THE VIENNA RECORD

Volume X, No. 4

A quarterly newsletter of the Town of Vienna, Maine

August/September 2006

MESSAGE FROM THE SELECTMEN

To the residents and friends of Vienna:

The Town of Vienna has chosen John Sexton, Appraiser/Assessing Agent from Cole Brook Appraisal Company, to complete our property revaluation. His fee is \$31,000 plus yearly pick-up fees, which will be determined later.

Cole Brook Appraisal will begin visiting every property in Vienna as soon as August 2006 and will complete the job by June 1, 2007.

The assessing agent will inspect the interior and measure the exterior of each dwelling and building in Vienna. The Town asks that property owners cooperate by allowing inspection of the interiors of each building. By allowing this inspection the property owner can be assured that the physical property data used by the company for the new assessments is as accurate as possible.

After the revaluation is completed, property owners will be notified by mail of their new assessment. Mr. Sexton will then establish a time schedule to meet with anyone who may question their new assessment. All this will be done before the actual tax bill goes out.

Charlotte Perkins Gilman

The Mill Stream Grange

It was on June 18, 1947 while preparing for a Farm Bureau meeting that Dorothy Waugh made the remark that she wished that a Grange might be started in Vienna. It was quickly seconded and discussed throughout the day by members who were very enthusiastic about the idea.

Not sure quite how to begin, Hazel Bean suggested a letter be sent to two veterans of Grange work, Allison P. Howes of Pittsfield and Nellie L. Haskell of Auburn. Freda Kelley drafted the letters. Nellie and Allison both forwarded their letters to then Deputy C.C. Chretien. He came to Vienna to see what was the cause of this sudden enthusiasm.

The first meeting was held at the Union Hall on August 8, 1947. Forty-four people became Charter Members that evening and took their First and Second Degree obligations. Clarence Bean was elected Master and Clyde Waugh Overseer.

The name Mill Stream Grange was chosen and it was decided to hold the meetings the first and third Fridays of each month.

Before the end of the first year six more people expressed interest in becoming members, bringing the rolls to half a hundred.

On September 13, 1966 the school house in Vienna Village was purchased from School Administrative District 9 by Chester H. Bean, George Weiss, and George Heddendorf in their capacity as all of the members of the executive committee of the Grange.

Today, there is still a great deal of enthusiasm for the Mill Stream Grange which helps build a sense of community and forges solid connections between neighbors. **It continues to meet on the first and third Friday of every month with a Pot Luck Supper at 6:30 pm**

and the Business Meeting and Program at 7:30 pm. It's participation has grown to nearly one hundred members. Thirty to forty members come to each meeting to enjoy programs like the Annual Minstrel Show written by Jeannette Daly and the comedy of Robert Skogland, "The Humble Farmer" of Maine Public Radio fame. The second time Robert came to the Grange he said he came back to tape the hearty laughter for his website! Other programs have included information on the Medicare D Program, Maine's last log drive, ice cutting on the Kennebec River, genealogy, the animal shelter, organic farming, feeding wild birds, habitat for humanity, throwing clay pots and guitars, as well as slide shows of trips to the Galapagos Islands, Ireland, England (by canal boat) and Africa. There have been games like Hide & Seek, Guess the Tool, and relay races. You never know who or what will show up for a program, but they are always good! It is a friendly bunch of people who enjoy sharing a good time together.

New members are always welcome! If you are interested in learning more, talk to a current Grange member, join them for a Pot Luck Supper or contact Gay Anderson, Master at 293-2679 or Allen Harville, Overseer at 293-2362.

Union Hall Thank You

The Vienna Union Hall Association would like to thank the Vienna Fire Department and the Mutual Aid

Fire Departments for saving our beloved building after it was struck by lightning July 21st. You did a great job of containing the fire and protecting the contents of the building from water damage, etc. Thank you for all that you do.

We would also like to thank Junior Meader for being our auctioneer on July 23rd. Our fundraising auction went on as scheduled in spite of the circumstances. Thank you to everyone who came and supported us.

And last but not least, we want to express our gratitude to all the volunteers who helped clean up the mess after the fire, and those who helped with the auction, etc.

The good news is, we do have insurance, the damage will be repaired and the hall will be back better than ever, hopefully by the end of October.

Healthy Community?

By Betsy Bransky

A healthy community is created by balancing its environmental, physical, mental, emotional, and spiritual health. The maintenance of this balance is supported by each individual in the community. "Living" in a healthy community requires each resident to do their part by living a healthy life. This column in the Vienna Newsletter is devoted to sharing ideas and tips that will hopefully inspire living a healthier lifestyle.

Maine General Hospital is promoting healthier living through it's Move More program. Information about Move More can be found in the Post Office. Moving more in our daily lives is one of the simplest ways of making a change to living healthier and feeling better. It doesn't always mean joining a gym or running a mile or two every day. We can add more movement to our lives by choosing stairs over an elevator, by parking further from the door in parking lots, or by taking a couple of extra trips to the garden.

Physical activity is a great way to relieve stress and a great way to use your summer vacation time. If you are traveling, find fitness-friendly accommodations. Call ahead to make sure your hotel or motel has a good fitness facility — or at least a place where you'll feel safe and comfortable going for a walk. Be sure to pack what you'll need.

Walking shoes, gym shorts, a T-shirt, resistance bands — make a checklist of all the things you'll need while you're away and make sure to pack it all. And, make sure you have these items at home to make adding exercise to your daily life easier.

Take advantage of local attractions. Many places offer their own unique exercise opportunities including home — trails through beautiful parks or forests (don't forget the Kennebec Highlands or any of the back roads in Vienna), beach walks, boat rides on the lake, bike rides. Be realistic. Don't add to stress by trying to do too much. Tallying up just 15 minutes of brisk walking, along with climbing a few flights of stairs is a good beginning goal and will make a difference.

Start today — what can you do to Move More in your life?
