Biographical / Historical

The University of Maine System's Department of Information Technology (US:IT) is committed to providing and supporting the highest quality technology-based services for UMaine faculty, staff, and students.

As the University's central technology support agency, US:IT strives to provide service in the most timely and cost-effective manner. US:IT supports the University's land-grant and sea-grant missions for creating and disseminating knowledge to improve the lives of its students and Maine citizens through teaching, basic and applied research, and public service activities. US:IT is also responsible for coordinating technology services provided to the University of Maine campus by the University of Maine System.

Information Technology, in conjunction with the IT Steering Committee (ITSC), develops policy for the management of technology; address the needs of academic, administrative, and research users of technology; and provide ongoing planning for technology to meet the changing needs of the University.

[^ Return to Table of Contents](#)

Scope and Contents

This record groups contains copies of various reports and presentations related to both internal and external reviews of Information Technology at the University of Maine System, starting in the late 1990s through to 2015. These reviews were in response to shifting technology needs, increased centralization of Information Technology in the System, and plans to gain budgetary efficiencies.

[^ Return to Table of Contents](#)

Arrangement

Physically the records are arranged by subject.
