Section 2. Authority and Administration

1. These regulations are adopted pursuant to and consistent with Title 30, M.R.S.A., Section 4956.

2. These regulations shall be known and cited as the "Subdivision Regulations for the Town of Shirley".

3. The conditions of this subdivision regulation shall not abrogate any more stringent ordinances, codes, regulations or requirements of the Town of Shirley, the State of Maine or the U.S. Government.

B. Administration

1. The Planning Board for the Town of Shirley shall administer these regulations.

The provisions of these regulations shall apply to all of the land areas of all proposed subdivisions, as defined, located in the Town of Shirley.

Section 3. Definitions (**Amended 9-5-2002**)

A. Subdivision. "Subdivision" shall have the meaning provided in Title 30-A, section 4401 (4) of the Maine Revised Statutes Annotated, except that, for the purposes of this ordinance, lots of 40 acres or more shall not be counted when the parcel of land being divided is located entirely outside any shoreland area as defined in Title 38, section 435 and the Town of Shirley Shoreland Zoning Ordinance.

Section 4. Procedures for Subdivision Review

A. Introduction. The subdivider's application for subdivision approval will not be considered complete until a Final Plat Plan, based on survey, has been

SUBDIVISION REGULATIONS OF THE TOWN OF SHIRLEY

submitted to the planning Board. While a subdivider may submit a Final Plat Plan and all related materials to the Board without any prior contact with the Board, the subdivider is strongly advised against doing this, as any potential problems may not be resolved within the Statutory time limits for reviewing completed applications. This may result in a negative decision of the board and unnecessary expenses to the subdivider for revising the application materials and possibly for re-surveying of the land.

B. Pre-application Meeting and Submission of a Sketch Plan

1. Prior to submitting an application for subdivision approval and the Preliminary Plat Plan, the subdivider or his authorized agent should appear informally at a regular meeting of the Planning Board to discuss the proposed subdivision.

2. The subdivider shall present to the Board, for informal review and comment, a sketch plan to the proposed subdivision. The sketch plan shall consist of a rough outline of the proposed subdivision, and may be a freehand, penciled sketch of the parcel, showing the proposed layout of streets, lots and other features which may be of assistance to the Board in making its determinations.

3. No binding comments shall be made between the subdivider and the Board at this stage. The purpose of the pre-application meeting shall be to understand what is proposed, what is possible, and what is expected.

C. Inspection of the Site

In order for the Planning Board to be more fully informed about the site, the subdivider shall arrange an inspection of the site with the Planning Board, or an individual appointed by the Chairman to act as the Board's representative for the inspection. The on-site inspection may be conducted at or shortly after the time of submission of the sketch plan. The pre-application phase of the application process will not be considered complete until such inspection can be made. The Planning Board will not conduct site inspection unless the ground is bare so that adequate inspection can be made. (No inspection during snow covered months.)

D. Submission of a Preliminary Plat Plan

SUBDIVISION REGULATIONS OF THE TOWN OF SHIRLEY

Upon submission of a sketch plan, and following an on-site inspection of the site, the Planning Board will outline, by checking specific items on an application form, the specific requirements for Preliminary Plat Plan submission. Specific requirements will vary according to the size and complexity of the subdivision proposal. The Planning Board may waive information submission requirements which are not relevant to the subdivision being proposed.
