Parents and students to arrive June 20 for frosh orientation

Beginning Monday, June 20, the first of twelve groups of students and their parents will arrive on campus for freshman orientation. The program is designed to give the 1539 incoming freshman and 2677 visiting parents and guests a glimpse of campus life. Both academic and extracurricular, prior to the students arrival on campus this fall.

The first day of orientation students will register at West Commons in the morning, have lunch at West Commons with their parents and guests, and then at 1:15 p.m. at Husak Auditorium attend an Introducory Session where they will be welcomed either by the acting president of the university, or Dr. James Clark, assistant to the president.

From 2 p.m. to 5 p.m. students will have individual meetings with their advisors, the athletic department, ROTC department, and take tours of the library and campus. Buses for the campus tours will leave Hancock Hall approximately every 30 minutes between 3:15 p.m. and 5:15 p.m.

After dinner at West Commons the freshman women and their parents will meet with Dean of Women Mary S. Zink and male freshman will meet with Dean John E. Stewart, Dean of Men, and freshman women and their parents will discuss "Activities and Programs for Women," presented by the orientation staff.

Following lunch at West Commons on the second afternoon of orientation, students and their parents will be given an opportunity to observe the facilities at the university's Dow AFB South Campus.

During the two-day orientation period female students will be lodged at Hart Hall, male freshmen at Corbett Hall, and the visiting parents and guests at Hancock Hall. Assistant Dean of Men Lindwood L. Carville, Director of the Orientation Program, will be assisted by Chief Student Assistant Philip Cheney and student assistants: Frederick Whitaker, Wilfred Butterfield, Robert Scribner, Eveleen Severson, Charlotte Dupont, Pamela Livesay, and Joan McIntosh.

At 8:30 a.m. of the second morning freshmen will attend a program "Student Life and Student Activities at the University of Maine" presented by the students assistants. Following the activities program male students and their parents will meet with Dean John E. Stewart, Dean of Men, and freshman women and their parents will discuss "Activities and Programs for Women," presented by the orientation staff.

Lord Caradon keynote Commencement speaker

“There is a new dimension in the dangers of the world, dangers arising from poverty, population and race—all part of one problem,” said Lord Caradon, Permanent Undersecretary of State to the United Nations, at the 133rd Commencement of the University of Maine here Friday.

“There is the danger that the gulf will grow with the poor and discontented and overcrowded, the colored people of the young nations, on one side, and the affluent, complacent, comforted, white people of the older nations, on the other,” the British diplomat added.

“There is a further danger that we of the affluent nations will be so much obsessed with our own welfare and comforts that we shall fail to see the danger in time, and so forfeit the respect and confidence of the leaders of these nations. Lord Caradon told the 1123 candidates for degrees and their guests at the Orono campus ceremonies.

Among the 1123 candidates for degrees were 17 husband and wife combinations, three brother and sister combinations, and two sister.

Honorary Doctor of Laws degree was presented to Lord Caradon: Donald F. Corbett C. C., Chancellor, Mrs. William H. Corbett, president and director of the University of Maine, Pine, of Lubeck, a member of the Maine House of Representatives and former chair.

man of the Atomic Energy Commission; and Paul W. Gutek, a graduate of the College and now a professor of English at Cornell.

An honorary Doctor of Science degree was presented to Frederick A. Soderberg, a graduate of Bangor High School and the University of Maine and for 40 years a top executive in the pulp and paper and allied industries.

Lord Caradon, in speaking of the international dangers of today, told the audience that “present dangers are far too great to be dealt with by the action of one nation alone, however rich and powerful. They are dangers which challenge the world and cry out for international action.”

Lord Caradon, in collabora-
tion with the issues of poverty, population and race, and told the audience that “Issues we need not only new understanding but new energy. It is my hope and belief that on these issues we can confidently look for new initiative to the new generation.”

“The new generation surely looks for a cause, I believe that this is the cause that will enlist their energy and their hopes. The hope that is advanced by Lord Caradon is that we will recognize the dangers in time, and to deal with them not in the spirit of racial supremacy or narrow nationalism but by the new instruments of international action. These instruments may be put to use just in time,” Lord Caradon concluded.

The citation accompanying the honorary Doctor of Laws Degree for Lord Caradon noted his long and highly significant services in presiding at and in the promotion of international diplomacy and in exhaustible patience in illuminating the issues in the U.N. debates.

Corbett, a native of East Parsonsfield, was cited in his action as a young-tone, and “in the appreciation of your diplomatic and in exhaustible patience in illuminating the issues in the U.N. debates.”

The summer season is known for its programs, which will play old favorites and, in the words of Pooh Bear, “it’s a great thing to know when the gulf will grow with the poor.”

the '1968 summer arts festival

'culture' galore -

Summer Session students will be treated to an impressive number of cultural activities sandwiched in-between, during and around other campus programs. The culture is provided by the Summer Session staff and faculty in art, music, and theatre.

Known collectively as the 1968 Summer Arts Festival, the program includes two lectures, five concerts, Summer Theatre presentations, and a creative film series, as well as art exhibits. There is no admission charge for any of these events except for plays presented by the Summer Theatre.

The opening concert of the summer series features well-known baritone Earl Spicer, who will present a program of old English ballads, American folksong, and songs from Gilbert and Sullivan. The Spicer concert is June 26 at 10:00 p.m. in the Husk Auditorium. The four other concerts, all at 8 p.m. in the Husk Auditorium, will include:

- August 1: Berta and Allison Ezerman, a piano team of thirty-five large crayon and chalk drawings by Arthur Balsem.
- August 13: Rosaria and Hilda Thomsen, artist-resident of Rome, Italy, who will present a program of art exhibits at his annual Studio-Terrace Exhibit on August 2 through Saturday evening at 8:15 p.m. in the Husk Auditorium. There also will be a Reader's Theatre June 27, July 19, and August 1, which will be exhibited in the University art department.

- July 18: The Art of Vincent A. Harrington, head of the University art department, who will exhibit fifty paintings at his annual Studio-Terrace Exhibit on August 2 and 3, from 3 to 5 p.m. The exhibits are at Prof. Harrington's home at 109 Forest Avenue, Orono.
- August 7: Other art exhibits include: thirty-five large crayon and chalk drawings by Arthur Balsem, and or work in Maine; Graphics by Victor Vassarri, noted Italian who will exhibit thirty large serigraphs, also a special exhibition Paintings By Maine School Children. These 60 paintings by Maine school children were all given merit awards in the 1967 Bangor Daily News Art Awards Program. The Summer Arts Festival lecturers include Dr. Francis Chase, chairman of the National Advisory Committee on Educational Laboratories, who will speak July 18 on The Importance of Reading: Advancing Or Receding? On Wednesday, July 24, Indiana educator Dr. George E. Davis will present An Afternoon with James Whitcomb Riley. Dr. Chase, recognized as one of the best interpreters of Riley's poems, has delighted hundreds of audiences throughout the Midwest with his readings.

Richard C. Hottelet, CBS News correspondent for the United Nations, will speak July 30 on World Peace and America's Price. Correspondent Hottelet's wide experience includes an assignment to Vietnam during the summer of 1966, an earlier assignment in Bonn, Germany, and coverage of domestic stories such as presidential campaigns and elections and the integration problem.

The art department will sponsor four films as part of their Summer Seminars in Art Program devoted to the topic The Film As A Creative Art. The four films will be shown at 7:30 p.m. in Little Hall.

They are: Nothing But A Man, Monday, July 15, 8:15, Tuesday, July 25; The Servant, Monday, July 29, and Last Year At Marienbad on Tuesday, August 6. George Fiebich's photographs entitled Maine-Ky West are on exhibit in the Memorial Union Lobby for the summer. Winners of the National High School Photo Awards will have their photographs exhibited in the Photo Salons of the Fogler Library. These 25 award-winning photographs were selected in a national contest sponsored by the Eastman Kodak Company and the Scholastic Magazine.

Forty art works in canvas, watercolor, acrylic and graphics titled The California Group will be on exhibit in the Louise Oakes Room of the Fogler Library, and Romano's Collage Paintings will grace the walls of Husk Auditorium.

The four other concerts, all at 8 p.m. in the Husk Auditorium, will include:

- August 1: Berta and Allison Ezerman, a piano team of thirty-five large crayon and chalk drawings by Arthur Balsem.
- August 13: Rosaria and Hilda Thomsen, artist-resident of Rome, Italy, who will present a program of art exhibits at his annual Studio-Terrace Exhibit on August 2 and 3, from 3 to 5 p.m. The exhibits are at Prof. Harrington's home at 109 Forest Avenue, Orono.

Dr. Talley wins Salgo Award

Dr. Samuel H. Talley, 36, assistant professor of business and economics at the University of Maine, has been named the 1968 recipient of the Nicolas Salgo Distinguished Teacher Award at the Orono campus of the state university.

Dr. Talley has been presented a check for $1,500, made possible through the generosity of Nicolas Salgo, president of a New York investment banking firm, a Washington (D.C.) real estate development company, and chairman of the board of Bangor Punta Corporation.

The recipient of the award was determined by the vote of the eight remaining junior and senior majors in economics in the College of Business Administration, and the eight remaining junior and senior majors in economics in the College of Arts and Sciences. Dean W. Stanley Levano and Associate Professor Merrill D. Hartman of the College of Business Administration were the faculty representatives.

A native of Syracuse, N.Y., Dr. Talley received his B.A. and M.A. degrees from Syracuse University, M.A. degrees in economics from the University of Illinois, and Ph.D. degree from Syracuse.

He has served as an assistant investment officer in a New York bank, and has taught at Syracuse as well as at the University of Maine. He served in U.S. Army Intelligence from 1953-56.

His current research is devoted to "Jr. Study of Consumer Credit in Maine" and "A Study of the Regulation of Issuing in Selected States.

In addition to providing the funds for the Distinguished Teacher Award, Salgo has also made a gift of $100,000 to the university to establish the Nicolas M. Salgo Professorship in the College of Business Administration.

NOTICE

The University of Maine's student operated radio station, WMEB-FM, will broadcast daily programs Sunday through Friday from 6 p.m. to midnight.

Committee Calendar

A calendar of events of interest to students will be published weekly during the summer session. Affairs requiring a ticket or asking an entrance fee will list the cost and place of purchase. Otherwise, any event listed is free of charge. Any campus organization wishing their lecture, meeting, concert, etc. to be included should send or bring pertinent information to the Campus office at 106 Lord Hall. The deadline is Tuesday noon.

June 19, Wednesday, Film: The Music Man, 7:00 p.m. Little Hall

Admission charge 25c.

June 22, Saturday, Trip: Bar Harbor excursion. Students interested in the excursion must stop in at the Social Director's office before June 22 for reservations. The office is located in the Grant Room on the first floor of the Memorial Union, and will be open from 9 to 12 a.m. and from 1 to 4 p.m. during the Summer Session.
Within the past year, several changes have been instituted in the structure—both physical and administrative—of the Fogler Library. Should confusion arise during the summer session, the following statement of library policy may help illuminate current bookkeeping mechanizations:

checking out books
No books may be checked out unless a student identification card is presented by the borrower. Books are chosen in the stacks by library patrons. If one needs help in the stacks, help may be requested from a staff member or an attendant at the Circulation Desk. The book is then taken to the Charging Desk in the lower lobby where it is presented with identification to the attendant. The book is then charged by machine and the identification is returned to the borrower. The guard at the exit is expected to examine all books and magazines the borrower may be carrying or have in his brief case. The patron’s prompt cooperation will be helpful in keeping people moving quickly through the exit.

overdue books
Most books in regular circulation may be borrowed for a period of four weeks. When the book is one week overdue the borrower will be sent a notice. If he does not respond to this notice after one week, he will be sent a bill for the price of the book plus a two dollar minimum fine. If the book is returned within thirty days after the date of the bill, the borrower will pay only the fine and the bill will be cancelled. After thirty days, the bill will be sent to the Treasurer’s Office. If a book is lost, the loss will recommend to the Treasurer that one-half the bill be cancelled. If a book is lost, the fine should be reported to the Circulation Division at once so that special arrangements for its replacement can be made.

curriculum materials
The Curriculum Materials Center of the library is a division of the Department of Reference Services, and is an increasingly important facility for the main library. The large body of material is maintained, for the most part, in vertical file arrangement under subject headings derived from those used in the Education Index.

Information relating to all phases of professional education is located here. In addition to the vertical file of general information, a file of educational tests is maintained for use by faculty and students engaged in the study of testing, measurement, and evaluation. A third part of this division is a file of vocational information arranged by occupational titles. This file is of importance not only to students in professional education, but to all students and faculty members interested in vocational information. A very complete collection of college catalogs is maintained as part of this vocational information file.

The University of Maine has been selected to study the location and magnitude of air pollution in the State of Maine through a $38,108 grant from the U.S. Air and Water Environmental Improvement Commission. The project will be conducted under the direction of Dr. Franklin Woodard, associate professor of civil engineering. The first phase of the project will be completed by December 1, 1968, when the report will be filed with the U.S. Environmental Protection Agency. The principal investigators for the project are Prof. Erwin Douglass of the U-M's department of chemistry and Prof. Otis Sproel of the department of civil engineering. Project director is Prof. Paul Woodard of the department of civil engineering.

The second part of the study will see members of the project staff contacting municipal, industrial and state officials to gather basic data on the magnitude and scope of the air pollution problem in Maine. According to Prof. Sproel, some on-site determinations of studies will be made while others will come from analysis of collections in the university's laboratories. The grant includes both federal and state funds.

Other U-M faculty members involved in the study include Prof. Frank Sproul of the department of sanitary engineering; and Prof. Frank Todd, associate professor of physics.

New infirmary lists schedule
The University Health Service is now operating on its summer schedule. The new infirmary and clinic facilities are located at the north end of campus between Bennett Hall and Gamett Hall.

Are you willing to go as low as $1776 for a new VW?
We don't rip you off. One thing we're not is rip off artists. We're honest with you. One thing we're sure of, and that's long term customer service. So this is the best time you'll ever see to find the car you want. But that's the price you pay for a Volkswagen.

U of M selected for study of air pollution

A summer study of air pollution in the State of Maine was selected for funding by the U.S. Air and Water Improvement Commission Tuesday by U-M President Dr. Edwin Young. The study, "Do Men and Women Have Different Air Pollution Sensations?" will be conducted by Dr. C. Gordon Shaw of the University of Maine. The purpose of the study is to determine whether or not there are differences in the way men and women react to air pollution.

The study will be conducted by students from the University of Maine and will include subjects of both sexes. The study will be conducted at two different locations, one in the Bangor area and one in the Portland area. The first phase of the study will be conducted during the summer months of July and August, and will involve the collection of data on meteorological elements such as wind velocity, direction and temperature. The second phase of the study will involve the collection of data on the effects of air pollution on human health. The study will be conducted by students from the University of Maine and will include subjects of both sexes. The study will be conducted at two different locations, one in the Bangor area and one in the Portland area. The first phase of the study will be conducted during the summer months of July and August, and will involve the collection of data on meteorological elements such as wind velocity, direction and temperature. The second phase of the study will involve the collection of data on the effects of air pollution on human health.
