American Royalty

Christopher Levett Englishman has left us a detailed account of a meeting with early American Royalty in the Casco Bay area. In a report published at London 1628, he writes how in 1623, armed with a grant from King James for 6,000 acres of land east of the Piscataqua, he sailed along the coast searching for a likely place to settle. Whenever the company was forced by inclement weather to anchor they were comfortable for everywhere they found wood enough for felling, fowl enough for killing and good fresh water enough for drinking.

In Casco Bay he found much fowl, what is now Fore River (which he named Levett River) had salmon, sturgeon abounded in the Bay itself.

All along the way Levett was received well and hospitably by the Indians. Nowhere was there a sign of the bitterness and hatred that later flared into the Indian Wars. Cogawesco, Sagamore of Casco, told Levett that if he would 'sit down' (settle) there, he would be very welcome and to continue with Levett's own words:

'That he (Cogawesco) and his wife would go along with me in my boat to see a goodly place which courtesy I had no reason to refuse because I had set up my resolution before to settle there, and was glad to have this opportunity that I had gained the consent of them who as I conceive hath a natural right on inheritance as they are the sons of Noah.'

The next day the wind came fair and I sailed to (the Bay) with the King, Queen and Prince, their bows and arrows, dog and kettle in my boat, his Royal attendance rowing by us in their canoes. When we came to the Bay the masters of the ships there came to bid us welcome. The woman or Queen asked me if these men were my friends. I told her they were. Then she drank to them and told them they were welcome to her country and so should all my friends be at any time.

And thus I have obtained a place of habitation in New England where I have built a house.

DR. HAUCK'S REPORT

gineering. This department is prepared to provide a high quality professional engineering training for students interested in this field which is becoming of increasing importance to Maine farmers.

Among the significant changes in courses of study has been the establishment of a new program for two-year agricultural students, operative in the fall of 1950. This is a terminal course enabling farmers who feel the need for additional training to specialize along the lines of their interest.

Occupancy of the Plant Science Building in September, 1949, by the Departments of Agronomy, Botany and Entomology, Forestry and Horticulture and by the equivalent departments and special-

ists of the Maine Agricultural Experiment Station and the Agricultural Extension Service made possible an improved, better coordinated program of teaching, research, and extension in these fields. At the same time congestion in Winslow Hall, Coburn Hall, and the Agricultural Engineering Building was relieved.

The new Animal Pathology Laboratory enlarges the University's services to Maine's raisers of poultry and livestock. Made possible by a special appropriation by the 94th Legislature, this three-story brick building houses laboratory facilities for, and records of, work with pullorum, mastitis, Bang's disease, and many other animal disorders. Funds from testing fees and from the sale of poultry bron-

(Continued on Next Page)

THE President's Report for the biennium ending June 30 last is one which should give comfort and satisfaction to every alumnus. The Report should also cause alumni much concern for in concluding the Report President Hauck touches briefly upon the financial situation of the University pointing out that the budget for the present year is off balance by \$165,000.

The progress and accomplishments of the past biennium are modestly stated by President Hauck in his Report. Total registration including the summer session for 1948-49 was 5736 and in 1949-50 it was 5551. In the period between the cessation of hostilities and June 30, 1950 5538 veterans have been enrolled. Of these 4836 have attended the regular sessions, 265 have been Summer Session students and the remainder have studied by extension or in the two year agricultural program. Of the veterans enrolled 2180 had received their bachelor's degree and 163 their master's degree as of last June.

Following a discussion of enrollment, President Hauck reported at some length on instruction of which some excerpts are printed.

College of Agriculture

"A fairly consistent pattern has been established which indicates that about 47% of the students in the College of Agriculture are enrolled in four-year Agriculture, 28% in Forestry, 20% in Home Economics, and 5% in two-year Agriculture.

"One of the notable changes in the instructional program of the College during the biennium was the establishment of a separate department of Agricultural En-

The concluding paragraphs of President Hauck's Report are so compelling and cogent that they are printed here rather than at the end of the article.

Enduring Values

"A university is much more than a collection of buildings and a set of operational statistics. The figures and other data set forth here do reveal much concerning the University of Maine and its meaning to the people of this State. For the whole story, however, one must look beyond the listing of current facts.

"The true measure of an institution's role in human society can be taken only in terms of the purpose that is served. Training young men and women for a livelihood is a worthy activity, and yet a university has a higher function than that. Besides being a training place for the minds and hands that are to shape our future, *an institution like ours must be a conservator of the best that is in our civilization. It must be a guardian of values that endure.*

"In times like these, when so many of our values are being severely tested, this function of the university is surely more vital than ever. Much is going to depend on how well we safeguard our American heritage, on how well we preserve the untrammelled search for truth, and on how well we exemplify the things our youth are going to be called upon to defend.

"We know that young Americans are now confronted with grave responsibilities, that their country's demands upon them will be heavy. We know, too, of the exactions that this decade has already made upon them, and of the high faith with which great sacrifice has been made. When we continue to expect so much of our youth, we are more than ever obligated to help them recognize and comprehend the values that we cherish as members of a free society.

"To imbue its students with the virtues of the good citizen, to help them maintain the reverence that freedom-loving people have for the dignity of the individual, to school them in self-discipline, industry, and integrity—these are a primary concern of a college or university. These services of higher education were never more compellingly needed than now. Their value to our nation must be taken into account in any appraisal of a University and its needs at this time."

The President's Report

chitis vaccine have provided most of the equipment

College of Arts and Sciences

Registration of 1874 students in the College of Arts and Sciences for the fall semester of 1949 represented the peak of the postwar increase in enrollment. Contrasted with the previous biennium, the number of students in upper level classes was almost doubled. Accommodation to the heavy demands this situation produced has been the major concern of both administration and teaching.

One important function of the College of Arts and Sciences is the teaching of courses that are of service to other colleges of the University in their programs of instruction. Student registration in such courses has increased steadily, but distribution of this college's teaching load remains about the same: Arts and Sciences, 4%; Technology, 20%; Agriculture, 10%; School of Education, 6%.

The work in Journalism, which had been under the administration of the Department of English, was organized as a Department of Journalism in the fall of 1949. New physical facilities in Fernald Hall were made available for the program. A summer course, Staff Training, was added to enable students to gain experience on Maine newspapers. Cooperation of publishers and editors throughout the State gives promise that the Staff Training course will serve as a valuable means of preprofessional orientation.

The programs in Art and Music have shown steady development, during the biennium, and outstanding musical performances and art exhibits have been enjoyed by appreciative audiences. Student registration in the formal courses has taxed the capacity of our physical facilities and teaching staff. The improved opportunity for instruction in Applied Music, made possible by the recent renovations in Carnegie Hall, has been reflected in the quality of both solo and group performances. With the more adequate opportunity for display, the effectiveness of art exhibits has been much improved. A regular series of loan exhibits throughout the year has added greatly to the cultural life of the University.

The curriculum in Public Management has been widely recognized as a significant advance in planned preparation for public service. This, a major program in the Department of History and Government, enables qualified students in Government to follow one of several options designed to prepare them for careers in City and Town Management or State and Federal Administration. The summer internship, a requirement for the B.A. degree in Public Management, has received the excellent

cooperation of public officials in our own and neighboring states.

Completion of the Engineering and the Plant Science buildings has made possible the renovation and redistribution of space in Coburn Hall and Wingate Hall. Improved facilities in these two buildings make possible a much more effective use of teaching equipment and greatly strengthen the laboratory work in the heavily registered preprofessional programs in Zoology and Physics.

Faculty attention has been directed to a continuing study of the basic programs in the College with the hope that further improvement and closer integration of courses can be effected. The irregularities in planned course sequences, caused by the large number of students whose programs were interrupted for military service, have been greatly reduced. Appropriate committees are now studying the major programs to determine the effectiveness of the basic program as a preparation for advanced work. With full realization that some students would be best served by allowing further basic work beyond the second year, it is the expressed intention of the major programs to encourage work in advanced courses during the last two years which will serve to give greater depth of learning in a chosen area. The great majority of students have taken full advantage of this opportunity to pursue well integrated programs.

College of Technology

The New Engineering Building constitutes the most significant addition to the College during the biennial period. The building provides office space for the Departments of Civil and Mechanical Engineering, the Technology Experiment Station, and the College Administration, as well as laboratories for Geology, Sanitary Engineering, and the Experiment Station. There are 19 classrooms.

The acquisition and construction of new laboratory equipment in Chemical, Electrical, and Mechanical Engineering have made possible added instruction in some of the newer practices and techniques in these fields. Increasing student interest in the City Management and Light Building Construction options, offered by the Civil Engineering staff, deserves mention. Recent staff appointments and procurement of laboratory apparatus have strengthened our course offerings in the field of physical chemistry, thereby broadening the entire Chemistry curriculum. A five-year undergraduate curriculum emphasizing the operational management aspects of Pulp and Paper production has been inaugurated in the Department of Chemical Engineering.

Particular attention is called to the Pulp and Paper Foundation, which came into existence in February, 1950.

Through funds contributed by alumni and by the pulp and paper industries, the Foundation will offer financial assistance to students in the five-year operational management curriculum, and will make possible increased research and instructional activity by the staff.

During the biennium the faculty has concerned itself with a careful and considered study of its various curricula. A technological curriculum cannot remain static but must in every sense of the word be a product of the times. The faculty is well aware of the urgent need for a proportionate emphasis on the social-humanistic studies and has devoted thoughtful consideration to the manner in which these studies should be integrated in a technological curriculum.

The faculty is fully conscious of the many intellectual benefits which accrue from an active and stimulating graduate curriculum. Continued growth in the field of graduate instruction deserves our attention and our best efforts.

During the biennium the curriculum in Engineering Physics was accredited by the Engineers' Council for Professional Development. As this report is being written, word comes that our curriculum in Chemical Engineering has also met the Council's high standards. The Council has accredited the curriculum upon the recommendation of the Education and Accrediting Committee of the American Institute of Chemical Engineers.

School of Education

The School of Education offers professional courses for prospective and present teachers, principals, supervisors of instruction, guidance counselors, and superintendents of schools. Undergraduate students are admitted to the School of Education by transfer from other colleges and teacher training institutions after completion of two years of preparation.

Upon admission to the School of Education, students enroll in numerous academic courses to develop background for teaching in broad fields. Along with this academic preparation for a teaching field, students take appropriate educational courses designed to give them skill and understanding in matters pertaining to the profession of teaching.

The curricula in the School of Education have undergone a thorough revision in the past two years to enable students to prepare themselves more effectively to teach the various subjects offered in our public schools. The chief function of the School of Education is the training and preparation of those who will teach in and administer secondary schools, yet, to help relieve the shortage of elementary teachers and administrators, it temporarily offers work in that field. The School also offers educational courses for students in other divisions of the University.

(Continued on Page 16)

ALUMNI LAWMAKERS

THE University of Maine is well represented in the 95th Legislature of the State of Maine. In the Senate seven alumni hold seats, while in the House of Representatives are eighteen alumni.

Governor Frederick G. Payne, Waldoboro, recipient of an honorary degree in 1949, heads the list of the many state executives who are alumni. Leroy F. Hussey '19 is chairman of the Executive Council while Harold I. Goss '09 was re-elected for the fifth time as Secretary of State. Albert K. Gardner '11 was re-elected Commissioner of Agriculture. Harland A. Ladd '25 is Commissioner of Education and Albert D. Nutting '27 is Forest Commissioner both by gubernatorial appointment. Harvey Pease '14 is again Clerk of the House. James E. Harvey '94 is the oldest alumnus on the legislative scene this year. He has been renamed Document Clerk, a post he has held for several sessions.

Senators

The only woman in the Senate is Mrs. Mary (Leonard) Kavanaugh '14, one of Androscoggin County's three senators. A widely known real estate and insurance broker, Mrs. Kavanaugh lives in Lewiston where she is active in the business and civic life of the city. A director of the Central Maine General Hospital, the local chapter of the Red Cross and the First Savings and Loan Association, Mrs. Kavanaugh is also a past president of the Lewiston PTA, the Lewiston Board of Realtors and the Maine Real Estate Association. She is also a member of several organizations and is a former member of the Realtors Washington Committee. At the opening of the Senate she was presented a lei from Hawaii by officers of the National Realtors Association. For the past five years she has been chairman of the Maine Real Estate Commission. Long an active alumna, Mrs. Kavanaugh recently assisted in reorganizing the Auburn-Lewiston Alumnae Association.

S. Wilson Collins '19, Caribou, is serving his second term in the Senate, having previously served in the House in the 92nd and 93rd Legislatures. Banker and lumberman, Mr. Collins has been prominent in political circles and was widely mentioned as a candidate for president of the Senate. He is currently serving as a member of the University Board of Trustees.

Presently in his third term in the Senate, Robert N. Haskell '25, Bangor, has also served one term in the House. Vice

president and general manager of the Bangor Hydro-Electric Company, director of the Merchants National Bank of Bangor and a member of the Board of Governors, National Red Cross, Mr. Haskell also serves on numerous committees in the business, civic and social life of the State.

The youngest member of the Senate is Linwood E. Palmer Jr. of Nobleboro, who has been a representative in the 93rd and 94th Legislatures. Senator Palmer attended Colby and summer sessions at Maine. He is a school teacher and is also in the grocery business.

Both senators from Hancock County

are alumni. Malcolm P. Noyes '34, Franklin, and Wendall T. Smart '35, Ellsworth, were re-elected to the Senate. One of the oldest members of the Legislature in point of service, Senator Noyes is currently serving his seventh term. He is considered an authority on taxation and again serves as chairman of that important joint standing Committee. Senator Smart, a leading businessman in eastern Maine, is a hotel operator and fuel oil dealer. He was a member of the House in the 92nd and 93rd Legislatures.

Carlton S. Fuller, Buckfield, well-known educator, is a graduate of Bates but also has several courses to his credit at the University. A York County orchardist, Senator Fuller has been principal of several Maine high schools. He has previously served two terms in the House of Representatives.

House of Representatives

A freshman legislator, Henry W. Bearce '06, Hebron, returned to Maine in 1945 after having been on the staff of the Bureau of Standards in Washington for more than thirty-five years. At the time of his retirement he was chief of the Division of Weights and Measures of the Bureau and as such he twice went to Europe to represent his government in international standardization work on tools, gauges, dies and machine parts. Mr. Bearce is now engaged in orcharding.

Ernest H. Brown '36, Wayne, is one of the younger members of the House and is now serving his third term. Engaged in the lumber business, he is treasurer of the Wayne Woodworking Corporation.

A veteran in political circles who has served in both branches, Franz U. Burkett '16, Portland, returns to the Legislature this year after having been absent since 1935. A House member in 1929,

(Continued on Page 12)

The STUDENT UNION

CAN you visualize a building in which 2000 to 2500 students will be flowing in and out every day?

Can you imagine on the Maine campus a hall in which there could be, yes, probably will be, three or four luncheons or dinners, a dozen conferences and meetings, and scores of persons engaged in recreation, all underway at the same time?

Can you sense the joy and pride of an alumnus upon returning to his Alma Mater in having a building to which he can go to purchase a good meal, to attend a class reunion, to meet students who are prospective employees or to meet son or daughter for a visit in the Alumni Lounge?

If you catch even a small glimpse of these potential uses, which are but a few illustrations, then you understand in a small way what the Memorial Union is going to mean to our University.

And most intangible of all, but perhaps the most important aspect of the Union, is its limitless possibilities in adding to the educational, cultural and social life of Maine students, and especially in providing opportunities for their personal growth and development of initiative, ingenuity and leadership through a wide program of activities which most college Student Unions sponsor. Based upon the experience of other Unions the program will make use of 100 or more students in arranging and carrying out the diverse activities normal in such an organization.

How can all this be accomplished within the four walls of a three story building of about 47,000 square feet? Just look at the floor plans as shown on this page and take an imaginary trip through our Memorial Union to be.

Beginning on the ground floor there is the Snack Bar-Cafeteria. In this 3000 square foot room students, faculty, and visitors may purchase a snack or a meal, a "coke" or coffee. Here some 200-300 folks can enjoy brief visits as they eat. Here will be music so that informal dancing may take place. An atmosphere of enjoyment and relaxation will permeate this important room.

Next to it is the dining room which will accommodate 50-60 persons. This will be open to all for table service at noon and at such other times as demand will justify. It can be used for dinners or banquets if needed for this purpose when not in conflict with regular dining service.

The north wing of the ground floor is devoted to recreation. It is planned to install six bowling alleys and at least four each of billiard and table tennis tables. Naturally there must be a change

for these services sufficient to make them "pay their way."

On this floor, too, is a locker room primarily for commuting students who need a place to put clothing, luncheons or text books for the day.

First Floor

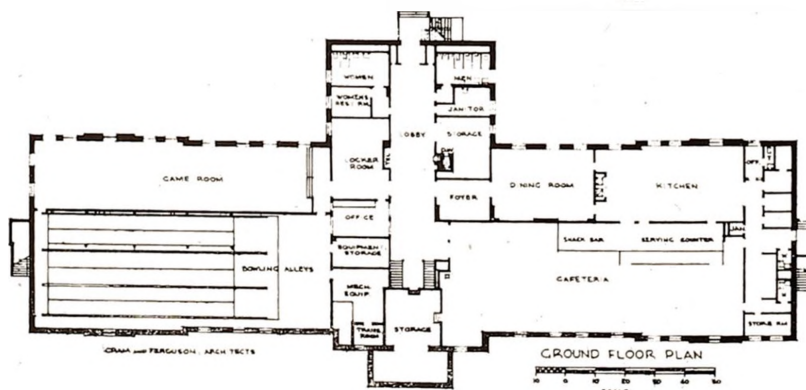

While in no sense ornate, the spacious main lobby will be attractive. It must have size to handle the large numbers who will be using this area at one time. Conspicuously placed is an Information and Sales counter to assist visitors and others to find rooms, events or people. Also in the Lobby will be a recessed, lighted bulletin board with movable glass doors.

First in importance on this floor is the Memorial Room adjacent to the

stairway. The architects have been asked to give special attention to make this room impressive through simplicity of design and quality of materials. It will be paneled with Maine wood. In this Memorial Room will be placed three significant volumes. First, the Book of Memory, containing a picture and a brief biography of each of the 181 University of Maine men who died in World War II. Second a Book of Service, containing the names of all University of Maine men who served in World War II and third a Book of Donors, in which will appear the names of every person who has made a gift to the Union Building Fund.

In the south wing are three lounges, a small meeting room and a serving

(Continued on Page 18)

The P & P FOUNDATION

A group of University of Maine alumni connected with the pulp and paper and allied industries, which has been largely responsible for the creation of the new U of M Pulp and Paper Foundation, has set a record of helpfulness to the University which will stand through the years as a monument of their devotion to their alma mater.

Although the new Pulp and Paper Foundation has come into existence through the cooperative efforts of numerous individuals all working for the good of the University, two men should be singled out for particular mention as "fathers of the Foundation." They are Philip S. Bolton '13, Research Director, Robert Gair Company, Inc., Uncasville, Conn., and Frederic A. Soderberg, '25, Manager, Industrial Division, General Dyestuff Corporation, New York City.

Philip S. Bolton

Professor Lyle C. Jenness (M.S. '25), head of the U of M Department of Chemical Engineering, recalls that Phil Bolton first discussed the idea of the new 5-year operational management course in pulp and paper, which is part of the Foundation program, at the meeting of University of Maine Pulp and Paper Alumni in New York in February, 1948.

About a year later, Mr. Bolton came to the campus with Charles S. Huestis, '29, also of Uncasville, Conn., when the latter gave one in a series of lectures on pulp and paper technology before students enrolled in this course. Again, the idea which was to develop into the present Foundation was discussed, with Mr. Huestis giving valuable suggestions and hearty approval to the proposal.

While Bolton and Huestis were on the campus they also outlined the idea to President Arthur A. Hauck and Dean

Paul Cloke, who was then head of the College of Technology but who has since retired. Both President Hauck and Dean Cloke were enthusiastic about the plan, and a meeting of interested persons was scheduled to be held during the summer.

First Meeting Held

Consequently, 17 alumni and industry representatives met in President Hauck's office on August 10, 1949, to discuss "the proposed five-year course in pulp and paper mill management."

Those present were as follows: Philip S. Bolton, '13, Director of Research, Robert Gair Company, Inc., Uncasville, Conn.; Augustus P. Gregory, '25, Chief Chemist, St. Regis Paper Company, Bucksport; Everett P. Ingalls, '15, Product Manager, S. D. Warren Company, Cumberland Mills; Thomas G. Mangan, '16, Manager, International Paper Company, Chisholm; Clifford Patch, '11, Technical Director, Eastern Corporation, Bangor; Edward E. Sawyer, '12, Chief Chemist, Keyes Fibre Company, Waterville; Frederic A. Soderberg, '25, Manager, Industrial Division, General Dyestuff Corporation, New York City; Elmo Stevens, Personnel Manager, Hollingsworth & Whitney Company, Waterville; Lester J. Tarbell, '38, Assistant to the Vice President, Bird & Son, Inc., East Walpole, Mass.; Diong D. Uong, '26, Vice President, Fitchburg Paper Company, Fitchburg, Mass.

University of Maine administration and faculty representatives present were President Arthur A. Hauck; Dean Paul Cloke; Dean Joseph M. Murray; Professor Himy F. Kirshen; Professor Lyle C. Jenness; Professor John B. Calkin; Director, Department of Industrial Cooperation, and Associate Professor Edward F. Thode.

Bolton was called on at this meeting to outline "the background and need for a curriculum in pulp and paper mill management."

The minutes of the meeting give the following account of his response:

"He emphasized that men preparing for the industry have a strong chemical engineering background. Candidates should, therefore, complete three years of a regular chemical engineering curriculum. These men would then take fourth and fifth years composed of a balanced group of specialized pulp and paper courses and other engineering courses. He suggested that students admitted to this curriculum be very carefully screened by interview, aptitude tests, and personality evaluation for work in the mill management field."

Suggests Foundation

It was at this first meeting that Mr. Soderberg suggested the establishment of a foundation similar to those supported by the Textile Industry. Subscriptions from both the mills and supplying industries could then be expected and support for both university and students would be available, he said. This suggestion met with favorable response, according to the minutes of the meeting.

The group also went on record "that the University should immediately take steps to initiate a five-year curriculum in pulp and paper mill management in the fall of 1950." It was also decided that President Hauck should appoint a curriculum committee and a finance committee to advise and assist the University in developing this program.

Frederic A. Soderberg

It was following the August meeting in President Hauck's office that Fred Soderberg worked out details regarding the creation of a Pulp and Paper Foundation. Encouraged by the way the group had accepted his proposal for the formation of such a Foundation at Maine, Soderberg prepared a memorandum for members of the newly appointed finance committee which gave the framework around which the Foundation could be built. It is interesting to note that practically all of the recommendations made by him in his memorandum of November 18, 1949, were adopted when the Foundation was finally approved.

The issuance of the Soderberg memorandum with its tangible, down-to-earth, ready-for-action suggestions, prior to the December, 1949, meeting of the Finance Committee proved to be just the

(Continued on the Next Page)

Pulp and Paper Foundation

(Continued from Preceding Page)

shot of vitamins the infant Foundation needed. With Soderberg's recommendations at hand, The Finance Committee was able to make definite plans for launching their campaign for funds, the curriculum committee, with a more definite statement of objectives, was set to work out plans for course changes, and the University's Board of Trustees was ready to give approval for the new organization.

During this entire period, Professor Jenness and John Calkin (M.S., 1928), newly appointed director of the Department of Industrial Cooperation and associate professor of chemical engineering, were busy with the multitudinous details regarding financing, curriculum, various clearances, and similar matters that could best be cared for on the campus or by a University staff member.

Ready for Announcement

By the time of the annual meeting of University of Maine Pulp and Paper Alumni in New York on February 22, 1950, everything was in readiness for the announcement of its creation. An attractive brochure prepared largely through the efforts of Theodore Prescott, '33, assistant advertising manager of Scott Paper Company, Chester, Pa., had gone the rounds for clearance purposes and was ready for distribution. The booklet entitled "The Pulp and Paper Industry—Your Company and Your Future" was printed through the courtesy of the Scott Paper Company.

A large, easel type set of display cards giving essential facts about the Foundation had also been prepared through Ted Prescott's cooperation. These were ready for use by J. L. Ober, '13, vice president

of Scott Paper Company, and Chairman of the Finance Committee, who had been chosen to give the main address about the new Foundation to U. of M. alumni in the pulp and paper industry who had gathered for the meeting from various sections of the country.

A table was reserved for the press, and representatives of numerous trade journals and other publications were present to hear about the new Foundation. Newspapers from coast to coast carried news stories of the affair, and several editorials were also inspired by the event.

The Associated Press reported the meeting in part as follows:

"Creation of a new University of Maine foundation designed to aid the paper and pulp and allied industries was announced today.

"J. L. Ober, vice president of the Scott Paper Co., Chester, Pa., said funds will be raised through the industry, its affiliates, and suppliers. He spoke at a meeting of the Maine pulp and paper alumni.

"University of Maine president Arthur A. Hauck said Maine was America's first school to train men for the pulp and paper industry.

"Ober said the pulp and paper industry must attract and develop more outstanding men with special training. There are now 921 pulp and paper mills seeking services of the approximately 120 students who are graduated each year from schools with pulp and paper curricula, he added.

"The aims of the foundation are:

"To interest more students to select the pulp and paper program;

"To give such students financial aid;

"To offer studies that will attract students and men from the industry;

"To screen outstanding students for

a five-year course stressing operational management;

"To advance fundamental and applied research for the pulp and paper industries.

"Doctor Hauck said it is appropriate that a foundation should be established at Maine where university training for the pulp and paper industry was first undertaken nearly 40 years ago."

Announcement of the new Foundation was received enthusiastically by all those attending the luncheon. It was evident that the 117 Maine men present saw the many possibilities which the Foundation offered for the good of the industry and the University. In the weeks that followed, a Membership Committee was organized to assist in carrying out the campaign.

New Five-Year Course

By April 9, 1950, the Curriculum Committee had worked out plans for the new five-year course in pulp and paper technology. The public announcement of the course read in part as follows:

"A new five-year course in pulp and paper technology will be offered at the University of Maine starting next fall. President Arthur A. Hauck announced today.

"The new program, which is an optional one in the department of chemical engineering, is specifically designed for young men interested in becoming qualified for positions in production. It does not replace the present 4 year course nor the 5 year curriculum which leads to the master of science degree.

"Students taking the new five-year course will cover the usual requirements for the first three years of chemical engineering or equivalent preparation. The fourth and fifth years will include specialized courses in pulp and paper, and approximately an equal number of courses in economics, business, and psychology.

"The latter group of courses will include labor problems, personnel management, corporation finance, business law, and marketing.

"Those enrolled in the five-year course will be expected to devote at least two summers to working in industrial plants.

"Satisfactory completion of the five-year program will lead to the B.S. degree and simultaneous award of a special certificate.

"The program will be approved only for those students who appear to have aptitude and interest in management vocations. This decision will be based on academic attainment and the results of certain tests.

"Representatives of the pulp and paper industry who are experienced in the duties of production and management will serve as an advisory committee in the administration of the program."

J. Larcom Ober

Dr. L. J. Reed Appointed

Further recognition came to Dr. Lowell J. Reed '07 last month when he was named to the National Health Research Council by the United States Public Health Service. Dr. Hopkins is vice president of Johns Hopkins University and Johns Hopkins Hospital.

The Health Research Council is one of seven advisory bodies now functioning under the United States Public Health Service. The others are devoted to cancer, heart, mental health, and dental research in general, with two groups named to study arthritis and metabolic diseases and neurological diseases and blindness.

Dr. Reed, internationally known bio-

statistician and authority on world populations, last year was made co-ordinator of all the medical activities of the Johns Hopkins University. At the same time he retained his position as professor and head of the Department of Biostatistics at the University.

As member of the Health Research Council, Dr. Reed is one of twelve scientists, educators and leaders in public affairs chosen from all sections of the nation.

The council, an advisory body, will consult with the Surgeon General on the distribution of public funds to non-Federal institutions. The money it was explained, is used for furthering medical research, training scientific personnel and for the construction of research and training facilities.

Dr. Reed, consultant to the War Department, the Veterans Administration, and the Public Health Service over a period of years, is the retiring head of the United States Public Health Association and the president-elect of the American Statistical Association.

In 1947 he was chairman of the International Committee on Vital and Health Statistics which made its report to the World Health Organization, and now is a member of the national body which is carrying out the recommendations of the world group.

The work of the international committee won for Dr. Reed the Lasker award for outstanding service given by the United States Public Health Service.

Dr. Lowell J. Reed

Dr. Reed's other services on national and international scale include the chairmanship of the United States delegation to the Inter-American Demographic Convention in Mexico City in 1943, and chairmanship of the United States Committee on Joint Causes of Death.

He and Mrs. Reed (Marion Balentine '07) reside in Baltimore and also maintain a home in Shelburne, New Hampshire.

AEC Fellowships—

Two members of the Class of 1950, Warren E. Hammond and Richard I. C. Hede, were among the forty graduate students selected nationally by the Atomic Energy Commission to study under its special fellowships program in radiological physics for the 1951 academic year.

These fellows will study at the University of Rochester and then complete their course with about two months field training at an AEC installation. Both men, veterans of World War II, majored in engineering physics, were on the Dean's List for four years and were members of Tau Beta Pi, Phi Kappa Phi, and Sigma Pi Sigma.

Hammond, whose home is in Sanford, was active in the Outing Club and was a member of the Ski Team and Scabbard and Blade. He was a Distinguished Military Graduate in ROTC in which he received the Armed Forces Communication Association's Medal. His social fraternity is Theta Chi.

Hede was a member of the Naval Research Reserve unit on campus, the American Institute of Physics, the Physics Club and several other campus organizations. His brother, Howard, is a member of the Class of 1953.

Campus Capsules

The almost nightly bull-sessions in dormitories and fraternities about the draft situation and the relative merit of the various branches of the service... Sorority rushing is over with 86 girls, mostly freshmen finally pledged... Phi Kappa Phi, Tau Beta Pi, and Alpha Zeta (honorary scholastic societies) initiated their new members prior to Christmas recess... The Good Will Chest (Campus Community and International Chest) fell somewhat short of its \$3,000 goal... If lunch is not ready on time at the Phi Kappa Sigma House, Ralph Grant, the chef, has probably been delayed in class. The 27 year old veteran is married and seeks to earn a degree while serving as chef at the fraternity... Alumni of the post World War I era recognized a former teacher in the "Cities vs A-Bombs" article in the December 18 issue of *Life*. Professor Norbert Wiener, now at MIT and a cybernetics expert, was an instruc-

tor in mathematics in 1916-17... A junior government major, Leo J. Morency, found time to successfully wage a campaign for a seat on the Old Town City Council. He led the ticket... The first Annual Maine Highway Conference was held on campus during the Christmas vacation. Several alumni were prominent in the panel discussions... The fox hunting set on campus. Professor Stanley Wallace and Howe Hall '14 are the most avid members, have been active the past weeks. They do not ride off gaily in scarlet coats to the barking accompaniment of the pack, but in true Yankee fashion follow their pound dog on foot. The University property provides good fox hunting for the faculty and good chicken hunting for the foxes... The old poultry building vacated upon the completion of the new Animal Pathology Building, is now being used as a store house... Dean A. L. Deering '12 and Associate Dean Winthrop C.

Libby '32 have newly decorated offices in Winslow Hall... The many foreign students at the University are in popular demand as speakers at various service clubs in the state... The M.O.C. cabin at the skating rink is proving to be a popular spot with the students... Ted Curtis '23 and his ski team lengthened the ski jump across the river in the late fall. However, lack of snow has precluded its use... Frank "The Cop" Cowan and his assistant "Ponto" Young with their inexhaustible supply of parking violation tags are ever present on the campus... Engineers are getting major consideration from the many concerns arranging interviews at the Placement Office, directed by Phil Brockway '31... The Christmas parties sponsored by fraternities for underprivileged children in the Orono-Bangor area increased in number this year... In several instances sororities and groups of co-eds were co-sponsors... A clearing house for armed services information has been set up with faculty members serving as committee members.

BASKETBALL

THE Black Bear quintet dropped its first seven games to teams of greater height and experience. The efforts of Coach Rankin's team to make up in speed and determination what they lack in height and experience have been unsuccessful. However, they have impressed spectators with their desire to win and despite their string of losses are receiving the strongest support of the student body.

Early in the season Coach Rankin knew that he had a tough assignment in whipping a team into shape which could match the experienced foes on the schedule. Little did he then realize that the draft, reserve calls, and sickness were going to take eight of the first twelve men on the squad. Little did he realize that Bowdoin's new coach, Ed Coombs, would floor a team that was to jump into first place.

As the season went along Coach Rankin could but continue to work with the energetic and eager players he had and hope that the new semester would see some ineligible players becoming eligible. While there are but one or two such possibilities, they are promising.

One might expect an undercurrent of dissatisfaction with a victory-starved team, yet the games are played to full-capacity audiences. Coaches from over the state are anxious to learn more of Coach Rankin's "disciplined basketball," as he terms it. While it is a system that has captured the enthusiasm of spectators and players, Rankin's system, or any system, is not foolproof nor a substitute for talent. The Coach knows that, but any team is greatly improved by this type of play.

Coach Rankin believes that shots should be attempted only when the player has the best possible "percentage" of making the goal. It is disciplined basketball because the player has to restrain himself until the "percentage" is in his favor. Plays are set up to make the "percentage" right. He does not believe in "fancy shots," for that is the best way of giving the opposition the ball which is the wrong thing in basketball.

That this system is a good one is demonstrated by the close scores of some of the games. In three of the first four games, Maine outscored three of its opponents from the floor, but suffered poor luck at the foul line.

Lack of depth in all positions has added to the coach's worries. The starting five has often quickly taken a lead only to lose it in the third or fourth period when the fast pace of the foe's substitution has worn them down.

Frosh Basketball

The yearlings, under the tutelage of Coach Hal Westerman, dropped their first game to Maine Maritime—a team which is also on some college varsity schedules. They then went on to win their next two games. No outstanding players have been uncovered among the freshmen. Particularly disappointing to both coaches—Rankin and Westerman—was the absence of height in the '54 squad.

Maine Maritime 62	Maine 34

Portland Jr. College 71	Maine 51

TRACK

Soph 60—Frosh 57

The indoor track season opened with the annual Soph-Frosh track meet—the outcome of which was in doubt until the final event. The meet was a source of encouragement to Coach Jenkins as, for the first time, he saw some of his yearlings in competition.

As quite often happens, a man without previous experience came through to place. Art Withington, a six-foot freshman from Winchester, Mass., who had never run the hurdles until the Wednesday before the meet and had drawn his track suit only the previous Monday, took a third place in the high hurdles. The first two places in this event were interesting for there were two brothers battling for their respective classes. Sophomore Bob Touchette ran second to his Freshman brother, Ed.

Two freshmen each scored ten points. Ed Bogdanovich, Providence, R. I., won the shot-put and discus and was nosed out in the 50-yard dash finals. Walker Cooper, Brunswick, tied for first place in the pole vault and went on to place second in the high and broad jumps. Coach Jenkins was enthusiastic about Cooper's possibilities, but the former MCI star enlisted in the Air Force a few days later.

Glen Folsom (Harold S. '29) was three event winner for the Sophs taking the hammer and placing in the discus and the shot-put.

Maine 96—Bates 30

The twenty-first consecutive indoor dual meet victory (dating back to 1942) was gained at the expense of a weak Bates team. Performances were generally poor due to the inability of the Bobcats to push Chet Jenkins' cindermen.

Just prior to the meet Dick Gordon, star weight man, was stricken with appendicitis. Big Floyd Milbank came through, however, to take a first place in the shot-put and a second in the discus.

Maine took twelve firsts in the fourteen listed events and made a clean sweep of the pole vault and the mile run.

John Bowler (Charlotte Crosby '25) captured the six hundred yard run. Individual star of the meet was Bates' Nate Boone, who took a first and two seconds.

Frosh 86—Chevrus High 13

In a dual meet with winning performances almost on a par with the Bates varsity meet, the Frosh crushed Chevrus High of Portland 86-13. The yearlings showed good balance and some promising talent coping 10 of the first 11 events.

With enthusiasm and sound planning a new Alumni Group, The Black Bear Club of Greater Boston, was organized this fall. At Homecoming a scholarship check of \$450.00 was presented to Dr. Hauck on behalf of the Club.

In December the Black Bear of Greater Boston Club held their first dinner-meeting at the Kenmore Hotel. Coach Dave Nelson was the speaker of the evening and showed movies of the Bowdoin game.

George A. Potter '20 is president and Maurice C. Bird '13 is secretary-treasurer of this active group of boosters. The original Black Bear Club is that formed in Rhode Island several years ago.

Charter members of the Greater Boston Club are:

Hazen H. Aver '24, Lewis O. Barrows '16, W. H. Barrows '48, Richard N. Berry '37, Maurice C. Bird '13, Elwood Clapp '17, Duncan Cotting '38, Raymond Douglass '15, Omar K. Edes '16, Frank B. Ellis '21, Joseph Gerrity '09, Bentley Hutchins '24, Alfred B. Lingley '20.

Kenneth Macquarrie, Jr., '19, Jesse H. Mason '09, Alvin T. McNeilly '44, Robert Parks '29, George A. Potter '20, Silas G. Small '03, H. P. Turner '22, Hubert M. Wardwell '13, Myron E. Watson '22, Leslie J. Wertheim '11, Philip White '22, Ralph A. Wilkins '19.

Alumni Lawmakers

(Continued from Page 5)

1931, and speaker of the House in 1933 he was a member of the Senate in 1935. He was Attorney-General from 1937-1941.

Majority floor leader of the House, Edward E. Chase '13, Cape Elizabeth, is no stranger to the House of Representatives. A member of the 94th Legislature he also served in 1927-30 and was assistant clerk of the House in 1917. Mr. Chase was a University Trustee for twenty years resigning his position in 1948. He is president and treasurer of the Maine Securities Company.

Emery S. Dickey '24, Brooks, is in his first term in the Legislature. A daughter, Mary M., is a member of the Class of 1953 at the University. Mr. Dickey is in the property management business.

David W. Fuller '28, prominent Bangor attorney, is another alumnus who successfully sought his first state legislative seat in 1950. He has for many years been active in Bangor political circles being a member of the City Council and chairman of the Water Board for three years.

Jesse P. Fuller, South Portland, is a summer school alumnus. He has been a superintendent of Maine schools and is a representative of a textbook publishing house.

William P. Gilman '42, Portland, is a newcomer in politics and proved a popular vote-getter in his first attempt at seeking office. He is the grandson of William R. Pattangall '84, M. '97, LL.D. '27, long a colorful and important figure in Maine politics and later chief justice of the Supreme Court of Maine, and the son of Madison L. '15. By special vote of the House members Mrs. Gilman (Eugenia Berry '43) is allowed to sit beside her husband on the floor of the House. He lost the sight of both eyes during action

with the ninth army in Europe and Mrs. Gilman has the privilege of the floor so that she may read the various Bills and Documents to her husband. In business life Mr. Gilman is owner and manager of a wholesale food company.

Another young veteran of World War II serving his first term is Owen L. Hancock '43, Casco, and the only alumnus in the Legislature who is a democrat. Mr. Hancock is in the lumber manufacturing business. He is the brother of Sumner O. '35. During the war he was with the army airborne engineers.

An alumnus of the law school, Harold M. Hayes '17, Dover-Foxcroft, was re-elected to the 95th Legislature. He is a veteran of both World Wars and is State Director of Selective Service. He has served as judge of the Municipal Court and as County attorney of Piscataquis County.

Benjamin T. Larrabee '04, Westbrook, was also a member of the 94th Legislature. He has been council man in Westbrook for several terms. Now retired, Mr. Larrabee was formerly in the pulp and paper industry and was some time national president of the Pulp and Paper Mill Superintendents Association.

John J. Nagra '34, Old Town, a veteran in local politics, is a new member of the current Legislature. Formerly in the retail food business he now operates a general insurance agency in his native Old Town.

Frank W. Philbrook '11, Greene, is one of Androscoggin County's better known dairy farmers. A veteran town selectman he has been the board chairman for the past ten years. This is his first term in the Legislature.

Formerly with the engineering department of Bangor and Aroostook Railroad, Raymon P. Potter, Medway, has for the past sixteen years operated his own farm

and grain business. He has not previously been a member of either the House or Senate.

William J. Ricker '05, Turner, is a familiar figure in agricultural and political circles in Maine. President of the Board of Trustees of Leavitt Institute, Mr. Ricker has been a member of this local school board for a lengthy period. He was president for two years of the Federation of Agricultural Associations and is currently president of the Farmer's Production Credit Association. This is Mr. Ricker's second term as a law maker.

Another alumnus now in his second term in the House is Leon M. Sanborn '27, Gorham. President of the Gorham Kiwanis Club, Mr. Sanborn is director and secretary of the York Mutual Fire Insurance Company.

While Roy U. Sinclair, Pittsfield, is a graduate of Bates, he received his Master of Arts degree from Maine in 1936. He is active in many of the organizations promoting the industrial and recreational life of Maine. A director of the Maine Publicity Bureau, a past president of the Good Roads Association he is also a trustee of Maine Central Institute.

Curtis L. Taylor '10, Kennebunk, is a member of the York County delegation to the Legislature and also served in the 94th session. Engaged in farming, Mr. Taylor is a school committeeman and selectman of his community.

Harry R. Williams '16, Hodgdon, while engaged in farming has for the past fifteen years been a loan inspector for the Aroostook County Production and Marketing Association. He has been active in school work in his town, being a member of the school board for twenty-five years and a trustee of the Hodgdon school district for twelve. Mr. Williams is a "freshman" legislator.

With the FACULTY

President Hauck and Professor George H. Ellis '41 have been appointed to Committee of New England of the National Planning Association. Prof. Ellis is a member of the twenty-five man research advisory committee headed by Professor S. H. Slichter of Harvard.

Dr. W. Harry Everhart, assistant professor of zoology, has received an award of merit for his new book, *Fishes of Maine*. The National Association of Conservation presented the award at their National Convention in Portland, Oregon.

Professor Robert I. Ashman, head of the forestry department, served as chairman of the division of education at the Golden Anniversary meeting of the Society of American Foresters in Washington, D. C.

Colonel Leslie J. Staub, head of the ROTC, was transferred this month to Fort Totten, Long Island, New York. He was succeeded as PMS&T by Lt. Col. William M. Summers who joined the faculty in the fall. Lt. Col. Summers was formerly head of the European Division of *Stars and Stripes*.

Dr. John Homer Huddleston H'42, professor-emeritus of ancient civilization, was honored last month by members of Sigma Chi fraternity when he was made a member of the Order of Constantine, an honorary body of the fraternity's alumni who have devoted years of service to the fraternity.

Dr. Frank H. Lathrop, head of the department of entomology, Agricultural Experiment Station, was elected in December as president of the eastern branch

of the American Association of Economic Entomologists.

Dr. Reiner Bonde MS'26, plant pathologist for the Agricultural Experiment Station, also received national recognition last month when he was elected president of the Potato Association of America.

Dr. George Sanderlin, associate professor of English, is author of the article entitled "The Meaning of Thomas Moore's 'Utopia'" appearing in a recent issue of *College English*.

Dr. Louise Stedman, Head of the home economics department, and Prof. Theodore T. Weiler attended the White House Conference on Children and Youth.

Frederick B. Oleson MS '49, assistant professor of physics, has been named assistant deputy in the Maine Civil Defense. Prof. Oleson, who has taken a course of instruction at Brookhaven, is in charge of radiological defense.

The Local ASSOCIATIONS

Southern Aroostook alumni met in Houlton in mid-December. Dean Joseph M. Murray '25 was the speaker of the evening. Maynard Austin '43, retiring president, was chairman of the dinner and meeting.

The nominating committee of Willard 'Jerry' Strout '29, Ralph Porter '27, and Mrs. David E. (Margaret Bither) Webster '31 submitted the following slate of officers which were elected: President, Treston Bubar '43, vice president, Clarence Berry '33, and secretary-treasurer, Mrs. Thomas (Mary Archibald) Campbell Jr. '39.

The University of Maine Club of Texas was organized in Dallas in early January with James Harris '42 elected its chairman.

The alumni of the Dallas-Fort Worth area gathered to meet Dean Elton E. Wieman, dean of men and director of physical education, who was attending the convention of the U.C.A.A. Also present from the University were head coach of football, Dave Nelson, and line coach Milo "Mike" Lude.

The dinner-meeting was arranged by Dr. Herman Wing '43. Another meeting of the group is planned in the near future.

During the convention of the American Foresters in Washington the Forestry Alumni Club was formed. About thirty-five alumni foresters gathered at dinner on rather short notice. Maurice Goddard '35, resident director of the Pennsylvania State Forest School at Mount Alto, was elected chairman of the group which plans to meet annually.

Professor Ashman discussed campus events with the group. Other faculty members present were Dr. Harold Young '37, Prof. Gordon L. Chapman '39, Henry A. Plummer '30, and Prof. Arthur Randall.

Dr. Walter S. Chadbourne '20, retiring president, presided at the dinner-meeting of the Eastern Pennsylvania alumni in mid-December at the Franklin Inn Club. About thirty alumni were present to

Prominent at a testimonial dinner at Portsmouth given by the Southern New Hampshire alumni in honor of newly elected President of the University of New Hampshire, Robert F. Chandler '29, were: Dr. Arthur A. Hauck, Eli Marcoux, association president and toastmaster; Dean Arthur L. Deering '12, H. Hollis Wooster, treasurer; Bernard P. Rines, secretary; Robert F. Thurrell '15, Alumni Council.

greet alumni secretary John Sealey, Jr. '36 and to elect the following officers for the year 1951: Milton Higgins '25, president, Ed Palmer, Jr., '30, vice president, Ed Woodsum, '15, secretary-treasurer; John Leslie Barnes '49, assistant.

Coach Dave Nelson was speaker at the December dinner of the Western Massachusetts Alumni Meeting in Springfield. The affair was arranged by retiring president Hugh R. Cary '38 who was succeeded by Stanwood R. Searles '34. Other officers elected were Harry Candage '25, vice president and Harry Tourtellotte '43, secretary-treasurer.

A record turnout of 72 alumni attended the December meeting of the Maine Club of Auburn-Lewiston. Coach Dave Nelson discussed the past football season and showed movies of the Bates and Bowdoin games. The large group of men in attendance was indeed a tribute to Coach Nelson.

One of the most active alumni groups, the Maine Club, consistently has a large number of alumni present at their monthly stag dinners. The Club has established a loan fund at the University to which members contribute annually. Alumni visiting in Auburn and Lewiston are cordially invited to join them at their dinner meetings on the third Thursday of each month at Auburn American Legion.

The newly formed Lewiston-Auburn Alumnae Club has been carrying on an

active program. The following report of their December meeting was received too late for the last issue of *The Alumnus*.

Twenty-two alumnae were present and heard Mrs. Rayborn Zerby, wife of Bates' Professor Zerby, give her impressions of a recent trip to Europe. Miss Elnor Hansen '50, president, appointed the following additional officers: corresponding secretary, Mrs. Alfred (Margaret Watson) Savignano '48, Mrs. Oscar (Julie Shores) Hahnel '49, chairman of the membership committee and the program committee, Mrs. Gilbert W. (Christine Elliott) Stanford '35, Mrs. Robert (Mary Flynn) Schoppe '37 and Mrs. Irving (Marcia Finks) Bell '40.

Pulp and Paper Foundation

(Continued from Page 8)

The Finance and Membership Committees, too, were particularly active during this period. Hundreds of letters were written, scores of personal contacts made, and brochures and other pieces of literature were distributed to bring word of the new Foundation to all units of the industry. Taking the lead in these activities were J. L. Ober, chairman of the Finance Committee, T. G. Mangan, '16, Manager, International Paper Company, Livermore Falls, Maine, chairman of the Membership Committee, and Phil Bolton, chairman of the Individual Membership Committee. Serving as coordinator and ever-ready ball carrier for this team was Professor Calkin.

Second Annual Meeting

Just about a year from the time the first meeting on the Foundation had been held in President Hauck's office, a second similar conference was held on August 4, 1950. Those present were approximately the same as at the first meeting with the addition of J. L. Ober, Ralph A. Wilkins, '19, Vice President, Bird & Son, Inc., East Walpole, Mass., and Dean Ashley S. Campbell, new head of the College of Technology.

Principal topics discussed at the meeting included accrediting, industrial lecture program, placement, and Foundation scholarships.

It was pointed out that the University's Board of Trustees had voted to grant the degree of B.S. in Pulp and Paper Technology to graduates of the four-year pulp and paper course instead of the degree of B.S. in Chemical Engineering (Pulp and Paper Division). This change was made it was explained, to avoid confusion that formerly existed.

Professor Jenness told of the successful industrial lecture program which had been carried out at the University for two years. An average of 40 visitors per year have brought the viewpoint of industrial operations to the students in the courses, he said. The individuals and companies who have assisted in this effort were complimented for their interest and cooperation. It was announced that *Paper Trade Journal* will publish most of the lectures in magazine and book form.

The discussion on placement revealed that 15 new graduates, three with master's degrees, were placed in the pulp and paper industry and allied fields. Ten

undergraduates were also placed for mill experience during the summer.

It was agreed that selection of recipients of scholarships should be made by a local committee to be appointed by Dean Campbell. The group voted to appropriate \$6,000 for two-year scholarships, not to exceed six in number.

About three weeks later, on August 23, 1950, the newly appointed Scholarship Committee announced the awarding of five scholarships of \$1,000 each to undergraduates of the University.

The announcement of the scholarships read in part as follows:

"These scholarships have been provided by the recently formed Pulp and Paper Foundation. The purpose of the Foundation is to advance fundamental and applied research in pulp and paper technology at the university, as well as to increase the teaching facilities in this field and to provide financial assistance for undergraduates."

Those receiving the scholarships were James E. Ayer, Bangor; Frank A. Butler (Henry R. '20), Verona, New Jersey; John M. McClure, Glendale, Calif.; Donald R. MacKinnon, Ridgelyville; and Roy P. Webber II, Portland. The sixth scholarship was awarded subsequently to Robert E. Perry, Brunswick, Me.

Industry Cooperates

The Foundation has received excellent cooperation from industry. To date, the record stands as follows:

Scholarship Underwriters: Beloit Iron Works.

Company Members: Robert Gair Company, Inc.; General Dyestuff Corporation; Great Northern Paper Company; Keyes Fibre Company; The Rust Engineering Company; St. Croix Paper Company; Stowe-Woodward, Inc.; St. Regis Paper Company; S. D. Warren Company; Champion International Company; Penobscot Chemical Fibre Company.

Special Gifts: Fraser Paper Limited; Charles T. Main, Inc.; Norton Company; Maine-New Hampshire TAPPI; Peter J. Schweitzer, Inc.; Scott Paper Company;

Riegel Paper Corporation; Rogers Fibre Company, Inc.

In addition, some hundred-odd persons have taken individual memberships in the Foundation.

Foundation Committees

Foundation committee members who have worked tirelessly for the project are as follows:

Curriculum: P. S. Bolton, chairman; Clifford Patch; Everett P. Ingalls; Dr. F. F. Thode, Associate Professor of Chemical Engineering; Professor Lyle C. Jenness, Head, Department of Chemical Engineering, University of Maine, Orono, Maine.

Finance: J. L. Ober; P. S. Bolton, chairman; Individual Membership Committee: T. G. Mangan, chairman; Membership Committee: R. A. Wilkins; F. A. Soderberg; Professor John B. Calkin.

Scholarship: Dr. Ashley S. Campbell, Dean, College of Technology, chairman; Dr. E. F. Thode; Professor Lyle C. Jenness; Professor John Lewis.

Memberships: P. S. Bolton, Research Director; Robert Gair Company, Inc., Uncasville, Conn., chairman.

Regional Committees: Maine—W. E. Parsons, '11, Vice President, Keyes Fibre Company, Waterville, chairman; George D. Bearce; E. P. Ingalls; Maurice F. McCarthy, '11; Clifford Patch.

Massachusetts—D. D. Uong, Vice President, Donald T. Achorn, Parker A. Collins, '17; Paul E. Hodgdon, '19; Ralph M. Leighton, '18; Richard M. Sinclair, '42; R. A. Wilkins.

New York City—Louis P. Schweitzer, chairman; Milton A. Hescok, Brown Company.

Mid-West—Carl Magnus, '15.

A Word of Thanks

In just two years the University of Maine Foundation envisioned by Phil Bolton and Fred Soderberg and bolstered, encouraged, and promoted by numerous others, has become an outstanding organization that presages much good for the University.

Earlier in the century, before the popular use of automobiles, the snow on streets and highways was rolled instead of plowed. The rolling or packing of snow on the dirt surface roads assured a good base for the sleighs.

This photo shows the roller that was used on the campus. Coburn Hall is in the background.

THE Board of Trustees are introducing a bill in the 95th Legislature to increase the present membership to eleven members. The Alumni Council also seeks to have the Legislature amend the law regarding the alumni trustee by removing the restriction that he must be a resident of the State of Maine.

There is historical precedence for a larger Board of Trustees for in 1863 when a land grant college was being considered by the Legislature a resolve was introduced seeking to establish a Board of Regents of thirteen members. However, the Legislature failed to elect the board of Regents called for in the Resolve.

In 1865 the law establishing a college of Agriculture and the Mechanic Arts named a Board of Trustees of sixteen members, one from each county. Apparently this number was found unsatisfactory for on February 25, 1867, a law was enacted that "the number of trustees shall be seven and no more." The law also called for the appointment of the new Board of Trustees by the Governor "with the advice and consent of the Council" and established the seven year term of office which still is in effect except for the alumni trustee whose term is for three years.

The smaller board came as a result of a request from the trustees, for Fernald's

Seek Trustee Board Change

History of the University notes that on January 29, 1867, a petition was signed by them "The undersigned, Trustees of the State College of Agriculture and the Mechanic Arts, respectfully represent that, in their opinion the number of members of the Board should be less than it now is, and ask that the number be reduced to not less than five or more than seven. They would suggest that the new board of trustees be appointed by the Governor and Council, and with regard to fitness rather than locality. They also indicate their readiness to retire from the position now held by them for the purpose above indicated."

Abner Coburn, for whom Coburn Hall is named, was elected president of the Board at its first meeting in April of that year.

In 1883 the appointment of an alumni trustee "not less than twenty-five years of age and a resident of this state" was enacted into law. At the same time an additional trustee was authorized giving the Board nine members.

Increasing the number of trustees has been under consideration for some time particularly since the Hopf Report of a

few years ago recommended a sizeable increase.

The Alumni Council in initiating legislation to remove the residence restriction relative to the alumni trustee does so because it believes that the present law is discriminatory and unfair. Approximately forty per cent of the alumni reside outside of Maine. Alumni loyalty knows no geographical bounds and it seems unfair to forever eliminate these alumni, about ten per cent of whom are taxpayers in Maine, from being considered as potential alumni trustees or being represented on the Board of Trustees.

The matter has been discussed by the Alumni Council for several years but it has never before seemed expedient to introduce such legislation because it might have been construed as an implication of dissatisfaction with the incumbent. The time is propitious because Mr. Harold Shaw '14 is currently in his first term which does not expire until 1952 and because it has long been a custom to nominate an alumni trustee for a second term should he indicate a willingness to serve.

HASSAM FUND GIFT

The University of Maine art gallery is one of the 32 museums and galleries throughout the country selected by the American Academy of Arts and Letters to receive the work of an American artist under the terms of the famous Hassam Fund. The gift, "Things Flying," a water color by Dong Kingman, has just arrived on the Maine campus.

In 1935, when the celebrated painter Childe Hassam died, he bequeathed to the American Academy of Arts and Letters 350 of his paintings and drawings with the request that they be sold from time to time to endow a fund known as the Hassam Fund. The income from this is to be used to purchase works of contemporary artists which in turn are presented to art galleries and museums throughout the United States and Canada chosen by the Academy. Selecting museums in diverse sections of the coun-

try had made it possible for the works of contemporary artists to be widely displayed.

The Academy, to which Hassam was elected in 1920, consists of 50 outstanding members of the National Institute of Arts and Letters founded "for the furtherance of literature and fine arts

in the United States." Paul Manship, sculptor, is president.

Well-known artist-members of the Academy include Eugene Speicher, Gifford Beal, John Marin H '50, John Sloan, John Taylor Arms, James Earle Fraser, Charles Hopkinson, Anna Hayatt Huntington, Mahonri Young, and Leon Kroll.

President Hauck and Prof. Vincent Hartgen (left), head of the art department, are shown viewing the Kingman watercolor. This gift of the American Academy is considered as a recognition of the growing stature of the art department.

The President's Report

(Continued from Page 4)

who desire to fulfill professional requirements for teaching. Enrollment of full-time students in education during the past three years has increased nearly 250 per cent, and the number of students taking educational courses to meet certification requirements has more than doubled in the same period.

"Through its Bureau of Educational Research and Service, the School of Education renders testing service wherever desired by schools throughout the State. During the past two years, this Bureau also conducted several school building surveys in Maine communities.

Division of Graduate Study

"The number of graduate students in residence has remained about the same as during the preceding biennium. The average enrollment has been slightly over 100 for each semester of the two-year period. A considerable proportion of the resident graduate students have been graduate assistants or part-time instructors. During each of the two Summer Sessions about 450 students have been carrying on graduate programs.

"Graduate instruction has been offered for the first time during the biennium in the fields of Geology and Agricultural Engineering. A new curriculum, leading to the degree of Master of Education, has been set up for teachers of Vocational Agriculture.

"A cooperative arrangement has been worked out with the Roscoe B. Jackson Memorial Laboratory at Bar Harbor, under which students may carry on certain parts of their graduate programs at the Laboratory. Provision is made for students in Zoology, Bacteriology, and Psychology to undertake research work at the Laboratory following the completion of a certain amount of work in residence at the University.

"A total of 146 master's degrees has been awarded during the biennium.

Summer Session

"The Summer Session is designed to meet the needs of educators, regularly enrolled college students, and those who seek cultural and professional growth in specific fields. Courses are offered in the arts and sciences, engineering, agriculture, and education.

"Enrollment in the Session during the past two years has averaged 1,298 students.

Reserve Officers' Training Corps

"Military instruction has been an integral part of the University since its inception. The Morrill Act (National Land-Grant Act) of 1862, the basis upon which the University was founded, provides for the inclusion of Military Tactics in our

educational program. All male students are required to take military training for two years, and upper classmen who are enrolled in advanced military courses on a voluntary basis receive Reserve Commissions as Second Lieutenants upon graduation.

"The University ROTC Unit includes Army Branches of Infantry, Artillery, and Signal Corps. Instruction is given by Army faculty and administrative personnel made up of eight commissioned and twelve non-commissioned officers.

"The Unit increased in size from 534 students enrolled in June, 1948, to 800 as of June 1950. This increase is due largely to the decrease in the number of veteran students, who are not required to enroll in the basic course, and to the increased interest on the part of students in becoming Reserve Officers." (Ed Note: The enrollment for the fall semester was 1041.)

"The Army has provided weapons, equipment, and training-aids in increasing amounts, in line with its policy of giving a maximum of practical student-participation training. The development of leadership qualities is given major emphasis.

"In all inspections of the ROTC by higher Army Headquarters, our Unit has rated in the highest bracket for Units of its type."

In referring to the Library, President Hauck commented on the rearrangement of rooms upon the completion of the Reference Room and the better study facilities provided.

Also completed during the biennium was the Joseph P. Bass Room given by Mr. Harold Pierce '19 and Mrs. Pierce in memory of the late Joseph P. Bass. President Hauck termed the Bass Room "a valued addition to Campus life."

The importance of the Louis Oakes Room, given by Louis Oakes '98, was demonstrated by the 292 functions held there during regular sessions as well as being used extensively in summer sessions, farm and home week, and other vacation periods.

During the biennium 17,738 volumes and pamphlets were catalogued and nearly 5,000 were withdrawn leaving a total of 233,492 in the Library. Circulation of books during the period was very heavy.

Student Welfare

"Living facilities provided for students affect their morale, their study habits, and their general attitude toward their work and living. Although the University has doubled its permanent dormitory space for men, 45% of those in dormitories are still living in temporary barracks. In addition to the 178 married men who are living in apartments, trailers, and cabins provided by the University, a large number own their own trailers or have found apartments in the surrounding towns. One of the urgent needs of the near future is

the replacement of the temporary housing with permanent dormitories.

"Many students, in addition to veterans receiving G. I. benefits, were aided financially this past year. In 1949-50, the value of scholarship aid granted totaled \$42,679, and 835 students earned \$109,000 for part-time work on the campus. Many students also secure work during their college course which does not show on our records.

Public Services

"In addition to its primary task of training young men and women, the University performs a wide variety of direct public services. The demand for such services has increased through the years, and the urgency of providing for the instruction of a greatly expanded student body has not diminished the University's efforts to make its resources available to all the people of the State. This has been evidenced in many ways during the biennium."

Gifts to the University

"The University received \$274,934.46 in gifts and bequests during the biennium. Of that amount, \$211,169.91 was in the form of endowments for scholarships, \$26,941 was for annual scholarship aid, and student loan funds were increased by \$2,378.21.

"Gifts of new equipment and other educational facilities, including the Library, totaled \$23,105.34.

"Other gifts and bequests were for general endowment, fellowships, and prizes.

"Many books were contributed to the Library and several original paintings were donated to the Department of Art.

"During the biennium, the endowment funds of the University of Maine Foundation, which accepts trust funds for the benefit of the University, were increased by \$30,000.00.

Finances

"The Treasurer's reports show that in spite of continually rising costs we closed each year of the biennium without a deficit. This was made possible, however, only by increasing student fees. This is the third successive biennial report which has recorded the necessity of increasing student fees in order to keep the University solvent.

"During 1948-49, the University received in state support for the Orono Campus, in addition to the mill tax, a special appropriation of \$175,000, or a total of \$892,953. This special appropriation was only half of the amount, \$350,000, that the Trustees had requested for each year of the 1947-49 period, a figure based upon a conservative estimate of the University's needs. Failure to receive the requested funds made it necessary in May, 1947, to announce a tuition increase of \$50 per year for all students.

SOURCES OF INCOME FOR EDUCATIONAL AND GENERAL PURPOSES

EXPENDITURES FOR EDUCATIONAL AND GENERAL EXPENSES
Expressed in Percentages

1939-1940

1949-1950

"During 1949-50, the University received in state support only the amount provided by the mill tax—\$762,000. This necessitated increasing tuition again, \$75 per year for each student, making our charges probably the highest for state residents of any strictly land-grant college or university. It was apparent that this increase in tuition, without warning, would work a severe hardship on many students of limited means who had entered the University in good faith under the rate as announced in the last catalog. In order that such students might not be obliged to cut short their education, the Trustees appropriated, from reserve funds, the sum of \$25,000 for scholarship aid.

"Although this report does not cover the activities of the academic year 1950-51, the action taken by the 94th Legislature,

at its special session, should be mentioned. A special appropriation of \$200,000 to supplement the mill tax was provided for 1950-51. The Trustees immediately voted to reduce tuition by \$35 a year for each State of Maine student and to continue the appropriation of \$25,000 for special scholarship aid. The Trustees did this because they were keenly aware of the grave danger, if tuition costs became too high, that a University education might be denied to many worthy Maine youths.

"In this connection, it should be noted that in 1930 the State of Maine provided approximately \$425 for each student at the University; for this year the amount is about \$200. When the value of the dollar is taken into consideration, this difference becomes even more striking. Wages and salaries have had to be in-

creased and other costs have risen. A recent study of prices paid by the University for important items required for operation and maintenance, a total of 153 items, shows that in the summer of 1950 it required \$2.06 to purchase what \$1.00 bought in 1939-40.

"For the first time in many years, the Trustees have had to adopt a budget in which the operational expenditures will exceed the annual income. The budget under which we shall operate in 1950-51 is off balance by \$165,000. To cover this deficit, it has been necessary to use reserve funds urgently needed for plant improvements and for the purchase of teaching and research equipment. The reserve funds on which we have been able to draw to meet emergencies are now reduced to the danger point."

A New Shipment En Route from England

We have just been advised by the agents of the Josiah Wedgwood Potteries in England that the long awaited shipment of the Maine tea cups and saucers is en route and will be available about mid-February.

These attractive Wedgwood cups complete a table setting of Maine china. Available in green or blue, the cups have an early panorama of the campus about 1875. The inside edge of the cup and saucer is decorated with a pine cone border with a small medallion of the same design on the bottom of the cup.

Alumni have been much pleased with this latest addition to the Maine Commemorative Ware made in the famous Josiah Wedgwood Potteries in England.

These are to be shipped from Boston. Price per dozen \$24.00, \$13.50 a half-dozen and \$2.50 each. Shipping charges prepaid on orders amounting to \$24.00 or more. The supply is limited.

General Alumni Association, University of Maine, Orono.

The Student Union

(Continued from Page 6)

kitchen. In planning this area, indeed the entire building, flexibility has been a first consideration. As need arises these lounges may be used for meetings, conferences, lectures, concerts, small dances, dinners, receptions, and teas. In these rooms, too, will be small game facilities for chess, checkers, and cards. To give a touch of hospitality there will be a fire place in each lounge and in the Memorial Room.

Meeting rooms will occupy most of the north wing. This has been one of the most urgent needs of the University, for student organizations and conference groups have found it very difficult or impossible to locate any places for their sessions. In this wing also will be the Placement Student Aid offices and a pleasant conference room in which visiting employer representatives can meet students who are interested in discussing employment.

Second Floor

For a long time it has been the hope of many alumni and faculty that there might be on the campus a nicely furnished, quiet room where they could spend a leisure hour with friends or for reading. The Alumni-Faculty Lounge will fulfill that need most acceptably. Like the other lounges, it may be used occasionally for a conference, a reception or the like.

Two meeting rooms, a conference room and four student organization rooms will doubtless be in constant use. The business offices of the Union, the Student Religious Association, and the Campus Broadcasting Station will all be on this floor. From the serving kitchen connected with the main kitchen by two dumb waiters, luncheons, dinners, small banquets or teas can be served.

Versatility best characterizes the plans for this Memorial Union. Most rooms can be used for two or three different purposes. By this means maximum use and value can be attained.

A Big If

Working drawings and specifications are now in the final stage. As soon as they are completed, the Trustees of the University will advertise for bids. It has been understood from the start that contracts can be awarded for work only to the extent for which there are funds on hand to pay the bills as rendered.

This pleasant, imaginary trip must end with a note that some \$9,000 more is needed to reach the \$900,000 campaign goal and unquestionably an amount beyond that to equip the building. More gifts then are in order, and prompt payments on subscriptions are all-important in deciding how much construction work can be undertaken.

NECROLOGY

1888

THOMAS GEORGE LORD The death of Thomas G Lord occurred in Deland, Fla., where he had gone to spend the winter, on December 8, 1950. Mr. Lord was the oldest funeral director in the state of Maine in point of service and had spent his life in Skowhegan. He was a member of Rotary Club in Skowhegan and had been affiliated for nearly sixty years with Skowhegan Grange and Carabassett Lodge IOOF. For twelve years he was a member of the school board and was long a trial justice. Mr. Lord was a member of Phi Gamma Delta fraternity. He is survived by his widow, a son and three daughters as well as two grandchildren.

1908

LEON SNELL DIXON On December 12, 1950, Leon S. Dixon died suddenly in New York City where he was engaged in engineer consulting work. Through the years Mr. Dixon has held many important engineering positions throughout the east, having been associated with such companies as Great Northern Paper Co., Eastern Manufacturing Co., E. B. Eddy Co., Ltd., Canadian International Paper Company, Stone and Webster Engineering Corporation and the Newport News Shipbuilding and Drydock Co. He has always maintained a permanent residence in Hampden, Maine. He held membership in various societies—American Society of Civil Engineers, American Society of Mechanical Engineers, Royal Engineering Society, American Military Engineers, Engineering Institute of Canada, Technical Association of Pulp and Paper Industry, and was a registered engineer in several states as well as in two Canadian provinces. He was a 32nd degree Mason and was also a member of Sigma Chi fraternity. He is survived by his widow, Clarissa (Danforth) Dixon, two sons—Alton M. '30 of Orrington and Robert A. of Lagrange—several grandchildren and a great-grandson.

1910

FREDERICK ROWE BIGNEY Word has been received of the death of Frederick R. Bigney in Winslow on December 13, 1950. He was the proprietor of a greenhouse in that town. For many years he was a resident of Greenville having moved to Winslow just about a year ago. He was a member of Greenville Masonic Lodge, the Greenville Kiwanis Club and the Cecil R. Cole post, American Legion of Greenville. He is survived by his widow and a son, Frederick R., Jr., who is a senior at the University of Maine. Mr. Bigney was a member of Delta Tau Delta fraternity.

1912

LEIGH IRVING HARVEY In Wolfeboro, N. H., on November 13, 1950, Leigh I. Harvey, lawyer, died after a short illness. Mr. Harvey was a World War I veteran and served in the Army for 16 years being a major when he retired. A native of Newport, Maine, Mr. Harvey had lived in Wolfeboro since 1934 and was a member of the law firm of Greene and Harvey. He held membership in the Maine, New Hampshire, and Vermont Bar Associations. Also he was a member of Phi Gamma Delta fraternity.

CLYDE GILMAN MORRILL Belated report of the death of Clyde G. Morrill on February 5, 1948, has reached the Alumni Office. Mr. Morrill attended the University of Maine from 1908-1910 with

Personals from the CLASSES

the class of 1912 and was subsequently graduated from Dartmouth College. Mr. Morrill had become one of the country's leading authorities on petroleum products in the field of distribution and supply. He was Executive Director of the Fuel Oil District Council, Executive Secretary of the Atlantic Coast Oil Conference, New York, and a member of the American Petroleum Institute, Division of Marketing. A few months prior to his death he was appointed to the National Petroleum Council by Secretary of the Interior Mr. Krug. Mr. Morrill was a member of Sigma Chi fraternity.

1926

HENRY BOARDMAN EATON II An automobile accident brought sudden death to Henry B. Eaton of Calais on December 15, 1950. A forestry major during his college days, he was also an outstanding athlete. Following his graduation he became associated with the Church E. Gates Lumber Co. and for several years was president of the New York Lumber Trade Association. In 1935 he returned to his home town Calais, where he became active in the lumber business and later purchased the Todd Brothers Hardware Store which he was operating at the time of his death. During World War II he saw service with the Seabees serving with the rank of Lieutenant Commander. At the time of his death he was serving as president of the Calais Chamber of Commerce and was a past president of several other organizations. He was a former alderman of the city of Calais and had been active in Boy Scout leadership. He is survived by his widow, the former Jean Ganong, three daughters, Muriel and Joan of Hartford, Conn., and Alice of Calais, one sister and two brothers—James M. '10 of New York City and Charles F., Jr. '23, of Boston. Mr. Eaton was a member of Phi Gamma Delta fraternity.

1930

ASA HENRY WASGATT Asa H. Wasgatt, one of Bar Harbor's leading citizens, died suddenly on December 1, 1950. Mr. Wasgatt was publisher of the *Bar Harbor Times*, which he had owned since 1939. For two years he served as president of the Maine Press Association and he was a director of the Bar Harbor Banking and Trust Co. A member of Bar Harbor Lodge A.F. & A.M., Island Lodge IOOF, Mount Desert Lions Club, he was also a deputy chief of the fire department. He is survived by his widow, Beryl Wilbur Wasgatt, a daughter and a son. His brother, Dr. Richard Wasgatt of Portland, is a member of the class of 1931, University of Maine. Mr. Wasgatt was a member of Sigma Nu fraternity.

1939

WILLIAM H. WARD Lieutenant William H. Ward has been buried with full military honors in McKinley Cemetery, Manila, Philippine Islands.

Lieutenant Ward was captured in the March from Bataan peninsula and was interned with many other men. His remains were identified in bodies found in a camp conducted by the Japanese during their occupation period.

His mother, Mrs. William J. Ward of North Uxbridge, Massachusetts, asked the War Department to bury her son in Manila believing he would so wish it.

BY CLASSES

1895 Recent word from Gustavus G. Atwood indicates that he is at a new mailing address—200 Bay St., Taunton, Mass., c/o Ernest H. Miller.

1896 Lore A. Rogers of Patten, Me., is retired.

1897 George G. Leavette resides at 2061 Palmer Ave., Larchmont, N. Y., while his business address is 5945 Grand Central Terminal, New York 17. He is proprietor of Forest Products.

1899 Mrs. Andrew J. McGinley (Mildred Powell) has changed her address from Fair Haven, N. Y., to Box 78, Enosburg Falls, Vt.

Reginald L. Feinold is proprietor of Pratt Teachers' Agency in New York City at 33 W. 42nd St. His residence address is 36-40 Bowne St., Flushing, N. Y.

1900 John G. Lurvey has been heard from recently and is living at Mahauqua Farms, R.D. #1, Mohawk, N. Y.

1901 The following members of the Class of 1901 have been heard from recently:

50th Reunion, June 15-17, 1951

John H. Bixby is retired from his work with the New York Central Railroad Co. and lives at 1503 Prospect Rd., Ash-tabula, Ohio.

Charles H. Pritham is retired from his work at the Frankford Arsenal in Philadelphia and lives at 112 S. Lynn Blvd., Upper Darby, Pa.

When last heard from, Joseph E. French was living at 266 Vermont St., West Roxbury, Mass., and was a technical engineer for Waltham Watch Co.

Dr. Clifford D. Harvey is a surgeon with offices at 29 Bay State Rd., Boston. His residence address is 18 Orchard Rd., Brookline, Mass.

Henry P. Hoyt is a civil engineer and farmer in Ft. Fairfield.

Perley E. Jeffery resides at 54 Grove St., Milford, Mass.

Herbert H. Leonard is retired and living in So. Shaftsbury, Vt.

Robert H. Linn is retired from his work as Superintendent of the American Woolen Co. He now lives at 55 Mayo St., Dover-Foxcroft. He has a daughter, Mary, who is a senior at the University of Maine where she is active in various extracurricular activities, including the All-Maine Women.

1902 Luther Peck is a physician and resides at 711 Ann Arbor Trail, Plymouth, Mich.

1903 In Johnstown, Pa., last August the Board of Trustees of the Greater Johnstown Community Chest presented a set of luggage as a surprise gift to Philip H. Harris, who had served for four years as Chest President. In the presentation testimonial, Mr. Harris was referred to as "the good Samaritan." Re-

tired president and general manager of the Pennsylvania Electric Co., Mr. Harris now resides at 208 Luzerne St., Johnstown, Pa.

1904 Dr. Edson B. Buker can be found at 80 Goff St., Auburn. Eugene G. Day is retired and lives at 450 E. Ridge St., Marquette, Mich.

Benjamin T. Larrabee is retired from his work as superintendent of a pulp and paper mill. He resides at 17 Berkeley St., Cumberland Mills, Maine. Mr. Larrabee was re-elected to the Legislature in September.

John H. Qumby is retired and living at 194 N. Main St., Pearl River, N. Y.

1905 Bertram A. Ames has recently purchased a new home in St. Petersburg, Fla.—4321 Fifth Ave., North. He was formerly in West Hartford, Conn.

Recently heard from are Hedley C. Black who lives at 5612 Fair Oak Ave., Baltimore 4, Md. He has been with the Osborne Co. of Clifton, N. J., as advertising salesman for 34 years. Also Frank L. Flanders who is Treasurer and General Manager of Henderson & Thomson Co. in Fulton, N. Y., lives at 351 S. 4th St. in that town.

Burton M. Thomas is retired from his work as store manager for C.M.P. Co. and is living at 7 Cottage St., Bridgton, Maine.

1906 Winfield D. Bearce, 661 W. 8th St., Erie, Pa.

45th Reunion, June 15-17, 1951

Henry W. Bearce, after retirement from the U. S. Bureau of Standards at Washington, returned to the family home "Three Hills" in Hebron, Maine, where he has recently harvested some 10,000 bushels of apples. He is now serving his district in the State Legislature.

Walter O. ("Jack") Frost for 30 years with the Department of Agriculture, picked a home in Warren, Maine, for his retirement. When seen there in September, he was harder at work than ever.

Announcement was made recently of the marriage of Joanna C. ("Nan") Colcord of Searsport to Dr. Frank I. Bruno. The wedding took place in Bangor on November 25. The Brunos will be at home at Audubon Park Apts., Brentwood 17 Mo. Dr. Bruno is connected with the sociology department at Washington University, St. Louis, Mo. Dr. Bruno is a native of Florence, Italy, and is a former president of the American Association of Social Workers.

At the June reunion 1950, W. D. Bearce was elected president and "Hoddy" Burke secretary-treasurer for the coming year. "W. D." expects to be back at the place in Bristol early in May. (He is now at the winter place—661 W. 8th St., Erie, Pa.) Plans are underway for the class reunion in 1951 which comes up so soon again with the change in system to a five-year program of reunions.

A temporary address was recently reported for Frederick J. Simmons but we now have a more permanent one for the record. It is 104 Summit Ave., Upper Montclair, N. J.

1907 Mr. Karl MacDonald, 27 Nelson Ave., Wellsville, N. Y.

Recently heard from in the Alumni Office is Guy H. Roberts, who is a rancher in Santa Paula, Calif. He lives at 320 N. 7th St.

Porter L. Swift who is vice president and manager of the New England Division of United Cork. His residence address is 55 Hobart Rd., Newton Center 59, Mass.

Gordon I. Wildes is retired and lives at 24 Lyn Dr., So. Hadley, Mass.

The Searsport High School senior class recently put on a three act comedy which was directed and coached by Mrs. Hazel Webb Clemons who teaches English in the school.

A. P. Wyman, Mayflower Hill Drive, Waterville, is president of A. P. Wyman, Inc. They are engaged in general construction work such as dams, bridges, buildings, highways, heavy mill construction, etc. He is a Director of the Federal Trust Co. and a trustee of Coburn Classical Institute.

Professor E. P. Lambe, 2336 Richmond Rd., Staten Island, N. Y., said while the heavy wind storm the latter part of November created heavy damage along the water front, he had only a few shingles blown off his home. He was more fortunate than your secretary who had about forty trees blown down on his camp lot in Maine and four holes punched in the roof by flying limbs.

Judge Robert W. DeWolfe, 201 Danforth St., Portland, is leaving January 1st for Florida. He is Chairman of the Board of Governors of the Portland Club and also chairman of Cumberland County for the solicitation of funds in the amount of \$10,000,000.00 in the U. S. and Canada to establish an International Christian University in Japan. Dr. Hauck of the University is chairman for the State of Maine in this project. While in Florida, Judge DeWolfe's address will be 9937 N. W. 22nd Ave., Miami. He plans to be there about four months.

1908 Daniel Chase has been named Executive Director of the Park Association of New York City. He is also Executive Director of the Sportsmanship Brotherhood there.

Earle L. Milliken is a valuation engineer with the U. S. Securities and Exchange Commission and makes his home at 4319 12th Rd. S., Arlington, Va.

1909 Herbert P. Bruce is supervisor of the Sprinklered Risk Dept. of the New England Fire Insurance Rating Association in Boston. Home is 98 Willow Rd., Nahant, Mass.

Irene Richardson Durgy (Mrs. Herbert A.) resides at 7 Temple St., Rutland, Vermont.

1910 Lester M. Bragg continues to be located in Central America. His address is c/o Cia. Bananera de Costa Rica, Quepos, Costa Rica.

Harold I. Clifford has a new address in Westmount, Quebec, Canada—400 Kensington Ave. He is vice president and general superintendent of Durecne Construction Co. Ltd. in Montreal.

1911 Noted recently, Earle O. Whittier is co-author of a book "By-products From Milk." A review of the book indicates that it is invaluable to manufacturers of dairy products, research workers in food and nutrition, process supervisors and students of dairy science and technology. Mr. Whittier is associated with the Bureau of Dairy Industry, U. S. Department of Agriculture.

40th Reunion, June 15-17, 1951

George C. Leavitt is news editor of the *Philadelphia Evening Bulletin* and resides at 503 Cottman St. in that city.

Another newspaper man is Stanley B. Attwood who is city editor of the *Leviston Daily Sun*. His residence address is 84 Goff St., Auburn.

Harry P. Burden is Dean of Engineering at Tufts College, Medford, Mass.

William P. Cushman is an engineer for Naugatuck Chemical and lives at 55 Moore Ave., Naugatuck, Conn.

1912 Charles W. Rowe has retired from his work as a teacher in the Unit Course in Agriculture for the State Department of Education. His home is in Hallowell.

A change of address has been received for Thomas E Sullivan from Lubec to Box 161, Seaside, Maine.

George N. Warden has a new location—5203 17th Ave. N.E., Seattle 5, Wash. He was formerly in Port Orchard, Wash.

1914 Joseph A. Frohock indicates that he is a Director of Promotion and that his mailing address is P.O. Box 325, Sta. A., St. Petersburg, Fla.

John S. Wadleigh is president of J. S. Wadleigh, Inc., and a distributor for the American Oil Co. in Augusta.

Latest address for Sherwood H. Willard is 33 Washington Square West, New York 11, N. Y.

William R. Thompson recently changed his address from Boston, Mass., to 288 School St., Concord, Mass.

1915 Raymond H. Fogler, president and director of the W. T. Grant Co., has recently been elected chairman of the executive committee of the Merchants Advisory Council of New York University's School of Retailing.

1916 Burke Bradbury, of 302 Breakspear Rd., Syracuse, N. Y., is a television receiver engineer for General Electric Co. in that city.

35th Reunion, June 15-17, 1951

Latest word from Chauncey Chase reveals that he is residing in Manhasset, N. Y., and is a construction engineer with offices in New York City.

Arthur I. Davis is General Superintendent of the Western Massachusetts Electric Co. in Springfield, Mass. His residence address is 71 Loughill Rd., Springfield.

Winifred Edmunster is connected with the Veterans Administration at Togus. His residence address is 6 Fair St., Norway, Maine, however.

William I. Faulkner is conducting his own real estate brokerage business and lives at 22706 Hawthorne Blvd., Torrance, Calif.

1917 Col. Joe McCusker is a member of the Executive Committee of the National Interfraternity Conference.

Mayland Morse, attorney of Concord, N. H., is a member of the New Hampshire Ballot Law Commission.

1918 John M. O'Connell, managing editor of the *Bangor Daily News* and Trustee of the University of Maine, was on the committee that welcomed General of the Army Omar N. Bradley, chairman of the Joint Chiefs of Staff, to the Atlanta convention of the Associated Press Managing Editors on November 17.

George J. Adams is associated with the International Paper Co. of New York City. His home is at 75 Sherman Ave., Glens Falls, N. Y.

Ray Atherton is manager of Maine Blueberry Growers, Inc., with offices at 61 Main St., Bangor. He continues to reside at 20 N. Main St., Orono.

Ernest L. Coolbroth is a telephone engineer and resides at 1920 Kimball St., Brooklyn, N. Y.

Winburn Dennett, principal of Hopedale High School, lives at 5 Dennett St., Hopedale, Mass. His daughter Marilyn is a Senior at Maine.

Everett E. Emmons is assistant manager of the Veterans Administration Center at Togus.

1919 Frank O. Alley has moved from Cambridge, Mass., to Bar Harbor, Maine.

Stacy L. Bragdon is an instructor of

chemistry and biology and Director of Audio-Visual Aids at the Senior High School in Wellesley Hills, Mass. His home address is 47 Parker Rd., Wellesley 81, Mass.

Etelte Sawyer Carlson (Mrs. E. S.) continues to be staff assistant at the International House at the University of California in Berkeley. Her residence address is 15 Canyon Rd., Berkeley.

Mark V. Crockett is a teacher at Lesley College in Cambridge, Mass. His residence address is 207 Manthorne Rd., W. Roxbury 32, Mass.

1920 Miss Sandra French, daughter of Mr. and Mrs. Dwight B. French of Bangor, was recently chosen a member of the Wellesley College Choir. She is a freshman at the college having graduated from Oak Grove School last June.

C. L. (Bob) Emerson of Millisocket was recently named president of the Board of the Maine State Pharmacy Commission.

Eleanor Jackson brings us up-to-date on her activities of the past few years. She is one of the leading Life Underwriters in Boston and is a member of the Boston Life Underwriters Association as well as of the National Association. She is affiliated with the Boston Life Insurance and Trust Council as well as the Boston and National Chartered Life Underwriters. She is currently serving as treasurer of the Boston Alliance of Delta Delta Delta. Prior to going into the field of insurance, Eleanor was in the field of home economics associated with the Maine Extension Service for a time and later head of the Home Economics course at Everett, Mass., and still later supervisor of the Home Economics at Brookline, Mass.

1921 Mrs. Stomont Josselyn (Emilie Ritter) 15 Caryl Ave., Yonkers, N. Y.

30th Reunion, June 15-17, 1951

Roger and Virginia (Averill) Castle live at 1307 Garner Ave., Schenectady 8, N. Y. Roger has a new job with the New York Telephone Co. He is Toll Traffic Supervisor in Albany.

Percival Crocker, of 27 Baker St., Foxboro, Mass., proudly presents his new grandson, Bradford W. Kennedy (son of Marion Crocker Kennedy '46), for the Class of 1972. Maine Percy's oldest son graduated from Maine in June 1950.

Harold J. Kelley is manager of the Strand Theater in Orono. To quote Harold: "We have been working with the college in getting a number of art pictures—French, Spanish and German. We've also been able to secure 'Henry V.', 'Hamlet,' and 'Pygmalion' among others. We have also won in a number of theater manager contests, winning one of the first five prizes last year. The above pictures which we have shown for the University have been the result of our winning the prizes."

Leah Ramsdell Fuller's winter address is 1231 Genoa St., Coral Gables 34, Fla. When in Maine she can be found in Rockland.

Dorothy Hart teaches Social Studies in the High School in Woodstock, Vermont. Dot's son, Dick, attended Middlebury Russian School last summer where he earned credits toward his Master's Degree. He now has a \$500 scholarship at the U. of Vermont where he is majoring in Political Science to prepare for diplomatic service.

"21ers: "Five year plan in effect now. 1921 REUNION June 14-15, 1951. How about everybody coming back! Thirty

years is a long time! Maybe later than you think! As chairman of the class fund raising may I ask how about CHECKS to make our contribution to our University the largest ever—there is so much that can be done." Yours for Maine—George Ginsberg.

You'll be hearing from George again about our class gift to Alma Mater!

1922

Fred T. Jordan was elected president of the Maine Life Underwriters Association at its annual meeting this past summer.

John and Ethel (Bud '24) McCrystle are living at 153 Elm St., Northampton, Mass. John is general plant manager of Doeskin Products, Inc., which have plants at Mt. Tom, Mass., Wheelwright, Mass., and Rockland, Delaware.

Lester K. Cary is Chief of the Mail Records Section of the Veterans Administration in Chicago. He resides at 728 Carpenter Ave., Oak Park, Ill.

Changes of address have come in for several people, but we do not have occupational information to go with them.

H. Otis Noyes to 85 Falmouth St., Portland.

Herbert A. Brawn to Bennington, N. H.

Mrs. P. Leo Crespic (Mabel Small) to 48 Deering St., Portland.

Thomas Murphy to 119 Front St., Deposit, N. Y.

1924 Mrs. C. C. Little (Beatrice Johnson) Box 558, Bar Harbor.

A few formerly "lost" classmates, from the point of view of the address list, have been found, we are glad to say.

Dr. Norman Blanchard has moved to 655 Congress St., Portland, so he's back with the Maine folks.

Frank R. West has retired and is living at 546 Garfield Ave., Fletcher Hills, El Cajon, Calif.

Harold Walker Howe's mail address is R.F.D. #3, Concord, N. H. He is service engineer with the Retail Coal Co. and Chief of the Bow Volunteer Fire Department at Bow, N. H.

Arthur F. Eastman's home address is 39 Park St., Wollaston 70, Mass. He is the proprietor of a radio, television, and music store in Wollaston.

BANGOR BOX CO.

John Conti, manager of the Bar Harbor-Ellsworth District of the New England Tel and Tel Co., was recently presented a service certificate celebrating twenty-five years with the company.

Royal S. Graves' address is c/o Quartermaster Board, Ft. Lee, Va. He is a textile engineer and does testings of materials for the Quartermaster.

George K. Cobb is Headmaster of Potter Academy in Sebago, Maine.

Cecil Furbish resides at 470-B Allenhurst Rd., Buffalo 23, N. Y. He is a salesman for Dennys Tag Co. in that city. He has two sons, one in Japan and the other a salesman.

James S. Deuse is a government inspector at Pratt-Whitney, E. Hartford. His residence address is 26 Oxford Dr., E. Hartford, Conn.

1925 Mrs. Merrill Henderson
(Anne Thurston)
Quechee, Vt.

Lack of cooperation on your part brings no news for this month except for one item.

Murray Kittredge is Comptroller for Greyhound Bus line in Jacksonville, Florida. His address is 1220 Norwich Rd., Jacksonville.

1926 Mrs. Albert D. Nutting
(Leone Dakin)
17 College Heights, Orono

25th Reunion, June 15-17, 1951

Walter P. Morse has been appointed academic Dean of Ricker College in Houlton, Maine, and will serve as Dean of College Men.

Wilhelmina F. Dunning had a change of address earlier in the fall from Mason, Michigan, to 2850 Coconut Ave., Miami, Fla.

Frances (Willets) Naugler (Mrs. Reuben) has purchased a home at 880 N. Main St., Brewer.

Edwin C. Waterhouse is State Agent for the Actna Insurance Co. with offices at 11 N. Pearl St., Albany, N. Y. He lives at R.D. #1, East Greenbush, N. Y., and was formerly in Baltimore.

Everett M. Lunt's address is 252 Main St., Brunswick, Maine.

Lawrence G. Thurston of Ticonderoga, N. Y., visited the campus in August when he and his family were on a vacation trip to Nova Scotia.

Marion Lord may be claimed by the class of 1927 but I always think of her as '26 because she was with us for three years. I called on her recently in Washington, D. C., where she lives and teaches history. Her address is 4815 Chesapeake St. N.W., Washington.

1927 Marion Cooper
230 State St., Augusta

Because he likes to read about fellow-classmates and because he realizes I can't print what I don't know, Fred D. Ames came up this month with some information about himself. He's living in Lockport, N. Y., and is in the engineering department of the Harrison Radiator Division of General Motors. Daughter Phyllis, who was a member of the class of 1953 at the University, was married Sept. 30 to Pvt. Eugene C. Cram and is living in Carlisle, Pa.

Ardra Hodgins Ogden (Mrs. William L.) writes from Tokyo that she keeps busy as a volunteer at the blood bank. Billy came home on business this summer but Ardra stayed behind. Her address is GHO, Scap, Transportation Section, APO 500, c/o Postmaster, San Francisco, Calif. I know she'd enjoy hearing from you.

Barney Poor has returned to the com-

pany he started out with in 1927. He is an engineer in the gas department of Stone & Webster Service Corp., 90 Broad St., New York 4, N. Y. His new home address is 25 Sterling Drive, East Orange, N. J. Barney suggested that I report on the Twenty-sevens living in Augusta, and who am I to ignore a suggestion?

Clara Stuart Gruhn, whose home address is 27 Glenwood Street, Augusta, is employed in the Division of Accounts and Controls, Department of Health and Welfare. Her daughter, Betty Jane, is at home with her.

Joe McNamara, who lives at 62 River Road, Gardiner, is employed by the U. S. Postal Service. He has one daughter, 13 years old.

I've told you before about Al Nutting, who is State Forestry Commissioner, Ed Johnson, who lives in Monmouth and is State Horticulturist, John A. Snell, State Director of Agricultural Education, and Edith Hoyt Humphrey (Mrs. Julian) whose address is 36 Bangor Street.

Clifton V. Conary has been with the Veterans Administration at Togus for the past 12 years.

Ernest H. Grant teaches math at Cony high school. He has two daughters, Carol Ann, 14, and Margaret, 7. The Grants have just moved to 6 Davenport Street.

There are probably many more Augusta dwellers, but these are all I've heard about so far.

Dr. Clyde I. Swett of Island Falls was elected the Katahdin Area Council BSA representative on the regional Boy Scout committee at the New England Scout conference held at Worcester, Mass., in October.

1928 Miss Mary A. McGuire
University of Bridgeport,
Bridgeport, Conn.

News is scarce this month, mates. How about a January resolve to send in at least your present address? Here are two to begin with.

Clifford B. Adams lives in Fredericktown, Missouri.

Wray C. Conro is now at 54 Upland Rd., Attleboro, Mass.

Happy 1951—and let's hear from you all!

1929 Miss Barbara Johnson
32 Orland St., Portland 4

I Elliott Hale of Waterville was named a member of the Program Committee of the Maine Water Utilities Association at the silver Anniversary meeting last fall.

Several new addresses have been reported to the Alumni Office.

Arthur Dunn—82 Louis St., New Brunswick, N. J. Carroll Johnson—17 Chilton Hall Dr., Worcester, Mass. George A. Noddin—R.D. #1, Box 30, Paulsboro, N. J. Arthur Connor, Dogwood Ave., Roslyn Harbor, N. Y. Dr. Everett F. Conlogue—Stillwater Sanatorium, Dayton, Ohio. Master Sgt. Herbert J. Bates—203 E. Bates St., Ft. Devens, Mass.

Lunice Jackson of South Portland left this month for Durham, North Carolina, where she has a position in the Social Service Dept. of the Duke University Hospital. Before being called home by the recent illness of her mother, Jo was director of the Social Service Department in MacGee Memorial Hospital, Pittsburgh, Pa.

1931 Mrs. Sam Sezak
(Ethel Thomas)
4 Gilbert St., Orono

20th Reunion, June 15-17, 1951

Freshman sons and daughters of the class of 1931 starting their careers at

Maine this fall include: Arnold Schultz, son of Joseph Schultz; Kenneth Blaisdell, son of Maynard Blaisdell; and Patricia Hamblet, daughter of William Hamblet.

Myrilla and Bill Daley and children, Myrilla and Michael, were on campus for the homecoming game with Colby. Michael, 12, was the house guest of Thomas Sezak during the week end. Young Myrilla looks forward to Maine in the not too distant future.

Now for a few changes in addresses: Mrs. Isabella (Lyons) Nester is now living at 1229 Chestnut St., San Francisco, Calif.

Laurence W. Groves is a U. S. Immigrant Inspector and his address is Box 265, Fort Fairfield, Me.

Thomas Crocker is now living at 3309 Quebec St. N.W., Washington, D. C.

Darius Joy, Jr., has moved from Gorham, Me., to 28 Pearl St., Camden, Me. Sorry, I can't tell you the occupations of either Tom or Darius until they let us hear more from them.

For a New Year's resolution, how about more news for our class column?

1932

The meeygoround of address changes finds the following members of the class of 1932 in new locations.

Mrs. M. B. Hinman (Edith Miller) to Glen Una Dr., Box 391, Los Gatos, Calif. Arthur Fairchild from Providence, R. I., to 314 Wellesley St., Spokane, Wash.

John D. Dickson, Jr., to 439 Portage St., Kalamazoo, Mich.

Francis J. Battles from West Harwich, Mass., to 110 62nd Ave. S., St. Petersburg 5, Fla.

Rebecca Spencer Files and husband Harry (35) have gone from Maine to 3750 E. Fairmount St., c/o Howard Frederick, Tucson, Ariz. Could this be a temporary address? If so, a permanent one would be helpful to know.

1933

Mrs. John R. Carnochan

(Dorothy Findlay)

36 Goudy St., So. Portland

Helen Nivison Young was married November 4th to Mr. Tiltord Day Miller of Amherst, Mass. Mr. Miller is a graduate of Deerfield Academy and Amherst College. He served with the Navy during World War II. The couple will reside at 26 Crosby Ave., Amherst.

The Kenneth P. Nunn is living at 410 Lincoln Ave., Rutherford, N. J.

Lloyd Chetley resides at 5734 N. Winthrop Ave., Chicago 40, Ill. Lloyd is a design engineer with Panellit Inc., Chicago.

"Bunny" Folsom Albaugh (Mrs. E. Kenneth) has moved from Wilmington, Del., to Sherwood Rd., Arden, Delaware.

Ruth Irwin has moved from Albany, N. Y., to Newtonville 60, Mass., where she lives at 161 Lowell Ave.

Clark Abbott may now be reached at 378 Stuart St., Boston, Mass.

Barbara Sawyer Nelson (Mrs. C. A.) is married to Lt. Col. Nelson and they live in Batesburg, So. Carolina. They own and operate a 300-acre plantation of cotton and tobacco land.

Let's hear from more of you during 1951. There must be more happening than changes of address!

Happy New Year!

1934 Mrs. Robert C. Russ
(Maddy Bunker)

17 Westview Rd., Cape Elizabeth

We haven't a long column this month but we have tracked down some missing

members, thanks to the Alumni Office. It's always gratifying to hear of someone who has been silent for a long time. I only wish the changes of address cards gave positions, so we could really get up-to-date.

Carroll Durgin has moved from Hartford, Conn., to 30 Tanglewood Road, Windsor, Conn.

Mildred (Haney) Berdeen, who has been in Bangor for almost two years after returning from Germany with her Army officer husband, is now living at 512 N. Kenmore St., Arlington, Va. The Berdeens have three children.

Fred Atwood is a general salesman for the Socony Vacuum Oil Co., Inc. His business address is 48 Main St., So. Portland, and his residence is RFD #1, Wells, Maine. He recently moved from Scarborough.

Ronald Jones is employed in an oilcloth factory in Winthrop, Maine, and lives in Monmouth.

Lawrence Adkins is Chief Chemist, Facial Tissue Mill Ponds Extract Co., Mechanic Falls, Maine. His residence address is 35 Maple St., Mechanic Falls.

I saw Stan Searles' picture in the paper a while ago and was amazed to see how much he looks just as he did in college. Some people change so little with the years. The New England Casualty Co. of Springfield, Mass., has opened a branch office in Portland and Stan is Superintendent of the Home Office Claims Department in Springfield. Stan has recently returned to New England from Missouri to accept this position.

1935 Mrs. Thomas McGuire
(Agnes Crowley)
209 W. 107th St.,
New York 25, N. Y.

A Happy 1951 to everyone of you! I do hope the war news will grow better with each passing hour, and that this will really be a Happy New Year!

Curtis B. Plummer, chief engineer of the Federal Communications Commission, spoke on international shortwave radio-casting before the New England Section of the Institute of Radio Engineers recently. We reported Curtis' appointment awhile ago in this column.

Byron Avery is now a mathematics teacher at Brewer High School, Brewer, Maine, and resides at 16 Chapman St., Brewer.

Reported, too, through the Alumni Office is a change of address for Sylvia Albert from Red Bank, N. J., to 56 West St., Monmouth Beach, N. J.

Benjamin Spurgeon is now living at 21-3 Garden Lane, Waltham, Mass.

Stanley Cole is in Great Works, Maine. I have just seen the playing cards which the Alumni Office is now selling with the Memorial Gymnasium imprinted on them. They are really very nice. And incidentally have you seen the Wedgwood china which the office also has for sale—dinner plates, bread and butter plates, cups and saucers, and ash trays? I'm not selling, but they are very tricky. And while your intentions are good to shop early for next Christmas, maybe this is an idea!

Wish I had more news for you to start the year, but if you'll just send a quick little line about yourselves, we can really make this column perk!

1936 Mrs. Edwin P. Webster
(Phyllis Hamilton)
258 Norway Rd., Bangor

15th Reunion, June 15-17, 1951

Just because our class is getting shoved nearer the front of *The Alumnus* is

no reason for our column getting smaller. Once again I say, "How about some mail!"

I would like to thank Mrs. Howe Hall for sending me news of her daughter, Margaret, and her husband, Arnold Hook. Dr. and Mrs. Hook are living at 18686 Fairport Ave., Detroit 5, Mich. They have three children: Richard (5 years), Leonard (2), and Martha Ann who was born Sept. 10, 1950. Arnold is with Park-Davis Co. in Detroit.

Robert Craigie is a sales correspondent with Manning Maxwell & Moore, Inc., Watertown, Mass. His home address is 51 Dunckler Ave., Stoneham 80, Mass.

Dorothy Woodcock is studying for her Master's degree in Public Health Nutrition at Simmons and Harvard. She was formerly at the V. A. Hospital in Togus, Maine. Her address is 278 Walnut St., Brookline, Mass.

Seen at the fall football games—Henry and Win (Coburn) Anderson, George and Arlene (Higgins) Cobb and son, Ralph Clyde and Ruth (Libby) Higgins, Pete and Hope (Wing) Weston, John Sealey, Harold Lord, Joe McEachern, Reggie Naugler, Dr. John Miller, Bill Brooks, Evelyn Tracy Puntin, Caroline Currier Lombardi.

Homecoming Day, November 4, was especially eventful for Clifford (Candy) and Billie Lynch as their daughter, Pamela Mary, was born that afternoon.

1937 Miss Nancy Woods
342 W. Freemason St.,
Norfolk, Va.

Since my mother, Annie Gilbert Woods, class of 1911, has moved to Norfolk, it seems more like home to me than ever. But I am always glad to see the Alumni Office letter come rolling in from Bette Kilpatrick in Orono each month.

First of all, Commander George C. Bullard, fleet Air Wing 5, is here in Norfolk at the Naval Air Station. Immediately following the completion of this letter, I shall dispatch a note to George asking him for his life history. Since his address has come to us from "lost," it is not too much to hope that he will comply with the request, we hope!

Newell Avery is associated with the *Cape Cod Standard Times* and may be addressed at 79 Pine St., Hyannis, Mass. Drop us a line here in Norfolk!

Henry J. Alberti has moved to 219 Pine St., Lewiston, Maine, from So. Portland.

On the feminine side of the news—Barbara (Langaster) Raymond writes that she and Gordon have a second son, Dana, who was born last spring. Their first son is now aged two and one-half and is going to Merrill Hall Nursery School on the campus in Orono.

I hope you all have had a happy holiday season and have made a New Year's resolution to write your class secretary here in Norfolk!

1938 Mrs. Roland M. Wirths
(Mary Deering)
1079 Ocean Ave., Portland

Lucy (Cobb) and Paul Brown ('39) became the parents of a baby girl on October 12, their fifth child and first girl. They named her Margaret Ann. She weighed in at 7 pounds 11 oz.

Nathan Fellows has been recalled to active navy duty. His wife is Ginny Pease '40 and their residence address is 59 Fairview Ave., Augusta.

Alfred Chatterton has moved from West Lynn, Mass., to 22 Claremont Terrace, Swampscott, Mass.

Russ Newcomb is a fishery biologist

for the Oregon State Game Commission. He is now directing research through the Oregon Cooperative Wildlife Research Unit. His business address is 210 Agricultural Engineering Bldg., Corvallis, Oregon. (This is at Oregon State College.) His residence address is 241 No. 16th St., Corvallis.

Rose (Costrell) Byer (Mrs. David) and her family have moved from Brightwood Station, Washington, D. C., to 9602 Evergreen, Silver Spring, Md.

Dave Carswell has a change of address from Box 118, Eldorado Springs, Colorado, to Ft. Lons A. & M. College, Hesperus, Colorado.

Ed Abbott is President of Abbott Brothers, Co., Inc., engaged in cabinet and store fixture manufacturing. He is married and has three children.

1939 Mrs. Donald Huff
(Ethelyn Parkman)
8 Penley St., Augusta

The news for '39 this month consists of three address changes—all from the Alumni Office.

The Drews, Dana and Ruth, are now living at 13 Bay St., Boothbay Harbor. Dana is principal of the high school there.

Mrs. Robert Johnson (Bula Fitch) and family have moved from Upton to 254 Bridge St., Hamilton, Mass.

Helen (Bond) McCutchan has just moved into a newly purchased home at 2700 Parker Ave., Silver Spring, Md. Helen is secretary of the Washington, D. C., Maine alumni group.

A wonderful New Year to you all!

EDWARD E. CHASE, President
MAINE SECURITIES COMPANY
465 Congress Street
Portland, Me.

Frank F. Allen, Manager

"True Maine Hospitality"

1940 Mrs Edward R Ladd
(Peggy Hauck)
108 Talbot Ave, Rockland

The rain didn't completely prevent our seeing a few familiar faces at the Homecoming game in November. Bill Treat and his wife and Tib and Betty (Kluse) Parkman were among the hardy souls who enjoyed the game in spite of the weather.

In October Rachel (Kent) Clark and her children, Nancy and Betsy, were models in a style show in Presque Isle. A very attractive picture of them appeared in the *Portland Sunday Telegram*. The Clarks live in Ft Fairfield where Ken is athletic coach at the High School.

Elizabeth Sullivan (Mrs William P. Anderson) is living at Longfellow Inn, Eastern Promenade, Portland.

James J Fitzpatrick has moved from Rensselaer, N. Y., to F. Weare, N. H.

John H. Derry is now living at 98 Camron Rd, Bergenfield, N. J., having moved from Jamaica, N. Y.

William H. Copeland is associated with the Norton Co. of Canada, Ltd., Hamilton, Ontario.

Earl G. Bacon has moved from Oakland, Maine, to 116 Johnson St., Lynn, Mass.

Atwood O. Smart is now living at 159 S. Main St., Presque Isle, Maine.

1941 Mrs Vale Maivin
(Hilda Rowe)
Kennebec Rd.,
Hampden Highlands

Tenth Reunion, June 15-17, 1951

George Ellis is Assistant Professor in Business Administration and Economics at the University of Maine. He and Sylvia and daughter, Rebecca, have recently moved to their new home at 6 Myrtle St., Orono.

Howard R. Frost is associated with the Trans World Airlines Co. His residence is 58 Coopersmith Rd., Levittown, L. I., N. Y.

Russell I. Dahlin is a farmer and lives at Manlius, R.F.D. #1, N. Y.

Mr. and Mrs. Robert E. Cooke have moved to 110 Davenport Ave., New Haven, Conn.

Joseph F. Burke is an internal auditor for the Lux Clock Mfg. Co., Inc., Waterbury, Conn. He lives at 28 City Hill St., Union City, Conn.

Elwood A. Allen is superintendent of schools in Phillips, Maine.

Brooks Brown, Jr., has been recently recalled to the armed services.

Henry W. Wallace has moved to R.F.D. #2, Ballston Lake, N. Y.

George Nystrom, Lt. Commander U.S.N., has been called back into the service. I saw Dottie a couple of days ago and got the particulars. George is with General Electric Office of Inspection of Naval Material. Dottie and young Larry are joining him there as soon as the movers arrive. They have rented their home in Hampden Highlands and will live now at New Shaker Rd., West Albany, N. Y.—Box 262A. Dottie also told me that she had seen Roddy Gardner who is back at the U. of M. studying. He and his family are living at 121 N. Main St., Orono. I think they have two children.

"Skip" (Creamer) and Don Wilson have a daughter, Lynn Lorraine, who was born on October 14, 1950, in Eastport. Congratulations!

I received a nice letter from Polly (Riley) Wilson today. She was married on May 13, 1950, in Biddeford to 1st Lt. Harold B. Wilson, U.S.M.C. They lived

in Jacksonville, N. Carolina, while Harold was stationed at Camp Lejeune. He left for Korea on July 29th and has been wounded three times. Polly last heard from him in a letter dated Nov. 26th in Koto. Polly is at home—99 W. Cutts St., Biddeford. Our very best wishes to you and Harold, Polly, and our prayers for his safe return.

I talked with Maddy (Smart) Beardsall on the telephone when I was in Boston recently. She and Wally and daughter, Betty (aged 3) live in Littleton, Mass., where Wally is in the yarn business. They hope to get to our reunion in June. We hope so, too.

John K. O'Donoghue has moved to 156 Morrissey Walk, Bergenfield, N. J.

Saw Esther Drummond for a few minutes at the Bowdoin-Maine game. She is doing speech therapy at the Hyde Memorial Home for crippled children in Bath.

Happy 1951 to each and all of you and please drop me a postcard, won't you?

1942 Mrs. Jose Cuetera
(Barbara Savage)
76 Prospect St.,
Wellesley Hills 82, Mass.

On the heels of our receiving a note from Arlene (Rodman) Boyle that she and Iquie and Susan are living at 244 Beacon St., Suite 51, Boston 16, I spotted a group picture of children from the Ursuline Academy in Boston in the evening paper, including little Susan who is attending nursery school. Arlene reports that all the Boyles like it fine in Boston. Louie is studying law.

Am belatedly including notes from Buddy (Long) Stone whose address is 4 Wentworth St., Biddeford. She says that Dave and Lorraine (Dimitrie) Hopkinson have moved to Kennebunk and that Dave is connected with the Saco-Lowell plant in Biddeford.

Dana and Carol (Fassett) Nye are living in Belgrade, Maine—Rt. #1 and have three children—Irairie, Lincoln, and Perry.

Buddy wants any of us passing along Route 1 to be sure to stop and look up the Stones. She enclosed a clipping telling about George Cunningham's appointment as state representative of the National Foundation for Infantile Paralysis for Maine, New Hampshire, and Vermont. His offices are at 266 Congress Bldg., 142 High St., Portland, Maine. (George's position was previously held by "Bucket" Taverier '43 who has gone into broader fields of national polio work.) George and Betty (Thomas '42) and 3-year-old Joel live at 30 West St., Portland.

Leland and Helen Carter sent us a pretty announcement of the birth of Sharon Lee on September 5. The Carters' address is Masconomet Rd., Ipswich, Mass. Congratulations, we say!

From Flossy Butterworth came the news that John and Mimi Mayo have a baby girl born September 2 and named Julie. Again Congratulations!

Was happy to receive a clipping from the *Bangor Daily Commercial* which my mother forwarded in the interest of the column... and of great personal interest, too. New York Nov. 29—Mr. and Mrs. Nathaniel Crowley (Esther Whitman '44) of Bangor, Maine arrived this morning for their all-expense trip awarded when he won the "Tops of the Town" contest sponsored by the *Bangor Daily Commercial* and General Mills, Inc. The trip included a stay at the Hotel Statler, sightseeing, attending Radio City and a stage play, dining at several famous restau-

rants. Residents of Bangor and Brewer chose Nat the winner after a five-week contest. Well, we can't be emphatic enough in adding our congratulations to those of all the proven friends of Nat and Esther in Bangor and Brewer. (For those who don't know, Nat is Coach at John Baptist High School.) Congratulations to you both from the whole class!

We have some changes of address for you. Paul Ehrenfried has moved to 52 Rivas Ave., San Francisco 27, Calif.

Mr. John Eldridge is now living at 5015 Riverdale Rd., Riverdale, Md.

Herbert Inglen's present address is 206 Forest Ave., East Grand Forks, Minn. Herb received a Ph.D. last June from Cornell University and is now associated with the Experiment Station at the State College of Agriculture at Grand Forks, North Dakota.

Jean (Goodwin) Fenlason is now living on Main St., Somers, Conn. Her husband Abiah (Bob) is with Sears Roebuck in West Springfield, Mass.

Bob Beaton's new address is 4804-70 P., Hyattsville, Md.

Harold and Betty (Brown '45) Blood are living in Monson, Maine, as we have previously reported, I believe.

Bob Dalrymple is in the Army Air Corps and is stationed at Eglin Field, Florida.

Martha (Pierce) Zimmerman is living at 55 Miller Ave., Rumford, R. I. Her husband completed his degree at Maine last June.

Joseph J. Albert is now living at 109 Wellington Rd., Portland.

Victor Minutti has as his business address—Plushwood Co., Oshkosh, Wisconsin, and the Minuttis live at 464 1/2 Ashland Ave., Oshkosh.

Mary McConnell is now Mary Little and she continues to live in Presque Isle.

Don Beaton is a graduate assistant in History and Government at the University of Maine. He and Mrs. Beaton and their four children live at 11-A So. Apts., Orono.

Woody and Elene Gleason have moved to 42 Chamberlain St., Brewer. They formerly lived at another address in Brewer.

In concluding, I happily mention our new address which you will reach easily not far from the new route 128 in Wellesley Hills—76 Prospect St. is the number and street. It is our own home, and of course, we are so happy to be here. We do want any of you who can pause enroute to come and see us. And so this is all for now and we close with all good wishes for the New Year.

1943 Mrs R. C. Lycette
(Freda Flanders)
20 Park Ave., Massena, N. Y.

As this is the season of good cheer and resolutions, one way to spread some of the cheer during the year to come is to make and keep a resolution to write to you, columnist of your family, job, and activities, and she will pass same on to the rest of the class. All news is welcome, and one item of the sort we most like to hear starts off the column.

It comes from Dwight and Frankie (Drew) Moody and announces the arrival on Nov. 6, 1950, of Miss Elizabeth, bringing their family total to two boys and two girls. They are living in Hampden Highlands. Dwight is teaching agriculture at Hampden Academy, having received his Master's in Education from Cornell in June, 1949. Frankie has seen Rita (Cassidy) Adams and a few other Maine people occasionally and would welcome more.

While in the hospital she saw Elsie (Clark) Hall '44, also a patient and for the same reason, who increased the Hall population to a grand total of three boys and one girl.

Mr and Mrs Robert D. Jenkins were among the '43ers back on campus for reunion in June. At that time they were living in South Weymouth, Mass. On Nov. 1st they moved and now call 8386 Banbury Street, Valley Dale, Hamilton County, Ohio, home.

From Harry Files comes the information, via Mrs. Files (Natalie Curtis '44), that he is a lieutenant in the Navy in the capacity of Operations Officer on the destroyer USS Charles Ware (Ed—Word has just been received that Harry was stricken with polio in the late fall and is recuperating at Chelsea Naval Hospital. Our wishes for a quick and complete recovery!)

The Dick Carlins, formerly of St. Louis, Mo., have moved to 622 W. 168th Street, New York, N. Y.

Harry Beckman is now living at 111 East 7th Street, Erie, Pa.

Doris (Webbley) Nichols (Mrs. Paul E.) writes that her chief occupation is that of wife and mom. She has two children, Paul, 8, and Cynthia, 2. They live at 25 Jeanette Avenue, Belmont, Mass.

Mary Hempstead (Mrs. Robert F.) Hemman's new address is Westview Dr., Norwood, Mass.

Kingsley W. Hawthorne is the pastor of the Flot Union Church in Lowell, Mass. He makes his home at 162 Sanders Avenue, Lowell, Mass.

R. E. Stratton is now one of the "Maine Colony" in Hampden. Address: 7 Cottage Street, Hampden, Maine.

Francis A. Brown was admitted to the Maine Bar on Sept. 5, 1950, and is now practicing law in Calais. His business address is P.O. Box 374, Calais, Maine; personal mail goes to P.O. Box G, Woodland, Maine.

Kenneth J. Kay is working for the Singer Manufacturing Co. in Bridgeport, Conn. He lives at 115 Ridgeview Avenue, Bridgeport 4, Conn.

That's all the news for this month. And now just a parting wish that the new year may bring lots of good things to you and yours and that you will write and tell us about it. Bye.

1944 Mrs. Charles Cook
(Margaret McCurdy)
48 Penobscot St., Bangor

Guess everyone is involved in Christmas shopping because I haven't had any news except from the Alumni Office.

I did see a few '44ers at the Bowdoin-Maine game. Ginny (Goodrich) and Clarence McIntire (he is a dentist in Portland nowadays). "Swish" (Priscilla Leonard) and Franklin Brooks. Dorice (Dow) and Dick Fuller. Leon White, Jr., and the Jim Warrens (Kate McCurdy).

The Fullers told me that they have a new addition—a girl, Meredith Jane, born September 3rd. They also have two boys—Drew (4 years) and Don (2).

Belated congratulations to Myrle Sawyer who was married recently to Robert T. Andrew. The Andrews' mail goes to 2967 S. Columbus St., Arlington, Va. Robert is an electronics engineer with the Navy Department.

Charles Angel's new mailing address is Rt. #3, Frederick, Md.

Other changes in address are:

Ruth Allen—Apt. 2, 2816 Conn. Ave., Washington 8, D. C.

John Wescott—Harney Bldg., Pepperell, Mass.

Pauline Berce—68½ Broad St., Danielson, Conn. Polly is teaching homemaking at Killingly High School.

We have finally located a few of our so-called "lost" classmates.

Floyd Smith is a sales representative for General Electric Co. and is living at 901 Nordecai Dr., Raleigh, N. Carolina. Floyd received his engineering degree from Worcester Polytechnic Institute.

Peter Macomber is at 10102 Diamond Blvd., S.W., Tacoma, Wash., and is working at the Madigan General Hospital in Tacoma.

Ruth (Shapero) Berman is now at 39 Wilder St., Dorchester, Mass.

From Rodolphe Alexis Gaulin's mother, we learn that Rodolphe is in Hartford, Conn.—1072 Broad St. He is now married and has three children.

Raymond Broisman is a chemist (smelting) and his address is 53 Cummings Rd., Brighton 35, Mass.

Richard Innes is a physicist in the Research Lab. of S. D. Warren Co., Cumberland Mills, Maine. Richard would like his mail to go to 10 Libby Ave., Cumberland Mills—for any of you who may be writing.

Alvena Chick has a teaching position and mail goes to 89 Sherwood St., Portland, Maine.

Hope you all had a very Merry Christmas and need I mention AGAIN what to include in your list of New Year resolutions!

1945 Mrs. Robert A. Pancoast
(Babs Haines)
Parkway Apt. 25-B
Haddonfield, N. J.

To keep up the score, here's another wedding to report. Ruth Higgins became Mrs. Donald Holsman on September 2 in Bar Harbor. The couple are now residing at 116 Joralemon Ave., Brooklyn Heights, N. Y., while Don attends medical school in New York.

Barb Bodwell and I really hit the jackpot last month when calling Ruth's ex-apartment to learn her new address. The present occupant turned out to be Beth Clement ('47) who not only provided the asked for information but also announced that Loraine (Davis) Strain was there visiting for the week end. Loraine and 11-month-old Scott were on their way home from a visit with the Maine relatives. Their address is 5267 Blackstone, Chicago 37, Ill.

Since that new address was added to the growing list I have received a card from Walter Brooks who with wife Margaret Spaulding ('47) is living at 4954 Blackstone. What's three blocks among a bunch of Mammies? Walter is now a senior at Northern Illinois College of Optometry, and he and Peg expect to be in Rumford, Maine, for a while after February 1.

Another student is Carolyn Small, who is now studying for her master's degree in library science at the University of Michigan. All mail goes to 537 Church St., Ann Arbor, Michigan, until June. Then Carolyn plans a summer in Maine before starting work again.

The Don Crosslands are finally settled and invite any and all to call on them at 1201 Albion St., Apt. 304A, Denver 7, Colorado. Don says the climate is wonderful (only one day of rain so far since their arrival), and he's sure folks from Maine would appreciate it. He is now happily at work with the Title Guaranty Co., training to sell real estate title in-

surance. A pleasant surprise was a chance meeting with Ken LaBarge in the middle of the financial district.

Kenneth Foss writes that he was married on July 24, 1948, to Eunice Brewster, a Connecticut College graduate. They now have an 8-month-old son, James Franklin. Ken is employed by the National Advisory Committee for Aeronautics as an aeronautical engineer. The three Fosses are living at 102 Shenandoah Rd., Hampton, Va.

Among the recently graduated and newly employed are Sidney and Charles Gilman. They are both working for Winchester Repeating Arms and residing at 53 Lake Place, New Haven, Conn.

A special thanks to Bob Bearor for his grand letter with all the past, present, and future data. To begin with, the title is now *Doctor* Bearor. Bob graduated from the Boston University School of Medicine in 1948 and interned at Central Maine Hospital in Lewiston. After that came more training under the Bingham Association for Advancement of Rural Medicine, with work in Boston and Providence. This year he became interested in the group of islands west of Rockland and signed up to "give adequate medical coverage" to the participants in the Islands Community Medical Services, Inc. His home port is North Haven, with side trips to Vinalhaven, Matineus, and Cribhaven via boat, car, and plane. I was brought up on tales of these islands and know that Bob and his fellow doctor are doing a big job, as medical services were really just about nil in "the good old days." In the personal field, Bob announces that Mrs. Bearor is the former Mary Lyons, a graduate of New England Hospital for Women and Children. Before their marriage in October, 1948, Mary was a pediatric nurse at the Children's Hospital in Boston. Right now she is busy caring for young Peter, now 10 months old. A final note on the Bearors: they expected "Daddy" to be in the Army Medical Corps by the first of the year.

Royal S. Graves III is now a teacher.

DAKIN'S

ATHLETIC TEAMS
AND
ALUMNI

and assistant principal in the public schools of Duxbury, Mass. Royal was married to Alice Deering Morse in May 1944. She is a graduate of Westbrook Junior College and now cares for the Graves home, a seven-room house right on the shore, and the latest Graves, 8-month-old Royal S. IV. Young Sandy sounds like the apple of his parents' eyes.

Next on the list is Roger Hannemann who recently moved to RFD 1, Westbrook, Maine. He is a sales engineer for Minneapolis-Honeywell Regulator Co. He and Marion (nee Notz) also have a small son, Paul Thomas, who is now the ripe old age of six months. Roger reports that he saw Tom Boerke "the other day" and Tom is looking well.

I'm sure many of you will remember Polly Holden even though she was only with our class a couple of years. Polly is now Mrs. Arthur Hay Barker and the mother of two-year-old Clarissa. Husband Arthur is a graduate of Yale and of Harvard Law School and is now practicing law in New York City. The Barkers are now living at 155 East 82nd St., New York, N. Y., after spending a delightful summer in Europe. Sounds nice, hmmm?

George Kelley is a senior salesman in the Maine and New Hampshire territory for Burroughs Adding Machine Co. He is married to the former Althea Libby and

the father of two-year-old Margo Lois Kelley. Glad to find someone who shares that August 31, 1946, anniversary with us Pancoasts, George! The Kelleys call 73 Everett Ave., South Portland, home.

Here is a real rarity! Jim Mooney reports that he is "unattached." My my, a Maine man still on the loose. Jim is a senior at Georgetown Law School. His mailing address is 5209 2nd St., N.W., Washington, D. C.

Henry Packard also sent a news-filled card. His wife is the former Joyce Witt of Kansas City, Mo. Their score in children was just upped to four by the addition about three months ago of twin daughters, Kathy and Diana. Older sisters Joye and Pamie are 5 and 2½ now. Hank is working for the Packard Oil Co. and has just built a ranch house. Sounds like an important personage in the town, hmmm? He issues an invitation to call at the new home on Packard Ave., Norway, Maine.

Carol Stevens Angelone and husband John also have a new address, 66 Veranda St., Portland, Maine. Carol writes that John is a restaurant owner, and they are the proud parents of Julia, Steven, and Jacqueline, who are 4, 3, and 2 years old.

Two more prospective Mainiacs have arrived in recent weeks. Ruth Wallingford is now residing with Otto and Peg (Stackpole) Wallingford at Perkins Ridge in Auburn, Maine. This young lady appeared on November 8. Peg also writes that Otto is working as an orchardist with his father.

Second of the new pre-debs is Deborah Ann, the daughter of Bob and Betty O'Leary Beede. Debbie weighed in at 6 pounds, 11 ounces on November 25 and has since joined the family, including big brother, Scott, at 85 Center St., Bangor. Bob is branch claims manager for Lumberman's Mutual Casualty Co.

I want to thank all of you who were so prompt and conscientious about returning the cards I sent you. There are still many of those cards among the missing, and I hope the rest of you will be encouraged to take the necessary few minutes to fill in the spaces and drop the card in a mail box. See how much news we have this month? And those of you who didn't receive a special card, please just drop me a note on your own. After typing cards for the better part of two weeks, I was compelled to return to housewifely chores. Do keep the news coming, please.

1946 Mrs. A. D. Gamber
(Terry Dumais)
108 Park St., Ridley Park, Pa.
Fifth Reunion, June 15-17, 1951

I have a number of long-awaited addresses this issue. Many of you have asked for news of these people and the office has come through as follows.

Althea Barstow is teaching in Massachusetts—her address is 53 Greenleaf St., Quincy 69, Mass.

Evelyn B. Merrill is working as a laboratory technician at the Lennox Hill Hospital in New York City. Evelyn is also studying for her Master's degree at Columbia University. Her home address is 85 Riverside Dr., Apt. B., New York 24, N. Y.

Also there is a new address for Mr. and Mrs. Harold Fray, Jr. (Harriet Steinmetz). They are now living at 24 East Lawnwood Ave., Orangeburg, N. Y.

Stanley Ostrow is a student at New York University. He can be reached at his home address—42-10 82nd St., Elmhurst, N. Y.

And now a California address for you—

Angie Veronis is now in Arcadia, California, at 1031 Baldwin Ave. Would really enjoy hearing from you, Angie, all about your work and the West Coast.

Received a very welcome letter from Dave Holmes recently. That boy has really been busy. He's now the proud possessor of a new car, a Master's degree from MIT, and of course a wife, Martha. The Holmeses were married on June 12 in Newtonville, Mass., and a wedding trip to California followed! Dave is now working at Radio Corporation of America (RCA Laboratories Division) in Princeton, N. J., as a Research Engineer. He and Martha are living at 46B Chester Circle, New Brunswick, N. J. Dave mentioned visiting with Ed Butler and his wife Joyce. Dave and Martha were at the Maine-Bowdoin game and spoke of seeing Jack Day and Gene Emerson.

Doris (Stickney) Anderson also mentioned in a letter that she had seen Gene at the Bowdoin game and heard that our prey had been ill—but no further details than that.

Doris and Bob (Anderson, I mean) have been busy selling maps, etc., at various state and county educators' meetings, and thanks to them and their travels, I've picked up quite a bit more news, for they've talked with quite a few '46ers.

Elda Gallison is at Laconia, N. H., on the high school faculty.

Gayle McLaughlin is now at Milo High School and Danny Frazier is at Lee Academy. Bill Stone is coaching at the high school in Biddetord. He and Buddy (Long '42) are living at 4 Wentworth St., Biddetord.

Mary Smith has headed south for the winter months. We're expecting a visit from her on her return trip north. While in Florida her address will be 560 71st St. N., St. Petersburg (Box 45, RFD), Presque Isle, is her Maine address.)

Certainly have enjoyed seeing so many Maine folks while here in Pennsylvania. We've visited with Bill and Barbara (Morse) Bridges, Dick and Peggy Watson, and enjoyed last Sunday with Frank and Janet Higgins when they were here for dinner. (Their address is 29B Lee St., Woodstown, N. J.)

Hope that some Christmas cards will have brought welcome notes from a lot of you '46ers!

1947 Mrs. Paul Dowe
(Peg Googins)
Turner, Maine

Guess this is the busy season, all right. Haven't had a single letter in months. Hope you all will get busy now that the holidays are over and send some news along!

I do have a few items sent by the Alumni Office.

Beverly (Kemp) Harmon and her husband Jim '50 are now living at the Aircraft Trailer Court in Hartford, Conn.

Elizabeth Lehman's address is now Ent. Music Special Service Sec., Yokohama Command, A.P.O. 503, c/o Postmaster, San Francisco, Calif. Doesn't that sound different and exciting? I shall have to write and see what it is all about!

Anna Berry's latest address is 612 W. 27th St., Norfolk, Va.

That's all for now. A Happy New Year and DO WRITE!

1948 Mrs. Willard Moulton
(Pauline True)
Standish, Maine

I have a correction to make—informed you last month that Margie (Watson) and Al Savignano '49 were located in Ellsworth. They are located in Auburn—

John Hancock

Sav teaching at Edward Little High School

Esther Watson was married November 11 in West Medford, Mass., to Lawrence Ferri of Medford, Mass. Esther is working in the laboratory at the Massachusetts Institute of Technology. Lawrence is a graduate of Boston College and is now employed as an insurance examiner for the State of Massachusetts.

Edie Anne (Young) and Al Hutchinson have a baby daughter, Suzanne, born October 28. The Hutchinsons' address is 101 Centre Street, Danvers, Mass. Joyce and Robert Millar have a young son, Jeffrey Reid Millar, born June 5, 1950. Their mail goes to General Delivery, Bantam, Conn.

George O'Donnell is now teaching at Montclair School in the Denver, Colorado, Public School System. He has entered the Organized Naval Reserve as a Sr. Lt. in the Naval Air Corps. The O'Donnells are living at 4171 Adams, Denver 16. Francis Galiano is a civil engineer with the Massachusetts State Highway Commission and is living at 90 Linden Street, Pittsfield, Mass. Dwight Crockett, Jr., was graduated last February from the Wharton Graduate School of Finance and Commerce, University of Pennsylvania, Philadelphia, and is now working in the production control department of the new million-dollar woolen and worsted finishing plant of Deering Milliken, a textile firm. Dwight is living at 108 Hillcrest, Clamson, S. C.

Jean Wallace received her M.S. in botany from the University of Maine in 1949 and is now an instructor of entomology there. Jean toured by bicycle through France, Switzerland, Italy, Austria, East Germany, Belgium, Netherlands, and England this past summer. Douglas Johnson is an inspector for The Lumber Mutual Fire Insurance Company—a traveling job. Deacon is living at Bancroft Rd., Andover, Mass. Gloria (McGinley) and Gerald Pickard '50 are living at 313 Riverview Ave., Morgantown, West Virginia. Gloria is working in the microfilm department at West Virginia University library while Gerry is studying as a graduate assistant at the University, expecting to get his Master's degree in June, 1952.

Don Peterson is an accounting trainee, Business Training Course, General Electric Company, Bridgeport, Conn. His address is 316 Pine Creek Ave., Fairfield, Conn. Philip Whitney is head engineer on the American Guernsey Cattle Club building, Peterborough, New Hampshire. He and Phoebe are living at 84 Main St., Peterborough.

Jean (Fleming) and Jim Sprague are living at 334 North Super, Houston, Texas. Jim is a sales trainee with Pittsburgh Plate Glass, Houston, and is also singing with a local orchestra a few nights a week. Melvin Naseck is manager of the Alson Hardware Company in Brookline, Massachusetts. His address is 145 Englewood Avenue, Brookline. Ella (Sawyer) and Gladden Evans '49 are living at 604 University Avenue, Syracuse 4, N. Y. "Denny" is technical writer and assistant manager of Tech Manual Publishing House.

Marit (Andersen) and Bill Wilson are at 45 Sachem Village, Hanover, New Hampshire. Bill is an interne at the Mary Hitchcock Hospital, Hanover, N. H. He received his M.D. from the University of Pennsylvania last June. They have a daughter, Susan Stuart, born February 5, 1950.

Florence (Bruce) and Jim Gorum are

in Salzburg, Austria, where Jim is stationed with the U. S. Army. They are seeing quite a bit of the country in Western Germany in their spare-time travels and both Babe and Jim are taking courses at the Army Education Center taught by a professor from the University of Vienna. Their mail goes to M/Sgt. J. R. Gorum or Mrs. J. R. Gorum, Hq. Co., 350 Inf. Regt., A. P. O. 541, c/o Postmaster, N. Y., N. Y.

'48ers who already belong to local alumni associations are urging others to join. The local associations are listed in *The Alumnus*, so if you are not active in an organization now, contact one near you and start going to meetings. There will be people there you know. Try it and see. For some of you who may not know, a new alumnae group has just been formed in the Lewiston-Auburn area. The men's group has been active for some time.

The post-office address of the Willard Moultons has changed to Standish, Maine. Will is working as an underwriter in the accident and health department of Union Mutual Life Insurance Company in Portland.

1949

Mrs. P. J. Murdock, Jr.
(Babs Hayden)
Hollis, Maine

First Reunion, June 15-17, 1951

Thanks to all those of you who have been dropping me cards to let me know what you've been doing—wish more of you would do the same—how about it?

A letter from Ike (Edwin) Webber reports that he and Shirley have a son born last August. Ike is an instructor in the Department of History and Government at Maine and is working on his Master's. Their address is South Apartments 1-H, Orono.

Bill Stuckel is working for the Aluminum Co. of America as a sales engineer. He was in the Boston office for a while and then travelled throughout the Eastern U. S. during his training program. He's based at the Boston office and living at home—address 23 Louise Road, Belmont, Mass. Thanks, Bill!

Bud (Harcourt) Davis is working for Turner Construction Co. and his address is 305 Wayne Avenue, Lansdowne, Pa.

Phil Coffin is working for the Bureau of Reclamation in So. Dakota—address Box 464, Pierre, S. D.

Phil Bickford was working in the New York office of Liberty Mutual Insurance Co. as a safety engineer but has now been transferred to Oklahoma. Address—1447 N. W. 29th Street, Oklahoma City, Oklahoma. (Thanks to Bill Stuckel for last three items.)

West Point, N. Y.

Although news is scarce, there are many interesting items of our class. I'll start right out with the marriages: Richard I. Barton to Barbara Skoffield ('52) on 26 May 1950. Leonard W. Bowles to Mabel F. Griffen on 19 August 1950. Danny Brady to Gerry Moulton of Auburn, she graduated from Bates College this past June. David C. Cates to Janice Scales ('48). James A. Coughlin to Joanne A. Short of Hampden Highlands, they are living in Hampden Highlands while he is employed by New England Telephone and Telegraph Company. Constantine W. Kyros to Theodora Liakopoulos, they are at Pennsylvania State College while he does graduate work. June Smith to Aubrey M. Smith of Presque Isle on 20 October 1950. Lois Ann Whitney to

Albert Thomas. Marilyn E. Russell to John A. Hall ('49), they are in Ash-tabula, Ohio.

Dorothy Lord is engaged to Alton M. Hopkins, Hop has been called back into the service and is awaiting orders.

Teaching continues to be prevalent in the doings of the '50'ers. Moses L. Garland is teaching commercial subjects and assists with music in the Shead Memorial High School. Mary Gildersleeve and Joanne Libby are teaching English and Home Economics respectively at Martha's Vineyard, Mass. Others are: Louise Hamlin in Presque Isle, Virginia Healey in Lubec, Eleanor Jones at the Brunswick Union High School, Barbara LaBonty at Stephens High School, Rumford, Me. Margaret Mollison is teaching in Dexter, Me., while Caroline Strong is an able physical education instructor in Houlton High School. Thornton E. Johnson has the 7th and 8th grades at Searsport High School, he was recently married to Joan M. Hickey. Joyce Wilson is an instructor in English at Limestone High School.

Priscilla Goggin is a student at the New England Conservatory of Music in Boston and is living at 463 Beacon St. in that city.

George Sampson is a junior engineer with Commonwealth Associates, Inc., Jackson, Michigan.

Hamilton Giberson is principal of Castine High School.

Harold Gilbert is Planning Assistant for the City of Portland. His permanent address is Canton, Maine.

Shirley Johnson is studying nursing at the Yale University School of Nursing.

Steve Riley works as a reporter for the Brunswick Record.

Jack Zollo is associated with the Rumford Falls Power and Light Company.

Lora Moulton and Bob White were married on the 22nd of November, Bob is going to school in Boston and Lora continues to teach in Mechanic Falls.

Katie (Bennett '49) and Dick Lawson are living in Watertown, Conn.
