V. 20 #1

NORFOLK WAS UNDER a state of siege. Before communication with the outside world was disrupted, the New York Life's Home Office was notified that two of its policyholders in the city had died. Prompt payments would relieve distress. But how could they be made under these conditions?

UNDER A FLAG OF TRUCE

Norfolk, Virginia 1862

THE OPPOSING ARMIES recognized the humanity of life insurance . . . suspended hostilities . . . allowed a representative to pass through the lines under a flag of truce in order to establish a contact and make arrangements with the beneficiaries within the city of Norfolk for the payment of these claims.

ONE OF THE BENEFICIARIES later came to New York to express her appreciation. She carried a letter from Mayor William W. Lamb of Norfolk. He wrote: "Your prompt payment has sustained the high reputation of your Company in this community which I hope it will continue to enjoy."

THE New York Life has a long record of fidelity in meeting its obligations to policyholders; and in investing it adheres to the principle that safety should always be the first consideration. These are among the reasons why the Company continues

to merit the confidence of its policyholders . . . why a New York Life policy is one of the best investments you can make . . . why the agents, in offering the benefits of New York Life protection, render a valuable service to the public. This Company is now

selecting qualified college alumni to augment its field organization in its various branch offices. If you think that you, or someone you know, might be interested, the Company will be glad to forward a copy of a 48-page book entitled "A Career as a Life Underwriter."

SAFETY IS ALWAYS THE FIRST CONSIDERATION. NOTHING ELSE IS SO IMPORTANT

NEW YORK LIFE INSURANCE COMPANY

A Mutual Company founded on April 12, 1845

Alumni Sons and Daughters of 1942

The record-breaking number of 69 sons and daughters of Alumni are registered this year in the freshman class of 1942. Exceeding last year's record total by four, the following members of '42 claim one or more parents as members of the Alumni Association:

First Row: Edward P. Arbo (Paul P. '27); Joseph N. Mullen (Joseph N. '23); S. David Morris (Abraham '18L); Gordon Winters (Amos A. '10); Barbara Chase (Edward E. '13); Nancy Philbrook (Lawrence E. '16); Rae Hurd (Everett S. '17, Marguerite L. '33); Mary Louise White (C. Harry '98); Ruth E. Loring (Fred P. '16); Helen Weymouth (Arthur P. '06); Marion J. Libby (Mrs. Aileen Hobart '14); Florence E. Cousins (*Mrs. Arline Brown '15); Ruth Towne (Harland E. '13); Arlene J. Webster (George A. '10).

Second Row: Waldemar V. Littlefield (Waldemar B. '17); John E. Burke (Mrs. Mary Webber '06); Carleton S. Herrick, Jr. (Carleton S. '17); Charles S. Benjamin, Jr. (Charles S. '12); Ruth Grundy (*Leslie W. '14); Gwendolyn Haskell (Herbert V. '17L); Mary Royal (Thayer L. '25); Muriel Pratt (Harold M. '17); Edith Jacobs (Mrs. Margaret Flint '12, *Lester '12); Lois L. Stone (Walter C. '13); Stanley Phillips, Jr. (Stanley G. '12); J. Elwood Church, Jr. (James E. '13); Bryant E. Bean (Francis A. '19); Richard H. Coffin (Mrs. Grace Bristol '17, Harold W. '16).

Third Row: John S. French (Norman R. '14); Edward S. Kierstead (Horton W. '07); William Talbot (*James R. '04); John W. Glover, Jr. (Mrs. Edith Ingraham '17, John W. '15); Robert Deering (Arthur L. '12); David B. Hopkinson (Ralph S. '13); William Gilman (Madison L. '16); David A. Adams (Archie '14); Gordon E. Ramsdell (Hollis L. '18); James L. Morrison (James J. '08); Stephen E. Woodbury, Jr. (Stephen E. '01); John Robie (Frederick '16); Miles Mank (Nelson '17); William Garsoe (Julius O. '23); Thomas F. Moore (Robert M. '16); Seth W. Thornton (Lois E. '18).

Fourth Row: Lawrence Leavitt (H. Walter '15); Loren F. Stewart (Loren P. '15); Radford Luther (Harris G. '15); Samuel Dyer, Jr. (Samuel '12); Lawrence Emery (F. Philip '08); Calvin Sewall (Herbert W. '02); Howard Merrill (Ralph W. '17); Otis C. Lawry (Otis C. '16); George Cunningham (Pearl G. '03); E. Stuart Smith (Mrs. Frances Lougee '16); David Dodge (Richard B. '17); John Houghton (Thomas E. '11); Edward P. Barrows (Lewis O. '16); John H. Mayo (Norman H. '09).

Alumni sons and daughters of 1942 who were not able to report for the photograph were:

Barbara E. Crocker (Richard F. '14); Robert T. Davis (Walter '10); Robert H. Grant (Charles E. '14); Joseph S. Higgins (Raymond D. '20); Robert F. Fortier (Francis E. '14); James M. Gillin, Jr. (James M. '13L); Helen V. Hayes (Liston '24); Elizabeth Jellison (Arthur W. Summer Session); Parker N. Moulton, Jr. (Parker N. '17); Aaron H. Putnam (Aaron A. '11L); Charlotte B. Smith (Dexter S. '09).

A complete story regarding the members of 1942 having Alumni relatives will be carried in the November issue.

More Goods for More People at Less Cost

HAD the 7½ million people who bought new radio sets in 1937 been obliged to pay 1929 prices for them, the total cost to the public would have been \$700,000,000 greater than it actually was. In fact, the 7½ million sets of 1937 cost the public \$188,000,000 less than the 4½ million sets of 1929. And because radios cost less, more people could buy them, and the purchasers had more money to buy additional comforts and conveniences.

This is but one of many cases where industry has found ways to make better products at less cost. For instance, the 1½ million electric washers bought in 1937 cost the purchasers 2 million dollars less than the million bought in 1929. The 1,200,000 electric fans bought in 1937

cost the purchasers \$700,000 less than about half that number bought in 1929. And in this same period hundreds of other manufactured products, because of improved manufacturing methods, have been reduced in cost so that more people can have more of the good things of life.

This process of creating *real wealth* has brought to America the highest standard of living ever known, and it is this process which must continue if even higher standards are to be attained. General Electric scientists, engineers, and workmen are contributing to this progress. By developing new and better ways to use electricity for the benefit of the public, they are constantly providing More Goods for More People at Less Cost.

G-E research and engineering have saved the public from ten to one hundred dollars for every dollar they have earned for General Electric

1938 — OUR SIXTIETH YEAR OF MAKING ELECTRICITY MORE USEFUL TO YOU — 1938

Enrollment Largest in History

THE academic year 1938-39, the 71st college year for the University, opened auspiciously on September 20 with the largest total enrollment in history and, by a small margin, the largest freshman class. On the third day of college the total enrollment, 1826, exceeded last year's total for the same day by 122. The entering class under the banner of 1942 totalled 540, exceeding last year's record-breaking group by 26.

The activities of the 16th annual Freshman Week set the wheels of the academic machinery turning as the newcomers to the campus thronged halls and dormitories on September 14. Five days of intensive orientation to the new environment turned out from their scattered groups a full-fledged class complete with light blue cap and dark blue visor and the traditional green ties, and dark blue beret with green letter for the women.

Following upperclass registration, the Wingate bell sounded once more the call to class on September 21 and another official college year was underway.

At the first assembly of the year on Wednesday morning, Dr. Payson Smith, an honorary alumnus of the University, and well-known educator from Harvard Graduate School of Education, as guest speaker, discussed the problems of education and democracy facing the world today. President Arthur Hauck, commencing his fifth year of leadership at the University and newly returned from an extensive vacation tour through Europe, gave a hearty welcome to the assembled students.

President of the board of trustees, Edward E. Chase, of Portland, also spoke in welcome to the students.

Campus Changes

During the summer vacation months a few needed campus changes on buildings and grounds took place. One of these most likely to attract the favorable attention of alumni is the installation of permanent bleachers on the north side of the football field. Steel stands in former use as open bleachers were mounted on a permanent concrete foundation raised several feet and enclosed on sides and back by a tile wall, making from them a permanent wind-proof stand with seating capacity of 3,000.

Balentine Hall, girls' dormitory, was renovated during the summer, a complete new wiring system was installed throughout, and walls and ceilings were refinished, particularly in the dining room where sound insulating material was used

Registration by Classes*

Freshmen	540	514
Specials	29	40
Two-Year Agri.	44	45
	1826	1704

*For the third day of each college year.

An addition to the housing facilities was made in the completion of one new cabin unit at the University Cabin Colony made possible by a gift of the Class of 1913 at Commencement in June.

Other improvements included new equipment in the study rooms at the Library and the moving of the campus barber shop from the basement of Coburn Hall into new and better quarters beside the bookstore in Fernald.

New Courses

Among the new courses offered for students, during the coming year, the co-operative curriculum in Nursing Education, presented by the department of zoology under the direction of Dr. Joseph Murray '25 in conjunction with the leading hospitals of the state, attracted considerable interest with a total of 17 for this its first year. One other major curriculum is available this year, a course in engineering physics under the College of Technology directed by Prof. C. E. Bennett, head of the department of Physics, in which considerable interest has been shown.

Technology also presents new courses in the Civil Engineering and Chemical Engineering departments. Professor E. H. Sprague is teaching a course in Sanitary Engineering and Water Supply which will include a study of water supply sources and work in sanitary engineering problems and Mr. Earl Bennett '28, fills a long-felt need in the department on a course of Foundations, treating the theoretical designs of such structures and study of existing foundations. Chemical Engineering Practice is the name of a new course presented by that department to provide an opportunity to supplement the student's training in theory and laboratory work with practical

work on plant equipment to assist the transition from student to practicing engineer. Arrangements have been made with the Penobscot Chemical Fibre Company at Great Works and the Bangor Gas Light Co., at Bangor for the use of their equipment in conducting the course which largely consists of the operation and testing of units in actual use in these plants.

In the department of Home Economics a new experimental course in apprentice teaching is being tried out this year. Under this plan a few selected upperclass women will teach in various high schools throughout the state for a full semester under the immediate supervision of a local home economics teacher approved by the State Department of Education. This course is designed to supplement the work already available in supervised teaching in schools in the vicinity of the University and on the completion of the new course students will receive a vocational certificate. Another new course in the College of Agriculture will be presented in the spring semester by the department of Agricultural Economics and Farm Management under the title of "Rural Sociology."

Among the new courses in the College of Arts and Sciences available this year, the one entitled "Marriage and the Family," offered by the department of Economics and Sociology under the direction of Prof. Herbert Lamson, opens a new field of study for undergraduates. The department of Public Speaking will present for the first time this year a course in radio speaking, taking up the problems of radio programs and presentations. Facilities for broadcasting will be available for practical application of the work. The department will also offer Theatre Appreciation and Stage Craft, offering fundamental work for the appreciation and production of drama.

News and Events of the Summer

Summer Session—

The annual Summer Session of the University, six weeks in length during July and August, recorded this year the largest registration on record, a total of 641 students, well above the previous high of 526 in 1936. Under the management of Dr. Roy M. Peterson, serving his ninth year as Director of the Session, the program was a well-balanced and successful one. Attendance included 253 students from outside of Maine, 388 from the state; a total of 283 students, 44% of the attendance, were holders of at least the Bachelor's degree and pursuing graduate work toward an advanced degree. One hundred and six different institutions conferred the degrees held, with the University itself well in the lead. A total of 76 alumni of Maine attended the Session this year.

Courses offered included many departments of the Arts and Sciences College, Education courses, work in Home Economics, and the Pulp and Paper Department of the College of Technology. Thirteen of the Session's teachers were from outside the University's regular faculty, including such prominent educators as Dr. Paul S. Miller, of New Jersey, Dr. Helen K. Mackintosh, of the Bureau of Education, Washington, D. C., Dr. Arthur N. Cook, Chairman of the Department of History of Temple University, Miss Matilda E. Dewes, Supervisor of Art, Bogota, New Jersey, and many others.

Grange Lecturers—

The University was invaded during the summer by the thirty-seventh annual

conference of the New England Grange Lecturers on August 22-26 this year. About eight hundred Grange Lecturers, from all parts of New England, attended the varied and interesting program, centering around the activities and program development of the national Grange. A variety of lectures by leaders in the Grange and other outstanding figures, including former President Dr. Clarence C. Little, head of the Jackson Laboratory for Cancer Research, group activities, recreation and entertainment made up the program.

Future Farmers—

A registration of over 280 members from all parts of the state made up the largest gathering ever recorded at the University for the Future Farmers of America during the three-day program at Orono in June. The young men of high school age, members of the national organization, banded together for the purpose of up-building agriculture, attended a program of speeches, judging contests, banquets and a general good time. Among the leading speakers of the program were President Arthur A. Hauck, who welcomed the prospective agriculturists, William Stiers, of Ohio, national vice president of the organization, and Congressman Ralph O. Brewster, of Dexter.

Agriculture Teachers—

The third annual three-weeks' course for state agriculture teachers was held at the University in August with a total of 42 registered. The course is designed to provide an opportunity for practical

study on recent developments in agricultural education under the direction of faculty members of the University.

Institute—

The third annual meeting of the Junior-Senior High School Institute, sponsored by the Summer Session and the School of Education, was held on the campus July 14 and 15. The attendance was the largest of the institutes to date and a program dealing with aspects of modern progressive education was ably presented by the group of speakers. Chief speakers for the gathering were Dr. Philip W. L. Cox, of New York University, Prof. Hughes Mearns, of New York University, Ervin S. Farrington, of Windsor, Conn., William J. Dow, Art Supervisor for South Portland, Principal Herbert S. Ingraham, of Skowhegan, and John R. Durrell, of Rockland.

4-H—

The quiet summer campus of August was enlivened by the annual State 4-H Club Camp with one hundred seventy boys and girls from all corners of the state convening for five days of contests, instruction, sports, and good times, from August 17 to 21. Separate programs for boys and girls under the direction of extension workers and faculty members of the College of Agriculture provided a varied opportunity for practical instruction. Instruction in principles of First Aid was given during the encampment by Commodore W. E. Longfellow, of the National Red Cross Headquarters, Washington, other instructional activities included courses in keeping farm records, milk testing, poultry breeding and egg grading, food purchasing, home management, and new developments in agriculture.

Wardens—

A four day course on problems of fish and game supervision was conducted for the wardens of the state on June 14 to 18. Arranged in two day units, the program permitted half of the official wardens of the state to attend each unit so that instruction was made available to the entire force without leaving the streams and woods entirely deserted by the guardians of the law.

Subjects covered during the program included lectures on fish parasites, fly fishing, methods of cross-questioning, animal breeding habits, waterfowl identification, and various other phases of the responsibilities resting on the wardens in the care of Maine's great recreational facilities.

(Continued on Page 10)

Gov. Barrows '16 Re-elected

Alumnus Lewis O. Barrows '16 who last June joined his classmates in one of the week-end's best class reunions, was elected by the people of the State to the position of Governor for the second term in September. Opposing as Democratic nominee, alumnus and former Governor Louis J. Brann '98, Governor Barrows' election on the Republican ticket was confirmed by a considerable margin.

Previous to his election to the highest executive office in the State, Governor Barrows had served as Secretary of State and member of the Governor's Council, being re-elected twice to the latter position. A graduate of the University in 1916 with a degree in Pharmacy, a native of Newport, Governor Barrows has always been interested in University activities.

HEN ENGINEER

WHEN Robert F. Thurrell '15 decided in 1922 to go into the poultry business, he began with twelve hens and a lot to learn. The fact that he is today among New Hampshire's leading poultry raisers, hatching one million eggs a year, and is one of the three men largely credited with the successful development of the particular type of red hen known as "New Hampshire"—one of the most conspicuously successful breeding developments in recent years—argues well for his ability to assimilate and apply the teachings of experience. For Mr. Thurrell—"Bob" to most of New Hampshire's poultrymen and a lot of other people besides—received a degree in Electrical Engineering at the University and started out in life as a salesman.

A membership in Tau Beta Pi is not generally conceded to be a passport to success in the poultry business, but Bob Thurrell up on top of the world at Cotton Mountain Farms in Wolfeboro, N. H., has shown how it can be done. His recent election to the Presidency of the New Hampshire Club of America, the organization promoting and developing the particular type of hen in question, indicates his acknowledged leadership in the work. The story of these New Hampshires, "The Business Hen of America" as their slogan reads, is intimately bound up with the story of poultryman Bob Thurrell. Originally called New Hampshire Reds, these particular birds are the result of long and patient breeding efforts toward the goal of producing a utility bird rather than one for show. Another Maine alumnus, the late Professor Alton W. Richardson '06, then professor at the University of New Hampshire, an ardent believer in poultry breeding for business ends, was a prime mover in planning and teaching the principles of breeding for commercial values; regarded as the godfather of the New Hampshire, he gathered about him a small group of the state's forward-looking poultrymen.

Gradually poultrymen all over the country became aware that something was happening of interest in New Hampshire. Up there on the rocky hillside of East Wolfeboro, overlooking beautiful Lake Winnepesaukee, and on other farms and poultry ranches through the state a new hen was laying more eggs at an earlier age, was reaching a hardy maturity in quicker time, and was hatching more healthy chicks from less eggs than showier breeds. Half in mockery, half in a spirit of justified pride, the name New Hampshire Reds came to be applied to them. Then, as orders increased and

profits rose, the mockery and the derision died away, but the name stuck. Today, accorded the national recognition of a listing in the American Standard of Perfection—poultrymen's social register—these New Hampshires have taken their place as a recognized American hen of real economic importance.

POULTRYMAN ROBERT F. THURRELL, '15

Cotton Mountain Farm

When you visit Bob Thurrell you go up, no matter what way you come from. When you get high enough, you pass the pleasant country farm house where he lives with Mrs. Thurrell and their four sons; then you go up some more until finally you reach the main farm. Then you begin to see the New Hampshires, from the egg right through broilers and pullets to hens. A million were hatched there last year; most were shipped away, a few as eggs, a few others for the broiler market, but most of all as live chicks. Electric incubators with a capacity of 100,000 eggs take care of the raw materials supplied by the flock of about seven thousand breeders; the most up-to-date equipment, skilled workmen, and the administrative vision and painstaking attention to detail of Mr. Thurrell himself make Cotton Mountain Farm an ideal of the efficient and successful modern poultry plant.

In addition to the basic breeding and hatching activities of the farm, a large by-line has been built up in supplying the summer demand for dressed poultry.

A well-equipped slaughter house with ample facilities for killing, wax-plucking, and cleaning the birds make it possible to supply a thousand dressed chickens a week during the summer season.

Other Activities

Mr. Thurrell does not confine his activities merely to the management of Cotton Mountain Farm; in addition to being the new president of the New Hampshire Club of America after having served as secretary of that organization since its inception, he is president of the County Farm Bureau, contributes articles to poultry magazines, and is interested and active in civic organizations and in young people's work. His sustained and active interest in the University and the Alumni Association is evidenced by his election last June to membership on the Alumni Council.

Evidences of his leadership, ability, and courage were not lacking in Mr. Thurrell's undergraduate career at Maine. In addition to the necessity of earning his college expenses and his election to Tau Beta Pi, honorary engineering scholastic society, he found time to participate in the musical clubs, join Phi Gamma Delta fraternity, write for the *Campus*, and be elected to the Senior Skull society. The popularity which characterized his undergraduate years, Bob Thurrell has carried over into his business life; his friendliness and good nature must have contributed a good share to the success of Cotton Mountain Farm. There is something else that seems to be deeply a part of Bob Thurrell, an abiding love for the New Hampshire soil where he has made his home. There is a ring of sound pride in his voice as he tells about the farm—one of the few subjects close to himself about which he is willing to talk freely; he will tell about its three hundred and fifty acres and gladly take you across the road over to the brow of Cotton Mountain, "the first summer resort in America" which Governor John Wentworth received from the Crown in 1786 for a summer residence. There he will show you the wide spread panorama of Winnepesaukee and the smaller lakes lying close under the mountain and the miles of surrounding fertile hills, running up into the White Mountains with a dim glimpse of Washington to the north on a clear day. Then Cotton Mountain Farm becomes more than just a hen ranch, it stands for something at the same time more intangible and more permanent, it is the vision and the faith of Bob Thurrell coming to life through the independence, the courage, and the faith of the man himself.

Faculty Changes and Promotions

New appointments, promotions, and changes in the list of faculty members has been announced for the current year by the President's office. Alumni remembering former acquaintances on the teaching staff may find a number of the following names of interest to them. Although few major changes in the administrative staff have been made, the family of "Profs" as usual is a changing one as at every University. The following is a complete list of changes in faculty for the coming year.

Promotions

College of Agriculture: George P. Steinbauer from Assistant Professor to Associate Professor of Botany; Miss Cecilia A. McCarthy from Instructor to Assistant Professor of Home Economics.

College of Arts and Sciences: Edward F. Dow from Associate Professor and Head of the Department of History and Government to Professor and Head of the Department of History and Government; Clarence E. Bennett from Assistant Professor of Physics to Associate Professor of Physics; Spofford H. Kimball from Instructor to Assistant Professor of Mathematics; Howard Runion from Instructor to Assistant Professor of Public Speaking; Louis A. Vigneras from Instructor to Assistant Professor of Romance Languages; Walter R. Whitney from Instructor to Assistant Professor of English; John E. Stewart from Instructor to Assistant Professor of Mathematics; Benjamin R. Speicher from Instructor to Assistant Professor of Zoology.

College of Technology: In recognition of Dean Paul Cloke's services as a teacher at the University, the Trustees voted to have him designated as Professor of Electrical Engineering as well as Dean of the College of Technology and Director of the Technology Experiment Station. Dean Cloke has taught the course in Theory of Electricity. Walter J. Creamer from Associate Professor of Electrical Communication to Professor of Communication Engineering; Carl E. Otto from Assistant Professor to Associate Professor of Chemistry; Kenneth G. Crabtree from Instructor to Assistant Professor of Electrical Engineering.

Agricultural Experiment Station: Joseph A. Chukka from Associate Biologist in Charge to Agronomist in Charge; Delmar M. Fink from Assistant Biologist to Associate Agronomist; John H. Hawkins from Assistant Entomologist to Associate Entomologist; Millard G. Moore from Assistant Chemist and Assistant Bacteriologist to Assistant Chemist and Associate Bacteri-

ologist; Fred B. Chandler from Assistant Biologist in Charge of Blueberry Investigation to Associate Physiologist in Charge of Blueberry Investigations.

Graduate Study: Dr. R. M. Peterson, head of the Department of Romance Languages and Director of the Summer Session, has been appointed Acting Dean of Graduate Study for the academic year 1938-39; Dr. George D. Chase retired from his duties as Dean of Graduate Study on September 1, 1938, after having served as Dean since 1923.

Appointments

College of Agriculture: Miss Bernice Dena Borgman, Instructor in Home Economics, B.S., Iowa State College, 1934, M.S., 1935. Robert William Hess, Instructor in Forestry, B.S., Iowa State, 1934, M.F., Yale, 1936. Calista Berthena Kelley, Instructor in Home Economics, B.S., Vermont, 1927, M.A., St. Lawrence University, 1932. Miss Kelley will replace Mrs. Beulah Wells, who has resigned. Eugene Clarence Meyer, Assistant Professor of Agricultural Engineering, B.S., University of Wisconsin, College of Agriculture, 1932, B.S., from the same Institution, College of Engineering, 1933, M.S., from the same Institution in 1936. Miss Margaret Katherine Nesbitt, Assistant Professor of Home Economics, B.A., Ohio State University, 1930, M.A., 1931. Eugene

REV. ALBION P. BEVERAGE

Rev. Albion Beverage New M C A Secretary

Reverend Albion P. Beverage, a native of North Haven and a graduate from Bates College in the Class of 1936, has taken up his new duties at the University as general secretary of the Maine Christian Association this fall, according to announcement of Professor Pearl Greene, chairman of the Advisory Board. Mr. Beverage will fill the vacancy created by the sudden death of the Reverend Cecil G. Fielder in the summer of 1937.

Mr. Beverage brings to his new work a wide variety of experiences well calculated to qualify him as an undergraduate leader. While at Norwich University, his first undergraduate Alma Mater, and later at Bates College, he was prominent in athletics, especially football and wrestling. For a short time he was engaged professionally in these sports. Last year, while a student at divinity school at Boston, he coached the freshman football team at MIT.

Other activities in which Mr. Beverage has been interested include choral and orchestral music. During the period between his attendance at Norwich and Bates he organized and led a dance orchestra which played throughout New England. While studying at divinity school in Boston he was associated with the Rev. Arthur L. Kinsolving, pastor of Trinity Church, as leader of a young people's group.

While studying at Bates College, Mr. Beverage was employed as pastor of a church at Oxford, Maine, where he enjoyed a very high reputation. Before coming to the University he was engaged as pastor of a church at New Gloucester, Maine, where he enjoyed great success. While engaged at New Gloucester he also carried on studies at divinity school. Mr. Beverage is about thirty years of age, is married, and has three children. His wide variety of experiences has already proven of service to the University as it enabled him to assist freshman football coach Phil Jones in filling the unexpected vacancy caused when Roddy Elliott, star of last year's team, was unable to accept this appointment.

Cecil Ogden, Instructor in Botany, B.S., Michigan State College, 1932, M.S., University of Maine, 1934, A.M., Harvard, 1936, Ph.D., Harvard, 1938. John Brechemin Quinn, Instructor in Forestry, B.S., University of Maine, 1934.

College of Arts and Sciences: Delwin B. Dusenbury, Instructor in Public Speaking, B.A., University of Wisconsin, 1936, M.A., University of Minnesota, 1937. Joseph William Miller, Instructor in Public Speaking, B.A., Cornell University, 1935. Mr. Miller's ap-

(Continued on Page 10)

WITH THE TEAMS

VARSITY FOOTBALL

With the opening of the varsity football pre-season training on September 7, a total of thirty-nine men turned out for practice. Faced with the necessity of picking a practically new team from a squad made up largely of junior varsity and freshman players, Coaches Brice and Kenyon settled down to work immediately to dig out the men who would make up this year's first and second teams.

The nucleus of lettermen with which the Coaches started included seniors Alfred "Red" Mallet, of South Portland, a fullback; Dana Drew, of Patten, and Richard Quigley, of Providence, R. I., as backs; and in the line, center, Kenneth Burr, of Kennebunk, and at guard, Edward Cook, of Rutland, Vt., both juniors. A few others in the squad had also seen occasional service.

From the successful freshman squad of last year good things were hoped for from Roger Stearns, of South Paris, outstanding end, Clarence Genge, of Arlington, Mass., in the guard position and in the backfield, Bob Bennett, of Cranston, R. I., at quarter. Other promising candidates appeared to be Stanley Johnson, of Brunswick, a junior in the tackle position, senior Merwin Marston, of East Waterford, at tackle, Edward Szaniawski, of Scarsdale, N. Y., an end.

Rhode Island 14—Maine 6

Entering the first game of the season against Rhode Island at Orono on September 24 without a single player who started the final game against Bowdoin last year, Maine's varsity football team grudgingly gave in to an experienced and widely praised Rhode Island team, 14-6. The difference in the score was almost entirely the superiority of one man over the Maine team, a certain "Duke" Albruzzi of the Rhody backfield who accounted for both touchdowns after the Rhode Island team had pounced on two Maine fumbles. The fumbles were due in part to the wet ball and in part to the over-eagerness of the Maine team.

For the rest of the game an eager and alert Maine line which made up for its inexperience by plenty of willingness held the Rhode Island team almost entirely in check. Practically all of the gains made were rolled off by the cleats of Mr. Albruzzi. The statistics of the game showed seven first downs for Maine against eight for Rhode Island and 131 yards gained in scrimmage for Maine against 125 for Rhode Island, statistics which speak for themselves.

The first high spot of the game for

- Nov. 3 Junior Varsity at Orono

Maine fans came in the second period when a Rhode Island advance, apparently headed for a touchdown, was checked and turned back on the Maine ten-yard line by an almost new forward wall sent in at the crucial moment by Coach Brice, a forward wall which almost without exception had never played any varsity football before that moment. The real climax of the game, however, for Maine came in the final few minutes of play when, starting from their own five-yard line, the whole Maine team, working as a unit, hit its offensive stride, and started a 95-yard march down the field. The splendid work of Stan Johnson, of Brunswick, at tackle, and Clarence Genge, of Arlington, Mass., and Edward Cook, of Rutland, Vt., at guard, enabled fullback Doc Gerrish, of Lisbon Falls, to pick up 37 yards on the first play, and reach the Rhode Island 45-yard line on the next try. Dana Drew at halfback carried down to the 20-yard line. Then with the final minutes of the game running out, a series of smashes put the ball on the 8-yard line. With seconds left to play, Brice put in a new quarterback, and the play, pulled out of the bag, was a beautiful pass from Dana Drew into the arms of hustling little Roger Stearns, of South Paris, for the touchdown.

Using a total of thirty men during the game and showing a well-assorted variety of plays, Coach Brice fielded a team which appeared to give real promise of things to come during the season.

VARSITY CROSS COUNTRY

With the first six men of last year's successful freshman squad joining the ranks of the varsity cross country group this fall, Coach Chester Jenkins is facing the coming harrier season with a good supply of experienced material to work with. Don Smith, of Easton, a junior,

DON SMITH, '40
Running number one

last year consistent number one man in varsity competition and New England champion, will be the logical contender for first place laurels again this fall.

To replace the gap caused by the graduation of Ralph Clifford, number two man last year, Coach Jenkins is looking toward sophomore Kenneth Blaisdell, of Ellsworth, who led the freshman group. With him come Phil Meserve, of Auburn, and Harold Jordan, of Augusta, and other aspiring sophomores to battle for places in the fall meets. Among the upper class men who have been working out since the opening of school are Floyd Jackson, of Rumford, Henry Hartwell, of Stetson, John Dequine, of Long Beach, N. J., and Ralph Whicher, of Springvale, all juniors, who wore the varsity colors last year.

The season, opening against New Hampshire at Durham on October 8, will present plenty of competition for the squad. A keen struggle is in process among the twenty contenders for this year's laurels, and behind the experienced running of Don Smith, prospects appear excellent for a successful season.

Faculty Changes and Promotions (Continued from Page 8)

pointment is to fill the vacancy caused by leave of absence granted Professor Mark Bailey for the academic year 1938-39. George William Sanderlin, Instructor in English, B.A., American University, 1935, Ph.D., Johns Hopkins University, 1938. Dr. Sanderlin replaces Dr. LeRoy, resigned. Leslie Francis Smith, Assistant Professor of Classics, M.A., Glasgow University, 1936, A.M., Columbia, at Columbia University. Dr. Smith's appointment is to fill the vacancy caused by the retirement of Professor George D. Chase. Manning Hawthorne, Instructor in English, A.B., Bowdoin, 1930, M.A., University of North Carolina, 1937.

College of Technology: William John Nolan, Associate Professor of Chemical Engineering, Ch.E., Rensselaer Polytechnic Institute, 1929, Ph.D., University of Wisconsin, 1935. His appointment is to fill the vacancy caused by the resignation of Hugh D. Chase, Assistant Professor of Civil Engineering.

Military Science: Captain James G. Cooper, Jr., Infantry, recently with the 3d Infantry, Fort Snelling, Minnesota, has been assigned to the R.O.T.C. at the University of Maine to take the place of Major Archie E. Phinney.

Dormitories: Velma Katherine Oliver, Director of South Hall, B.A., University of Maine, 1925, M.A., 1938. She replaces Miss Grace E. Vose, resigned.

School of Education: Dana Maxwell Simmons, Critic Teacher, B.S., Colby College, 1931.

Agricultural Experiment Station: Ronald Eugene Barnes, Graduate Assistant and Co-operative Field Agent, B.S., Maine, 1938.

Leaves of Absence

College of Agriculture: Gregory Baker, Instructor in Forestry, has been granted leave of absence for the academic year 1938-39. He will devote his time to graduate work at Yale University.

College of Arts and Sciences: Frances E. Arnold, Assistant Professor of Romance Languages, has been granted leave of absence for the academic year 1938-39. Stanley R. Ashby, Associate Professor of English, has been granted leave of absence for the spring semester of 1938-39. Mark Bailey, Professor and Head of the Department of Public Speaking, has been granted leave of

absence for the academic year 1938-39 and will pursue graduate work. Ruth Crosby, Assistant Professor of English, has been granted leave of absence for the fall semester of 1938-39. Albert L. Fitch, Professor of Physics, has been granted leave of absence for the academic year 1938-39.

College of Technology: William L. Gilliland, Assistant Professor of Chemistry, has been granted leave of absence for the academic year 1938-39. He will study at Columbia University.

News and Events of the Summer (Continued from Page 6)

Poultrymen—

The eighth annual short course for poultrymen was held on the campus August 15-16 with about 150 of the State's leading poultrymen attending the program of lectures, discussions, and entertainment. Extremely practical in approach, the course was designed to bring to the front current questions in the poultry business.

During the two-day program such questions were discussed as the development of growing pullets, efficiency in operating poultry plants, feeding practices, and other appropriate questions.

The University of Maine Marine Laboratory at Lamoine was the scene of the first alumni summer outing on August 14 this year. Sponsored jointly by the General Alumni Association and the Hancock County alumni, the Sunday outing was designed to be an informal vacation get-together.

A total of about 80 alumni, friends, and families joined in the experiment and proclaimed it a vast success. Swimming, motor boating, horse shoes, soft ball, and a grand opportunity to see the specimens collected at the Marine Laboratory all contributed to the day's enjoyment. A seafood supper, featuring clams and fish chowder, was served.

President Arthur A. Hauck is to be guest of honor and speaker at the annual dinner meeting of the Alumni Teachers Association which is to be held in Bangor Thursday, October 27, at 5:30 p.m. The event is to be held in the First Baptist Church with President Harold H. Inman presiding.

The President and Trustees of the University have recently acknowledged with much appreciation the gift to the University of two pieces of mechanical equipment by Ernest T. Walker '11, president of Walker-Turner Co., of Plainfield, N. J. The equipment consists of a power saw for general use which was presented initially to assist in the construction of the University Cabin Colony, and a drill press for the Mechanical Engineering Department.

Homecoming Program Plans Announced

Alumni Homecoming, annual fall get-together of old and young grads, is being scheduled this year for October 29, date of the Colby-Maine state series football game, according to preliminary plans announced by Professor R. R. Drummond '05, chairman of the committee in charge of arrangements.

Centering around the final home football game of the year as a climax, the Homecoming program will include a variety of events of interest to alumni and alumnae of all classes. Commencing officially at 6:30 Friday evening, October 28, with the final football rally of the year in the Alumni Memorial, the program will include a meeting of the "M" Club for wearers of the varsity letter in the Alumni Memorial.

Saturday, the big day, will commence with an opportunity in the morning for visiting alumni to renew their acquaintances with faculty members and classroom routine as the college buildings will be opened for inspection.

Chief program of the day, however, will be the Alumni Faculty Luncheon at 11:45 in the Memorial Gym. A short but interesting and effective program of speakers is being selected for this event to be announced shortly. Among the guests of honor being invited for the occasion is newly re-elected Governor Lewis O. Barrows '16 whose words on former occasions have been much enjoyed by alumni. President Arthur Hauck, entering his fifth year of leadership, will preside as usual at the luncheon.

One of the high spots of the noon luncheon will be the annual award of the Alumni Service Emblem by Fred D. Knight '09, President of the General Alumni Association, to some alumnus in recognition of outstanding services to the University and the Alumni Association.

Plans are being made to invite, as main guests of honor for the luncheon, alumni, faculty and trustee members, present and past, of the University Athletic Board. In recognition of the untiring, conscientious and constructive services rendered by these men for many years, alumni will rejoice at the opportunity to pay tribute to those in whose hands has rested in large part the guidance of University athletics.

The committee in charge of Homecoming this year is actively engaged in completing the details of the program which will be announced shortly to alumni. Reservations for the luncheon, to be served at a charge of seventy-five cents per person, should be made in advance at the alumni office and the committee urges every alumnus at this time to make plans to return to the old campus on October 28 and 29, for Maine's eighth annual home-

New Dues Member

Newest appointment to the Dues Committee of the Alumni Association is Dwight B. Demeritt '19, professor and head of the department of forestry at the University. Since returning to the campus in 1934 to head the Forestry group

PROF. DWIGHT B. DEMERITT

Professor Demeritt has taken an active leadership in campus and alumni affairs.

Following his graduation from the department of Forestry in 1922, Mr. Demeritt studied at Yale University, being awarded the degree of Master of Forestry from that institution in 1923. Returning to the University in the same year he served three years on the faculty of the Forestry department at Maine.

Appointed in 1928 as associate professor of Forestry for the Pennsylvania State College and in 1931 in the same position at Iowa State College, he has had wide background for his present position.

As new member of the Dues Committee, entering upon a three-year term, Professor Demeritt will contribute to one of the most important responsibilities of the alumni activities. Professor Joseph Murray '25, head of the Zoology department, as chairman, and Earle R. Webster '27, assistant to the general manager of the Bangor Hydro-Electric Co., will with Professor Demeritt make up the personnel of the committee this year.

coming program. The committee in charge this year consists of Professor Robert D. Drummond '05, chairman, Earl F. Bennett '28, Theodore Curtis '23, George Dow '27, Winthrop Libby '32, and Marion Rogers '30, alumni members; Dana Drew '39 and Margaret Hoxie '39, student members.

Freshmen Parents' Day Scheduled October 15

Plans are rapidly materializing for continuing the program of Freshmen-Parents' Day begun last year, according to announcement by the Committee appointed by President Hauck for arranging the program. Tentative plans are placing the event on Saturday, October 15, with a program following in general the outline of last year's arrangements.

The purpose of the Parents' Day is to provide an opportunity for parents of freshman sons and daughters to visit the University during regular sessions to observe the campus life, classroom activities and dormitory facilities, and to make the acquaintance of faculty members. At the same time it offers an opportunity for members of the University to become acquainted with parents of the new students, to discuss mutual problems, and in general to promote a better understanding and closer relationship between the University and the mothers and fathers of students. The program includes an opportunity during the morning to visit classrooms and campus buildings, to observe the freshman football game against Ricker Classical Institute, and to get acquainted generally with the University. At noon luncheon will be arranged for the visitors. High spot of the afternoon program will be the Connecticut State football game followed by a period for inspection of laboratories, museums, art gallery, and other University facilities. At five o'clock an opportunity to meet informally with faculty members will be provided by a social get-together in the Memorial Gymnasium previous to the serving of a buffet supper at five forty-five. Parents, students, and faculty members will take supper together.

Inaugurated last year with remarkable success, the Freshmen-Parents' Day attracted to the campus a total of nearly three hundred parents from one hundred and sixty-nine families, many coming from outside of the state. Comments on the program from both parents and students appeared to indicate the program filled a definite need in freshman relations. The event is sponsored jointly by the University and the General Alumni Association.

Complete details of the program are being arranged by a committee consisting of: Chairman, Charles E. Crossland '17, Percy F. Crane, Mrs. William Schrupf '25, Benjamin C. Kent '12, J. R. Smyth, C. E. Bennett '28, for the University, and Philip Grant '39, Ruth Pagan '39, and Michael Habern '42.

The Editors of the *Alumnus* greatly regret that from the Honor Roll of Dues Payers in the June number the name of Mr. Stanley J. Steward '96, of St. Johnsbury, Vt., was accidentally omitted.

ALUMNI PERSONALS

DEATHS

1881

The death of Oscar L. Pease, of Los Angeles, Calif., occurred on September 7, according to a notice forwarded by his wife to the Alumni Office. A member of the early graduating class of 1881, Mr. Pease received his B.S. degree in Chemistry; in 1927 he was awarded a Law degree from the University of Arizona. Among the many activities of his busy life, he served as Justice of the Peace in Tucson, Arizona, served in an executive capacity on the Los Angeles Evening Express, and managed an insurance business. Following his retirement he lived in Los Angeles. His death occurred in the Veterans' Hospital at Sawtelle, Calif., following an operation.

1883

The death of Frank Edwin Emery, a native of Fairfield, occurred at the home of his daughter at Interlaken, N. J., on June 30. Mr. Emery, one of the oldest alumni of the University, was one of the 14 graduates of the class of 1883. His death occurred at the age of 84.

1886

Charles H. Merriam, of Jackson, Mich., died on April 25, this year. For many years a lawyer of note and elected to the Legislature of the State of Washington in 1913, his career covered a variety of experiences. He was a member of the U. S. Secret Service during the World War and served in the Spanish War.

1896

The sudden death from heart attack of Gardner B. Wilkins at the age of 64 occurred at his home in Honolulu, Hawaii, on April 8 this year. A native of Brownville. Mr. Wilkins received a degree in Mechanical Engineering from the University.

He served for many years as a civil engineer in the 12th Naval District at Pearl Harbor, Honolulu. Active and well known for his profession, he had served as president of the local chapter of the American Association of Engineers, chairman of the Board of registration for professional engineers, and was active in other engineering and fraternal organizations. Previous to his employment at Honolulu, he served in the New York and Philadelphia navy yards. Since his retirement in 1935 he had been engaged in special laboratory work in the Territorial highway department.

E. Everett Gibbs, well-known manufacturer in Baltimore, Md., died at his home on July 15 at the age of 64.

A native of Bridgton, Maine, he graduated from the University in 1896 with a degree in Civil Engineering. Following his graduation he was employed as an engineer on one of the first subways in Boston.

Mr. Gibbs founded the Southern Can Company in Baltimore and successfully managed its activities until it was merged with the Continental Can Company in 1929, with Mr. Gibbs serving as resident manager.

A prominent and successful community business man, Mr. Gibbs was active in a number of commercial and civic activities, a member of the Maryland and Merchants Clubs and the well-known Elkridge Kennels.

1898

Notice has been received at the Alumni Office of the death of Fred E. Burns, of St. Petersburg, Florida, in December, 1936. No details of his passing are known at this time.

1901

The death of Nathan G. Foster, of Rumford, has been reported to the Alumni Office. The date of his decease was January 7, 1935. He is survived by his wife and one daughter.

1904

George E. Clough, of Palmer, Mass., died in March, 1937, according to notice received by the Alumni Office. No details of his death are known at this time.

1906

The sudden death of Frank B. Weick, of Sumner, Washington, occurred in July this year. Victim of a heart attack, Mr. Weick died at his summer home in Silver Creek, Wash. A native of Springfield, Maine, Mr. Weick was a member of the Class of 1906 in the engineering school and was well known as superintendent of terminals and assistant engineer at the Port of Tacoma, with which he had been associated since 1919.

In 1905 Mr. Weick was employed by the Milwaukee Railroad as a civil engineer and has been associated with the engineering development of the middle west and far west since that time. He was a member of the Masons and other fraternal organizations and served from 1931-33 as mayor of the city of Sumner.

Mrs. Sylvia S. Salvas, of Biddeford, died on February 15, 1932, at the age of 44. No details of her passing are known at this time.

1911

George Washington Gifford, of Atlanta, Georgia, a graduate in Electrical Engineering in 1911 died in that city on June 16, 1935. He had been engaged for some time in the insurance business.

1912

The death of Lynne T. Rand, of Hampden, occurred on June 21, 1938, following a period of illness. A graduate in the Civil Engineering course, Mr. Rand was engaged for many years in the investment business. He was a native of Unity and while at the University was prominent in athletics.

Vernal J. Clarke, of Guilford, died on December 1, 1937, in that city.

1913

Report has been received at the Alumni Office of the death of Thomas R. West, of Saco, as the result of an automobile accident.

1926

Roger A. Pendleton, a member of the Class of 1926, died in Milton, Pa., in June this year. He had been employed for some time in Sharon, Pa. He was a native of Isleboro, Maine.

1932

John Emmet Sullivan, a native of Rockland, died at the Brockton Hospital, Brockton, Mass., on August 14, 1937, at the age of 27. His passing was the result of a sudden illness.

1935

The death of Harold O. Larabee, of Schenectady, N. Y., a graduate in Electrical Engineering, occurred in June, 1938,

at the age of 24. A native of Old Town, Mr. Larabee was active during his college career in various student activities. Following his graduation he was employed by the telephone company in Albany, N. Y.

1936

Graham M. Hills, of Rockland, employed by the State Highway Department, died as the result of an automobile accident near Brunswick in June this year. Rushed to the Brunswick Hospital, Mr. Hills died of injuries the following day. He was 24 years of age at the time of his death.

BY CLASSES

1879

Next Reunion, June, 1942

"Clearing for Action on the Upper Mississippi" is the title of an interesting article by W. F. Decker in the June issue of the *Minnesota History*, a quarterly magazine.

1888

Next Reunion, June, 1940

Nathaniel E. Wilson, of Reno, Nevada, was the guest speaker at a weekly luncheon of the Bangor-Brewer Lions Club in June. Mr. Wilson was at the University for his fiftieth reunion this past June.

1893

Next Reunion, June, 1939

The Bangor YMCA re-elected Harry M. Smith as its president.

1898

Next Reunion, June, 1942

Elmer D. Merrill was elected an honorary member of the Royal Dutch Geographical Society at the opening ceremony of the 15th International Geographical Congress in Amsterdam during July.

1902

Next Reunion, June, 1941

Dr. Luther Peck visited the campus this summer for the first time in many years. He is a physician residing in Plymouth, Michigan.

1905

Next Reunion, June, 1941

Prof. and Mrs. Adelbert Wells Sprague, of 217 Union St., Bangor, spent the summer months touring in Europe. Their itinerary included visits to points of interest in France, Switzerland, Italy, Vienna, Holland, and England. Operas, festivals, and symphonic concerts were enjoyed during their tour. Mr. Sprague is director of music at the University.

1906

Next Reunion, June, 1940

Joanna Colcord is the author of "Songs of American Sailormen" which is to be published this fall by W. W. Norton Co., of New York. Miss Colcord is director of the Charity Organization Dept. of the Russell Sage Foundation of New York. She has written many articles relative to her work as well as books and articles about seafaring memories.

1907

Next Reunion, June, 1940

Major Albert W. Stevens, famed stratosphere flier and aerial photographer of the Army, was married August 5 to Ruth E. Fischer, of Dayton, Ohio. They will reside in Dayton where Major Stevens is stationed.

Deane W. Rollins, Dexter, superintendent of schools in that district, and president of the Maine Superintendents of Schools Assn., presided at the thirtieth annual conference at Castine in August.

1908

Next Reunion, June, 1940

J. P. Farnsworth, of Boston, Mass., was elected Grand Master of IOOF of Massachusetts recently. Mr. Farnsworth lives at 753 Market St., Rockland, Mass.

The February, 1938, issue of "Peabody Law Review" contained "The Trial of Ebenezer Ball" written by Raymond Fellows.

1911

Next Reunion, June, 1941

R. R. Day is General Director for the J. G. White Engineering Corp. at Port-au-Prince, Haiti. Mr. Day formerly was located in New York City.

Nelson N. Scales is part owner of the New Kineo View Hotel, which formerly was known as the Friant estate, at Rockwood.

1913

Next Reunion, June, 1943

Andrew J. Beck, of Washburn, resigned recently from his position as manager of the Presque Isle Office of the American Fruit Growers, Inc. His office where he will continue his duties as president of the Washburn Trust Co., president of the Maine Potato Growers and Shippers, Inc., and president of the Aroostook County Council, will be in the Washburn Trust Co. Bldg.

1914

Next Reunion, June, 1941

Arthur G. Eaton, formerly of St. Paul, Minn., has moved to Bangor where he is general agent for the State Mutual Life Ins. Co. His office is in the Eastern Trust Bldg. 6 State St., Bangor. His residence is at 23 James St.

Mrs. A. L. Kavanagh (Mary Leonard) was elected first vice president of the Lewiston-Auburn Red Cross chapter at its annual meeting in June.

Arthur W. Patterson, law graduate, was the author of an article, "Some Phases of Probate Law in Maine," published in the February issue of "Peabody Law Review." Judge Patterson lives in Castine.

1920

Next Reunion, June, 1942

Mrs. Priscilla Elliott Knowlton was re-elected commissioner of the Bangor Girl Scout Council at its annual meeting in June.

1921

Next Reunion, June, 1941

William H. Jenkins, of Fort Fairfield, led a table discussion during the Junior-Senior High School Institute held during the summer at the University.

1922

Next Reunion, June, 1941

An article entitled "Job Test for Aptitudes," by Stephen A. Griffin, appeared in the June, 1938, number of the *Journal of Education*. This was the third article by Mr. Griffin to appear in educational magazines during the past year.

1923

Next Reunion, June, 1941

The editors take this opportunity to express their very deep appreciation for the work done last year by Miss Elizabeth Ring in writing the 1923 Class Personals. It is very much regretted that Miss Ring will not be able to continue her writing for the class this year. We hope to have a new secretary on the job before the next issue.

Miss Vera McEacharn, of Machias, became the bride of Roland Plummer, of Harrington, on July 14. Miss McEacharn has been employed by the Bangor

Hydro-Electric Co. in their divisional store in Machias, while Roland Plummer is postmaster in Harrington. They will reside in Harrington.

E. O. Judkins, superintendent of schools in the Wytopitlock school union, received his Master's degree in Education from Bates College in June. He has taught school in Maine, Vermont, New Hampshire, and Connecticut, and is now serving his fourth year as head of the Wytopitlock union.

1925

Next Reunion, June, 1940

Harland Ladd, Supt. of Schools for the Milo district, received his M.A. from Columbia University last June.

Doris Dow Ladd is acting as Home Demonstration Agent in Oxford County with headquarters at South Paris for the month of September.

Benjamin English was married August 6th to Miss Ruth James at Waltham, Massachusetts.

Surely the summer must have caught some of you traveling, hither and yon, and having reunion with some of the 25ers. Please let us know about it.

At one of the summer assemblies Dr. Mary Pauline Aiken, of Sorrento, spoke on "The Spirit of China." For two years Pauline was an instructor at Lingnan University, Canton, China, and was there during the first Japanese air raids. She is now making her home in Sorrento.

During June, Ruth Leman Grady was named temporary Home Demonstration Agent in Hancock County. Ruth's home address is Palermo, Maine.

"Red" Fields stopped in at the office to see Danny this summer. He is with the New England Power Company located at North Adams, Mass. He and May (Kirk) have a son, Arthur Kirk, born Jan. 6th.

Noticed in the paper where Dr. and Mrs. Cecil G. Garland (Blandena Couillard) had purchased a summer home in Winterport. They are living in Charleston, N. C., where Dr. Garland is professor of Economics at "The Citadel."

Mr. and Mrs. Charles Gero (Marion Farrington) called on us this summer with their two children, Charles and Dorothy. They are living at 21 Amity Street, Cohoes, New York.

Dr. Elizabeth Sawyer spent several weeks in Bangor this summer. Try as I will I can't associate "Lib" with a PhD—she hasn't a single ear-mark. She is now a professor of biology at Converse College, Spartansburg, S. C.

And just the other day I saw Fran Sawyer Worcester in what seems to be our unplanned but guaranteed shopping get-together. Fran is still dividing her time between Bangor and Jonesport.

Next Reunion, June, 1940

Dear Classmates,

Elizabeth "Betty" Collins is head of the typing department of the Maine School of Commerce in Bangor. Betty recently returned from New York City where she completed work for her Master's degree in commercial education at Columbia University.

A. L. T. Cummings (honorary) who was chosen to play the part of "Justin" in the first presentation of the "Old Peabody Pew" in 1916, and has continued

year after year in the same part, was again chosen this year.

Helen Benner has returned to her duties as teacher in Winslow High School.

Thelma Perkins Dudley is chairman of the program committee for the Portland Junior League Follies to be presented in October.

Charles P. Stone is manager of G. H. Stone & Sons of Fort Fairfield, who have recently purchased the starch factories of Charles S. Osborne.

Allen W. "Griz" Goodspeed has resigned his position at the University of Maine, as associate professor of forestry, to accept a better position on the faculty of the State College of Agriculture and Mechanic Arts in Ames, Iowa. "Griz," Mrs. Goodspeed, and their daughter, Jean, recently left Orono for their new home in Ames.

Harry S. Newell, of Auburn, until recently baseball, basketball, and football coach at Edward Little High School, has left the coaching field to become associated with Cal-O-Maine Automatic Sprinkler, Inc., of Lewiston, in a sales and merchandising capacity.

Andre "Bud" Cushing, of Bangor, won the contested nomination for the office of County Treasurer for Penobscot County and was elected to that office in the recent elections.

Hope Craig Wixson sent me one of the most interesting and "newsy" letters this summer. I certainly appreciate them too. Here are some of the highlights of her letter:

"Ginna" Smith Lamb was County Club Agent for six weeks in Kennebec County this summer. She and Hope went to the Dairy Herd Improvement Field Day at Highmoor Farm and there were eight '28-ers among those present. By the way, "Ginna" and "Norty" have recently purchased a home in Falmouth.

Kenneth C. Lovejoy is State 4-H Club Agent with headquarters at the University.

Russell "Bill" Bailey lives at Highmoor Farm summers. This summer he was working on cucumber scab—trying to find resistant varieties. He is married and has a son and two daughters.

Russell "Buck" Foster is living on a dairy farm in Augusta. "Buck" is married and has two sons.

Lloyd "Bozo" Boynton is married and is farming in Vassalboro.

Harry Grant, I believe, is still a teacher of agriculture at East Corinth Academy.

At present "Wix" (Eldwin Wixson) is Farm Security Administrator for Piscataquis and Somerset Counties with an office in Pittsfield. Wix and Hope have two children—a son, 6, and a daughter, 4.

Neil Bishop is located in Bowdoinham where he raises Jersey cows.

Jesse Lawrence, home demonstration agent in Aroostook County, attended summer school at Cornell this summer, I believe.

Howard Norton is with the New Jersey Bell Telephone Co. and is located at 172 Linden Ave., Verona, N. J.

1929

Next Reunion, June, 1939

Dear Classmates,

Our first bit of news for the fall season concerns the acquiring of advance degrees. Ralph L. Phillips received his M.A. from Brown University Graduate School this past June and Edna White received her Master's in Spanish.

John Lynch has been promoted to the rank of captain in the 386th Infantry organized reserve.

In the field of politics we find George Mahoney. He is treasurer of the Maine Young Republicans and was present at the recent convention in Portland.

Lawrence Rosen is estate accountant with the Central Hanover Trust and Banking Co., New York City. He is living at 101 Lafayette Ave., Brooklyn, N. Y.

W. J. Strout is assistant engineer in the Chief Engineer's office of the Bangor and Aroostook R. R. and he is living in Houlton.

Mr. and Mrs. James Booker (Kay Buck) have a son, James Buck Booker. Kay also has two daughters, Mary Ann and Margaret. Her home is at 329 Hillside Ave., Nutley, N. J.

On August 28 Jessie Ashworth became Mrs. Eugene H. Miller. Mr. Miller is a graduate of Ursinus College and is now a member of the Ursinus faculty. They will live in Collegeville, Pa.

Lucille Spencer was married on August 14 to Mr. Elvidge F. Cleveland. The groom is a graduate of the University of Vermont and is a sales agent for the National Cash Register Co. They are living at 204 Seventh St., Bangor.

Please send me some news. If you are too modest to write about yourself, you might at least write about your friends.

Marian Hawkes
11 Linnaean St.
Cambridge, Mass.

1930

Next Reunion, June, 1939

Richard S. "Dick" Bradford, manager of the Orono Branch of the Merrill Trust Company, attended the Graduate School of Banking at Rutgers University this summer, where six hundred bank officers from all over the country were enrolled. The Graduate School is an advanced school sponsored by the American Bankers' Association.

Pauline Dunn took a library science course at Columbia this summer, in preparation for becoming librarian at Bangor High School.

Charles M. "Jerry" Getchell has a Master of Arts degree in English. His thesis was entitled *An Introduction to the Elizabethan Conception of Tragedy*.

The wedding of Miss Dorothy F. Sullivan of Arlington Street, Portland, to Elmer R. Higgins was solemnized Tuesday morning, June 21st, in St. Joseph's Church, Portland. Mrs. Higgins was graduated from Bates College and is employed by the Maine Casualty Company. "Bud" is employed by the Postal Telegraph Company. They are residing at 65 Sherman Street.

The marriage of Miss Helen Evelyn Johnson and Dr. Donald Forbes Marshall '31 in April, 1937, was announced this June by Mrs. Marshall's parents of Bar Harbor. Helen was graduated from the Child Education Foundation in New York, became its assistant dean, and taught in the Children's Day School. "Don" is a graduate of Yale Medical School and is assistant resident surgeon in the Strong Memorial Hospital, Rochester, N. Y., where they are now residing. Helen will teach this year at the Columbia School for Girls in Rochester.

Dr. and Mrs. Alfred L. Leech (Polly Hall) have a young daughter, Constance, born on June 20th in Cooperstown, N. Y.

Myron C. Lucas is employed by the N. Y. Tel. Co. in New York City, and is living at 47-24 39th Street, Long Island City.

Miss Mildred Glines, of Bangor, be-

came the wife of Albert J. Modery at Franklin, N. H., on July 29th. The ceremony was performed at the Methodist Church parsonage by the Rev. Charles W. Kelley. Mr. Modery is employed as soil engineer in the United States Army and is stationed at Las Animas, Colorado, where they are now residing.

Maxwell K. Murphy is Patent Counsel for the Chrysler Corp. of Detroit. He assumed his new duties the first of September, and is living at 381 Covington Drive, Apt. 401, Detroit.

Merrill High School in Smyrna Mills has maintained high standards for the past two years under the guidance of Principal Edward W. Tolman. The school retained its place on the list of approved schools by the New England College Entrance Certificate Board. Only one other school in the Katahdin Valley League is on this list.

Miss Helen Douglas Sargent, of South Brewer, became the bride of Milton Le-

1931

Next Reunion, June, 1939

Dear Classmates,

Another year starting, so here goes on the news. Weddings and new school appointments seem to fill our minds at this season.

On June 29 Steven Mank and Miss Violet L. Totten, of Brunswick, were married at the bride's home. Miss Totten is a graduate of Brunswick High, class of 1933. Steve is with the Central Maine Power Co. and they're living at 96 Western Ave., Augusta.

Our next class wedding occurred July 30 at the Catholic rectory in Orono when Virginia Kirk became the bride of Vance Springer. Mrs. Springer is a graduate of Orono High and Vance is now Junior Interviewer for the State Employment Service in Biddeford.

Hazel Sawyer was married August 17 to Victor E. Everett, of Norway. Hazel's been a busy lady since graduation; for in addition to working in the law offices of Verrill, Hale, Dana and Walker here in Portland, she is province president of "Pi Phi" and past president of their state alumnae association.

"Charlie" Chaplin has been elected principal of the Junior-Senior High School at Washburn. This is a transfer from Bingham where he and Mrs. Chaplin and their young son, Richard Clinton, have been this past year.

Darius Joy, principal of Addison High, was elected secretary-treasurer of the Maine Association of Vocational Agricultural Teachers at a session held at the University during the summer.

Mr. and Mrs. Clifton E. Curtis, of Bangor, are announcing the birth of a son, Philip Bruce, on June 14, 1938. I'm hoping we can have a baby reunion at class reunion time and show off all our future "Mainiacs."

In a booklet entitled "Marine Square Club Inc.," I found this entry concerning George Farnsworth. "Brother Capt. H. Ed Henrici of the S. S. Socony-Vacuum and Chief Engineer George Farnsworth have returned from a cruise to California. While out there they showed the native sons some speed. Beat the S. S. Yale's time between San Francisco and San Pedro.

Mary C. Stiles

Portland

1932

Next Reunion, June, 1939

Dear Classmates:

Several weddings for 1932 took place

Dealers for
Ford-Lincoln-Lincoln Zephyr
WEBBER MOTOR CO.
Bangor, Maine
PARKER FROST '35, Salesman

RICE AND MILLER CO.
Hardware and
Sporting Goods
117 Years on Broad Street
Bangor

this summer. In June Helen B. Hayes, of Presque Isle, married Harold E. Bryant. Mrs. Bryant is a graduate of Presque Isle High School and Aroostook State Normal School and has been employed as critic teacher in the A.S.N.S. training department in Presque Isle. Harold is manager of the Maine Potato Growers Inc. They are living on Third Street in Presque Isle. Vaughn Cogswell was the best man at the wedding. Vaughn Cogswell himself was married to Charlotte Parker, of Auburn, in August. Mrs. Cogswell is a graduate of Edward Little High School, Auburn. Vaughn is employed as secretary-treasurer of the Auburn Production Credit Association.

Clarine Coffin became the bride of Rev. Jack Grenfell in June. Louise Beaulieu and Merrita Dunn of Maine attended the ceremony. Mr. Grenfell, of Cornwall, England, graduated from Hartford High School, Conn. He did undergraduate work at Trinity College and Gordon College, Boston, receiving a B.Ph. degree at the latter. He received his B.D. degree from Hartford Theological Seminary and for the past three years has held a pastorate at the Bridgeport Trinity Methodist Episcopal Church. Recently Rev. Grenfell was assigned to a new post in New Milford. Their address is 18 Elm Street, New Milford, Conn. Clarine received her B.D. degree from the Hartford Theological Seminary in June.

Katherine Mead was a summer bride. Her marriage to Edward R. Herrick took place in June at Bangor. Edward Herrick is a Maine graduate of 1930. He is associated now with the Maine Seaboard Paper Co. in Bucksport, Me.

From Newcastle-on-Tyne, England, we received the announcement of the marriage of Erica Bauer, of Zermatt, Switzerland, to Wheeler Merriam. Miss Bauer is a graduate of Zurich Univ. Wheeler plans to bring his bride to Boston in September.

The wedding of Miss Katherine A. Eyre, of Yarmouth, Nova Scotia, to Stanley G. Hayter took place this summer. Mrs. Hayter was a private secretary in the employ of the New York Telephone Co. Stan is employed by the International Business Machine Corp in N. Y. City.

Two new babies arrived to 1932 parents this summer—a daughter to Paul and Katherine (Whitcomb) Butler, and a daughter, Harriette, to Mr. and Mrs. Delbert (Harriet Cross) Henninger. The Henningers live at 34-47 90th St., Jackson Heights, Long Island, N. Y. The Butlers live in Portland, Me.

Dorothy Baker visited Bermuda this summer and stayed with friends in Hamilton.

Pauline I. McCready is to attend the New York School of Social Work this winter. At present she is living and working at the International Institute, 341 E 17th St, New York City. She would like to hear from "Mainiacs" in the big metropolis.

Dr. Don Scott has accepted a position as director of instruction and research in public schools in Davenport, Iowa. Formerly Don acted in a similar capacity in St. Joseph, Mo.

Dr. J. Robert Feeley has been appointed resident physician at the Eastern Maine General Hospital. He interned at the Somerville Hospital, was assistant physician at the Norfolk Prison Colony, and completed two years of surgery at Boston city hospital in July.

Last May Leon Savage revisited the University of Maine as speaker on paper mills. Leon is employed by Hollings-

worth and Whitney in Waterville, Me.

P.S. Your secretary had a very pleasant but short call from Milton (Mink) Kent and his wife and small daughter this early summer. "Mink" is still with General Electric Co. in Schenectady.

Helen Hincks
28 Bartlett Street
Malden, Mass.

1933

Next Reunion, June, 1943

Ever since I heard that I would have to write up the "Winchell Column" for the next few years, I have been biting my nails. However, my fond classmates present at our last reunion promised very solemnly to help me out. So far the co-operation has been fairly good but it could be better. Any little "tid-bits" will be gratefully accepted from you all—so get going, please.

I've got a lot of "Cupid Announcements" to get out of the way, so here goes:

Charles E. Wakefield was married to Miss Catherine Pennell, of Whitneyville, last June. The bride is a graduate of Machias High School and has been teaching in Whitneyville for the past three years. Charles is principal of Grand Lake Stream High School. Mr. and Mrs. Wakefield are making their home in Cherryfield.

The engagement of "Ev" Gleason to Mr. Charles Bartlett Rawson was recently announced. Mr. Rawson is a graduate of the Hill School, Pottstown, Pa., and from Princeton University, where he was a member of Cloister. He is a first lieutenant in the Reserve Officers Training Corp, and is associated with the Chilton Publishing Company in Philadelphia. Evelyn has been the educational director of Lucky Platt & Co. in Poughkeepsie, N. Y.

The marriage of Gertrude Dorr to Mr. Merton Eugene Cleveland '34 took place in Bangor last June. Gertrude, since her graduation, has been manager of the System Company store in Machias. Merton is associated with the Utterback Gleason Company. The young couple are living at 196 Elm St., Bangor.

Ernestine Merrill was married to Dr. James F. Whitten '32 (Jimmie Whitten to you) of Amesbury, Mass., at Sleepy Hollow Church, Tarrytown, N. Y., on July 1. Ernestine and Jimmie are making their home at 63 Prospect St., Amesbury, Mass., where Dr. Whitten has entered a partnership with Dr. C. R. Hines, well-known physician and surgeon of Amesbury and Newburyport.

The engagement of Barbara Lovejoy Ward, of Old Town, to Gregg Clarke McLeod, of Stillwater, was announced in June. Barbara is employed as a stenographer at the University. Gregg is employed in the mechanical department of the Bangor & Aroostook R. R. Company at Derby. The wedding will take place this fall.

Edith Bolan, of Winterport, and Dr. E. C. Odgen were united in marriage last July. Edith, for the past four years, has been a teacher of biology and coach of the debating team at Caribou High School. Dr. Odgen is a graduate of Michigan State College, Lansing. He received his M.A. degree at the University of Maine in 1934 and this past June finished his Ph.D. degree in biology at Harvard University.

Lauris P. MacGown took as his bride, August 7, Miss Evelyn Frances Friend. Mrs. MacGown was graduated from Bangor H. S. and Gilman Commercial School. Lauris is connected with the Bangor store of Sears-Roebuck Company in the radio

department. They are making their home in Bangor.

William Holman Doane, of Portland, was married to Miss Kathryn Noel Griffith of "Retirement Farms," Laytonville, Montgomery County, Maryland, last May 14. Mrs. Doane is a graduate of the Union Memorial Hospital of Baltimore in the class of 1932. Mr. and Mrs. Doane are residing at 2905 N. Charles St., Baltimore, Maryland.

Miss Victoria Louise Hamilton, of Pittsfield, became the bride, on Sept. 3, of Albert McMichael. Alfred acted as his brother's best man. Mrs. McMichael was graduated from M.C.I. and the Maine School of Commerce at Bangor. Albert is in the insurance business in Pittsfield. They are making their home on Morrill Street, Pittsfield.

Grace Quarrington became the bride of Raymond H. Corey, of Cumberland Center, on June 29 at her home in Portland. Mr. Corey graduated from Greely Institute and Gorham Normal School in 1933. He is now printing instructor at South Portland High School. They are making their home on Grand Avenue, South Portland.

Forrest K. Moors was named Recorder of the Old Town Municipal Court by Gov. Lewis O. Barrows last May. Forrest was previously employed at the Penobscot Chemical Fibre Company plant in Great Works as a chemist.

May Roy will be on the teaching staff at Bangor High School this fall. May has been appointed to fill the vacancy in the French department.

Charles E. Page has been named president of the Bangor Teachers' Club.

If I have forgotten any news that might have been told to me last June at the reunion, please have patience with me and jot it all down on a little card so that I may have it here by the twelfth of this month. The only news that I can think of right now is that my nephew has two teeth!

Dorothy Findley
28 Sheffield St
Portland, Me.

1934

Next Reunion, June, 1943

My interpretation of the "eternal triangle" is night duty, babies and *Alumnus* column—they invariably come together, so if things don't make sense and news is dull, blame it on the combination of the hour, 2 a.m., my hungry babies, and poor power of concentration.

Rodney Coffin married Miss Marjorie Huse on July 20. Miss Huse has been teaching in North Haven High School for several years. Rodney has been teaching in Higgins Classical Institute. They are now living in Charleston.

Robert Hodgkins married Miss Margaret McCrae Young, R.N., on June 5 in Bar Harbor. Miss Young graduated from St. Luke's Hospital in 1933 and has taken special courses at Polyclinic Hospital, N. Y. U., and Columbia. Bob is specializing in radio.

On June 25 Orissa Frost and Emmons Kingsbury were married in Dexter. Orissa has been head of the English department at Winthrop High School. Emmons is connected with the Nature Footwear Co. in Brewer. They are living in Bangor.

Thaxter Small married Miss Lucille Wisenbaker in Georgia way back on Easter Sunday but it takes news a long time to get from Georgia to Maine. Thaxter holds a responsible position with the American Cyanamid Co. at Valdosta, Georgia.

Aldo Bartlett married Marian Romano

of Portland, on July 12. Miss Romano is widely known in Portland musical circles. Aldo is at present employed by Robinson and Steinman, working on the Deer Isle-Sedgwick bridge.

John Tompkins was married to Kathleen Brew, of Endicott, N. Y., on July 5. Mrs. Tompkins was employed by the Endicott-Johnson Corp. before her marriage. John is associated with the International Business Machine Corp. in Boston.

Boyd Stratton was married August 8 to Miss Gwendolyn Fish, of Belfast. Miss Fish graduated from Farmington Normal School in 1935 and has been teaching since then. She is also an active member of the B & P Women's Club. Boyd has recently left the position of supervisor of the Resettlement Dept. of the Rehabilitation Administration. He has now gone into the business of raising poultry in Hancock.

Lucille Simpson and Diggy Marcionette were married July 3 in Bucksport. Ruth Grunwald, formerly of the class of 1934, was one of the bridesmaids. Diggy is associated with the Stanhope Bindery in Boston. They are living at Wellesley Farms, Mass.

Our Hall of Fame has, as one of its outstanding members, Marion Martin, who is assistant chairman of the G.O.P. National Committee and director of its women's division. Miss Martin was presented an honorary degree at Bates College at their June Commencement.

Hazel Feero received her Master of Arts degree in Education from Maine at Commencement in June.

Larry Tompkins is now located in Presque Isle as fieldman in Aroostook County for the Eastern States Farmers' Exchange of Springfield, Mass.

Red Osgood was business manager of the Fort Fairfield A. A. baseball team this summer.

The younger generation has a new member—Nancy Winslow Bradford was born to Mr. and Mrs. Robert Bradford.

Still going together and seen dancing at the Totem Pole—Johnny Wright and girl, Franny Knight and Freeman Webb, and your commentator and Bob Russ. I haven't had time to go sleuthing for more.

I will be at Children's Hospital in Boston from October 15 to January 15 and always glad to see you.

"Peanut" Bunker
220 Fisher Ave.
Roxbury, Mass.

1935

Next Reunion, June, 1943

Hello, Everyone,

Dixie Copeland was married on June 18 to Arthur George Miller, in Arlington, Mass. Dixie didn't include any of the details, but maybe, as Mrs. Arthur Miller, Dix will break down and write to me. Lots of luck, Dixie.

In May, Wendall Smart was married in Bangor to Miss Geneva Muriel Hartley. Mrs. Smart was graduated from Bangor High School and Gilman's Commercial College, and has been employed by the R. B. Dunning Co. Wendall is now employed as a deputy sheriff in Bangor, where they are going to live. Our very best to you both.

Phil Pendell, our class reporter, and now on the staff of the Bangor Daily News, and located in Presque Isle at present, was married on June 2 in Eastport to Miss Mary E. Wilson, of Eastport. Mrs. Pendell was graduated from Eastport High School and the Holy Rosary Commercial School in St. Stephen, N. B., and has been employed in the city offices at Eastport. Phil as you

know, was for a time with the Eastport Sentinel, and the Bangor Daily Commercial before he became Aroostook County news editor. Phil and Mrs. Pendell are at home at 187½ State St., Presque Isle. Congratulations, Phil!

And the best of luck to Phil Ryan and Eileen Burke who were married in St. Mary's Church in Bangor in July. Mrs. Ryan was graduated from John Baptist High School and Beal's Business College, and has been employed by the New England Telephone and Telegraph Co. Phil is now an interviewer for the Maine State Employment Service, and he and Mrs. Ryan will live in Rumford.

And now for additions to the illustrious class of 1935. On June 6, 1938, a son, David Mason, was born to Mr. and Mrs. George Carlisle. George and Mrs. Carlisle as you know are living now at 54 Norfolk St., Bangor. George is a forester with Prentiss & Carlisle Co., 12 Hammond St.

On August 20, 1938, Kay Kimball was born to Mr. and Mrs. Kenneth Jordan Kimball. For all the '35-ers—congratulations!

It would be interesting to have a list of all our classmates who have been married, engaged, or become dads and mothers, so if you all will drop a line before October 15, I'll have a list for you in the next edition. Tell me about everyone you can think of—any bit of news, and we'll have it on record.

To Dick Mansur and Dick Stoddard go the honors for engagements. Dick Mansur is engaged to Norma L. Additon, of West Poland. Miss Additon, a graduate of Monmouth Academy and of Bliss Business College of Lewiston, is now employed at the State Bureau of Health at Augusta. Dick is now associated with the Drainless Sewage System. Dick Stoddard's engagement to Virginia Frances Leach has been announced. Miss Leach was graduated from Rockland High School in 1935 and from Ballard Business School and she is now employed in a law office in Rockland.

From far and near, harbingers report that Dick Wooster received an M.A. degree from Columbia in June. Joel Marsh is now a Master of Science in Wildlife Conservation, and is responsible for the publication, "A Limnological Study of Anasagunticook Lake in Oxford County, Maine, in Relation to the Game Fish Population."

Warren Flagg is now representing the Brown & Williamson Tobacco Co., and is living at 100 Puueo Ave., Hilo, Hawaii. I think Warren's avocation is photography, because he has sent some beautiful snapshots of Hawaii that I only wish I could forward for publication in *The Alumnus*.

Charlotte LaChance MacManamy and Gene are all settled in Rochester, Minn., very near the Mayo clinic. They love Minnesota, but they can't forget Maine.

I'll be waiting to hear from you all, and hoping that for each one of you good fortune is at least rounding the corner!

Agnes Crowley
59 Western Ave.
Biddeford

1936

Next Reunion, June, 1942

Dear Classmates,

Ginny Nelson Sturgis and hubby Fred announced the birth of a daughter, Diane, June 18, and Dot and Vernon Packard (Dot Nutt) a daughter, Joan, at about that same time. I've been waiting all summer to write about that and you've probably all heard it by this time.

Bill Jones and Freddie Beal also have had additions to their families, but I don't

know the sex of these two infants. You papas had better be more explicit.

James Norwood was married to Phyllis Bailey December 24, 1937. Mrs. Norwood was graduated from Washington State Normal in the class of '36 and has taught at Ellsworth Falls for the past year. Jim is teaching at Southwest Harbor.

Another wedding is that of Anora Peavey to Clarence Fuller, which took place August 4, 1938. Mr. Fuller was graduated from the Bangor Theological Seminary and will continue his studies at Amherst in the fall. He has the pastorate of the Haydenville Congregational Church.

David Russell was married July 2 to Myrtle Alexander, of St. Stephen, N. B. They will make their home in Newport, where Dave is a bacteriologist.

And still the summer marriages go on with that of Freddy Mills and Phyllis Sharpe, of Guilford, next in order. Mrs. Mills graduated from Guilford High School in the class of 1930 and since has been employed by the Hardwood Products Co. Freddy has a position with the A. S. Prince Furniture Co. in Camden.

Betty Jordan and Norton Keene were married July 3. Beth Gifford Look was a bridesmaid and Malcolm Tilton, best man. Edward Jordan '33 and Glen Torrey were ushers. Barbara Sanborn (whom we haven't heard from in ages) was in charge of the gifts. Betty and Norton are residing in Easton where Norton is teaching agriculture.

And the final marriage (which I've heard about) is that of Hall Ramirez to Charlotte Miller '37. I haven't the details on this one as I "only heard," but we all would like to know where you two are living and what you're doing.

I seem to be going backwards as I have engagements coming up now—you'll excuse it, I hope.

Bill Brook's engagement to Mabel Irene Harris was announced July 30. Miss Harris graduated from Cony High School and is now employed in the State Highway Dept. I believe Bill is also with the State Highway Dept in Augusta.

The engineers are in again with Ken Chute's engagement. He brought her over to see us one afternoon and (hope you don't take a ride for that, Ken) merely introduced her as Virginia, so I can't tell you her last name. Anyway, she's a peach.

John Adams is engaged to Priscilla Stowell, of Dixfield. Miss Stowell was graduated from Simmons College in 1936 and since that time has been employed as a secretary at Bowdoin College. John is an Aviation Cadet and is stationed at Norfolk, Va.

Lyn Keller and Adolphine Vogelin surprised us all at the banquet table at reunion time by showing us the engagement ring. It was, however, a very pleasant surprise.

Kay Hootor, who is teaching at the Madawaska Training School in Fort Kent, is now president of the Fort Kent Business and Professional Women's Club.

Sarah Pike received her M.S. in Education at Maine this past year.

Others who received degrees are John Arno, an M.S. in Agronomy; Dean Bailey, an M.S. in Biology; and Alton Prince, an M.S. in Botany.

Rena Allen, who has been teaching at Anson, will head the first domestic science course at Hartland.

Helen Buker is employed as Occupational Therapist at a sanatorium in Concord, N. H.

Helen Libby Philbrook Ingraham, who

spent the summer at Poland Springs, and I had a grand bull session one morning from 8:00 to 12:00. You can imagine!

Until then!

Phyllis H. Webster
62 Gillander Avenue
Auburn, Maine

1937

Next Reunion, June, 1939

Dear Classmates:

Mabelle Ashworth and Roger Smith were married at the Universalist Church in Orono on August 7. I've just called on them in Presque Isle where they're living.

Kay Bunker and Dick Barry chose July 8 for their wedding day. It certainly must have been a beautiful one according to the description. It took place in Calais at the First Congregational Church. Carolyn Brown was one of Kay's bridesmaids. Dick was with the F. S. Payne & Co. in Boston, but has recently gone into business for himself. Their address is 30 Hancock St., Malden, Mass. Congratulations.

On June 15, Avery Rich became married to Erma Littlefield, of Enfield. She was a graduate of the Maine School of Commerce and is now employed at the U. of M. Library. As you probably remember, Avery is doing research work at the Maine Agricultural Experiment Station.

Ruby Black and Roddy Elliott were married on Sept. 2 in Woodfords and a lovely wedding it was from everything I've heard. I'm not sure where they are living but I know everyone would like to congratulate them.

Nolan Jackson is engaged to Doris Hunt, of Norway. She is a teacher at the North Waterford Grammar School. Nolan is associated with his father in the E. B. Jackson Co. at Norway. Best wishes to you folks.

Another engagement is that of Jim O'Connor to Helen Kelly, of Augusta. She graduated from Colby in 1936. Are you folks planning to go to the Colby-Maine games? And which cheering section are you planning to sit in? We all wish you the best of luck.

Louise Calderwood and Joe Cyr have also added to our list of engagements. No date has been set for their wedding.

Gertrude Titcomb is engaged to Elmer A. Fortier, Jr., of Dexter. This presents another case of friendly rivalry as he graduated from Bowdoin in 1936. As yet they haven't decided on a date for their wedding.

Beatrice Jones' and Junius Birchard's '36 engagement was announced in July. He is now employed by the U. S. Steel Products Corp. in New York City. I believe they haven't set a date for their wedding yet. Best wishes.

Marion Larsen is to be dean of girls and teacher of English at South Paris High School.

Louise Hastings has been elected head of the English department at Hartland Academy in Hartland. She also will have direct charge of dramatics and will coach debating.

Gayland Folley has been awarded his Master of Science in Horticulture on the subject of "An Investigation of the Nutritional Symptoms in the Carnation."

Also, Arthur Webb has now a Master of Science degree in Education. His thesis is "An Analysis of Arithmetic Abilities and Disabilities of Pupils in Maine Secondary Schools." We congratulate both of you.

Evelyn Boynton is teaching at Millinocket High School this year. It was so nice of you and Helen to drop in on me that day, Spec. I hope you will again.

I shall be looking forward to letters from all of you '37 people with news of yourself, and others. Come and see us.

1938

Next Reunion, June, 1940

Dear Classmates:

Mary Wright and Kay Rowe are keeping house together at 144 Bates Street, Lewiston. Mary is Home Demonstration Agent for Twin Counties under the Maine Extension Service. Kay Rowe is student assistant for Central Maine General Hospital at Lewiston.

John Gowell has been working a month already in Connecticut. Address 803 Clinton Ave., Bridgeport, Conn. He is doing engineering for Remington Arms. Saw him at Old Orchard pier and he certainly looks like an executive.

"Buzz" Sherry is beginning in the hotel New Yorker in New York City. He met Dr. Hauck and family at the boat when they returned from England and Europe. Address 15 W. 73rd St., N. Y. C.

"Roddie" Elliott and Ruby Black '37 were married September 2 in Woodfords Congregational Church. Went on a wedding trip up Montreal way and will be in Orono soon. I suppose you saw the write-up the Black family got in the paper following the wedding. Ken Black, Ernie Black, and these brother-in-laws, Don Favor, Dana Sidelinger, and Roddie Elliott. Wait, I have some more weddings!

Althea Hope Millett to Mr. Paul Coolidge Brown '37, Phi Mu, July 13 in Norway. Address 30 Walnut St., Needham, Mass. Also saw a little leaflet, on the cover of which was The Hope-Hale School, Needham, Mass. Get the connection? This is the nursery school of Mary-Hale Sutton and Althea Hope Millett Brown.

Lucille Rankin was also married this summer to John Veaskus, 22 Maple St., So. Portland.

Lucy Cobb has been working since July 1 as 4-H Club Agent for Penobscot County, located in the Court House, Bangor. She has her troubles, too, gets excited and locks her keys in the car.

Mary-Helen Raye is teaching in Eastport High and coaching basketball. Her address I should say would be 62 High Street, Eastport. Right, Mary-Helen?

Ethelmae Currier has been planning meals at Camp Natarswi, Togue Pond, Millinocket, this summer and is to teach home economics in Washburn High School.

Francis Jones and Al Owens left for Illinois a week ago. Fran has a fellowship there and is planning to work for a doctor's degree. Al is also studying there. Address: 907 S. Sec. St., Champaign, Illinois.

Norma Lueders is going with the American Tea Co. in New York City. I'm sorry I don't know her address. She is to be a dietitian I understand.

Wally Gleason is teaching in Skowhegan High, also coaching along with "Porky" Collett '37.

Some of the kids asked Betty Drummond what F.B. games she was going to see this year and she said sadly, "Only the Skowhegan vs. Madison game." Betty's address is 60 Bennoch Street, Orono.

I am an assistant home demonstration agent-at-large for New York Extension Service. Some title, isn't it? My address is 70 West Chippewa St., Buffalo, N. Y.

Mary L. Deering
70 W. Chippewa St.,
Buffalo, N. Y.

"And I Can Make It Talk"

You'RE right about that, Sonny. At eight or eighty it's easy for any one to use the telephone. And year after year the service gets better and better.

This country leads the world in telephone service because it leads in telephone research. Thousands of scientists, engineers and assistants are constantly at work in the Bell Telephone Laboratories to make the service faster, clearer and more economical. No part of the Bell System is more important to you as a telephone user.

BELL TELEPHONE SYSTEM

Your good telephone service is made possible by the constant research of Bell Telephone Laboratories

*A new smoking pleasure
