# AFloat 2021: American Floating Offshore Wind Technical Summit

*Held virtually on September 8 & 9, 2021*

JOIN US VIRTUALLY

RESERVE YOUR SPOT TODAY

Wednesday, Sept 8 &  
Thursday, Sept 9

**Register Now**

Due to the emergence of COVID variants and the health risks they pose, **AFloat 2021 will be held virtually on September 8 and 9, 2021.** The decision to move towards a virtual event was made to ensure everyone's safety while continuing to provide the highest quality of programming.

[Registration is free for the virtual event.](#)

The 2-day summit features internationally recognized panelists and speakers that are the key influencers in the burgeoning U.S. floating wind industry. We are pleased to announce that the **Honorable Janet T. Mills, Governor of Maine, will provide a keynote address.**

Panel topics include:

- U.K. & U.S. Floating Offshore Wind Collaboration Opportunities
- U.S. Floating Projects
- U.S. Port Infrastructure
- Environmental and Wildlife
- Hull Technologies, Design Codes, and Standards
- Moorings and Anchors
- Research Opportunities, and more.

An in-person tour of the UMaine Advanced Structures and Composites Center will be held on Friday, September 10 to a limited number of participants following all appropriate COVID-related safety protocols. Please send an email to Meghan Collins, [mc@maine.edu](mailto:mc@maine.edu), if this is something you are interested in.

We look forward to seeing you virtually on September 8 and 9!
