## UMO to ask Legislature for \$8 million

by Jim Emple  
Staff Writer

This January, UMO will ask the Maine Legislature for about \$8 million for the coming biennium to implement its five-year plan to achieve academic excellence, said the acting director of financial management last week.

Charles Rauch Jr. said, "The five year long-range financial plan is new to this university. Most all executive departments of the U.S. government are doing five-year plans."

Rauch said the five-year plan has four steps that will result in better financial planning.

He said, "It helps the departments in their current year planning to see how it will fit in with their future plans."

"It forces departments to establish goals and priorities, which eventually enables them to get more effectiveness out of the resources they have."

"It clearly delineates the financial

resource needs over the next five years, and probably most important it should increase the credibility of our funding requests to the Legislature and the people of the state." He said, "In other words it's one thing to go ask the Legislature for such and such, but it makes more sense to tell them what our plan is; here is what we need for different issues and departments."

"I think it's a real important document for all of those reasons," Rauch said.

He said each university in the University of Maine system has its own five-year plan.

UMO's five-year plan is designed to achieve three major goals. The first goal is for UMO to become the best undergraduate university among northern land grant institutions. Second, is for UMO to help the people of Maine through its research and public service activities. The third goal is for UMO to maintain national prominence in

selected programs while striving to attain national prominence in other programs.

Rauch said, "We went through each university's five-year plan and drew the bond issue up to get things for each campus so it (the five-year plan) will work effectively and efficiently."

"Capital facilities improvements are needed to effectively implement the five-year plan," he said.

"If we don't get the bond issue it delays our implementation of the five-year plan. It just means the changes will take place slowly over the years — if ever," he said.

UMO President Arthur Johnson said, "The bond issue is directly related to this. We've got to get everything we're asking for if we're going to move ahead as a good university."

Rauch said the reason the university needs this appropriation is because of the UMaine system's budget cuts during the mid-70s. "During those years we were not buying equipment at the rate

that we should have, and we haven't kept up with the staff positions in business administration and engineering and science."

The budget request for the coming biennium (1986-87) is divided among five category headings: national prominence, academic support, public service, organized research units, and academic instruction.

If the Legislature approves the request, \$1.6 million would be used to attain national prominence in certain academic fields and to continue supporting the nationally prominent programs currently at UMO. Some of these programs at UMO are:

molecular and cellular biology, forestry resources, geology, survey engineering, chemical engineering, Canadian-American history, acid deposition research, marine studies, quaternary studies, and the laboratory for surface science technology.

(see UMO page 2)

## Indian students upset by Gandhi killing

by Pam Burbank  
Staff Writer

Three UMO students from India were upset in hearing the news of the assassination of India's Prime Minister Indira Gandhi. On Oct. 31, Gandhi, 66, was shot outside of her home by her own Sikh bodyguards. Fatally wounded, she was rushed to the All-India Institute of Medical Sciences, where a team of doctors worked on her until 2:30 p.m.

After a five-hour operation, Gandhi died. Immediately after news of her death spread throughout India, anti-Sikh riots broke out, causing destruction to Sikh shrines, and hundreds of people were reported injured.

Namita Pathak, an exchange student from Gujarat, India, said, "I can't believe it! Indira Gandhi was a true believer of her people. She was a very capable leader of our country."

"Right now, India is left in the dark."

The country is left at a stand still, and its people do not know where to go. Our country is in critical condition without her."

Chandrashekar Nanivadekar, an exchange student from Bombay, India, said, "Indira Gandhi had many political and religious demands, but they were mostly for the good of the people. She was only doing what she thought best for the people."

"This tragedy is going to take a long time for our people to get over. I hope in time our country will get back on its feet again and make best with its new prime minister, Rajiv Gandhi, Indira Gandhi's son."

Rajiv Gandhi was sworn in as India's sixth prime minister, Wednesday, following his mother's death. "I don't know what kind of leader he will be," said Pathak. "He has only been politically active for about four years. It is still too early to tell what kind of prime minister he will make."

Another native exchange student from India, who spoke under the condition not to be identified, said, "Indira Gandhi was a very dominant leader who was interested in having the centralized power in her own hands. The majority of her decisions were for the good of the people. I only hope her son can do as good a job as she has done in the past."

The three UMO students all agreed that she was a true leader. Nanivadekar said there was no one else with such charisma. "She was a good national leader. The majority of the people respected her for the image she portrayed, and for the decisions she made. She kept the country united, for the most part."

Pathak said now that Gandhi is gone, the only thing that India's people can do is wait for results in the future and hope that Rajiv Gandhi can prove to be a worthy prime minister.

## Indian leader restoring order

NEW DELHI, India (AP) — New Prime Minister Rajiv Gandhi took firm action Sunday to stop the communal savagery set off by his mother's assassination, ordering the army to crush any resurgence of avenging murder sprees by rioters.

The violence, which has killed more than 1,000 people, abated nationwide with the cooling of the ashes of Indira Gandhi's funeral pyre. Soldiers guarded the site of Saturday's emotion-charged Hindu cremation.

On Monday, Mrs. Gandhi's ashes will be sent in 22 brass and copper urns to each of India's state capitals so the people can pay their last respects to the slain prime minister. The government said the ashes would then be returned to New Delhi to be scattered on Nov. 11 over the snow-covered Himalayas so dear to Mrs. Gandhi.

Rajiv, 40, Mrs. Gandhi's only surviving son, replaced her hours after she was fatally shot Wednesday by two members of her own security guard identified as Sikhs, a restless religious minority in India.

After the cremation, the new prime minister recovered quickly from the shock caused by his mother's murder and the explosion of blind and bloody revenge that followed.

While conferring on world problems with many of the leaders of more than 100 nations who attended the funeral,

# ● UMO

Johnson said. "The department based on Engineering and Technology and we need the students to get some training in computers. The thing has pointed out we could support it and the money."

Raucci said. "We're one of the top three schools in the country in terms of engineering and we're well-known in civil and paper and chemical engineering. We're nationally known in geological engineering too."

"We're in the fringe of national prominence in most areas and with a little (financial) help we can become nationally prominent in those programs," he said.

The academic support 3 million would go for better improvement. \$500,000, student aid increases \$500,000, and for correcting hazardous conditions at \$1M, \$100,000.

Raucci said. "We've got a good library, but our buildings should be improved to be competitive with other and great colleges." He said of the \$100,000 for correcting hazardous conditions. "There's a ventilation problem in Carnegie Hall because of the paint fumes." If the legislative appropriation is approved, \$500,000 would go to public service programs. The Cooperative Extension Service would receive \$100,000, the Performing Arts Center would receive \$500,000, it bring in outside activities and \$500,000 would go to fund athletic scholarships.

Raucci said. "Essentially the \$500,000 is needed as we don't have it. We need money from other departments for athletic scholarships. It isn't supposed to be, but there's a danger it will in the coming year. We go through the year."

The university's various research units would receive \$700,000 funding, Raucci said. "The money would go to paying the administrative staffs of The Center

for Maine Studies, Institute for Graduate Studies, Maritime Park Research Institute and The Land and Water Resources Center."

"The university ought to see to it that these objects, in substance, are the necessary grant money and get it necessary and see if the administrative support matters. While we supported it, the fact was that the grant money paid for the administrative salaries and also the research projects," Raucci said.

The largest portion of the appropriate

tion would go for academic salaries. Raucci said some of the money would be used for the performing arts center's operating expenses (\$200,000). Other money would be directed to the strongest undergraduate and faculty support (\$2 million), additional faculty and staff positions (\$800,000), summer programs and research centers (\$2,500,000), graduate research programs (\$300,000), and the school of education (\$100,000).

Johnson said. "We're going to expand our summer programs, and inform people what we have to offer. The additional graduate assistant positions will help the research programs, it helps them, the graduate students get through their program, the studies, and the teachers' salary."

Raucci said the university needs money to pay for faculty members who attend professional conferences. Johnson said. "We have inadequate travel funds to attend seminars to keep our faculty and programs up-to-date."

# ● India

By London also got the military and police commanders in Uttar Pradesh and reduce measures to ensure public security. Properties in a recent security guard. Raucci stated, the worst-affected area around the capital for a first-hand view of the devastation.

The ordered quick action for the relief of more than 10,000 Sikh refugees who fled engaged Hindu rioters. And to limit P.O. Ganga, New Delhi's government-appointed lieutenant governor, who was ordered for his police efforts to stop the mass bloodletting.

About half of the 100,000 and more people who have perished since Wednesday were killed in New Delhi, the capital.

The 40,000 soldiers brought into the capital to protect dignitaries at the cremation were promptly deployed to stop the violence. Troops and police pulling aside their customary veils, patrolled the hardest-hit districts in trucks and armored personnel carriers. Their automatic guns pointed at pedestrians.

A nine-member delegation of the op-

position from Minister K. S. Pant, et al. arrived in New Delhi. Pant is reported the hundreds of people, particularly women and children, remain unaccounted for in the riot areas.

The delegation said many victims reported that police instead of dealing with the rioters, helped them loot and burn.

Monat M. K. Wal, the emergency permanent secretary in the Home Affairs Ministry who was appointed to replace Ganga, told a news conference that 422 persons were officially listed as killed in the capital and its suburbs, including 59 Hindus who died in a Sikh backlash. He said 17 people were killed when police opened fire on rioters and 1,809 persons were under arrest for murder, arson or breach of the curfew.

He said 16,350 Sikhs had been housed in temporary refugee centers and police stations in the city after fleeing their homes where they have long lived peacefully side by side with the Hindu majority.

While schools were to remain closed

a week through Tuesday for security reasons, the curfew was lifted in most places during daylight hours Sunday.

New Delhi returned almost to normal Sunday with many shops reopened and motorized rickshaws, taxis and buses returning to the streets. But taxis were still rare and drivers charged up to 10 times the normal fares.

Many taxi owners are Sikhs, and the streets were still littered with the burned-out wreckage of their vehicles.

Long-distance train services were resumed to and from New Delhi, but squads of armed police rode on each train to protect passengers. Most of the capital's rail services were canceled earlier after mobs invaded New Delhi-bound trains to grab Sikh passengers, beat them to death and burn their bodies.

The government ordered shops to reopen as a step toward normalization. Most shopkeepers obeyed, profiting from a rash of buyers deprived for three days of fresh food and other necessities.

## MORE ADVENTURE THAN A BLIND DATE.

Can you picture yourself swinging down a cliff? Or shooting the rapids? Or crossing a river using only a rope and your own two hands?

You'll have a chance to do all this and more in Army ROTC.

Adventure training like this helps you develop many of the qualities you'll need as an Army officer.

Qualities like self-confidence. Stamina. And the ability to perform under pressure.

If you'd like to find out more, make a date to see your Army ROTC Professor of Military Science.

## ERA in 'neck-and-neck' battle

### Mondale/Ferraro ticket gaining in late polls

AUGUSTA (AP) — The Mondale-Ferraro ticket appeared to gain ground in Maine, but those for and against a state Equal Rights Amendment were in a neck-and-neck battle while as many as a third of the voters remained undecided on the question, analysts said.

With Tuesday's election approaching, President Reagan held on to his lead. But even some Republican observers suggested this weekend that Walter F. Mondale was gaining strength in Maine.

GOP pollster Peter Burr said Reagan's margin over Mondale was still probably 9 percentage points, only a few points less than the favorable margin Burr has been touting for weeks.

But Burr said recent trends suggested that "many Democrats, especially the women, are coming back home."

State Democratic Chairman Anthony Buxton offered no figures, but concurred that women, and undecideds, hold the key to what he predicts is "going to be a very close election in Maine."

Democrats claimed to see a similar come-from-behind tide building for state Rep. Barry Hobbins, who is seeking to oust freshman Republican U.S. Rep. John McKernan from his 1st District seat.

But Burr said he saw no substantial gains by the underdog challenger, and other GOP campaign organizers maintained that Reagan and McKernan both remained strong through the last weekend of the campaign season.

Reagan carried Maine in 1980, but by fewer votes than independent John Anderson received, a factor that Democrats hoped would help swing the state to Mondale this time around.

Reagan's chairman in Maine, Linwood

Palmer, said Saturday national campaign officials put Reagan 14 points up in Maine on Friday.

Citing Burr's less positive findings, Palmer said, "even if it were 9, it's hard to change it" with the election three days away.

At the top of the state ticket, U.S. Sen. William S. Cohen, R-Maine, was sidely seen to be well ahead of Democratic nominee Elizabeth Mitchell, the state House majority leader.

Cohen aide Robert Tyer said the incumbent was hoping to garner 55 percent of the vote, but Cohen campaign officials acknowledged privately that they expected the margin over Mrs. Mitchell to be higher than that.

A Maine organizer for Mondale, Rick Barton, conceded that Mrs. Mitchell, Hobbins and 2nd District challenger Chipman Bull faced uphill races against incumbents Cohen, McKernan and Rep. Olympia J. Snowe.

But Barton said all the Democrats stood to gain from Mondale's reported progress as "our Democrats are really coming home."

"These campaigns have themed themselves together," Barton said Saturday.

Maine is the only state this year to have a proposed ERA on the ballot; and that contest has been heated and emotional, focusing on opponents' claims that ratification would lead to legalized homosexual marriage and state funding for abortion.

Democratic Gov. Joseph E. Brennan has led the counterattack by amendment supporters, dismissing the opponents' claims as "scare tactics."

Observers said the ERA was favored

by a wide margin, 3-1 or more, before the campaign began in earnest in September.

But opponents, led by the Maine Right to Life Committee and the Christian Civic League of Maine, mounted a \$200,000-plus media advertising campaign that went all but unmatched by the underfunded proponents.

One reliable pollster, requesting anonymity, said the race appeared to be neck and neck, with a large segment—between one-quarter and one-third of likely voters—still undecided. Maine would be the 17th state to adopt its own ERA and the first since 1977.

At one time, Mrs. Mitchell was thought to be in position to gain from the ERA focus and other "women's issues."

But since announcing her candidacy on Valentine's Day after Brennan finally decided not to contest the popular Cohen, Mrs. Mitchell has trailed steadily in the race, according to most observers.

Her decision to forego political action committee money, and to attack Cohen for accepting more than \$375,000 from PACs, has been scorned by some Maine editorialists for being opportunistic—she tested the PAC waters in Washington before announcing her stand—and unfair in challenging Cohen's integrity.

Cohen had raised more than \$1 million for his re-election campaign through Oct. 17, the closing date of the last pre-election spending reports. Mrs. Mitchell had raised \$321,335.

## Order of ballot questions often key to passage

AUGUSTA (AP) — The placement of questions on Maine ballots has an "undeniable influence" on the outcome of referendums. So concludes Deputy Secretary of State James Henderson in an analysis of voting patterns during the past decade.

And that could make a difference in Tuesday's balloting.

Specifically, in examining election returns from 1974 through 1983, Henderson found that:

The first question on the list—be it a popular initiative, a bond issue of a constitutional amendment—is the most likely to fail. The rest share better, and generally equal, chances of passage.

Popular initiatives, as a group, are rejected more often than not, but upwards of 80 percent of bond issues and constitutional amendments are approved.

Five percent of the voters who turn out for candidate elections do not bother

to vote on referendum questions. Another 8 percent succumb to "voter fatigue" and go home before they get to the last one.

On Tuesday, the hotly debated Equal Rights Amendment is sixth on a list of eight questions—four bond issues and four constitutional amendments.

"If it had been No. 1, it would have been in worse shape," says Henderson, although he acknowledges, "if there's a really controversial issue, people will find it" on the ballot.

In Henderson's computer-assisted analysis, the average proportion of "yes" votes for the first questions on referendum ballots was 45 percent. Only half of the proposals were approved.

For questions ranked anywhere else on the ballot, the "yes" average varied only slightly, between 60 and 70 percent, and the approval rate was 80 percent or higher.

Henderson speculates that voters may put more thought into the first question, saying, "Maybe the more they look at it, the more they scrutinize it."

However, he also warned that the trend may simply reflect the high rejection rate for popular initiatives, which are "inherently controversial" and which by law must be listed before bond issues and constitutional amendments.

In any case, the premier proposition on Tuesday's ballot is a \$13.4-million bond issue for the state's vocational-technical institutes—a double liability under Henderson's Hypothesis.

In addition to the shortcomings of the No. 1 slot, the VTI bond proposal falls into the general category of education, which ranks last—behind highways, government reform and environment—among subjects popular with voters.

Henderson found that all 23 of the ballot issues involving highways or government reform were approved, as were eight of the nine in the environment category. Two of the nine education-related proposals were rejected, for a 78-percent success rate.

The findings may also be good news for proponents of the horribly complex constitutional amendment to complete the substitution of a statewide excise tax for property taxes on watercraft.

It was rejected last year. But this year it's the eighth of eight questions, the fishermen and municipal officials have endorsed the idea and, if Henderson is right, many voters won't bother to vote either way.

"By the time they get to the boat question, it may be a fairly select group," he says.

### First election in 10 years

## Sandinistas confident of victory in Nicaragua

MANAGUA, Nicaragua (AP) — The ruling Sandinistas confidently awaited victory as Nicaraguans turned out en masse Sunday for their first election in 10 years.

Lines formed at polling places throughout this Central American country before voting began at 7 a.m. 8 a.m. EST. Many waiting to vote wore T-shirts, hats and other items of clothing emblazoned with the red and black insignia of the Sandinista National Liberation Front.

The 3,856 polling places, one for about every 400 eligible voters, closed at 6 p.m. Final results were expected on Monday.

The major opposition boycotted the elections, complaining of restrictions.

More than 400 foreign observers were on hand for the election, some of them invited by the Nicaraguan government. No Latin American or other Western country sent an official delegation.

There were no official reports on election day of fighting between rebels and

government forces.

However, in Moscow, the official Soviet news agency Tass said in a report from Managua that 400 anti-Sandinista guerrillas attacked from Honduras hours before the voting began.

Tass said, "400 counterrevolutionary Somozistas, armed to the teeth, made an attempt at penetrating from Honduran territory the northern areas of the republic" and other populated areas.

The Sandinista party came to power at the end of the 1978-79 revolution which overthrew rightist strongman Anastasio Somoza. The Sandinistas were considered a cinch to win the presidency, vice presidency and most of the 90 seats in a new national assembly.

But there seemed to be little chance the victory would give the leftist Sandinistas the credibility they seek to counter declining support among Western nations. They blamed the Reagan administration for that declining support, and accused Washington of trying to taint the election's legitimacy by encouraging opposition parties to sit it out.

Two days before the election, Daniel Ortega, coordinator of the Sandinista governing junta and the party's presidential candidate, repeated a claim that the

United States was trying to "manipulate" the contest.

Ortega also predicted anew that the United States would invade Nicaragua if President Reagan is re-elected on Tuesday.

U.S. officials have consistently denied Ortega's frequent prophecies of imminent invasion, but have acknowledged funding rebels who have been fighting the Sandinistas in Nicaragua for more than two years.

As he cast his ballot at a polling place near his home in the elegant Bolonia section of Managua, Ortega said, "This is a historic experience not only for me but also for the people of Nicaragua."

Ortega's vice presidential running mate, Sergio Ramirez, told reporters the absence of major opposition did not matter.

"What's important is that the people vote massively," he said.

"There were only two things the Sandinistas wanted: to legitimize their revolution and to get the international community off their backs," said a Western diplomat who spoke on condition he not be identified.

"But it doesn't look like they are going to achieve either goal and I think the Sandinistas realize that," he said.

## GOP lo of Hou

The Association of Republicans, eager to end Reagan's presidential term, are hoping to produce enough GOP Representatives to force a philosophical confrontation.

"Our goal was to get the seats we lost in the very much in the majority," said House Republican Robert H. Michel. "30 is not unrealistic."

A pickup of 20 seats, "we're back being a majority," said Rep. Tony Coelho, chairman of the Democratic Congressional Campaign Committee. "We're still saying we're going to participate more than seven lost."

All 435 seats in the House are up for re-election every two years. While Republicans have won 220 seats, Democrats have won 215.

Neither party can predict the GOP will win the House, but Republicans are confident of winning the upcoming election. They see an opportunity to recapture lost in 1982—though some ones—and reposition themselves in their first term.

Rep. Newt Gingrich, leader of GOP congressional House, said on the campaign "Face the Nation" that we are going to win the House, and

## GOP looking for control of House after Tuesday

The Associated Press  
Republicans, eager to carry out President Reagan's program for a second term, are hoping Tuesday's election can produce enough gains in the House of Representatives to give them philosophical control of the chamber.

"Our goal was to get, at a minimum, the seats we lost in '82 and I think that is very much in the realm of possibility," said House Republican Leader Robert H. Michel of Illinois. "Getting 30 is not unrealistic."

A pickup of 20 seats, Michel said, and "we're back being competitive again."

Rep. Tony Coelho of California, chairman of the Democratic Congressional Campaign Committee, said, "We're still saying that we don't anticipate more than seven pickups or seven lost."

All 435 seats in the House are contested every two years, and Democrats are entering this election with 266 seats while Republicans hold 167. There are two vacancies.

Neither Republicans nor Democrats predict the GOP will gain the 51 seats necessary to control the House outright, but Republicans increasingly have focused on the upcoming election as an opportunity to recapture the 26 seats they lost in 1982—though not necessarily the same ones—and return to the numerical position they held in 1981, after Reagan won his first term.

Rep. Newt Gingrich of Georgia, a leader of GOP conservatives in the House, said on the CBS television program "Face the Nation" Sunday, "I think we are going to gain well over 20 seats in the House, and the reason is that

the underlying message of the Democratic tax increase has just fallen like a thud on the American people."

Coelho, however, interviewed on the same program, said, "We are going to look good on Tuesday night."

In 1980, Republicans picked up 33 House seats, giving them 192. With that number, the GOP was able to attract enough Southern, conservative Democrats for a working majority that pushed through the key elements of Reagan's economic plan and military buildup.

After the 1982 elections when Republicans lost 26 seats, Democratic leaders moved to strengthen their control of legislative committees and change House rules to effectively limit the ability of outnumbered Republicans to attach pet issues to annual appropriations bills.

Confident of Reagan's re-election, Republicans have been increasingly concentrating on electing GOP congressional candidates.

The National Republican Congressional Committee, the group that aids GOP congressional candidates, has been placing television advertisements nationwide for several weeks hammering at Democrats and touting the need for Republicans in Congress.

Despite growing optimism among Republicans, they still face an uphill challenge in trying to significantly increase their numbers in the House. When Republicans made their gains in 1980, 43 House seats were open—had no incumbent seeking re-election. There were 56 open seats in 1982. This year there are only 27 such seats.

## Soviet newspapers see Reagan re-election

MOSCOW (AP) — Soviet newspapers Sunday foresaw re-election for President Reagan and said the influence of big corporations makes Americans vote in "elections without choice."

Several Soviet citizens interviewed at random Sunday on the streets of Moscow reflected the Communist Party line. They said Reagan will probably be re-elected but they would prefer the Democratic nominee, former Vice President Walter Mondale, because they see Reagan's foreign policy as a threat to peace.

Under the headline "Elections Without Choice," the newspaper Sovetskaya Rossiya reviewed what it said were the budget policies of both candidates and concluded that military spending would probably not drop significantly under Mondale.

"Is the difference great between the political opponents?" the newspaper asked rhetorically.

Komsomolskaya Pravda, newspaper of the Soviet Young Communist League, said "America Incorporated" chooses the president because it "votes with dollars."

"No other administration in the post-war period has done for 'America Incorporated' as much as the current one," the

newspaper said, calling money the "mother's milk of American politics."

The official Soviet news agency Tass in recent weeks has published many articles critical of Reagan administration policies, especially on defense spending and arms control. Tass has extensively quoted the former Minnesota senator's criticisms of the incumbent, but has stopped short of saying it would prefer Mondale in the White House.

Tass said Saturday that Reagan has been promising in the waning days of the campaign to increase efforts to restart U.S.-Soviet arms control talks if he is re-elected, but it dismissed those assurances as mere electioneering.

"We think Reagan will win, but we don't want him," Anatoly Litvinov, a machinist, said when approached by a reporter. Three of the dozen people approached refused any comment, but the rest generally expressed similar sentiments.

Two elderly women walking together refused to give their names, but one said: "All we know is that we don't want Reagan. We would have liked it very much if Reagan had never even been a candidate."

As they walked off, her friend added, "Because we want peace and Reagan wants war."

## VOTE YES ON 3 UNIVERSITY OF MAINE BOND

Maine's future depends on the education of her people and on her industries. UMO and the other existing Maine campuses serve both, but they can serve better with improved facilities.

### Support -

\* **Building additions to Jenness and Hitchner Halls** that will improve technological capabilities in Chemical Engineering and Biological Sciences that are important to the pulp and paper industries, agriculture, and marine industries in Maine.

\* **Renovations in Aubert and Alumni Halls and Memorial Gym** that will correct safety hazards, improve campus space problems, and increase access to the handicapped.

\* **Acquisition of computer equipment at UMO and other campuses** to help support the computer-in-the-curriculum development campus-wide throughout the system.

\* **Needed building and renovations at all other existing University of Maine campuses.**

# Heavy voter turnout expected

AUGUSTA (AP) — The attraction of a presidential race, the Maine Equal Rights Amendment question and \$46 million in bond-issue requests may result in a heavy turnout Tuesday, state and municipal election officials say.

Registrations "are running extremely high—maybe five times what we would be expecting to date," said Lewiston City Clerk Gerald Berube.

"I've had people off the list eight, nine, 10 years...who are registering for the election," said Berube, adding that total registration in Lewiston on Election Day will be greater than ever before.

In Bangor, City Clerk Russell McKenna said registration "is kind of steady" now, but he expects the big crowds to sign up Monday and Tuesday.

McKenna and officials in Portland and Auburn said registration is not much heavier than during other presidential-election years. But they noted more sign-up activities by private and political groups, and candidates themselves.

In Augusta, Deputy Secretary of State James Henderson said, "without question, we're experiencing the largest run on absentee ballots in recent memory."

"There are a lot of nervous clerks out there making sure they have enough ballots," said Henderson.

Political parties, candidates and the League of Women Voters, who have led voter-registration efforts in the past, have been joined this year by groups supporting passage of a state ERA, a variety

of women's groups and a branch of the Maine People's Alliance.

The alliance is signing up low-income voters at job-service offices, state Human Services offices and other locations.

"There have certainly been a lot of people registering to vote," said Penny Harris, president of Maine's League of Women Voters, "and everybody's been registering them."

"I expect a record-high turnout this year," said Matthew Howe, director of the Maine People's Alliance. Project Vote.

Howe said his group is trying to give poor people a voice in government because it "has made some changes in policies that have affected people on the

bottom of the economic ladder in some ways."

Henderson said that as of June, 744,443 people were registered to vote in Maine, 34 percent Democratic, 29.5 percent Republican and 36.5 percent unenrolled in either party.

Municipal officials offered several reasons for the higher registration activity, including interest in the national and state races and referendums, more intensive advertising, close media coverage of the campaigns, and a number of close legislative races.

Berube added another theory: "I think everybody has realized there has been a hell of a drop in the number of people participating in the election process in the last few years. Maybe some people are waking up."

## Government tax collections decline in 1983

WASHINGTON (AP) — Government tax collections, dampened by the recession and the impact of federal tax cuts, declined slightly between 1982 and 1983 for the first drop in 12 years, the Census Bureau reported Sunday.

The bureau said the tax take of all levels of government totaled \$665.8 billion in the 1983 fiscal year, a 0.8 percent dip from the 671.4 billion collected in 1982.

The decline came at the federal level, where total taxes were down 5.9 percent, led by a steep 25 percent drop in corporate income taxes.

The falloff in corporate taxes occurred because of tax cuts enacted by Con-

gress in 1981 at President Reagan's behest and the effects of the 1981-82 recession, analysts said.

At the state level, taxes rose by 5.9 percent in the 1983 fiscal year, but that increase was the smallest in 25 years.

The Tax Foundation, a non-partisan research organization, said the slower growth occurred "despite extensive efforts of the states to shore up sagging revenues by tax hikes in the last three years."

The gains in state taxes came from a 6.5 percent increase in sales tax receipts, a 5.5 percent gain in personal and corporate income taxes and a 5.3 percent

rise in property taxes, the census report said.

At the local level, levies rose by 9 percent in 1983. Property taxes, the source of three-fourths of local revenues, went up 8.9 percent.

The 0.8 percent decline in total tax revenues contrasted to increases of 3.3 percent in 1982 and 13.2 percent in 1981. It marked the first decline since a 0.3 percent drop between 1970 and 1971.

While corporate taxes fell the farthest, federal personal income taxes were also down 3.1 percent in 1983, primarily reflecting the effects of the 1981 tax cuts.

The tax take at all levels of government represented \$2,845.38 for every

man, woman, and child in the United States in 1983, down from \$2,963.73 in 1982.

The Census Bureau also reported that the amount of state government debt in 1983 climbed at the fastest rate in seven years.

The bureau put total state debt at \$167.3 billion, up 13.4 percent over the 1982 level. It was the sharpest one-year increase since a 17 percent rise from 1975 to 1976.

Payment on two-thirds of the 1983 state debt was tied to receipts from specific projects, such as toll roads. This type of debt represented 47 percent of all state debt in 1976.

**FBI makes five arrests, one on Ten Most Wanted List**

WASHINGTON (AP) — The FBI arrested five people in Ohio Sunday, including Raymond Luc Lavasseur, an alleged terrorist group member who has been on the agency's Ten Most Wanted List since 1977, FBI Director William Webster said.

Webster said in a prepared statement that Lavasseur, 38, was apprehended in Deerfield along with his common law wife, Patricia Gros.

Arrested in Cleveland were Jaan Karl Laaman, 36, Richard Charles Williams, 37, and Barbara J. Cruz, whose age was not immediately known, according to Webster.

The director said Lavasseur has been identified as a member of the Sam Melville-Jonathan Jackson Unit, which he said has financed terrorists activities through bank robberies and has claimed responsibility for several bombings in New England.

Lavasseur, along with Thomas William Manning and his wife, Carole Anne Manning, have been the focus of a "very intense investigation" since 1976, according to the statement.

Webster said Manning, also on the Ten Most Wanted List, and his wife have been hiding in the Cleveland area but may have fled because of the arrests Sunday Morning.

Lavasseur was sought by the FBI for bank robbery and unlawful flight to avoid prosecution for unlawful possession of a weapon, and Ms. Gros was charged with harboring a federal fugitive, according to Webster.

Webster said Williams was wanted for unlawful flight to avoid prosecution for the murder of a New Jersey state policeman in 1981 — a slaying for which Thomas William Manning is also being sought.

Laaman was wanted by the FBI for unlawful flight to avoid prosecution for assault with intent to kill and by state police in Massachusetts for a shootout with troopers in 1981, according to the statement.

Ms. Cruz was charged with harboring a fugitive, said Webster, who noted that the FBI this year has apprehended six people on its Ten Most Wanted List.

## Football team wins third straight game, 20-17

by Rich Garven  
Staff Writer

Jack Leone kicked a 42-yard field goal with three seconds left in the game to give the UMO football team a 20-17 win over Northeastern University at Alumni Field Saturday.

Maine is now 4-5 and has won three straight games. The Bears had beaten the Universities of Massachusetts (20-7) and Connecticut (13-10) before Saturday's game. Northeastern drops to 2-6 with the loss.

It was the second straight game Leone won for Maine. Against Connecticut last Saturday he kicked a 25-yard field goal in overtime to give the Bears the win.

Last season he kicked a field goal with approximately 3:00 left giving UMO a 17-14 victory. The Bears have now beaten Northeastern five straight games.

Head coach Ron Rogerson said the Huskies played well despite losing.

"They did a hell of a job," Rogerson said. "I thought at anytime Northeastern would fall short. You could feel the electricity coming out of them and they never gave up."

With the score tied 17-17 after a 32-yard field goal by NU's Geoff Hart, Maine's Peter Snow returned the ensuing kickoff 16 yards to Maine's 25-yard line. Black Bear quarterback Bob Wilder then directed an eight-play, 50-yard drive

in 1:02 to set up Leone's field goal attempt.

After losing two yards on a run to his left, Wilder completed a 22-yard pass to split end Dan Gordon for a first down. A pass intended for John Nockett was incomplete, but Wilder threw three straight completions to halfbacks Paul Phelan and Lance Theobald, moving the ball to Northeastern's 42-yard line.

Maine called timeout after split end Sergio Hebra's catch was ruled a trap. On third down and 10 Wilder completed a 17-yard pass to captain Gary Hufnagle, moving the ball to Northeastern's 25-yard line.

Northeastern called timeout to force Leone to wait, but he wasn't bothered and kicked his second field goal of the day, winning the game for the Bears.

Leone said the timeout didn't bother him and he used the time to stay loose.

"It happened to me twice before and both times I had missed," Leone said. "Bob (Wilder, who holds on kicks) runs off and I ran with him and took a couple of kicks."

He said he thought the kick was good as soon as it left his foot.

"I pretty much felt confident," Leone said. "It's so hard to see from the side. It went through, one or two yards left of center and then hooked."

Phelan said Leone was disappointed

(see FOOTBALL page 10)

### Re-Elect

## SEN. KEN HAYES

To students, faculty, staff, and friends,

As we approach the 1984 General Election I wish to thank you for the warm support you have given me during the past two years and to share with you some of our accomplishments in improving the quality and performance of the university system.

Two years ago when I was elected your state senator I actively began an effort to bring more visibility and accountability to the university system. As a consequence we have seen the following changes:

1. A Governor's Visiting Committee to study the university system and report back to the 112th Legislature (in response to my bill to study higher education)
2. Long range planning (in response to my concern at public hearings on cooperative extension)
3. A real budget process (again in response to my concern that a "normal" budget process was not being followed)
4. Public participation at trustee meetings (in response to my bill trustees agreed to permit such participation if I would withdraw legislation)
5. Reduction of trustee terms from seven to five years (based on my sub-committee report on "Threat to Excellence")
6. A student to the Board of Trustees (co-sponsored this one)
7. \$16.5 million bond issue for University of Maine system (Nov 4) (sponsored this bill)
8. \$6.2 million supplemental appropriations for faculty salary (I worked hard for this behind the scenes)
9. Encouragement to the Board of Trustees to be advocates for higher education (oh well, you can't win them all)

The coming legislative session will be crucial for higher education. I truly anticipate that the report of the Visiting Committee will result in a large package for the university and as the chair of the Education Committee I would have considerable impact on the final shape of that package.

Again, my appreciation for your warm support in the past and I do need your continued support Nov. 6.

Best regards,

*Ken Hayes*

Senator Kenneth P. Hayes  
Chair, Joint Standing Committee  
on Education

## Hockey team splits with Michigan Tech

by Jerry Tourigny  
Staff Writer

Two years and nine months. That is how long the UMO hockey team had gone without a win in a league road game.

The streak is finally over. The Bears snapped their 25-game road losing streak Friday night beating the Michigan Tech Huskies 3-2 in overtime.

The Huskies however came back Saturday night and trounced Maine 10-2 to earn a split in the weekend series played in Houghton, Mich.

The last time the Black Bear hockey team beat a league opponent on the road was on Feb. 4, 1982, when Maine defeated Yale University 5-4.

"It's been a long time coming and I'm very proud of our 20 players and the way they played," Maine coach Shawn Walsh said. "The program had this win coming because I really felt we should have won the New Hampshire and first Minnesota games."

Dewey Wahlman scored 19 seconds into the overtime to give Maine its second win of the season.

Kevin Mann started the play after a face-off sending defenseman Dave Nonis toward the Tech zone. Nonis sent a right wing pass to Wahlman who beat Huskie goalie Dave Roach for his second goal of the game and fourth of the season.

Maine never led in the game as Michigan Tech took 1-0, and 2-1 leads before Ray Jacques tied the game in the

second period and Wahlman scored the game winner.

Defensemen Dave Reiersen and Mike Nepi combined on a power play to give the Huskies a 1-0 lead 7:00 into the game.

The lead lasted only 4:28 as the Bears countered with a power-play goal of their own as Wahlman notched the first of two goals with Mann and Dave Wensley assisting on the score.

Michigan Tech regained its one goal lead quickly in the second period when Donnie Porter tallied another power-play goal only 45 seconds into the period.

Again, the Huskie lead was short-lived as Ray Jacques, the team's leading returning scorer, scored his first goal of the season at 4:21.

Jacques fired a long slap shot that struck Roach and bounced into the goal tying the game at 2-2.

Jean Lacoste, who made his first Hockey East start of the year, turned aside 28 Huskie shots in registering his first win of the season, while Roach knocked away 21 UMO shots.

Saturday night's game was a different story. Especially the third period.

The Huskies scored six times in the final period, turning a 4-1 game into a 10-2 rout.

The Bears were in the game but it was a simple case of not capitalizing on their chances. Mainly the power play.

Trailing 4-1 to start the third period,

(see HOCKEY page 10)

## Basketball

by Steve Bullard  
Staff Writer

Senior center Emory Smith and freshman forward Mike Smith lead the UMO basketball team to an impressive victory over visiting Canadian in an exhibition contest at the Memorial Gym.

Thirteen of the game scored in the game. Gavett gave all his playing time.

Five minutes into the game, Bears, 16-11 last year, of 11 straight points. Maine slowly built a lead and kept a 10-point lead throughout the remainder of the game.

"We had our high points really pleased with Gavett said. "Dalton (third ranked in Canada) kept coming right back and make some mistakes would have folded."

"The one area I was our defensive rebound really came around. been working hard."

Ellis, who led Northeastern last year with 22.2 points, continued to show he with strong play under the points in just over 10 minutes was complemented.

Ashland High School showed a superb outburst and a lot of hustle in the game.

Gavett said Coffin

## Miami Dolphins

by The Associated Press

Dan Marino passed for two touchdowns Sunday to lead the undefeated Miami Dolphins to a 21-10 victory over the Chicago Bears in the first round of the NFL playoffs.

Marino had to overcome a power-play goal of their own as Wahlman notched the first of two goals with Mann and Dave Wensley assisting on the score.

Michigan Tech regained its one goal lead quickly in the second period when Donnie Porter tallied another power-play goal only 45 seconds into the period.

Again, the Huskie lead was short-lived as Ray Jacques, the team's leading returning scorer, scored his first goal of the season at 4:21.

Jacques fired a long slap shot that struck Roach and bounced into the goal tying the game at 2-2.

Jean Lacoste, who made his first Hockey East start of the year, turned aside 28 Huskie shots in registering his first win of the season, while Roach knocked away 21 UMO shots.

Saturday night's game was a different story. Especially the third period.

The Huskies scored six times in the final period, turning a 4-1 game into a 10-2 rout.

The Bears were in the game but it was a simple case of not capitalizing on their chances. Mainly the power play.

# Basketball team beats Dalhousie 83-59

by Steve Bullard  
Staff Writer

Senior center Emily Ellis scored 16 points and freshman Elizabeth Coffin 15 points to lead the UMO women's basketball team to an impressive 83-59 victory over visiting Canadian power Dalhousie in an exhibition contest Friday night at the Memorial Gym.

Thirteen of the 15 Maine players scored in the game as Coach Peter Gavett gave all his players considerable playing time.

Five minutes into the game the Black Bears, 16-11 last year, ripped off a string of 11 straight points to take a 19-8 lead. Maine slowly built a 46-26 halftime advantage and kept a 15-20 point margin throughout the remainder of the game.

"We had our highs and lows but I'm really pleased with the intensity," Gavett said. "Dalhousie's a good team (third ranked in Canada last year). They kept coming right back and forced us to make some mistakes. Another team would have folded."

"The one area I was disappointed in was our defensive rebounding. We never really came around. It's an area we've been working hard on."

Ellis, who led New England in scoring last year with 22.4 points per game, continued to show her offensive prowess with strong play under the basket and 16 points in just over half the game. She was complemented well by Coffin, an Ashland High School graduate, who showed a superb outside shooting touch and a lot of hustle in scoring 15 points.

Gavett said Coffin, who has earned a

UMO's Annie Allen drives past Dalhousie's Sherri Thurrott in Maine's 83-59 win Friday. (Ferazzi photo)

starting spot, is capable of playing even better than she showed Friday night.

The remainder of the Black Bears showed balanced scoring while Dalhousie was led by Connie Clark and Peggy McLain with 11 points each and Lisa Briggs with 10 points.

"We've got a deep team," Gavett said. "My problem is deciding who to play, but it's a nice problem. Anybody on any given night can help us."

Kelly Nobert, a 6-foot freshman from Sanford, scored eight points. Another freshman, 5-foot-5 guard Jen Smart from Old Town, scored six points.

Junior guard Mary "Kissy" Walker and sophomores Sonja Wedge and Lynn McGouldrick with five points each. Scoring four points were senior Claire McCoy, juniors Lauree Gott and Annie Allen, and freshmen Crotall Cumming and Debbie Duff. Sophomore Leslie Boyle added three points.

The play of the five Maine freshmen was a high point of Friday's game, with all showing the potential to contribute to the Black Bear team this season.

"They're picking up the system really well, they'll definitely help us," said Walker, one of the team's leading veterans and top point guards.

Walker said the Black Bears are anxious to begin the season.

"I think we're going to be real strong," she said. "We've been practicing for about two months, and we really feel good about playing."

The Black Bears open their regular season schedule on Saturday, Nov. 24 when they visit the University of Virginia. Maine's home opener is Saturday, Dec. 8 against Harvard University.

## Miami remains undefeated with 31-17 win over Jets

by The Associated Press

Dan Marino passed for 422 yards and two touchdowns Sunday, leading the undefeated Miami Dolphins to their 10th straight National Football League victory, while Chicago's Walter Payton rushed for 111 yards and two touchdowns to pace a 17-6 victory by the Bears over the Los Angeles Raiders.

Marino had to overcome a mistake-prone first half before the Dolphins downed the New York Jets 31-17. But the quarterback put Miami ahead to stay with 7:45 left in the game with his 29th touchdown pass of the year, a 47-yarder to Mark Clayton.

In the first two periods, the Jets intercepted Marino twice and sacked the quarterback two times. When Freeman McNeil ran six yards for a touchdown with 9:31 to play, New York had a 17-14 lead.

But, Miami, behind Marino, the NFL's top-rated quarterback, moved 80 yards in four plays for the go-ahead touchdown, Marino connecting with Clayton. A 30-yard field goal by Uwe Von Schamann and a two-yard run by Pete Johnson in the last four minutes wrapped up the Dolphin's victory.

Elsewhere, it was Cleveland 13 Buffalo 10, Green Bay 23 New Orleans 13, Pittsburgh 35 Houston 7, the New York Giants 19 Dallas 7, San Diego 38 Indianapolis 10 and Minnesota 27 Tampa Bay 24. Philadelphia and Detroit tied 23-23.

In late games, it was Denver 26 New England 19, San Francisco 23 Cincinnati 17, Seattle 45 Kansas City 0 and the Los Angeles Rams 16 St. Louis 13.

Atlanta plays Washington on Monday night.

The bruising battle between Chicago

and the Raiders saw three quarterbacks knocked out of action at various times - Marc Wilson and David Humm of the Raiders and Jim McMahon of the Bears.

McMahon, who suffered a bruised kidney, was hospitalized for observation and tests.

Chicago defensive end Richard Dent was credited with four and one-half of the Bears' nine sacks. His biggest play came late in the fourth quarter when he sacked Wilson, forcing a fumble and recovering the ball after the Raiders had reached the Chicago 16-yard line trailing only 14-6.

The victory boosted Chicago to a 7-3 record atop the National Football Conference Central Division. The Raiders fell to 7-3 in the American Football Conference West Division.

Dave Brown, Keith Simpson and Ken Easley ran back four intercepted Kansas City passes for touchdowns - an NFL record - as Seattle beat the Chiefs. Brown returned his interceptions 95 and 58 yards for scores, Simpson returned one 76 yards for a touchdown and Easley ran one back 58 yards for a score.

It was the second shutout for Seattle, 7-3, and fourth straight victory. Kansas City, 5-5, had six passes intercepted and returned for 330 yards, also a league record.

Safety Dennis Smith picked up a fumble and ran 64 yards to score the clinching touchdown as Denver, 9-1, came from behind to beat New England. It was Denver's eighth straight win.

Eric Dickerson ran for 208 yards on 21 carries and Mike Lansford kicked two second-half field goals as the Rams edged St. Louis, 6-4.

The Rams, 6-4, converted two St. Louis fumbles into their tying and winning points while coming back from a

13-3 halftime deficit. The loss dropped St. Louis into a tie for the NFC East lead with Dallas and the New York Giants.

Despite throwing a career-high four interceptions, Joe Montana led San

Francisco over Cincinnati, the winning touchdown a four-yard pass to Freddie Solomon with 1:39 remaining in the game. The 49ers, who trailed 17-7 at the half, improved their record to 9-1.

## The Maine Campus is now accepting applications for Assistant Business Manager

If you are a Sophomore or Junior with strong accounting capabilities then the salary and experience could be yours.

Interested individuals should pick up an application at the Maine Campus Business Office in the basement of Lord Hall

## ● Hockey

The UMO hockey team beat Michigan Tech 3-2 and lost 10-2 over the weekend. The Bears are now 2-5 on the season. (York photo)

Maine had a number of scoring opportunities, but couldn't convert them.

The Bears had a five-on-four power play for 1:37 to start the period; a five-on-three power play for nearly two minutes after the first power play; and a four-on-three play for two minutes. All of which produced no goals.

The Bears were one for 16 on the power play in the two games.

It was after that last power play when the barrage on Maine goalie Ray Roy began. Huskie forward Porter began the onslaught at the 12:00 mark giving Tech a 5-1 lead.

Tim Flanagan at 13:55, Brian Hannon at 15:10, Chris Cichocki at 15:51, Flanagan again at 16:13 and Geordie Hamilton at 19:49 completed the Huskie scoring.

Mann cut the Tech lead to 2-1 midway through the second period on a short-handed goal as Nonis sent him a left

wing pass and Mann beat Roach for his first goal of the year.

Wahlin scored Maine's other goal in the third period notching his team leading fifth-goal of the season when he fired a slap shot behind Roach.

The Huskies outshot Maine 42-24 as UMO goalies' Ray Roy (eight goals, 32 saves) and Lacoste (two goals and 0 saves) had busy nights as the majority of Tech shots came from the slot and within the circles.

Maine is now 2-5 overall and 2-4 in Hockey East. The split gives Michigan Tech a 5-3 overall record.

The Bears will return to the ice this weekend when they host Mt. Allison University in a weekend series. Friday's game will be at the Alford Arena, and Saturday's game will be played at the Central Maine Youth Center in Lewiston.

## ● Football

(continued from page 8)

at halftime after missing a 39-yard field goal attempt with three seconds left in the first half.

"He missed that one and he went into The Pit (Memorial Gymnasium) all down," Phelan said. "I went over and told him he was going to have to kick another one before the day is out and he did."

Rogerson said UMO has worked on the two-minute offense in practice.

"The two-minute offense is a very nebulous type thing," Rogerson said. "It has to be versatile enough to fit any situation. Steve (Tosches, UMO's offensive coordinator) and I spend a lot of time talking about the best plays."

"The first thing is getting in and out of the huddle, using your timeouts. Plus there were no penalties on that drive," he said.

Maine had a number of long gains called back because of penalties, but the last drive was errorless. For the game Maine was penalized 10 times for 101 yards.

UMO scored first when Leone kicked an 18-yard field goal with 3:47 left in the first quarter. The score capped-off a 10-play, 70-yard drive which was highlighted by Hufnagle's running.

The senior carried the ball four times for 36 yards, including one 19-yard run. Hufnagle finished the game with 125 yards rushing on 18 carries and one touchdown. He also caught five passes for 55 yards.

With 10:05 left in the second quarter the Huskies went ahead 6-3 on a 44-yard touchdown run by quarterback Mike Sweeney. On third down and four yards, Sweeney faked a handoff to fullback Mark Curtin, rolled right and ran, virtually untouched, for his first touchdown of the season. Hart's kick made it 7-3.

Sweeney left the game in the second quarter with an injury. He ended up with 55 yards rushing and one completion in two attempts.

The Bears went ahead 10-7 when they scored on the next series. The four-play, 67-yard drive ended with a 20-yard run up the middle by Hufnagle for a touchdown.

Wildier gave Hufnagle an inside handoff, but continued running down the line. The Northeastern defense followed Wildier, giving Hufnagle a clear path to the endzone.

Rogerson said Northeastern gave Maine the middle of the field while protecting the ends.

"Northeastern took away the sweeps," Rogerson said. "Whenever you take something away you get something in return. We got a lot of yardage on the cross-blocks."

UMO rushed for 289 yards and passed for 148 in the game. Northeastern gained 193 yards rushing, but only 44 passing.

Northeastern head coach Paul Pawlak said it wasn't a trade-off in protecting the outside and exposing the middle of the field.

"There were two plays they worked well, the counter-trap and the belly, and those two plays hurt us," Pawlak said. "The quarterback (Wilder) getting around the corners also. We weren't able to contain him and he'd get around the corner and do what he wanted."

The Huskies went ahead 13-10 when tailback Larry Smith took an inside handoff from new quarterback Arnold Swenson and went 35 yards for a touchdown. Hart's kick made it 14-10 with 7:23 left in the third quarter.

Maine had the ball, but lost it when Bob Koban recovered a Hufnagle fumble at Maine's 39-yard line. After Smith ran up the middle for four yards, he broke free for 35 more and a touchdown on the drive's second play.

The teams exchanged possessions before Maine got the ball on its 44-yard line.

Wilder, who completed 13 passes in 22 attempts for 148 yards, threw a 24-yard pass to Nockett and picked up 11 more on a bootleg run to highlight the drive.

On fourth down and goal at the one-yard line, Maine lined up in the I-formation. Phelan took a pitchout from Wildier and ran left for a score to give Maine a 16-14 lead. Hufnagle blocked linebacker Shawn O'Malley out of the play, opening a hole for Phelan.

Leone's kick made it 17-14. Phelan said Hufnagle's block gave him room to score.

"Lance (Theobald) pulled and Huff took the linebacker out," Phelan said. "I looked to see if I could go out or in, but Huff took him (O'Malley) straight on and I went right up the middle."

Hart kicked a field goal after an exchange of possessions to tie the score at 17-17, setting up the Maine comeback.

## BC q

STATE COLLEGE  
State beat Boston College 21-14 in a football game. Eagle's outstanding player was Doug Flutie.

State outscored Boston College 21-14 in a football victory. It was against five victories.

The 5-foot-9, 160-pound Flutie completed 29 of 47 passes for 311 yards and one touchdown. He broke the NCAA record for yards per game with 9,723 yards, held by Brigham Young's Steve Largent who has 10,003 yards.

He also moved into the career passing yard leader Ben Bennis. McMahon (9,530) and Penn State coach Joe Paterno (9,530).

## Men's

by Chuck Morris  
Staff Writer

The men's cross country team finished 11th out of 35 teams in the New England championship race in Boston. The team scored 110 points, five behind the runner-up, the University of New Hampshire. The team was led by John Clopp with a time of 24:06 over the five-mile course.

Northeastern University (124) finished second. The top Maine runner was Steve Lorge in fifth (153) and seventh (208).

Coach Jim Ballinger said the team's performance was a surprise.

"I thought the team was going to be a disappointment," Ballinger said. "The form they were in was not what we expected. We went down and ran the best we could. Everybody's performance was good."

Captain Glen Runners, as he is known, finished his 29th place finish. He placed ninth in the five-mile race and 11th in the 10-mile race.

## BC quarterback sets two collegiate records

STATE COLLEGE, Pa. (AP) - Penn State beat Boston College despite the Eagle's outstanding senior quarterback, Doug Flutie.

State outscored BC, 37-30 for its sixth football victory against three losses this season. It was only the second loss against five victories for ninth-ranked Boston College.

The 5-foot-9, 175-pound quarterback completed 29 of 53 passes for 447 yards and one touchdown. In so doing, he broke the NCAA total offense record of 9,723 yards, held by Jim McMahon of Brigham Young (1977-1981). Flutie now has 10,003 yards.

He also moved into third place in career passing yards with 9,384, behind leader Ben Bennett of Duke (9,614) and McMahon (9,536).

Penn State coach Joe Paterno admitted

he was glad to see the last of Flutie.

In his career against Penn State, Flutie completed 82 of 158 passes for 1,482 yards and five touchdowns. He was intercepted six times, including twice on Saturday.

"That kid is amazing," Paterno said. "He's unbelievable. I said before the game he was one of the most amazing players I had seen and he didn't disappoint me."

"I'm proud of our kids. They really stuck at it."

Paterno said Penn State was fortunate the offense was able to constantly come back.

"If they had just kept giving the ball back to Flutie, we would have been out of it. A lot of things went well for us."

Paterno said the defensive plan

against Flutie was to keep changing on him.

"We wanted to put pressure on him with four guys and we succeeded in getting a couple of sacks (four)."

Paterno said he kept fresh people on his defensive line.

"I figured they would throw 40 or 50 times, and if you are going to have to rush a passer that many times, that is the most tiring part of the game. If we were going to have a good rush at the end I had to keep substituting. And the kids did a real good job."

The Penn State defense, in addition to four sacks, intercepted two passes and recovered two fumbles.

Despite setting the record, Flutie was frustrated by the defeat. He wanted the ball one more time.

"It's kind of frustrating knowing there

is nothing you can do and you just have to watch them run out the clock.

"I thought I played average. I played well at the end of the game. At the beginning I wasn't setting my feet. I was worried about the turf. Finally I forgot about it. I threw two interceptions but neither were bad passes—just good defensive plays."

Flutie said of Penn State, "for the most part they just brought more people than we could handle. And the quick receiver wasn't open."

He said BC's bid for the national title is pretty much lost. "But we can still go to a major bowl. We have a game against Miami which is attractive. I think we are a pretty exciting team to watch and the bowls like to see that."

There were 14 scouts from 10 bowls at the game.

## Men's cross country team 11th in N.E. championships

by Chuck Morris  
Staff Writer

The men's cross country team finished 11th out of 35 teams Saturday at the New England championships at Franklin Park in Boston. The Black Bears had 301 points, five behind Massachusetts Institute of Technology. Boston College, led by John Clopeck's individual win in 24:06 over the five mile course, won the meet with 37 points.

Northeastern University (50) and Yale University (124) were second and third. The top Maine schools were Bates College in fifth (153) and Colby College in seventh (208).

Coach Jim Ballinger said the Bears accomplished their pre-meet goals. He said the squad is regaining its top form.

"I thought everybody ran well," Ballinger said. "They seem to be regaining the form they had a month or so ago. 'We went down there (Franklin Park) to run the best we could. I was pleased with everybody's performance.'"

Captain Glendon Rand led the Bear runners, as he has done all season, with his 29th place finish in 25:29. He was only nine places shy of earning All-New England status. Rand said the new

course at Franklin Park is tougher than the old one.

"The hills were a little tougher," Rand said. "The course seemed slower than it usually is."

Rand said it was a good team race for the Bears and their number one starting position probably was beneficial for them.

"Everybody (every team) is trying to do the same thing, get a good start," Rand said. "We probably had one of the best starts. I think we went out fast enough and held our position, but a lot of it is luck. We ran a good race."

After Rand, Jon Rummier also broke 26 minutes for 50th place. Rummier ran a consistent pace the whole way and finished in 25:57. Brian Warren (26:11) in 61st, Roy Morris (26:14) in 65th and Steve Dunlap (26:40) in 96th rounded out the scoring for UMO. Gary Dawson (123rd) and Mike Simensky (127th) were the other Maine competitors in the varsity race.

Dawson said finishing 11th was close to the team's goal. He said Saturday was the Bear's best race in the last few weeks.

"We did all right," Dawson said. "The top five had good races...probably the best we've run in quite a while."

Teammate Mike Leighton, who led the junior varsity squad to a ninth place finish, said both the varsity and JV squads "had a good showing, very respectable."

"We're on the way back," Leighton said. "If we had a few more weeks...maybe we would do even better."

Leighton noted the high finish of the other Maine schools: He said the state of Maine has some of the best cross country competition in New England.

"Some of the best teams in New England are right here in Maine," he

said.

Leighton finished 33rd in the JV race in 27:11. Rich Goodenough (39th), Matt Dunlap (46th), Dana Maxim (53rd), Mike Farnsworth (58th) and Bob Cuddy (60th) backed up Leighton in the JV race.

UMO's JV squad beat 10th-place Colby and the 13th-place Bates' JV squads. The University of Massachusetts won the JV race.

Ballinger said the entire UMO team ran well.

"Everybody ran as well as they could," Ballinger said.

## Denver scores on fumble, beats Patriots 26-19

DENVER (AP) - Safety Dennis Smith picked up a Mose Tatupu fumble and ran 64 yards for the clinching score with 1:45 left, lifting the Denver Broncos to a come-from-behind 26-19 National Football League victory Sunday over the New England Patriots.

The Broncos, outplayed most of the day, drew into a 19-19 tie with 4:03 left on John Elway's third touchdown pass, a seven-yarder to Butch Johnson,

and Rich Karlis' extra point. Karlis had earlier missed two extra-point attempts.

New England promptly responded with a drive that reached the Denver 37-yard line, but Tatupu, trying the left side, was stripped of the ball by Denver linebacker Steve Busick, and Smith scooped up the fumble and raced down the sideline for the touchdown.

A subsequent Patriot threat ended on safety Steve Foley's interception inside

the Denver 20.

Tony Franklin, who had four field goals on the day, had two in the first half. The Patriots, despite gaining twice as much yardage in the half, had to settle for a 6-6 tie at intermission. Denver's first-half score came on Elway's 35-yard pass to Steve Watson.

The teams traded touchdown passes in the third quarter, with Tony Eason hitting Clarence Weathers from 15-yards out and Elway connecting with Johnson on a 17-yard pass.

Denver's missed extra point left the Patriots leading 13-12. Franklin connected on two more field goals in the final period, giving the Pats a 19-12 lead with 8:24 left.

The victory was Denver's eighth in a row, raising its American Football Conference (AFC) West division-leading record to 9-1. New England dropped to 6-4.

Hard running by the Patriots, particularly Craig James who finished with 120 yards, kept New England in control until Denver's explosion in the closing minutes.

James' eight-yard run and Eason's 14-yard pass to Stanley Morgan set up Franklin's first field goal, a 30-yarder late in the opening period.

A shanked punt by Denver's Chris Norman gave the Patriots good field possession midway through the second period, and Franklin converted a 40-yarder.

Elway's 19-yard screen pass to Sammy Winder and a 19-yard pass to Johnson came during an 84-yard drive that culminated in Watson's touchdown catch.

The Patriots needed just four plays to go 64 yards for a third-quarter touchdown. Eason hit Morgan on a 17-yard pass and Stephen Starring on a

25-yarder. Tatupu then ran seven yards and Eason found Weathers for the touchdown.

Elway, scrambling in the backfield, rifled a 49-yard pass to Johnson to set up Johnson's 17-yard scoring catch over the middle with 1:24 left in the third period, drawing the Broncos within one point, 13-12.

A 10-yard run by James set the stage for Franklin's 47-yard field goal early in the final quarter. Ray Clayborn's interception put the Pats in position for Franklin's fourth field goal from 19 yards out, to conclude New England's scoring.

On Denver's subsequent tying drive, Elway cranked up and hit Watson for 25 yards, Watson for 17 yards, Clarence Kay for 21 yards and Watson for 11, and Johnson took a short pass and beat Keith Lee into the corner of the end zone.

## Washington and Atlanta meet in Monday night football

WASHINGTON (AP) - The Washington Redskins and Atlanta Falcons, injury-plagued teams in dire need of a victory, meet Monday night in a National Football League game in Robert F. Kennedy Stadium before a national television audience.

"We are at the crossroads if we hope to win the National Conference East Division title," said Washington coach Joe Gibbs.

"We are coming home after two straight losses and are chasing two teams in the division. A loss Monday could put us in a hole we might never get out of."

The Redskins, 5-4, entered the weekend trailing Dallas and St. Louis in the tight NFC East.

For Atlanta coach Dan Henning, the concerns are greater. With his team mired in the NFC West cellar at 3-6, with a three game losing streak, Henning's tenure as coach of the Falcons appears in jeopardy.

Henning's major concern Monday will be an injury-depleted offense that has turned a well-oiled machine into an erratic unit.

Thi loss of running back William Andrews and wide receiver-kick returner Billy "White Shoes" Johnson with

seasonending injuries cost Henning and the Falcons the players that accounted for 52 percent of the team's offense last year. Their absence has been most noticeable on key third-down situations. Where the Falcons led the league in converting third-down plays last year, with better than 51 percent, they are last in that category this year at 35 percent.

"Everybody has injuries," said Henning, "and you can't use them as excuses. But when you lose guys like Andrews and Johnson, you are losing two of the best in the league."

The Redskins also have had their share of injuries. The defending NFC cham-

pions' bid for a third straight trip to the Super Bowl has been slowed by the loss of key personnel.

Thirteen of the team's 49 players who opened the season have been placed on injured reserve, including three Pro Bowl performers - wide receiver Charlie Brown, free safety Mark Murphy and center Jeff Bostic.

In addition, running back Joe Washington, the team's second-leading rusher and receiver last year, is sidelined indefinitely with a leg injury.

Of the players expected to suit up for Monday's game, 15 were listed as either probable or questionable with injuries.
