Respectfully submitted,
C. O. VARNEY
Treasurer of Brooks
To the Superintending School Committee of Brooks:—

Gentlemen:—

I hereby submit my first annual report of the public schools of Brooks for the year ending March 6, 1911.

As we have retained four out of the five teachers who have been with us for several terms, it will be a waste of time and space to go into the minute details of each teacher's work, as it has all been reported to you over and over again for several years past.

Suffice it to say, that we think there has been a steady improvement in all branches of our four common schools; and in nearly all cases we are well satisfied with the work accomplished.

When I took the office of Superintendent, we had no principal for our high school, and a very limited amount of time in which to procure one. Irving F. Burton was engaged and gave excellent satisfaction as a teacher.

In fact, we all were so well pleased with him, that I engaged him for the fall term, but four days before that term was to begin, I received a letter from him, stating that he could not come.

Again we were obliged to hire a stranger on short notice. Through the Teachers' Agency, we procured Morton A. Campbell, a graduate of Boston University, who is still with us, and has accomplished some good work.

You will doubtless note that our fuel bill seems somewhat large, but when you consider that this bill comprises fuel for nearly two years, it will not seem so much out of the
way. We believed it would be economy for the town to buy green wood and have it put under cover for next winter's use, especially as we could save 20 per cent by so doing.

During the past year, we have made some slight changes in Text books, which we believe to be for the best interest of all concerned.

Our South Brooks school is the most difficult problem with which we have to deal, at the present time, especially the spring and fall terms.

The average number attending these terms is about nine, and they are so widely scattered that it will require about sixteen miles travel, each day to transport them, thereby making the cost of transportation much more than that of teaching.

At the very lowest figure, it will cost about twenty nine dollars per head to run this school for the above two terms of ten weeks each.

Gentlemen, this is a hard problem and we would like some suggestions from you in regard to it at our annual town meeting.

A WORD TO THE PARENTS.

It is with regret that I feel obliged to call your attention to the fact that many of you are, perhaps unthinkingly, doing an injustice to your children. You go into town meeting and vote to raise money for their education, and this is right; but please remember that your responsibility does not stop there.

Money will not educate them unless you send them to school, and I am very sorry to say that many of you, either deliberately keep them at home, or allow them to remain there on the smallest pretence, or most flimsy excuse. Now when your boys or girls remain away from school, one or two days out of each week, and again a week at a time, they are not long in losing all interest in school, having fallen behind their classes, they seem to feel ashamed that some little boy or girl has gotten ahead of them, and as soon as they reach
the age at which we cannot compel them to attend, they drop out altogether. One more fact to which I wish to call your attention, is that of tardiness. You should make an effort to see that your children are ready for school in season. A very important part of their education, is to be on time in whatever they have to do, and some of you seem to be sadly neglecting this part.

Very truly,

T. A. ELLIOTT,
Superintendent of Schools.
