate." However, Maine had an unusually strong attraction for him this last Christmas—he became engaged to Grace Oliver, of Orono. Congratulations, Bill! Thanks for writing this news.

Peg Davis answered my plea from Woodland, Maine. I did "bungle" news concerning you, didn't I? I'm nearly as good as Mary Carter at "improvising" news. Peg says she's had a silent bet with herself that she'd remain "a woman of mystery" and her "whereabouts would never be known." Nay—nay—however.

"Scottie"—Mary Scott—is "jack of all trades" in the high school at Andover, Maine. She teaches Latin, French, English, and American History. Versatility personified.

Merritt Dunn is "down on the ridge" as she calls it—teaching the first eight grades in North Sedgwick.

"Do" Brown is in New York and "has been improving her time by reading Shakespeare and knitting"—so she says.

Peg plans to be in Boston for Easter vacation and have a "confab" with Dot Hutchinson who is at the Mass. General Hospital.

Thanks for all this news—Peg.

I know that we are all glad to learn that "Em" Thompson is engaged to Dick Elliott. After leaving Maine, "Em" received in 1934 a Master of Science degree in Zoology from Mt. Holyoke. Dick is employed as a junior forester at Woodsville, N. H., in the White Mountain's National Forest. This is good news!

Bill Bratton is manager of an A & P. Store at Adams, Mass. His mail address is 143 Main St., Williamstown, Mass.

Bryce Jose is teaching English and German at Moses Brown School in Providence. He is also studying for his M. A. in English at Brown and plans to study at Heidelberg this summer.

"Thus endeth" this letter for the month. Just think it will be April when we "get together again." Already the magnolia are budding here now and *no snow* on March 12th.

Good luck and S'long,

Marnie Baldwin

'34 Madelene Bunker, 123 Longwood Ave., Brookline, Mass.

Anytime you want the months to fly by just start writing *Alumnus* news and you won't have time to catch your breath between months. At this point I'm regretting beyond words the fact that I didn't take all Jimmy Moreland's journalism courses so I could dash columns off without a thought. Anyway, I think Jimmy would say this prelude, or whatever the newspaper term is, is quite long enough.

People are still being kind to me and helping me over this trying time. My sympathetic readers are still trying to supply me with news and I am truly grateful,—this month to Irving Grodinsky, Helen Nowland, Henry Finks, and Allan Larrabee. Three of these people didn't even graduate with us and are as loyal and interested as many who spent four years. It really does convince me

that Maine has a stronger hold on her sons and daughters than we realize. Last Thursday night when Rudy sang the Stein Song and spoke of Maine, it wasn't just another song—it meant something more. Heavens, I'm sounding like a homesick kid or something, but it's just that you have to leave home sometimes to realize how wonderful it is and that's the way I feel about Maine.

Irving Grodinsky sent a nice newsy letter which was a great help. He is manager of the National Confectionery Co. of Caribou, which is a branch of the Bangor firm. For variety he teaches violin. Waldon Hastings is working in a paper lab at Hyde Park, Mass. Elliot Reid and Frances Lord are getting along very well with their graduate work at MIT. Lloyd Goodwin is with the International Paper Co. at Rumford, and Bob Adams is at Livermore Falls with the I. P. Co.

Helen Nowland is working on a newspaper in Medford, Mass. I hope to get to see her sometime soon and incidentally get a few tips on news-writing. Henry Finks wrote from Vermont Medical School where he is in his second year. He is in the same class as J. Eldrid Smith, eminent drummer, traveler and student of medicine. Henry stayed only one year at Maine but it still holds a warm spot in his heart. Allan Larrabee wrote from Concord, N. H. He is now manager of the Concord Grain Co. To be exact, he is selling grain at retail with free delivery. It must be the new inspiration that is responsible for such a promotion.

Dot Newman helped me a lot, too, this month. We went to a Boston Alumnae meeting the first of the month and had a grand time. Jean Kennedy, Lib Livingstone, Dot and I couldn't stop talking long enough to play a hand of bridge. By the old grape-vine method I finally discovered that Mildred Haney is doing mental testing at N. H. State Hospital in Concord. Dot Romero is at the U. of Michigan getting her master's. Fern Allen was working at Grant's in Bangor at the last report. Hazel Scully is teaching in Auburn and Georgia Ryder is assistant teacher at Morse Memorial High School in Brooks. I had a chance

to say hello and good-bye to Lib Myers and Betty Lynch in the North Station one night, but no lengthy conversation ensued. I also met Ginna Young on a dance floor in Boston. The greetings were short and sweet, and we did have time to say it seemed like old times. My, doesn't that sound like one of the first signs of old age?

Stanley Blanchard is farming at home in Cumberland Center. Lloyd Burr is an electrician with the Texas Gulf Sulphur Co. Stuart Deane is working for the State in Dover-Foxcroft. Ralph Dougherty won a \$2000 scholarship at Babson Institute and is going to school there. Wayne Dow is working for the bureau of health, inspecting eating houses, lodging places, overnight camps, with headquarters at the State House.

Signs of Spring at last—the marriage market is on the up and up again and romance is in the air.

Charles Webber is engaged to Faylene Hodges of Winslow. He graduated from the Illinois College of Foot Surgery and Chiropody and has opened an office in Bangor. Chuck Marston married Prudence Cameron of Orono. Chick is now manager for the Penobscot County Water Co. in Ellsworth and they will reside on High St. in Ellsworth. Another of my room-mates has chosen house-wife as her profession—Inez Gary married Richard Corey of Bangor, and that leaves just one more roomie to go. Among this month's marriages is that of Effie Mayberry to Leif Sorenson '33. While we're on the subject of matrimony I would like to apologize to Johnny Quinn for accidentally failing to announce his marriage to Eleanor Virginia Anderson on Jan. 12. I was very much pleased about it and it is an error I haven't mentioned it before.

I hope I will be pardoned if this column seems a bit of a jumble but I am having my first personal interview for a job tomorrow morning and I'm so darned excited and nervous I can't think straight. There's one thing that does cheer me, though, and that is the fact that I have many kindred souls among you.

P.S. Will Stan Searles please tell me where he is? Kibbie Pitcher and I want to get in touch with you. Peanut

LIBERAL ARTS GRADUATE

A rapidly growing national concern offers an opportunity to the right man. This is specialized insurance work, strictly non-selling, and six-weeks' training will be given the accepted applicant. Salary to start at once, \$1300.

Only men capable of promotion are considered. Requirements are initiative, resourcefulness, interest in people, poise, and leadership already demonstrated in undergraduate affairs.

Must be single and willing to accept assignment anywhere in U.S.A. Age limits are 22 to 26 years. Address GEORGE A. POTTER, 20, New England District Claims Manager, Liberty Mutual Insurance Company, Park Square Building, Boston.

"From the Four Corners of the World"

The manufacture and distribution of MODERN FERTILIZERS is an intricate business. From the four corners of the world are gathered the raw materials—Nitrogen, Phosphorus and Potash. Each part of the world is dependent on some other far country for one of these three essential ingredients.

NITROGEN, the most important in peace or war, is now universally produced; yet Florida supplies over 50 per cent of the world's PHOSPHORUS requirements, while France and Germany control the richest POTASH deposits. Numerous by-products of all three are also items of world commerce.

The purchasing, financing, transportation, manufacturing, selling and distribution have the world as a workshop. Chemistry, Biology, Engineering, Law, Money and Banking, Insurance, Traffic, Foreign Exchange are every-day tools in the production of today's Commercial Fertilizer.

Crops and soils, like humans, require a varied menu. SUMMERS' formulas, compounded from the highest quality materials obtainable meet this variance requirement. We believe this important feature accounts, in part, for our enjoying over the past fifteen years a constant annual increase in our sales to Maine Farmers.

Write our nearest branch for 1935 literature and prices.

THE SUMMERS FERTILIZER CO.
BALTIMORE, MD.
