## 19th Annual Maine Day Set For May 12

Ready to give the campus a real show during the mayoralty campaign are these four hopeful contestants for the position of "hizonner." Kelley Elliot, Sam "Big Chief" Birch, and "Capt." Ed Plissey sit patiently as Dan Stevens "winds up" to get things rolling in the annual contest.

Photo by Johnson

### President Hauck Hopes This Year's Maine Day To Be University's Best

"Let us make this Maine Day a real highlight in the history of the University," said President Hauck who hopes that this year's Maine Day, scheduled for next Wednesday, will be the best yet.

"The spirit of Maine Day, with all the fun that goes with it, is the spirit of constructive accomplishment," he went on. "In a university, as in all enduring and worthwhile enterprises, the work of building, mending, and improving must go on year after year. As you participate in this day of useful work and recreation, I hope you will feel that this annual occasion has greater significance than just the carrying out of a program of activities. You are really helping to build a better and stronger University," Hauck continued.

Tuesday evening at 8:15 in Memorial Gym the fraternity men will take over as they compete against one another for the Interfraternity Sing championship. The competition is usually keen among the fraternities with very enjoyable singing the net result.

Bright and early Wednesday morning the University band will march through the campus streets to wake up students for exchange breakfasts at 6:30. At 8 a.m. the new mayor will be announced on the library steps and everyone will leave from there for the projects.

Off-campus students have been requested to report for work on project 5, landscaping the Union Building, according to the Maine Day work projects committee.

After lunch, the float parade, centered around the theme of Maine Products, will commence at 1:30 p.m. Over 20 floats will be entered in the parade, representing many Maine products including lobsters, potatoes, lumber, and sardines.

Judging the floats from the library steps will be President Hauck, Professor Gerald Grady, Mrs. Joanne Springer Perry, Professor Richard Saunders, and Professor Vincent Hartgen. "The parade will be held rain or shine," according to Adolph "Dutch" Storey, chairman of the event.

State Series baseball game will be on tap at 3:30 p.m. when Maine's varsity nine goes after the scalp of Bates College.

The Student-Faculty skit will be staged at 8 p.m. in Memorial Gym, and a good old fashioned time is guaranteed to everyone. Students will laugh at the faculty and vice versa.

### Campaigns In High Gear; Elections Due Tuesday

The campaigns are on.

Candidates for various campus positions have been announced as final pre-election preparations are made.

General campus elections will be held Tuesday, May 11, on the Mall. In case of rain, they will be held in the Memorial Union Building. Polls will be open from 8 a.m. to 5 p.m. the elections committee has announced. Identification cards will be required in order to vote.

The slates are as follows:

**General Student Senate:** President, Dana Baggett, Charles Hussey and Harold Silverman; vice president, John Baker, David Foster, Barney Oldfield and Jerry Pangakis; secretary, Elizabeth Harvey, Caroline Locke, and Nancy Witham; treasurer, Elva Brackett, Priscilla Ridley and Patricia Wade.

**Women's Student Government Association:** president, Cynthia Nelson and Mary Atkinson; vice president, Gwenyth Bryant and Evelyn Whitney; secretary, Frances Roderick and Lois Blanchard; treasurer, Suzanne Bogert and Susan Ashton.

**Maine Athletic Association:** president, Donald Arnold, Llewellyn Clark, C. Dexter Earley and Thomas Golden; senior representative, William Calkin, Charles Otterstedt, Ernest Smart and Kenneth Woodsum; junior representative, Don E. Douglass, Charles Folsom, Eugene Scribner and John Small; sophomore representative, Thurlow Cooper, William Green and Robert Jones.

#### LIBRARY HOURS

The University Library will be closed all day Maine Day, May 12. The Library will be open on Tuesday, May 11, from 7:30 a.m. to 5 p.m.

**Women's Athletic Association:** president, Janet Bishop and Muriel Verrill; vice president, Anita Ramsdell and Jane Wiseman; secretary, Jane Barker and Myra Goldman; treasurer, Mary Litchfield and Patricia Sweeney.

**Student Religious Association:** president, Sondra Glorsky, Owen Gormley and Clayton Sinclair; vice president, Richard Alper, Diane Liv-

(Continued on Page Two)

### Fraternities To Sing In Gym Tuesday

Thirteen fraternities, singing such songs as "Down by the Riverside" and "Heart of My Heart," will compete in the tenth annual Interfraternity Sing at Memorial Gymnasium Tuesday, May 11, starting at 7:30 p.m.

Each fraternity will sing two songs, according to Chairman Abbott Mosher. Master of ceremonies will be Winship Moody while judges are Pres. Arthur A. Hauck, Dean John E. Stewart, James A. Harmon, Wendal Eaton, Anna Crouse and Ellen Blodgett.

Included among the entries are Alpha Gamma Rho, Beta Theta Pi, Lambda Chi Alpha, Delta Tau Delta, Phi Gamma Delta, Phi Kappa Sigma, Sigma Chi, Sigma Phi Epsilon, Tau Epsilon Phi, Tau Kappa Epsilon and Theta Chi, which won the title last year.

The fraternity winning the contest will be awarded a new trophy presented by Col. Joseph A. McCusker '17.

### 4 Candidates Run For Mayor

The Mayor's Rally will be held Monday night, May 10, at 7:30 in the Memorial Gym.

Four candidates began energetic campaigns this week to seek election as campus Mayor.

Herb "Sam-Sam" Birch, "Capt." Ed Plissey, Dan Stevens, and Kelley Elliott began their campaigns Tuesday morning with colorful posters arranged in strategic spots about campus.

The platforms of the candidates are as follows:

"Chief Sam-Sam" Birch, a junior, is striving for a united campus. His purpose is to unite the tribes of the campus community, such as the fraternities, dormitories, and off-campus

(Continued on Page Nine)

### Masque Does Excellent Job, Reviewer Says Conditionally

By JOE RIGO

An entertaining play very well done, is a thumbnail summary of the current Masque offering, "Caesar and Cleopatra."

Probably the best Masque production this year, it continues its four day run at the Little Theatre tonight, Friday and Saturday.

Outstanding in the show are Phil Nectow's characterization of Caesar and Ray Storey's set designs.

There is scarcely a moment where Nectow's portrayal slips below the excellent mark.

And, as usual, Storey seems to get more than maximum effectiveness in his use of the relatively small stage.

Perhaps the most impressive of Storey's nine sets is with the Sphinx in the first act. His model, aided by very good low key lighting supervised by Pete Baker, puts across the great impressiveness and majesty of the Egyptian marvel.

Gail Lyon's portrayal of Cleopatra, while very good, is hurt by some unevenness in the first half of the play.

As Cleopatra develops from a weak childish titular queen to a more mature and, at times, ruthless ruler, Miss Lyons seems to get more of a grip on her part, raising it to a high quality.

From the start, the play dispels any preconceived ideas that it is going to be difficult to understand and enjoy.

People scared by the high level tone of the name, "Caesar and Cleopatra" by George Bernard Shaw, find they have nothing to worry about.

The play is strictly 20th century as written by a man with intimate knowledge of the near present day theatre.

Along with Nectow and Miss Lyons, top cast credits go to Mark Cohen in the role of Caesar's chief aide and Beth Bedker as Ftateeta (even Caesar couldn't pronounce it), the dominating chief nurse to Cleopatra.

Roger Bowman is another rating high honors, as are Nick Carter and Art Westerberger.

Good in supporting roles are Stan Milton, Norman Touchette, Paul Royte, Howard Danner, Paul Wyman.

(Continued on Page Three)

Quietly and without ceremony, ground was broken for the new men's dormitory early this week. Here a power shovel begins excavation for the basement of the \$800,000 building. Story on page 6.

Photo by Johnson

Candidates for president of the General Student Senate are shown above. Left to right they are: Dana Baggett, Charles Hussey and Harold "Sam" Silverman. Elections will be held Tuesday, May 11, on the Mall. Photo by Johnson

Vice presidential candidates for the Student Senate are: back row, John Buker and David Foster; front row, Jerry Pangakis and Robert "Barney" Oldfield. Photo by Clark

### Trio of Candidates Vie For Presidency

Running for president of the General Student Senate for 1954-55 are Dana Baggett, Charles Hussey and Harold "Sam" Silverman.

All in the class of 1955, the candidates have each served at least one term in the Senate.

Candidates' statements on Page Four in Letter Column.

Dana Baggett, a dean's list student, is majoring in public management. He has served as vice president, social chairman, and pledge trainer of his fraternity, Sigma Phi Epsilon. He is president of the Maine Debate Council, a member of the varsity debate team, the band and Pi Kappa Delta, honorary speech society. He

is a proctor in Oak Hall.

Charles Hussey served as vice president of the Senate this year. He is the student chairman of the Senate Social Affairs Committee. He served as chairman of the elections committee last year and was a member of the nominations committee as a freshman. He is president of Sigma Chi fraternity, and was vice president last year.

He is a representative on the Interfraternity Council and is on the Union Governing and Activities Boards. Other activities have been Sophomore Owls, treasurer of Maine Christian Association, freshman football, wrestling, Memorial Union Building Com-

ington and Harriet Taylor; secretary, Judith Barker, Mary Bigelow and Elizabeth Rand; treasurer, John McGregor and Lewis Janicola.

Campus Mayor: Herb Birch, Ed Plissey, Dan Stevens and Kelley Elliott.

mittee, Prism, Campus, Masque, co-chairman of freshman club.

Harold Silverman is a psychology major. A Senate representative, he served on the High School Week End Committee. He is a member of the band, and played freshman basketball and tennis.

### Sophs Compete For Vice President

Four sophomore men; John Buker, David Foster, Robert Oldfield and Jerry Pangakis; are competing for the Senate vice presidency.

David Foster, a dairy husbandry major, is Senate representative from Phi Kappa Sigma. He was chairman of the Bates Convention, played freshman baseball and intramural volleyball and basketball, served on the Calico Ball Committee and is chairman of the Senate Calendar Committee.

Foster is a member of the Young Republican's Club, the Aggie Club and the Maine Outing Club.

Robert "Barney" Oldfield is president of the Sophomore Owls. A Senate representative both his freshman and sophomore years, he was also president of the Freshman Class

last year. He has played football both of his years at the University. At present he is on the Senate Nominations Committee and the Social Affairs Committee and, for the second year, is on the Mayoralty Committee.

Oldfield attended the All Maine College Conference at Colby in 1953, the Regional National Student Association Conference at Newton, Mass., and the NSA Conference at Wellesley, Mass.

Jerry Pangakis, a dean's list student, is on the Sophomore Class Executive Council. As a Senate representative for the past two years, he has served on the Winter Carnival Committee and the Senate Nominations Committee.

John Buker is a sophomore majoring in physical education. He is the Senate representative from the Cabins and South Apartments, and has served on the Good Will board of governors and also the Veterans' Affairs Committee.

Last year Buker was president of North Dorms Council and a representative to the Central Dorm Council.

Want lower golf scores consistently?

ASK ANY GOLFER WHO OWNS A SET OF SYNCHRO-DYNED CLUBS!

Hundreds of unsolicited testimonials from amateur golfers tell the same story on Spalding Synchro-Dyned woods and irons — golf's more fun now and a lower-scoring game, too!

You'll see why the first time you play these advance-design clubs. Your shots are easier to control, your swing is freer, your timing more uniform — because every wood, every iron has the identical contact feel!

Have your Spalding dealer fit you now.

1st Lt. Thomas F. Bommarito and Aviation Cadet Selection Team No. 64 are coming to U. of M. to show you how. They'll be here in 13 days. Meet them at The Union Bldg. during their stay.

In the running for Senate secretary are these three sophomore women. They are, left to right, Caroline Locke, Elizabeth "Betsy" Harvey and Nancy Witham. All have served at least one term on the Senate.

### Senate Secretary Has 3 Candidates

There are three candidates for Senate secretary. All sophomores and all women, they are Elizabeth Harvey, Caroline Locke and Nancy Witham.

Elizabeth "Betsy" Harvey, a sociology major, is the Senate representative from Colvin Hall. She is a member of the band, the Senate New Organizations Committee, the Maine Day Committee, Maine Christian Association, and Colvin House Council. She belongs to Alpha Omicron Pi sorority. She served on the freshman handbook committee.

Caroline Locke served on the Senate this year as a representative from The Elms. She is on the Senate Public Relations Committee. The secretary of the sophomore class, she was a student advisor to this year's Freshman Club. She was also on her Freshman Club executive council. President of the Elms Annex last year, she served on the Women's Student Government. She is a mem-

### Masque Does Good In 'Caesar'

(Continued from Page One)

Richard Fewer, Charles Norburg, and virtually the entire cast of 50, too numerous to mention here.

Special credit goes to 10-year-old Ashley Campbell, Jr., in the role of King Ptolemy, Cleopatra's brother

ber of the Student Religious Association executive council and is on its nominating committee. She is majoring in romance languages.

Nancy Witham is a sociology major. She is the present treasurer of the Senate. She is president of the Sophomore Eagles, treasurer of Chi Omega sorority, and a representative to the Women's Athletic Association. She is on the Maine Day Committee. As a freshman, she served as secretary of her class. She was also social chairman of West Chadbourne last year.

and therefore, by Egyptian tradition, husband. Campbell not only showed a remarkable ability for remembering his lines but also an ability for acting them.

Technical credits for costuming, sound, lighting, etc., are very good.

The plot deals with Caesar's troubles with Cleopatra and the Egyptian rulers during his invasion of their country.

Caesar finds Cleopatra a childish girl, dominated by her nurse, Flata-teeta. However, under the influence of the dynamic and brilliant Caesar with whom she has a sort of love affair that never gets very far, she develops into a mature and stronger leader.

This is reportedly the most ambitious production Prof. Herschel Bricker has staged in ten years.

In any case, it is one he can be proud of.

### First Class Rating For 'Maine Campus'

The Maine Campus has received a "First Class" rating in a national critical service recently completed by the Associated Collegiate Press.

The rating is based on the first semester, school year 1953-54. The Campus was entered in the level of schools having an enrollment of 4000-2001 and having a weekly paper.

The critical service places all entries into four final-rating classes: All-American, First Class, Second Class and Third Class.

The Campus received the following

grades in its departments: news sources, good; treatment of copy, good; vitality, excellent; creativeness, good; news stories, excellent; style, excellent; leads, excellent; editorials, good; editorial page features, excellent; sports coverage, superior; front page makeup, very good; headlines, excellent; printing, very good.

Listen to WORO, your campus radio station, run for and by, the students of the University of Maine.

### Wherever You Go In Engineering you'll find LUFKIN

#### Measuring Tapes

In every industry engineers need specialized measuring equipment—that is why Lufkin, world-wide specialist in measuring devices, makes nearly 8,000 different tapes, rules, and precision tools.

In highway, railroad, oil, mining, surveying, forestry, and construction work, engineers specify Lufkin "Chrome Clad" steel measuring tapes to get the most on-the-job durability. In swamp, brush, desert, gravel pits, and wherever a tough dependable tape is an absolute must, Lufkin "Michigan" babbitt metal chain tapes are preferred. City engineers and construction engineers use the Lufkin "Wolverine." The line in the Lufkin "Western" is the same weight as chain tapes, but subdivided throughout, making it ideal for heavy field work. Lufkin "Lucas" mine tapes resist rust and corrosion. In the oil fields "Chrome Clad" tapes are standard as they withstand hard use, fumes, and corrosion—they are used for gaging, tank strapping, and measuring standing casing.

When you go out on the job specify Lufkin measuring tapes—you will find one for your every measuring need. Send today for your free catalog.

### Maine Air National Guard INTERESTED IN JETS?

This van is coming to the Maine Campus on 10 and 11 May.

The Maine Air National Guard Jet Fighter Squadron offers you:

- 1—A Second Lieutenants Commission.
- 2—Fulfillment of your Military Obligation with your friends.
- 3—G.I. Bill Benefits.
- 4—Pilot or Observer Wings.
- 5—\$760.00 per year for approximately 12 hours of your time per month.

Upon completion of the Cadet program (16 months) you return immediately to civilian life. This program is primarily designed for those of you who do not plan to make the service your career.

Get the facts—drop into our van anytime on 10-11 May for full particulars.

## Editorials

## Meet The People

We can picture the scene next Tuesday now.

Several students voting in spring elections go up to the desk, get their ballots, blink their eyes, fill in some X's after some of the candidates they like most or dislike least, then close their eyes and fill in the rest of the slips of paper.

Asked later who they voted for in some cases, most of them won't even be able to make a decent guess.

In short—many people just don't know anything about some of the candidates, or even who they are.

The most popular way of advertising candidacy for office is through a multitude of multi-colored posters. The trouble with this is that after seeing a certain number of the things the average person stops noticing them—colors and all.

To help ease the lack of information situation, *The Campus*, WORO and in the case of the mayor, a rally, aid in publicizing office-seekers.

The most successful of all these methods, judging from student enthusiasm, is the mayor's rally.

It was suggested last fall that class officer candidates be given assembly time to state their platforms. This plan was not worked out, though.

However, the candidates themselves could do a lot to "educate" the voter by getting together for rallies similar to those for mayor, though, perhaps, on a higher level.

Arrangements could be made for one big evening rally with some non-partisan entertainment between speeches.

## Ideas On Maine Day

Recently, Maine Day has had some rough going.

Largely because of unrelenting rain each year on that day, participation has been low at times.

This year we have been guaranteed good weather by the *Campus* weather expert (who prefers to remain anonymous).

Furthermore, the band is determined to ruin any attempts to sleep late with its early morning parade around campus.

So why not get out Maine Day and be of some value in the day's work.

Ask those who have worked previous Maine Days, rain and all. They actually liked it, and, for the most part, are signed up again this year.

Also, with the unemployment situation in the United States the way it is now, the experience with a shovel or hedge clippers may come in handy in a couple of years.

## Voters Back Elections

One thing students generally get behind (aside from class assignments) is spring elections.

The vote at this time is usually quite heavy in relation to the average participation in such things. Probably the main reason for this is the variety of officers to be voted on. From Mayor to Senate President, a high percentage of students mark their X's for their favorite candidates.

And this is as it should be. For the people we choose at these elections are those we criticize, one way or another, for the next year.

It's only reasonable that we keep the percentage voting high and at least continue to earn the right to criticize.

## Correspondence

## McCarthy Did Plenty! Plenty Of What?

To the Editor:

There have been many attempts to defend the actions of Senator McCarthy. For the most part, these have been gallant, though pathetic, attempts to do the impossible task of logically justifying his fanatical methods.

Last week, the *Campus* carried a letter defending McCarthy written by Gerald Lewis, a sophomore here....

...Lewis tells us that as a result of investigations into subversion in the defense effort, several employees of the Department of the Army "were dismissed."

Yes, they were dismissed but, as

usual, with nothing proven. Lewis makes the same mistake as most defenders of McCarthyism in that he thinks the question "What has McCarthy done?" is asking for a list of activities as if someone was to ask "What has Willie Sutton done?"

I wish to assure Mr. Lewis and all McCarthyists that such a question is asking for things that have been beneficial to our country.

I would like to quote a statement by Bishop Bernard J. Sheil when he said, "If anti-Communism flouts the principles of democracy and freedom, it is not in the long run effective. You can not effectively fight tyranny with

tyranny. One of the noisiest anti-Communists of recent history was a man named Adolph Hitler. He was not wrong because he was anti-Communist. He was wrong because he was immorally anti-Communist, and inevitably he was a dismal failure.

"Are we any safer... because General Marshall was branded a traitor? No, we aren't. But we are a little less honorable."

You remember Marshall was so accused by McCarthy and his followers because of actions and opinions that turned out to be wrong. Honest mistakes were branded as deliberate treachery.

I want to emphasize that McCarthy does not accuse anyone of anything without the protection offered him by constitution in the form of Senatorial immunity. He has refused to shed this immunity to make any accusations. This would leave him open to slander suits at which he would have to back up his words with evidence, which he knows is impossible. Even in public speeches when talking about accusations he drags in his immunity by quoting statements made on the Senate floor, thus carrying over his immunity.

Can anyone answer the question: "What has McCarthy done which can be proven to be beneficial to the United States?"

JAMES P. MOORE

## Senate President Candidates Speak On Election Issues

In covering the student elections, *The Campus* asked each candidate for Senate president to draft a statement of approximately 50 words to be used in this week's paper.

(Story on page 2.)

Following are the statements.

DANA BAGGETT: "I am not running for office to add to a long list of 'accomplishments.' I believe quality, not quantity, is desirable; therefore, my college activities have been selectively limited. Pertinent business only must occupy the Senate's attention.

"Effective public relations and student participation must be developed. To these and other meaningful ends I will devote myself if elected."

CHARLES HUSSEY: "I feel the General Student Senate should be the promoter and stimulator of all extra-curricular activities on campus with the chief function of the officers being their constant awareness of student thinking and the reflection of such in the administration and coordination of committee activities.

"As such, the General Student Senate should be in constant vigilance of program possibilities and student opinion, making use of interested personnel as the chief criterion for effectuating a well-organized program to represent and serve the whole student community."

HAROLD SILVERMAN: "I feel the greatest duty of the next year's Senate president is to organize a more active Senate through more student participation. If elected, I hope to accomplish this by approaching the students personally to find out and represent their opinions on matters concerning the Senate.

"I feel that a great deal can be accomplished to attract student attention if the president of the Senate reports over the campus radio station and newspaper to present arguments on both sides of important controversies on the Senate floor. With these points in mind I am sure the popularity of the Senate can be improved."

In addition to the above candidates, a petition is now being circulated to nominate Winship (Chip) Moody for the Senate presidency. However, this became known to the *Campus* too near press time for a statement by Moody to be included.

## LITTLE MAN ON CAMPUS

by Dick Bibler

Try to forget for a moment that I'm a professor, and let's talk over your problem man to man.

## Kneeland Prey

## Communism—Our Big Threat

BY ASHER KNEELAND

(This Kneeland Prey column was handed in two weeks ago, a day before the letter that filled this space last week arrived. Ed.)

Listening to the radio broadcast of the Army-McCarthy hearings, I realized that such sideshows block many people's view of the danger of Communism.

Communism is our greatest danger externally and, to some extent, internally. Externally the fears and ambitions of Russia, Red China and the other satellites are the biggest threat to world security.

The U. S. should also keep an eye on colonialism, distrust of the U. S. by Europe and the plans of other totalitarian nations such as Spain and Argentina.

While watching the sideshow in Washington, we must not forget the danger in Indo-China, in all the East and in Europe.

While we're considering external danger, we should not forget that only Russia has satellites. The U. S. has allies. We can not tell them how to vote, trade or when to go to war.

Let's keep the internal danger from Communism in mind, too—even while watching the latest McCarthy show.

There are 25,000 Reds in the U. S., the Attorney General tells us. The President and he said recently that the FBI and kindred agencies can, have been, and will handle security

measures well.

As far as national security is concerned, the best thing that Joe Doaks's, like you and I, can do seems to be to keep our lips zipped if we know any security secrets and report all really suspicious acts to the nearest FBI office.

Where we can really fight Communists is to keep Reds from getting control of labor groups, civil rights organizations and humanitarian groups.

Just as we would keep the extreme right, reactionaries, white supremacy hacks, fascists, from taking control of business groups, nationalist organizations and civic organizations.

I think the Communist party should not be outlawed—in the open Reds look foolish.

Both sides in the McCarthy row need to improve themselves. The ones backing McCarthy should grow up enough to learn that people can oppose them and their "savior" without being pro-Communist. These McCarthy followers ought to remember that calling those who disagree "traitors" is a Communist trick.

And those on the other side (as I am) should remember that even while fighting what they consider a home-grown totalitarian-minded demagogue, they still must fight totalitarian Communism. They must not ignore the great danger of Communism externally, or the smaller internal danger.

## Opinionettes

By MARTHA BOUSFIELD  
and WAYNE JOHNSON

Question: Do you think that the instructor evaluation questionnaire is a good idea?

Mingie McCann, '57—It would promote better relations, as the instructors could be more understanding, and the students would feel they had something to say about the matter.

Sylvia Grant, '57—If the students use it wisely, it can be profitable for students and instructors alike.

Cyn Nelson, '55—If both groups take it seriously, it can be valuable to keep the instructor on his toes. If it's abused, it's no good.

Ruth Bartlett, '54—If the kids don't have a gripe session, it would be a good idea.

## Hydrogen In Experiments At Maine, Too, As Masque Tries Balloons

To: The Maine Campus  
From: N. Carter, Masque Publicity Committee

Re: The Disappearing Balloons  
1. Large 13 foot balloon ordered for use as publicity stunt for Maine Masque play Caesar and Cleopatra.

2. Prof. Robert Dunlap, Chemistry Department, informed Paul Royte, publicity chairman of Masque, that such balloon would hold 50 pounds of posters. Balloon ordered from war surplus firm in California.

3. To get permission to put

balloon up it was necessary to call Dow Airfield, which then referred Royte to Old Town Airport. It was then found balloon could not be put up because of technical difficulties.

4. Royte talked with man from CAA and found that special waver had to be put up if structure put over six feet high within five miles of an airport — also escape valves and lights for night.

5. Application in triplicate sent to Civil Aeronautics Bureau in Portland. Answer: if balloon were put up under one hundred feet and taken down at night, no waver needed.

6. Hydrogen for balloon ordered from Portland.

7. Balloon didn't arrive. So Royte obtained 17 small ones.

8. Wednesday afternoon, with aid of representative from Chemistry Department, balloons were filled, using special clamps.

9. One balloon got loose, was last seen heading south over the Administration Building, rapidly gaining altitude.

10. Two more got loose, but

Royte clambered to top of scaffold by the building, and pulled them down with a pole.

11. Ray Storey lettered balloons, Caesar and Cleopatra. They were then strung up across Mall. They were gone next morning.

12. Four seen flying from roof of Corbett Hall. Royte had pretty good idea what happened to rest.

13. Royte's spirits re-boosted when large balloon arrived.

14. Before seven o'clock Monday morning Royte, Nick Carter and Pat Kearney, who was to letter the balloon, were out ready to put it up.

15. Hydrogen ran out when balloon almost full. Small leak then broke out at top of balloon.

16. Carter took off for some tape to plug leak. Shortly after, a rather weak pop heard. Hydrogen then took off.

17. Remains of balloon settled to ground.

18. As conclusion to his hydrogen experiments at the University, Royte had some final words to say, but The Campus is unable to print them here.

## Case of the dry "oil" well

Not at all unusual, you say? But this well was purposely drilled that way! In fact, precautions were taken to see that the well wouldn't contact oil-bearing sands. It was to be a vital part of an elaborate waste-disposal system built into one of Du Pont's new plants near Victoria, Texas. It is an example of the unusual engineering problems which Du Pont technical men encounter.

The "well" itself is almost a mile deep—4900 feet, to be exact. Waste fluids from the plant are forced down this well, to be absorbed by non-oil-bearing sands—far below the level of any surface water. Piping near ground level is in the form of concentric shells, and fresh water is delivered to the annular opening around the waste pipe. Furthermore, the water pressure is higher than that of the fluids in the

waste section. In this way, any leakage in the pipe system causes fresh water to enter the surrounding sands (or the inside waste system) and prevents objectionable materials from reaching the sands at surface levels.

Other interesting procedures are used throughout Du Pont's many plants to guard against river pollution. For example, scientists were asked to make a complete marine-life census on one river before a plant was built nearby. The company wanted to be certain that no waste would be discharged which would challenge the natural pattern of marine life.

Throughout the Du Pont Company, wherever there is a need for the services of technical men, there are varied and interesting problems that present a challenge to engineering skill and imagination.

Now available for student ASME chapters and other college groups, a 16-mm. sound color movie—"Mechanical Engineering at Du Pont." For further information, send post card to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Bldg., Wilmington 98, Delaware.

## Ground Broken For \$800,000 Dorm

Ground work was started early last week for the University's new \$800,000 men's dormitory which will house 250 students.

According to William C. Wells, manager of dormitories, the building will be completed in time for the fall semester of 1955, and should do away with the temporary North Dorms.

The new dormitory will be a four-story, L-shaped building situated north of Aubert Hall. The long side of the "L" will be along the Mall, parallel to Hannibal Hamlin Hall, with the short side running toward Oak Hall.

The three upper floors will have 31 double rooms, two single rooms, and lavatories in both the long and short wings. The first floor will have only 25 double rooms, but will have a social room, two single rooms, the head proctor's

room, and a combination guest and conference room.

Cafeteria storage will be situated in the basement of the long wing of the "L" with a smaller room for trunk storage. The short wing will have storage rooms, the janitor's room, a wash room and a combination game room and lounge.

The living quarters will each have a wardrobe and a combination wardrobe-chest of drawers built into one wall. The rooms will have one large thermopane window.

A new feature of the double rooms that is being considered is plastic wall-covering with areas of cork tile for pinning up pictures. This new feature is designed to cut down the marring of the walls by nails.

Bandleader Jimmie Hanson, who will play at the Junior Prom tomorrow evening in the Memorial Gym. "Springtime" is the theme of the dance, which will be held from 9 p.m. until 2 a.m.

## Junior Prom Offers 'Springtime' Theme Tomorrow Evening

Jimmie Hanson, well-known New England bandleader, will take the bandstand Friday evening at the first Junior Prom to be held on campus in a number of years.

"Springtime" has been announced as the theme of the semi-formal dance.

Early in the year the junior class voted to hold a semi-formal dance instead of the "Beaux Arts Ball" masquerade dance that has been held by a number of junior classes in the past.

"We are trying to bring the Junior Prom back to Maine," said Merton Robinson, president of the junior class and chairman of the dance committee. "I hope we can start a precedent that will replace the masquerade dance with such a traditional event."

"We are expecting a large turnout due to the reduced cost," he continued. Previously, the committee had hoped to obtain a big-name band from New York, but were not able to make arrangements. Since the cost of the band will be less than was expected, the committee is able to charge this reasonable price for the dance, said Robinson. The cost is \$2 per couple.

## Wingate Hall 'Sky' Nearly Completed

The new planetarium in Wingate Hall will be finished within three weeks, say University construction crews, who are now working on the final stages of the project.

Work has been progressing rapidly, they said. Roof and carpentry work was finished last week, and a painting crew is putting the finishing touches on the inside.

Maynard F. Jordan, professor of astronomy, and his students have conducted a trial run of the machine which will be used in the planetarium. At least one showing is expected this year.

University crews, assisted by Prof. Weston S. Evans, head of the civil engineering department, and Parker Cushman, campus maintenance engineer, have done all the work on the project with the exception of the dome on the roof and the plaster work, which was done by the Blanchard Construction Company of Portland.

Two final jobs, according to workers, will be the installation of about 25 chairs around the inside edge of the planetarium, and construction of a stand in the center to hold the machine.

Construction of the planetarium began last October.

**America's  
Knights of the Sky...**

*The Spartan Band that held the pass,  
The Knights of Arthur's train  
The Light Brigade that charged the guns,  
Across the battle plain  
Can claim no greater glory than  
The dedicated few  
Who wear the Wings of Silver  
... on a field of Air Force Blue.*

**For Fellowship... High Adventure... and a proud mission...  
wear the wings of the U. S. Air Force!**

● In days gone by, young men in shining armor ruled the age. Today, a new kind of man rules the age—America's Knights of the Sky, the *Aviation Cadets*. They rule from on high, in flashing silver-winged Air Force jets... a gallant band that all America looks up to! Like the Knights of old, they are few in number, but they represent their Nation's greatest strength.

If you are single, between the ages of 19 and 26½, you can join this select flying team and serve with the finest. You will be given the best jet training in the world and graduate as an Air Force Lieutenant, earning \$5,000 a year. Your silver wings will mark you as one of the

chosen few, who ride the skies in Air Force jets.

As an Aviation Cadet, your kingdom is space—a jet is your charger and your mission is the highest. You are a key defender of the American faith, with a guaranteed future both in military and commercial aviation.

Join America's Knights of the Sky, new men of a new age. Be an Aviation Cadet!

### WHERE TO GET MORE DETAILS:

Contact your nearest Aviation Cadet Selection Team, Air Force R.O.T.C. Unit or Air Force Recruiting Officer. Or write to: Aviation Cadet, Hq., U. S. Air Force, Washington 25, D. C.

## OPPORTUNITY

**For Unique Experience  
in Human Relations**

A limited number of positions as Psychiatric Aides are available to college graduates at one of America's foremost psychiatric clinic-hospitals. If you are interested in psychiatry, psychology, personnel work, teaching, or social work, this is a valuable opportunity for practical on-the-job experience in the basic areas of human relations. You will also enjoy the benefits of living in a stimulating atmosphere with complete room, board, recreational and social facilities plus a cash salary. **For further information, write to: Barbara St. John, Director of Personnel, The Institute of Living, 160 Retreat Ave., Hartford, Conn.**

## Looking 'Em Over: Profile

### 'A Man Has To Keep On The Move,' Says Sam Sezak

By PAUL FERRIGNO

Sam Sezak, assistant professor of physical education, is probably one of the busiest persons on this campus.

To bear this out, we point to his job as coach of freshman football, his major role in organizing and running intramural sports, his teaching of physical education courses and his participation in many other campus activities.

However, this full schedule doesn't bother Sam any. "A man has to keep on the move," he says.

#### Apple Of His Eye

The apple of his eye is his camp leadership course. Sam is an ardent camper and calls it his favorite pastime. He proclaims, "I'm looking forward to advance courses in camping at the University."

#### Started Canoe Institute

Last year he started the Canoe Institute, which plans to hold an annual three-day outing for camp counselors and other staff members. It is open to all university students interested in camping.

Another pleasure which stems from Sam's camping is the satisfaction he derives from placing students in camping jobs. "It's almost as if I was getting the job myself," he explains.

Sam's past is quite a story, too. A look into it reveals many miles of travel and literally hundreds of jobs ranging from that of principal in a high school to a hitch as head basketball coach at the University.

#### A Maine Alumnus

Sam, who is a Maine alumnus, graduated in the class of 1931 with a B.A. in Education. He chuckled after giving us this information and said, "I just received my master's last year!"

After graduation he taught and coached in a number of Maine and Massachusetts high schools. In 1939 his early dreams came true, when he was asked to come back to Maine. Sam proudly stated, "I was tickled to death. I always had a feeling that I would come back to the University, and I'm proud to be here."

#### Here Since 1939

That was fifteen years ago. He's been here ever since, except for a time in 1944-45 when he received a leave of absence to coach football at East Orange High School in New Jersey.

Until 1950 Sam worked as assistant to Sports Director Ted Curtis. In the fall of that year he moved to his present position.

Through the years Sam has developed a very human idea in regard to his coaching. Low and seriously, he said, "I believe that if I can't treat each player like my own son, I don't want to be a coach."

He further states, "I make a habit to know all about my ball players, including their family life. I have photos and clippings from all over New England," he said, pointing to a large envelope bulging with his collection.

Activity seems to run in the Sezak family. Sam's wife "Tommy," whom he met at Maine and married in 1933, was a leader in Panhellenic Council while here, and is now financial advisor to

Pi Beta Phi sorority on campus.

They are both very active in alumni work, Sam serving as president of the class of '31, and his wife as secretary.

#### His Family

Meanwhile, their only son, Tom, 17, a robust 195 pound chip off the old block, plays center and guard on the Hebron Academy football squad.

"I'm keeping my fingers crossed that he comes to Maine," says Sam.

The rest of the family? Well, there's two-year-old Mary Ann — "The boys are all making eyes at her," says Sam proudly. "And we mustn't forget our Cocker Spaniel "Buddy," he adds.

Knows all his players . . . "even their family lives."

What makes  
a Lucky  
taste better?

# "IT'S TOASTED"

## to taste better!

WHY do thousands of college smokers from coast to coast prefer Luckies to all other brands?

BECAUSE Luckies taste better.

WHY do Luckies taste better?

BECAUSE Lucky Strike means fine tobacco. And that tobacco is toasted to taste better. "It's Toasted"—the famous Lucky Strike process—brings fine tobacco to its peak of flavor . . . tones up this light, mild, good-tasting tobacco to make it taste even better—cleaner, fresher, smoother.

SO, Be Happy—Go Lucky. Enjoy the better-tasting cigarette—Lucky Strike.

## LUCKIES TASTE BETTER Cleaner, Fresher, Smoother!

ently serving on the Women's Student Government and was program chairman of its New England Conference. A dean's list student, she belongs to Chi Omega sorority.

## Women's Athletic Groups Sponsor Playday Meet Here

Students and faculty members from 15 Maine high schools attended a playday here last Saturday held in the Women's Gymnasium and on the Women's Athletic Field.

The affair was sponsored by the Women's Athletic Association and the department of physical education for women.

Jane Wiseman, secretary of the WAA, and Jane Bacon, president of the Physical Education Majors Club, were chairmen of arrangements. Anita Ramsdall was chairman of the program committee.

Committee members for the playday were Ruth Thompson, Myra Goldman, Barbara Moore, Patricia King, Sally Rand, Florence Raymond, Jane Barker, Mary Jane Keith, Jane Ingraham, Ruth Johnson, Mary Litchfield, Patricia Adams, Patricia Sweeney, Joan Gillette, Ruth Beyer, and Marjorie Mealey.

High school representatives attended from Brewer, Bangor, Dexter, John Bapst, Hampden Academy, Lee Academy, Old Town, Dover-Foxcroft, Thornton Academy, Bucksport, Houlton, Winslow, Waterville, Corinna, and Orono.

## It's Safety First For Flammable Stuff

As a safety measure, the University will construct a small building in a remote section of the campus for the storage of highly flammable chemicals and other materials used primarily in technical instruction and research projects.

The 14-by-14-foot, two-story structure, of brick and concrete, will be erected near the University apple orchard on the northeast corner of campus. Work on the building is already under way by Nickerson and O'Day, Bangor contractors, who submitted a bid of \$5,600. Some additional expense will be involved for grading and road building.

Flammable materials with a low boiling point will be stored in the basement of the building and materials with a relatively high boiling point will be kept in the upper part.

University officials said the amount of flammable materials which are needed for research projects has increased considerably in recent years. Some of these items under certain conditions are highly explosive, they pointed out. As a precautionary measure, the officials felt such materials should be kept at a safe distance from classroom and dormitory buildings.

The University Trustees awarded the contract for the construction of the building at their last meeting.

Foreground: Boeing RB-47E, world's fastest day-or-night long-range reconnaissance plane. Background: Standard B-47E six-jet bomber.

## What do you want most in an engineering career?

**Is it room to grow?** Then join a company that's growing. Boeing, for example, has grown continuously throughout its 37-year history of design, production and research leadership. There's always room up ahead—and Boeing promotes from within. Regular merit reviews are held to give you steady recognition.

**Do you want long-range career stability?** Boeing today employs more engineers than even at the peak of World War II. Here you'd work on such projects as pilotless aircraft, research on supersonic flight and nuclear power for airplanes, on America's first jet transport, and the world's outstanding jet bombers.

**Do you want variety of opportunity?** Aviation is unique in this respect. It offers you unmatched variety and breadth of application, from applied research to production design, all going on at once. Boeing is constantly alert to new materials and new techniques, and approaches them without limitations. In addition, Boeing's huge subcontracting program—requiring engineering co-ordination—offers you contacts with a cross section of American industry.

Boeing engineering activity is concentrated at Seattle, Washington, and Wichita, Kansas—communities with a wide range of recreational opportunities

as well as schools of higher learning. The company will arrange a reduced work week to permit time for graduate study and will also reimburse tuition upon successful completion of each quarter's work.

There are openings in all branches of engineering (mechanical, civil, electrical, aeronautical and related fields) for DESIGN, PRODUCTION and RESEARCH. Also for physicists and mathematicians with advanced degrees.

For further information, consult your PLACEMENT OFFICE, or write DONALD F. RENARD, Recruiting Supervisor Boeing Airplane Company, Seattle 14, Wash.

# Platforms Include Date Bureau, Spirit

(Continued from Page One)

students into one tribe. His object of the campaign is to bring unity to the campus in an attempt to gain a rebirth of the Maine spirit.

"I believe the campaign and the position of mayor should seek to bring up the level of the position through a sensible platform with less slap-stick than in the past. I feel that better rallies, more student participation in University activities, and a feeling of campus unity must be sought," he said.

Kelley Elliott, a freshman, is basing his campaign as a pioneer—a pioneer for change and progress at the University.

"I will give a boost to the listless and nearly lost Maine spirit. Twenty years ago the 'Maine Stein Song' was known and sung from coast to coast. It wasn't Rudy Vallee that made us known; it was Maine spirit," Elliott is planning the construction of a fish pond in the middle of the mall stocked with white whales with free harpooning lessons.

Dan Stevens, a freshman, promises to live up to the "ethical code of Dick Tracy and Fearless Fosdick and it shall be my duty not only to prosecute to the limit of the law Anyface accused of crimes within this country, but to uphold the rights of all its citizens," he said.

"Capt." Ed Plissey "firmly believes that there is a definite place for the mayor on this campus. I will do everything in my power, if I am elected, to bring back the respect and dignity of that office," he said.

## University Student To Go From Norway To Norway

A University student from Norway (Maine) will go to Norway (Europe) this summer for eight weeks at the University of Oslo.

Donald L. McAllister, a junior majoring in history, received a scholarship for the summer session.

Plissey said that he stands on a "perfectly solid platform, which is made up of sound principles, definite policies, and complete sincerity."

Several planks of his platform include: "To provide a megaphone for every dog at the South Apartments so their bark will be bigger than their bite," and, "To provide a date bureau on campus."

Mayor elections will be held Tuesday, May 11.

## New Members Named To 3 Honor Societies Wednesday

New members of The Senior Skull Society were tapped at The Junior Class Assembly Wednesday morning. They are Dana R. Baggett, Delano Boutin, Reginald B. Bowden, William S. Calkin, Merton D. Robinson, Ernest A. Smart, Thomas W. Golden, Charles E. Hussey, Kenneth Y. Woodsum, and C. Dexter Earley.

Tapped last night at the annual Eagle Banquet for membership in

Neai Mathetai, high scholastic society for freshman women, were: Charlotte Brackett, Lucille Dwinal, Barbara Goul, Joan Hanson, Mary Kilpatrick, Sylvia McKenzie, Doris Richards, Frances Roderick, Lois Whitcomb, and Eleanor Zoidis. Joan Knight was elected associate member as she did not register for the second semester.

New members of Sophomore Eagles Society are: Jane Barker, Barbara

Berce, Lois Blanchard, Charlotte Brackett, Elva Brackett, Jane Caton, Myra Goldman, Dorothy Jewell, Sarah Kappas, Mary Jane Kilpatrick, Marilyn Lounsbury, Janet Malcolm, Helen Mangan, Alice Osier, Florence Raymond, Doris Richards, Frances Roderick, Patricia Wade, Lois Whitcomb, and Elaine Young.

What you do is our news.

## SCHEDULE OF EXAMINATIONS—Spring Sem. 1954, June 7, 8, 9, 10, 11, 12, 14, 15, 16, 1954

## 1955 Prism Nearly Completed; Set For Distribution In June

The 1955 *Prism*, yearbook of the junior class, is now in its final stages of production, Reginald Bowden, editor, announced today.

The book is expected to be published and ready for distribution by the end of the school year. Copies can still be reserved with the business manager, William Tiedemann.

"The printing of the *Prism* by the University Press climaxes nearly ten months of hard work by many people," Bowden said.

### 270 Pages

The 270-page annual was edited by a staff that included Roger Bowman, Beverly Safran, and Diana Hardwicke, as editorial assistants; Sondra Glorsky, activities; and Ruth Dow, organizations.

John Perez edited the fraternity section and Hilda Sterling handled sororities. Rounding out the staff were Patricia Wallace, seniors editor; Lois Cassidy, juniors editor; Moe Hickey, men's sports; Cynthia Nelson, women's sports; and Henry Meinecke, photography. Margery Benson was secretary for the staff.

### "Stein Song" In Pictures

"One of the features of this year's

*Prism* will be the presentation of the *Maine Stein Song* in full-page photographs," Bowden said.

These pictures and many other outstanding pieces of photographic art in the book are the work of Jack Mitchell, photographer for Chidnoff Studio, New York City.

Mitchell, a native of Florida, has created many striking photographs for leading colleges in the East. A veteran of World War II, he has studied art at The University of Florence in Italy.

Mitchell has also had his dance photography published in several leading magazines.

The *Stein Song* section in the book is introduced by a picture of Rudy Vallee, who popularized the work 25 years ago.

### Cover By Hartgen

Prof. Vincent Hartgen, head of the University's art department, created the cover design for *The Prism*. The cover is an expression of modern informality which the book characterizes in photographic layout.

"The fraternity group photographs, which Mitchell took for *The Prism*, are unique for U. of M. yearbooks," Bowden said.

These photos were taken at night in front of the fraternity houses and were accomplished through the use of an elaborate photo-flash arrangement.

Bowden expressed thanks to the students, faculty members, and staff of the University Press for their assistance in getting out the yearbook.

Mrs. Martha Tate is the new house mother at Phi Gamma Delta. She was formerly a house mother in Chadbourne Hall.

## ENGINEERS HERE'S AN Invitation To Success . . .

# GENERAL ELECTRIC'S SALES ENGINEERING PROGRAM

Opening the doors to challenging careers—as SALES ENGINEERS—APPLICATION ENGINEERS—PRODUCT SPECIALISTS—G.E.'s Sales Engineering Program is an invitation to success to all young engineers who want to combine engineering know-how with contact work . . . who want a career that is varied, challenging . . . who want long-range advancement opportunities limited only by individual performance.

ON-THE-JOB EXPERIENCE . . . provides you with outstanding training in industry sales techniques, market characteristics, sales plans and policies, product engineering work, industry engineering.

- as a *Sales Engineer* you will learn from some of the nation's finest industrial salesmen.
- as a *Product Specialist* you will work with some of the most ingenious men in the electrical industry.
- as an *Application Engineer* you will learn how to solve intricate customer problems from some of the most experienced men in the field.

INTEGRATED CLASSWORK COURSES . . . are designed to give you information for good daily job performance and a sound background for positions of greater responsibility. Courses in sales methods, apparatus marketing, business fundamentals, etc., supplement your on-the-job experience and provide excellent advancement opportunities.

COMPLETING THE PROGRAM . . . means you may go to one of G.E.'s many Districts—with sales offices in 152 key cities in 45 states. Or you may prefer assignment to a headquarters operation. Regardless of your choice, you will be working with some of the most competent men in industry in an interesting, fast-moving career—and you will be building your career with the leader of the fastest growing industry in America!
