Orono, Maine, May 24, 1951

Number 27

John Stewart Named As Dean Of Men

Grade Policy Effective July 2

New graduation requirements, effective July 2, 1951, and a clarification of general grading policies got landslide approval at a faculty meeting in the Little Theatre last Monday afternoon.

Submitted by the Faculty Council, and based on the report of the committee on the grading system distributed to the faculty last March, both the revamped grading system and the recommended graduation requisites were accepted essentially as offered.

With the grade of F abolished, students will hereafter be required to amass, for graduation, "a total of grade points equal to 1.8 times the number of credit hours in which they receive grades." These grade points will be figured on the point average system (A-4, B-3, C-2, D-1, E-0).

Seniors Not Affected

This year's senior class will graduate under the present requirements. All other students already enrolled in the university will be permitted to graduate if they satisfy either the present or the new requirements.

A lengthy and comprehensive statement on grades, which was incorporated in the report, aimed chiefly at "uniformity of grading standards." A few of the more significant parts of the statement follow:

"By 'uniformity of grading standards' is meant that C (for example) obtained in different courses should have some common meaning. . . . It does not imply that all courses should exhibit similar grading patterns. . . .

Purpose Of Grades

"Grades should be used to measure accomplishment against course objectives. Grades are not disciplinary tools and should not be used to measure tardiness, lack of effort, absences, personal neatness, courtesy, boredom, or any other factor which is not a direct objective of the course. . . .

"The basic decision to make in grading is how well the student has met established course objectives rather than how he fits into a predetermined grading pattern. . . .

"Whenever the objectives are so set that consistently high or consistently low grades are the result, the system is faulty. . . .

Book Call Issued

Students and faculty members are asked to start returning books borrowed from the Library. All books must be returned by Saturday, June 9.

Seniors should make sure their library record is clear before the date of faculty voting of degrees. Those students who wish to take books from the Library after June 9 or to use the Library mailing service may make arrangements with Mrs. Bogan at the circulation desk.

Annual Pops Concert In Gym Friday

Orchestra To Join Glee Club In Show

By SID FOLSOM

The seventh annual Pops Concert will be held tomorrow night in Memorial Gym, with the program scheduled to begin at 8 o'clock. The concert is sponsored by Mu Alpha Epsilon, honor society in music, and will feature the U. of M. Orchestra and Glee Club.

The program bids fair to please all, with its listing of waltz rhythms, catchy Spanish tunes, melodies from musical shows, and current popular favorites.

A cabaret-style dance will be held in Memorial Gym after the concert, with dancing until 11:30 p.m.

Besides the Orchestra and Glee Club, four soloists will be featured in the concert. They will be Bernadette Stein, soprano; Helen Friend, contralto; Hilda Lesch, violin; and Beverly Antonitis, harp. The Varsity Singers will also harmonize on a series of tunes.

Directing the Orchestra in its performance will be A. Stanley Cayting, instructor at the Northern Conservatory of Music, Bangor. James G. Selwood of the U. of M. music department will direct the Glee Club.

Music for the cabaret dance following the concert will be provided by Bob Haynes and the Maine Day band. At dance intermission informal entertainment will be presented by Dot McCann, Dick Ayotte, and the Varsity Three—Tom White, Frank Tillou, and Charles Fassett.

The program for the Pops Concert is as follows: "Maine Stein Song";

(Continued on Page Six)

The old generation greets the new. Mother "Mac" bids welcome to Adam Leighton who represents the last pledge group that she will see as housemother of SAE. She will retire in June after 27 years of service. A testimonial open house is planned in her honor on May 26.

—Photo by Marcoux

'Mother Mac' Leaves SAE Boys After 27 'Wonderful Years'

By BILL MATSON

Mrs. Edith MacCollum is going to retire.

To many students, this item won't mean too much. But to the boys at the Sigma Alpha Epsilon Fraternity House, it has a great deal of meaning.

Mrs. MacCollum has been SAE's beloved housemother for 27 years. Better known as "Mother Mac," she has guided and helped countless Maine students since 1924.

On Saturday afternoon the present members of the fraternity are holding an open house testimonial for "Mother Mac." Hundreds of alumni are expected to attend, some of them from as far away as Tennessee and Pennsylvania.

When asked about her years at Maine, "Mother Mac" said quite simply: "There is nothing to tell."

She finally confessed, however, that she had spent "twenty-seven very happy and wonderful years here. . . . the boys are wonderful, they have done everything that they possibly could to make my stay a happy one."

Mrs. MacCollum first came to the university for the 1924 commencement exercises. Mrs. Mary Parcher, the previous housemother, had died, and "Mother Mac" was asked if she would like to chaperon at the house for the four day period. At the end of the four days, she was asked if she would like to come back in the fall and become the regular housemother. She was hesitant at first because she was happily situated in Cambridge, Massachusetts. Incessant pleading by the boys, however, changed her mind, and she embarked on her long career with the house.

She says that her only regret is that she must go. Her greatest pleasure was in doing something for the house, whether it was talking with the alumni when they returned for ball games, class reunions, or commencement exercises; or just plain "watching over the boys."

All of the fellows in the house voiced the opinion that they "hated to see her go." Said one, "She's done a terrific job, I wish that she could stay here forever." Another said quite sadly, "The house won't seem the same without her."

"Mother Mac's" immediate plans are to spend the summer at her cottage on Deer Isle, Maine.

Exam Schedule

The schedule of final examinations, which run from June 4 to June 13, will be found on page 5 of this issue.

Hauck Picks Maine Grad To Fill Post

Wieman Successor Takes Over July 1

By WALT SCHURMAN

President Arthur A. Hauck today named John E. Stewart, assistant to the dean of the College of Arts and Sciences and associate professor of mathematics, to succeed Elton E. Wieman as dean of men effective July 1.

Dean Wieman recently resigned to accept a position at the University of Denver.

Stewart, who assumed his present position in 1941, has been chairman of the freshman-sophomore advisers in the College of Arts and Sciences since 1935. In that position he has worked closely with thousands of students and has in many cases been a personal as well as a scholastic adviser.

President Hauck said the offices of the dean of men and the director of physical education and athletics, both of which were held by Wieman, would no longer be combined at the U. of M.

Stewart was graduated from Maine with the B.A. degree in 1927. He received his M.A. from Maine in 1928 and has been a member of the faculty ever since. He has done graduate work at Iowa and Columbia.

The new dean of men will continue as a member of the mathematics department.

Stewart has served as chairman of a number of university committees including those on guidance, social affairs, and the faculty-student committee on the Union Building. He has also been a member of the Faculty Council, the advisory committee of the College of Arts and Sciences, and the University Administrative Committee.

A native of Bar Harbor, he is married to the former Mabel Lancaster of Old Town, who served at one time on the home economics staff at the university. They have two children.

Masque Will Award Apples At Banquet

The Maine Masque will present four "Golden Apples" to the best actor, actress, and backstage hands at its annual banquet next Thursday in North Estabrooke. "Mortimers" will be presented to all Maine Masque members.

Initiations and election of officers will be held in the Little Theatre before the banquet.

The Glee Club will hold spring tryouts on Wednesday, May 30, in the Carnegie Hall foyer. All students interested in joining the group next year will be welcome.

Air Force Information Officer Explains Duties To Press Group

Captain Walter E. Shotwell, public information officer for the 132nd Fighter Wing, stationed at Dow Air Force Base, was guest speaker at a Press newspaper conference which was day afternoon.

Shotwell, an ex-newspaperman and radio newscaster, explained the problems and procedure of a military information job. The luncheon was held in connection with a Maine Associated Press newspaper conference which was held on campus that morning.

Capt. Shotwell discussed the difficulties and delay which will confront newsmen in their problems of getting necessary information that might concern military matters. He revealed that much was being done to establish a better understanding between the press and the armed services.

Following his talk, the Dow field captain answered questions of the visiting press representatives. Alvan

Mersky, president of the University Press Club, served as toastmaster. Mersky introduced Dr. Arthur A. Hauck who welcomed newspapermen to the University.

At a morning business session, Associated Press editors discussed their mutual wire service problems. Vincent F. X. Belleau, city editor of the Lewiston Evening Journal, was elected chairman of the group for next year's meeting.

Geography This Summer

Two courses in geography, under a noted scholar in the field, will be offered at the coming U. of M. summer session. Dr. Wallace R. McConnell, professor of geography in the School of Education at Miami University, Oxford, Ohio, will teach "Principles of Geography" and "Geography of Eastern North America"

Former Education Dean Heads Western College

Dr. Glenn Kendall is the new president of Chico State College in Chico, California. Dr. Kendall came to the University of Maine in June, 1945, and served as dean of the School of Education and director of the summer session until September of 1947, when Dean Mark R. Shibles assumed office.

UConn Complaints Clothe Cute Co-eds

Look here, you gals with the curved and pallid bodies! Guard well your lithe and supple forms; wrap them well these sunny afternoons lest the administration issue an edict such as came down to University of Connecticut co-eds last week.

According to the university's weekly paper, the "Connecticut Campus," the girls were warned that there were "no sun-bathing facilities on campus," following a stream of complaints of "indecent exposure" on the part of some girls.

It appears that the campus males registered no complaints, but certain administration officials, visitors and local residents were shocked at "a few of the girls" who were dawdling down by the local lakeshore.

Most of the complainers were really ruffled. They demanded that the administration's lady in charge of young ladies go immediately to the scene and administer proper punishment, whatever that might be. The head lady declared that she "did not consider sitting in the sun in shorts and blouse 'sun bathing.'" Anyway, it's a delicate point for you delicate ladies to consider in ensuing weeks.

M.A.E. To Honor Noyes

Richard W. Noyes, a senior in the College of Technology, will receive the annual Honor Award of the Maine Association of Engineers at that group's meeting Saturday, May 26. The award is presented each year to an engineering senior on the basis of "high moral character, scholastic achievement, and qualities of leadership throughout his college career."

Be Happy Go Lucky!

UPPER CLASSMEN ONLY

An "Upper Classmen Only" sign—
It doesn't seem quite fair—
'Cause if you're smoking Lucky Strikes,
You fit in anywhere.

Donald C. Jolliffe
University of Denver

LUCKIES TASTE BETTER THAN ANY OTHER CIGARETTE!

Fine tobacco—and only fine tobacco—can give you a better-tasting cigarette. And L.S./M.F.T.—Lucky Strike means fine tobacco. So, for the best-tasting cigarette you ever smoked, Be Happy—Go Lucky! How about startin' with a carton—today?

L.S./M.F.T.—Lucky Strike Means Fine Tobacco

When marks are low and tempers blow,
And days are grey and mucky,
Cheer up, my friend, 'tis not the end—
Relax! Light up a Lucky!

John K. M. Hayes
Princeton University

It really seems an awful chore
To get my homework done.
But with a Lucky Strike in hand
It almost seems like fun.

Janet E. Stuessy

College Draft Test Deadline Advanced

A recent bulletin issued by National Selective Service Headquarters announces an extension of the deadline for submitting applications to take the Selective Service College Qualifications Test. All applications, according to this bulletin, must be postmarked not later than midnight, May 25, 1951.

According to National Selective Service Headquarters, "the books have been closed" for the May 26th test. Remaining applicants will be tested on June 16 or June 30, except those whose religious beliefs prevent them taking the tests on a Saturday. This group will take the test on Thursday, July 12.

The final deadline May 25th applies to the July 12th test.

Bob Pidacks, number one cross-country skier in the country, is scheduled to leave for Sun Valley, Idaho, for a training period sometime in August.

Frat Queens And Sweethearts Chosen During Past Week End

BY BEN PIKE

House parties were the key-words around various campus fraternities last weekend, and the election of fraternity queens and sweethearts was one of the highlights of the whole affair.

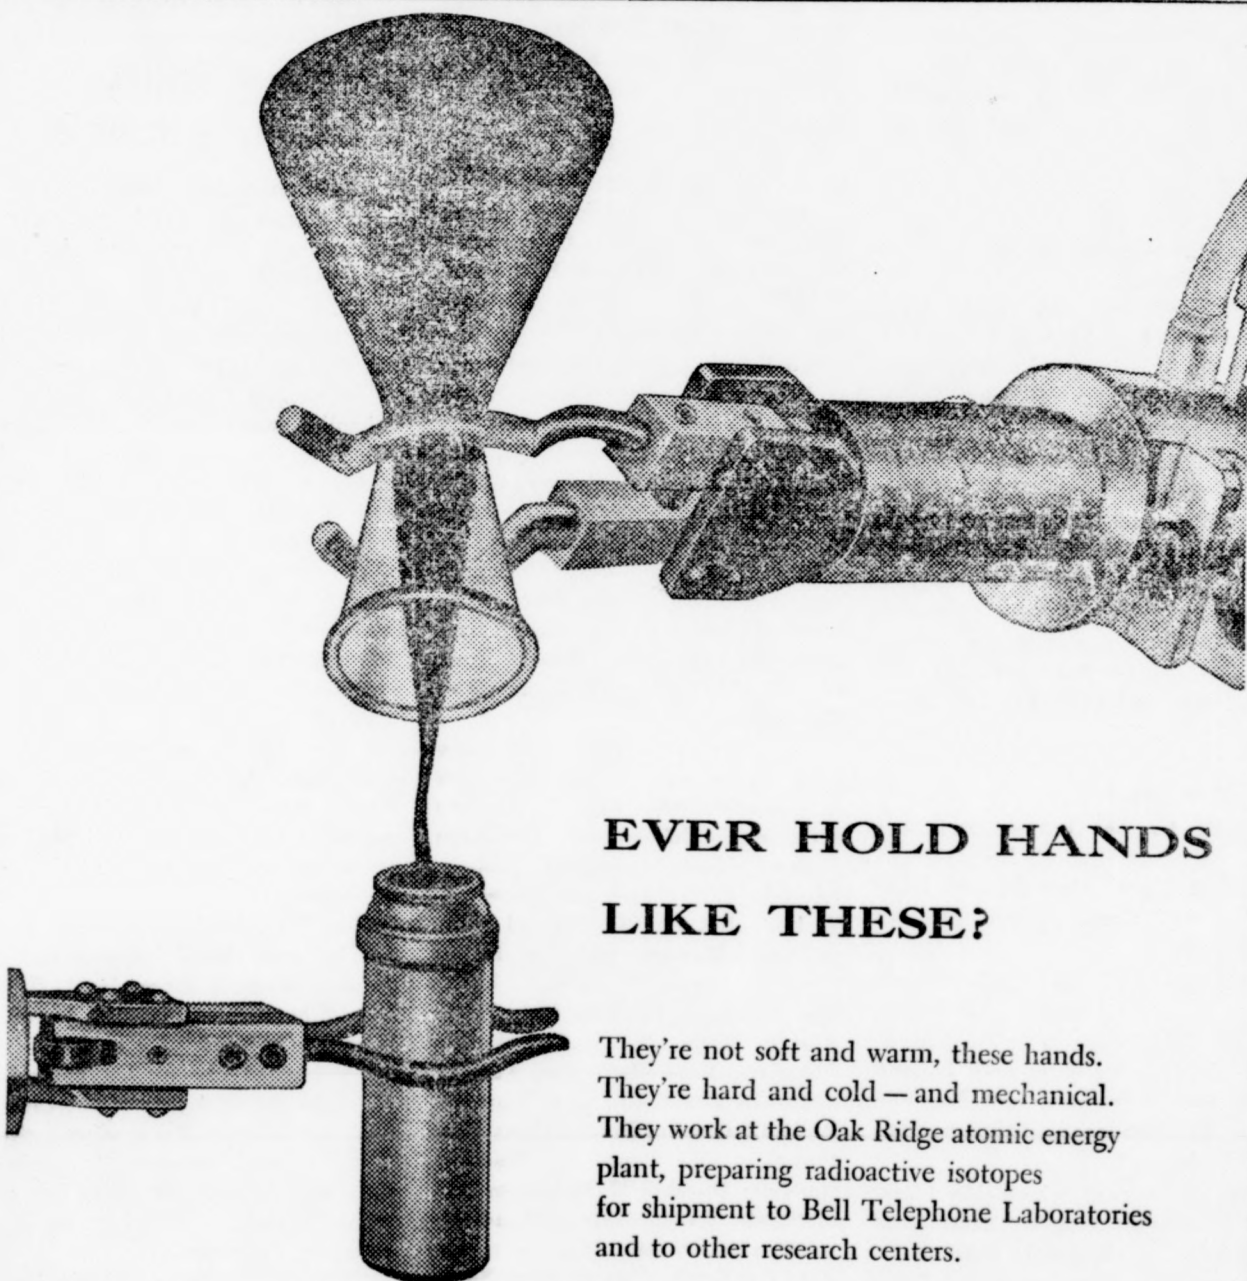

Now that the happy weekend has passed us by, we find that five lovely lassies have been chosen as frat sweethearts. This year, Vonnelle Leonard, a major in Home Economics, Class of '52, became the sweetheart of Delta Tau to replace last year's sweetheart Barbara Richardson. Sweetheart of Sigma Ep is Nancy Knowles, a junior majoring

in Home Economics, and Nancy takes the title last held by Yvonne Richmond. The newly elected White Rose Queen of Sigma Nu is Marilyn Hill, a sophomore majoring in Home Economics. Last year's White Rose Queen was Kathleen Ross. At Lambda Chi, Anne Preble, a junior majoring in Home Economics, received the honor of becoming that fraternity's sweetheart, and she takes the place of Elaine Lockhart, last year's sweetheart. TKE last week chose Madeline Howard as its sweetheart. Madeline is the only sweetheart chosen who is not studying to be a home maker; she is a sophomore majoring in Arts.

EVER HOLD HANDS LIKE THESE?

They're not soft and warm, these hands. They're hard and cold — and mechanical. They work at the Oak Ridge atomic energy plant, preparing radioactive isotopes for shipment to Bell Telephone Laboratories and to other research centers.

These isotopes — which serve as tracers — are used by Bell scientists to study the materials that go into the telephone system. Our research men, working with Geiger counters, are able to detect wear in relay contacts, impurities in metals, the penetration of preservatives in wood.

This new research tool helps us to learn more in less time, helps us to make telephone equipment even more rugged and dependable. That's especially important right now when the Nation relies on the telephone to help get things done.

BELL TELEPHONE SYSTEM

Philips Wins Prize Play Contest

Robert N. Philips, a junior English major, is the winner of the Hamlet Prize Play Contest. Philips' winning production is a one-act drama entitled "Another Journey." Second place in the contest was a tie between

another play by Philips, "On The Wing," and a play by Edith Curtis, "The Teacher and the Trustee."

The prize was established by Robert Hamlet of the Class of '25, former president of the Maine Masque Theatre, and valedictorian of his class.

An Intellectual Drought

What ever happened to the radical-intellectual type of college student?

Time was when the college campus was the breeding grounds of literary trends, political theories, fads (remember the goldfish eaters?), protest groups, cults, and revolution enthusiasts.

Each campus seems to have had a group which cost the college presidents many sleepless nights. There were other individuals who composed fine verse in the midnight hours; waxed eloquent on the details of obscure philosophies, organized protests against legislation and judicial verdicts, wrote, published and distributed propaganda pamphlets embracing a variety of causes.

We do not wish to imply that such actions were all entries on the credit side of the collegiate ledger. Rather, we wish simply to point out that youth must mature. What better way of finding one's niche than by experimentation?

People who worry about such things are now coming to believe that the well of collegiate radicalism is drying up, that currently college students are being introverted, and that the reason is fear that being branded a radical will endanger one's future, both professionally and socially. The same people believe that the current trend to brand immediately, incoherently, and even irrelevantly, any deviation from chauvinistic norms as Red, pink, or fellow-traveler is at fault. They see an intellectual drought if the well is allowed to dry up.

These may be the times that try men's souls, but let it be free souls—souls that think, speak, change.

W. S.

Elegy On An Old Rope

Like other good things, progress has its price.

We got to thinking about this the other day when the bell was being moved. Probably the idea would never have occurred to us if it hadn't been for the silence, which we found a little oppressive.

We consoled ourselves with the thought that the bell would soon be ringing again—without the benefit (and the fallibility) of human touch. It would all be done by electricity. Wonderful thought!

Of course, there will be times when the power goes off. That may be awkward—but it doesn't happen very often, and somebody will probably figure out some way to get around it.

The man who used to ring the bell eighteen times a day will probably miss the job. And it will be a little strange for the rest of us, too. Maybe the bell *will* sound the same. But the knowledge that someone was faithfully at his post, rain or shine, to ring it, won't be there any more.

And that used to be comforting, somehow. That bell is going to be awfully impersonal from now on.

University Society

BY FRANCES DION

The fraternity fellows can well feel proud. The houseparty week end, which was a culmination of social activity for fourteen of the seventeen fraternities, was a great success. It's impossible for me to write in detail all that happened, but if the girls' reactions are any indication of the good times held, then it was one terrific week end. The houses were all elaborately decorated, and if the fellows sighed after all the hard work was done, their sighs weren't in vain.

Alpha Gamma Rho: Orch—Jack McDonough; Sat.—outing at Green Lake; Chaperons—Mr. and Mrs. Roland Strutchemeyer and Mr. and Mrs. Harold Chute. Social committee—Ed Johnson, Gerald Gallagher, Melvin Hovey, and Ora Haskell.

Engaged: Polly Cloutier to Fred Eaton; Rose Pelletier, Old Town, to Rudolph Nadeau; Dorrine McMahon to Barry Steele, Bangor; Janice Goldstein to Donald Povich. Married: Barbara Danforth, Bath, to Alton Swett.

Mail Bag

'The Play's The Thing'

To the Editor: Last week the Maine Masque and Herschel Bricker did a commendable production of Walter Whitney's play, "When the Bough Breaks." To the cast, orchids, and to Dwight Frye, Maine's "Oscar" for a superb performance!

But what of the play? Only during a period of cultural crisis could such a play be written, produced, and acclaimed. It well mirrors an era of breakdown in private and public morals. When wild oats, illegitimacy, pregnancy, and bathroom humor become the sustaining vehicle of a play, is it not reasonable to ask, "Is this the best we can demand or do?" If Samuel Johnson's dictum is valid, "The drama's laws the drama's patrons give," then this play indicts us all.

Yes, I know—Freud, Caldwell, Kinsey, and theatre realism. And the Bard of Avon had his spice, too, but it was never the main dish.

CHARLES E. O'CONNOR

Grading Policy Is Effective July 2

(Continued from Page One)

low average grades result, the objectives might well be re-examined....

C Respectable

"The C grade is a respectable grade for any student in any course. It implies that the student has been successful in meeting the course objectives. It implies approval by the University with the student's progress toward graduation. It represents a satisfactory level of work for both non-major and major students....

"A student should find it necessary to achieve a B rather than merely to receive it as an average student... B means that the student's work is particularly commendable and praiseworthy."

In line with the committee's recommendations, the Faculty Council offered a more thorough guide for the use of the notations 'def' and 'abs' on grade reports. Part of this information follows:

Define 'Deficient'

"The grade 'def.' indicates that a decision on one of the grades A, B, C, D, or E has been postponed. This grade is used in the case of a student who, for authorized reasons, has not completed an essential part of the course work by the end of the grading period. 'Def.' is also automatically used if the student has, for authorized reasons, missed at least the final three weeks of classes of a semester....

"Work missed for unauthorized reasons should ordinarily not be a factor in the use of the grade def. Such work, if essential to the course, should be given a grade, with E the normal grade for work not even attempted. A student absent from classes for the last three weeks of a semester for unauthorized reasons should be given the grade E unless the Dean concerned gives permission for the use of def....

Use of 'Absent'

"The grade 'abs.' is used to indicate that the student missed the final examination but has no other incomplete work. When used this grade is accompanied by an estimate of what the final grade is likely to be, for example, abs. (probable C). An absence from a final examination must be made up during the semester immediately following the one in which the absence occurred, unless the time limit has been extended by the Dean. Courses not made up within the time limit automatically become E."

The Empty Barrel

BY DOUG KNEELAND

Among the many groups of personality types produced in institutions of higher learning, there is one common to all colleges and universities. In football lingo they are called "grandstand quarterbacks." But they are often known by less complimentary titles.

It takes a great deal of skill to win a place in this clique, commonplace though it may be. The first prerequisite is a loud voice—or a particularly venomous pen. The second is brains.

The "grandstand quarterback" (who by any other name still smells as bad) is, therefore, a talented person.

And college breeds these highly

talented people by the dozens. Yes, by the baker's dozens. There are so many things that are wrong with colleges, that the "great ones" have a field day every day. The athletic teams are bad, the coaches can't coach, the teachers can't teach, the buildings scheduled for construction don't get built, the newspapers don't report the news, the magazines should or shouldn't print more "dirty" jokes, the organizations are cliquish and don't accomplish anything.

However, there seems to be one thing lacking from the curriculum from which our most "illustrious" people are taught. It never provides us with the remedy for our many so obvious wrongs.

French Meeting Proves Success As 150 Attend

By AL MERSKY

Approximately 150 students and guests attended the talks and teaching demonstrations featured at the second annual meeting of the American Association of Teachers of French held at the university last Saturday.

The purpose of the meeting was "to bring together teachers and students from Maine schools and colleges, who are especially interested in French, in order that they might exchange ideas related to the theme of the meeting, 'French in Maine.'" The conference was termed a "huge success" by chairman Miss Lilian Avila.

One of the highlights of the affair was a presentation of language workshop procedure. Students participating in the program were Anne P. Berman, Robert J. Poirier, and Dorothy E. Patten, all members of the Senior Class. Henri A. Casavant, assistant professor of romance languages, was in charge of this portion of the program.

Speakers for the afternoon sessions were Alice R. Stewart, assistant professor of history, and Eftim E. Economu, instructor in romance languages. Guest speaker was Mira L. Dolley.

Robert M. Steele is the new chairman of the Student Branch of the American Society of Mechanical Engineers. Others elected were Richard A. Webber, vice-chairman, Richard F. Rawson, treasurer, and Robert E. Estabrooke, secretary.

Queen Ruth Ellingwood Takes On Responsibilities As Colonel

By AL MERSKY

Ruth Ellingwood, honorary lieutenant colonel of the university's ROTC unit, was promoted to a full colonelcy during the recent federal inspection. The military mannequin was given her new commission so that she would coincide in rank with the student battalion commander.

The cadence chant is a familiar tune to Colonel Ellingwood. Besides being honored this year by Scabbard and Blade nomination and eventual election by campus-wide vote, Ruth was also the honorary head of the Bangor High School ROTC unit while a senior at that school.

Contrary to popular opinion, Ellingwood has other official duties besides keeping up the morale of the local ROTC boys. The most important of her responsibilities is reviewing the troops and assisting at the presentation of awards and medals at the annual Federal Inspection of the unit. She also reigned as queen of the annual Military Ball which was held last winter.

Ruth is the fourth to be awarded this honorary commission as commanding officer of the ROTC since the end of World War II. Preceding her in the C. O. line were Muriel Applebee, '48-49, Elaine Lockhart, '49-50, and Janice Josslyn, '50-51.

Honorary Colonel Ellingwood is a physical education major and lists Bangor, Maine, as her home town. Her original appointment as honorary Lieutenant Colonel was announced at the Military Ball in Memorial Gym last December.

No changes can be made in this schedule.

Colleges differ greatly in making out exam schedules. A check through some of this month's exchanges in the Campus office discloses that, measured in column inches, exam schedules of different colleges and universities vary from a short 3 inches (University of N. H.) to a long 120 inches (George Washington University). U. of M.'s 61½ column inch exam schedule takes second prize for long time-tables. Most of the schedules measured were less than 12 inches.

Trafton Hurls State Series Game At Brunswick Today

Bear Facts

By BOB LORD

*Spring has sprung,
The grass has ris,
I wonder where
The Red Sox is.*

—ANON

And speaking of baseball, we hesitate to write this article on grounds that the subject herein may well have been hashed and re-hashed many times over in past years. Nevertheless, the issue does concern sports, so we at least feel somewhat justified in breaking it out even though it may be for the hundredth time.

Briefly, we have heard and overheard many discussions of late concerning the pro's and con's of a fence around the baseball diamond. There appears little doubt that such a device would serve to live up interest in a baseball game by virtue of the possibility of a legitimate home run over the barrier. Anyone can tell you that there is a lot of unbounded pasture out there.

And we have an idea that such conditions may be responsible in part for the criticism which has been tossed in the direction of the outfielders by the "coaches" in the stands. Some fielders have been ridiculed without justification when they fail to attempt a "shoe-string" catch. But there's a reason.

For the benefit of some readers, a shoe-string catch is one made by an outfielder who runs in fast in the attempt to grab a sinking drive just scant inches off the ground. Some fielders try this rather than to play the ball on the first hop.

Such catches are seldom seen around here and there is good reason in many cases. With no fence to give some sort of protection, a fielder may well think more than once before going after that hazardous out. If the fielder cannot make the catch, the batter is assured of at least a double and many times a triple.

And as far as some really good hitters are concerned, they must have at least a bit of sour feelings when they put the good wood to a pitch and see it caught as a routine out while some less explosive batter places a hit between fielders and collects a triple or a home run because the ball just rolls and rolls . . . and rolls.

But as in any issue, there naturally are two sides which may be argued. And that is why we now turn to the anti-fence faction which may doubtless have adopted "Don't Fence Me In" as its theme song.

There are equally good reasons for retaining the set-up as is. Of course there is always the expense to be considered. No matter how much we may tend to forget that things cost money, the purchase of a fence does require capital. Another pertinent fact to consider is that if the fence were put up, intramural softball would take a decided beating because at least three softball fields would be put out of operation.

As we see it, there are good arguments for both sides in this issue. It is difficult to tell how many fans would be in favor and how many would be sincerely opposed to fencing in the outfield. But regardless of what is done in the future, there is always one sure fact about a fence. The grass is always greener on the other side.

Milbank Travels To Philadelphia For IC4A Meet

Husky Floyd Milbank, present New England champion shot put artist, left today for Philadelphia where he will represent Maine in the 1951 IC4A track meet after coming through with his stylish showing in the New England Intercollegiate events last weekend.

Milbank, captain of the Bear cindermen, has performed in tremendous fashion for two seasons in both indoor and outdoor track as a top weightman, but he will be meeting stiff opposition in the national meet this Friday and Saturday.

Last week end, the Pale Blue forces of Coach Chester Jenkins came through to grab fifth-place honors in the New England track and field among a host of outstanding track squads. Tufts was the winner of the meet.

Milbank First

Milbank, a senior, took the only first for Maine by putting the shot 47 feet, 7½ inches to set a new meet record. Maine's Ray Cox, a sophomore, came into his own with a lusty 185 foot heave of the javelin to collect a third for the Bears. The toss was more than 10 feet further than he ever had done in previous attempts. Al Leighton was the other Pale Blue point-getter. Leighton took a third in the broad jump which was won at 22 feet, 7½ inches. The capable Maine star has performed well all season in this event.

A look at Maine's overall season indicates that the Bears were far from unsuccessful during the spring. Maine started out by walloping Boston College and then followed by edging a strong New Hampshire aggregation here at home. The dual affair with the Wildcats was Maine's only home appearance of the season.

Bears Give Up Crown

In the state meet which was held at Colby college, the Bears were forced to give up their championship crown to powerful Bowdoin after a close race for points throughout the day. Bowdoin, defending New England champions, finished third in the New England over the week end.

Big WAA Playday To Be Held May 26

The WAA annual high school playday will be held on Saturday, May 26, with the following schools taking part: Bangor, Brewer, Old Town, Orono, Hampden, and John Baptist. Plans are under the direction of Isabelle Stearns.

The tennis tournament has started and all are urged to play off their matches.

On Sunday, May 27, the old and new Women's Athletic Association Council will hold the annual picnic at Seawall. Transportation will be arranged and the cars will leave on Sunday morning. Lobster is on the menu.

Bernard "Bunny" Parady, representing Phi Mu Delta in the SRA sponsored ping pong tournament, has emerged on top in the rugged competition which attracted 40 top notch competitors.

Sailing Club Sweeps Regatta; Clement, Cahoon Crew Skippers

The University's informal Sailing Club finished off a season of competition in championship style, last week end, when the four-man crew traveled to the University of Vermont, sailed Malletts Bay off Lake Champlain against three competitors, and swept first place in the regatta.

Besides Vermont, Amherst and Holy Cross were the other competitors.

Maine moved to a quick lead in the third of eight races along the triangular course. Pushed by a 15 knot breeze, the crew never relinquished that lead and at the end of the seventh race, Maine had totaled enough points to win without competing

in the last event. The Pale Blue ran the race and Bruce Clement, for Maine, piloted his little 11-foot dinghy to victory by the widest marginal win of the day.

Maine skippers were Sumner Cahoon, president of the club, and Bruce Clement. Crewmen were Bruno Caliendo and Bob Chase.

Both Cahoon and Clement took a first apiece and three seconds.

In earlier season competition, the Maine club took a third in state series competition at Bowdoin and placed last in another meet against Bowdoin, Tufts, and Harvard.

Last year, the club won the unofficial state title at Bowdoin.

Gowen Victor; Title Play Today

By DANA WARREN

John Gowen walked onto the Augusta Country Club links Monday morning, a darkhorse in state series race for individual honors, and emerged the victor ahead of three of his Maine teammates by shooting a 156 for 36 holes.

Walt Hewins followed by four strokes with 160; Don Brown was third with 161; and Connie Bosworth was in fourth place shooting at 162. With these first four places, the Pale Blue captured the unofficial state title from the other colleges with Bates, Bowdoin, and Colby following in that order.

The squad will swing into action for the last time this season when it travels to Brunswick to defend its official State Series title against Bowdoin this afternoon.

Both Undeclared

Both teams are thus far undefeated in State Series play this year. Maine has held the State Series title for the past two seasons. Paced by John Gowen, Individual State Intercollegiate Champion, Walt Hewins, captain, Don Brown, and Connie Bosworth, the Pale Blue stand as strong competitors for the title.

George Shute and Paul Lindgren also placed well up in the individual play.

Statistic-Wise

Boiled down, the season's statistics are: Five of the six-man Maine squad placed ahead of Bowdoin's top scorers and the sixth Maine man to finish was still ahead of Bowdoin's third best, in last Monday's race.

Frosh Status Same University Says

The "freshman ruling" which is fast being incorporated into South Western, Western, and South Eastern state colleges and which allows first year students to participate in varsity athletics, has not yet come to a head at the University.

Maine's colleges and the Yankee Conference contenders have shown no signs of accepting the ruling.

The college's position was made clear by Director of Athletics Elton E. Wieman earlier this week. "A change in the freshman ruling may take place this summer if the draft situation gets any worse,"

Bears To Face Bates Twice In Season Windup

By CURT BURRELL

With only three more games to play in State Series competition the Maine varsity nine remains in close contention for the series lead.

This afternoon finds the Lude forces taking the field against Bowdoin at Brunswick. Blaine Trafton has been selected to face the Polar Bears. A Maine victory would virtually eliminate Bowdoin from the race. Colby is already out of the running as the result of its 5-3 loss to Maine last Monday.

The outcome of the State Series seems certain to hinge on two games that the Pale Blue has with Bates. Forced to postpone the scheduled game with the Bobcats last week because of rain, the Bear's diamond nine meet the Bobcats for the first time this season here tomorrow afternoon. Coach Lude has indicated that his ace right-hander Marty Dow, who pitched a six-hit victory over Colby Monday, may get second starting assignment this week.

Season Windup

Monday the Maine varsity winds up the season against this same Bates nine at Lewiston. Originally slated for Saturday the game has been pushed ahead two days because of a conflict with national examinations. A double victory over the Garnet would clinch first position for the Blue.

Last Monday at Waterville the Pale Blue took the measure of the Colby Mule for the second time. Workhorse Dow, pitching six-hit ball, led his teammates at the plate with a pair of well-timed hits. Centerfielder Al Hackett continued his extra base hitting spree by banging a double to aid the Blue cause.

It was this same Hackett who led the 13-hit attack against Northeastern, last Saturday, as the Blue smashed out a decisive 14-4 win. Taking a cue from the weather, the Maine bats really made it hot for a quartet of Husky pitchers.

Two Round-Trippers

Carl Wight and Shimmy Chamard both blasted out round-trippers. Hackett drove in three runs with three hits, one a triple. Coach Lude sent 18 men into the one-sided affair.

Within The Walls

By HUGH LORD

Intramurals are fast moving to a close with June graduation within hailing distance. The final round of action is producing some hot and heavy competition along with the confused race for the Benjamin C. Kent trophy.

Phi Gam finished the volley ball season with the impression that they were but a scant few points behind Phi Eta. The discovery of an ineligible player on the Phi Gam squad now has that fraternity swaying about 100 points either way.

With Phi Eta moving into the finals in the tennis play-offs this week, it looks as if they might capture this year's trophy, pending action on Phi Gam.

Monday night, Phi Gam downed ATO, 7-2, in a good ball game. The "game of the year" was played between Phi Mu and SAE, however. Phi Mu's Jim McDonald and SAE's Ray McKay hooked up in a vice-like pitching duel for seven big innings of regular play without either team scoring. In the top of the eighth, SAE pushed across two runs, but Phi Mu loaded the bases in their half of the inning with nobody out and jammed across two runs on McDonald's line smash to center, and Reggie Hall's drive to right forcing in "tiger" Dineen for the winning tally.

South Apartments downed the Trailers 8-1 to go into the finals against North Dorm 5 who got by North Dorm 11 in the dorm division.

Ruby Newman Orchestra Hired To Play For Commencement Ball

The orchestra of Ruby Newman, remembered here for its fine performance at the 1950 Beaux Arts Ball, will play for this year's Commencement Ball.

Tom Chellis and Fred Schoch, co-chairmen for the dance, have announced that the formal affair is to

until 1 a.m.

This year will mark the second time that the Commencement Ball has been held in the Library. Last year the orchestra was centrally located on the second floor, with the music carried throughout the rooms and outside by means of a public address system.

Committee workers for the dance include: Wendell Joy, Jo Josslyn, and Phil Lord, decorations; Dorrine McMahon and Joan Mayo, tickets; Nancy Whiting and Barbara Grover, chaperons; Jim Elliott and Gene Gammon, refreshments; Bill Kennison, band.

Photo Club To Exhibit

The U. of M. Photo Club has announced that it will sponsor a photographic exhibit here next December.

Four classes for exhibit have been arranged: general; landscapes, State of Maine; campus scenes, University of Maine; and student activities, University of Maine.

For general hanging, the prints should be 5x7 or larger on 16x20 mounts. be held Friday night, June 15, in the Library. Dancing will be from 9 p.m.

Dr. King Resigns; Goes To Vermont

Dr. Thomas C. King, associate professor of education at the University, has resigned his position to accept a new job as dean of the College of Education and Nursing at the University of Vermont.

Dr. King, who has been a member of the faculty at Maine since 1948, will assume his new duties at Vermont on August 1.

Born in Seneca, Kansas, Dr. King received his experience in education in the Kansas schools before coming to the U. of M. He was a member of the faculty at Bethany College, Lindsborg, Kansas.

Radio Guild To Present Historical Play

"Mary, Queen of Scots" will be presented by the Radio Guild tomorrow night at 10:45 over station WABI. The script deals with the well-known abdication of Mary in favor of her son.

Carol Prentiss is directing the program, assisted by George Sherman. Hal Thomas is in charge of the music. The cast includes Hank Berry, Ruth Wood, Constance Zoschka, Virginia Foley, Michael Boyd, Herbert Wing.
