### Class Meeting Planned

There will be a meeting of the class of 1937 in the near future to decide several important matters. The class dues will be discussed and the annual freshman banquet will be considered. It is the custom of the freshman class each year to give a freshman banquet at the close of college in June. The date of the meeting has not as yet been decided.

### Famous Traveler Speaks on Manchuria

An assembly was held on Wednesday, January 18, at 9:30 A.M. in the Memorial Gym. Owen Lattimore, traveler, author, authority on the Far East, spoke on Manchuria as the cradle of conflict. He believes that the people who could control Mongolians could control the province of Manchuria. They believe there is no progress within one state because for the last one hundred years China has been connected with the western world civilization and for 20,000 years China had nothing to do with the outer world.

Manchuria is Alsace-Lorraine—it is the sandwich filling between Russia and Japan.

### Freshman Forum

The Freshman Forum group listened to a very interesting discussion on what college is doing to us, led by Dean Mullenberg on Sunday evening. Conventional practice was pulled to pieces, and teachers as well as students came in for their share of the Dean's criticism.

### Student Ploy

**January 18**

Advanced students taking the theatre course will present a three-act play entitled "Children of the Moon" January 18 in the Little Theatre in Alumni Hall. The play is a stirring drama written by Martin Flavin and was popular on Broadway. It is a tragedy concerning an English family afflicted with a streak of insanity. It deals largely with an aviator who falls in love with the girl of the family. There are many tense moments and an exciting climax.

The charge for admission to this production will be small. This play should prove to be a popular source of entertainment for freshmen.

Opening his speech, the Dean contended that the U. of M., along with most colleges was doing three things to its students. It is teaching them to think and act collectively. "In other words," said the Dean, "they are being stereotyped, and therefore think and act with the vast majority, whether right or wrong." "The second thing is its attitude of thinking for the student instead of forcing him to think for himself. Too much stress is laid on requirements, assignments, and exams," he maintained. "Thirdly, by its system of marking, the University is causing the student to be satisfied with second rate progress."

He stressed the need for a liberal education before undertaking a professional training. He placed as the most pressing harm of all the present barriers between the student body and the faculty.

Pirate Dance

Scores of pirates walked the gangplank last Saturday night—but not to meet death. Contrary to the usual procedure, they walked into Alumni Hall to attend the annual Penny Carnival held under the auspices of the W.A.A. Three girls were stationed at the door, one to take tickets, one to place a stamp on each person's hand, and the other to add atmosphere. The hall had the best decorations of the year—a pirate ship on one side of the hall and a booth in which, according to all reports, the chaperons sat. Vaudeville, if it might be called that, was enjoyed (?) and then the Grand March was held to choose the prize costume. Tom McGuire won the prize with a getup which was supposed to represent a villainous pirate.

Stag Dance

The boys outnumbered the girls at the stag dance last Friday night, and according to our pal, Jack Frost, "a good time was had by all but the bashful." It seems that some group known as "The Silent Men," headed by Ken Foster, ran the dance. The floor was rather slippery, resulting in one casualty, but on the whole both music and floor were pronounced as perfect by all who attended.

Frosh Winter Sports Started

Coach Curtis and Manager Al Prince of the Winter Sports Team held a meeting of all freshmen boys interested in winter sports Friday noon. Coach Curtis put forth the proposition that if sufficient interest was shown, there would be a Frosh Winter Sports Team, having a meet with some strong prep school team. As winter sports is a minor sport, freshmen are eligible for varsity competition according to national ruling. Last year a freshman made the meet at Lake Placid. There is a great need for skiers and all freshmen interested whether or not they have ever entered competition before are asked to sign up with Mr. Curtis or Mgr. Prince early this week and to leave a copy of their schedule in the athletic office. This is so a plan of workouts may be arranged in which all freshmen will be accompanied by a varsity letter man in practice, thus having the advantage of his experience.

Snowshoers are also welcome. In the Sate Meet there will be dashes, and in all meets the cross country event will be included. A ski-jump located just across the river from the heating plant is a much larger jump than that used in past years.

"B" Team Loses To Old Town

The B team of Frosh hoopsters went down to a 38-5 defeat at Old Town High School Friday night. The team failed to click in this, their first game of the season. However, the outstanding players were Paul Wilson, Norman Carlisle, and Newell Wilson.
The FRESHMAN is published Mondays during the college year by members of the class of '37 of the University of Maine.

There is very little time left before the semester exams. These exams are perhaps the most important in our college life. They go a long way in determining whether or not we will successfully complete our college work. A few weeks of concentrated studying now may prevent a lifetime of regret later. We admit that this is old stuff,--in fact very old stuff, but isn't it still correct? We earnestly believe it is.

Soph's and Frosh
Now Good Friends

Thanks to the Senior Skulls, Christmas present the freshmen no longer brings from the black spotted sophomores, wearers of green bow ties are a minus quantity, and freshmen carry a supply of matches only to meet their personal needs. Many members of the class of '37 have been so daring as to sport flashy shoes and to parade around the campus with fashionable co-eds. Classmates who habitually passed their Tuesday nites at the Owl meetings don't quite know what to do with the extra time on their hands. However the most pleasant feature of the new freedom is that the freshmen will no longer look upon the Owls as enemies, but as good friends.

The resignation of President Boardman will be felt with deep regret by all freshmen. His cordial greeting to the class Freshman week and his Freshman reception given at his home at a later date did much to make a group of rather bewildered freshmen feel at home. President Boardman has been actively connected with the University for the past forty years and president for the past nine years. His reasons for resigning are poor health and the desire to spend more time with his family and in personal affairs.

The Class of '37 will greatly miss President Boardman in the next three years. Our only wish is that our new president will be as friendly and understanding as his predecessor.

Good friends.
