# Day in the Life: Jordon Gregory

Day in the Life, Student Life

Did you catch our first Day in the Life series on our Facebook and Instagram stories? Jordon Gregory, class of 2022, took over our social media stories for one day to show everyone what a typical day as a chemical engineering student looks like for her.

Jordon mentioned some of our favorite things about campus: the beautiful Mall, the center of campus, and that we're only a short two-hour car ride to one of the most visited national parks in the country—Acadia National Park.

Being a UMaine engineering student and pulp and paper scholarship recipient is challenging, for sure. But our students receive all the resources and support they need in order to succeed. Do you know any students up for the challenge? We'd love to meet them.

In the meantime, catch us on our Facebook and Instagram pages and stay tuned for our next student stories takeover.
