UNIVERSITY OF MAINE LIBRARY
ORONO, MAINE

A Significant Index

1919-1920

Student Enrollment: 1,213
Reserved Book Calls: 16,381

DURING the past twenty years the student enrollment at the University has grown from 1,213 students in 1920 to 1,929 students in 1939, a sound and healthy growth resulting from increased services and greater educational demand. In the same period of twenty years the use of reserved books in the University Library, as shown in the symbolic graph, has grown far more rapidly than the enrollment. Whereas in 1920 the Library received less

than fourteen calls per student for reserved books, the number in 1930 was over twenty-four, and in 1939 nearly forty-two per student. Such figures offer a significant index of the increased demands being made on Library facilities by the University today.

1929-1930

Student Enrollment: 1,484

Reserved Book Calls: 36,305

The use of reserved books within the Library reflects an encouraging tendency to broaden the base of the educational process throughout the University. The rapid increase in the use of reserved books, therefore, becomes also a significant index of the vital need for adequate and efficient Library facilities in the University today, the need for many books easily available and for complete, comfortable, uncrowded study conditions.

Yet today the expanded demand for Library services of all sorts at Maine is being accommodated within the same building which was overcrowded according to recognized standards of efficiency ten years ago.

1938-1939

Student Enrollment: 1,929

Reserved Book Calls: 80,419

FROM SEED TO SAWMILL

THE University has a new laboratory. It is not equipped, however, with the usual glassware, burners, machinery, and apparatus, nor is it housed in any building on the campus. This is a laboratory of nature's making, amply supplied by that careful provider with all the equipment and apparatus necessary for the perfect laboratory of the particular kind needed—trees, plants, soil, and weather. For the University's new laboratory is 2088 acres of Maine woodlands in five sections on the northern areas of Marsh Island, all within five miles of the University campus, beautifully adapted to use of the Forestry Department of the College of Agriculture. Here, within easy distance for the first time, lies the answer to the Foresters' prayer, a great natural study area in which students of the great woods science can observe, control, experiment, and study the development of timber from seed to sawmill.

Study Opportunities

The new Forestry woods laboratory was acquired by the University by lease from the Federal Government as a result of the conservation activities of several governmental agencies which have been for several years attempting to turn to more valuable uses certain sub-marginal farming areas of ancient and unprofitable vintage. As a result of these activities and the efforts of Prof. Dwight B. Demeritt, '19, head of the Forestry Department, with the approval of the administration and Trustees of the University, a lease was signed in June as a "co-operative and license agreement" between the United States and the University of Maine for the entire use of the lands in question as an area for investigation and research in Forestry and Wildlife Conservation. The term is for fifty years and is automatically renewable for forty-five years more, a total of ninety-five years of exclusive rights to the use of the land.

The lands available lie north of the campus; one section is immediately above the campus, another lies just outside of Stillwater, across the river, a third is south of the main highway between Stillwater and Old Town, the two largest sections lie north of this highway in the northern parts of the Island. The lands contain representative areas of all productive forest types of the state of Maine in greater or less amounts and provide almost complete study facilities. In addition one large section of the area has for a number of years been maintained as a game refuge and will be continued as such, providing excellent opportunities for special studies by wildlife students.

PROF. DWIGHT B. DEMERRITT, '19

On parts of the area are forest plantations, some nearly twenty years old, on which may be found trees up to six inches in diameter, providing a continuous record of growth over that period of time.

The acquisition of the rent-free, almost unrestricted forest laboratory has given this department of the University much to look forward to. Already some students are busy on the lands, mapping, estimating values, plotting forest types. In the future, as one direct result, the annual summer camp of the Forestry students in co-operation with Civil Engineering students will be held on this area instead of in the White Mountain area as in previous years, offering much better general study facilities. Much more intensive and extensive work in

the field under actual forest conditions will come into the curriculum now to supplement class room theory and the senior Winter Camp.

The annual senior visitation to the white-robed and frost-bound forests of Indian Township near Princeton, Maine, however, will not be changed. Winter Camp, that famous institution for the hardening of muscles and acquiring of practical knowledge under real forest conditions will remain. One could not qualify as a Maine Forester without that eight-week session in the north woods and the supply of tall stories and fire-side yarns that annually come out of it in February. The eight cabins there—two new ones were added this summer to accommodate the present crop of woodsmen—will still be 'home' to the rough-and-ready seniors as they have in the ten years past. For there, too, is laboratory work to be done, mapping, cruising, estimating. There the student finds out what some of the practising forester's real problems look like at first hand with the temperature below zero and the snow up to his ears.

History

The development of the camp in Indian Township, the later Summer Camp, and now the new woods laboratory close at hand are relatively new developments for the department, but the history of Forestry at Maine goes back more than thirty years. The work was begun in 1903 and had the distinction of coming about as the result of direct legislative action, for the course was created by the legislature as an adjunct of the Forest Commissioner's office and continued so through all of its early years until 1929.

(Continued on Page 8)

Near Princeton in Indian Township, the annual winter Forestry Camp initiates Maine seniors to practical woods conditions

Old Books and New

An institutional Library is far more, today, than a place to borrow books; it has come to be the center of information, the ultimate abode of historical and factual data of the most diverse description. The University Library is no exception and as a result of this tendency two of the most interesting general collections in the building have grown up in the Maine Room and the University Collections.

Both of these small alcoves off the balcony of the present Library building offer items of interest both to the casual visitor and those more intimately concerned with the educational and historical records of the State and its University, for both small rooms are crowded with documents, books, pamphlets, reports, and memorabilia of every description from books with more than a century's varied history down through the newly printed volume off the presses this year.

The State of Maine Room is the older of the two. It recognizes the larger responsibilities of the University and its Library by attempting to record and pre-

serve matters of general interest to the state as a whole. The aim of the Maine collection has been to accumulate as complete a record as possible of those publications dealing with the state of Maine and those by Maine authors. The result is an interesting and in some ways unique collection of more than six thousand items covering Maine history, geography, arts, science, and literature from many sources.

One section is mostly concerned with genealogical and biographical material. Here the story of the Hon. Hannibal Hamlin stands beside the biography of former Governor Abner Coburn, two names famous in University annals as well as the histories of Maine and the nation.

The literary side of the state, too, is not neglected in the Maine room and the visitor is sure to be impressed by the quantity as well as the quality of the contributions made by generations of down-easters to America's literary history. Verse, drama, and prose all have their places and names. In poetry Rachel

Field (Hon. '38) and Wilbert Snow hold a high place, and old books stand close beside the new, as *Collected Poems* by Robert P. T. Coffin (Hon. '37), 1939, in a bold blue cover and modern typography, nudges the small worn brown leather volume of *Niagara and Other Poems* by John Neal, 1819. Owen Davis, Jr., stands out prominently in the drama section, while in the realm of prose the reader notes quickly such names as Kenneth Roberts, Sarah Orne Jewett, Holman Day, Gladys Hasty Carroll (Hon. '39), Margaret Flint Jacobs '12, and Mary Ellen Chase '09.

The University Collection is the complement to the Maine Room, specializing in records and historical data, publications, reports, and books about the University and alumni. Here again the small room overflows with curious and valuable items, the raw material of the historian and the research worker. Rows of theses dating from 1876 through each year to the present, old student magazines such as the *Cadet*, started in 1885, and University catalogs from 1868 offer the student of the University's past a mine of rich information. Alumni books with the author's autographs are treasured additions. Laura E. Richards (Hon. '35) is there and Rachel Field (Hon. '38), Mary Ellen Chase '09, Joanna Colcord '06, and others. One volume bears the words: "To my first Alma Mater, good old University of Maine." It is in the volume *L'agabond Dreams Come True* and bears the signature of Rudy Vallee '25.

Both the State of Maine Room and the University Collection are, of course, in constant process of growth and potentially are invaluable. Research workers both students and faculty are encouraged to use these special rooms, small and crowded though they are, for their work. It is hoped that great enlargement of both collections as well as much increased facilities for research study will be one of the results of the new Library building now planned. Adequate opportunity for valuable enlargement of these and other special collections are provided in the plans and Library officials dream fondly of the day when both the Maine Room and the University Collection will become even more than today representative repositories for the colorful and varied history of the State of Maine and its University.

Front Cover

FRONT COVER The present University Library building in winter dress. The building was constructed in 1906 by gift of Andrew Carnegie. This picture is third in a series of covers showing the different locations of the University Library during Maine's history, starting with Fernald Hall in the early days, moving from there to Coburn Hall and then to the present building.

Familiar Faces . . .

For thirty years Robert R. Drummond, alumnus of 1905, has been a teacher of German in the Arts and Sciences College. He has been head of that department since 1919. As faculty member and as alumnus he has, during that period of service, earned and won the respect and friendship of associates, students, and graduates.

Receiving his bachelor's degree from Maine, in German, with the Class of 1905, alumnus "Bob" Drummond proceeded to add the title of "Doctor" before his name by earning a Ph.D. from the University of Pennsylvania. Previous to his return to his home town of Orono, he taught at St. Joseph's College, Philadelphia, and the Pennsylvania Military College. He studied abroad at the University of Goettingen in Germany in 1908. At Maine since 1909, he has initiated many generations of students into the intricacies and wonders of German language and literature.

With teaching and departmental duties, Dr. Drummond has found time for contributions to language magazines and the publication of a book, *Early German Music in America*. He has been, in addition, among the most constantly active of the faculty-alumni in the work of the University and the Alumni Association. As class secretary for five years he helped maintain and direct the interest of 1905. He carried a large

share of the responsibility of establishing the Class of 1905 Scholarship Fund, the first to be created. He has been for many years active in the development of endowment and donations work at the University. He served on this committee of the University for a number of years and is a charter member of the University of Maine Foundation.

Serving as chairman of the first and of several subsequent Homecoming committees, he contributed toward the growth of this program which has come to mean so much to alumni and the University in recent years.

As a veteran member of the teaching faculty, as familiar friend of many generations of alumni, and as an active and far-sighted alumnus, Dr. Drummond has well merited the respect and affection which alumni have accorded him.

AN EDITOR TAKES A BOW

TAPPI, the familiar nickname of the Technical Association of the Pulp and Paper Industry, is a name known wherever paper men meet. The organization has attained its prestige by years of leadership in the pulp and paper world and today is recognized as the outstanding industrial organization in the paper manufacturing field. Therefore, when TAPPI awards a gold medal as a recognition of performance, paper men sit up and take notice, for TAPPI's word of approval means much among those who guide the destinies of both the United States and Canada's vast pulp and paper interests. And when the recipient, in February, 1939, was announced as J. Newell Stephenson, '17, one of the co-workers in the original founding of Maine's pulp and paper technology course, the first American school of papermaking, Maine men everywhere, both in the paper industry and outside, had a right to stand up and cheer.

Accomplishment

The award of TAPPI's gold medal for 1939 was made to Mr. Stephenson in recognition of the valuable editorial work accomplished by him as textbook editor for the technical association in which capacity for more than twenty years he has supervised the preparation and production of the five definitive volumes on paper making, entitled *The Manufacture of Pulp and Paper* now enjoying their third edition. By supervising the production of what has been called one of the finest series of industrial texts in existence, Mr. Stephenson made possible a contribution to the technical advancement of the industry recognized as invaluable by all of those engaged in the work. Urged by the fact that the paper-making industry, a highly technical process, had almost no coordinated explanatory texts in existence, and backed by the experience and knowledge gained during his teaching and studying years at Maine, Mr. Stephenson and his associate workers in the great industrial task aimed to produce a body of literature which could be studied at home, by correspondence, or in formal class rooms, as a complete and sound technical preparation for leadership in the pulp and paper industry.

Such an ambition was no small task. Texts had to be written by many different people and coordinated into something approaching unity, advancements and changes in the technical knowledge of the growing industry had to be recorded and allowed for; the subsequent editorial task of reading, illustrating, and partially writing the finished volumes was monumental.

The editing of TAPPI's textbooks does not, however, comprise by any means the entire vocational or avocational activity of pulp and paper alumnus Stephenson. He is particularly well known to the Canadian contingent of TAPPI's members as editor-in-chief of the influential *Pulp and Paper Magazine of Canada*, he is also vice director of National Business Publications and serves as the principal of the Institute of Industrial Arts which offers correspondence courses in pulp and paper technology. Nor does this list end his editorial activities as he has also served as editor of the *National Directory of the Pulp and Paper Industry of Canada* and of the *Pulp and Paper Manual of Canada*.

Obviously his editorial workshop at Gardenvale, Quebec, is and has been for many years a busy place. His home in Ste. Anne de Bellevue, Quebec, is something of a shrine to Canada's pulp and paper men.

Joseph Newell Stephenson came into the pulp and paper trade through no theoretical gateway; he is a product, so to speak, of the fourdrinier machines of the B. D. Rising Paper Company, of Housatonic, Mass., where he learned paper making by doing it. Here he was encouraged to look ahead in the technical field, and finally ended up at Massachusetts Institute of Technology where he graduated in 1909 with a degree in chemical engineering, following this with graduate work at Rose Polytechnic.

Pioneers

It was by way of this preliminary training and experience that Mr. Stephenson came to the University, a most useful and fortunate combination of knowledge, as events proved. Here he took special courses which entitle him to be, as he says, "claimed by 1917" as an alumnus. And here, as assistant professor in chemistry in 1915, he helped establish the laboratories of the pulp and paper course at Maine, a course which has attracted national recognition. But let Mr. Stephenson tell the story in his own words:

"...at the University of Maine, with Dr. Ralph H. McKee (Hon. '29) and Guy Durgin, '08, it was my privilege to help organize the first American school of paper making. We had a lot of fun as well as hard work, as early students can testify, pouring concrete and setting up machinery. Two of those students, Paul Bray, '14, and Earl Libby, '16, now head the schools of papermaking at Maine and Syracuse, and I have mental grandchildren, as it were...."

J. NEWELL STEPHENSON, '17

In 1917 his field of activity suddenly changed to Canada as he accepted the position as editor of the *Pulp and Paper Magazine of Canada*, a position which he has held ever since.

In summarizing the success of the textbook undertaking, begun in 1918 under the editorship of Mr. Stephenson, it is sufficient to point out that three complete editions have been made necessary, both by changes in the industry and by demand, and the work has sold over 30,000 copies. A French edition for Canadian use has been prepared. The first edition was completed in 1925, the second in 1929, and the third in 1939. Again the words of Mr. Stephenson himself give the best description of the purpose and the value of the task for which TAPPI gave its 1939 gold medal. The closing words of Mr. Stephenson's speech of acceptance provide a fitting statement of the guiding principle and impelling enthusiasm which has carried to completion a tremendous and worthwhile task.

"In closing, let me say that the Textbook Committee has not given the industry a hobby horse just to be played with, but a piece of valuable equipment that can be used to great advantage. You have only to take notice of a few ambitious, intelligent young men in each of your mills and encourage them to study the technology of pulp and paper making. There are many serious, thoughtful young men in your plants who will be your future foremen, superintendents, salesmen and executives—and better ones than you can get from outside—if you will but give more thought to this phase of management and take more interest in their progress. For what ye sow, that shall ye also reap."

Recent Alumni Publications

In Rio On the Ouvidor, by Elizabeth Hanly Danforth, '15. Rio de Janeiro, Brazil, 1938. 51 pages, illustrated. \$1.00.

Alumna Elizabeth Hanly Danforth '15, long familiar with the tropical luxuriance and splendor of Brazil and long an experimenter with varied verse forms, has recorded these twin enthusiasms in a slim attractive booklet of 41 poems illustrated with splendid photographs by Paul Stille which blend powerfully with the charm and variety of her verse. The book is a heartening production to come out of our great Southern neighbor and has something to say to many readers. It sparkles with South American life, the salt of the sea, the intricate scents and sounds of the slow, lush tropical land, colorfully depicted with fond care in well chosen words.

This reader liked particularly the two or three poems in which Mrs. Danforth contrasted, with loving recollection of the past and yet with no less fond appreciation of the present, her long years in Brazil with her earlier life in New England.

The volume can be read in one evening but it ought not to be. Alumni friends of Mrs. Danforth, and they are many, will rejoice in her accomplishment and hope that the volume will grow to many; Brazil, too, should be proud of the work of the adopted New Englander who wears her Rio with a difference.

♦ ♦

Poems of a Bachelor, by Philip M. Marsh '29. Aroostook Publications, Houlton, Maine, 1939. 47 pages, \$1.50.

Alumni who noted the publication of *Rebel*, a novel by Philip Marsh '29, and all those who are interested in literary experiments and ventures, will open with interest the small, blue bound volume of poems by this alumnus. For these brief lyrics appear to be mostly casual and experimental rather than the finished firm voice of one who has found his best expression.

The subjects of Mr. Marsh's poems run a wide range of ancient and modern material. They will not all please everyone but those interested in the development of new writers will find here some things to attract attention and a handful of phrases, lines, or poems of real effectiveness. Dr. Milton Ellis of the English department, with whom Mr. Marsh was closely associated at the University, has the following to say:

"Philip Marsh has published a small and rather handsome volume called *Poems of a Bachelor*, which contains thirty-eight pieces of verse, most of them quite brief, and a preface in which the writer emphasizes his chief concern with the simpler things and more fundamental feelings of life. Mr. Marsh's facility for versifying,

well known to his friends, has full play here. While many of the poems are simple lyrics expressing momentary serious or light-hearted moods, one or two stand out as good portraiture or sound observation."

♦ ♦

A College Book of American Literature, by Milton Ellis, '08, Louise Pound, and George W. Spohn. American Literature Series, Harry Hayden Clark, General Editor. Volume One. American Book Company, 1939.

Professor Milton Ellis, '08, head of the department of English and a nationally recognized authority in American Literature, has collaborated with two other leading educators to produce an attractive, comprehensive, and usable text book for the college level. This Volume One, entitled "From Beginnings to the Middle of the Nineteenth Century" is an attractively bound volume of 1,018 pages including a bibliography and index. It includes extensive selections from the leading writers in this period and is sub-divided into five general classifications, paralleling the growth of our literature through the middle of the nineteenth century.

Well-written, informative, and interesting materials precede each main division of the book and brief critical and biographical material introduces each writer to the student. Inevitably, many of the selections are familiar to students of similar anthologies yet a careful and more complete presentation of our liter-

GEORGE D. BEARCE, '11, of Bucksport, vice president of the General Alumni Association, is chairman of the committee in charge of The Seventy-fifth Founders' Day Anniversary program at the University.

ature than in most books of the type makes this volume one which should be of great value to students and teachers and receive the wide use which it so well deserves.

♦ ♦

Breakneck Brook, Margaret Flint [Jacobs] '12. Dodd, Mead & Co. New York, 1939, 270 pp., \$2.50.

Mrs. Jacobs has here written another of her novels of local color and character located in the Sebago Lake country near her home at West Baldwin, Maine. Breakneck Brook, the name of a farm in the mythical small town of Parkston where the action centers itself, is home for the central character, Thurlow Parks, her mother Deborah Parks, and the aged, semi-invalid Aunt Frida; it is also home for the week-end visits of Thurlow's older sister Beth, employed in Portsmouth. The household of the three women forms the background of the entire plot which never leaves for long the local place and people chosen by Mrs. Jacobs. The story concerns itself exclusively with the triangular love affairs of Thurlow's heart, not looking for any other drama than this to carry the reader's interest.

Thurlow, of necessity isolated on the farm her mother runs as well or better than any man, welcomes companionship. The boyish love of her childhood playmate, Henry Witham, now a senior at the University, the deep, reticent admiration of neighbor Malcolm Rutherford, and the suave, accomplished wooing of Robert Southard, older, divorced, and urban, provide the entire main complications of the plot. The result is an intensive concentration on the motives, moods, and vagaries of the feminine heart, evolved at a leisurely pace reminiscent of Jane Austen in modern dress. Primarily, therefore, the book is feminine in tone and appeal.

Once more Mrs. Jacobs has given convincing illustration of her loving understanding of Maine's countryside and people. If not a great production, the book is nevertheless soundly done, the characters well and adequately drawn, the local color capably used as a background.

♦ ♦

Two series of radio broadcasting programs for educational purposes are being planned by the Maine Radio Guild, a student organization at the University. Directed toward secondary schools and general listener interest, under the direction of Mr. Delwin B. Dusenbury, of the Public Speaking Department, the programs include historical material, under the title of "American Yesterdays," and scientific material, called "Epoch Discoveries in Science," for the two series. A program comes over the air each Monday at 2:30 p.m., from station WLBZ in Bangor. The fifteen minute programs are in addition to other special broadcasts.

THE DEANS' COLUMN

The Editors take pleasure in announcing in this issue the first of a series of informal columns written by the respective Deans of Technology, Agriculture, Arts and Sciences, and Education which will provide an opportunity for them to bring to alumni recent developments, trends, and news of their colleges

The College of Technology

By DEAN PAUL CIOKI

The Development of Engineering Education In the early days of engineering education, the acquisition of technique was the primary objective. Practically all employers today state that very few graduates are lacking a knowledge of the technical side of engineering work, or at least the fundamentals, but that there are serious shortcomings in regard to other qualifications which make for success in an engineering career. These qualifications relate to such matters as personality and character.

The College of Technology is attempting a rather ambitious program since it clearly recognizes the force of the criticisms which come from those who deal with the product of the modern engineering school. It is more difficult today to educate a graduate in engineering than it used to be some years ago when the practise of engineering was not so complex. There are, in general, three classes of practising engineers. The first class embraces such men as have to do with manufacturing, operation, construction, and the like. These men do not need much more, as far as the sciences and mathematics are concerned, than a good working knowledge. That is, they do not have to be intensely theoretical but rather more practical. The second group, which is very likely the largest, embraces those graduates who become executives, superintendents, managers, vice presidents of various industrial organizations. These men, too, do not need a highly theoretical training. They do find it quite desirable to have a sound knowledge of history and of present economic and sociological problems, since they have to deal with the technical side of the manufacturing process and also with the men who carry on the process. Then there is the third group embracing the consulting engineers, research workers, and designers. These men do need a rather exhaustive knowledge of theory, science, and mathematics. The attempt is made to meet these three objectives by having certain options in the engineering courses. The advisers and counsellors of the college try to find out what type of individual they are dealing with in counselling a given student, and direct him accordingly.

A series of lectures and discussions are held concerning engineering studies and the engineering profession. These

New Trustee Appointed

The appointment of Mrs. Maybelle H. Brown, of Waterville, a native of Orono, to the University Board of Trustees by Governor Lewis O. Barrows '16 marks a significant point in University history as of Her appointment will fill the vacancy she is the first woman to receive this honor caused by the death of John T. Gyger, of Cumberland.

Mrs. Brown, for many years actively interested in educational problems, is well qualified for the position to which she has been appointed. Born in Orono she was educated in the Orono schools and a Bangor business college. In 1900 she moved to Waterville where she read law with her husband, the late Frank E. Brown, a well-known Waterville attorney.

Following her husband's death Mrs. Brown opened Brown's Collection Agency and began a career as an active business woman. She has become an active and leading citizen of Waterville and of the State.

Among her many activities Mrs. Brown has served as president of the Maine Federation of Women's Clubs from 1935-1937, having previously held positions as treasurer, vice president and district director. She has been active also in the Maine League of Women Voters and the Waterville Woman's Club. As a member of the educational department of the latter organization she has been actively interested in public education.

are given by members of the faculty and by outside engineers and alumni.

Freshmen are divided up into groups with a separate adviser, the dean of the college acting as chairman of the committee of advisers. The University of Maine is in a rather enviable position in this regard because our numbers are not so large but that we can give many students the individual attention which is so necessary.

Rendall '16 Named Forest Commissioner

A graduate of the University in 1916, Raymond E. Rendall, of Alfred, former State Commander of the American Legion, and recently manager of the extensive forest holdings of Bates College in Alfred, has been appointed Maine Forest Commissioner for a four-year term by alumnus Governor Lewis O. Barrows.

Mr. Rendall, the new Commissioner, received his degree in Forestry from Maine and followed this later with a Master of Forestry degree from Yale in 1920. His period of war service intervened between the two dates. He served overseas in the Forestry Regiment of the 20th Engineers and saw active service in France. At a later visit to France he devoted much time and study to the government controlled forests of that country, being given opportunity to observe the tracts and methods by the government.

After his graduate work at Yale, Mr. Rendall was appointed to the responsible position of manager of the Bates Forest, a large tract of woodland near Alfred, owned by Bates College. He has been for years active in the American Legion, serving as a county commander before his election in 1933 to the highest position in the State Legion.

Mr. Rendall has had wide and varied experience in Maine forest problems. In addition to his work at Alfred, which brought him in intimate contact with the forest conditions of York County, he has acted as a consulting forester for a number of pulpwood and lumber companies in the state and has been a member of the State Park Commission, serving as secretary of that organization.

Alumni of York County have known the new Forest Commissioner as an active alumnus in addition to his many other interests. He is a past president of the York County Alumni Association and has been closely affiliated with the Class of 1916.

The appointment of alumnus Rendall by Governor Barrows brings to the office of the Forester Commissioner a young man well versed in Maine's forest needs from years of practical experience which have supplemented his training at the University and at Yale. His demonstrated ability in administrative lines in connection both with his professional work and his Legion leadership should prove of real value in his new appointment.

Rifle Team

The University of Maine rifle team will fire a total of 59 postal matches with leading colleges and universities of the United States. Fifteen men will compete in the majority of matches and will fire in prone, kneeling, sitting, and standing positions.

Founders' Day To Be Celebrated

Plans are being made jointly by the University and the General Alumni Association for the celebration of the seventy-fifth anniversary of the founding of the University on February 25 and 26. The tentative plans include appropriate academic services on the campus on Sunday, February 25, and an alumni program on Monday evening in which it is hoped that all of the Association's local groups will join by holding simultaneous meetings appropriate to the occasion throughout the country.

Founders' Day for the University was February 25, 1865, when the then Governor of Maine, Samuel Cony, affixed his signature to the formal legislative act which created an institution separate and distinct from all other collegiate institutions in the state, the Maine State College of Agriculture and the Mechanic Arts. At that time a step was taken which seemed, under the conditions of that day, an act of sheer faith; the ultimate justification and rich reward of that faith to the state and to the students and alumni of the University will be the general theme of the program of the Seventy-fifth Founders' Day celebration.

Included in the program, it is expected, will be a formal University convocation featuring some outstanding speaker of national reputation. On Monday evening, the twenty-sixth, the alumni association will in turn pay tribute to the founders, the early faculty and students, and the generations of alumni who have contributed to the growth and success of the institution. Tribute will be paid especially to those men, alumni and others, whose names, through the seventy-five years since the founding of the University, have been indelibly written into Maine's history.

The original founding act was itself not without its drama and its unsung heroes. The actual beginnings of the University, as of most state colleges and universities, has for its starting point the signature of no less a person than Abraham Lincoln himself; his signing in 1862 of the Morrill Act provided the impetus to the creation of such institutions throughout the country by assigning large areas of Federal lands to each state, the sale of which should be used to establish institutions of higher learning in the liberal and practical arts. Such funds, however, were not to be used by the states for construction of buildings, and the problem of finding a home for the yet unborn college in Maine became the first great problem. The easier solution was to accept the invitations of colleges already in existence in the state to adopt the houseless infant, and helpful suggestions for this procedure were made by both Colby College and Bowdoin College. Certain leaders in the State, how-

ever, argued staunchly for a separate institution which might preserve the spirit and ideals of the original aim. Among these the agricultural people of the state were especially determined, led by Dr. Ezekiel Holmes, then editor of the *Maine Farmer* and one of the leading exponents of agricultural education.

Ultimately the advocates of a new and independent institution which should create its own future fate were successful, and in 1865 the State Legislature voted in favor of establishing an independent institution. The bill for its organization, the ultimate founding act, was presented by Hon. Phineas Barnes, of Portland. The bill was signed by Governor Cony and became legal on February 25 of that year, seventy-five years ago. The Maine State College existed. The result, an ample justification of the forethought and the faith of its early supporters, is the University of Maine today.

In this anniversary year, therefore, it is fitting to give formal recognition to the founding of the institution in appropriate ceremonies, and the program of Founders' Day on February 25 and 26 will be the occasion of it.

The committee in charge of the program is: chairman, George D. Bearce, '11, of Bucksport; vice president of the Alumni Association, Mrs. Edward Herlihy, '16, of Bangor; Ralph L. Brown, '25, of Bangor; Samuel Calderwood, '33, of Bangor; Joseph M. Murray, '25, of Orono; and Forest K. Moors, '33, of Old Town.

The first annual Intercollegiate Invitation Debate Tournament at the University was held on campus December 8 and 9, with a total of nine colleges participating.

Western Pennsylvania Alumni Gain High Ten Standing

Western Pennsylvania alumni displaced the Northeastern New York in the leading ten associations having the highest percentage of alumni who have paid alumni dues for the current year. Southern Californians moved up a notch as the Missouri alumni made no gain for the month. Following is the standing as of December 27:

Association	Per Cent
Lehigh Valley	31.5
Southern California	29.1
Missouri	29.0
Illinois	27.1
Maryland	25.5
Rhode Island	24.5
Washington, D. C.	22.7
Connecticut	21.8
Western Pennsylvania	21.5
Penobscot	21.4

From Seed to Sawmill (Continued from Page 3)

It was, therefore, a child of Augusta, with only a local habitation and a name at the University, but it flourished just the same. Samuel N. Spring, now Dean of New York State College of Forestry, was the first head of the department and the first class of "woods engineers" was graduated in 1906—Howard L. Churchill, for twenty-five years chief forester for Finch-Pruyn Co., Glens Falls, N. Y., the late Lincoln Crowell, former district forester for Massachusetts in the Cape Cod area, unfortunate victim of an automobile accident in 1937, Walter O. "Jack" Frost, associate pathologist, Bureau of Plant Quarantine, U.S.D.A. at Augusta, and David Rogers, forest supervisor of the Plumas National Forest at Susenville, California. The biographies of these pioneer Maine foresters are typical, for the work of the forester may take him to far places and into many varied branches of the science.

In later years Gordon E. Tower and John M. Briscoe served as department head, and in 1934 alumnus Dwight Demeritt, '19. During these years forestry at Maine has maintained a position of leadership; it is today one of twenty schools in the nation, three of which are entirely of graduate level, which have the highest accepted rating of the Society of American Foresters. Applications for entrance to the department have increased, also, with the years so that today the department is able to accommodate only a small percentage of the total applications.

Much has been done in recent years to raise the standards of the department. The professional standards of the course itself have been steadily improved, and in addition much has been accomplished in broadening the general educational values of the course through an increase in electives. Continued cooperation with industry in the state is another aim of the department which is bringing mutual advantages.

With the acquisition of new forest areas the Forestry Department, which since 1936 has included specialized work also in wildlife conservation and game management, should be able to offer even finer training than that which in previous years has enabled the "fearless Foresters" of Maine to enter their profession adequately prepared with a sound and practical knowledge of our natural forest resources from seed to sawmill.

An annual winter event, the State 4-H Club contest, was held on the campus December 28-30 with about two hundred outstanding club members and leaders welcomed to the University. Contests featuring many aspects of the club's work provided a program of interest and excitement for all.

CAMPUS EVENTS

Religion—

Under the leadership of Albion P. Beverage, the Maine Christian Association sponsored the visit of eighteen religious leaders from various parts of Maine and New England to the campus from December 5-7 as guests of the fraternities and dormitories. The Embassy featured, in informal evening meetings, discussion of religious, moral, and spiritual problems.

Described as a great success, the Embassy brought forth much interest on the part of students. Long, interesting and helpful discussions were the result of nearly all meetings. The keynote to the three-day program was sounded by a general assembly meeting with Dr. Julius Seelye Bixler, of the Harvard Divinity School, speaking on the question of "The Need for Religion in the World Today." Another feature of the program was a panel discussion by Embassy leaders on the question of "What is the Place of Religion in Education?"

Each fraternity on the campus, as well as the men's dormitory and the M.C.A. building, was the scene of discussion during the Embassy with the visiting religious leaders.

Among those who visited the campus for the Embassy were Arlan Baillie, B.D., Southwest Harbor; Quitman F. Beckley, O.P., Princeton University; George M. Blandy, B.D., Christ Church, Cambridge, Mass.; George Cadigan, B.D., St. Paul's Church, Brunswick, Maine; Rensel H. Colby, B.D., First Congregational Church, South Paris, Maine; Mervin M. Dams, Ph.D., Bangor Theological Seminary; Alexander D. Dodd, D.D., Bangor Theological Seminary; Newton C. Fetter, D.D., Minister to Baptist Students of Greater Boston; H. Mortimer Gesner, Jr., B.D., All Souls Church, Augusta, Maine.

Gordon E. Gillett, B.D., St. James Church, Old Town, Maine; James E. Hardy, Y.M.C.A., Quincy, Mass.; Frederick D. Hayes, M.A., First Church, Belfast, Maine; Wilmer J. Kitchen, M.A., Student Christian Movement in New England; Harry O. H. Levine, Ph.D., Bangor Hebrew Community Center; James Francis McElroy, B.D., Northeast Harbor and Seal Harbor, Maine; Harold C. Metzner, M.A., Pleasant Street Methodist Church, Waterville, Maine; Rodney W. Roundy, B.D., Congregational-Christian Conference of Maine, Portland, Maine; and Stephen Webster, B.D., St. Peter's Church, Weston, Mass.

Recipients—

Three students in Technology were recipients recently of Hovey Memorial scholarships awarded on the basis of scholastic attainment, character, and general promise. Students receiving the honor were Philip A. Hutchinson, a senior from West Buxton, majoring in mechanical engineering, Edward W. Stanley, a senior from Farmington, majoring in mechanical engineering, and Richard R. Chase, of Portland, a junior in pulp and paper technology.

Economist—

Alumnus Roy L. Fernald, '23, of Winterport, candidate for the office of governor, spoke to the student body last month stressing especially the condition of state finances. Stating that a deplorable inefficiency made state government expensive and uneconomical, Mr. Fernald spoke in defense of the Merit System and reduction of taxes through economy in administration.

Speaker—

Louis Untermeyer, nationally known poet and critic, has been invited to the campus by the Contributors' Club, literary organization of the University, to address students and faculty on January 11. As anthologist, biographer, essayist, poet, and editor, Mr. Untermeyer has a wide familiarity with writers and writings of the day.

Carols—

The annual program of Christmas vespers featured vocal and instrumental presentation of Christmas carols on December 10. Participating organizations were the University chorus and orchestra, under the direction of Prof. Adelbert W. Sprague, and the Men's Glee Club, directed by Mr. Albion P. Beverage.

Commissioned—

Popular Barbara Ashworth, '41, daughter of Prof. John Ashworth, of Orono, was elected by student vote to the position of Honorary Lieutenant Colonel of the military battalion on December 8. Her commission was presented at their Ball in a colorful ceremony by the retiring Lieutenant Colonel Betty Kruse, '40, of Bangor.

Literary—

Phyllis Marks, '40, of Brookline, Mass., was editor of the special literary supplement of the *Campus* published on December 13. Featuring undergraduate literary productions in the fields of short story, essay, and poetry, the supplement maintained the high standards of similar efforts in previous years. The literary supplement is designed as an outlet for student creative abilities which, at the present time, have no other source of publication on the campus. In its brief scope it serves as an admirable indication of the latest student ability at the University.

ACCENT ON YOUTH: The Maine Masque presented this modern comedy drama successfully last month. Student actors shown here are Virginia Howe '41, of Union, Robert Davis '42, of Old Town, Philip Hutchinson '40, of West Buxton, John Utterback '41, of Bangor.

LOCAL ASSOCIATIONS

Northern Aroostook Alumni held their annual meeting in Presque Isle on November 27 with the record number of 121 present. W. L. Berce, '13, of Washburn, as president, led the meeting which featured singing of Maine songs and brief business, including election of the following officers Ray D. Hews, '13, of Presque Isle, president; Don A. Atwater, '16, of Limestone, vice president; Jessie M. Lawrence, '28, of Presque Isle, secretary; and Dr. B. F. Porter, '97, of Caribou, treasurer. Among the attractions of the evening was the presence of senior Don Smith, of Easton, outstanding cross country star, who related some of his track experiences. Guest speaker from the University was President Arthur A. Hauck who spoke on his visit to Germany last year.

Philadelphia Alumni counted twenty-nine members and guests at a meeting in Strathmore on December 8. The University's Placement Director, Philip J. Brockway, '31, as guest of honor, brought latest campus news to the group and a report on the success of placement activities at the University. Plans for future meetings of the group were discussed. Dr. Edward G. Kelley, president of the local association, served as chairman of the meeting.

Western Mass. Alumni met on December 15 in Holyoke with a total attendance of nineteen. Moving pictures of campus events provided entertainment and plans were discussed for a meeting in connection with the annual New England track meet in Springfield.

Lehigh Valley Alumni welcomed Placement Director Philip J. Brockway, '31, to Allentown for a meeting on December 7. A total of eighteen alumni and friends enjoyed the dinner-meeting and latest news of campus activities brought to them from the University.

Penobscot County alumnae are to meet in Bangor on January 18 for the purpose of considering the question of whether or not an alumnae association shall be formed for Penobscot County. For purposes of bringing this meeting about, Fred Knight '09, president of the General Alumni Association, has appointed the following alumnae. Mrs. Merrill Bowles '21, Mrs. Herbert Hammons '31, Mrs. Robert Thaxter '27, Mrs. M. H. Burke '06, Miss Jessie Fraser '31, Mrs. Earle Webster '27, Miss Annette Matthews '27, and Miss Ellen Mullaney '30. A notice will be sent to alumnae residing in Bangor and vicinity.

75th Anniversary Plans

Plans are underway already for celebration of the seventy-fifth anniversary of the founding of the University on Founders' Day, February 25. These include appropriate University ceremonies on Sunday, February 25, and also a program by the alumni on Monday the 26th. In this latter program it is hoped that most of the local associations will join by appropriate gatherings on Monday evening, February 26.

The recognition of this anniversary of the founding of the University seventy-five years ago should be included in the plans of every alumnus and each local association.

Portland Alumni held their annual fall meeting December 6 at the Columbia Hotel with an attendance of one hundred men. President Hugh Morton introduced Edward E. Chase, '13, president of the Board of Trustees, as toastmaster. Speakers were Norman H. Mayo, '09, chairman of the Library Committee, Alumni Secretary Crossland, A. Lincoln King, '14, and Coach Fred Brice.

OTTO H. NELSON, of Bangor, Trust Officer of the Merrill Trust Company, was recently elected an active member of the University of Maine Foundation, a corporation organized to receive, hold, and manage funds given in trust or outright for the benefit of the University. At a recent meeting of the directors of the Foundation, a vote was passed to accept, under the terms of the will of the late Maria S. Appleton, a bequest of \$5,000.

Local Association Schedule

January
18—Penobscot County Alumnae
Dr. J. H. Huddilston, speaker
21—Ohio Alumni
Miss Marion Martin, '34,
Guest of honor
Weekly Luncheons
Boston Alumni
Every Friday, 12:00 noon to
2:00 p.m.
Wilbur's Downtown Colonial
153 Federal St.
Monthly Meetings
Portland Alumni
First Monday, 12.15 p.m.
Columbia Hotel
Portland Alumnae
First Thursday, 8:00 p.m.
Columbia Hotel
Philadelphia Alumni
Second Friday, 6:30 p.m.

Penobscot County alumni held a very successful meeting in Bangor on December 12 with an attendance of 115 men. After a brief business session over which Albert D. Nutting, '27, presided, Frank Fellows, '12, as toastmaster, introduced the following speakers: Don Smith, '40, Coaches Brice, Jenkins, and Kenyon, and President Hauck.

Officers elected for the ensuing year are—president, Ralph L. Brown, '25, vice president, Samuel H. Calderwood, '33, both of Bangor, and secretary-treasurer, Joseph M. Murray, '25, of Orono.

Western Pennsylvania Alumni enjoyed a dinner-meeting on November 10 with a total attendance of twenty-four. The meeting was opened by President R. Warren Graffam, '22. Consideration was given to raising the annual Pittsburgh Alumni Scholarship, and the officers for the current year were elected as follows: Charles Pratt, '10, president; Byron Chatto, '05, vice president; Ralph Parkman, '26, secretary-treasurer.

Vermont Alumni met on November 2 at Montpelier with an attendance of about thirty alumni and guests. Dr. J. H. "Paddy" Huddilston and Alumni Secretary Charles Crossland came as guests of honor for the meeting and were introduced by President Harold Durgin, '24. Election of new officers was a feature of the meeting with Charles Adams, '13, chosen president, Stanley J. Steward, '96, vice president, and Constance M. Thompson, '24, secretary-treasurer.

Waldo County Alumni held their meeting November 23 in Belfast with an attendance of thirty-six. The toastmaster was Hillard Buzzell, '25, who was introduced by Spurgeon Benjamin, '35, president of the Association. The speakers were Alumni Secretary Crossland and President Hauck.

WITH THE TEAMS

VARSITY TRACK

Prospects for the coming indoor track season appear to be generally bright, according to Coach Jenkins, although the squad at this time is seeking strength in certain events. With the first meet coming early in February at Boston, Coach Jenkins will have plenty of work on his hands following the Christmas vacation. The sophomore additions to the varsity squad will strengthen the group in the weights and pole vault through the efforts of Herbert Johnson, of Onawa, throwing the discus and javelin and Ben Graham, of Milton, Mass., in the pole vault. Results are also expected from the entrance into varsity competition of hurdler William Gilman, of Augusta. Cross country runner Mark Ingraham, of Rockport, also a sophomore, will strengthen the distance group.

Veterans of previous years are expected to continue their regular performances, including distance men such as Don Smith, '40, of Easton, Howard Ehrenbach, '41, of Tonawanda, N. Y., and Kenneth Blaisdell, '41, of Ellsworth. In the weight events Stanley Johnson, '40, of Brunswick, and Robert Bennett, '41, of Cranston, R. I., should be able to repeat record-breaking performances of last year.

Graduation has taken a number of valuable place winners out of competition and replacements for them will be much needed. Whereas in the running events the longer distances are well provided for, the shorter races still present a considerable problem.

In general, while presenting several potential state and New England winners in some events, the team will need to develop balance to be a top-rank contender.

Freshmen Defeat Sophomores

The annual track meet between freshman and sophomore classes proved to be an easy victory for the first-year men with the decisive score of 100 to 35. The strength shown by the yearlings in many of the events came as something of a surprise to many and revealed latent promise of performance to come among the freshman class. Typical of the meet was the inability of the sophomores to score a single first place in the running events where the freshmen were especially strong. Cross country star Dwight Moody, of Lincoln, won both the mile and half mile in excellent time. High scorer for the day was freshman William Hadlock, of Quincy, Mass., with three first places and fifteen points.

ATHLETIC SCHEDULE

Varsity Basketball

- Jan. 6 Bates at Orono
- 11 R. I. at Kingston
- 12 Conn. at Storrs
- 13 Northeastern at Boston
- 17 New Hampshire at Orono
- 19 Northeastern at Orono
- 20 Colby at Waterville
- Feb. 10 Conn. at Orono
- 14 Colby at Orono
- 17 Bates at Lewiston
- 22 Rhode Island at Orono
- 24 New Hampshire at Durham

Varsity Indoor Track

- Jan. 20 Intramural
- Feb. 10 Intercollegiate 35 lb. Weight Championship at Cambridge
- 10 B. A. A. at Boston
- 17 N. H. at Orono
- 24 Colby at Orono
- Mar. 2 Bates at Lewiston
- 9 Northeastern at Orono

Winter Sports

- Feb. 2 & 3 New Hampshire Carnival at Durham
- 9 & 10 Bates Carnival at Lewiston
- 9 & 10 Colby Carnival at Waterville
- 16 & 17 State Intercollegiate at Bridgton (Pleasant Mountain)
- 23 & 24 I. S. U. at Northfield, Vt. (Senior Division)

Freshman Basketball

- Jan. 6 John Baptist at Orono
- 11 Old Town at Orono
- 13 Lewiston at Orono
- 17 M. C. I. at Orono
- 19 S. Portland at Orono
- 22 Ricker at Orono
- Feb. 7 Coburn at Orono
- 10 Presque Isle at Orono
- 14 Kents Hill at Orono
- 17 Madawaska at Orono
- 20 Deering at Orono
- 22 Bridgton at Orono
- 24 Higgins at Orono
- Mar. 8 State Prep School Tournament
- 9 State Prep School Tournament

Freshman Indoor Track

- Jan. 13 South Portland, Bangor, and John Baptist
- 20 Intramural
- Feb. 17 Bridgton at Orono
- 24 Colby at Orono
- Mar. 9 Thornton at Orono

VARSITY BASKETBALL

With the closing of the fall football season, thoughts of coaches and athletes at the University turned toward annual basketball competition. A squad of sixty-four turned out for practice when the call came out on November 20 and were put hard to work in preparation for the season which opens in January.

The size of the squad was trimmed down before many days to a working group of twenty-three men from which Coach Kenyon hopes to draw enough winning combinations of players to retain the state title won last year.

Among the candidates this year are several veterans whose performance last year was instrumental in the team's victories: Charles Arbor, '41, of Rumford, and Charles Wilson, '40, of Eastport, were regular guards last year. The center, Philip Curtis, '40, of Caribou, played in a good share of the games last year, while Buzz Tracy, of Northeast Harbor, and Harvard Whitten, of Fort Kent, both juniors, are experienced forwards.

From the freshman team of last year several candidates will bear watching. Among them are Parker Small, of South Portland, forward, Edward Barrows, of Augusta, a guard, and Nathaniel Crowley, of Dover-Foxcroft, who is expected to be eligible by February.

The schedule faced by the squad this year is much the same as last, including both New England Conference games and State Series games against Colby and Bates since Bowdoin has decided not to undertake basketball this year.

Freshman Basketball

The freshman basketball team this year, although lacking height, has shown remarkable speed and much scoring strength during the few practise sessions it has had. Coach Sezak has two combinations which are of equal ability, and a third which is almost as strong as the first two.

Some of the outstanding men of this year's freshman squad are: Lowell Ward, of Brighton, Richard McKeen, of Bangor, Chester Savasuk, of Waterville, Kenneth Wright, of Westbrook, Lloyd Quint, of Portland, Clifton Nickerson, of Bath, Maurice Geneva, of South Portland, Eugene Hussey, of Kezar Falls, Milton Weinstein, of Bangor, and Joseph Adler, of Sanford.

Although it is hard to make exact prediction concerning the freshmen, it is believed this year's frosh team will be on par with the past yearling teams.

THE HONOR ROLL

The Classes of 1879 and 1917 are leading the Honor Roll according to the preliminary mid-year tabulation. The total of 1148 names is slightly larger than the total of last year on similar date.

To the boys of "79" with a percentage of 62.5 goes the distinction not only of leadership but also of setting a record percentage of the class who by virtue of having paid alumni dues the last three years, including 1939-40, are entitled to be known as Honor Roll Alumni. The next four in order of percentage of class names on the Roll are: 1885—42.8%; 1894—41.6%; 1884 and 1887 are tied for fifth place with 33.3% each.

1917, consistently high in the group having the largest number of names in the Honor Roll, edges the heretofore perennial leader, 1911, by a margin of but two. Once again it is the classes between 1910 and 1917 that have achieved distinction as Honor Roll Classes. They stand as follows: 1917—46; 1911—44; 1914—42; 1910—39, and 1912 and 1916 with 35 each.

A final Honor Roll will appear at the close of the year.

ALUMNI PERSONALS

DEATHS

1881

Mr. Charles S. Simpson died at his home in Monrovia, Cal., on October 5 at the age of 84 years. Mr. Simpson was active to almost the time of his death although retired from business. He was a member of several local and fraternal organizations.

1906

Notice has been received of the death of Charles W. Floyd, of Farmington, N. H., at Stoncham, Mass., on September 9, 1939, at the age of 54 years. Mr. Floyd, who died of heart trouble, had been engaged as a retail shoe merchant in Farmington for some time. A native of Springfield, Mass., Mr. Floyd attended the University from 1902 to 1904.

1907

Joseph H. Doyle, a graduate of the Law School and resident of Milford, Mass., died on March 16, 1939. Previous to his death he had been engaged in his profession as a lawyer.

1911

The alumni office received a report of the death of Joseph C. Morin on May 8. Mr. Morin, who died at the age of 63 years, had been residing at Manati, Puerto Rico, for some time. The details of his passing are not known at this time.

1917

Ralph E. Sawyer, of Pittsburgh, Pa., died on October 29 after a very brief illness. A native of Buxton, he graduated from the University in electrical engineering in 1917 and began work as a traffic engineer with the American Telephone and Telegraph Company. He was transferred to various parts of the country in that company.

In later years he was associated with a firm of industrial engineers, a textile manufacturing company and the Resettlement Administration of the federal government in Washington. At the last of his life he was employed in Pittsburgh as a valuation engineer.

1922

Harold F. Conant, of Fort Fairfield, Maine, died September 23, 1938. Report of his demise has just been made to the alumni office without additional details.

BY CLASSES

1885

Next Reunion, June, 1940

George W. Chamberlain, of Malden, Mass., is the author of fifteen volumes of History and Genealogy.

1890

Fiftieth Anniversary, June, 1940

Word comes to us from Chester J. Wallace, of 37 Lowell St., Reading, Mass., that he has retired from the engineering department of the town of Brookline after completing thirty-six years of service with them.

E. Fenno Heath requests that mail be sent to him at P. O. Box 103, Newport News, Virginia. He resides at 30 Locust Ave., Hampton, Va., and is a retired naval architect.

With the arrival of the New Year, don't forget that resolution—"I will be on the Campus June 8-10 to celebrate our Fiftieth." Will it be a 100 per cent return?

1891

Fiftieth Anniversary, June, 1941

Hugo G. Menges, retired, now lives in North Hollywood, California, residing at 4228 Elmer Ave.

1892

Fiftieth Anniversary, June, 1942

A post card from William C. Holden tells us that he is to be at 636 Hudson Ave., Sarasota, Florida, until April.

A machine designer with the Machine and Tool Designing Company of Philadelphia, Pa., is William A. Valentine. He lives at 1933 Parrish St. of that city.

1893

Fiftieth Anniversary, June, 1943

Harris P. Gould is with the U. S. Dept. of Agriculture at the Horticultural Station in Beltsville, Md. He gives residence address as 3909-13th St., N. W., Washington, D. C.

Charles C. Murphy, who is with the Aziscoos Land Co., is located in Rangeley.

1894

Fiftieth Anniversary, June, 1944

Herbert Murray requests that mail be sent to him at Box 264, Haworth, N. J.

1895

Next Reunion, June, 1943

Melville F. Rollins, retired, is at Puente, California.

Lt Col Charles D. Thomas resides at 504 Harvard St., Hempstead, N. Y. He is assistant engineer on the Board of Transportation with business address, 250 Hudson St., New York City.

1896

Next Reunion, June, 1943

Senior Highway Engineer with business address given as 413 Federal Bldg., Boise, Idaho, is information received on E. E. Kidder, of 1107 North 18th St., of that city.

John Starr is retired and gives residence as R. F. D. 123 E, Duxbury, Mass.

1897

Next Reunion, June, 1943

William L. Holyoke is plant engineer with the Borden Mills in Kingsport, Tennessee. He lives at 1422 Watauga Street.

Director of Research, Huron Manufacturing Co. at Harbor Beach, Michigan, is A. J. Patten.

1898

Next Reunion, June, 1942

Rossell O. Dunn is manager of the

Cog Railway Cabins at Fabyan, N. H., from May 30 to October 12. During the winter he is in Shawomet, Rhode Island.

Re-elected treasurer of the North Aroostook Alumni Association was Dr. Byron F. Porter, of Caribou. Dr. Porter is district health officer in the State Dept. of Health and Welfare.

1899

Next Reunion, June, 1942

Charles S. Beckwith manages a farm in Fort Fairfield, Maine.

Miss Mary Alden Hopkins lives in Newtown, Conn.

1900

Next Reunion, June, 1942

C. A. Robbins, of 24 West Broadway, Lincoln, is postmaster of that town. He was a visitor on campus on the occasion of the Bowdoin game.

Wilbur L. Merrill is engineer in charge of works laboratory for the General Electric Co. He lives in Scotia, New York, at 35 Sunnyside Road.

1901

Next Reunion, June, 1942

At the annual meeting of the Camden Outing Club held in early November, Percy R. Keller was named a director. Mr. Keller is town manager of Camden.

O. Merrill Bixby gives his residence address as 15 Hanford Place, Tarrytown, N. Y. He is assistant engineer in the office of Equipment Electric Engineer of the New York Central system. His business address is Room 1448, 466 Lexington Ave., N. Y. C.

Rev. Alson H. Robinson is minister of the First Unitarian Society in Plainfield, N. J. His residence is 1345 Highland Ave., Plainfield.

1902

Next Reunion, June, 1941

Samuel Prince Davis is in the real estate and insurance business. The agency, the Burn-Davis and Henry Agency, is located at 203 East Broadway, Glendale, California. Mr. Davis resides at 101 West Mountain Street.

Capt. E. G. Mitchell, U. S. A. Ret., lives at 8 Union St., Milford, Conn. He is chairman of the Milford Sewer Commission.

Herbert W. Sewall, of Wilton, is with the G. H. Bass Co., shoe manufacturers.

1903

Next Reunion, June, 1941

Letter from Robert F. Chandler, Jr., states that his father, Robert F. Chandler, is at the Arroyo Sanitarium, Livermore, California, and that his condition is now improving. Mr. Chandler has been in the sanitarium about a year and a half.

Ralph M. Conner is an engineer with the Morrison-Knudsen Co., of 820 Title Guarantee Bldg., Los Angeles, Calif.

Rodney C. Davis, chief draftsman, Bridge Dept. of the Chicago and Northwestern Railway, gives the address of Room 1524, 400 West Madison St., Chicago, Illinois.

Ralph Cooper, of Belfast, is a member of the publicity and membership committee of the Maine Good Roads Assn.

Next Reunion, June, 1941

Harry A. Sawyer lives at 14 Nettleton Ave., Naugatuck, Conn. Mr. Sawyer is a chemist with the U. S. Rubber Co.

Residence address for Charles H. Sampson, headmaster of the Huntington School for Boys, Boston, Mass., is 1364 Walnut St., Newton Highlands. Mr. Sampson is also connected with the Massachusetts Department of Education in the University Extension Division.

Clermont, Florida, is the address to which mail is being sent as requested by Dr. John E. Olivenbaum.

Henry W. Haines has both business and residence address on Water St., Skowhegan. He is a druggist.

1905

Next Reunion, June, 1941

Lincoln Colcord, of Searsport, author and critic, gave a series of lectures in Boston during October. Subjects of his lectures were "The Last Forty Years of American Sail, 1865-1905," "Sea Books and Landlubber Publishers," and "His Boyhood at Sea."

R. G. Sands, consulting engineer and founder of Sands' Protective Devices, resides at 214 Franklin St., Waukegan, Ill. His business, however, is located at 1033 W. Van Buren St., Chicago, where he is with the Automatic Electric Co.

Walter H. Foster, an attorney, requests that his mail go to 10 Post Office Square, Boston, which is his business address. He resides at 92 Pleasant St., Belmont, Mass.

1906

Next Reunion, June, 1940

Robert F. Olds is an engineer in the division of Power-Flood Surveys, of the Federal Power Commission. His residence address is 1911 North Harvard St., Arlington, Va.

Jeff L. Alexander is vice president of the Twin City Rapid Transit Co., of 1 South 11th St., Minneapolis, Minn.

Gottard W. Carlson, who is an engineer with the New England Tel. and Tel. Company, lives at 57 Governors Rd., Milton, Mass.

1907

Next Reunion, June, 1940

Carl Lekburg represented the University at the installation of Dr. Cluverius as president of Worcester Polytechnic Institute in October.

Lucius D. Barrows, chief engineer of the State Highway Department, is secretary of the Maine Good Roads Assn.

Major Albert W. Stevens, of the U. S. Army Air Corps, a native of Belfast, has been transferred from duty at Second Corps Area Headquarters, Governor's Island, N. Y., and assigned to duty at Lowry Field, Denver, Colorado.

Benjamin F. Williams lives at 326 Portia St., South Amboy, N. J., where he is stores manager of the National Lead Co., the titanium division.

Arthur E. Tremaine is vice president and general manager of the Doyle, Carter Co., Inc., of 39 Wilson St., Brewer.

Arthur N. Beal is retired and lives at 304 East Arrow, Fontana, California.

1908

Next Reunion, June, 1940

Rev. T. W. Fessenden, who has recently retired, requests that his mail go to 609 North Osceola Ave., Clearwater, Florida.

Charles A. Johnson, formerly at the LaTuque, Quebec, plant of the Brown Company, has been appointed chief engineer of the company at Berlin, N. H.

Robert E. Potter, who is at the Navy Yard in Portsmouth, N. H., as a mechanical engineer, lives at 62 Whipple Rd., Kittery, Maine.

1909

Next Reunion, June, 1944

At the annual meeting of the New England Association of Colleges and Secondary Schools held in Boston, December 8-9, Daniel W. MacLean, principal of Berlin, N. H., High School, was elected president.

Harold A. Rich sent us a note giving information on '09ers—he and Fred Knight were drawn for jury service at the September term of the U. S. District Court in Boston; he writes, "neither of us had ever attended a trial before and found the experience instructive, though not always entertaining." They hoped to hear a case prosecuted by Arthur J. B. Cartier, an assistant U. S. district attorney, but none of his cases came to trial during the term. "As a matter of fact, only three per cent of the criminal cases in the Massachusetts District ever come to a jury trial, a fact which reflects considerable credit on the district attorneys." As most of the assistants are specialists, Arthur Cartier has become an expert in prosecuting counterfeiters and has done considerable lecturing on this subject. He has recently moved to West Newton, Mass., street address being 1659 Washington St.

Percy P. Mooney, of 772 Oakridge Drive, Jackson, Michigan, is electrical supervisor of the Consumers Power in Jackson.

Leslie Edgcomb is president of the Edgcomb Steel Company which is located at "D" St. below Erie Ave., in Philadelphia, Pa. He lives at 342 Llan-drillo Road, Cynwyd, Pa.

1910

Next Reunion, June, 1944

By some oversight, item in last month's *Alumnus* about A. K. Gardner got into the 1912 personals. He is, of course, 1910, and we have an additional piece about him. He was given the certificate of recognition for outstanding work as an extension agent by Epsilon Sigma Phi, national honorary extension fraternity, in November. He is the second Maine extension worker to receive this award; Dean Deering, '12, being the first. It is of note, too, that no other New England extension worker was so honored this year.

Elected to the Board of Directors of the Maine Good Roads Association was H. W. Wright, of Falmouth Foreside.

Howard W. Hayes is located at 5710 Cherokee Ave., Tampa, Florida. He is with the Texas Company.

William C. Olsen, attorney, is located at 100 East 42nd St., New York City.

1911

Next Reunion, June, 1941

Lewis A. Keen, formerly with the Haverhill Gas Light Co., Haverhill, Mass., is now with the Durham Gas Co., in Durham, North Carolina.

Carl Hutchins, of Mars Hill, was elected vice president of the Aroostook County Druggists' Association at the annual dinner and business meeting held in St. Leonard's, N. B., in October.

From the National Geographic Magazine for November, 1939, we take this excerpt from an article written by Frederick Simpich on "Chemists Make a New World." "Two American chemists, E. O. Whittier, '11, and Stephen P. Gould have just patented a still newer way of making yarn from milk. Of it, Dr. Whittier says: 'It is unsafe to

A SYMBOL OF SEVENTY FIVE YEARS

THE "MAINE 75's"

MAINE'S first edition of Commemorative Plates will appropriately symbolize the completion this year of the University's first seventy-five years from the original founding of the institution in 1865. Thus the 1940 Plates, a limited first edition with a distinctive, permanent backstamp, will be known as the Seventy-Fifth Commemorative Issue, coinciding with the University's special recognition this year of the anniversary of Founders' Day, February 25.

The first finished samples of the beautiful Maine plates have just been received from Wedgwood and production is expected to proceed at once.

Alumni who have not yet ordered a set of the "Maine 75's" or any who wish to increase original orders can still be accommodated, as long as the supply lasts, because of the unforeseen delay in production due to the European War. Orders received this month with the required deposit will be filled, as long as plates are available, with the authentic First Edition, the Seventy-Fifth Commemorative Issue. Orders will be accepted for any number of plates in any of the different center designs offered.

The colors available are blue or green. The samples just received from the manufacturer illustrate the effective beauty of the design in either the appropriate, soft Staffordshire blue or the light, attractive harmonious green. Prices of the plates are \$1.50 per single plate, \$8.00 for six, \$10.50 for the complete set of eight different centers, or \$15.00 per dozen.

The blank below mailed to the Alumni Office, 13 Fernald Hall, Orono, Maine, showing your choice of centers and color will be your order for a set of the distinctive and historical Maine 75's.

General Alumni Association, University of Maine, Orono.

Please reserve for me Maine Plates. I enclose deposit of \$ I shall pay the balance when Plates are ready for delivery. (Deposit: for one dozen, \$5.00; for eight, \$4.00; for six, \$3.00; for less than six, price of \$1.50 per plate payable with this order.)

For color I prefer: Staffordshire Blue Green

I wish the following center designs (please indicate number of plates of each design):

..... Alumni Hall Winslow Hall Alumni Memorial
..... Library Coburn Hall Stevens Hall
..... Wingate Hall	 Merrill Hall

Ship Plates to:.....

(Address)

predict the future of casein fiber in this country; but there appears to be a real need for an inexpensive fiber to be used as a diluent or extender of wool so that our inadequate supply of wool may be made to satisfy our needs at a lower cost. We have a potential annual supply of skim milk of 40 billion pounds over and above that now converted into manufactured products. This is equivalent to one billion pounds of casein fiber. It is equal to world production of rayon and is twice the consumption of wool in the United States. The economics of the textile situation will determine how far we can go with casein fiber." Dr. Whittier is senior chemist in the U. S. Dept. of Agriculture.

Harold R. Sargent is assistant hydraulic engineer with the Western Massachusetts Companies at 3 Avenue A, Turners Falls, Mass.

1912

Next Reunion, June, 1944

Mr. and Mrs. Lawrence H. Gregson are living at 17 McKean St., Brunswick, Maine.

James F. Jackson is an engineer with the Consolidated Edison Company, 4 Irving Place, New York City. His residence is 129 Dewey Ave., Great Kills, S. I., N. Y.

Dean Arthur L. Deering was elected secretary of the agriculture section of the

Ross H. Varney, retired, lives at 115 College St., Lewiston.

Margaret E. Graves writes that she is living at 10 Owen St., Hartford, Conn. Earl C. Goodwin's address—19 Crosby St., Augusta.

William J. Corrigan, who lives at 332 Penobscot Avenue in Millinocket, is treasurer of the Millinocket Foundry and Machine Co.

1916

Next Reunion, June, 1941

William Mackin, of Presque Isle, was named a director of the Aroostook County Druggists' Association at the annual meeting held in October.

Harry P. Merchant is operating superintendent and assistant store manager of Sears, Roebuck and Company at 24 Fullerton St., Boston. He resides at 430 Lowell Ave., Newtonville, Mass., and requests that mail go to his residence address.

Roger W. Bell is general manager of the A. P. W. Paper Company of Albany, New York. He gives his residence address as 20 Clayton Place.

Home economics teacher of the Senior High School at Watertown, Mass., is Miss Mildred Jones' position. She lives at 51 Brattle St., Cambridge.

B. West Lewis is supervisor of motor vehicles for the state of Maine, State House, Augusta. He lives in Boothbay Harbor.

1917

Next Reunion, June, 1942

Leola B. Chaplin, who is living at 102 Pleasant Ave., Portland, is instructor and head of the English Department of Westbrook Junior College. Mail goes to her at her residence.

Promotion for Warren B. Beckler. He is now superintendent of The Brown Company plant at La Tuque, Quebec.

The Canadian Geographical Journal for November, 1939, contains an extensive article "Canada's Pulp and Paper Industry," written by J. Newell Stephenson. Accompanying the article is a map showing the location of the pulp and paper mills in Canada. There are many interesting pictures also included in this article which traces the pulp and paper industry in Canada down through the years to the present time.

Foster D. Jameson lives in Waldoboro, Maine. He gives his occupation as poultryman.

1918

Next Reunion, June, 1943

George W. Sullivan is located in Pawtucket, R. I., with the Blackstone Glazed Paper Co. Mr. Sullivan is a chemist and head of the printing department. He resides at 25 Clarner St., Pawtucket.

Norman Shaw, of the law school, is located in Bar Harbor.

John M. O'Connell, Jr., is living at 241 Center St., Bangor. He is connected with the *Bangor Daily News* and is in the insurance business.

Albert W. Wunderly, of 9 Lincoln St., Arlington, is a lawyer at 73 Tremont St., Boston, Mass.

George M. Carter was elected president of the Caribou Fish and Game Club at the annual meeting of that group held in early December.

1919

Next Reunion, June, 1942

At the annual meeting of the Penobscot County Farm Bureau held in early November, Thomas Davis, of Veazie, was elected vice president.

Mrs. Arthur Stevens, of Orono, is assisting in the department of dramatics and public speaking at the University. She has begun work in classes on theatre appreciation and public speaking.

Marjorie Gooch is now living at 1812 K St., N. W., Washington, D. C. She is statistical consultant in the Children's Bureau, working in public health. Her work will take her all over the United States.

Frank W. Lord, of Kezar Falls, is a member of the York County committee on land use problems.

Charles A. Haynes is city clerk in Ellsworth. Residence—26 South St.

Mr. and Mrs. Hugo S. Cross live in Guilford where he is manager and treasurer of the H. Douglass Co.

Box 452, Houlton, Maine, is Ray M. Astle's mail address.

1920

Next Reunion, June, 1942

Charles Snow, superintendent of schools in Brownfield, Denmark, Fryeburg, and Stowe, was a speaker on the Mental Hygiene program of the teachers' convention held in Lewiston.

Fred T. Jordan, of Portland, was speaker at the Eastern Maine Underwriters Association at their regular monthly meeting held in Bangor, December 1. Mr. Jordan is now manager of the home office agency of the Union Mutual Life Insurance Company.

Harold H. Worth, of 1117 South Highland Ave., Los Angeles, Calif., is an industrial engineer, manager of the Los Angeles office of Stevenson, Jordan and Harrison Industrial and Management Engineers of New York City. Business address—333 Chamber of Commerce Building.

1921

Next Reunion, June, 1941

Mr. and Mrs. Edgar ('18) R. Ring are located at the Rockefeller Institute, Princeton, N. J. Mrs. Ring is of the class of 1921.

C. L. Partridge lives at 73 Green St., Augusta.

Joseph B. Chaplin, principal of Bangor High School, lives at 188 Fountain St.

Bernard Bornstein is technical adviser for the Norton Co., of Worcester, Mass., and lives at 15 Gialynn Rd., Newton Centre, Mass.

1922

Next Reunion, June, 1941

R. Warren Graffam was recently elected president of the Pittsburgh Kiwanis Club for 1940. He is past president of the Maine alumni of Western Pennsylvania Assn.

John D. McCrystle, formerly with the LaTuque plant of The Brown Company, has been named production manager of both the Brown Company and the Brown Corporation and is located now in Berlin, N. H., his home town. Of him it is said, "citizens of Berlin and employees of the Brown Company will recognize in Mr. McCrystle not a new boss but an old friend who returns to his home town determined to bring back to it the security and prosperity which are attendant upon a successful industry." They are making their home on Church St.

John L. Quinn is county attorney for Penobscot County. His business is located at 16 Broad Street in Bangor and his residence 275 Pine St.

Attorney John H. Needham has office on Mill Street in Orono. He lives at 100 Main St.

Next Reunion, June, 1944

Robert (Bob) Parks is general chairman for the New Year's dance to be sponsored by the Boston Maine Alumni Association. Marion (Holly) Hawkes is also a member of the committee on general arrangements.

Incidentally Holly has recently been a patient at the Maine General Hospital here in Portland. She was recuperating nicely when I saw her and told me all about the '29ers that she saw at Reunion.

Harold T. Payson has recently moved to Falmouth Foreside, Maine, from Castine. He is the new head of the Science Department at Falmouth High School. Harold has served two years as principal of Cornish High School and two years as principal of Washington Academy at East Machias before coming to Falmouth. He is married and has five children, Paul, Dawn, Robert, Richard, and Jane.

For the sixth time in the past nine years, Clyde Stinson's Houlton High School Harriers have won the interscholastic championship. Some record! Clyde is instructor of science and track coach at Houlton.

Reginald H. Merrill, 358 Winthrop Avenue, New Haven, Conn., has been elected as secretary of the Knights of the Grip of Connecticut, a newly organized association of manufacturers' representatives contacting the wholesale grocery trade in that state. Reggie went to Connecticut in 1938 and is vice president of Pozzy Horlocks and Merrill, Inc. He has been in the food brokerage business since 1930. He writes that he attended the Maine-Connecticut game this fall and met there "the Hector Lopeses." He says that he has taken up postage stamp and naval cover collecting and belongs to the New Haven Philatelic Society and to the David Bushnell Chapter of the Universal Ship Cancellation Society.

Guy H. Sturgis, Jr., (Bud) is now living at 16 Dawes Street, Newburyport, Mass., where he is manager of New England Telephone and Telegraph Co., in that city. He is married and has a son and daughter.

Calista Mutty Snyder (Mrs. Ralph L.) lives at 117 Adams Street, Port Clinton, Ohio, where her husband owns a newspaper. They have two daughters, Marlo, aged four and one-half years, and Sally Ann, only nine months. Calista is active in club work and is serving her second year as president of the State Federation of Women's Clubs. She writes that she occasionally attends meetings of the Ohio Maine Alumni Association and now and then sees Laura and Art Willey, who live in Cleveland.

Merry Christmas and Happy New Year! Please make a resolution to send me lots of personals.

Barbara Johnson
32 Orland Street
Portland, Maine

1930

Next Reunion, June, 1944

"The History of Secondary Education in Waldo and Piscataquis Counties in Maine," by Miriam S. Anderson, appeared under University of Maine Studies in the November, 1939, Maine Bulletin.

Howard DeCoster is now in Laconia, New Hampshire, with Farm Service Stores. He formerly was in Norway, Maine.

The Fort Fairfield Lions Club recently started a movement for the organization of a community betterment committee for the general improvement of the town.

Kingdon Harvey was one of the committee elected, to work with committees from the Rotary Club, Chamber of Commerce, and B. P. W.

Harland Knight is Agency Secretary for the Union Mutual Life Insurance Co. of Portland, Maine. His residence address is 125 South Street, Gorham.

Everett C. Lary is an industrial engineer with the Owens Illinois Pacific Coast Co., Los Angeles. He is living at 813 Coast Blvd., South, Laguna Beach, Calif.

Milford Payson is a director of the Camden (Maine) Outing Club.

Pauline Hall Leech
Oneonta, New York

1931

Next Reunion, June, 1944

Happy New Year!

I haven't much to offer in the way of resolutions, but I hope I can keep the column interesting and that by the end of 1940 I'll still be an ordinary secretary writing up weddings and new positions and advanced degrees, and not a war correspondent for '31's soldier boys.

Speaking of weddings—Paul Elliott was married last August to Miss Elise Place, of Upper Montclair, New Jersey, in a candle-light service at the First Methodist Episcopal Church. They took a wedding trip through the New England states and are now at home at 159 Spencer Street, Naugatuck, Conn. Paul is research engineer in the Development Department of the U. S. Rubber Co. Best wishes to both of you!

Congratulations also to Mr. and Mrs. George Farnsworth, who were married in Philadelphia, November 16th. Mrs. Farnsworth was formerly Miss Mina Carver, of Beals, Maine. She is a graduate of Jonesport High and attended commercial school in Bangor. Their address is 25 Prospect Place, New York City. How (and what) is business, Red?

This month's news seems to bolster up the idea that women like to supervise things. Beryl Bryant is medical supervisor at the Maine General Hospital, Portland, Maine; and Florence Knox is home management supervisor for the Farm Security Administration, 99 Main Street, Lancaster, New Hampshire. Beryl's address is 25 Granite Street, Portland.

More about our roving engineers. Bill Hamblet is teaching engineering classes and is Dean of Boys in the high school at East Hartford, Conn. His address is 36 Livingstone Road, East Hartford.

Albert Heckman is point standards engineer for the Fraser Paper Co., Ltd., Madawaska, Maine.

Bill Jensen is manager of appliance sales, Middle Atlantic District, for Westinghouse Elec. & Mfg. Co. He works at 3001 Walnut Street, Philadelphia, and is living at 41 So. Madison, Highland Park, Pa.

Gil Weeks is with the Western Elec. Co., Hawthorne Station, Chicago, Illinois. His residence address is 4735 N. Malden St., Chicago.

We all wander back to campus, I notice, any time we get a good enough excuse. Norm Webber combined Homecoming week-end with an invitation to address Alpha Zeta (honorary agricultural fraternity, in case you've forgotten). Norm is now special agent of the Hail and Rain Department of the Hartford Fire Insurance Co.

I'm still being reminded of finances every so often. A letter the other day from the Maine Treasury Department made me wonder which term bill I'd forgotten to pay, till I saw Bill Wells' sig-

nature at the end. The pine trees on his stationery are labeled "Business Manager and Purchasing Agent." Remember when we all used to be on the receiving end when it came to "pine trees"?

See you next month,
Doris L. Gross
Stonington, Maine

1932

Next Reunion, June, 1943

Dear Classmates,
Sorry about the news this month. Christmas shopping and news letters just do not go together.

Thanks for the Christmas card, Blondie and Helen Hincks and Davy, but I would like your address and I would like to know what you are doing now. Remember your promise, Helen

Al Gerry is in politics! Not satisfied in serving twice as city councilman, he recently ran again and received the majority of votes. In case you wonder where—Brewer, Maine.

Bill Murphy and his wife (Marjorie Moulton) have moved from Bangor to South Portland where Bill is a funeral director. Their address is 340 Ocean Street, South Portland.

Mrs. M. Anna Buck is in Honolulu, Hawaii. Lucky person. She is a junior bacteriologist for the Oahu Board of Health. Her home address is A-253 Oahu Street, Honolulu.

I'm ashamed of the length of this column. Please send me some news. I'm not a bit particular what it is

Mary G Bean

1933

Next Reunion, June, 1943

We're a little short of news this month. Where are all my "girl Fridays"? While I was sitting here this afternoon racking my brains for some choice items, I was pleasantly interrupted by a visit from Merle and Jack Leddy and their adorable little son, Bruce. (Please let me mention them, "Peanut," if you can scrape together any news on any '33ers. More power to you!) Jack had been busy on a law case most of the day and they were out for a short drive, dropping in to see us for a few minutes.

Flash—Another wedding of interest. Eloise Lull became the bride of Captain Ralph P. Eaton, U. S. A., on October 28 in Fort Crook, Nebraska. After a honeymoon in the Ozarks, the couple will be at home in Fort Crook. Best wishes.

Had a very nice letter from Phyllis Harding Kelley and it certainly was appreciated. Phyllis and Edward are still living in Springfield, Pa., eleven miles west of Philadelphia, where Edward is connected with the Biochemical Research Foundation. The Kelley's chief interest right now is the recent addition to their family. A son, Roger Llewellyn, born August 25. Dr. Kelley is president of the Philadelphia Maine Alumni and Phyllis writes that they are in close contact with all the Maine crowd around that particular section though the Class of 1933 does not seem to be very well represented. The Kelley's address is 10 S. Hillcrest Rd., Springfield, Pa.

Supt. Edward L. Linscott, who received his Master's degree in 1936, was recently elected chairman of the Hancock County Chapter of the American Red Cross.

"Jimmie" McClure has recently been appointed Boy Scout commissioner for the Twin City district of Katahdin Council, comprising Bangor and Brewer.

Blanche Henry is teaching in Calais,

Maine, and may be reached at 36 Lincoln St.

Tommy Viola, submaster at the Old Town High School, in addition to teaching history, is in charge of the musical activities at the school and directs the school orchestra. He has also organized a girls' glee club among the students, composed of some thirty voices. Quite a busy man, I should say!

Winona Harrison is located in Bangor, living at 263 State St., where she is engaged as a field worker for the Division of Old Age Assistance.

A Happy New Year!
Dorothy Findlay Carnochan
39 Falmouth St.

1934

Next Reunion, June, 1940

I hope I get in under the wire this month. Did you ever know such a busy month as December? There just aren't minutes enough in an hour. News isn't abundant this month, but a little is better than nothing.

News of Ted Janney tells us that he is in Oakland, Calif. He is still with the Travelers Insurance Company as Field Service Representative.

A nicely typewritten note from Earl Brown says that he is treasurer of the North Waterford Spool Co. and third selectman of the town of Waterford, also, (a tip for the ladies) he is free, white, and twenty-five, and enjoying himself. That really sounds interesting.

Ed DeCourcy is now assistant editor of "Printing" which, to the uninformed, including myself, is a trade journal of the printing industry. There is a chap who is really using his college training. The Decourcys are still living at 1904 Albany Ave., Brooklyn, N. Y.

I was surprised and pleased the other day to get a letter from Henry McCusker. It seems just yesterday that freshman Spanish class had a Christmas tree in Louis Cabrera's room and someone gave Mac a box of aspirin. Now Mac is a family man who is really settled. His little girl, Anne, is two years old. Mac is working for the John Hancock Life Insurance Company in Quincy and is going to Boston College Law School nights. That really takes courage, and my hat is off to him. He recently saw Larry O'Connor. Larry is working for the Bethlehem Ship Company in Quincy. He and Helen have two children. Mac has promised me a Maine get-together at his house and, believe me, after Christmas I'm going to take advantage of his offer.

I've decided it's time I saw a few of these Maine babies so am planning to stop at the Leddys on my way home and get to know Bruce before his mother and father tell him all the bad things they know about me.

There are a few more new babies since our last column. William Gilbert was born November 30 in West Orange, N. J. That makes William Henry Gilbert, the Third, which is beginning to sound like a royal lineage.

The Howard Knights have a new daughter, Virginia Edith, born November 18 at Richmond, Maine. I think an ideal job would be visiting nurse for Maine babies. I'd be busy all the time and cover the United States.

Lionel Desjardins received his Master of Arts degree from Maine this fall. Orville Guptill is principal of Morse Memorial High School in Brooks and is also vice president of the Waldo County Teachers Association.

Harry Tyler is director of training at Madawaska Training School at Fort

Kent, Maine.

It's time to dash to the Post Office now and stand in line for an hour.

I have a feeling this is going to be a wonderful new year, and I wish the same to all of you.

(Peanut)

Next Reunion, June, 1942

Dear Classmates,

Another Christmas has come and gone (or will have by the time you read what I'm writing) and I hope it was a wonderful one. May the New Year be successful for everyone, and may it bring many letters to yours truly.

Honestly, I hate to repeat myself all the time, but the scarcity of '36 news is disgraceful. All (or practically all) that you read is sent to me by the Alumni Office, and we really shouldn't expect them to do all the work. I can watch the Lewiston daily paper and the *Portland Sunday Telegram*, but you can imagine what I'd get out of those.

How about making a New Year's resolution to go out immediately and buy a penny post card and write a note to me.

Now to get on with the news:

Beth Schiro was married to Robert Baker, of New York City at the Bangor House (date not given). Geneva Epstein was maid of honor at the ceremony. Their wedding trip was to southern California and they expected to be at home to friends December 10. They will live at 130 East 39th Street, New York City. Beth has recently been employed with Martin's in Brooklyn, N. Y.

Mr. Baker was graduated from the Philadelphia Textile School and is associated with the textile selling agency of Terhune, Yeareance, and Wolfe as a stylist.

Congratulations and best wishes to you both.

Alton Prince's engagement to Marian Starkey, of Brewer, was announced by Miss Starkey's parents in November. Miss Starkey is a graduate of Farmington State Normal School and is now teaching in Orono.

The newspaper clipping said that the wedding would take place in December,

173 Summer St., Boston, Mass.

so I suppose by this time we can offer our congratulations to them on their marriage.

Alton received his M.S. in Botany at Maine in 1938. He is now employed at the Arnold Arboretum at Harvard where he is also studying towards the degree of Doctor of Philosophy.

Many thanks and belated congratulations to Vincent Hathorne who writes that he has been married since last spring. His marriage took place in Norfolk, Virginia. (He doesn't give his wife's maiden name.) After the marriage they drove across country to Coronado, California, where they lived during the summer. Their address now is VB-6, Naval Air Station, Pearl Harbor, Hawaii. Vin says that Roger Hutchings is the only '36er he has seen in over a year. Rog is also in the Naval Air Reserves and "hangs out" around Mexico and California.

Tom Johnson (ex-'36) is an ensign (so's Vin, by the way) in the Naval Air Reserve and has just been ordered to report for duty with VF-7, USS Wasp.

Bob Littlehale is employed by the Mosler Safe Company in Boston. His address is 30 Fairmont Street, Belmont, Mass.

Charles Woelfel is superintendent of one of Firestone's rubber plantations at Liberia, West Africa. In a recent letter he states that he would like very much to have some news from some of his forestry friends.

Sincerely yours,

Phyl Webster

Next Reunion, June, 1942

Dear Classmates,

William Whiting is teaching at Rockland High School. His address is 16 Gurdy St.

Walter Green was recently elected as teacher of English at Haverhill High School, Haverhill, Mass. His address is 38 South Chestnut St., Bradford, Mass.

Libby Gardiner reports that Peggy Thayer is costume designing with S. Augstein, New York City. She is living at 165 East 60th St., New York City. Peggy always did have lots of designs between the lines of her home economics notebook. Maybe we will soon be buying dresses with a tag marked, A la Peggy Thayer.

Another Thayer, Arthur, is with the

Bangor Furniture Co.

General Electric Company at Schenectady, N. Y. His address is Park Lane Apts. #5, 215 Union St., of that city.

The Lost is Found. Ding Dong Bell is living at Elkton, Maryland. He played professional baseball this past summer there. At the present time Ding Dong is employed by the state of Maryland. His address is Box 42.

Congratulations to John and Ruth Oliver (Ruth Currie), a son, born June 12. They are living at Riverside Drive, Augusta, Maine. Thanks for the card, Ruth. I am sorry not to have received the news before.

Best wishes to Mr. and Mrs. Dewing Proctor. Dewey was married to Miss Marion Merrill, of Groveton, N. H. Mrs. Proctor was graduated from Wilton Academy and the Maine School of Commerce in Portland. She has been employed as bookkeeper at the People's National Bank at Groveton, N. H.

Lester Smith is an assistant in the department of Bacteriology at the Maine Agricultural Experiment Station. He is living at the Alpha Gamma Rho house on College Ave.

Connie Davenport is doing office work for the Bantam Car Company of St. Petersburg, Fla. How we envy you, Connie.

Barbara Corbett informs me that Pat Hutchins was married to Miss Mary Bruce this summer. Mrs. Hutchins graduated from Michigan State College and is employed by the department of Bacteriology there. Best wishes to you both.

Frances Jones is doing secretarial work for the General Electric Contracts Division. Her address is 219 Park Drive, Suite Five, Boston, Mass.

Harold Young writes that he is living at 197 Pleasant St., Willimantic, Conn. He is working for the United States Forestry Service. Harold has charge of a twenty-man forest hazard reduction crew. Others who are also employed by the United States Forestry Service are: Andy Poulsen, as check scaler and grader at Steep Falls, Maine; Bob Dinneen, as unit supervisor at Willimantic, Conn.; Dick Trimble is employed at the Bartlett Experimental Forest at Bartlett, N. H. Bill Chapman is working for the DuPont Paint Company in Portland. Bill Hooper is cruising timber for the Diamond Match Company near Naples, Maine. Johnny Green is senior silvicultural foreman at a CCC camp in Connecticut. Thanks for the letter, Harold.

Whoa! Whoa! The column was ready to be sent to the Alumni office when the postman dropped an envelope at the door. I just couldn't wait another month to bring the glad news so I'll squeeze it in somehow. It was an announcement of the marriage of Marge Young to Harry "Tommy" Lees. The wedding took place on the ninth day of December at South Walpole, Mass. The Lees will be at home after the first of January at 1171 Boylston St., Boston, Mass. Best wishes to you both.

Happy New Year, and please make a New Year's resolution to send a card with some news.

'Til next month,

Henny Woodbury
7 Park Lane
Orono, Maine

1938

Next Reunion, June, 1940

Dear Classmates,

In the Chestnut Street Baptist Church in Camden, Elizabeth Matthews was recently married to Dwight Lord. Dwight's sister, Dorothy, was maid of honor and the best man was Dr. Judson

Lord, his brother. Among the ushers were Hal Woodbury, '36, and Howard Forrestall.

A reception was held directly following the ceremony. After a wedding trip the couple will live on Union Street, Camden. Dwight, you know, is working for the Central Maine Power Company in Rockland.

Received a grand letter from Betty Bruce, now Mrs. Arthur Smith. They were married in the village church at Nahant, Mass. The maid of honor was Lena Rafuse, of Lynn, who was the bride's roommate during freshman year.

Art's attendants were Allen Trask, best man; Sparky Troland, Dick Ireland, and Gerald Hart, ushers.

Mrs. Hart (Marjorie M. Thompson) was in charge of the guest book.

Betty and Art are now living at 946 Middlesex Street, Lowell, Mass., where Art is an engineer with the Lowell Gas & Light Co.

John Hagggett's engagement to Eleanor Clemons, of Lee, was announced on Thanksgiving Day (30th or 23rd, I don't know). Miss Clemons is a graduate of Lee Academy and Maine School of Commerce and has attended summer sessions at the University of Maine. At present she is coach and faculty manager at Lincoln Academy, Newcastle. John is employed in the Lane Construction Company in Meriden, Conn. The wedding will take place in the near future.

John Ross is a senior forester in the U. S. Forestry Service. He is in charge of a crew in Leominster, Mass. His address is temporarily Whitney Hotel, Leominster. Last spring John received his Master's degree from Yale.

Benjamin Viner is a partner with Viner Brothers (moccasin manufacturers) at 304 Hancock Street, Bangor. His residence address is 52 Division Street, Bangor.

Buzz Sherry has an apartment with Bob Lakin ('37) at the Oliver Hastings, 315 W. 19th Street, N. Y. C. Buzz is in the credit department of the Hotel New Yorker.

Arnold Spavin is in the inspection department of the Associated Factory Mutual Fire Insurance Company, 184 High Street, Boston, Mass.

Hiram Smith is working with the Polaroid Corporation as a chemical engineer. His address is 285 Columbus Ave., Boston, Mass.

Helen Lewis is a technician at the R. B. Jackson Memorial Laboratory in Bar Harbor.

Phil Peterson is assistant manager of the Power's Theater in Caribou, Maine.

Joe Lewis is electrical engineer with the Consolidated Edison Company of New York. His residence address is 189 Sterling Place, Brooklyn, N. Y. He is acting as a junior engineer in a two-year student engineering training course.

Dave Carswell is with the National Park Service Engineering Laboratory in Washington, D. C.

The reports from Homecoming have sounded swell. Johnny writes that every '38er who registered wore pale blue ribbons with 1938 in dark blue, and that, of course, our number one classmate (Dr. Hauck) wore his all day Saturday. John says we had a table near the front for the Alumni Luncheon.

If you had to miss it, start planning on Reunion No. 1 in June. It will be great to see you all again.

Sincerely,

Mary Deering

With CHEVROLET Gearshifting is **80% AUTOMATIC...** **only 20% Driver Effort!**

Only Chevrolet has the New Exclusive Vacuum-Power Shift... the only steering column gearshift that does 80% of the work for you and requires only 20% driver effort!

Almost all cars have steering column gearshifts today—but only *one* car has a steering column gearshift that is 80% automatic in operation—and that car is Chevrolet.

You can operate Chevrolet's New Exclusive Vacuum-Power Shift with one finger... *without taking your hand off the steering wheel*... with much less effort and travel than are required to operate the ordinary steering column gearshift.

This New Vacuum-Power Shift is standard equipment on all Chevrolet models, at no extra cost. It's exclusive to Chevrolet for '40 among all cars regardless of price. It's another vitally important reason why "Chevrolet's FIRST Again!"

CHEVROLET MOTOR DIVISION, General Motors Sales Corporation, DETROIT, MICHIGAN

85-H.P. VALVE-IN-HEAD SIX

\$659

AND UP
at Flint, Michigan Transportation based on rail rates state and local taxes (if any) optional equipment and accessories—extra. Prices subject to change without notice.

"Chevrolet's FIRST Again!"

WHY SHIFT FOR YOURSELF?

Let This Power Cylinder Shift for You!

Why shift for yourself? Why do it the hard way? Chevrolet's Exclusive Vacuum-Power Shift is controlled from the steering column by an extra-short lever—its end right under the rim of the steering wheel, within easy finger reach. The only effort required of the driver is to move the lever, the vacuum cylinder supplies the effort required to move the shifter forks and gears within the transmission. Instead of supplying all the effort of shifting, the driver supplies only one-fifth, the compact, simple vacuum mechanism, positive and un-failing in operation, does the rest.

A NATION UNITED BY TELEPHONE

JUST twenty-five years ago, on January 25, 1915, the first transcontinental telephone call was made. East and West were united in dramatic ceremony.

President Wilson talked from the White House across the country, testifying to the nation's pride "that this vital cord should have been stretched across America as a sample of our energy and enterprise."

The inventor of the telephone, Alexander Graham Bell, in New

York, repeated across the continent to San Francisco the first words ever heard over a telephone—"Mr. Watson, come here, I want you"—to the same Thomas A. Watson who had heard them in the garret workshop in Boston in 1876.

That ceremony ushered in transcontinental service twenty-five years ago. At that time it cost \$20.70 to call San Francisco from New York. Now it costs \$6.50 for a station-to-station call and only \$4.25 after

seven in the evening and all day Sunday.

In 1915 it took about half an hour, on the average, to make a connection. Now most calls are put through without hanging up.

These are measures of progress in the never-ending effort of the Bell System to give faster, clearer, more useful and courteous service to the people of the United States.

BELL TELEPHONE SYSTEM
