"What am I offered for a bicycle tube?"

President to capture Maine Day Auction

The Bear's Den has contributed a track, giving twelve, sold to the student body. The Maine Day Faculty-Student Auction, sponsored by the Maine Outing Club, will be held May 3rd, 10:30-12:30 a.m., west of Memorial Gym.

Auctioneer will sell a painting donated by Prof. V. Hartgen, as well as a steak dinner for two, coffee and donuts for two, and a combination salad bowl.

The Bookstore has donated a one-day, all day campus chauffeuring service.

Auctioneers will sell a painting donated by Mr. Margaret Hatch. 

A Prcgressive Newspaper Serving A Growing University

The Outing Club sponsors trips both within and outside the state of Maine. Their activities include a fall and spring trip to Bar Harbor, a trip to Mt. Mansfield, Vermont, a ski trip to Crocker Mt., a Bigelow hike, horseback riding, and a spring trip to Bar Harbor.

A total paper industrial engineer and pioneer in paper computer control. Lowell W. Zabel has been appointed associate professor of chemical engineering.

In 1957, Zabel established what is believed to be the first analog computer center in the paper industry. A graduate of Lawrence College in 1950, he received his master's degree in chemistry, Zabel has done advanced study at the University of Kansas City and has had special training in computer programming.

With the exception of four years with TAC Byrnes, Inc., Zabel has been associated with Kimberly-Clark Corporation. He is a member of several professional organizations and has published several technical papers.

Zabel's computer work is of major significance because it has provided a method of solving previously impossible mathematical problems related to paper production. "Going once, going twice, sold to the man who has the .." The Maine Day Faculty-Student Auction, sponsored by the Maine Outing Club, will be held May 3rd, 10:30-12:30 a.m., west of Memorial Gym.

Rain, snow, sleet, hail...  

Maine Day, here we come

But the outlook for the weekend remains uncertain. Precipitation is expected today, with the possibility of sleet or snow. The high temperature is expected to be in the mid-30s. Conditions will improve later in the week, with temperatures expected to reach the upper 50s. The best advice is to stay prepared and carry an umbrella. Enjoy your weekend!

French Cultural Counselor Edouard Moret-Sir pauses during hectic speaking schedule to talk to unidentified students. Monsieur Moret-Sir has been on campus since Monday, delivering lectures as guest of Le Cercle Francais and Philosophy Club. His lectures have included "An Introduction to Triumph of Christian, a significant Christian philosopher, and "Les valeurs culturelles de la France aujourd'hui." (French Cultural Values Today.) Zieminski bubbling at news of grant renewal

Dr. Stefan A. Zieminski, professor of chemical engineering at the University, has received a renewal grant of $14,884 to study models of various systems. The grant was awarded by the National Aeronautics and Space Administration, the U.S. Public Health Service, and the National Council for Stress Improvement.

The latest grant renewal was awarded by the Federal Water Pollution Control Administration to Mr. Thomas Zieminski, professor of chemical engineering at the University. Previous grants have been used to study models of various systems. THE CAMPUS

Good morning!. 

Sophomore, Freshman, Junior, Senior. 

The campus is alive and well. The students are busy with their classes and activities, and the campus is bustling with energy. The weather is perfect for outdoor activities, and the campus is a great place to be.

UNIVERSITY OF MAINE FINAL EXAM

Register's Office

This schedule is based upon the four-week meeting of each class. For example, a class which meets the first period on Monday, Wednesday, and Friday is scheduled for examination as of Monday, second period. By remaining on the list, students may be scheduled for the final examination as of Monday, second period. The following courses are included in the final examination:

- English 101: Syntax of Modern English
- English 202: Composition
- English 303: Creative Writing
- English 404: Literature of the Modern World
- English 505: Advanced Composition
- English 606: Special Topics in English
- English 707: Seminar in English

The following courses are not included in the final examination:

Dear Mr. Wentzell:

acceptance

Your challenge has been duly re-

The Maine Campus

Gentlemen:

I am pleased to inform you that I have accepted the position of campus mayor for the next academic year.

We, as ever, remain impervious to the foul calls of umpires Stewart and Murray or the aggressive brutality of Coach Abbott.

THE CAMPAIGN IS ON—Ralph Johnson (left) and John Godfrey (right) put wind in sales pitches for campus mayor post. Godfrey, a junior, builds mailbox on purp hoot water, has college politics behind his credentials.

Dear Mr. Wentzell:

acceptance

Your challenge has been duly re-
Critics bewildered, befuddled by Berkeley's "Funk" art fad

Apricity, not content with political provocations, the University of California at Berkeley is out to provoke the art world as well. "Funk art," a new art phenomenon taking place in the San Francisco area, will have its first museum exhibition this spring at the Berkeley campus.

Stated Peter Selz, director of Berkeley's Art Museum, "Funk art is very glib, and unusual. It is more likely to be right than handsome. It is centered in the point of diametric opposition to 'fine art.' It is conventional in form, and plays, funk art looks at things which traditionally were not meant to be looked at."

A biological association can roughly be found in the new art form, although much of it is quite abstract. This attack on rationality, and with an intuitive sense of humor they present their own elemental feelings and visceral processes. If there is any malady, it's for you to find out."

L.F.C. ELECTS—Newly elected officers of Maine's Inter Fraternity Council are (left to right): Don Barter, Phi Kap-sigma, secretary; Doug Stuart, Phi Eta Kappa, treasurer; I. Mike McInnis, Phi Gamma Delta, president; Greg Johnson, Sigma Chi, second vice-president; and Dick Fox, Sigma Phi Epilson, vice-president.

FIT'S ELECTS—Newly elected officers of Maine's Inter Sorority Council are (left to right): Vicki Hendr-son, Delta Sigma Theta, secretary; Blanche Kasten, Delta Phi Eta; Vicki Hummel, Phi Sigma Sigma, president; Vicki Hansell, Phi Mu; Vicki Driscoll, Phi Delta Epsilon, vice-president; and Lineke Steger, Alpha Xi Delta, treasurer.

Letters to the Editors, notice policy reviewed

Because of procedural irregularity or procrastination, many notices and "Letters to the Editor" are not appearing in the Campus. A statement of Campus policy seems in order.

All notices and "Letters to the Editor" must be in the Campus office by Monday at 5:00 p.m. if they are to be printed that week. The Campus office, readily accessible, is located along the Old Berkeley in Fernald Hall. An appropriate copy equipment, the file of the dormitory, is maintained in this office.

Dittoed forms for notices or events are available at various places on campus including the offices of the Student Senate, A.W.S., Dean of Men and Women, and Student Services.

Students wishing further advice regarding Campus coverage should contact the editor.

Special FBI agent raids criminology course at Orono

A special agent from the FBI will be coming to Orono. It's not a raid, but a lecture which is drawing the Federal Bureau of Investigation. On May 1, the lecture is by Special FBI agent, Mr. Handley, who will be speaking on police procedures in criminology.

Mr. Handley was born in Lowell, Mass., where he received his elementary and high school education. He graduated from Northeastern University with a B.S. Following his FBI training, Handley was assigned to Springfield and Minneapolis, and later immigrated by a special agent in the New York City and Minnesota. He is presently in charge of the Boston branch of the FBI.

New members named to honor key club

By Don Hichens

The Delta Chapter of Phi Beta Kappa at the university of Maine, recently named 36 new members to receive its honorary key. These students, selected according to their standing in the junior and senior classes, are expected to maintain their high standing throughout the remainder of their college career.

The minimum eligibility average for Phi Beta Kappa is 82.00, out of 100.00. This list is compiled by the National Secretary of Phi Beta Kappa at the university of Maine, which is located at 800 College Avenue, Orono, Maine.

The following students have been named:

Phi Beta Kappa is established in the United States in 1776 as a forum of students who have demonstrated excellence in academic performance and potential. Its purpose is to promote scholarship, breadth of culture, and general welfare.
THE LETTERS:

"propaganda"

The article that appeared in Viet-
am on the editorial page of the Conover last week was a fantastic piece of propaganda. A number of observations should be brought to the attention of your astute readers. It would be wrong to conclude that people who subscribe to the philosophy of this incendiary mixture of fallacies, scare mongering, and generalizations, and not to consider for a moment the people who oppose this kind of activity. It is not for us to question the motives of those who believe in the concept of communism, but it is for us to consider the motives of those who believe in the concept of freedom. It is not for us to question the motives of those who believe in the concept of the state, but it is for us to consider the motives of those who believe in the concept of freedom.

This is a piece of writing that has been written in a way that is not only unconvincing but also unconvincing in its very presentation. It is not for us to question the motives of those who believe in the concept of the state, but it is for us to consider the motives of those who believe in the concept of freedom. It is not for us to question the motives of those who believe in the concept of communism, but it is for us to consider the motives of those who believe in the concept of freedom.

To the Editor:

I am writing to you concerning the recent statements made in the Conover last week regarding the concept of communism. As a member of the American Communist Party, I would like to point out that the statements made in the Conover last week are not only unconvincing but also unconvincing in their very presentation. It is not for us to question the motives of those who believe in the concept of the state, but it is for us to consider the motives of those who believe in the concept of freedom. It is not for us to question the motives of those who believe in the concept of communism, but it is for us to consider the motives of those who believe in the concept of freedom.

lead me to believe that the Johnson administration supports no illegal activities, mini-munitions, or other weapons of war. The President has been quoted as saying that there is no way to avoid war completely, but he has also emphasized the need for restraint and diplomacy. Yet, the behavior of the Johnson administration and the CIA has resulted in the deaths of thousands of people.

In the past, the Johnson administration has been criticized for its handling of the war. For instance, when our author tells us about the wounded victims of the war, he uses emotional language, suggesting that some few atrocities are omitted by our heroic V.C. and Vietnamese, no matter who distasteful this idea may be to us.

Another technique employed by the author is that of false association. He feels that if we merely mention the Germans and Russians in the same breath that we tell about an American act, it automatically is related to the war.

It is time to face the facts and decide whether America is truly justified in its actions in Vietnam. I do not believe that the most humanitarian administration supporter is that one who could be considered as a 'war hero'. The peace movement has grown in strength and popularity, and I believe that the maine editorial editor of the Campus may have been wrong in his approach to the situation, but he has done his best to keep the issue alive.

The author is right when he says, 'We should demand that our government be held accountable for its actions in Vietnam. We should not remain silent as the government continues to destroy innocent lives.'

We should not remain silent as the government continues to destroy innocent lives.'
Fourteen to join faculty next year

The Board of Trustees announced last week several new appointments for 1967-68. These new posts will be filled by April 27.

The appointment of Dr. Tredwell becomes effective July 1, 1967. He is a graduate of Creighton University in Nebraska and has a master's degree from Creighton. Dr. Tredwell has been an instructor at the University of Missouri in Kansas City, an assistant professor at the University of Arizona, and an associate professor of history at the University of Maine. He has been a chief psychologist at the Maine Medical Center in Portland. He has been chief psychologist at the University of Maine since 1963-67. He is a graduate of the University of Maine and holds a master's degree from the University of Maine.

Michael T. Díaz, assistant professor of business administration, effective Sept. 1, 1967. He is a graduate of the University of New Mexico and has a master's degree in business administration from the University of New Mexico. He has been a lecturer in business at the University of New Mexico.

The appointment of Dr. Turell becomes effective July 1, 1967. He is a graduate of Middlebury College in Vermont and has a master's degree from the University of Maine. He has been an instructor at the University of Maine since 1963-67.

Robert F. Brown, assistant professor of business, effective April 15, 1967. He is a graduate of the University of New Mexico and has a master's degree in business administration from the University of New Mexico.

Joseph C. Robertson, assistant professor of philosophy, effective Sept. 1, 1967. He is a graduate of the University of New Mexico and has a master's degree in philosophy from the University of New Mexico. He has been an instructor at the University of New Mexico since 1964-67. He is a graduate of the University of Maine and holds a master's degree from the University of Maine.

The appointment of Dr. Turell becomes effective July 1, 1967. He is a graduate of Middlebury College in Vermont and has a master's degree from the University of Maine. He has been an instructor at the University of Maine since 1963-67.

Tennis team suffers tight opening losses

With little outdoor practice and no competitive experience this year, the young tennis team traveled south last week to take on Connecticut and Rhode Island this past weekend. Although they were at the short end of two doubles events, the excellence of their later matches was evident in all the results.

Against the University of Connecticut on Friday, Maine played well in the doubles but fell down in the singles play. There are 4 singles matches and 2 doubles events. The Poles lost most of the singles and 1 double.

The number 1 through 4 men on the team lost their singles titles. Strong at the top of their lineup, this team was looking for a year-end Ed Ekron, another player. Not a bad team by any means.

Mike in exchange for Fred Danglemayer found the going equally as tough, losing to Miller.

The number 5 and 6 men have entered the doubles competition leading 4 points to 2, needing only 1 more set to win.

Two doubles teams have entered the competition.

Confessions this year, together only three of them. Also, the matches were played on clay courts, tiring to the Maine team.

Golf team finds Spring weather

Returning from a weekend sojourn to Connecticut and Rhode Island, the golf team of the University of Maine was pleased to have been able to get some outdoor practice. No other team in New England was fortunate enough to take advantage of the springlike weather.

The first match the team participated in was a three-way event at Point Judith, Rhode Island. Competing schools were Rhode, St. Anselm's, and Maine. Seven golfers were scheduled to compete for Maine and six for each of the other schools. Maine lost to Rhode 6-1 but beat St. Anselm's 4-3. Conditions were slippery and wet.

At no time did the golfers play as they normally would have. The rain which fell all day was not to their liking.

"Must" games for Pale Blue:

Friday and Saturday at Alveson field the varsity baseball team will face their toughest competition yet. Their opponent will be the University of Connecticut. The Huskies are "the class" of the New England Conference with strong pitching and even stronger hitting.

UConn, in two games against Vermont's fine team, scored 11 runs and held the opposition to 5. But Vermont's fine team, scored 11 runs and held the opposition to 5.

Against Rhode Island, only Dave Butterfield was a threat, scoring 14 and 4 1/2 runs. Warren, Ladd, Pete Martin, Bill Blum, Ted Libby, and Nadeau played with varying amounts of skill in their losing efforts. In the St. Anselm totals: Ladd, 5-1; Martin, one up in seventeen holes; Libby, 4-3; as well as Barber, scored vacuoles in individual play.

On Saturday, the team journeyed on down to the University of Connecticut where they were again the target of misery and pain. They lost.

The conditions and individual play of Maine were much better, however. The Wilcox, Maine was pleased to have been able to get some outdoor play. No vic-

Conditions were sloppy and wet.

"Let us do your dirty work."

There is no time like the present to pass the word along as to who is responsible for the cleaning and delivery of your clothes. Our prices are unbeatable and we are 100% 2-ply cotton lisle knit with Arrow's Pin-Hi, the extra-long back tail keeps any hairpiece in place. A great many standout colors, $6.00. Pick out a few.

"Pin-Hi"

How to look good on any golf course play it that Arrow's Pin-Hi, the 100% 2-ply cotton little knit that stays fresh and crisp to the eighteenth and beyond. Stay tucked-in too.
