Maine Impact Week 2021 Faculty Mentor Impact Awards
Aaron Gallant, College of Engineering

Apr 9, 2021

https://youtu.be/UPJJ5_NhKbs

Run Time : 00:02:21

Earlier this year, we asked students to nominate faculty members who had an important impact on them and the response was incredible. Through online videos and announcements, we are featuring the nine faculty members who won 2021 Faculty Mentor Impact Awards

Transcript is machine generated, unedited, in English.

hello everyone

my name is belal hossen and i'm a civil
engineering graduate student

i along with other uh geotechnical
engineering students

a nominated professor evangeline for the
2021

faculty mentor award and i'm extremely
delighted to know that

he has been selected as one of the
winners of the year

i nominated professor gallant uh for
this award

for his continuous uh dedication and
enthusiasm towards research and
graduate courses he has been a great
mentor to

all his students we all thank to

professor gallant and i wish him all the

success

in his academic career thank you
hello my name is erin gallant and i'm an
assistant professor of geotechnical
engineering in the department of civil
and environmental engineering at
university of maine

uh i just want to start off by saying
that i'm humbled

to be recognized and receive this
faculty mentor impact award
mentoring and guiding students is
without a doubt one of the most
rewarding

aspects of being a faculty member
in this role you know i'd like to
attempt to foster

a collaborative environment between
myself and the students

but also amongst the students themselves
as they learn from one another the
research enterprise really requires
continuous

engagement and support of the students
so that they gain

confidence in their own abilities as
they develop into

independent problem solvers and
communicators

however i would also like to acknowledge
that i've been fortunate to work with
highly motivated mentees and
while they've expressed appreciation for

my role
in their development their energy and
enthusiasm is a driving motivator for me
uh in the work that we do together um so
i would just like to close
by thanking the students for this
recognition
and i sincerely look forward to
supporting them in achieving their
academic
and career goals thank you so much
