FRESH RIFLEMEN CONQUER BANGOR

Take Match From Queen City Boys For First Time In History of Team

---

Breaking a winning streak that they have never before been able to overcome, the freshman rifle team defeated the Bangor High team in a shoulder to shoulder match fired in Bangor Saturday afternoon. Ten men fired for each school in three positions, prone, standing, and kneeling, to make the total score 2402-2306. The men who represented the frosh were: Capt. Ludden, Ken Jones, Harry Crowley, George Hodson, Dick Lull, Charles Small, Leslie Young, Phil Parsons, Norma Gray, and Bob Leadbetter.

FRESH AND FACULTY MIX AT TECH. SMOKER

Last Wednesday evening the freshmen technologists were again entertained at a smoker given by the engineering department of the university. Many members of the faculty were present, and they all dropped their dignity for the evening to mingle with the students. Dean Cloke presented several interesting physics experiments.

PRESQUE ISLE WINS MAINE TOURNAMENT

Presque Isle emerged victorious from the finals of the annual basketball tournament by defeating the Bangor quintet by 15-13 here last Saturday. Cony, Calais, Orono, and Gilman were eliminated in the first day's play, while Presque Isle defeated Caribou, and Bangor whipped Houlton in the semi finals.
A NEW SCHEME IS NEEDED

Why does a freshman never possess individuality? He arrives at college, bewildered at the confusion and hurry of new surroundings. Immediately he is pushed into a mold with a few hundred other newcomers, and told to act like a freshman. Naturally, he does.

In spite of his repression, he often receives much help from upperclassmen; but is this kindness, which is of a condescending and mollycoddling nature, helpful? He does not need to be mollycoddled. On the contrary, he should be shown his individual responsibility in upholding the standards of scholarship and character in the school which he has chosen for his own.

First impressions often are lasting ones, and at this stage of his career a student's devotion to his school may be stimulated or it may be killed. We should, to the best of our ability, preserve this spirit of loyalty in an attempt to increase the morale of our school. This could be accomplished by taking students at "face value" instead of classifying them according to the number of years spent at college.

The present scheme is out of date, the new scheme is still untried. Why not be among the first colleges to give this new scheme a trial?

We feel that the University has a right to pride itself on the splendid spirit of cooperation shown by the students at the A T O fire last week. A true sense of interfraternity friendship was shown by all concerned.

W. L. V.

Classmates:
The next class social function is the class banquet. The time is April tenth. The place is the Langor Auditorium. The guests are the ladies and gentlemen of the class of 1934 and their respected chaperones.

Now classmates, draw up your chairs, we must get together and make this banquet the best ever. The class functions up to date have been a success. As an organization we have functioned smoothly. SHALL WE STOP NOW? NO! In the past freshman class banquets have been a black mark in the records of their respective classes. We pride ourselves by the fact that we are a DIFFERENT class. We have made ourselves believe it, now let us prove to the college that we are DIFFERENT, and make this banquet an honor to the class and our college.

How? I need not tell you how. We are all men and women and prefer to do our own thinking. Here's our chance. If we think and do wrong individually or as a class we are apt to find the sophomore hop and even other future class functions taken away from us.

This matter is serious, classmates. Think it over! Give the class and the banquet committee your hearty cooperation. We shall profit by it.

Thank you,

STAN Searles

In answer to our contributor who sent us the editorial on "Cheating" last week, let us say that we agree. There is something wrong with the present examination system. However, it will take careful study to correct it.
**CALENDAR**

**TUESDAY, MARCH 17**
St. Patrick’s Day!!
Debate, Maine vs. Oklahoma in the chapel. 7:30

**WEDNESDAY, MARCH 18**
General Lecture on pulp and paper chemistry by Prof. Paul Bray, 4:15 in 301 Aubert.
Open to public.

**FRIDAY, MARCH 20**
Spring vacation begins at 5:05 P.M. Have a good time!

---

**FRESHETTE CHOSEN YWCA SECRETARY**

Alice Dyer ’34 was recently elected secretary of the Y.W.C.A. for the coming year. The other officers elected are: President Hildreth Montgomery, vice-president, Grace Carrington; and treasurer Margaret Davis.

**LIBERAL CLUB IS ORGANIZED HERE**

A club, which has as its purpose, the discussion of questions of present day importance, was formed in the M.C.A. Building Friday under the supervision of Check Ramsey and Prof. A. A. Whitmore. The club is to have no officers or roll of membership. Each person present at a meeting is considered a member of the club for that meeting. A chairman will be appointed for each meeting, whose duty it will be to introduce the subject.

---

**MAINE TENNIS CLUB WILL PUT OUT TEAMS**

Group Accepts Constitution At It’s Second Meeting. Want More Freshmen in Club

The second meeting of the newly formed University of Maine Tennis Club was held last Tuesday night. A constitution was drawn up by the committee. It was accepted with a few small changes. The club decided to do nothing further until after the spring recess. The next meeting will be held April 7 at 7 P.M. in the M.C.A. building.

In general, the club intends to do for tennis at the university what the Outing Club is doing for winter sports. They plan to send teams to compete with the other colleges and will sponsor a spring doubles tournament open only to members of the club.

Several freshmen have been present at the meetings, but the club hopes that more will come out in the future.

**DEBATE TEAM TO MEET OKLAHOMA**

Tomorrow night at 7:30 the University of Maine debating team will meet the University of Oklahoma team on the topic “Resolved: That the 18th Amendment should be repealed.” Kenneth Foster, a member of the Class of 1934, will be one of the speakers for Maine, the other being John Gehring. The Maine team is upholding the affirmative side of the question.

Tonight the same team will try to outargue the New York University team on the same question in the chapel.
The following series of lectures will be delivered during the fifth period on Thursdays in 208 Aubert. Freshmen and any other persons are welcome to attend them.

On April 2 H. G. Lumbard, president of the H. G. Lumbard Shoe Company, will speak on "The New England Council's Research Tour". This lecture is tentative, as it is not as yet certain that Mr. Lumbard will be able to come.

On April 9 Ovid S. Esbach, special assistant in the personnel Department of the A. T. & T., will lecture on "Some Examples of Applied Technology".

On April 16 the speaker will be M. S. Blake of the National Fire Protection Association.

On April 23 E. L. Manning of the General Electric Co. will speak on "Industrial Applications of Vacuum Tubes".

On April 30 Prof. J. H. Huddleston of the faculty will discuss "Landscape Architecture and City Planning".

The speaker on May 7 is to be E. W. St. Clair of the Standardising Laboratory of the General Electric Company.

The topic, "Human Side of Engineering" will be taken up by Walter Voss of the Department of Civil Engineering of M. I. T.

DEAN BEAN SPEAKS AT Y MEETING

"Spirituality as exemplified in Green Pastures" was the topic presented by Dean Bean at the Y. W. C. A. meeting held at Mt. Vernon Monday evening.
