On personal examination of the affairs of the Town Farm the Overseers of the Poor cannot commend too strongly the management of the farm by Mr. and Mrs. C. W. Chaplin. Under the efficient and prudent care of the farm by the superintendent, the income has paid its running expenses and supported the family, with a balance of \$5.34 in favor of the town, and with from 10 to 12 tons of hay on hand in excess of what is needed to carry the stock through the winter. We have secured the services of Mr. and Mrs. Chaplin for another year.

Report of Building Inspector.

GORHAM, February 15th, 1899.

To the Selectmen of Gorham:

GENTLEMEN:—I have, as required by law, inspected all new buildings in process of construction, as far as they have come to my knowledge, and also those being repaired.

As far as I have examined the above buildings, they are all right.

Yours respectfully,

WM. H. LEAVITT,

Building Inspector.

What gave promise of being one of the most profitable years in the history of our schools was fully realized during the spring, summer and fall terms, but during the winter the prevalence of grip in all the schools and of whooping cough in half of them, has seriously affected the attendance, and hence, in a measure, their prosperity.

Sickness has not been confined to pupils alone. Teachers, and those for whom they were obliged to care, have, in a number of cases, been thus unfortunate.

Miss Cartland, who was very successful at West Gorham during the summer and fall, asked for leave of absence during the winter, on account of ill health. Miss Hamblen, of the Blake school, and Miss Lowell, of the Mosher school, were obliged to resign after completing four weeks of the winter term, by reason of sickness in their homes.

It was thought best to close the South Gorham school at the end of the fourth week of the winter term. Nearly all the scholars were sick with whooping cough.

The work in the schools has been characterized in a larger degree than usual by an earnestness on the part of the teachers and by a realizing sense of the responsibility resting upon them in the work of their chosen profession.

It is an exception to the rule to find a teacher in our schools who is not doing something in the way of self-improvement. Some belong to teachers' circles, and are taking a special course in reading; others are reading standard works on theory and practice in teaching, while nearly all read some educational paper or magazine. The teachers willingly follow the instructions and act upon the suggestions of those whose duty it is to advise and direct.

It is encouraging to notice that the teachers' reports show a larger number of visits by citizens. May the time be near when parents will see the necessity of visiting the schools, conferring with the teacher and being frank in their statements as to the characteristics of their children. The efficiency of the schools will be largely increased when parents are willing to impute the best motives to the teachers for the corrections they find it necessary to administer, and the methods they use. It is impossible for one to give his best service if he feels he has not the confidence and respect of those for whom he labors. It is hoped that the time may come when parents will realize that these are facts.

The Gorham High School maintains the high reputation it has earned while under the care of Principal Woodman. Its influence is felt in all the schools in town. It has come to be an accepted fact that all scholars admitted to this school must pass a rigid examination to determine their fitness to profitably pursue high school studies. In the last examination about one-third failed to meet the entrance requirements. This failure acted as a stimulus. Realizing their lack of fitness to do the required work, they have resolutely set about to prepare for the next examination.

Miss Small, who did good work as assistant, resigned very unexpectedly in the middle of the fall term. The committee were fortunate in securing Miss Ridlon to fill the vacancy. Her work is satisfactory to all.

During the five years Mr. Benson has been principal of the Frederick Robie High School the improvement has been uniform. The last year has been one of the best.

The Levi Hall High School met with a loss at the end of the summer term in the resignation of Mr. Freeman. Mr. MacMillan was secured for the fall term, and is carrying on the work successfully.

The names of the graduates of the three high schools are given below :

When the law abolishing school districts went into effect in March, 1894, there was a difference of opinion between the inhabitants of School District No. 1 and the School Committee, in regard to the construction of the statute abolishing school districts. This controversy continued until April, 1897, when the School Committee refused to grant to the district agent the funds to maintain the schools in said district, and they provided for their maintenance the same as for other schools in town. The inhabitants of the district immediately petitioned for a writ of mandamus to issue to the School Committee, commanding them to award to said district the funds necessary to maintain their schools for the current year. The case was carried to the Supreme Judicial Court and argued in July, 1897. A decision was rendered, declaring that School District No. 1 was abolished.

An authoritative decision is what was desired, and no doubt it will be satisfactory to all.

The Wescott and Mosher school-houses have been painted. The interior of the school-house at West Gorham has also been painted, the plastering on the walls and ceiling tinted, and the desks varnished. At Gorham village the floors were oiled, the desks and inside finish of the rooms varnished. New out-buildings were built at South Gorham and White Rock.

That something needs to be done to furnish better accommodations for the pupils of the Fogg School is evident to all acquainted with its condition. The School Committee recommend that a lot be purchased of William E. Strout, on the westerly side of the road, leading from Gorham Village to Parker's Corner, opposite the Fogg school-house; that the old school-house be moved on this lot and thoroughly repaired. Cost of lot and repairs not to exceed \$600.

The wages due teachers will exhaust, but not overdraw the appropriation for common schools.

Your committee recommend that the following appropriations be made :

For Common Schools, three thousand, three hundred dollars.

For a Free High School at Gorham village, twelve hundred and fifty dollars.

For supplies, repairs, insurance, etc., one thousand dollars.

For Text Books, three hundred and fifty dollars.

GEO. P. PLAISTED,

Superintendent.
