The Republicans of Maine, meeting in convention, welcome the signs that a free people will no longer submit to the destruction of our American institutions, and declare as follows:

1. The integrity and complete separation of the functions of the Executive, legislative and judicial branches of the Federal government must be maintained.

2. We believe in adequate naval and military preparedness for the national defense.

3. We advocate only such federal taxation as is essential and consistent with sound economic policies.

4. We do not countenance federal competition with private industry.

5. The objectives of Social Security are sound. The diversion of Social Security funds is wrong. The application of Social Security should be broadened. We believe in a "pay as you go" policy for Social Security.

6. We believe in an agricultural program which shall be based upon the American tradition of abundance, without regimentation.

7. We advocate a sound currency. The first requisite to a sound and stable currency is a balanced budget. We oppose further devaluation of the dollar. We demand the restoration to the Congress of the authority lodged with it by the Constitution, but now delegated to the Executive, to coin money and regulate the value thereof.

8. The products of Maine are threatened by unfair competition from other countries by the lowering of tariff barriers in reciprocal trade agreements. This policy we condemn. We reaffirm our belief in protection to American producers, wage earners, and employers, and American products.

9. We urge the restoration to the Senate of the power of ratification of all treaties as is now provided in the Constitution.

10. We unreservedly commend the administration of the State Government by Governor Lewis O. Barrows. We especially commend his accomplishment in improving the financial condition of the State.

11. We subscribe to Old Age Assistance as now lawfully established, under the leadership of Governor Barrows, and pledge its further development as rapidly as circumstances warrant.
12. We do not countenance federal interference with the control of state affairs.

13. We commend the elimination of unnecessary functions and offices, and the reduction of general cost of government.

14. We further pledge to the taxpayers of Maine a just distribution of the tax burden, without the levy of new taxes.

15. We believe in the principle of education of our youth, and to this end we pledge our efforts to secure adequate funds for the equalization of educational opportunity.

16. We endorse the action of the last legislature in the establishment of a Civil Service System, and advocate its continuance and further development.

17. We favor the enactment of State labor relations legislation adapted to the needs of Maine labor and for the protection of the wage earner. We believe that the State Labor Department should be expanded to the extent that safety and sanitary conditions for the worker may be fully assured.

18. We commend the creation by the last legislature of a recess committee to investigate occupational disease legislation for the purpose of bettering the condition of the wage earners in the State of Maine.

19. We believe that the State Government should take all proper steps to develop and protect the industrial, agricultural and recreational life of our State.

20. Recognizing the valuable natural asset that the Port of Portland comprises for the entire State, we affirm our intention to protect maritime traffic through this Port against all discriminations and we will support efforts to increase this labor-producing activity.

21. We believe that the Sea and Shore Fisheries industry in this State should be fully protected, and further developed by research and study of the commercial possibilities of its allied products.

22. We point, with confidence in the intelligence of the electorate, to the fulfillment of our platform promises during the present Republican Administration. We invite all Maine citizens to join with us while, guided by our solemnly adopted principles and pledges, we continue to strive to maintain free institutions for a free people, and a government for the benefit of all the governed.
DEMOCRATIC PLATFORM—1938

To the people of Maine we heartily commend the splendid objectives of that great humanitarian, President Franklin D. Roosevelt, and his Administration, which has so greatly benefited every city, town and hamlet in our State.

In 1932, at a time when the Country was suffering from the most severe economic condition in history, our party elected a President of the Nation and a Governor in the State of Maine. We commend to the people of our State the results obtained under the leadership of President Roosevelt and former Governor Louis J. Brann.

UNEMPLOYMENT

We advocate by means of a public works or otherwise, employment for the unemployed at a living wage and until such time as such labor can be absorbed by industry. We approve of the plan of President Roosevelt in establishing the Social Security Act so that the working people of our State may have an earned protection against unemployment.

We believe that the distribution of the tax burden is inequitable and accordingly our tax system should be revised without the levy of new taxes or any new forms of taxation, except such legislation as may be initiated by the people of the state.

STATE MONEY

We condemn the system now being used throughout the state for the protection of money belonging to the State of Maine in the various depositories and insist that a safe and businesslike method be adopted for the protection of such funds.

STATE EXPENDITURES

We believe that greater efficiency and service at less cost can be rendered to the people of Maine under a Democratic administration of our state affairs.

AGRICULTURE

We urge the State of Maine to cooperate with the Federal Government for the benefit of the agricultural interests of Maine which are not receiving the consideration to which they are entitled. We reaffirm our position that the state should have a definite program to aid in creating an increased demand for the agricultural products of Maine and emphasizing the quality of these products.

PORT OF PORTLAND

Again we reaffirm our position in advocating the conservation, development and use of the Port of Portland as of inestimable value to the State of
We advocate amending the Workmen's Compensation Act by making occupational diseases compensable, permitting the injured employee to select his own physician and making employees in lumbering operations subject to the provisions of the act and that it be compulsory for employers of one or more to be subject to provisions of the act. We further recommend an amendment of the act to provide for a more equitable basis of compensation. We further recommend that one member of the Industrial Accident Commission be selected from some bona fide trade or labor union.

We advocate the enactment of legislation providing for minimum wages and maximum hours. We oppose any national wage-hour legislation recognizing any geographical wage or hour differentials.

We condemn the present Maine law which disfranches unfortunate persons who are obliged to seek relief.

We approve and highly commend the attitude and activities of the President of the United States and the Democratic National Administration in reference to labor and we advocate the immediate enactment of a State Labor Relations Act establishing a State Labor Relations Board, said board to be composed of three members, one member of which shall be an employer of labor or selected from some association representing employers of labor, and another to be an employee selected from some bona fide trade or labor union and not an employer of labor and another impartial member to be selected by the first two. We reaffirm our strong belief in the right of labor to organize and bargain collectively, free of coercion and intimidation on the part of employers, and we reaffirm our belief in the constitutional rights of freedom of speech and peaceable assembly for all our people. We advocate legislation which will give authority to the State Labor Relations Board to act in the first instance as a board of conciliation and arbitration to the end that disputes between employers and employer may be amicably adjusted to the resulant benefit of the public welfare.

We recommend that in all governmental positions in the State Administration which concern labor that more consideration be given to the appointment of such positions of representatives of labor.

We advocate increased appropriations for the Department of Labor and Industry to the end that this department may be able to function more efficiently in the interest of labor and industry. We advocate the appointment of a deputy commissioner of labor in accordance with the existing statutes. We urge more activity in cooperation with the Maine Develop-
ment Association on the part of the department of labor and industry in the preservation of existing industries and in attracting new industries to establish themselves in Maine. We urge a strengthening of the laws relating to the protection of workers from conditions which are unsanitary, unsafe or injurious to their health with particular attention given to protecting workers from communicable diseases. We advocate the appointment of sufficient factory inspectors consistent with the needs of the department to insure adequate periodical inspection of all factories and industrial plants to the end that hazards to the workers be eliminated and proper protection afforded. We urge particular inspection of all establishments employing female workers with special attention given to health and welfare of such workers.

The use of injunctions in labor controversies has denied the workers their civil rights guaranteed under the Constitution; we favor the enactment of legislation to prohibit the use of the injunction in labor disputes.

We recommend that the state law relating to unemployment compensation be revised so as to make subject, employers who employ one or more people instead of eight or more as the law now reads, with the retention of present exemptions under the law.

QUODDY PROJECT

We unqualifiedly believe that a memorial from the Legislature should go to Washington demanding the completion in the earliest possible time of the Quoddy power project, and until such time as a legislature should be assembled, we, the Democratic Party of Maine, will use every means possible to secure prompt action on this project believing that the entire rehabilitation of eastern Maine hinges upon the immediate reopening of this project.

FISHERIES

We condemn the neglect of the Republican Administration for refusal to expend the appropriation for the lobster rearing station, the development of depleted clam flats, and for advertising of the sea products of Maine, which we deem vital to the progressive interests of the Department of Sea and Shore Fisheries. Proper protection and real future development of the sea and shore industry is vital to retain this industry in the State of Maine, and we pledge ourselves to return this department to the high plane to which it was raised by our former commissioner.

We urge the enactment by the Congress of proper tariff legislation to fully protect this industry.

SOCIAL SECURITY AND OLD AGE RELIEF

We reaffirm our deep interest in Social Security and in old age relief, and advocate legislative action setting up a definite and permanent fund sufficient to
pay pensions to every worthy aged citizen of the State.

The present plan meets the needs of but a portion of our aged citizens. Under it thousands are unprovided for. It is inequitable and unfair. A sufficient and permanent fund should be made available. The pensions now being paid are in many instances inadequate to meet the needs of the recipient.

We recommend the awarding of pensions on the basis of requirements, and we oppose the confiscation by the state of the property of Maine's pensioners, and we advocate the repeal of Section 12 of Chapter 106 of the Public Laws passed by the Eighty-Eighth Legislature at a special session held in October, 1937, in so far as it permits confiscation.

FEDERAL AIR BASE

We pledge ourselves to work unceasingly for the establishment of a Federal air base in Maine.

BUSINESS

We pledge ourselves to recommend legislation that will be in the interest of independent business men.

SUMMARY

Upon this liberal and constructive platform containing provisions for the welfare of our people in accordance with the policies of the Democratic Party since its inception, we, confident of the forward looking viewpoint and intelligence of our people, invite all citizens, irrespective of party affiliation to unite in putting into effect the policies outlined in this platform and to elect candidates to office pledged so to do.
