CATALOGUE FOR 1899,
OF THE
HATHORN * FARM * COMPANY,
INCORPORATED UNDER LAWS OF MAINE.

Breeders of A. J. C. C. Stock,
Hathorn Farm, Pittsfield, + Greely Farm, Trenton,
Perkins Farm, Penobscot.

Purest strains St. Lambert and the Jersey Stock.

JOHN C. GORDON, MANAGER,                  P. O., ELLSWORTH, MAINE.
Horse Barn at the Hathorn Farm.
The Hathorn Farm Company was organized as a corporation in 1899 with a capital of $50,000, of which $30,000 is paid in. The very valuable properties of the corporation are located at Pittsfield, Ellsworth, Trenton and Penobscot. The Hathorn Farm at Pittsfield, one of the best known in the State, and formerly devoted to the breeding of horses, has been largely renovated and is now devoted to dairying and the breeding of Jersey cattle. Large barns have been built, one of which contains a tie-up 132 feet in length with room for 45 milking cows. The location of the farm in the village limits of Pittsfield allows us to take advantage of the water, electric light and power systems and at the same time the large area of 150 acres, and the numerous and extensive buildings make the farm a community by itself. Advantage is taken of all modern improvements and facilities in the care and raising of stock.

Some of the best strains of Jersey stock have been procured to breed from, as is shown by the pedigrees within, and the breeding and sale of the best of Jersey animals, is to be made
a feature of the management. Satisfactory prices and more detailed information will be given upon application. A large number of high grade Jersey cows were purchased in 1898, about a third of which will be sold to make room for the full blooded stock being introduced. Good bargains in deep milking grades can be obtained during September.

**PIGS.**

Ohio Improved Chester Pigs are being raised and will be sold in small numbers.

**BUTTER AND CREAM.**

The Company is operating two creameries with large capacities, the Pittsfield creamery and the Ellsworth creamery. Both are practically new, the Pittsfield creamery being finished the present season and fitted with the best of modern machinery including a Reed Pasteurizer and a United States Separator. A very superior quality of creamery butter is being manufactured. A special feature of the butter department is the Hathorn Farm Butter which is made of sweet cream from the selected herd of the Hathorn Farm. The article competes successfully with the best quality of Philadelphia butter and has the advantage for consumers in Maine of being perfectly fresh, not being transported from a distance. Great care is taken in the care and management of cream which is shipped in large quantities to the best customers at Bar Harbor. We desire to increase our business in all the lines above mentioned and think that dealers with us will be satisfied with their treatment. Correspondence will be promptly attended to. Write us for prices.
