MARCH UNIVERSITY OF MAINE 1938  
THE LIBRARY

SHE SAYS *"Please"* AND *"Thank You"*

THE alert, courteous voice of the telephone operator is known to all who use the telephone. To the little old lady in the shawl, the man in the big house on the hill, or a tiny tot of six, the words are the same, "Number, please" and "Thank you."

The Bell System appreciates your patronage and tries to deserve it. In everything

that concerns telephone service, we hope you can say: "They're nice people to do business with."

**170,000 Women Are Employed by the Bell System**

*More than half of the 315,000 employees of the Bell System are women. Their average length of service is about ten years. They are your friends and neighbors.*

**BELL TELEPHONE SYSTEM**

# 1938 FRIGIDAIRE

## WITH NEW SILENT METER-MISER

*brings Greatest Savings ever Known on..Current..Food..Ice..Upkeep!*

### SAVE ALL 4 WAYS... ..or you may not Save at all!

- ① **SAVE MORE ON CURRENT**—New Silent Meter-Miser saves up to 25% MORE! You see lower operating cost *proved*!
- ② **SAVE MORE ON FOOD**—Keep larger quantities *safer, fresher, longer!* Food-Safety Indicator on the door *proves* this!
- ③ **SAVE MORE ON ICE**—Actually make ice *cheaper* than you can buy it... freeze desserts at lower cost than ever! You see *proof*!
- ④ **SAVE MORE ON UPKEEP**—Trouble-free life assured by New Thermo-Sealed Cabinet—New Silent Meter-Miser—5-Year Protection Plan on sealed-in mechanism, backed by GENERAL MOTORS!

• Think of it! Sensationally greater savings on current—food—ice—upkeep. *Proved* before your eyes, before you buy!

That's what Frigidaire brings you with the revolutionary New Silent Meter-Miser. And unless a refrigerator saves in All 4 of these ways, it may actually *waste* money through a "hidden extravagance"... wipe out completely the savings made in all other ways!

So demand *proof* of 4-Way Savings. You'll get this proof at your Frigidaire Dealer's 4-Way Saving Demonstration. Here you'll see, too, Frigidaire's NEWLY-STYLED 9-Way Adjustable Interior—NEW Moisture-Seal Hydrators—NEW Close-Bar Sliding Shelves—and dozens more NEW and EXCLUSIVE advantages!

You'll agree—no other refrigerator at *any* price, lower or higher, can *give* you so much and *save* you so much as Frigidaire with the New Silent Meter-Miser! FRIGIDAIRE DIVISION, General Motors Sales Corporation, Dayton, Ohio.

### NEW SILENT METER-MISER

*Simplest Refrigerating Mechanism Ever Built!*

Uses so little current—You can hardly hear it run! Saves up to 25% MORE on electricity than even the current-saving Meter-Miser of 1937! And *proves* its simplicity. So amazingly silent you can't doubt its ability to give long, economical, trouble-free service. Completely sealed! Automatically oiled and cooled! Comes with 5-Year Protection Plan backed by General Motors.

The same high standards of quality and performance that distinguish Frigidaire Refrigerators are found in the new Frigidaire Electric Ranges and Water Heaters.

### New "DOUBLE-EASY" QUICKUBE TRAYS —Only Frigidaire has them!

1 **RELEASE CUBES INSTANTLY** — SAVE 20% MORE ICE! Only one lever to lift, and cubes are released! All-metal for faster freezing. Ends melting waste under faucet

2 **TRAYS COME FREE AT FINGER-TOUCH**... with exclusive Frigidaire Automatic Tray Release. Every tray a NEW "Double-Easy" Quickube Tray! No other like it!

*See your Frigidaire Dealer's 4-Way Saving Demonstration*

**"...your points were well taken:"**

Dear Mr. ....

Following your recommendation, we have executed a stock purchase agreement and taken insurance on the life of each member of our firm.

We were convinced that your points were well taken: That we should arrange in advance to buy the stock of any member of the firm, at his death, so as to keep the control in the hands of active survivors; that a definite method of valuing the stock should be agreed to while we are all living; and that we should use life insurance as the easiest and surest way of providing the purchase money instantly when one of us dies.

Each of us also realized that it would be more desirable to assure his wife a satisfactory cash settlement instead of leaving her stock in a business of which she had no practical knowledge. It was also clear that without the insurance it might be difficult or impossible, under certain circumstances, for surviving stockholders to raise the necessary funds to buy the shares of deceased stockholders.

I may say that we are all pleased with this plan and we feel that you rendered us a valuable service.

Very truly yours,

(.....)

**B**USINESS insurance, as illustrated above, is one of the many helpful ways in which the New York Life representative serves his clients. If you would like to know how life insurance could put your own business upon a stronger foundation, one of the New York Life's representatives will be glad to assist you, without any obligation on your part. Or, if you prefer, write to the Home Office at the address below.

Like many other college men, you may be interested in the opportunities for selling business life insurance as well as insurance contracts for other purposes. The New York Life plans to select, during 1938, a few qualified college alumni for its field organization in each of its branch offices. If you think you or some of your friends might be interested, the Company will be glad to forward a copy of a 48-page book entitled "A Career as a Life Underwriter."

*SAFETY IS ALWAYS THE FIRST CONSIDERATION...NOTHING ELSE IS SO IMPORTANT*

**NEW YORK LIFE INSURANCE COMPANY**

*A Mutual Company founded on April 12, 1845*

## Through These Doors . . . .

Front Cover: Stevens Hall, home of the College of Arts and Sciences, the School of Education, and the office of the Summer Session. One of the later buildings on the campus, the main structure was built in 1923, and the north and south wings ten years later. In 1934 the completed building was dedicated in honor of Dean Emeritus James Stacy Stevens, first dean of the Arts and Sciences College.

## New Major Courses

The new major curricula established by the University in recent years are excellent examples of making greater use of available resources. With the addition of a new course here and there and the reorganization of courses, already taught, new opportunities for students have been created.

This is true of the major in General Engineering established in 1930-31. Not a single new subject matter course was necessary for this major, but rather it combined the fundamental courses in the fields of engineering with some in the Arts College as a basis for training young men primarily interested in the executive side of industry.

The Wildlife Conservation program, established three years ago, required the introduction of several new courses. Even for this major, however, the basic instruction is in courses conducted by the departments of forestry and zoology. Since research in wildlife conservation was to be undertaken anyway, the creation of a major involved little additional cost.

In this number is an announcement of the new curriculum in Nursing Education. The University is offering this major in response to requests from Maine hospital officials. College-trained women are needed for positions of responsibility in the nursing profession. The co-operative arrangement should work out to the mutual benefit of all concerned. This curriculum so far as the University is concerned will consist entirely of subjects which are already being taught, arranged to provide the instruction needed for specialization in this field.

Engineering Physics is being offered this year for the first time. In this instance, also, the curriculum consists with but one or two exceptions of a combination of courses already being given. It places emphasis upon a new field for which there is developing a demand for trained men. A detailed statement about this new development will be forthcoming in a subsequent issue of *The Alumnus*.

In establishing new courses from time to time in fields which are important to young men and women and to the homes and industries of Maine, the University is rendering a greater service to the State, the purpose for which the institution was founded. New projects and courses can easily be undertaken when ample funds are available, but it is quite another matter when new services must be provided for out of definitely limited funds. The officers are to be congratulated upon making constantly greater utilization of the resources already available.

## Class Reunions

With the meeting of nine officers of seven reunion classes in Augusta February 12, the thought of Class Reunions at Commencement this year again comes to the fore. The willingness of these officers to take time to meet for the swapping of ideas and making of plans indicates a real, live interest on their part; but even though the leadership of class officers is a vital factor in promoting a successful and happy class get-together, the interest of individual class members is in the long run the most important factor of any class activity, reunions included.

Now is the best time for members of reunion classes to get behind their officers and contribute ideas, suggestions, and, above all, interest. Attendance of a good number in the class goes far toward making the Commencement a pleasant renewal of old friendships. And so we urge all of the members of the classes listed below to make plans now for a few days of real fun and friendliness at the 1938 Commencement Reunions, on June 11.

## SUMMER SESSION

July 5—August 12, 1938

### ALUMNI

#### NOW IS THE TIME TO DECIDE

**Y**OUR Summer Session program. Your Alma Mater offers you a wide range of subjects to select from in Art History, Chemistry, Economics, Education, English, History and Government, Home Economics, Latin, Mathematics and Astronomy, School Music, Physical Education, Physics, Psychology, Public Speaking, Pulp and Paper Technology, Sociology, and Zoology—eighteen departments with a teaching staff of forty-three.

ENJOYING A REST

#### IN THE 1938 SESSION

in addition to this wide variety of courses, you will have opportunity, at no additional cost, for close contacts with specialists in educational topics at the Junior-Senior High School Institute which will be held on the campus.

#### A WELL-BALANCED PROGRAM

of study and recreation is being planned for you. To quote from one who attended the Session last year, "If you want a well-balanced program of study and recreation come to Maine."

#### THE OFFICIAL BULLETIN

describing in detail the courses, qualifications of the teaching staff, the Institute, and recreational facilities will soon be issued. Send for one and let your friends know that "MAINE" conducts an up-to-the-minute Summer Session.

ORONO, MAINE

# Nursing Education---A New Service

A new five-year course in Nursing Education has been announced for next fall semester by Dean Edward J. Allen, of the College of Arts and Sciences, and Professor Joseph Murray '25, Head of the Department of Zoology. The course, which is being arranged co-operatively with three of the leading hospitals in the state, will allow students to obtain, at the completion of five years of work, including summers, the Bachelor of Arts degree from the University and a nursing certificate from the co-operating hospital.

Increasing demand from hospitals within the state for some means of improving the general and technical educational background of nurses led to the study of a co-operative plan. Through the interest and assistance of the Maine General Hospital at Portland, the Central Maine General Hospital at Lewiston, and the Eastern Maine General Hospital at Bangor, the three co-operating institutions, Professor Murray was able to submit a plan of study to the Hospitals and the President and Trustees of the University which has been approved for next college year. In announcing the plan, Dean Allen points out that a new and greatly needed service can be rendered to the hospitals of the state as well as to interested women students with no material increase in costs to the University, as present laboratory and classroom facilities will be utilized in teaching the University's share of the course.

## The Curriculum

The work to be done at the University by the prospective nurses will include only basic general and scientific courses already being given by the institution. Three years of work at regular sessions of the University will include elementary and advanced work in such fundamental studies as Psychology, Anatomy and Physiology, Chemistry, Bacteriology, and general courses in English, Economics, Sociology, and languages. Following the first and second University years, from six to eight weeks in the summer will be spent in the co-operating hospital of the student's choice, doing actual ward work and studying regular training courses given by the hospital. The fall of the third year will also be spent in the University; the spring term of the third year, the entire fourth year, and the fall of the fifth year will be spent in the hospital work. In the spring of the fifth year, the student will return to the University to complete her course, receiving both her University degree and her certificate from the hospital.

In addition to the studies taken, students

will receive actual ward experience to supplement and practice the classroom procedures. This experience will include work with surgical patients, in the diet kitchens, in the operating rooms, with out-patients, obstetrics, and children's wards.

Upon the completion of the course, women will be qualified to assume the responsibilities of head nurses, graduate nurses, and in the smaller hospitals, supervisors. They will also be eligible to take the state examinations for Registered Nurses, opening to them the field of private nursing. The creation of the course is directly the result of a real need within the state for improvement in the educational qualifications of nurses needed by the many small hospitals in Maine. Opportunities, therefore, are expected to be numerous within the state, although in the case of those receiving diplomas from approved hospitals, opportunities outside of the state also will be available, since the course is designed to meet the requirements of other state boards.

## Successful Elsewhere

The course in nursing education as established for next year is not an untried experiment, in 1936 over sixty colleges reported similar programs based on co-

Since the expense of the hospital work will involve only the cost of uniforms and other personal items, the student is enabled to obtain a five year's education for the cost of three years' regular attendance at the University. Previously an equivalent education demanded four full college years in addition to three or four years of hospital work. In co-operating with the University to make the new program possible, the three largest hospitals of the state are following the trend among hospitals throughout the country in raising standards of nursing education.

The responsibilities of the nurse in both hospital and private work is often very great, and it has been recognized that in this work as in other professions and occupations, there is a great need for a well-balanced liberal education to provide the maturity, broad outlook, and intelligent understanding as well as a sound technical training, needed in the higher levels of the profession. It is hoped that through the new course the University will be able to assist the hospitals of the state to equip the nursing student for a better understanding of the many problems which confront her in her daily nursing routine. Admission requirements and requirements for graduation will be the same as for all students of the Arts and Sciences College and for the Hospital Training School selected by her. Those successfully completing the course should be able to give a better type of service for the people of the state in the maintenance of health and the care of the sick.

## Work Started on New Directory

Compilation of the 1938 edition of the Alumni Directory of graduates and former students starts March 1. Cards are being sent to all alumni whose names are in the active list of the University and the Alumni Association with the hope that the latest information may be available for the new volume.

It is expected that over four months will be required to compile the information and about an additional three months for printing and binding. It is hoped the directory will be ready in October.

Important changes are to be made in the forthcoming issue. By vote of the faculty-alumni committee the geographical section is to be omitted. The non-graduates will be listed with the graduates showing so far as the information is available the years attended, for those who have not received a degree. The biographical arrangement will be somewhat different both to save space and improve appearance.

operating institutions or regularly affiliated hospitals. Although the course is not, of course, comparable with graduate schools of nursing which offer work to college graduates leading to the Master's degree, it does provide a distinct step forward in the educational opportunities available for women in the state.

# CAMPUS EVENTS

## Satire—

The student-written songs and dances of the student-planned, student-staged, and student-acted varsity show, "The Pale Blue Revue," first attempt at Maine in many a year to stage a song-and-dance production, will feature satire of international, national, and local persons and events. The show, planned for March 11, will be built around a thread of political satire. Songs composed by Leo Lieberman '38, of Bangor, a regular pianist with a local dance orchestra, will be sung with words written by Phyllis Marks '40, of Brookline, Mass., a member of the Contributors' Club. Duncan Cotting '38, of Newton, Mass., as business manager, and William Clifford '39, of Westmount, Quebec, as acting producer, will share in the responsibilities of the experiment.

## Villainies—

"Shakespeare's Villains" was the subject of a lecture on February 17 by the world famous Harvard scholar and Shakespearean authority Dr. George Lyman Kittredge—"Kitty" to more than forty generations of Harvard men. Through the efforts of the Contributors' Club and Prof. Milton Ellis '07, once a student under Dr. Kittredge, opportunity was given students and faculty to hear a splendidly wise and witty talk by one of the truly legendary figures in the world of scholarship.

## Drama—

Bartlett Clark, eminent authority on American and international drama, spoke at assembly on February 8 on the place of drama in American life. Contrasting present-day drama of serious import with drama of previous periods, Mr. Clark lauded the progress of the theatre in America.

## Organized—

A new campus organization came into being with the formation of the University Forum, a student-faculty discussion group, which held its first meeting on February 13. Dr. Marion Bradshaw, of the Bangor Theological Seminary, was guest leader for the meeting, discussing the question of effective war-prevention measures. Backed by the Maine Christian Association and other student organizations, the Forum is designed to promote open discussion of current problems. Sidney Hurwitz '38, of Roxbury, Mass., was chosen chairman of the organization.

## Student Leader . . . .

EDWARD CHAPLIN SHERRY '38, of Portland, is one of the outstanding campus leaders this year. As Head Proctor of the Freshman Dormitories and President of the Student Senate he has considerable responsibility in student affairs. He is also treasurer of the Senior Class, a member of the M Club, Senior Skull, and track and football participant. He is a major in the department of Economics of the College of Arts and Sciences.

## For Jobs—

"Methods and Principles in Job Hunting" was the general title of a two-day program of talks and demonstrations sponsored by the Placement Bureau on February 14 and 15 for members of the two upper classes. Assisted by Professor William Scamman of the English department, who spoke on the subject of application letters, and Professor Edward Dow, Head of the department of History and Government, who discussed the personal interview, the Placement Bureau attempted to outline for interested students the most intelligent, business-like, and effective methods of approaching the job-hunting problem.

## Extension—

Current World Problems, Psychology of Adolescence, Social Control of Business, The New England Renaissance, and Vocational and Educational Guidance will be the five courses offered by the University as extension courses this semester. Two hours' credit will be given for each course and classes meet on Saturday mornings.

## Marksmen—

By winning twenty-five out of fifty completed matches so far this year, the

University rifle team, competing with other colleges in the First Corps Area, has established a high record of marksmanship. Scores, based on firing from four positions, are compared by mail in the competitions. A total of seventy-two matches are to be held before the completion of the competition in April.

## Awarded—

Two Alumni Scholarships, three Hovey Memorial Scholarships, and a Sigma Mu Sigma, psychological society prize, were recently awarded at the University. Scholarships given by the Southern California Alumni Association and the Waldo County Alumni Association were awarded to Alton Ham, of Bangor, a senior in Civil Engineering, and William Hatch, of Dark Harbor, a sophomore in Forestry, respectively. Albert Ellingson, of Milo, a senior in Mechanical Engineering, Chester Jones, of Canaan, a junior in Civil Engineering, and Philip Hutchinson, of Cape Elizabeth, a sophomore in Mechanical Engineering, were recipients of the three Hovey Memorial awards. Artemus E. Weatherbee, of Bangor, a junior in History, received the Sigma Mu Sigma prize, donated by the honorary psychological fraternity annually to an outstanding student.

## New Letter—

Letter winners in minor sports and junior varsity football will receive recognition in the future by award of a new style minor-sports M, Faculty Manager Ted Curtis '23 announced recently. The new insignia, replacing the small M flanked by the initials of the sports, heretofore in use, will be a pale blue M of plain chenille with a blue felt border, measuring 4¾ inches wide by 4½ inches high.

The new award will be won by Junior Varsity football players for the first time this year, requirements for the award to jayvee players will be participation in at least half of the jayvee football games during sophomore and junior years; it may also be won by senior varsity players who were first on the junior varsity and did not win a varsity M.

The annual Intramural Track Meet and Charles Rice Cup competition, held at the Memorial Gymnasium field house on January 22, were won again by Theta Chi and Phi Kappa Sigma, respectively, last year's winners. Theta Chi scored 31½ points, Phi Kappa Sigma, 24, for the day's competition.

# LAURELS LIGHTLY REST

BY LEE GALVIN, Department of Information, Radio Corporation of America

THE diploma of Harold H. Beverage '15 states that he is an electrical engineer. In a world of cinema superlatives, such understatement is refreshing. If, as in this instance, it is necessary to attempt to sum him up in a sentence, we should describe him as a curious sort of industrialist, primarily concerned with the manufacture of an odd product commonly referred to as dots and dashes, together with their export and import by radio between the United States and forty-odd countries.

Beverage has played an important part in establishing this trade and in making possible its growth to present proportions. To qualify, he has had to outguess the vagaries of waving blankets of ionized atmosphere forty to two hundred miles above the earth, and to defeat the whimsical electrical caprices of sun spots. There are many other problems, of course, but these two alone constitute a job to tax the powers of a resourceful man, when you recall that Ajax merely defied the lightning, whereas today's engineer contrives to make his own bolts and hurl them literally around the world. However, we are not concerned with the romance of a modern art, but with a boy from Maine, and it would perhaps be best to start at the beginning.

## Early Days

The Beverages have been Maine folks for a long time. Back of the generations that have lived within the sound of surf on the Rock-Bound Coast the family has its roots in Scotland. Both environmental facts are important to a picture of the man, because he combines a full inheritance of Yankee ingenuity with some of the qualities of a Scotch scholar of science. Among the acquaintances of his younger days, this latter component probably was more apparent to Professor William H. Barrows than to Beverage's classmates, for although it is exhibited in his work, it is not at all present in manner.

Radio has possessed Harold Beverage ever since he was a senior in North Haven High School. He continued his experiments through University years, as Professor Barrows has cause to remember, for when Beverage's spark transmitter was "on the air" the Professor's telephone was frequently rendered inoperative by electrical interference. Some who read this may remember the radio antenna strung between the tower in Wingate Hall and a pole on Lord Hall; that was the gadget from which the prankish waves were radiated.

With Park Elliott and Harold Hodgekins, Beverage worked for a thesis on the development of an improved radio transmitter. A generous share of honors has come to him since, but he will always remember that that thesis won a prize

HAROLD H. BEVERAGE '15, is Chief Research Engineer for R.C.A. Communications, Inc., and President of the Institute of Radio Engineers. (Courtesy of Underwood and Underwood Studios.)

carrying with it an award of twenty-five dollars. Unfortunately, no information is available as to how that small fortune was spent. The triumph had no effect at making Beverage complacent about his own efforts, however. He kept informed about radio research being conducted in commercial laboratories. Some of the things then going on in the General Electric Company he found of particular interest. Dr. Irving Langmuir was taking issue with popular notions about what made a vacuum tube work, and out of his skepticism came a great advance known as the "hard" tube; Dr. E. F. W. Alexanderson was developing a new alternator to produce "continuous" radio waves of immense power. Obviously, such a laboratory must be an ideal place in which to work.

On graduation, Beverage landed a job with GE, but had to be content at first in the activities of the Test Department. Somewhat later, when Alexanderson's prolific ideas for new radio devices began to outrun the physical capacity of his staff of experimenters, Beverage applied for transfer to the group of this great pioneer, and joined him in 1916.

Alexanderson was an ideal leader for a man who wanted to get his hands on things. Ideas came to him so fast that he found a minimum of time for preparatory paper work. Perhaps it was because he could sense mathematical values that "brain wave to work bench" was common procedure in testing a new thought. At any rate, Beverage was in radio research to his neck, and he reveled in it. It was a highly complimentary assignment—his first, at that—to be asked to develop a receiving system counterpart to the Alexanderson transmitting alternator. The compliment was returned—in successful apparatus.

When the United States entered the World War in 1917 the Alexanderson system was the most promising means of effecting reliable transatlantic communication by radio. A station so equipped at New Brunswick, N. J., subsequently proved to be this country's best assurance of uninterrupted contact with its Allies in Europe, and when the Navy took over that station for its urgent work, Beverage went with it. Thereafter, he divided his time between New Brunswick and the Navy receiving station at Otter Cliffs, Maine. He installed an Alexanderson "Barrage Receiver" there which had been developed primarily to solve a military interference problem in France but which was found to be very effective in balancing out static originating in the tropics. From his work with the Barrage Receiver he discovered that long wires were directive, and this eventually led to the development of the wave antenna, one of his big contributions to this art.

In 1919, Beverage made a couple of trips across the Atlantic on the SS. *George Washington*, to get long distance, radio telephone apparatus ready for the use of President Wilson and Secretary of War Baker when they should later make an historic voyage. The tests were of such interest to government officials that Beverage was connected on several occasions direct to Washington, and sometimes he talked with Franklin D. Roosevelt, then Assistant Secretary of the Navy.

## Then R.C.A.

In October, that year, the Radio Corporation of America was formed, to continue the development of the radio communication system which had given such effective demonstration of efficiency during the War. Beverage came with RCA a year later. Within a month he had set up a tent on a site on Long Island and with fingers numbed with cold was turn-

(Continued on Page 8)

# "Where, Oh, Where . . . . ?"

Like the nursery rhyme, the Alumni Office "doesn't know where to find them," but maybe YOU do, and so the S.O.S. is out to help us locate those alumni whose whereabouts and what-abouts are not up-to-date in the Alumni Office records. To make the coming Alumni Directory truly representative, we must reduce the "lost" list to a minimum. If you have any news, recent or otherwise, of any of the people on the following list, please write or phone the Alumni Office, 12 Fernald Hall right away.

## Harold Henry Beverage, '15 (Continued from Page 7)

ing dials and making notes of measurements.

In some respects the demands on Beverage's new job were more exacting than those of war-time urgency. Now he had not only to maintain transatlantic communication, but to count the cost of the

accomplishment as well. The new communications medium had to face competition with the much older rival, the cable. But developments came fast during the next few years. Due in large part to Beverage's efforts transatlantic radio messages were no longer received at some outpost of New York by operators, and handed to other operators for re-trans-

mission over telegraph lines to the central office in the city. Instead, the radio signals were received, strengthened electrically and sent on their way to New York over wires without human intervention. Apparatus was improved, and service placed on a basis that not only met, but challenged, cable competition. Because

# WITH THE TEAMS

## VARSITY BASKETBALL

### Maine 45—Bowdoin 30

The Bowdoin Independents, a pioneering unofficial aggregation paving the way, they hope, for collegiate basketball at Brunswick next year, were unable to match the fast pace of the Maine five at Orono on February 9. Led by Louis Bourgoin, of Frenchville, sharp-shooting forward, the home team was only tied three times, never trailing during the game. Leading 27 to 15 at the half, the Maine regulars had little difficulty keeping ahead. Bourgoin's fourteen points, all field goals, led the scoring for Maine, with Dwight Lord, of Camden, regular guard, following with eight.

❖

### Maine 45—Bates 44

A mid-court basket by Bar Harbor's Bill Webber, center, just as the last second of the game clicked off, enabled Maine to pull ahead of Bates at Lewiston on February 11. One of the closest games in this winter's series, the contest saw Maine off to a strong start, Bates pull up in turn to lead by five points, then a see-saw contest up to the finish. A foul shot had broken a tie a moment before Webber looped in the needed field goal. Joe Hamlin, ace guard from Bar Harbor, led Maine's scoring with twelve points.

❖

### Colby 46—Maine 42

Maine's chances to win the current State Series basketball title fell before the determined attack of a rallying Colby team that came from behind in a fiercely contested and nerve-wracking game to push to the front during the last half at Orono on February 16. Putting Colby in the lead for the first State title in basketball in many years, the game proved a good one for the fans. Maine led 30 to 20 in the early part of the second half, but could not hold the lead against the visitors. Bill Webber, of Bar Harbor, and Phil Rogers, of Mars Hill, both veteran basketballers, played leading ball for Maine, Webber scoring eleven and Rogers ten.

❖

### New Hampshire 38—Maine 34

A four-point lead in the first two minutes of play set the stage for the entire game when New Hampshire invaded Orono on February 19. Trailing exactly that four points at the end as at the beginning, Maine tried desperately behind the great work of guard Joe Hamlin to break into the lead, but was unable to hold any advantage.

## WINTER SCHEDULES, 1937-38

### Varsity Basketball

Jan	7	Maine 37—Northeastern 36
	8	Colby 43—Maine 41
	13	Rhode Island 60—Maine 26
	14	Connecticut 52—Maine 44
	15	Northeastern 31—Maine 28
	19	Maine 48—Bates 39
	21	Connecticut 51—Maine 39
Feb	9	Maine 45—Bowdoin Ind. 30
	11	Maine 45—Bates 44
	16	Colby 46—Maine 42
	19	New Hampshire 38—Maine 34
	22	Rhode Island 67—Maine 59
	26	New Hampshire at Durham

### Varsity Indoor Track

Feb	19	Maine 69½—New Hamp. 47½
	26	Colby at Orono
Mar	5	Bates at Lewiston
	12	Northeastern at Orono

## Carnival Queen

Elizabeth Libby, sophomore from Milford, Mass., was chosen by student vote from a field of six co-eds to reign over the events of the Winter Carnival on Washington's Birthday. Miss Libby, a Home Economics student, was elected by the students during the annual Intramural Ball, February 21. Her election was announced during the Ball by the presentation of a loving cup by her predecessor in the office, Martha Chase '38, of Bucksport.

❖ ❖

Versatile Roddy Elliott, Montreal's gift to Maine athletics, added new laurels when he placed fifth in the ski-jump at the Dartmouth Carnival on Feb. 12.

## VARSITY TRACK

### Relay Win

A driving finish by South Portland's Johnny Gowell enabled Maine to win its B A A relay race against Bates and Worcester Polytech at Boston on February 12. The one-mile distance was paced off in 3 minutes 31.8 seconds by Sid Hurwitz, of Roxbury, Mass., Johnny Haggett, of North Edgcomb, Don Kelley, of South Portland, and Johnny Gowell, all seniors. Gowell, starting behind both competitors, closed up quickly on the Worcester runner and passed the Bates man in a driving finish.

❖

### Maine 69½—New Hampshire 47½

Strength in the shot put, high jump, and pole vault contributed to Maine's win in the first dual meet of the season, a hard-fought contest against New Hampshire at Orono on February 19. With Johnny Gowell, star hurdler and dash man, and Don Smith, of Easton, ace miler, both handicapped with temporary injuries, New Hampshire took several firsts previously conceded to Maine. Sid Hurwitz, of Roxbury, Mass., in the 300 and 600, and Bill Hunnewell, of Madison, in the two mile turned in Maine's best running. Stan Johnson, of Brunswick, newcomer to varsity competition made a fine showing in the hammer, taking the event with a toss of 51 feet 3 inches. Headed by Hal Dyer, of Portland, Maine took all three places in the shot put, and also in the high jump, where a triple tie was declared for Maine between Bill McCarthy, of Rumford, Foster Higgins, of Ellsworth, and Ralph Reynolds, of Orono, a sophomore.

❖ ❖

Eight wins in ten tries was the record of the stellar frosh basketball team up to February 22. Defeated so far only by Hebron Academy and John Bapst of all the teams played, and taking the first seven games without a loss, the yearling group under the coaching of Bill Wells '31 has displayed excellent form, team work, and promise for the future. The fast, aggressive tactics of the first-year men have depended in large part upon the leadership of a brilliant, smooth-working quartet, consisting of Charlie Arbor, of Rumford, former Hebron star and outstanding frosh football back this fall, Spencer Leek, of Bangor, negro star for Higgins last year, both guards, Maurice Whitten from Mars Hill, former Madawaska Training School player, at forward, and Vernon Kent from Fort Kent.

# LOCAL ASSOCIATIONS

**Hancock County Alumni** celebrated New Year's Eve by having a successful meeting with over 50 present. After transacting the business, R. E. McKown '17 introduced Dr. C. C. Little, former president of the University, to preside as toastmaster. The speakers were Alumni Secretary Crossland, Dr. Joseph M. Murriav '25, and Dean Edward J. Allen. Officers elected were: President, George D. Bearce '11, of Bucksport; vice president, Dr. Horace H. Gould '33, Blue Hill; secretary, Gardner Tibbetts '22, Ellsworth; and treasurer, George Mahoney '29, of Ellsworth.

**Southern California Alumni** welcomed Dr. Mary Ellen Chase to Los Angeles on January 15 with an informal dinner meeting. Miss Chase, on a professional speaking engagement, graciously arranged to greet informally the thirty-six alumni and friends who gathered in her honor.

**York County Alumni** met in Saco, January 20. Nearly 50 were present to greet Governor Barrows and Dean L. S. Corbett of the University, who were guests of honor and speakers. Alumni Secretary Crossland discussed briefly

## LOCAL ASSOCIATION MEETING SCHEDULE

March, 1938

March

- 11—New York Alumni Association—  
Dr. J. H. Huddilston, Prof. of Ancient Civilization and Lecturer on Art History
- 12—Philadelphia Alumni Association,  
Kugler's, 15th St., Dr. Huddilston
- 21—Schenectady, Northeastern New York Alumni Association (tentative)—  
Dean E. J. Allen, College of Arts and Sciences
- 22—Central New York, Syracuse—  
Dean Allen
- 23—Western New York, Buffalo—  
Dean Allen
- 24—Ohio Alumni Association, Cleveland  
Dean Allen
- 25—Detroit, Michigan, Alumni Association  
Pittsburgh Alumni Association—  
Dean Allen
- 26—Illinois Alumni Association—Chicago  
Dean Allen
- 28—Missouri Alumni Association,  
St. Louis—
- 29—Cincinnati Alumni Association

campus topics and Trustee William Nutter showed reels and gave interesting remarks concerning his recent trip to Europe to study industrial research. Joseph E. Harvey '16, of Biddeford, was elected president and Raymond H. Lovejoy '18, of Sanford, secretary.

## Boston Alumni

met at a dinner get-together on February 11 at the City Club with Track Coach Chester Jenkins as visiting guest. Forty-three alumni turned out to the gathering. Singing of college songs, including, of course, the Stein Song, and talks by several alumni enlivened the evening.

**New York Alumnae and Alumni** will hold their annual dinner and dance at the McAlpin Hotel, Broadway and 34th St., Friday night, March 11 at 7:30 p.m. With Linwood K. Betts '28 as chairman of the committee and an able group of assistants, both groups are looking forward to one of the best meetings ever held in the Big Town.

## Portland Alumnae

will meet the first Thursday evening in each month at the Columbia Hotel in the city. Among other club activities will be an undergraduate luncheon, a picnic, and the annual presentation of the Virginia Hacker Watch. The officers for the spring are: president, Dorothy Findlay '33, vice presidents, Olive Chase O'Brien '20 and Winona Harrison '33; secretary, Christine Elliott '35, and treasurer, Dorothy Frye '35. Dr. Edward J. Allen, dean of the College of Arts and Sciences at the University, is to be the speaker at the next meeting March 3.

Ohio Alumni centering in Cleveland put on a surprise party at Akron January 16, bringing together those living in that section to call upon an alumnus whose health has been impaired for some time.

## Harold Henry Beverage '15

(Continued from Page 8)

of his contributions to radio during that period the Institute of Radio Engineers in 1923 awarded Harold Beverage the Morris Liebmann Memorial Prize, then, as now, the gesture of highest esteem within the gift of radio technicians. He subsequently served as Director of the Institutes' Board for several years, and was elected President in 1937.

It would be impossible to detail in allotted space the contributions which Beverage has made, or encouraged from members of his staff, in radio communications. From his research section in the RCA laboratories have come mathematical classics in antenna design, vastly improved transmitting and receiving equipment, and studies of the behavior of radio waves in flight that have brought international rec-

To Alumnus Will R. Howard '82, of Belfast, we are indebted for this early picture of the officers of the Coburn Cadets, subject of a recent article. We see here in 1882, back row, left to right: Lieuts. Starrett, Flint, Woodward, Howard, Reed, front row: Capt. Kimball, Major A. E. Rogers, Commandant, Capt. A. J. Keith, and Lieut. Boynton, all of '82 except Major Rogers.

ognition. He worked with radio waves seven to ten miles in length, and is currently concerned with radiations whose length is measured in centimeters. Through that vast territory in the radio spectrum Beverage and his band of radio prospectors have led the way.

### And Now Television

When in 1936, the RCA laboratories decided to take television out of the laboratories for a "field test" under actual operating conditions, scientists turned instinctively to Beverage's group for advice on the design of antennas and much other equipment necessary to the big job of putting pictures on the air. In a certain technical sense, it was none of his business. Yet it was known that, under his able chief and pioneer of radio research, C. H. Taylor, Beverage had already explored that territory of the radio spectrum in which television would have to "settle" as a public service, and to this group the job just naturally gravitated.

At their laboratory at Rocky Point, Long Island, Beverage and his men designed and built a miniature model of the television antenna which today is the highest structure in metropolitan New York. When they were satisfied as to its possibilities, the full-scale job was installed atop the world's tallest building. They knew about such things through having engineered, a year before, an ultra-short wave radio circuit between New York and Philadelphia.

Last summer we had occasion to escort an important visitor from a foreign country to Beverage's laboratory on Long Island for an interview. Their meeting was very casual—too casual, it seemed, for the occasion. But it developed that Beverage had worked out a little stunt of his own, by which he was to greet his visitor literally with a brass band. It was not the best known band in the world, but it certainly was the most unique.

Beverage is pretty handy with almost any instrument that toots. By a trick of electric recording, he had played a tune on one instrument, afterward recording a harmonizing part with another instrument as he listened to a play-back through headphones. One by one, he had assembled the units of a small band in a single, multiple-part rendition. Beverage was the entire band in that combined recording.

Our visitor had come to discuss the properties of transmission lines, the propagation of ultra-high frequencies and the directive effect of antennas, the latter of which Beverage's research group has increased in efficiency something like eighty times since the War. Yet here were a couple of scientists reacting like school-boys in their first experience with a salami-cell and a magnet.

Curious—the informal angle at which some persons wear their laurels!

# ALUMNI PERSONALS

## 1888

### Next Reunion, June, 1938

Fred L. Eastman, of 316 Beale St., Wollaston, Mass., is Associate Electrical Engineer for the U. S. Navy, care of the Bethlehem Shipbuilding Corporation in Quincy, Mass.

## 1895

### Next Reunion, June, 1938

Charles D. Thomas, who served as Captain of Engineers, U. S. Army during the World War and accepted a commission as Major, Engineer Reserves, in 1925, was promoted to Lieutenant Colonel, Inactive Reserve in the Army, December 28, 1937. His address is 504 Harvard St., Hempstead, N. Y.

G. G. Atwood is a structural designer with business at 250 Hudson St., New York City, and residence at 200 Lincoln Place, Brooklyn, N. Y.

## 1896

### Next Reunion, June, 1938

E. E. Kidder, Senior Highway Engineer, is residing at 1107 No. 18th St., Boise, Idaho.

State Supervisor of Instruction in Trades and Industries for the State of Vermont is Stanley J. Steward, of 18 Summer St., St. Johnsbury, Vt.

In Honolulu, Hawaii, we find Gardiner B. Wilkins, a consulting engineer. His address—2438 Manoa Rd.

## 1897

### Next Reunion, June, 1938

Charles S. Bryer is a civil engineer with his office in Room 66, Commonwealth Pier #5, Boston. He gives his residence as 200 Hunnewell St., Needham Heights, Mass.

A plant engineer for the Hudson Motor Car Co., Detroit, Michigan, is Perley F. Goodridge, of 1236 E. Gd. Blvd., Detroit.

## 1898

### Next Reunion, June, 1938

George S. Frost resides at 1321 Rodman St., Philadelphia; he is a civil engineer with E. H. Keifer & Son, builders, of 7127 Chew St., of that city.

Edwin A. Sturgis gives his residence as 16 Lombard Rd., Arlington, Mass., and his business 1 Federal St., Boston.

## 1899

### Next Reunion, June, 1942

At the annual meeting of the officers and directors of the First National Bank of Bar Harbor which was held January 18, H. L. Graham was named a director for the ensuing year.

Winfield B. Caswell, of 90 No. 16th St., East Orange, N. J., is a hull inspector at pier 49, North River, New York City.

Mary Alden Hopkins gives as her occupation "writing" and her address as Newtown, Conn.

Classmates and friends of Dr. Leonard H. Ford, 217 State St., Bangor, will be sorry to hear of the death of his wife, Mrs. Cora Phillips Ford, on Feb. 11, following an illness of some length.

## 1900

### Next Reunion, June, 1942

F. A. Noyes is division superintendent for the Consumers Power Co., of Battle

Creek, Michigan. He lives at 98 Oaklawn Ave. of that city.

W. N. Cargill is a sales engineer at 185 Devonshire St., Boston. He resides in Arlington at 7 Woodland St.

Charles L. Brown is retired and lives at 49 Washington St., Rumford, Maine.

## 1901

### Next Reunion, June, 1942

George H. Davis, electrical engineer of 20 No. Wacker Drive, Chicago, gives residence as 416 Keeney St., Evanston, Illinois.

## 1902

### Next Reunion, June, 1941

Enoch Joseph Bartlett is president and general manager of the Baker-Raulang Co., West 80th St., Cleveland, Ohio. Mr. Bartlett resides at 15330 Lake Ave., Lakewood.

A. B. Foster desires to have mail sent to his business address—724-9th St., Washington, D. C. Mr. Foster is a patent solicitor.

A. S. Webb gives as his address 106 Lake St., Buchanan, Mich.

## 1904

### Next Reunion, June, 1941

Roy S. Averill, of Canonsburg, Pa., is a structural draftsman and farmer, according to information received by the Alumni Office. His address is R.D. 2 of above town.

Ralph T. Hopkins is located in Wilborn, Montana.

C. H. Leighton, C.E., lives at 165 Westwood Road, New Haven, Conn.

## 1905

### Next Reunion, June, 1941

J. W. Crowe is division manager of the Idaho Power Co., in Boise, Idaho. His addresses are as follows: business—807 Idaho St.; residence, 707 N. 19th St., Boise.

As associate engineer, National Park Service of the U. S. Dept. of Interior, Leslie I. Johnstone is located at 308 Court House, Milwaukee, Wisconsin.

C. A. Sweet is in Belle Plaine, Kansas.

F. O. White is chief engineer of the Fraser Companies Ltd. with headquarters in Edmunston, N. B.

## 1906

### Next Reunion, June, 1940

With business at 17 Court St., in Plymouth, Mass., is Frank L. Bailey, optometrist. He resides at 18 Chilton St., of that city.

## 1908

### Next Reunion, June, 1940

Edward W. Cram, of Portland, Maine, was elected illustrious potentate of Kora Temple Mystic Shrine at the annual meeting in Lewiston the first of the year.

## 1909

### Next Reunion, June, 1940

Friends of Mrs. Cora Shaw Calvert will be sorry to learn of the passing of her husband, Raymond Calvert. He is survived by his wife, three daughters, Pauline Calvert, class of '37, Hazel and Lorna, and a son, Lawrence, who is attending the University of Michigan.

E. Malcolm Brewer was elected a director of the Bar Harbor Building and

Loan Association at its annual meeting in January. He was also elected vice president to fill the place left vacant by the death of Guy E. Torrey

#### 1911

##### Next Reunion, June, 1939

A group of prominent Fort Fairfield businessmen met at the Plymouth Hotel recently for the purpose of forming the Plymouth Hotel, Inc., a member of the board of directors elected is Thomas E. Houghton

#### 1913

##### Next Reunion, June, 1938

Elson H. Bigelow is marine engineer for the Bethlehem Shipbuilding Corp., of Quincy, Mass.

Richard T. Huntington is editor of Ahrens Publishing Co., of 222 East 42nd St., New York City. He resides at 24016 29th St., Astoria, N. Y.

John Littlefield is a brick manufacturer with business at 53 Maple St., Brewer. His residence—63 Washington St., of that city.

Carlton G. Lutts is materials engineer in the U. S. Navy Yard in Boston. He maintains residence at 26 Dearborn St., Salem, Mass.

Alice I. Whitten is on the staff of the Newton Hospital, Newton Lower Falls, Mass.

#### 1914

##### Next Reunion, June, 1939

Archie A. Adams is a mechanical engi-

neer with the Eastern Mfg. Co., and lives at 412 So. Main St., South Brewer.

Bangor High School teacher of French is Estelle I. Beaupre. Miss Beaupre lives at 396 Hammond St. in Bangor.

F. Carroll Kendrick is president and treasurer of the H. G. Hutchinson Co., insurance, Masonic Bldg., Biddeford. Further occupation stated by Mr. Kendrick is orchardist and farmer, soil conservation committee member.

#### 1915

##### Next Reunion, June, 1938

Lawrence Southard, of 1428 Northland Ave., Cleveland, Ohio, is a salesman for Paper Specialties.

James A. Adams is teacher of Math and Dean of Boys at Wyoming Seminary, Kingston, Pa.

H. P. Bailey is mill manager of the International Paper Co. of Niagara Falls. He lives at 110-67th St., of that city.

Loren P. Stewart, Major in U. S. Army, is stationed at Fort William McKinley, Philippine Islands.

E. W. Goodwin is in the Procurement Building, U. S. Treasury in Washington, D. C. He gives his occupation as mechanical engineer. His residence is 7024 Hampden Lane, Bethesda, Md.

#### 1916

##### Next Reunion, June, 1938

J. Maynard Dodge, of 300 Rye Beach Ave., Rye, New York, is vice president and general manager of the Double Seal Ring Corporation, manufacturer of piston

rings for all purposes, which is located at 305 East 45th St., New York City. It is reported that Mr. Dodge expects to go to England about July 1 to erect a similar plant in England and operate it until it is a going business. Mr. Dodge was for some time located at Buenos Aires, S. A.

Erlon V. Crimmin is an electrical engineer with office at 39 Boylston St., Boston.

Roger L. Gowell is a salesman for the Consolidated Rendering Company with mail going to Box 108, Auburn.

The address of Florence E. Greenleaf, who gives her occupation as home economist, is 437 Willow Street, Waterbury, Conn.

Thomas N. Weeks is located at 110 Main St., Waterville—he is a lawyer.

Waldo J. LaCrosse is Chicago Manager for the American Writing Paper Co., of Holyoke, Mass., located at 10 So. LaSalle St. His residence address is 205 So. 4th St., Libertyville, Ill.

Mrs. Edward L. Herlihy is president of the Bangor branch of the American Association of University Women.

President of the Houlton Country Club elected at its annual meeting in January was Albert L. Robinson.

#### 1917

##### Next Reunion, June, 1938

Dear Classmates:

On your calendars for June, 1938, circle the dates 10, 11, and 12. Now, with a red pencil, circle the eleventh. Fine. For heaven's sake, don't lose the calendar, but

## THIS SUMMER IN SWEDEN!

LAND OF SUNLIT NIGHTS

Sweden has been maturing for thousands of years. For over a century she has enjoyed the blessings of unbroken peace.

On a visit to Sweden you inhale the mellow aroma of an old and time tested civilization like a bouquet of the finest wine.

Involuntarily you will exclaim, "This is a pleasant land in which to relax and enjoy life."... Be sure of a perfect summer by making early reservations.

Sweden is the gateway to the Scandinavian wonderlands and the fascinating Baltic region.

Convenient, quick connections from England and the Continent—direct from New York in Swedish liners in eight luxurious days.

157 FEDERAL ST.,

keep it always before you, and look at it each day. The dates you have noted are to be set aside for a very special celebration, to wit, the twentieth reunion of our class under the Dix Plan. The date you have circled in red is the day of all days, **ALUMNI DAY**. In a later letter, you may be asked to circle the twelfth, too, for if there is a desire on the part of enough members of the class for a class field day, your committee will do its best to arrange one. Right now, however, start getting organized for a grand and glorious return to the campus in June. The classes of 1915 and 1916 are coming back *strong*, and the more recently graduated classes, 1933, 34, 35, and 36 will be striving to break all attendance percentage records.

Our class president will soon name some committees to work out plans for attendance, class meeting, class stunt, class regalia, etc. Be ready to spring into action when called to serve. Write to your class secretary NOW in regard to what YOU would like to have included in the program. It is necessary to get the viewpoint of as many as possible in order to work out a program that will be worth while. Your part in the plan *right now* is to start **THINKING, PLANNING, and WRITING.**

Richard B. Dodge is field representative for Eastern States Farmers Exchange. He is located in Bangor, R.F.D. #4.

Verner Gilpatrick is investigator for the Internal Revenue Bureau of the Treasury Dept. Alcohol Tax Unit, U. S. Government. He resides at 64 Westland Ave., West Hartford, Conn.

George W. Kilburn is superintendent of the Chicago Junior School in Elgin, Illinois.

H. W. Maxfield gives his address as 615 Flatbush Ave., Brooklyn, N. Y.

Sincerely yours,

Frank O. Stephens  
21 Academy St.  
Auburn, Me.

**1918**

**Next Reunion, June, 1942**

On March 31 the Republican State Convention will hear the keynote speech delivered by United States Senator H. Styles Bridges, of New Hampshire. Senator Bridges was the Governor of New Hampshire prior to senatorship. The State Convention is to be held in Bangor this year.

**1919**

**Next Reunion, June, 1942**

Chester N. Adams is residing at 53 Warner Ave., Hempstead, L. I., New York. Mr. Adams is with the New York Telephone Co., 101 Willoughby St., Brooklyn.

Frank C. Day is clerk at the Bradford, Conant Company, 199-203 Lisbon St., Lewiston, Maine. He lives at 40 Jefferson St., that city.

Mark V. Crockett represented the University at the dedication of the new building of Suffolk University, Boston, in February.

**1920**

**Next Reunion, June, 1942**

Classmates,

R. Gardner Cornforth is a safety engineer for Philco Radio Co., Philadelphia, Pa. His home address is 1019 Allengrove St., Philadelphia.

Mrs. F. B. Valentine (Geneva Croxford) can be addressed at Mitchell Field, L. I., New York. Her husband is a Captain in the Aviation Corps, U. S. Army.

Francis Friend was recently elected

president of the Maine Association of Agricultural Fairs.

Veine Beverly is secretary of the Aroostook Agricultural Conservation Association.

Walter W. Chadbourne  
Campus  
**1922**

**Next Reunion, June, 1941**

Ina Gillespie Hamilton is executive secretary, Hancock County Chapter of the American Red Cross and her address until March 1 is National Red Cross Headquarters, Washington, D. C.

Frank G. Averill is a member of the Development Committee, Northeastern University, Boston. His addresses are: business 316 Huntington Ave., Boston; residence, Centre St., Newton, Mass.

**1923**

**Next Reunion, June, 1941**

Tony Gould Torrey is spending her first winter in Bangor in several years. When one considers the lure of a warmer climate, Tony's contentment in the north indicates what the Yanks call an open winter. If the absence of snow is pleasing to those who usually go south in the winter, Ted Curtis, our graduate manager of athletics, wonders how skiers can be induced to turn out and take the jump for the Winter Carnival on February 22.

Marion Day Quine was joint hostess with Dorothy Smith at the recent Christmas meeting of the Bangor Alumnae Chapter of Alpha Omicron Pi.

Among the business activities of Clarence B. Beckett, former Mayor of Calais, is a directorship he holds in the Calais Federal Savings and Loan Association.

Harry Crandon, Molly Perkins Crandon's husband, has recovered sufficiently from a recent operation in Boston to be with her in Orono. This summer Molly will include in her teaching schedule at the University of Maine Summer Session a course in recent Maine novelists.

Elizabeth Ring  
Orono, Maine

**1924**

**Next Reunion, June, 1941**

George Kenneth Cobb is gym instructor at Mechanics Institute, Rumford.

Philip L. Gray, M.D., is practicing at South Brooksville.

Beatrice Johnson Little is the new president of the Bar Harbor Garden Club.

Neal Phillips has just joined the staff of the *Bangor Daily Commercial* as assistant to the publisher. Neal's first newspaper experience was with the *Portland Evening Express*. In 1926 he went to New Bedford, Mass., as a member of the business staff of the *Standard* and then of the *Times*. Since 1928 he has been business and advertising manager and assistant publisher of the *Caledonian Record* of St. Johnsbury, Vt. Mr. and Mrs. Phillips and son, Ivor Neal, aged 11, are residing at 27 Ohio St., Bangor.

Howard Reiche has been elected a director, for a two-year term of the Portland Teachers' Federal Credit Union. He resides at 11 Moody St., Portland.

The Case *Alumnus* carried an item in December about one of our class: "Prof. Arthur O. Willey has brought to the Case School of Applied Science a great deal of new automotive equipment, making Case's facilities in this field one of the most complete in the country." Mr. Willey is teaching at Case and lives at 3285 DeSota Ave., Cleveland Heights, Ohio.

Mrs. Myron U. Lamb  
164 Westbrook St.  
Portland

Claude Tozier is the new traffic superintendent of the Bangor District New England Telephone and Telegraph Co., with headquarters in Bangor.

John P. Downing has been chosen as a counselor to the Norumbega Chapter of the Bangor Hi-Y. John is a member of the Bangor High School Faculty in that city.

"Rudy" Vallee's picture appearing in the *Bangor News*, February 5, depicts Rudy's part in popularizing a Maine product—the lobster. Rudy had two barrels of live Maine lobsters delivered to the Warner Brothers lot in Hollywood. These Maine lobsters were delivered by air express 21 hours from the Maine coast water. The picture shows Rudy and Bette Davis handling the lobsters previous to a dinner party at which Rudy served the crustaceans to movie folks.

Reginald F. Cratty has been elected a member of the Bangor Chamber of Commerce Board of Directors.

Michael H. O'Connor is instructor of Physics and track coach at Mt. Carmel High School in Chicago. "Pick" resides at 7116 East End Ave., Chicago.

Keith Goldsmith is general manager for the 20th Century Fox Film Corporation. He has been stationed in Singapore but planned to leave January 28 for Batavia, Java, where he will be stationed for a few months.

Edward M. Curran, now a judge presiding over the police courts in Washington, D. C., was honored recently as one of two young men who had made the most outstanding contribution in 1937 to the public welfare in the nation and in the District. "Ed" has been mentioned as a candidate for District Attorney to Department of Justice officials.

Here's a suggestion for a quiet evening at home—get out your 1925 *Prism* and see how faces and people change in 12 years. Don't forget next reunion on Dix

Plan—1940, not too early to start a fund for the fun of that reunion.

And, do you know how the class of 1925 stands on the matter of dues payments? We are one of the high 15, but we can be nearer the top than we are, and, in the high 15 on the honor roll, i.e., those who have paid dues the last three years consecutively, including the current year, 1925 is pretty near the bottom. Let's try to make 1925 at least midway on the list.

Your secretary is taking a course in Food Technology—a new course in the bacteriology department with "Matt" Highlands, 1928, as instructor.

Mildred "Brownie" Schrupf  
University Place  
Orono

1926

Next Reunion, June, 1940

Bryce W. Jordan, Assistant County Agent in Aroostook County, sailed from New York, January 29, on a two months' trip to South America, in the interest of the Maine seed potato industry. He will visit potato producing areas of Argentina, observing production methods and the performance of Maine seed in that country.

Richard M. Merrill has announced his candidacy for the Maine legislature.

Ernest B. Scott is employed in the Construction Dept. of the Pennsylvania Power and Light Co., Allentown, Penna. His residence address is 32 So. 11th St., Allentown.

Mrs. Beulah Wells  
Campus

1927

Next Reunion, June, 1940

Dear Classmates:

Our first news item just missed the last *Alumnus*. Mr. and Mrs. J. Neal Garvin (Dorothy Taylor) announce the arrival of Stephen on Jan. 20, 1938. The Garvins live at Springvale, Maine.

"Daph" Winslow has achieved a second success in poetry writing. Her latest "America Singing" appeared in the annual poetry collection published in book form. She is a member of Fryeburg Academy faculty.

Henry Welch is sales engineer for Westinghouse Electric and Mfg. Co. at Lima, Ohio. His home address is 803 E. Kibby St., Lima.

It Royce P. Davis is located at the U. S. Naval Observatory in Washington, D. C. "Jake's" home address is 2356-40th St., N.W., Washington, D. C.

Had a perfectly grand letter from Bernard Poor with information on all Mainiacs in Fall River, Mass. (I wish some of you other people would get the spirit and report on your particular locality. You've no idea what a welcome your letter would get.) One of our class reported "lost" in the last *Alumnus* was Anthony Pannoni who it seems is well, prospering and living at 3 Quarry St., Fall River. Since leaving Maine he has had several positions with the Commonwealth of Mass. and is at present in the restaurant business. Bernard also reported seeing Dick Clark in Hartford. He is working for the Hartford Gas Co. as House eHating Salesman and was, at the time of their meeting, headed for the Maine-Conn. basketball game. And in Boston, he saw Paul Wentworth who is in charge of Commercial Gas Heating in Malden, Melrose and Arlington, under the New England Power Association. It appears that Paul is planning to reduce by skiing and really is studying the subject. I mean the skiing, of course. And Bernard himself is Industrial Service En-

gineer with the Fall River Gas Works Co. and living at 8 Knox St.

Inspired by that letter I took the telephone book and started calling in and about Bangor so if you won't call me be prepared for the 3rd degree sometime when you are in no mood for it.

"Lib" Sawyer's mother supplied the information as to Lib's whereabouts. I knew she had resigned from the University of Missouri faculty, but now I find that she is associate professor of Biology at Converse College, Spartanburg, S. C. Another step up for Lib. It sounds like an ideal spot to spend the winter months.

I caught Marguerite McQuaide with her bag packed and waiting for a taxi. I've wondered why I never saw more of her about town but after talking with her about her work for ten minutes I realized that it was a stroke of luck to get her even by phone. Marguerite is General Field Representative for the American Red Cross for Maine and I only wish I could tell you of the ten-ring circus she operates. Her work covers the state's 35 chapters and 360 branches and what her job doesn't include isn't worth mentioning. Aside from her regular-planned program of work, nature is always providing a disaster or two to help make life interesting. Would that I had one tenth of her enthusiasm to apply to my housework.

From "Cuddy" Bockus' wife I learned that Cuddy is still playing with the colorful little molecules down at the Eastern Mfg. Co. and they live at 58 Grant St., Bangor.

Watch your payments! Hilton Humphrey is representative for Commercial Credit Corporation in eastern Maine. He is living at 63 Grove St., Bangor.

And here for lack of time I had to stop my research—but be prepared—there are future issues and I don't mean April Fool!

Peggy Preble Webster  
93 Norway Road  
Bangor, Maine  
1928

#### Next Reunion, June, 1940

Dear Classmates:

James Currie is an experimental engineer on high speed production machinery at 317 St. Paul Ave., Jersey City, N. J., and resides at 118 Corbine Ave. in Jersey City.

David Fuller was elected one of the vice presidents of the Bangor Historical Society at its recent annual meeting. He also was elected president of the Republican Club in Bangor.

Harry Hartman is resident Lube Oil Division engineer for Continental Oil Co., Ponca City, Oklahoma. He lives at 801 E. Chestnut Ave., Ponca City.

Clarence R. Libby is an engineer at the Nash Engineering Co., Wilson Ave., So. Norwalk, Conn. His residence address—Crest Road, Rowayton, Conn.

Dr. William S. "Sid" Perham is a physician at 109 College St., New Haven, Conn., and resides at Newton Road, Woodbridge.

Linwood F. Snider is an assistant engineer with Winslow Bros. & Smith, and is residing at 347 Winter St., Norwood, Mass.

Robert F. Scott is the new business manager of the Southwestern Gas and Electric Co. of Shreveport, La.

Arthur Albert Smith is a patent attorney at 60 Hudson St., New York City and has his home address at 66 Bar Beach Road, Port Washington, L. I., New York.

Dorothy Steward Sayward, of Guilford, Maine, has been appointed to serve

as acting president of the State of Maine Pi Beta Phi Alumnae Association, until the meeting of the executive council in the spring. "Dot" was treasurer of the state organization until this recent appointment.

Delia Houghton, of Presque Isle, is chairman of the Aroostook County Pi Phi's.

Alice Muzzy Kneeland, of Greenville, is chairman of the Piscataquis County group.

Carroll P. Osgood was recently appointed assistant secretary of the Travelers' Insurance Co. He has been connected with this company for the past ten years as secretary to the President in Hartford, Conn.

Matthew "Baldy" Williams, attorney, was elected chairman of the Dover-Foxcroft branch of the Piscataquis County Chapter of the American Red Cross.

Barbara Pierce Skofield  
52 Harlow St.  
Brewer, Maine  
1929

#### Next Reunion, June, 1939

Dear Classmates:

John Ames is living at 25 Auderbon Road, Braintree, Mass. He is a steam service engineer.

Kenneth Burwood is a forester with the CCC and gives his address as 22 Crown Street, Hartford, Conn.

Bob Chandler sends a new address. It is 109 Cornell Street, Ithaca, N. Y. Bob is Assistant Professor of Forest Soils at Cornell.

We announce the arrival of Lyman Samuel Gray in November. He is the son of Sam and Lou Grindell Gray. The Gray family is living in Bangor.

John LaPlant is working with the Simpson Bros. Corp. at 193 Hanover Street, Boston.

Harvard Sylvester has left his job with the New York City Department of Parks and is now employed as a landscape architect with the New York World's Fair of 1939.

Marian Hawkes  
11 Linnaean Street  
Cambridge, Mass.  
1930

#### Next Reunion, June, 1939

Dear Classmates:

Announcement has been made of the marriage of Miss Lydia Douglas, of Brunswick, and Dean Rollins, also of Brunswick, which was solemnized July 4, 1937.

Arthur Gillespie is attending Jefferson Medical School in Philadelphia and is living at 1010 Clinton St., Philadelphia. He received a B.A. degree in Zoology from Maine last June.

Martling B. Jones is also a medical student (he doesn't state where) with residence address at 88-15 192 St., Hollis, Long Island.

"Reg" Wilson is vice president of A. L. Diamant & Co., of New York and Philadelphia, importers and retailers of interior furnishing and makers of distinctive furniture. With his wife and a year-old son, Peter Burgess Wilson, he is living at 414 St. David's Road, Wayne, Pa.

Polly Hall Leach  
Homer Folks Hospital  
Oneonta, N. Y.  
1931

#### Next Reunion, June, 1939

Dear Classmates:

The Alumni Office heard my plea and as a result I have quite a bit of news for you this month.

Dave Barker is a salesman for the N. E.

## WHY CAN'T YOU WRITE?

### It's much simpler than you think!

SO many people with the "germ" of writing in them simply can't get started. They suffer from inertia. Or they set up imaginary barriers to taking the first step.

Many are convinced the field is confined to persons gifted with a genius for writing.

Few realize that the great bulk of commercial writing is done by so-called "unknowns." Not only do these thousands of men and women produce most of the fiction published, but countless articles on business affairs, social matters, domestic science, etc., as well.

Such material is in constant demand. Every week thousands of checks for \$25, \$50 and \$100 go out to writers whose latent ability was perhaps no greater than yours.

### The Practical Method

NEWSPAPER work demonstrates that the way to learn to write is by writing! Newspaper copy desk editors waste no time on theories or ancient classics. The story is the thing. Every copy "cub" goes through the course of practical criticism—a training that turns out more successful authors than any other experience.

That is why Newspaper Institute of America bases its writing instruction on the Copy-Desk Method. It starts and keeps you writing in your own home, on your own time. And upon the very same kind of actual assignments given daily to metropolitan reporters. Thus you learn by doing, not by studying the individual styles of model authors.

Each week your work is analyzed constructively by practical newspaper men. Writing soon becomes easy, absorbing. Profitable, too, as you gain the "professional" touch that gets your material accepted by editors. Above all, you can see constant progress—week by week as your faults are corrected and your writing ability grows.

We have prepared a unique Writing Aptitude Test. This tells whether you possess the fundamental qualities necessary to successful writing—acute observation, dramatic instinct, creative imagination, etc. You'll enjoy this test. The coupon will bring it, without obligation. Newspaper Institute of America, 1 Park Ave., New York.

## FREE

PARKER FROST '35, Salesman

Tel. & Tel. with his headquarters here in Portland and his home at 5 College Place, Waterville. Hope this doesn't mean you're commuting, Dave.

"Blocky" Blocklinger has moved again,

this time to Baltimore where he's assistant superintendent of W. T. Grant Co. He and the Mrs. are at home at 4811 Norwood Ave., Baltimore, Maryland.

On Dec 22 the class of 1931 gained a new member. Mrs. Linwood Brofee. Mrs. Brofee was the former Miss Merle E. Cousens, of Kennebunk. She is a graduate of Gorham Normal and has been teaching at Frederick Robie School. Linwood is head of the agricultural department and athletic coach in the High School at Gorham. He and Mrs. Brofee have taken an apartment on Main Street in Gorham.

Ward Cleaves has a most imposing title as Co-ordinator in Alumni Association Campaign for Life Membership for the General Alumni Association of the University of Southern California. He evidently isn't quite so fond of California though, for he adds a note to his card, "Coming back to Maine in spring, as soon as this drive closes."

"Clif" Curtis is another '31-er with the N. E. Tel & Tel. "Clif" is in the engineering department of the Bangor division, and is living at 191 Center Street, Bangor.

"Bill" Cyr is farming in North Van Buren and acting as general agent for the

International Agricultural Corporation of Houlton

More news about "Vin" Drinkwater who I told you last month had gone to Bar Harbor to teach. Vivian is teaching English and Expression, and is living at the Y.W.C.A.

George Farnsworth is a Maine Engineer on the S S Mobilgas of Socony-Vacuum Oil Co., of 26 Broadway N. Y. City.

Horace Flynn is back in the east again as a forester. His address is R.F.D. #3, Winslow, Maine. He and "Charlie" have some fine youngsters, I've heard.

Florence Knox is at the Bon Air Farm, Richmond, Maine.

I had a nice letter from Elden Light a while ago. He is a chemist in the analytical department of the Hercules Experiment Station at Wilmington, Del. When he wrote he was living at the "Y," but now I have the address 72 Taylor Ave., Richardson Park, Wilmington, Del. so I gather that his wife and youngsters are with him again.

Jack McGowan is vice president and sales manager of the Atkinson Shoe Co., 186 Lincoln St., Boston.

Hazel Sawyer has been elected recently province president of Pi Beta Phi to succeed Lydia Douglas. She will have jurisdiction over chapters in Alpha Province East, including those at Dalhousie, Halifax, Middlebury College, B. U. and the University of Maine, and University of New Hampshire.

Ermo Scott is president of the Hancock County Schoolmasters Club and at a recent meeting was chosen to direct the organization and administration of the general competitive testing for achievement in various secondary school subjects during the annual spring secondary school competitions for Hancock County.

Galen Veayo has been elected president of the Androscoggin County Teachers' Association, and was elected a delegate to the National Education Association meeting in Atlantic City in February.

"Yellin" Wareham is an associate home demonstration agent with the Middlesex County Extension Office in Concord, Mass. She's living at 36 Hubbard Street, Concord.

Thus endeth the news of the month. Please some of you help me out and don't leave it all to the Alumni Office.

Marv Carter Stiles  
110 Revere Street,  
Portland, Maine  
1932

#### Next Reunion, June, 1939

##### Classmates

Miss Marjorie R. Chase, of Whitefield, Me., became the bride of Lore H. Ford, Jr., on January 1, 1938. Mrs. Ford was graduated from Oak Grove School in 1929 and from the Central Maine General Hospital school of nursing at Lewiston in 1933. Mr. and Mrs. Ford's new home is in Whitefield.

Virgil Gross is living at 99 Liberty St., Athol, Mass.

Mr. and Mrs. Lawrence Hesse are living at 124 Hancock St., Cambridge, Mass. Larry is a lubrication expert with the Atlantic Refining Co.

Mr. and Mrs. Gerald L. Kenney announce the birth of a daughter, Nelia Joy, born Nov. 19, 1937. They reside at 231 French St., Bangor.

Sgt. Francis McCabe, Director of Safety Division of the State Highway Police of Maine, spoke before seniors in Highway Engineering Dec. 3, on "Traffic Regulations and Enforcement." Recently Pat

was congratulated by a national safety council representative on the reduction of highway accidents in Maine the past year.

Alfred P. McLean is employed in the paper-testing laboratory of the Eastern Mfg. Co. His address is 547 So. Main St., So. Brewer.

C. Winslow Rand is scaling pulp wood for a land company in Upton. His address is Andover, Maine.

Morris L. Robinson is Educational Adviser for 1101 CCC Camp at West Camp-ton, N. H. Mr. Robinson was formerly teacher of English at Lee Academy.

The engagement of Mollie Rubin to Edward Stern ('30), of Bangor, was announced Dec. 31, 1937. The wedding will take place in the early spring. Mollie is employed as a substitute teacher in the Bangor public schools. Mr. Stern was graduated from Bangor High School, the University of Maine in 1930, and attended Harvard Law School. He is recorder of the Bangor Municipal Court.

Mr. Stern passed the Maine Bar examination with highest honors.

Clarence Shapiro is research chemist at the Oxford Paper Co. His address is 245 Waldo St., Rumford, Maine.

Mildred E. Smith, Maine State Representative, is a member of the State Personnel Board.

The marriage of Miss Ada F. Coleman, of Thomaston, and Hilliard R. Spear took place Nov. 20, 1937, at Warren, Me. Mrs. Spear is a graduate of Thomaston High School, and the Rockland Commercial College, and is employed by the Thurston Oil Co. in Rockland. Hilliard is employed at the Warren Post Office.

Rebecca Spencer became the bride of Harry Files, Jr., on Jan. 15, 1938, in Saco, Me. Becky has been teaching drawing and penmanship in the Biddeford public schools. Harry graduated from Maine in 1935. He is sales representative for the Files Steam Specialty Co. of Boston.

Paul L. Taplin is treasurer of the Allen Lumber Co., Inc., at 502 No. Main St., Barre, Vt. He lives at 14 Queen St., Barre.

Robert Vickery is engineer on bridge construction with the Bridge Division, State House, Augusta, Me. His address is 883 Broadway, South Portland, Me.

Raymond T. Wendell is assistant engineer for the State Bureau of Health, at Augusta, Me. His address until June, 1938, is 116 N. State St., Ann Arbor, Mich.—then 133 Main St., Oakland, Me.

Helen S. Hincks  
349 B Pleasant St  
Sec. 1 Apt. 25  
Malden, Mass.

#### 1933

#### Next Reunion, June, 1938

Dear Classmates:

One of my "Lost Column" has been found through a conversation with At Levansaler, who stopped for an evening with us this past week—namely, Adele Allen Longley. But Worcester, Mass., is the extent of my knowledge at the present date. So, I still leave Dixie Dickson, Dottie Blair, Marcia Adelman—?, and Mel Means.

Daisey DeMeyer Farnsworth is living in Ellsworth Falls, and her occupation is that of many of us now—housewife.

Abraham Hoffman is a student at Rush Medical School in Chicago, Illinois, and is living at 1519 W. Adams St.

Arthur Thomas sends his address as 23 James Street, Bangor.

Winona Harrison is dietitian at the State Street Hospital, Portland, and her address is 24 Rosemont Ave., in that city.

Member Federal Deposit Insurance Corp.

Ah! a wedding—On Dec. 27th Donald Boyle and Miss Frances M. Springer, of Hancock, Me., were married in Portland. Mrs. Boyle was graduated from Hancock High School and Ellsworth High School and since then has been employed in the law offices of W. S. Silsby in Ellsworth. Donald is principal and coach at Beals High School.

On January 18th, the engagement of Gertrude Dorr and Merton E. Cleveland was announced. The groom is a Maine man in the Class of '34. The date of the wedding has not yet been announced. Mr. Cleveland is an engineer for the New England Power Co. with offices in Boston.

Late in November, the engagement of Miss Olive Wing to Edmund Daggett was announced. Oh—oh—and as I read on I find that they were married on November 25th.

November 25th was an eventful day for another couple, too. For Miss Virginia Howe, of Lowell, Mass., and Johnnie Wilson became engaged.

Allan C. Hamilton is employed as a chemist with Lever Brothers Co. in Cambridge, Mass. He is living at 55 Worcester Street, Belmont.

Ben Brown is making road maps, a draftsman officially, for the H. M. Gousha Co., 536 Lake Shore Drive, Chicago, Ill. Residence 1420 Fairwell Ave., Chicago.

Evelyn Pollard is teaching the Fourth Grade in the Lisbon Public Schools, Lisbon, New Hampshire. If you want to visit her classes, call at 41 Grafton Street, Lisbon. If you'd rather reminisce—2 Garland Street, Plymouth, is the address.

Harold O. Doe is principal of Grammar School in East Orrington, Maine. His residence is 156 Main Street, Bangor.

Beatrice Titcomb has wandered far—to Ajo, Arizona, where she is teaching in the Fifth Grade. Her address is Cornelia Hotel, Ajo.

James Fuller is a chemist in the State Laboratory at Augusta. His residence is 19 Greenville Street, Hallowell.

Elizabeth Young is a Social Worker in the Bureau of Social Welfare at Town Hall Place, Brunswick. She is living at 34 A School Street, Brunswick.

On Dec. 4, Alice Trundy, of Searsport, became the bride of Frederick M. Burgess, of Philadelphia, at the Fifth Avenue Presbyterian Church, New York City. Mr. Burgess is a graduate of Haverford University and for seven years has been employed by the DuPont Co., of New York City. Since September he has been assistant promotional advertising manager of the American Cyanamid Corporation. Alice has been a private secretary to Mr. Dunlap of the Prentice Hall Publishing Co. in New York City. The couple are planning to reside at 117 West 13th Street, New York City.

To my Lost Column, I add Don Coggin—along with the above named four.

#### Next Reunion, June, 1938

Night duty leaves me cold and uninspired. I haven't been any place or seen anyone but twenty hungry babies for the past two weeks. So I'm at the grace of our blessed Alumni Association. Long may it live. I find from this last, news that New Jersey is getting to be a home of Maine Alumni—last year it was New York. I wonder why everyone has moved across the river. Is the grass greener over there? Enoch Mercier and his new

wife are living in New Brunswick, N. J. His professional title fascinates me—Intracellulose Ester Lacquers Process Company Inspector! It sounds sort of ultra-modern, don't you think? So much so that I don't understand what it is—maybe I'm just an old-fashioned girl.

Another New Jeranian is Peggy Dodge Brooke. She and Guy are living in Jersey City.

Bob Lawrence is living in Gladstone, N. J. He is foreman in charge of Noise Tests and Packing Departments. I wonder what a Noise Tester does. I think some of my babies could stand a little noise testing.

I was much pleased the other day to get a card from Lionel Desjardin. I had just that day met a girl from Old Town and I was feeling very mellow and warm towards the place. Remember the lunch cart on the corner where we got chop suey sandwiches, and the picnics at the Falls. Benny Sklar's, and other landmarks of Old Town. It seemed almost like mental telepathy that I should hear directly from there with news of so many of our friends who are there. Lionel and Hazel Ferro are doing graduate work in Education. He says Hazel hasn't changed a bit and I'm glad of it. Lionel substituted at Presque Isle for awhile and saw Art Hoyt and Horace Crandall. Art is farming, but still wears the same grin and still likes to dance. Good boy, Art, I'm afraid that's more than I can say. Rudy Morin is at the Breakers, Palm Beach, this winter—and we stay here and dream about what it would be like to lie in the sun. Mabel and Andy Watson are in Orono and getting along famously. Peggy Davis Pike is now in Old Town. Paul and Betty Langlois are in Agawam, Mass., where Paul teaches and coaches—and all that on a penny postcard. So you all see what can be done! Thanks so much, Lionel, for the so-called Hodge-podge.

Before we leave Old Town I know there is some more news. It seems there always is one place that's the center of news, and this month the Canoe City has it. Roland Cyr recently became married to Miss Marguerite Kaweck, of Hollis, Long Island, N. Y. Mrs. Cyr attended Syracuse University and Hunter College. Roland is manager of the Montgomery Ward Store in Johnson City, Tenn.

And surprise of surprises—here I've been planning for weeks to have Saturday night and Sunday morning baked beans with Bruce and Jean Moyer and to pay my respects to Baby Moyer, and now I find that they've returned to their native soil. Much to their joy, I know. They are living in Brewer. Bob saw them at a distance at a Maine basketball game and said that they looked grand. I know they're happy to be back. I bet Ken Foster misses their beans, too.

Other fortunates living in Maine are Don Allen, who is Ingredient Expert at Cushman Bakery Co. Please thank Mr. Cushman for the swell chocolate eclairs, Don. Maybe they're due to the expert ingredients.

Floyd Goodwin is Foreman of the Technical Service Dept. of the International Paper Co. in Livermore Falls.

Chick Marson has been transferred from Salisbury, Mass., to Eastport, Me. The home of the "herring"—great place for a Water Company.

Harry Tyler is teaching history and math at Buxton High School; and that's all the news from Maine and New Jersey. The rest are in Massachusetts and points west.

Dana McNally is Air Conditioning En-

● Home from a popular world cruise, hundreds of tourists, by shipboard ballot, voted South Africa the "most interesting" of all the lands they had visited.

And for good reasons: Here are the beauty and refinements of civilization, picturesque, primitive native life; natural scenery in unspoiled grandeur; closeups of African game in its natural habitat all kinds of outdoor sports; together with a splendid climate—and comfortable hotels and modern transportation.

Detailed information from all leading tourist and travel agencies

**SOUTH AFRICA**

The World's "Most Interesting Travel Land"

gineer for Industrial Appliance Co. of N. E. in Boston.

Joe Senuta is Head Chemist for the Louis Dejonge Coated Paper Co., in charge of Research and Control in Fitch-

burg, Mass. These things all sound so important.

Stanley Young is in the Air Conditioning Dept. of Fairbanks Morse and Co. in Boston. There seems to be quite an opening in air conditioning.

Milt Attridge is seeing Missouri. He has moved from Springfield to Rolla, Missouri, and is still with the U. S. Forest Service.

Mary Jones who started with our class at Maine moved to Colorado and attended the State College there, majoring in history and government. She recently returned to Maine and was guest speaker at the regular meeting of the public affairs club in Bangor. She spoke on the subject "The Problems of the Far West."

To save romance, word comes of Benny McCracken's marriage to Helen Rose, of Valparaiso, Indiana. Benny is in Chicago with the A. S. Bacon Veneer Co.

Emmons Kingsbury and Orissa Frost were engaged during the holidays. Orissa is teaching English at Winthrop High School. Emmons is employed in Brewer.

And now, since Charlie McCarthy is here again, I think I'll say good bye. Till the March winds blow.

#### Next Reunion, June, 1938

Dear Classmates:

There was a meeting of class officers on Feb. 12 at the Augusta House in Augusta. I was very anxious to attend, because I know I would have learned about almost all of you, but unfortunately I was unable to attend. There has been no report issued as yet for the plans of the reunion in

*The Maine Alumnus*

173 Summer St., Boston, Mass.

June, but I'm sure they'll be forthcoming soon. And aren't you excited!

Warren Flagg came to my rescue a few days ago with a nice long letter from Ft. Shafter, Hawaii. Thanks, Warren!

And now let's talk about all of you, and what you've been doing. This month Henry Anderson appears from the list of unknowns. Henry is Conservation Agent for the Agricultural Conservation Program, and is located at Lewiston, P. O. #778. Lloyd Koonz is Auditing Clerk in the State Department at Augusta. In Worcester, Mass., Louis Parrott is a salesman for the American Chick Co., of New York, and Louis is living at 664 Pleasant Street. Ed Stetson reports his position as temporary, but it sounds good. Ed is boy's supervisor in the Tolland County Home at Rockville, Connecticut. Betty Davis Dudley reports that she is a housewife now, in Mapleton, Maine.

Judging from his report, Elmer Randall likes Georgia. Thank you for the note, Elmer. Employed by the Brunswick Pulp and Paper Mill in Georgia with Elmer are Lloyd Goodwin '34 and Robert Thompson '36, the vice president and general manager is Mr. J. L. Ober '13, University of Maine. Sounds good!

And now to hear what little Dan Cupid has gone and done. George Cobb was married on December 31st to Arlene Higgins, of Auburn. George is assistant manager of the Montgomery Ward Co. store in Baire, Vermont, and that is the spot where George and Arlene plan to live. Harry Files was married during this last month to Becky Spencer, of Biddeford. Harry is Sales Representative of the Files Steam Specialty Company, and is located in Boston. Becky has been teaching Art in the Biddeford schools but she and Harry are living in "The Fiji Lodge" at West Buxton, Maine.

May I extend our very best to you all. So I must leave you until next month—do drop a line, and start getting ready for the reunion in June! Sincerely,

"Ag" Crowley  
59 Western Avenue  
Biddeford, Maine

1936

#### Next Reunion, June, 1938

Dear Classmates:

A marriage announcement again takes the headlines. This time it's "Ginny" Nelson Sturgis. She wrote, giving me permission to announce her marriage to Fred Sturgis which took place last fall in Shrewsbury, Mass. "Ginny" has been teaching at Falmouth High School since the fall of '36, but she left her position in January. Her present address is 605 Brighton Avenue, Portland. Congratulations.

My only other letter this month was from Willard Cram, who is working for the Cumberland County Power and Light Co. He is located in Saco at their new Cataract Station. Willard's address is 234 Cottage Rd., South Portland.

He says that Dana Sidelinger sometimes sings with orchestras in which Willard plays. Dana and his family are living on Pillsbury Street in South Portland. Are you still employed by the Telephone Co., Dana?

Congratulations to Vinney Hathorn on his engagement to Helen Humphrey, of Pittsfield. Vinney is at present located at Norfolk, Va., where he is a cadet in the U. S. Navy bombing squadron. When his course there is completed he will go to the airplane carrier *Enterprise*.

Ken Ireland (I've wondered what had become of him) is a salesman with Hawk-

ridge Brothers Steel Co. in Boston.

Royal Mchan is a development engineer in the Cellophane department of the E. I. du Pont de Nemours & Co., Waynesboro, Va.

J. W. Flanagan's address has been changed to 1503 Rhode Island Ave., N.W., Washington, D. C.

Robert Thompson is employed by the Brunswick Pulp and Paper Co., Brunswick, Ga., as a bleach operator.

Sincerely,

Phyl Webster  
62 Gillander Avenue  
Auburn, Maine

1937

#### Next Reunion, June, 1939

Hello, Classmates

Faith Folger and John Gardner's engagement was announced in December. Congratulations and everything to you two.

Katherine Bryant was married in December to Vachel L. Wakefield, of Belmont, Mass. They are to live, I imagine, in Stockholm where he is principal of the high school. The best of wishes to you folks.

I had a birth announcement of a daughter, Dorothy, to Jo and Bud Woods (Josie Naylor) several weeks ago. Their address is 21 North Front St., Richmond. Many congratulations from all of us.

Helen Wooster is teaching in Limestone and Dorothy Hutchinson is assistant dietitian at Westbrook Junior College.

Lloyd Buckminster is working as a draftsman in the Babcock & Wilcox Co. in Barberton, Ohio.

John Murray has a fellowship in History at the University of Indiana.

Johnny Bennett who has been working as a "Student" track supervisor for the Maine Central R.R. now has a job with the Standard Vacuum Oil Co. and will leave for Calcutta, India, the last part of the month. Imagine being able to travel so far and being paid for it all the time.

Tommy Crozier is in Hodge, La. with the Advance Bag and Paper Company. So you can see we are well represented in different parts of the world already and only out of school several months.

Newell Wilson is with the Lincoln Electrical Co. in Cleveland, Ohio. His address is 13924 Cort Street, Cleveland, in care of Mrs. Castor.

Louise Calderwood is teaching English, French, and Latin in Bowdoinham High School.

Paul Wilson was married in September to Lois Steiniger in Bath. They're living there on Pearl Street.

Evelyn Morrison who was with us one year and then graduated from Farmington Normal last June is teaching in Auburn in the primary grades.

Helen Titcomb has a graduate Assistantship in Zoology at the University.

Theresa Oakman is living on Union Street, North Marshfield, Mass., and is working as a companion to an elderly lady. How are you, Theresa?

Bill Hooper is employed by the J. G. Deering and Sons Lumber Co. in Biddeford, Maine. His address is 412 South St., Biddeford.

Bill Kierstead is working for the International Paper Co. as a laboratory helper in Chisholm, Maine. His residence is at 23 Richardson Ave., Livermore Falls.

George Findlen is teaching Vocational Agriculture at Newport High School and is having a great success, I'm told.

Lib S. Hoyt  
29 Maple Street  
Farmington, Maine

*Your Westinghouse Dealer has more to offer than the appliances he sells*

NOT far from where you live, there is a store where you can buy a great many things not usually sold across counters. Leisure is one of them. Health, better sight, and better living are others. Wrapped up in packages, they bring a lot of happiness to any home.

Of course, the actual deliveries from this store are in the form of electrical appliances. But these are merely the physical means of bring-

ing you what you really buy. A Westinghouse electric range, for example, is not just a contrivance of steel sheets, wires and automatic controls. It is *better cooking results, cleaner and cooler kitchens, greater economy per meal, and more leisure time*. A refrigerator is not merely an insulated box with a mysterious mechanism inside. It is *safe food protection, abundant ice, crisp salads, and tasty desserts*.

It is the same with all other electrical appliances — toasters or radios, washers or ironers. You do not buy what they *are*. You buy what they will *do for you*.

The store that displays the Westinghouse sign will not only supply you with beautiful and efficient appliances, but will assure you the happiness you are entitled to get from their use. Look for this sign when you need anything electrical.

# Westinghouse

*The name that means everything in electricity*
