IT BELONGS TO MAIN STREET
—and to every other street in this country. Everybody uses the telephone. Over 300,000 people operate the business. And more than twice that number own it.

The interests of all are the same. Good telephone service—good wages—and a fair return to the owners.

BELL TELEPHONE SYSTEM
Published monthly from October to June inclusive by the University of Maine General Alumni Association. Address of publication, Room 414, 6 State St, Bangor, Maine. Editorial and business offices, University of Maine, Orono, Maine; please address all communications to University address. National advertising representative, Graduate Group, Inc., New York City. Member: American Alumni Council. Entered as second class matter at the post office at Bangor, Maine, under act of March 3, 1879.

ALUMNUS ADVISORY BOARD

M. June Kelley, 1912, Boston, Mass.
Elizabeth M. Bright, 1917, Brookline, Mass.
Bryant Patten, 1923, Wellesley, Mass.
Charles E. Johnson, 1925, Boston, Mass.

GENERAL ALUMNI ASSOCIATION

Officers and Council Members

President—Fred D. Knight, 1909, Boston, Mass.
Vice President—George D. Bearce, 1911, Bucksport
Clerk—Maurice D. Jones, 1912, Orono
Treasurer—Paul D. Bray, 1914, Orono
Executive Secretary—Charles E. Crossland, 1917, Orono
Assistant Secretary—Philip J. Brockway, 1931, Orono

Front Cover...

The cover picture this month is from a pencil sketch of the University Library made by Jack Frost, a member of the class of 1937, now a newspaper artist of growing reputation. He has stated that this sketch, done in his finest style, should be dedicated to the Class of 1937.

Record Enrollments

From the early news dispatches, the colleges of the country are experiencing a substantial increase in registration this year. The jump in enrollment borders on what might be called "a boom." Numerous headlines report the registration as largest in years, capacity or a record. It is to be expected that the increase should be conspicuous after the several years of static, if not decreasing, enrollments. Three factors have been at work; the increase in population would provide a natural growth, the constantly increasing desire of more and more parents to have their sons and daughters get the benefits to be derived from a college education, and lastly the accumulation due to the difficult economic conditions from which the country is emerging.

For several years that mooted question of "who should go to college" has been on the shelf. Colleges have welcomed those who could qualify for entrance on standards not too rigidly enforced, and who could pay their bills. And now what? With the college halls taxed to their capacity, will the question bob up again? That strikes deep with Land Grant Colleges and Universities. Our University was conceived as an institution to provide educational facilities within the reach of the modest Maine home and income. For this reason we are faced, perhaps more than some colleges and universities, with the somewhat more perplexing problem of keeping expenses in line with revenue and at the same time keeping the cost to the students at a minimum. Low cost inevitably means that many students in the marginal group, financially, to whom a few dollars means either going or not going to college, will by sacrifice and courage get an education. The question of who may go to college is answered partly by admission requirements and partly by costs.

By no means can one conclude that the jump in registration this year means that there are fewer students depending upon themselves. Nearly five hundred boys and girls have applied for either University or N.Y.A. work. This is much the largest proportion in recent years. Evidently there is more money but not much more.

Generally speaking, an increase in registration is welcome. The growth is significant. It does not follow, however, that added enrollment means financial relief. It may mean that, or it may not. In fact, it may make an already difficult problem worse, depending upon just how many more students can be given proper instruction with the personnel and facilities already available.

The old adage still applies—"all is not gold that glitters." Nevertheless—it is good to have such a fine student body. May the University have the best year in its history.

Cabin Colony

An idea has blossomed. While it is beyond the bud stage, it is not in full bloom. With the opening of the University cabins as described in this issue, a plan quite unusual in college circles becomes a reality. It has required faith and patience. Its fundamental objective is to give male students an opportunity to sharply reduce their living expenses while attending the University.

There were many applications in excess of those who were selected to live in the cabins. This is evidence of the need for such a project. Highly commendable is the fact that there will be close University supervision. This removes most of the dangers and doubts which have been associated with a plan of this kind. From these cabins will come boys of self-reliance, of real courage to whom education will mean much.

The colony is not yet complete; six of the ten cabins have been built. Generous gifts by a few alumni and friends have made the cabins possible. It is hoped that more funds may be forthcoming. President Hauck is to be congratulated upon initiating the plan and the progress which has been made to date.
Sons and Daughters of Alumni
Entering With The Class of 1941

A record breaking number of sons and daughters of alumni entered the University of Maine this year under the banner of 1941. A total of 65 freshmen claim parental affiliations with the University. The picture above shows the most of these as they lined up during Freshman Week. The names follow:

First Row: Gwen Weymouth (Merle M. '19); Florence Farnham (Harry L. '09); Ruth-ellen Benson (Alton H. '17); Ruth E. Green (Herbert H. '07); Beatrice H. Gleason (Wallace L. '12); Margaret Jones (Maurice D. '12); Elizabeth Peaslee (Roy W. '14); Emily Hopkins (Bryant L. '17); Frances Sawyer (Edward E. '12, Mrs. Edith Folsom '12); Joan Chapman (Chauncey W. L. '14); Mildred Chapman (Chauncey W. L. '14); Mary Burke (Mrs. Frances Webber '06); Janice Merrill (Earl C. '95).

Second Row: Raymond W. Buck, Jr. (Raymond W. '11); Joseph M. Ingham (Harold W. '11); Faulkner E. Chase (Alden '12); Anna Verrill (Albert '11); Betty McAlary (Allan F. '13); Constance Philbrook (Lawrence E. '16); Hilda Rowe (George F. '93); Edith Mary Cousins (Mrs. Arline Brown '15); Margaret Philbrook (John N. '10); Carlita Buzzell (Robert L. '12, Mrs. Hazel Mar- riner '12); Virginia E. Eddy (Harold F. '09); Joanna Evans (Sidney G. '11); Gordon Chase (Alden '12); Brooks Brown, Jr. (Brooks '17); John Hoyt (Henry F. '01).

Third Row: Oscar Riddle (Harry C. '07); Robert Coffin (Edwin V. '87); Willard Fenderson (Charles W. '14); Hartwell Lancaster (Howard A. '06); Robert B. Tackaberry (Robert B. '21, Mrs. Doris Lowell '22); Lawrence A. Cooper, Jr. (Lawrence A. '19, Mrs. Alice L. Tarr '20); Simpson Libby (Mrs. Ailene Hobart '14); Charles Gardiner (Albert K. '10); Jordan Monohon (Paul W. '14); Burt S. Osgood, Jr. (Burt S. '03); Richard W. Dearborn (Philip M. '15); Charles E. Taylor (Charles S. '16L); George H. Ellis (Milton '08); Robert Smith (Mrs. Mary Sargent '16); Charles A. Hall (William D. '07); James F. Smith (Montelle C. '12); Kenneth Blaisdell (Harvard W. '18); John B. Dearborn (John W. '98).

Back Row: Paul Wyman (A. Percival '07, Mrs. Florence Sleeper '05); Richard M. Talbot (Fred W. '05); Everett Kimball, Jr. (Everett A. '13); Stewart Oakes (Vance E. '21); Thomas Fairchild (T. Everett '16, Mrs. Ruth March '17); Roger P. Strout (Philip S. '11); Robert Carlisle (George T. '09); Fred C. Hanson (Walter K. '12); Eugene C. Gilbert, Jr. (Eugene C. '02); Dale J. Butterworth (Albert J. '06); Allan P. Storer (Clayton A. '18); George Hamlin (G. Harold '13, Mrs. Lucille Clarke '16); Donald W. Weston (Wallace A. '00).

Alumni sons and daughters of 1941 who were not able to report for the photograph were:
Clara Carver (Herbert '08); Howard R. Frost, Jr. (Howard R. '20); Glenn M. Johnson (Seth A. '16); Charlene Perkins (Herman G. '16); Jean H. Soule (Mrs. Marguerite Farmer '17); Francis A. Wheeler (Allen F. '02).
UNIVERSITY OPENS Seventieth Year
Increased Registration—Campus Developments

With the opening of the seventieth regular session of the University, once more youth takes possession of the campus; studies, and football, and old acquaintances, and classes, and professors once more make halls and sidewalks resound with hurrying feet and animated voices. College begins again! Welcoming this year the largest freshman class and the largest total registration ever before recorded, the University swings into the new year with the heartening signs of a sound growth and cheerful prospects for as full and fruitful an academic session as any of the past seven decades.

The accompanying tabulation gives the total registration by classes for the third day of college.

Campus Changes

Students or recent alumni, returning, will note a few changes on the campus again this year. A serious inadequacy in housing quarters for women students has been partially alleviated by the purchase, this summer, of the old Webster homestead, recently the home of the Phi Kappa fraternity. Situated conspicuously above the Stillwater River, at the campus end of the Oroto bridge, the spacious grounds and beautiful home have long been one of the show spots of the town. Renovated and remodelled, the historic home, relic of the lumber boom days, will be used this year as a new girls' dormitory.

The building, which will house about thirty girls, will be known as The Elms. The new hall will be run as a regular dormitory for both upperclass and freshman women under the direction of Mrs. R. A. Lowe as matron.

The beautiful home was built around 1878 for the late Colonel Eben Webster. Mr. Webster's family lived in this house until their removal to Bangor. Following this the house was used as an inn, under the name of The Elms, for a period of three years. The property then went into the hands of the Phi Kappa association in 1928 and was used as a fraternity house until 1934.

Originally the property included the land which extended from the bridge along College Avenue to the present Phi Kappa Sigma fraternity house but later part of this land was sold and several fine homes have been erected in the section now known as University Place.

Another long desired innovation has been achieved this year in the establishment of a separate infirmary. The house known last year as The Pines and used as a freshman dormitory has been turned into a modern, well-equipped, self-sustained infirmary with its own kitchen, chef, and help. The house, formerly the home of the late Dean Merrill, stands beside the S.A.E. fraternity, attractively situated in a group of evergreens. The new arrangement for caring for students confined to bed from illness or accident will relieve the inconvenience to both patient and health officers of setting off a portion of the regular dormitories for this use. Much better control over cases will be available and finer health service than ever before should result.

One very interesting addition to the University's plant this year is the completion of five cabins and a central show-room and laundry building near the farm road, for housing students who are desirous of boarding themselves to reduce their living expenses. This Cabin Colony, under the direction and supervision of the University, will provide quarters for twenty-two students, including proctors, in comfortable, well-built, decently equipped, and sanitary camps. A detailed description of the new camps, made available almost entirely by large and small donations from alumni and other friends, will be found on another page of this issue. The new camps, with the two co-operative dormitories for the girls, North and South Halls, are making an excellent beginning in the solving of many students' financial difficulties.

Progress has been made this year in the physical appearance of the campus, particularly in the matter of roads. Both the lower entrance to the campus, near Balentine Hall, and the main entrance past the President's house have been resurfaced and graded to give a more durable and more attractive entrance to the grounds. At the south and north roadways, also, attractive signs have been erected, identifying the institution to casual travellers.

New Agricultural Building

In process of construction now is a new building for the College of Agriculture, which will relieve some of the congestion in Winslow Hall. When completed later this year, the building will provide laboratories and classrooms for an Agricultural Engineering course, a much needed addition to modern Agricultural education. The University is also now the proud possessor of a new Art Gallery. The top floor of the south wing of Stevens Hall was renovated during the summer for the long felt need of a suitable location for the University's growing collection of pictures.

So opens the academic year 1937-38. President Hauck, popular as always with students and alumni, enters upon his fourth year of guidance with an efficient and able corps of fellow-workers. Under his leadership, all signs point again toward a year of conservative, sound progress based upon the traditions dear to all alumni, and looking forward always toward a greater and better University,

The Elms, New Dormitory for Women

Formerly the Webster family homestead and later Phi Kappa fraternity house, this local landmark has been remodelled this year as a women's dormitory.
NEWS AND EVENTS OF THE SUMMER

A full program of news and events kept the campus a lively and busy place again between the regular sessions of 1937. With a full and successful Summer Session as a nucleus, meetings, conferences, and business made a full program for the summer.

Summer Session
A total registration of 506 students was recorded for the annual six-week Summer Session this year, 41% of them coming from outside the state. With fifty-nine students from the University, more than sixty different collegiate institutions were represented. In spite of unusually high temperatures prevailing during part of the summer, an enjoyable program of studies and recreation was entered into enthusiastically. Particularly interesting were a number of special institutes and lectures as well as the regular series of assemblies.

The usual wide variety of courses was offered in Education and Arts and Sciences, with some courses also available in Technology and Home Economics. A faculty of 43 included 14 instructors from outside the University—many of national repute. Some of the leading visitors were Marion F. Breck, State Supervisor of Home Economics, Delaware, who taught courses in Home Economics; Carl W. Hesick, head of the Economics department at Penn State College; Dr. Paul S. Miller, principal of the Eastern School, East Orange, N. J., in Education; and Dr. Helen K. Mackintosh, of Miami University, Oxford, Ohio, in Education. Problems in public health nursing given by Mabel Brown of Reading, Mass., engaged in public health work, was one of the new courses offered, as was Curriculum Making in Commercial Education given by George C. Persinger, teacher of commercial education at Plainfield, N. J.

Institute of World Affairs
The third annual meeting at the University of Maine Institute of World Affairs was held on July 21 and 22, featuring speakers of note and authority on subjects of contemporary importance. Seven talks and four round tables filled the two days with stimulating and interesting subjects. The list of speakers included such authorities as Dr. William S. Culbertson of the School of Foreign Service, Georgetown University, Prof. James P. Baxter, Associate Professor of History, Harvard, Walter S. Lemmon, President of the World Wide Broadcasting Foundation, and William R. Castle, Jr., statesman and author.

Under the able direction of Prof. Rising L. Morrow, Assistant Professor of History and Government at the University, Chairman of the Institute, the program was well-chosen and timely. Such subjects as “Recent Trends in American Foreign Policy,” “The Attitude of the United States toward the Far East,” “Who Makes War,” and other topics of equal importance to either the deep or casual student of contemporary history contributed to a program of extreme value.

Death of Mr. Cecil Fielder
The sudden and tragic death of Rev. Cecil G. Fielder, since 1928 secretary of the Maine Christian Association on the campus, occurred, after a brief illness, on September 10. A graduate of Princeton University in 1914, Mr. Fielder had worked for some years in India in the missionary field and had long been associated with the Y.M.C.A. and other phases of religious work for young people. His kind geniality and sincere interest in the problems of the students at the University were well known to all who associated in the work of the Christian Association. His deep interest in this work and his unfailing labors had caused the M.C.A. to become an important factor in the guidance and development of the students. His sudden and unexpected death will be deeply regretted by present and former students who had the pleasure of associating with him.

4-H Club Camp
Four days of instruction and entertainment made up the program for the seventh annual State 4-H Club Camp on the campus, starting on August 18. One hundred and sixty-five boys and girls, representing every county in Maine, registered for this year's get-together. As a recognition of meritorious work in their local clubs, the boys and girls lived for four days in the college atmosphere and participated in a comprehensive program sponsored by the Extension Service of the College of Agriculture.

Agriculture Teachers' Summer Course
Thirty-five of the state's thirty-seven teachers of high school agriculture attended a two-weeks summer school at the University in August under the general direction of Prof. Herbert S. Hill of the Department of Agricultural Education. The highly successful course this year centered around the question of foundry instruction in its practical aspects. Professor L. M. Roehl of Cornell University, outstanding authority on farm shop work, as visiting instructor gave valuable instruction to Maine's teachers of agriculture, ably assisted by E. W. Davee of the Department of Mechanical Engineering at the University and Prof. Harold C. Swift of the Agronomy Department.

Council Member
Andrew J. Beck '13, of Washburn, last spring became a member-at-large of the Alumni Council of the General Alumni Association.

Officer
George D. Bruce '11, of Bucksport, was elected last June as vice president of the General Alumni Association.
ENTER THE CLASS OF 1941

With a total membership of five hundred and fourteen students, one hundred and thirty-two of them women, on the completion of the third day of registration, the class of 1941 emphatically broke all previous records for size among entering classes. Next largest class in Maine’s freshman history was the class of 1931. In many other ways also, however, the newcomers to the University are bidding for the attention of the older classes, both in college and out. The following idle statistics will probably bear out the statement of any member of the present freshmen class, that the Class of 1941 is unmistakably the smartest, most interesting, and in all ways the greatest, as well as the largest, of all classes ever to enter the University.

Largest Number of Alumni
Parents

Previous records for number were also shattered in the matter of sons and daughters of Maine alumni. A grand total of sixty-five new men and women of Maine claim either father or mother or both as members of the alumni body, which well surpasses the forty-ninene recorded last year; nine of these this year can proudly claim for both parents membership in the alumni lists. Third generation students also, have not been forgotten; three of the men of ‘41 can claim alumni grandfathers—Leroy F. Fuller, of Scarsdale, N. Y., grandson of George R., ‘82; Charles S. Gardner, of Orono, grandson of Charles E. Oak ‘76; and George H. Hamlin, Jr., of Orono, grandson of George H., Sr., ‘73, first president of the General Alumni Association. Both Charles Gardner and George Hamlin can claim unbroken alumni descent, in the former case through Albert K. Gardner, ’10, father, and in the second through both G. Harold Hamlin, ’13, father, and Lucille B. Clark, ’17, mother.

Other alumni relatives are numerous also, and the total of new students with some relatives who have attended or are now attending the University is two hundred and forty-three. The list includes brothers, sisters, aunts, uncles, and cousins. The important title of Most Related Freshman has this year to be divided between two aspirants with a total of ten relatives each: Robert Carlisle, of Bangor, claiming father, George T., ‘09; mother, Maude Davis (Summer Session), three brothers, three uncles, and two cousins, and Charles S. Gardner, of Orono, with grandfather, Charles E. Oak, ’76, father, Albert K. Gardner, ’10, two sisters, one uncle, and no less than five cousins.

As usual, heaviest registration is from near at home; Bangor sends this year thirty-nine, Orono eighteen, Old Town twelve, Brewer seven, and Hampden two, making a total from local Penobscot County of seventy-eight.

In respect to the age-old battle between the Smiths and Browns, no solution is to be found in the annals of 1941, since so far, exactly eight of each name are registered. Other names are well represented, including five Adamses. The class also includes two Jewells, two Garlands, an Achorn, a Hatt, a Hook, a North and West, a Fogg, a Goos, a Craft, a Burden, and two Riddles.

Age range of the newcomers is from 16 to 24 with the average slightly over 18. Most of the class, of course, enters Maine immediately from high school or prep school, but in some cases several years of various types of employment have preceded entrance, including one period of five years in the U. S. Army. Other claims to fame in the class include that of Richard H. Pierce, of Leominster, Massachusetts, a great-grandson of President Franklin Pierce; John Utterback, of Bangor, son of former U. S. Congressman and U. S. Marshal Utterback; and Elizabeth Emery, of Bucksport, daughter of State Representative Emery. One high distinction not likely to be challenged by any classmates is that of Wayne M. Garland, of Bangor, who bases his claim to the title tallest man on a stocking-foot measurement of 6 ft. 8 in.

Schools and Colleges Represented

A little study of the biographical records of the men and women of 1941 reveal some interesting facts about the preparatory schools attended by the students and the colleges or universities attended by their parents. Although most of the class obtained their preparation in the usual way at the local high school or academy, there are over thirty different preparatory schools represented, including, in addition to most of the familiar ones in Maine, many others such as Governor Dummer Academy, St. Ann de la Pocatiere, Canada, Manlius School, Valley Forge Military, Northfield Seminary, Phillips Academy, and Mt. Assumption Institute. Haverford Academy far leads the list in numbers sent this year, having about twenty representatives.

A surprising variety of colleges and universities attended is reported for the fathers and mothers of 1941—a total of fifty-seven different institutions exclusive of business and normal schools. Next to the University of Maine, the largest number of parents attended Bowdoin, a total of twelve; Bates followed with seven, and Colby with six, for the Maine colleges. Tufts, however, equaled the number for Bates, seven, while Boston University was given six times, and Harvard and M.I.T. five. The most popular women’s college for parents of this year’s class was Mount Holyoke, with four representatives, although Smith, Wheaton, Vassar, Bryn Mawr, Radcliffe, Wellesley, and Hunter were all included. Parents of 1941 have attended every state college in New England; the number includes such familiar names as Cornell, Temple, Columbia, Holy Cross, New York University, Brown, Yale, Ohio State, U. of Illinois, and Williams. There are also, however, several not so familiar, such as Odense Tech., Denmark, Sacred Heart, Paris, and the Ecole Militaire de Belgique.

Such, in general, is the class of 1941, newest members of the growing Maine family. As they start in fresh and young on their four years’ association with the University, alumni young and old unite in a hearty, “Welcome, 1941!”

Homecoming, Nov. 5 and 6

Make your plans now for the Seventh Annual Alumni Homecoming, the week end of the Bowdoin game, Nov. 6.
Faculty Appointments
And Promotions

Changes in the ranks of faculty and administration for this year though not as extensive as last year will be of interest to many alumni. The changing family of Maine "profs" is a large and varied one and every year sees the addition of new faces and the parting of old, familiar friends. The year 1937 is no exception. Below is a complete list of faculty changes for this academic year.

Promotions

College of Agriculture: Mrs. Beulah Wells from Instructor to Assistant Professor of Home Economics.
College of Arts and Sciences: Dr. H. B Kirshen from Assistant Professor to Associate Professor of Economics and Sociology; Dr. Karl D. Larsen from Instructor to Assistant Professor of Physics; Dr. E. C. Nelson from Instructor to Assistant Professor of Zoology.
College of Technology: Bertrand F. Brann from Associate Professor to Professor of Chemistry; H. Walter Leavitt from Associate Professor to Professor of Highway Engineering; Harry D. Watson from Associate Professor to Professor of Mechanical Engineering.
Agricultural Experiment Station: Dr. Frank H. Lathrop from Entomologist to Head of Department of Entomology.
Physical Education: Miss Marion Rogers from Instructor to Assistant Professor of Physical Education for Women.

Appointments

College of Agriculture: Miss Beatrice Coney, Assistant Professor of Home Economics, M.S., Iowa State College; Wallace H. Elliott, Assistant Professor of Agricultural Education, Graduate of the University of Maine, M.S., Cornell University, 1937; Maynard W. Quimby, Instructor in Botany for the year 1937-38, a graduate of the Massachusetts College of Pharmacy and the University of Maine, M.S. Degree, Cornell; Howard L. Mandall, Instructor in Game Management for the year 1937-38, Bachelor's Degree, University of Maine, 1931, Master's, 1934, replacing Mr. Gustav Swanson who has accepted a position at the University of Minnesota; Mrs. Reha Looshi, Instructor in Home Economics, Bachelor's Degree, Utah State Agricultural College, 1930, Master's Degree, Cornell University, 1937, replacing Miss Eleanor Haile who has accepted a position at the University of Tennessee.

Miss Cecelia A McCarthy, Instructor in Home Economics for the year 1937-38, Bachelor's Degree, Simmons, 1917, Master's Degree, Teacher's College, Columbia University, 1935, replacing Mrs. Mabel Stewart, resigned.
College of Arts and Sciences: John Langworthy Fuller as Instructor in Zoology, Graduate of Bates College, Doctor of Philosophy Degree, Massachusetts Institute of Technology, 1935, replacing Dr. Kenneth C. Fisher who has accepted an appointment at the University of Toronto.
Albert Douglas Gunville, Instructor in Psychology, Graduate of Cornell University, Master's Degree, University of Illinois, Ph.D., Cornell University, replaces W. S. Neff who will teach at the College of the City of New York; Reginald V. Hobbah, Instructor in Economics, graduate of the University of Pittsburgh, Master's Degree, University of Pittsburgh, replaces Dr. C. J. Rohr who is now associated with Massachusetts State College; Wilmarth Holt Starr, Instructor in Romance Languages, graduate of Wesleyan University, Doctor's Degree, Johns Hopkins, 1937; Milford Edward Wence, Instructor in English, graduate of the State University of Iowa, Doctor's Degree, State University of Iowa, replacing Dr. A. E. Jensen who has accepted a position at Dartmouth College; Arthur O. Williams, Jr., Instructor in Physics, graduate of the Massachusetts Institute of Technology; Elsa M. Parshley, Instructor in Zoology, graduate of Smith College and Graduate Study at Radcliffe.
College of Technology: Howard P. Lekberg, Instructor in Mechanical Engineering, graduate of Worcester Polytechnic Institute; Matthew McNeary, Instructor in Engineering Drafting, graduate of the Pennsylvania State College, replaces Asst. Professor Earl Dunham who resigned to enter business; Philip M. Seal, Instructor in Electrical Engineering, Bachelor's Degree, Worcester Polytechnic Institute, 1930, Master's Degree, Worcester Polytechnic Institute, 1932, taking Warren H. Bliss' place during leave of absence.
Military Science: Major Harry L. Henkle recently with the 20th Infantry, Fort Francis E. Warren, Wyoming, assigned to the R.O.T.C. to take the place of Major Victor G. Huskea who has been transferred to the 5th Infantry at Fort Williams. Major Henkle served on the R.O.T.C. Staff at the University of Idaho from 1930-1935.
Physical Education: Margaret Eileen Cassidy, Part-time Instructor in Physical Education, graduate from the Sargent School in 1928, Graduate Study at the University of Maine, 1930-1932.
Graduate Fellows and Assistants: Kenneth Wilcox Dike, Graduate Fellow in Animal Pathology, Bachelor's Degree, University of Vermont, 1936; J. Schooling Cashin, Assistant Graduate in Wildlife Conservation, Bachelor's Degree, Oregon State College, 1937; Robert Holm Johnson, Graduate Assistant in Wildlife Conservation; Bachelor's Degree, University of Idaho, 1937; Arroll Liscumb Lamson, Graduate Assistant in Wildlife Conservation; Bachelor's Degree, Connecticut State College, 1933; Harold M. Woodbury, Graduate Fellow in Physical Education, Bachelor's Degree, University of Maine, 1937; Gayland E. Folley, Graduate Scholarship in the Department of Horticulture, Bachelor's Degree in Horticulture, University of Maine, 1937.
Dormitories: Miss Pearl O. Baxter, Superintendent of Valentine Hall and Instructor in English, Master's Degree, Boston University, replacing Miss Ruth Cope who has accepted a position as Dean of Women at Lawrence College, Appleton, Wisconsin; Mrs. R. A. Lowe, Superintendent of the Elms, the dormitory for women in the former Webster house in Orono. Mrs. Lowe has taught in the public schools of Maine, at Calais and South Windham; Miss Grace E. Vose, Superintendent of South Hall, graduate of Wesley College, Master's Degree, New York University, 1937.

Leaves of Absence

College of Arts and Sciences: Professor J. H. Ashworth of the Department of Economics and Sociology has been granted leave of absence for the fall semester of 1937-38; Professor A. L. Fitch of the Department of Physics has been granted a leave of absence for the academic year;

(Continued on Page 12)
THE NEW CABIN COLONY

The name of "Hungry Hollow" has for many years been a familiar word to the men and women of Maine to designate the group of camps and cabins, trailers, and even tents which have gradually formed a straggling little colony on the southern edge of the campus, below the farm lands. Here students earnest for an education regardless of the cost in hunger, cold, inconveniences, and sometimes privations have lived, boarding themselves, paying a small rent, and existing on the mere necessities. The remarkably low living costs made possible by such arrangements have year by year attracted more and more ambitious but impertinent students, until in recent years, in spite of the growth of the old group and the formation of a new colony on the banks of the Stillwater at the north end of the campus, far more requests for such living quarters have been received than could be accommodated.

From this situation, by the voice of the students themselves, has grown up a real need for more and better cabin quarters under the direction of the University itself; this year, largely through the generous gifts of alumni and friends of the University, such a University cabin colony has been made possible. This fall, twenty-two inhabitants of the new community have taken up their residence in the newly completed unit of five double cabins and a central shower, toilet, and laundry building. For the first time in its history the University has been enabled to give official recognition and supervision to the type of low-cost housing which the students themselves have felt most adequately answers their needs in Maine.

Down past the poultry plant, a road breaks off sharply from the Farm Road into the pine woods at the left, and skirts the back part of traditional "Hungry Hollow" until it emerges, shortly, into a sheltered meadow opening south and east over rolling ground toward Park Street. Here in a compact semi-circle under the shelter of the woods the new cabins have been grouped around the central building. Each cabin, about twenty-four by thirty feet in size, is a low wooden cottage of simple structure comprising two similar units and designed for accommodating two students in each unit, four for each cabin. The simple but adequate furnishings consist of "double-decker" beds, tables and chairs, and a new cook-stove. Each unit of the double cabin is supplied with cold running water in a small sink, and electric lights. The floor plan is simple but roomy enough for comfort; the main "living" room, about eighteen by fifteen feet, occupies most of the space and contains stove, tables, chairs, sink, and whatever furnishings for study may be supplied by the students; from this opens out the small bedroom and a storage room.

Equipment

Every care has been taken to make the little cabins comfortable; both walls and floors have been covered with insulating material, roofs, doors, and windows are carefully made, and the wise selection of the location ensures excellent shelter from winter winds. Heating will be provided for by means of the cooking stoves, and rooms are small enough so that there should be no difficulty in keeping warm even in the midst of a real Maine winter. The central cabin provides living quarters similar to the other camps for two students, and the other half is given over to a central shower-toilet-laundry room. Here adequate hot water will be continually available through the use of automatic gas heaters provided by the University to supply three shower baths, several lavatories, and set tubs. By the installation of such toilet and laundry facilities ample provision is made to promote the highest degree of hygienic and sanitary living conditions. Cabins are well lighted and have plenty of window space for ventilation and every effort has been made to insure, as far as equipment is possible, living conditions equal to other housing units of the University.

A long waiting list of applicants amply testifies to the place the new camps will fill in the economics of student life at Maine. One of the most attractive features of the plan is the extreme flexibility it allows for a student to govern his own expenditures for board and room costs, the most expensive item on the annual budget. Camps will rent for $1.50 per week for each student; this low housing cost is made possible of course by the elimination of many expenses incident on other housing plans. Barracks, co-operative houses, and other schemes involving large groups of dwellers must include the expenses of central heating, large kitchens, and upkeep of expensive buildings. In the new cabins of the University the boys will supply their own fuel, usually in the time-honored pioneer fashion of going into the nearby woods after it, axe on shoulder. Heating costs, except for the hot water tanks, has been eliminated. Upkeep will be small since the units are comparatively inexpensive and strongly made.

The greatest saving made possible by the cabin life is, however, in the matter of board. Past records indicate that the average student by providing his own food and doing his own work can save from $125 to $150 during the year, cutting his living costs actually in half. More than that, many students, in a position to receive food from home in the form of farm products or canned foods, can exist happily on a surprisingly infinitesimal cost. The division of the camps into two-man units rather than four allows a more harmonious agreement on the vital questions of menu selection, while, if desired for economy, a cabin can operate as a single four-man unit.

Supervision of the new colony will be conducted by student proctors in the same manner as other dormitories. For this year, the inhabitants are mostly from the upper classes, selected for financial need, character, and general ability.

Future Plans

The new cabin colony is not altogether an experiment; the growth and thriving existence of previously privately-owned colonies near the campus have amply

(Continued on Page 12)
Homecoming Nov. 6

The annual fall Alumni Homecoming Program sponsored by the Alumni Association and the University is scheduled this year for November 5 and 6, the week end of the Maine-Bowdoin football game, the last home game of the season and likely to be one of the decisive as well as most thrilling of this year’s State Series. Plans are being made by the committee in charge jointly appointed by President Hauck for the University and President of the Alumni Association Fred Knight ’09, with Professor Robert R. Drummond ’05 as Chairman.

The program, although as yet only tentatively decided on, will follow closely the outline of previous years. The first day, Friday, will see the opening of the weekend program with evening events including probably a big football rally and as a special alumni feature the annual meeting of the ‘M’ Club. All varsity ‘M’ men will want to make particular plans to get in on the meeting this fall, as a program of interest to all alumni is being planned by the president of the club elected last Homecoming, Stephen L. Buzzell ’20, of Old Town, and secretary-treasurer Ted Curtis, of Orono.

Around the main feature of Saturday, the varsity football game at 2 p.m., a number of varied and interesting features for Saturday are being planned. The big event previous to the football game will of course again be the Alumni-Faculty luncheon in the Memorial Gymnasium at noon. Here will be honored outstanding alumni and faculty members and again this year the Alumni Service Emblem will be presented to a member of the Alumni Association in tribute for meritorious service to Association and University.

Plans for the big day are rapidly taking shape under the competent direction of the committee in charge. Professor Drummond, who is Chairman this year, has served in this capacity during several Homecomings and his successful past experience guarantees a well planned program. Other members of the committee are Miss Maroin E. Rogers ’30, Assistant Professor in the department of Physical Education for Women, who will help the plans for the women’s part of the program; Theron A. Sparrow ’24, of the Mechanical Engineering Department, popular and well known alumni; Albert "Gramp" Nutting ’27, Forest Specialist for the Extension Service of the College of Agriculture; George F. Dow ’28, Associate Professor of Agricultural Economics; and of course Ted Curtis ’23, popular and energetic faculty manager of athletics. Student representatives this year are Johnny Gowell, of South Portland, president of the Athletic Association, track and football star, and all around student leader; and Mary Deering, president of the women’s Athletic Association, All Maine Woman, hockey star, and recipient of a Maine Seal, highest award for women.

Alumni who in the past have participated in this annual event will need no introduction to its interest and enjoyment.

Sam Calderwood Assistant Coach

Sam Calderwood ’31, of Bangor, star of many a gridiron battle in 1929, ’30, and ’31, will help out freshman football coach Phil Jones ’19 this year as assistant in football for the yearlings. Playing a guard position on the first string squad almost continually for three years, Sam was a leading lineman; he was also a trackman in college. He will give the benefit of his experience and knowledge in helping Phil Jones in picking out a strong team from the ranks of the many hopefuls of 1941.

With the exception of Calderwood, the coaching staff this fall will be unchanged; under Head Coach Brice, Bill Kenyon will help whip the varsity men into shape while Jack Moran will again work with the Junior Varsity. The jayvees, this year, according to Faculty Manager Ted Curtis, are being made something of a select group, positions on their bench and team being confined to numeral winners from last year’s frosh and previous jayvee players. A four-game schedule for the season will give them considerable experience, and it is hoped that the group will prove a more and more valuable training ground for future varsity players.
WITH THE TEAMS

Varsity Football

All eyes of Maine football fans were turned toward Orono when on September 9 between thirty and forty veteran ball-toters reported for Coach Brice's seventeenth year of gridiron tutoring. According to advance reports, all the squad reported in excellent condition and plunged immediately into the early practice sessions with a vim which spoke well for the season's record. With a hard schedule ahead which began early with Rhode Island, a traditional foe, and included Yale as second opponent, Brice kept the team hard at work during the days when they were completely at his disposal.

Some new backfield material seemed promised in the performances of Dick Dyer, of Portland, a sophomore, at right half, and Pete Mallett, a junior, of South Portland, at fullback. Many of the line positions, too, were being capably filled with veterans; in addition to Hamlin at end, Wally Gleason, of South Portland, was showing his last year's form at tackle, Link Fish, of Concord, Mass., was doing all right at left guard, and Ernie Reidman, of Auburn, at right guard. Center position was being battled for by several men, with long Tom Lees, of Manchester, N. H., as an outstanding contender; track star Johnny Gowell, of South Portland, was being pushed strongly by Harry Shute, of Augusta, for the right end position. Dick Hayes, of Lewiston, recovering from a bruised hip received in early practice, looked strong to fill in the left tackle vacancy, with Ruel Blackwell, a sophomore from Madison, in reserve.

Maine 0—Rhode Island 0

The first game of the 1937 season brought to Orono old rivals from Rhode Island but under a hot sun typical first-game conditions were intensified and a rather unspectacular defensive struggle resulted. Maine failed to develop a consistent scoring punch at any time although making several good advances; with both Elliott and Dyer being out-punted by the Rams, a real threat never quite materialized. If the Bear's attack failed in this first game to show the expected flash and color of last year, it did reveal some promise for later games. Alfred "Red" Mallett, a junior, from South Portland, starting fullback, was a consistent ground-gainer through the line and a strong man on defense. Dick Dyer, sophomore halfback

Prospects for a successful cross country season this fall are quite encouraging at the commencement of the season, according to Coach Chester A. Jenkins, with six letter men from last year's team reporting for practice. Two of the most outstanding letter men who will be counted on by Coach Jenkins for leading performance this year are George Sawyer, a junior from Old Town, former freshman winner of the New England Cross Country meet, and Ralph E. Clifford, a senior from Dexter, who has been improving very rapidly during the past two years. Sawyer, entering his second year of varsity competition is expected to show considerable improvement over his excellent running of last year and Clifford, who had had little experience before coming to Maine, should this year develop into one of the leaders of the squad. He is a strong runner with a long stride and much endurance and is rapidly improving his form.

A big addition to the varsity team comes from last year's freshman squad in the presence of Donald Smith, of Easton, who last year was first place winner of the New England Meet.

from Portland, handled himself capably in broken field running, on the receiving end of a couple of passes, and most important as a potential punter, much needed by the team. Passes were used very sparingly in keeping with the cautious, defensive game shown by both teams; only in the last few minutes of play did Maine really open up and show her aerial possibilities, and then it was too late.

The strength Maine showed on defense was sufficient to blanket nearly everything the Rams had, except occasional runs by their star back, Albanese, who slipped through the tacklers several times for good gains; on the other hand, Elliott of Maine, too, shook himself loose for scattered occasional runs, especially teaming up with Fran Smith on a lateral that looked very good. Most of the Maine line comes in for praise; especially outstanding on defense were Hamlin, of Bar Harbor, who several times broke up the Rhody plays before they were started and dumped runners for considerable loss, Wally Gleason, veteran tackle, Ernie Reidman at guard, and Dick Hayes, the other tackle.

Honoray Captain selected for the first varsity football game was Roddy Elliott, colorful backfield star from Montreal, whose brilliant play has made his choice as first captain for the year particularly appropriate.
Phi Mu Delta Leads In Scholarship List

Results of the spring semester ranking show Phi Mu Delta fraternity in the lead among the campus houses in respect to average rank for that term. Leading Alpha Gamma Rho by a slight margin of 0.05 points, Phi Mu Delta recorded the very fine average of 2.758, well above the average for the University as a whole.

For the sororities, the leading scholastic average was gained by Phi Mu with a total of 2.84; the others were closely grouped behind with an average of 2.5.

Following is a complete tabulation of the comparative averages of fraternities and sororities for the last ranking period:

Placement Bureau Has Busy Summer

The Placement Bureau this summer has had the busiest season on record with placements for both recent graduates and older alumni, and some vacation jobs for students, totaling since July 1 about twenty in number.

Placements during the summer showed a wide range of variety, including work in technical fields, general business, merchandising, and other lines. The 1937 class, already well started on the road of employment during the intensive spring hiring interviews, was still further advanced during the summer. A number of new registrations have come into the Bureau for older alumni with considerable experience in various lines of work, also.

During the latter part of the summer, the office was largely concerned with the problem of the undergraduates for the coming year; over five hundred requests for work of some sort at the University have been received this year which shows no decline from previous years. Employment on the National Youth Administration program for college students has again been made available through the Placement Bureau but with a sharply reduced appropriation from the Federal Government; this work has been allotted to about one hundred and sixty students as the new school year gets under way.

Dues Committee Member

Earle Webster '27

Newest member of the Dues and Finance Committees of the Alumni Association is Earl Webster '27, familiarly "Danny," of Bangor, who has been appointed recently for a three year term. Mr. Webster will serve this year with Professor Joe Murray '25, entering his second year on the committee and, as chairman, George E. Lord '24, assistant director of the Extension Service, who is serving his third year.

Mr. Webster, a graduate in Electrical Engineering, has been employed by the Bangor Hydro-Electric Company, where he is now Assistant to the Vice President and General Manager. He has long been interested in alumni affairs and is at present vice president of the Class of 1927.

Partial efforts this year will be made by the committee to stimulate early payment of dues by a substantial number of alumni so that the Association may have a more definite knowledge of available finances to allow a more constructive and progressive planning of the year's activities.

Faculty Appointments and Promotions (Continued from Page 8)

Professor Milton Ellis of the Department of English will be on leave during the fall semester. Dr. Ellis will do research and complete work on a book which he has under way; Miss Marion S. Buzzell, Assistant Professor of Romance Languages, is to be absent for the academic year 1937-38. Miss Buzzell will devote her time to study and research in her field; Mr. Fred L. Lamoreau, Instructor in Mathematics, has been granted a leave of absence for the academic year. Mr. Lamoreau will do graduate study at the Massachusetts Institute of Technology.

College of Technology: Mr. Warren H. Bliss of the Department of Electrical Engineering will be on leave of absence for the academic year. Mr. Bliss is studying at the Radio Corporation of America, New York City; Mr. Edgar J. Bogan, Instructor in Chemistry, will spend a year's leave of absence in advanced study at Ohio State University.

The New Cabin Colony (Continued from Page 9)

proven the value of such a co-operative community in helping solve the ever-present financial problems of Maine students. It is the beginning of a long hoped-for community; original plans anticipated ten cabins grouped about the central unit. Practically all of the present construction was made possible by donations from interested and generous alumni and friends of the institution, and it was decided last spring to begin construction on the present scale in the hopes of completing additional units later as funds became available. With the central building completed, further cabins can be added to the group at a cost of only about $1,000 each.

Meanwhile, twenty-two students, seeking an education, will gladly go forth this year to cut their own wood, cook their own food, wash their own clothes, and fight their own battles against the financial problems that would rob them of opportunity. There is something most hearteningly Yankee about the University Cabin Colony; it is not perhaps too much to say that here too are pioneers.

Temporary officers elected by the Freshman Class during the closing days of Freshman Week were as follows:

President, Charles C. Gardner, of Orono; vice president, Constance M. Philbrooke, of Shelburne, N. H.; secretary, Anna E. Verrill, of Cumberland Mills; and treasurer, Richard H. Pierce, of Leominster, Mass.

The elected officers will represent their classmates until regular class elections are held late in the fall.
Lincoln County Alumni held their fifth annual outing and meeting at the home of Mr. and Mrs. G. O. Hamlin at Boothbay Harbor on August 14. Over seventy alumni, undergraduates, and friends gathered to welcome the guests. Speakers included Governor Lewis O. Barrows '16, President Arthur A. Hauck, former Presidents Clarence Cook Little and Harold S. Boardman '95, Chief Justice Charles A. Dunn, and Dean Arthur L. Deering '12. Richard Hallett, well-known writer and resident of Boothbay Harbor, also spoke briefly to the group.

In an annual election of officers, Harvey R. Pease '14, of Wiscasset, was chosen president; Bert Mullen '36, Boothbay Harbor, vice president; and Selma Gregory '34, secretary. Games during a chatty social hour combined with the excellent dinner to make the get-together one of the most successful yet held.

Philadelphia, Pa., Alumni enjoyed their annual picnic meeting on June 20 at Drexel Lodge, on West Chester Pike. Chairman Al Repsha '25 saw to it that the fifty alumni and families there had a good time and plenty of ice cream and hot coffee. Officers were elected for the year, Robert Cornforth '20 as president, Norman Small '15 as vice president, and Albert Chase '04 as secretary-treasurer.

Ohio Alumni met on June 13 for a picnic meeting especially featuring flowers and birthday cakes for Madam Dorticco, mother of Philip Dorticco '04, who celebrated that day her ninetieth birthday. After the noon lunch, a short business meeting was held, including a reading of a report on the scholarship fund and a letter of appreciation from the latest recipient. The thirty-five members, families, and friends in attendance voted the outing a splendid success.

York County Alumni recorded an attendance of eighty, including several alumni guests from Cumberland County, at their annual outing and dinner at the Hotel Atlantis, Kennebunk Beach, on July 6. An orchestra and an entertainment which included a program by four aesthetic dancers was the climax of a most enjoyable gathering.

Teachers' Association

The Teachers' Alumni Association will have as guest of honor and speaker at their annual dinner meeting to be held in Portland, Oct. 28, at 5:45 p.m., Dean Lamert S. Corbett, Dean of Men at the University. Dean Corbett is beginning his twentieth-year as a member of the University faculty this fall.

All teacher alumni are invited to gather at 5:30, or earlier, in the Columbia Hotel where the event is scheduled.

Following a social half-hour to renew acquaintances and meet Dean Corbett, dinner will be served promptly at six o'clock. This meeting has come to be one of the biggest and most enjoyable alumni meetings of the year. Reservations should be made with the secretary, C. E. Crossland, at 13 Fernand Hall.

Association Scholarships

Impressive is the list of local associations which gave a scholarship last year or contributed to a scholarship. The list of those giving scholarships now totals twenty-one associations. Chicago alumni raised their scholarship from $30 to $50 last year. South Kennebec and Piscataquis County are newcomers to the list. Rumor has it that Portland Alumni, in addition to giving a watch annually, is also to give a scholarship.

Then, in addition to the foregoing, there are eight associations which are giving jointly the General Alumni Scholarship of $150, and for the 1937-38 scholarship, the recently organized Michigan Association has joined the ranks.

The Top Ten!

Congratulations to Lehigh Valley alumni for their second consecutive year of leadership of the local association groups in a percentage tabulation of dues payments during last year. And congratulations, too, to Philadelphia, who carried a 34.8% standing, fourth in the list, with an alumni population of 109. Congratulations, in fact, to all of these "top ten" who, so far from home, have maintained such a consistently high record for dues payments.

13
ALUMNI PERSONALS

DEATHS

1875
Professor Edson F. Hitchings, graduate of the Civil Engineering Department in 1875, and recipient of the Master's Degree from Maine in 1889, died at his home in Orono on September 8. In a long life devoted to scientific and educational work, Prof. Hitchings was identified with the Eastern Maine Seminary in Bucksport, Colby College, and the Waterville school's, until he was appointed State Entomologist in 1905. In 1911 he was called as Head of the Department of Horticulture at the University, where he served until his death on October 11, 1918. His lifetime interest in wild life, geology, and horticulture brought him deserved recognition by membership in many scientific societies. His many collections of nature specimens were a source of great pride to him. In addition to his professional work, he was an active participant in many civic activities in the town and church affairs and always an interested alumni, sharing freely in the work of both alumni and University.

1878
The death of Charles H. Benjamin, of Washington, D. C., formerly Dean of the Engineering School of Purdue University in Lafayette, Ind., occurred in August. After his graduation from the University, Mr. Benjamin began his career as an instructor in the Mechanical Engineering Department and, for six years served as professor in that department. From this position he went as professor of mechanical engineering at Case School of Applied Science, Cleveland, O. He served also for some time as principal of Patten Academy in his home town.

His life outside of his profession was unusually full and varied. In his later years he devoted much time and interest to painting in which he displayed considerable skill. A book of his travels in England he had privately printed for distribution among his friends. After his retirement from active work, he resided for some time in California and later in Washington. His interest in Maine and its progress lasted throughout his long and full life.

1882
On June 28, George R. Fuller, of Southwest Harbor, died at his home in that town at the age of 80. A native of Tremont, he studied law after graduation from the University and was admitted to the bar in 1887. In addition to his law practice, he served as superintendent of schools in his native town for ten years, was chairman of the board of Selectmen of Southwest Harbor for twenty years, and acted as counsel, clerk, and treasurer for the Southwest Harbor Water Company for thirty years.

In 1891, he was elected a member of the state House of Representatives, and re-elected in 1895 and 1897. He was a member of the Odd Fellows and Masons and chairman of the local Republican Committee for many years.

The death of Joseph F. Gould, noted Bangor attorney, and formerly president of the General Alumni Association, occurred in Bangor on June 21 after a brief illness. In a life filled with notable success in his profession, Mr. Gould had made for himself an important position in Bangor's civil and legal life. Following his graduation from Maine in 1882, he read law and was admitted to the bar in 1888. He began his practice in the city, but later moved to Bangor where he remained the rest of his life.

He served as counsel for many important corporations in Bangor and the vicinity. He was aprodigious worker and made a particular point of a close and continued study of the law even during his last years. In his profession he enjoyed a remarkable record of success and a splendid reputation. While at the University, he was very active in undergraduate affairs, being a noted baseball player, and he continued to have a close and constructive interest in the affairs of the University and the alumni throughout his life.

1883
Levi William Taylor, a native of Jay, Maine, died very suddenly at the home of his son in Villa Park, Illinois, on August 9. For many years after his graduation from the University, Mr. Taylor had been prominent in the field of secondary school education, as both teacher and administrator, in Bangor, Pittsfield, and Calais, Maine, and later at Prescott, Arizona. A nervous illness in 1896 compelled him to give up teaching, and the latter part of his life was spent as an accountant and auditor in Iowa, Indiana, and Ohio.

He took up his residence at Oberlin, Ohio, the last of his life and had resided there until shortly before the time of his death.

1890
The death on July 18 of Edward H. Kelley, of Orono, formerly managing editor of the Bangor Daily News, and during the last twenty years acting purchasing agent at the University, came after a two weeks' illness following several months of impaired health. At his graduation from the University in 1890, Mr. Kelley was awarded a prize as the highest ranking man in the class, and all during his undergraduate days he was active in student and fraternity affairs, particularly dramatics, military, and newspaper work. In 1905 he was appointed by the late Governor William Cobb as military secretary to the governor's staff, with the rank of Major, a title often used by his friends in later years.

Mr. Kelley's ability in journalism was shown in his life during the years following his University career before he returned to the institution in 1918. He commenced his newspaper work with the Bangor Daily News, serving for a time as city editor. Later he worked for the New York Evening World, and various other important papers in the east, before returning to Bangor to serve on the staff of the Commercial.

Not only was he faithful to the University inherent in his work as assistant treasurer and acting purchasing agent, but extended also into many different phases of student and sport activities. He was secretary of his class for some time, president of the Penobscot County Alumni, and a member of the council of the General Alumni Association. He was also an active leader in many community interests and fraternal organizations. His passing is widely mourned by his host of friends.

BY CLASSES

1879
Next Reunion, June, 1938
/ Francis H. Clergue, president of the Universal Engineering Corp, of Montreal, was a recent visitor in Bangor and vicinity. Mr. Clergue, known nationally as an industrial organizer, has been instrumental in developing a number of projects in Bangor for the benefit of the community. He is also noted for having promoted the mammoth industries at Sault Ste. Marie, Ontario, and Sault Ste. Marie, Michigan.

1881
Next Reunion, June, 1942
Mr. Louis K. Tilley, of Ashland, was recently struck by an automobile and received serious injuries, being dragged 25 to 30 feet before the car came to a stop. His attendance at a recent event was said that it was extremely doubtful if Mr. Tilley would live overnight but last report has it that he has undergone an operation and is coming along as well as can be expected.

1884
Next Reunion, June, 1941
William R. Pattangall, former chief justice of the Maine Supreme Judicial Court, has accepted an invitation to represent Maine on the National Advisory Committee of the National Dairy Fair to be held in 1939. This invitation was extended to Mr. Pattangall by the president of the Fair.

1885
Next Reunion, June, 1940
Joseph P. Moulton's permanent address as furnished to us by James N. Hart, is 4127 Bedford Road, Detroit, Michigan.

Dean Hart was made the first honorary member of the Orono Class of 1885 meeting held in June. He was unanimously elected by the directors and members of the club.

1890
Next Reunion, June, 1940
C. C. Harvey, editor of the Fort Fairfield Review, was a speaker at the Fort Fairfield Rotary Club meeting held in July. He sketched briefly in an interesting manner his recent three months' visit in the principal countries of Europe as a delegate to the International Rotary gathering at Nice.

Mr. John Bird, of Camden, was elected a member of the Board of Directors of the Camden Board of Trade at its annual meeting held in May.

1894
Next Reunion, June, 1939
Mr. and Mrs. Charles E. Gilbert, of West Broadway, Bangor, had a very enjoyable trip in Europe in May.

1896
Next Reunion, June, 1938
Dr. Lore A. Rogers, chief of the Division of Research in the Bureau of Dairy Industry, Department of Agriculture, in Washington, has recently been honored by the American Dairy Science Association for meritorious service to the dairy industry. He was made the recipient of
one of two Borden awards which consist of a gold medal and $1,000.

John Randlette of Rumford, Maine, was elected president of the New England Fire Chiefs' Association, at its 15th annual convention in Devonville Notch, N. H., in June. This is an association comprised of all the New England states and has a membership of over 1,000 active firemen. It is the most active of the sectional organizations affiliated with the International Association of Fire Chiefs.

Mr. Randlette's first experience with fighting fire occurred when he was a junior in college; when, one winter morning, temperature at 20 below, a group was aroused to extinguish a fire in old Oak Hall.

1898

Next Reunion, June, 1898

The Harvard Bulletin for the week of June 11 had an article on The Cabot Foundation for Botanical Research, by Dr. Elmer D. Merrill, professor of Botany and Administrator of Botanical Collections at Harvard University.

Brig. Gen. Dana T. Merrill sends in his new address as being Room 1027 Munitions Bldg., Washington, D. C.

Former Governor Louis J. Brann has dropped his hat in the political ring for nomination of the third term in the 1908 primary election. Ex-Gov. Brann is the only Democrat to have been re-elected governor of Maine since before the Civil War. He is living at 14 Mountain Ave., Lewiston.

1900

Next Reunion, June, 1900

He was chairman for Maine last year and has been re-elected. The duties of the position include the general organization of the play contests in the Maine schools and arranging the elimination events.

Lynwood S. Hatch, of Great Works, was elected vice president of the Old Town Rotary Club for the coming year.

Miss Estelle Nason, Special Demonstration Leader for U. of M. Extension Service, was elected one of the vice presidents of the Maine Home Economics Association at its spring meeting.
1923
Next Reunion, June, 1941

Back again after a three months' vacation, and the campus is alive with a record attendance. Since there are several new buildings on campus, number of increased activity will be well over five hundred. This means for sure that fall has come. So with vacations behind us all, we can take note of a few people in terms of vacations spent, and other news.

Hazel Winslow who teaches Latin in New Philadelphia spent part of her summer in Rockland, with a couple of weeks camping in Meddybams, and, I understand grand here of the summer with Elizabeth Hitchings to Cabirou Polly Hawthorne Littlefield and family entailed at Lake Cobbosseecontee, while the Dottes went to Searsport to enjoy the salt air of Penobscot Bay. Ted Curtis took his family to Freepost, or rather to a farm nearby in the country, while brother Curt and Maine, some of the time, were down in Casco Bay on an island. Don Alexander's family were in Maine, but Don had to go to Florida on business.

Patt Patten and Arabelle vacationed in Bath, Bangor, and Northport; Roweene Hersey, librarian at Connecticut College for Women, spent much of the summer in Bangor and Camden, and Frankie Webster, still teaching in Port Jervis, New York, spent the summer at the Inn. Mr. and Mrs. Walter, were in Houlton, not escaping from the heat of New York, either, if Houlton was anything like Orono. As for Virginia Averill Castle, she is at the moment in Old Town.

A few changes of address should be mentioned. Lois Mantor Jackson is living in Portland, where her husband still with the Central Maine Power Co., has charge of the office in Norway. Thanks to Lois, we have this piece of news culled from the local paper.

"Dr. and Mrs. Frank F. Dobbins returned to their hospital in Port Richmond, Staten Island, after a few days in Farmington."

The Alumni Office helped us locate John C. Winslow who is with the Westinghouse Electric Company, 142 Wendell Avenue, Lima, Peru, and E. O. Judkins who was re-elected Superintendent of Schools at Wytotipock. A brief account of read, his faithful work at the school and the public spirit he has for all good works have endeared him to the people of his vicinity.

All of which is a suggestion that you, too, might send in a piece of news from time to time.

It was good to see Mabel and Arthur Wilson this summer. They came to the University for the Institute of World Affairs, and you would certainly be surprised to know how little they have changed since college days. Mildred Lornan Welsh wrote from Bar Harbor where her husband is employed by the National Geographic Society for a while we had high hopes of seeing her. But not yet.

And, O yes, Molly Perkins is back with us again as instructor in English, a fact we like to mention in this column, and reviewed now only for the comment that it certainly is good to see her walking across campus.

Passing through Kennebunk Beach, stop and see Nadine Gellerston Clark at the Webhannet Inn, a summer vacation residence, just opened this last season by her and her husband.

Elizabeth Ring
Campus

1924
Next Reunion, June, 1941

Webster W. White is instructor in American History and coach of track at Nashua High School, Nashua, N. H. His mail goes to his residence address which is Hudson, N. H.

Howard C. Hitchings, principal of the Emerson Grammar School in Portland, was in charge of examinations for positions with the employment division of the Maine Unemployment Compensation Commission given in various towns and cities on August 13 and 14.

Ellsworth M. Carlyle, design engineer with Westinghouse Electric and Mfg. Co. in the Lima Works, Lima, Ohio, lives at 1202 Fairview Ave., Lima.

James A. Chalmers is assistant plant superintendent of the Pacific Alkali Co. engaged in the production and sale of borax and soda ash. His residence and mail address—142 So. Lone Pine Ave., Lone Pine, Calif.

1925
Next Reunion, June, 1940

Mrs. Bannister has resigned as your class secretary so the personalities are for the time being in the Alumni Office. Any news items will be very much appreciated.

Rev. George C. Brookes, Ph.D., minister of the Union Congregational Church in Rockville, Conn., delivered the Baccalaureate Address in connection with Graduation Week at the Bangor Theological Seminary. Mr. Brookes has a son, Kenneth, in the graduating class.

Frank Hussey, of Presque Isle, was made a member of the Maine Agricultural Conservation Committee for the year beginning July. Mr. Hussey is filling the vacancy caused by the resignation of Andrew J. Beck '13, of Washburn, chairman of the committee since its organization in April, 1936. Mr. Hussey is widely known as a potato grower, president of the Maine Potato Growers cooperative, and president of the National Fruit and Vegetable Exchange.

Charles V. Lane in May announced his candidacy for the post of commander of the Maine Dept. Veterans of Foreign Wars. He manages a filling station at 574 Main St., Bangor.

The Bangor Daily News of June 23 contained a very interesting article on Mrs. William F. Schrumpf (better known as "Brownie") describing her special interest in developing a wild-flower garden. She has brought plants from all over Maine and has had good luck in transplanting them. Occasionally she does extension work at the University. Mr. and Mrs. Schrumpf have their residence in University place, Orono.

Amory J. Houghton, Jr., of Belfast, formerly of Bangor, has incorporated what is known as the Houghton's Spencer Bay Camps at Lily Bay in Piscataquis County, on Moosehead Lake. Harland A. Ladd, former principal of Milo High, and Superintendent of schools for the Milo district, was elected the new president of the Milo Lions Club.

John L. McCobb, of Auburn, attended the Convention and Field Leaders of the John Hancock Mutual Life Ins. Co. held during the summer at White Sulphur Springs, West Virginia.

1927
Next Reunion, June, 1940

Hello Everybody:

Back again for another year of reporting, and for a while I was almost certain that there wouldn't be any news to send out this month. Do get busy and write! Edith O'Connor Thaxter saved the life this month. She seemed to be the only 27er in town that had been places and seen people this summer, and thanks to her we get off to a respectable start. Incidentally you won't find Edith at the old address—she has moved to 27 Princeton Street, Bangor.

Did you know that Annette Lane has for some time been Mrs. Burbank? And believe it is living in Wakefield, Mass. Won't you give us a few particulars, Annette?

Two of our classmates are at Hampden Academy, John Snell as principal and Isabel Ames as teacher of French and Latin and girls' basketball coach.

Summer Field is with R.C.A. as radio engineer and living at Riverhead, L. I. He has a daughter, June Martha, who was a year old in July.

George Dow who has been on leave of absence from the University the past year while doing graduate work at Cornell has resumed his work as associate agricultural economist at the University.

Charles Sherer is living in Greenville, Mississippi, and is Insulation Board Mill Supt. for the U.S. Gypsum Co.

Dick Dolloff is County Agent Leader and located at the University. He and Erdine are building a home on Forest Ave., Orono. Last I heard they had progressed as far as a foundation and first floor.

Margaret Johnson is teaching geometry and algebra at Chicopee High School, Chicopee, Mass. Her address there is 424 Springfield St.

Dear Classmates:

Harry Hartman is Field Engineer for the Shamrock Oil and Gas Co. located at Dumas, Texas. He receives mail at P. O. Box 85. Harry would be interested in seeing any alumni who might be located near him.

Helen Benner is teaching in Winslow High School this year.

Harold E. Ingalls and Miss Agnete Elizabith Wulf, of Rumford, were married in the Little Church Around the Corner in New York City, September 16, 1936. Harold is Plant Engineer for the Southern Kraft Corp., York Haven, Penna. He is residing at 107 So. Main St., Manchester, Penna.

Dr. James Reed and Miss Elizabeth Buker, of Farmington, were married June 12 in Woodstock, N. H., and are making their home in Farmington. Mrs. Reed is a graduate of Farmington State Normal School and has been teaching in Winchester, Mass. For the past two years, Jinn has been connected with the Franklin County Memorial Hospital as roentgenologist. Miss Reed has been cross country and track coach at F.S.N.S. in addition to her regular practice.

David Fuller and Cornelius Russell were appointed by the C. of C. committee for setting up a Community Chest for Bangor.

Philip Trickey and his wife called one evening this summer. He designs electric motors for the Diehl Mfg. Co. of Elizabeth, N. J., and also resides in Elizabeth. Phil said that Roger Lewis is with the Westen Electric Co. in Elizabeth, N. J.

Barbara Pierce Skofield 32 Harlow St.

1929

Next Reunion, June, 1939

Dear Classmates:

Dr. Edward Blank has recently been appointed assistant physician at the Bangor State Hospital. Since graduating from Maine and from the Boston University Medical School, "Ed" has served at the Burbank Hospital in Fitchburg, Mass., Mattapan Sanatorium, and in Sinai Hospital in Dorchester. For the past two years he has been in private practice in Norton, Mass.

Lorannus Hatch is associate sanitary engineer at Wilson Dam, Alabama. His address is Village 1, No. 49, Sheffield, Ala.

Richard Holmes is District Manager of the Union Mutual Life Insurance Company. He is located at 65 Brewer St., So. Brewer.

At a pretty church wedding at Martinsville, Maine, Miss Evelyn Morris became the bride of Clayton Hunnewell. Mrs. Hunnewell is a graduate of St. George High School and has recently been employed by the Senter-Crane Company of Rockland. Since graduation, Clayton has been teaching. They will make their home at Martinsville.

A double wedding took place in Green ville, this summer. Miss Lorna Smith became the bride of Carroll Pritcham, while her sister Maxine became the bride of William Wallace. Carroll has accepted a position in Philadelphia where he and Mrs. Pritcham will make their home.

Clayton T. Knox was married in Olean, N. Y., on March 14, 1937, to Mabel H. Weber of that city. They will live at 155 Victoria Blvd., Kenmore, N. Y.

And still another wedding! George Raye was married to Ruth Virginia Husto in the Congregational Church at Arlington, Mass. Mrs. Raye was graduated from Northfield Seminary and the School of Nursing at the Homeopathic Hospital in Boston. They will make their home in New York City.

Donald Tracy is now manager of the Haverhill District of the Metropolitan Life Insurance Co. His address is 20 Edward St., Haverhill, Mass.

Edwin White is employed in Rutland, Vermont, by the Central Vermont Public Service Corp. His residence address is 40 Elm St., Rutland, Vt.

Miss Esther Hawkes, of the faculty of Cape Elizabeth High School was married to Stanley G. Winch on June 20. Mrs. Winch is a graduate of the State Teachers College at Plymouth, Mass. Their address is Box 684, Denville, N. J.

And after this the author of the personas for '29 will be Miss Marian Hawkes, 11 Innis St., Cambridge, Mass. Your faithful previous writer, Mrs. Alice Webster Sinclair, has decided to pass along the work to another this year. Atlantic office and the Class of '29 join in an expression of appreciation for her excellent Personal."—

Next Reunion, June, 1939

Classmates: A card from Alice Bagley, dated Paris, August 28, and saying, "Dear Folly, I just had to write "hello" to you. My little bicycle and I have been to the Rhineland and the Black Forest. I will be in Vienna and northern Europe. It was a flying touch to hop on to Paris. We're going out to buy breakfast now—milk in a wine bottle to take to the tomates, white bread and cheese. It will be eaten from a paper bag and will be spared with a jackknife!"

Also a most interesting letter from Ed Bailey, written as only he can! She's still in the Philippines on the medical mission ship touching at the many outlying native islands. She writes, "The barratier is dropping faster and the crew is scurrying about battening down the hatches and making everything fast, so I suppose we're in for it by the typhoon season and are they a-squiffin'. I never knew what rain was until I hit the Islands. If you could see me now, you'd appreciate how harmless I am and you mustn't let my Sadie Thompson gibberish fool yuh. This boat carries an M.D., nurse, dentist, and cartloads of propa-ganda. We go talking, pulling teeth, etc., making Baptists out of natives in G-strings. Really, it's a great life for a person of my propensities. The Skipper calls the 'Antidote.' We are going south to Tawi-Tawi, Borneo, Zamboanga, Jolo and Bali (this latter if the typhoons don't get too strenuous). I don't live at the above address (Cuyo, Palawan, P. I.) more than two weeks during a year, so when I hear from the States it sometimes takes weeks for me to arrive on the loose. This may be delayed for weeks before a boat arrives to take it to Manila."

What! I was at home this summer in Kennebunk for a short visit, who should ring our doorbell one day but Mary Crowley. She was looking "like a million" healthy and happy, with the same old engaging Irish twinkle in her eyes. She was travelling for Bookhouse for the summer, selling children's book series. This fall she starts teaching again in Aroostook. After graduation in '30 she taught for several years at Berwick Academy in Maine. The next two years she did very well travelling and directing productions for the Universal Production Co.

The last of May a card arrived from Rebecca Matthews McBride in Arlington, Virginia, announcing the arrival of David Stephen McBride on May 22nd.

In June a short note came from Frank Barrows '31 who is with the W. T. Grant Co. in Sanford. He had noted the personal about "Russ" Lathrop in the June Alumni issue and wrote that he might be interested to learn that Russ has recently been raised to assistant superintendent in the Chicago district of the Grant Co. This is a grand step and is conferred only upon the men in whom the Company officials have the most confidence for future advancement. His new address (business) is 20 N. Walker Drive, Chicago, although most of his time is spent in inspecting stores in Michigan and Ohio.

In June the following announcement reached me—Mr. and Mrs. Orra Spear Roney announce the marriage of their daughter, Jeanette Mabel, to Joseph Pero on Saturday, the twenty-sixth of June (1937), Fairfield, Conn. At home after August first, 19 Avery St., Westfield, Mass.

Oneonta, N. Y.

1931

Next Reunion, June, 1939

Dear Class of '31

Here it is fall again and I'm off at my old job reporting.

Two of our number have changed schools. Jessie Frasendjord is now a physics teacher and Aaron Eriksen is a teacher of foriegn classes in the English dept. of Bangor High. Charlie Chapin
has gone from Stockton Springs to be principal of Bangor High School. Charlie has been improving his summer vacations by studying at Maine and Columbia. Martha Wasgatt is doing graduate study at Columbia. She doesn’t say what, but I would guess dietetics. Am I right, Martha?

Frank Scott must be after his Ph.D. or some other D-degree for he was at N.Y.U. this summer. How that man does like to work!

Some members of our class have landed in Portland. Phyllis Johnson is Mrs. C. Edwin Butler II, a busy housewife. Mrs. Deland St. Dave and Mrs. Dave Barker and family are living at 1187 Washington Avenue. Dave has left the teaching field and is a salesman for the New England Tel. & Tel. And last but not least, John Vickery, who is working for the Metropolitan Life Insurance Co.

Ken Lapworth is commanding the 1176th Co., CCC, at Turners Falls, Mass. Don Marshall has completed his internship at Strong Memorial Hospital, Rochester, N. Y., and has been appointed assistant resident in surgery.

Everett Felker has been appointed Boy Scout District Commissioner for Waldo County.

The Bangor News recently carried pictures of the first car before any other car, but than at any time since 1928. An inset showed the "youthful superintendent of the firm"—none other than Francis McGuire.

Miss Alice Dorsev was married to Herman McLaughlin at St. Dents Roman Catholic Church in Fort Fairfield, June 7. Mrs. Dorsev is a graduate of Maine School of Commerce and has been a clerk in the Fort Fairfield First National Bank.

On Sept. 16th Miss Lilian T. Soule became the bride of John Sturgis at "Cheechako Farm" in Buxton. Miss Soule attended the Brockton schools and Robinson’s Seminary for Girls at Exeter, N. H. She has been connected with the Hartford Accident and Indemnity Company in Portland. John is making the most of his knowledge of Maine and Harvard Law School: he’s associated with the law firm of Chaplin, Burkett and Knudson Portland.

It will soon be Teacher’s Convention time. I hope I’ll see some of you in our fair city. So until next month, so long—Mary Carter Stiles 110 Revere Street Portland, Maine 1932

Next Reunion, June, 1939

Dear Classmates

Cedric Arnold is now an Attorney in Lynn, Mass. Address—23 Central Avenue, Lynn.

Mr. and Mrs. J. Rice Moody (Doris M. Baker) announce the birth of a young son, William, on August 27, 1937.

The wedding of Ruth Clark to Maynard H. Wigg on took place on August 2, 1937, in Rockland. Ruth has been the 4-H Club leader for Knox and Lincoln Counties since 1932. Mr. Wigg is employed by the Reneker Company. They are residing at 100 Stone St., Augusta.

Clarine Coffin accepted an appointment to preach at three churches in Duxmont this summer. Her engagement to the Rev. Jack Grenfell of Bridgeport, Conn., was announced on July 31. Mr. Grenfell has been pastor of Trinity Episcopal Church in Bridgeport for the past three years.

Vaughn H. Cogswell is secretary and treasurer of the Trustee Production Credit Association at 33 Court St., Auburn.

Marion Davis Cooper (Mrs. Chester Cooper) is living at 36 Church St., West Springfield.

Fred E. Gillen graduated from the Boston College School of Law this summer.

Henry F. Howes is a steam engineer with the Rust Proothing & Metal Finishing Corp. His address is 29 Union St., Ashland, Maine.

Homer "Pat" Huddleston is Special Representative for the Lewis Mfg. Co. Div. of the Kinnard Co. His address is 185 High Plain St., Walpole, Mass.

Gerald L. Kinney was appointed as Special Agent for the Bangor District for the Northwestern Mutual Life Insurance Co. on May 25, 1937.

Neal Landers is Field Representative for the Federal Land Bank of Springfield. He is working in the vicinity of Auburn, Address, Box 98, Auburn.

Harland Leathers accepted employment with the law firm of Millbank, Tweed, Hope and Webb of New York, after his graduation from Duke University in June. His address is 33 Hillside Avenue, Apt. 35, New York, N. Y.

Francis "Pat" McCabe was promoted to the rank of sergeant in the State Police on July 7. Sergeant McCabe has been appointed director of the State Highway Safety Campaign. He and Mrs. McCabe and Terry are making their home in Augusta.

Eleanor Meacham is secretary in the Bulk Edible Division of Laver Bros. Co. Her address is Apt. 42, 41 Limnae Ave., Cambridge, Mass.

Dr. John J. Pearson, Jr., has completed his internship at the Eastern Maine General Hospital in Bangor and plans to enter private practice in Milford.

Charles L. Puffer, Jr., has resigned as principal of Solon High School to become principal of Madawaska High School.

The marriage service of Geraldine Shean and Lovell Chace was performed by Rev. Wm. Chace on June 19, 1937. Mary Recy Shean and Helen Chace were among the guests. Gerry Shean Chace has been teaching at Oakland High School for the past two years. Lovell taught in Coburn Classical Institute and also at St. Johnsbury, Vt., Academy, and for the past two years has been employed by the Liberty Mutual Ins. in Boston. They are residing at 98 Queensbury St., Boston.

Robert Shean is employed by the Good-year Tire and Rubber Co. His address is 100 Collins St., Hartford, Conn.

Katherine Trickey was supervisor of the new Orono Playground during the summer.

Helen Hincks

Section 1, Apt. 25

409 B. Pleasant St.

Malden, Mass.

1933

Next Reunion, June, 1938

Dear Classmates:

Some of the news which I have dates from last spring and should have appeared in the last number of the Alumna. However, Tom and I left for Denmark, Maine, at the close of school amidst such a hustle and bustle that the notes remained here, and I confess, I dared not "make up" everything for the issue. I shall try to "orate" every tiny bit of news that has come my way during the summer.

We were in Denmark, Maine, at the C. E. Cobb Camps for Boys and Girls, and Adults. I suppose you’d call our duties there, those of dietitian and buyer for food and distributor and accountant for food supplies for Tom. We had a wonderful summer, busy but each of those minutes were interesting ones. Our "family" numbered about five hundred for each meal.

Brice Jose and his wife were at the Boys’ Camp—Camp Winona—and we were glad to see Brice. Unfortunately, we did not happen to meet Mrs. Jose. Brice is teaching at the Evans School, Tucson, Arizona, and plans to return there this fall.

One evening while driving through the main street of Bridgton, we heard this wild cry, "Tom!" and then stood Betty Shurtleff Goodwin, as tight in the middle of the street, waving her arms wildly for us to stop. She and Frank "Skip" Goodwin came back with us to Denmark and we had a busy evening reminiscing. "Skip" is electrical engineer at the power plant in Kezar Falls. You should see the new power plant for which "Skip" drew the plans and supervised the installation. It is pretty fine. "Betty" is fine and has been busy with 4-H Club work and Farm Bureau meetings. A week before we started back to Norwich, we spent an evening in Kezar Falls with Skip and Betty at their home. Betty is an excellent cook. One more compliment to the Home Economics Dept. at U. of M.

Betty Barrows Pendleton and Bob are now Mother and Dad to a little girl, born this summer. Congratulations, Bob and Betty.

Lena Mitchell De Libro is dining room supervisor at the Bridgeport Hospital, Bridgeport, Conn.

On June 29, Richard Smac and Miss Virginia Rosamond McLaughlin were married at the home of the bride, Hampden Highlands, Maine. After the wedding the couple left for a wedding trip to Boston and New York. They will make their home in Old Town. The bride attended Hampden Academy and Brooks High School and was graduated from the School of Nursing at the Eastern Maine General Hospital. Dick is now employed as chemist at the Penobscot Chemical Fibre Co. in Old Town.

Another June wedding was that of

FRED C. PARK

84-88 Hammond Street

Bangor, Maine
Marion Ladner and Dean Bailey, both of Orono. Since graduation Marion has been a member of the Orono nursery school staff. Dean Bailey graduated from the U. of M. in 1936 and is now a graduate student in plant breeding and nutrition at the Maine State Agricultural Exp. Station. The couple will make their home on Park Street, Orono.

On Aug. 15 at 4:00 P.M. Louise Hill and Winston Robbins were married at the home of Dr. and Mrs. Herbert S. Hill, College Ave., Orono, by Prof. Marion J. Bradshaw, of Bangor Theological Seminary. Louise and Winston are to be found at Highland Street, Woodfords. At present "Win" is employed as civil engineer at Saco. Loui­se is 4-H Club leader in Cumberland County.

Weddings seem to occur in pairs or doubles for each month. Also wedded in August were Emily Ruckleff and Charles Thomas Warner, of Weston, W. Va. The bride and bridesmaid are to spend their honeymoon in Quebec City. They will afterwards make their home in Houlton. Emily has been in government employ, being connected with the U. S. Immigration and Naturalization Service in Montreal, Canada, and lately in Houlton. Mr. Warner was graduated from Weston High School, and West Virginia Business College. He is employed in the CGE of Huntington, W. Va., and the National University Law School of Washington, D. C. For the past five years he has been employed by the U. S. Immigration and Naturalization service, having been stationed in Washington, D. C., and Calexico, Calif., as immigrant inspector and New York City as naturalization examiner. He is on detail at Houlton for the summer and will later be transferred to New York City.

Bernice Wilson is now Mrs. Matthew Logan Wilson having recently been married to Matthew Logan Wilson, of Brooklyn, N. Y. Mr. Wilson is a graduate of Columbia University with a degree in engineering. He is with Bell Laboratories in New York City.

And here is another June wedding that I nearly omitted. About the 24th of June Miss Josephine Wilma Gray became the bride of Oliver Doe, of Bangor. The bride was graduated from Castine Normal School and the Leland Powers School of the Theatre. For several years she has been in the studio of dramatic extension in Bangor and while there was very prominent in the women’s service club. Since leaving Bangor she has taught at the Ogontz School for Girls in Pennsylvania. Harold Doe, after leaving the University of Maine, went to Skidmore School of Music and the New England Conservatory of Music in Boston. He is now teaching English and music at Stonington High School.

In July the engagement of Miss Bertha Lovina Garland to Frederick Myers of Orono, was announced. Miss Garland is a graduate of Old Town High School and Bates College, Springfi­eld, Mass. She has attended several summer sessions at the University of Maine and is the head of the commercial department of Hermon High School. Mr. Myers is now employed at the University greenhouses on the campus, having graduated from the Horticulture Dept. at the U. of M.

And now — away from weddings and engagements to more news! Sid Biscoe, of Orono, has been appointed New England Sales representative for Pusey & Jones Company of Wilmington, Del., according to information received this summer. He has been associated with the Delaware company for the past two years. Sid will continue to man his head­quarters in Wilmington but will make frequent trips through the New England territory.

Marion "Dixie" Dickson, who has been instructor for the past four years of Home Economics at Maine Central Institute, Pittsfield, has been appointed dietitian to take the place now vacated by the resigna­tion of Mrs. Christabel Folsom, who leaves to assume the duties of dietitian at Bates College, Lewiston, Me. I do not get a letter once in a while.

Hazel Scully has accepted a position for the coming year with the Webber College of Business and Fine Manners for Young Women, in Boston. The school, which is located on Beacon Hill, Boston, moves to Babson Park, Fla., for the winter months. Hazel will teach shorthand, typewriting, accounting and economic history. Since 1933 Hazel has been an instructor at the Edward Little High School in Auburn.

We hear that Bunny Folsom is doing Red Cross work in the south. For the past five years she has been located in Covington, Tennessee, but has recently been transferred to Louisville, Ky.

Charles D. Brown, graduate of the Mechanical Engineering Department with the famous class, has been awarded a Storrow Scholarship of $600 for study in the Graduate School of Engineering at Harvard University during the aca­demic year 1937-1938.

The History of Secondary Education in Washington and Hancock Counties, written by Supt. Ed. Linscott, of Bluehill, and printed in book form has just been released by the printers this summer. The book contains a history of secondary education in the two counties beginning with the establishment of Washington Academy in 1791, Bluehill Academy in 1802, and the tracking of the history of other academies and high schools in that section. The material was gathered and collected for Ed’s thesis toward his Mas­ter’s degree, which he received from the University of Maine two years ago. Since then, he has done some work at Columbia toward a Ph.D.

Bruce Ashworth is in the Automobile Dept. of the Travelers Ins. Co., Hartford, Conn. He is an Asst. Underwriter. His residence is 619 Hill Road, Wethersfield, Conn. Tom and I would like to see you and Claire sometime—how about coming over some Sunday after­noon when you are out for a ride?

Jerome Maxfield is chemical sales re­presentative for the Chas. Pfizer & Co. of N.Y.C., chemical manufacturers. His ad­dress is 20 Cypress Ave., Los Angeles, L. A., New York (or business address) 81 Maiden Lane, New York City.

J. Kenneth Brown is in the General Electric Co., West Lynn, Mass., as manu­facturing methods engineer. His resi­dence is 29 Andrew Road, Swampscott, Mass.

Leif Sorensen and Effie are in the Mid­dle West, living at Deephaven Park, R-2, Wayzata, Minn. Leif is insurance adjuster with the Lumbermens Insurance Co., 509-2d Ave. So., Minneapolis, Minn.

George Bullen is with the General Electric Co. in Fort Wayne, Mass., 100 Wood­lawn Ave., as industrial inspector in Wage Rate & Planning Dept. Also instructor in Time Study-Motion Study and Job Evaluation. His residence is 32 First Street, Pittsfield, Mass.

Theron Whitcher is employed as a weaver of furniture upholstery at Pawtucket, R. I. His residence is 124 Englewood Ave., Pawtucket, R. I.

Lucille Nason is teaching in the ele­mentary grades in Belgrade Lakes. “Sun­ny’s” home is 7 Lake St., Auburn.

Received a nice letter from Blanche Henry the other day. Blanche always writes me a letter every fall and I do love to hear from you, Blanche. Blanche has been travelling this summer. She is teaching mathematics at the Post Children’s School, Marine Barracks, Quantico, Va. Blanche says that it all seems so good that she can’t make it seem quite real. Write again when you have time, Blanche, and tell us more of your work and more about yourself.

Some bits of news that are not of very recent origin are probably still news to some of you. Polly Brown was married on May 5th to Mr. Haywood Pierce, of Bangor. Polly was married in the Little Church Around the Corner and after the wedding reception left for a brief honey­moon in Bermuda. Mr. Pierce is a gradu­ate of Harvard College, after which he studied and practiced archaeology abroad. He had a distinguished career in Bermuda and since that time, in collaboration with Major Royall Tyler, financial ad­viser to Hungary, has become co-author of the article “Byzantine” for the American edition of the Encyclopedia Britannica. Since 1928 Mr. Pierce has helped to manage the Hayford estate, Clarksburg, and business properties in Bangor and elsewhere in the state. The couple are liv­ing at 214 Cedar Street, Bangor.

Another early spring wedding was that of Wesley Cripps, of Rey­ward, to Miss Iris Turner, of Burlington. Mrs. Cripps was graduated from Lee Academy and the Brigham Young University. Crip­pis is employed at the Cripps dairy.

Write some news, please, so that we can have some bigger and better columns this year.

Mrs. Martha Baldwin 275 Broadway Norwich, Conn.

1934

Next Reunion, June, 1938

Dear Class:

It’s time to gather up the threads and start weaving again. Every new year adds more color and more interest to this continuous life story and personally I’ve been waiting eagerly to see all the things that have happened since June.

All of you who have seen “Varsity Show” probably received the same thrill I did when our “Stein Song” was played and our “M” formed. It still sends shivers up my spine. By the sound of the applause and cheering I thought the U. of M. must have moved to Boston. I wonder how many of our schoolmates were right there in the theatre. Well, this is satisfying your curiosity so I’ll get busy.

Honestly, I thought at least half of you people were already married by now but looking over my news I find three quar­ters of it is marriage. I’m sure this must be the last of you but anyway more power to you.

Wesley Judkins received his master’s degree last spring from Ohio State University in the department of horticulture and fore­stry. He has spent the past summer at the Wooster Experiment Station at Ohio State and is thinking of remaining to study for his Ph.D. That sounds like a big goal!
George Osgood has been chosen as teacher of agriculture at Fort Fairfield High School. He will probably do some coaching also. There's more news about George but it comes under a different heading.

Louis D'Connell has been chosen teacher of mathematics and coach of athletics at Bangor High. Lolly and Helen have two girls. That's really a lot isn't it? They are living in Stillwater.

Eleanor Burnham is home economics teacher at Lakeview High school, showing the little girls how to make more good things to eat. Watch out for those Bangor Dam engineers, Eleanor. They love good food.

Paul Winchenbaugh is cashier for Cotton Converters in Boston. I wonder what Cotton Converters are or is—

John Venkus is engineer for the safety department of Liberty Mutual Ins. Co. in Portland, Maine.

Eva Bibeau is certainly getting a chance to use her psychology and sociology. She is a house mother in the Western Home for Girls in Minneopa, Pa. I wonder if girls have the same as we when we were in school; if so, I pity House Mother Bisbee.

Shirley Young has moved from Prince- ton to Islesboro where she will teach languages.

You see the foresters are still hustling around. William McBrady has moved from Luikin, Texas, to Jackson, Missouri, where he is assistant to instructor in the U. S. Forest Service.

James "Mit" Atttridge has moved to Springfield, Mo.

And for our foreign travel of the month what do we have? One of our representatives, Gene Merrill and Francis Lord. Arkle's life sounds so exciting and story-bookish I'm thrilled thinking about it. She has been dramatics director at the MacJannet summer camps on Lac D'Annecy at Lallories in the French Alps. This winter she may teach in the MacJannet School near Paris. If that isn't exciting—

Francis Lord had charge of a group of twelve M. I. T. students for an automobile camping trip through Europe—through industrial contacts of the Institute.

George Osgood has just been elected 1st vice president of the new Lions Club organized in Fort Fairfield, but that still isn't the news about George. He was married on July 7th to Miss Garnelia Edmonds of Mars Hill. Miss Edmunds attended A. C. I., Farmington State Normal School and Maine School of Commerce in Bangor. And that's all for George for this month.

Dorothy Shiro married Lt. Sockal in June.

Del Ballard was married June 26 to Frances Leighton of Yarmouth. Miss Leighton is a graduate of Miss Wheelock's School in Boston and has been teaching in Yarmouth. Del is teaching at Worcester Academy in Worcester, Mass.

It was a busy summer at the Wheelers' in Millinocket. Weddings were in order. June Wheeler and Claude Baker were married in July and Paul Wheeler and Dorothy Shiro were married the same month. None of these people need introducing.

Matthew Robinson married Andrew Watson June 23, Andy's still doing research work in the Experiment Station at Maine.

Lewis Johnson was married in August to Miss Modesty, of Veazie. Mrs. Johnson attended the Maine School of Commerce. They have left for Lafayette, Indiana, where Lewis has a teaching position in the civil engineering dept. at Purdue University.

Wayne Rich was married on July 10 to Miss Carolyn Toole who attended the Gilman Commercial School. Wayne is now employed in the U. S. M. Extension Service as 4-H Club agent for Androscoggin and Sagadahoc counties with headquarters at the State Normal School in Lewiston. They are living in Auburn.

Elliot Reif was married August 16th to Jean Calhoum, of Bangor. Mrs. Reif graduated from the Conservatory of Music and they will live in Bethel, Pa., where Elliot is employed by the Bethel Steel Co.

Ella Blanch was married to Don Hubert Saunders, of Lubec, on August 13. Mr. Saunders is an attorney.

Lawrence Chato was married in June to Marion Harris, of South Brooksville. Mrs. Chatto is a nurse. Lawrence is executive assistant, U. S. Dept. of Agriculture, in soil conservation. His office is in Winslow Hall at the University.

It won't be any surprise to you that Franklin Johnson and Miss Bull were married on September 12. They were married in Orono which is especially suitable, I think. They were married at Dean Corbett's on the Maine campus. That's swell. Of course Dot Davis Parsons served.

And now it's my turn to get excited. You may have read of the engagement of Merle Shubert and Jack Leddy in June. Jack has passed his bar examinations and has a position in Portland; in a few weeks wedding bells will be ringing in Ocean Grove, New Jersey. I'm almost excited now as if I were going to be the bride. It's another one of those things that are inevitable, like the Corbetts, Parsons and the DeCoursy's—just you know it will happen that way. I'm keeping my fingers crossed till the big day. Bob and I are planning to go even if we have to walk.

I'll report on the Leddy-Shubert nuptial next month.

Till then, I remain,

Excitedly,

Madelene Bunker
74 Fenwood Rd.
Boston Psychopathic Hosp.
Rockbury, Mass.

Next Reunion, June, 1938

Greetings, Everyone:
After such a beautiful summer, and with so much news to tell you, I am really at a loss to know where to begin.

On Wednesday, June 30, Dorothy Sawyer was married to Alfred MacMichael. The wedding took place in Jonesport and Dot and Alfred are going to live in Pittsfield, Massachusetts. Charlotte MacMichael and Alice Simco were two of the bridesmaids, and Charlotte became engaged during July to Dr. Gene McManamy of McGill University, Montreal. Their wedding will be sometime next summer. Phyllis Johnson was married on August 28 to Clarence Wadsworth in LaTuque, Quebec, and I think they plan to live in New York.

Hugh Ryan was married in Bangor on June 26 to Roseann Tompkins. Hugh and Mrs. Tompkins bought their new home at Glenbrook Road, Stamford, Conn. Hugh is teaching math at Burdick Junior High School in Stamford.

Gerald Leavitt, a doctor of Optometry from Pennsylvania State College of Optometry, was married on June 20 in Millinocket to Janet Russell, a graduate of Farmington Normal. Dr. and Mrs. Leavitt plan to live at 154 Main Ave., Millinocket.

Francis Topolosky, principal of Steuben High School, was married in Buckport to Miss Lucie Hinkley. Mr. and Mrs. Topolosky is a graduate of Gorham Normal.

And in Philadelphia, Pennsylvania, Sam Favor was married to Miss Ethel Chapman. Mrs. Favor was graduated from Western College, Oxford, Ohio, and has been doing social service work in Sam and Mrs. Favor are to live at 31 North Highland Ave., Lansdowne, Pa., very near to the General Electric Company where he is employed. Henry Fales for best man.

Hope Greenlaw became Mrs. Robert Akeley, of Presque Isle, on June 12, when she was married to Bob, who was to become an alumnus of the U. of M., in two days.

Clayton "Deke" Robertson was married on June 12 in West Medway, Mass., to Miss Selma B. Anderson, of Boston. Mrs. Robertson is a graduate of Willard Academy, Boston, and now lives in Medway, where Mr. and Mrs. will live. Deke is employed by the Standard Oil Company.

In Fort Fairfield, on July 7, Flora Stone was married to Mervale Sylvester, of Mars Hill, U. of M. grad in the class of '35. Mr. and Mrs. will live in LaCrosse, Wisconsin, where Mervale is employed by Swift and Company.

Thomas Richard was married on August 8 to Miss Alice B. Howell, of Old Greenwich, Conn. Tom is connected with the Machlett Laboratories in Springfield, Conn. Mr. Richard is graduated from the Merrill Business School in Stamford. Mr. and Mrs. Richard are planning to live at Glenbrook, Conn.

The engagement of Mildred Bean who attended the U. of M. with us has been announced. Mildred is to be married this fall to Charles Mann, a commissioned officer, and a salesman for the W. A. Bean and Sons Company of Bangor.

And Lester Diamond is engaged to Miss Rose Wigon, of Portland. Rose is a senior at Westbrook Junior Seminary. They haven't set a date for the wedding yet.

Dorothy Allen, who attended Maine, and then transferred to Lexington School in New York, where she trained to teach at the Beverly School for Girls in Chicago last summer married this summer to Selbert Cook of San Francisco, California. Mr. Cook is a graduate of Amherst College and is employed by the Prudential Life Insurance Company and is located in San Francisco.

And in Bangor, Craig Welch was married in August to Miss Elizabeth Chandler Williams, of Bangor. Mrs. Welch was graduated from the Eastern Maine General Training School. Craig is now with the Fairbanks-Morse Co. of Boston and the newly-weds will live at 798 South St., Houburgh, Mass.

Two more Maine grads were married on July 24 when Donna Weymouth became Mrs. Paul Wheeler. Mrs. June Wheeler Baker was the matron of honor. Donna and Paul plan to live in Presque Isle where Paul is employed as inspector for the State Highway Commission.

And our last groom—John Rdall was married to Miss Wilma Rae Reynolds at Machias on July 14th. Hollis has a position with the Eastern Life Insurance Co. and they plan to live in Machias.

From all the '35ers and all the brides
and grooms who have joined our ranks—our very best wishes and our heartiest congratulations!

Edward Gross transferred from Maine and this January received his LL.B. from St. John’s Law School in New York. Philip Lamb received his LL.B. last June from George Washington University in Wash-ington, D. C. Frank L. McCollum who has been employed in Washington as Junior Chemist in the National Bureau of Standards last May to receive a degree—a B.S. from George Washington Univ. At Co-lumbia Elizabeth Jenkins received her M.A. in June. Betty sailed for a trip to Europe last June.

Albert English is Medical Laboratory Technologist in charge of the Aroostook Hospital Clinic Laboratory in Houl-ton. Woodrow Palmer, salesman for N. E. T. & T., is located in Portland; Elmore Wood is in Skowhegan as Meter Tester for Central Maine Power Co.; and Aldivera Norton is a partner in the S. B. Norton & Son Yacht Co. of Barre, Maine.

The Down County Power and Light Company realize the work o’er their Home Ec grads—Betty Lou Davis is Home Service representative in Sanford, and Mrs. Davis resides in Biddedford. Polly Budge has been teaching home economics for two years in Bucksport, but now Polly has been appointed home demonstration agent in Somerset County.

Jean Walker has transferred to Stearns High School where she is to teach English. Jean taught in Island Falls and in Calais during the first two years out. And Danny Barrett is going to coach and teach in Old Town this year. Ruth Todd is managing the pageant in Milo this year. She has been teaching home ec in Newport.

Charles Diwans is a Research Chemist for the International Paper Company at Niagara, New York.

Henry Fales and Donald Pedersen are both located in Pennsylvania. Henry is Jr. Engineer with the Scott Paper Company in Chester, and Don is Investigator of Mechanical Engineering with the Container Corp. of America at Roxborough Station, Philadelphia. Both are members of Kappa Xi.

It has been transferred to Barre, Vermont. George is now Merchandise Manager for the Montgomery Ward Company.

Agnes Crowley 59 Western Avenue Biddedford, Maine 1936

Next Reunion, June, 1938

Dear Classmates:

There are no announcements which I have made concerning myself have been saved (very modestly) until the end of this column. This time, if you’ll excuse me, I’m going to lay the background.

August 10th, a baby girl named Judith Anne arrived at the Webster homestead. Maybe Eddie and I aren’t the proud and happy ones, but we get first crack and seeing as how (we love to show her off). The invitation is extended to anyone who cares to come and visit.

Claire Saunders and Bruce Ashworth were married June 10 in Bluehill. The event took place in the garden of Miss Alice Wyman who has been a resident at Maine several times. The Ashworths are residing in Hartford, Conn. I don’t know a more complete address, but expect to by next month.

Old Town was the scene of another attractive outdoor wedding, that of Alice Crowell and Harold Lord ’35. The wedding march was played by Dorothy Nutt Packard. Al and Harold are living on Turner Street in Auburn.

Malcolm Tilton was married July 5 to Doris Arlene Pahls from Cape Cod, Mass. They will make their home in Patten. Malcolm is teaching agriculture in Patten Academy.

Our boys seem to be going to Massachu-setts for their brides. The marriage of Raymond Powell and Grace Nye, of West Springfield, took place in July. The couple will reside in Lewiston where Raymond is Asst. Mgr. of the Wiseman Farms Ice Cream Co.

Marcia Allen and Irving Grodin ’34 were married June 1. They will live at 10704 Wade Park Avenue, Cleveland, Ohio, where Irving is employed by the Sherwin Williams Co.

Oro will be the home of Lou Himman Yeaton and George Yeaton who were married June 30 at Skowhegan.

John Bartlett was married June 8 to Katherine Mortell, of Bangor. After the ceremony Mr. and Mrs. Bartlett left for a wedding trip to New York and Wash-ington, D.C. They are now residing at 252 Grove Street, Bangor. John is employed at the Bangor Post Office.

June 20, Stanley married Frederick Start, of Camden. The wedding took place at Bar Harbor. Their home is in Dorchester, Mass.

We can be justly proud of Helen Bucker as she is making quite a record for her- self in her particular field. She was chosen one of four from the Boston School of Occupations for a scholarship where she has been studying for the past year, to go to the Bellevue Hospital, N. Y. City, for three months’ training and then to the Metropolitan Hospital, Welfare Island, N. Y., for three more months.

When we think of Helen we just nat-urally think of Libby Philbrook Ingram. Libby spent a few weeks in Poland this summer, but has now returned to Chicago. Her address is 1440 Thorn- dale Avenue.

Paul Garvin, who has been with the Dept. of Horticulture and Forestry at Ohio State University, will work for the Peat Importing Co. of research man. While at Ohio State University, Paul joined the honorary botany fraternity, Phi Epsilon Phi, and the honorary floriculture fraternity, Pi Alpha Chi.

William Newman, Jr., is a chemist with the Southern Advance Bag and Paper Co., Hodge, La.

Grecly Institute is losing Chester Bach-eller who taught agriculture there last year. He will be with Swift and Com-pany’s poultry plant in Alma, Michigan.

Still another locate who has been a 36er is South Dakota. Charles Tropp is a Jr. forester in the U. S. Forest Service in Nome.

Edward Hanson is in the Engineering Dept., Pumps and Motors of Fairbanks, Morse and Co., Boston, Mass.

Francis J. Fales has transferred from Springfield, Mo., where he is assistant engineer on construction of a new filtra-tion plant for the Springfield Water Co. Elizabeth Eileen has graduated from the Prince School of Store Service Educa-tion in June, has accepted an important position with the Fox Dept. Store in Hartford, Conn.

Tom Reed was awarded a fellowship at M.I.T. where he has been doing graduate work.

Charles Marble, ex’36, is with the New York State Conservation Dept., doing forest engineering and surveying. His address is 511 Broad Street, Oneida, N. Y. I suppose Ann Elizabeth and Margot Sewall, who were fortunate enough to go to Europe this summer, have had a per-fectly marvelous time and are ready to settle down in the U. S. once again. Ann will be teaching in Auburn for her sec-ond year.

Helen Merrill, who received her M.A. from Smith this year, is teaching mathe-matics at Biddeford High School.

Kay Wormwood will be teaching at Cape Elizabeth this year transferred from Miss Wheelock’s School in June.

Eileen “Puss” Brown has left the wilds of Stetson to teach in Machias this year. Alfreda Tanner will teach in Brooks High and Winnie Lamb starts her second year at Northeast Harbor.

Vocational Home Economics is being started at Monmouth Academy by Win Coburn.

The engagement of Mary Treinor to Charles Diwans ’35 was announced this summer. Mary is in the WPA office at Bangor doing case work.

I hope the new will continue to pour in as it has for this first issue. Our address is changed again, so send it to

Phyllis H. Webster 62 Gilderay Ave. Auburn, Maine

Next Reunion, June, 1939

Dear Classmates:

Well, this is our very first column in the Alumnus and I hope you’ll find some news in it. So many of our nineteen thirty-seventy-ers have decided to “do something to themselves” that I must tell you all about them.

First on the list I think is Ed Stuart who was married in June at Old Town to Miss Pauline Campbell of that town. Charlie Buck was married to Mrs. Margaret Pratt, of Naples, Maine, on a Sunday in June. I don’t know just which one. Carl Golding also has “undertaken it” with Miss Maxine E. Harris, of Derby. He is employed as a mechanical engineer by the Fraser Paper Company, Mad-a-waska. One of our former members and still really one of us is Maurice Oakes who was married last March to Miss Thelma Oakes, of Milo. I must be nice not to have to get used to another name, Thelma. And still another wedding was Paul Williams to Miss Char-laine Smart, of Orono, in July. Another Phi Eta couldn’t stop single any longer—Mervale Sylvester was married this summer to Miss Floria Stone, ’15, before he left for LaCrosse, Wisconsin, to work for Swift & Co. there. I wish all of you the best luck in the world and know your other classmates extend the same wishes.

Barbie Lancaster is going to begin her teaching career at South Paris. Here’s wishing you all the luck, Barbie.

I had a letter from one of the delegates (so-called) elected by each fraternity and sorority for news of their respective groups. It was from Alan Duff who is working as an industrial engineer in the DuPont Co. at Arington, N. J. Thanks, Duff, for a swell letter and all the news. Hoping to hear from each of you repre-sentatives—and I’ll be glad to get all the news about everyone.

(Easy address—not even a street in it.)

Elizabeth “Lib” Story

Pigeon Cove, Mass.
Mary Has TWO New Dresses

Two dresses for less than her mother used to pay for one. Mary's new ready-made dresses, compared with those her mother bought 20 years ago, are in better style, have fast colors, and are chosen from a far wider range of exciting new fabrics.

Why can Mary have two new dresses today? It is because of the amazing progress the textile industry has made in the last two decades. It is because research scientists and engineers have worked to improve processes and to give the public more for its money. More goods for more people—at less cost.

It is because General Electric engineers and research scientists have contributed to this progress. More than forty years ago, they initiated the first use of electricity in the textile industry. Today, every modern loom has its individual electric drive, and electric control which governs the quality of the unrolling yards of fine, sleek fabric. General Electric scientists have perfected instruments to test and match the colors, and to keep the weft straight and true.

Electric equipment—much of it especially designed by G-E engineers for textile applications—increases production, protects expensive machines, prevents delay and spoilage, lowers costs. In short, General Electric engineers are in the "efficiency business," and the economies they help to effect enable millions of American Marys and Helens and Ruths to buy two new dresses where otherwise they could buy only one.

G-E research has saved the public from ten to one hundred dollars for every dollar it has earned for General Electric
