# THE MAINE CAMPUS

Published Weekly by the Students of the University of Maine

Vol. LVII Z 265

Orono, Maine, January 19, 1956

Number 14

Albert Packard, University sophomore, "hits the books" in preparation for his final exams. Finals for Maine students begin next Monday, Jan. 23, and extend to the 31st. A short five-day vacation will follow the exams this year for the first time. The Spring Semester begins Monday, Feb. 6. (Photo by Johnson)

## Winter Carnival Event Set For February 10-12

A new event, Skit Night, will be one of the highlights of the University's annual Winter Carnival program, February 10-12, the carnival committee announced this week.

All 17 University fraternities have been asked to participate in the program which will be held in the Memorial gym Saturday evening, Feb. 11, at 7:30 p.m. Each fraternity will present a short skit governed by rules and limitations set by the Winter Carnival committee.

### Humorous Skits

According to the rules the skits must be of a humorous nature and may consist of acting, singing or a combination of both. Each group must include at least three participants and the skits will be limited to from five to ten minutes duration. Winners will be selected by a group of judges reading from an electric applause meter.

A one year trophy will be awarded to the winning group. The first group to win the contest three times in a row or the group having won the contest the greatest number of times at the end of a seven year period will retire the trophy permanently.

Another feature of the week end will be the choosing of a king and queen at the Carnival ball Friday evening. Dancing is from 9 p.m.-2 a.m. Admission is \$4.00 per couple. Carnival candidates are Deanna Dunfee, Mary Ellen Sanborn, Gayle Prince, and Martha Trefethen for queen, and John Edgar, Thurlow Cooper, Robert Cruickshank, and Glen Averill for king.

### Vote In Union

Voting will take place all day Thursday, Feb. 9, and Friday morning, Feb. 10, in the Memorial Union.

Other events scheduled for Friday are two basketball games, M.C.I. versus Maine freshmen at 2 p.m., and the University of Connecticut versus

the Maine varsity at 4 p.m. At 8 p.m. the Maine Outing Club will hold their annual skating party at the rink. Hot chocolate and marshmallows will be served.

The snow sculptures will be judged at 9 a.m. Saturday morning.

At 9:30 a.m. the Women's Intermediate Downhill races and the Women's Novice Downhill and Slalom races will take place at the Women's Athletic field. This will be followed at 10 a.m. by the Men's Downhill and Slalom races.

(Continued on Page Eight)

## Former Bangor School Director To Teach Here

Roland J. Carpenter, former superintendent of schools in Bangor, will begin his new duties as a lecturer in the University's School of Education at the beginning of the spring semester.

Carpenter, who accepted the position last July, has been superintendent of Bangor's schools for 12 years. At Maine he will teach courses in supervision and administration and assist Dr. Garland Russell in the supervision of student teachers working in schools throughout the state.

### Bates Graduate

A native of Patten, Me., Carpenter attended Patten Academy and later received his bachelor of science and master of education degrees from Bates college. He has taken summer courses at Columbia university, Aroostook State Normal school, and attended a Workshop on School Administration at Harvard university.

He began his teaching career as submaster and teacher at Mapleton high school in 1922. Later he served successively as principal of Mapleton high school, Aroostook Central Institute,

## Students Ready For Final Exams

In January, a young student's fancy turns to thoughts of running away, joining the foreign legion, ending it all; the reason—finals.

Blood-shot eyes and nervous breakdowns, common this time of the year, can be traced to tedious, teasing, trying, tiring tustlings with zoology, biology, psychology, astronomy, economy, the mystery of history, and various and sundry other details and technicalities.

Young, rugged text-books, purchased last fall, still new in many cases, will become old, worn-down items in the week to follow. Amazing discoveries await the suddenly conscientious scholar as he flips open those slightly used pages! There's writing inside!

## Senate Is In Favor Of Joint ID Cards

BY JOHN LITTLEFIELD

The General Student Senate at a meeting Monday night passed by unanimous vote a resolution urging the adoption of joint I.D. cards for husbands and wives at the University. The resolution will now be referred to the Committee on Administration.

The action was taken following a report by Senator Kenneth Nelson, chairman of the senate committee investigating the question of joint I.D. cards, and a brief discussion among senators.

## Rumors On Cut Rules Cleared

Rumor has it about campus that grotesque new cut rules have come into being next semester. George Crosby, registrar, sheds some light on the subject.

The only big change concerning cuts is the total amount of cuts per semester will be recorded in a column on students' final grade sheets. These statistics will be sent home for the information of parents.

### Sent Absences Home

In the future, instructors will send the amount of absences directly to the academic deans. In the past a complicated procedure of recording cuts in the office of the registrar amounted to an expenditure of \$600 a year for forms alone.

The definite University cut-rule, as recorded on page five in the pamphlet, "Information for the Guidance of Students," states that students are required to attend all University functions.

The deans of the various colleges, however, do not want a definite set of cut rules as to the limitation of absences, according to Crosby. A sort of unwritten rule has been that a student is allowed as many cuts per course as he has semester-hour credits per course.

Students missing a class two days in a row will be reported to the deans of their colleges in an effort to check up on their whereabouts. This will be done for the benefit of the student who may be sick or have some other type of trouble.

### Present Findings

Nelson reported that his committee had held two meetings on the matter and felt that they were ready to present their findings to the senate and the Committee on Administration. He asked the senate for a vote on the issue.

If the Committee on Administration approves the Senate resolution as passed it would mean that approximately 538 wives of University students could use the I.D. cards of their student husbands when the cards were not in use.

This resolution was among four major recommendations made by Senate President Eric Starbird at the first meeting of the Senate last fall.

The Senate also voted to rescind a resolution passed at the last meeting favoring the elimination of segregation and discrimination in educational institutions and gave the Senate President power to appoint a committee to study the resolution.

### Faculty Displeased

The resolution was rescinded so senators could have further opportunity to study it and, according to Senate President Starbird, because several faculty members who had seen the original copies of the resolution were (Continued on Page Eight)

## Marc Connelly To Be Assembly Speaker Feb. 9

Marc Connelly, nationally known playwright, will speak at the University Thursday, Feb. 9, at a general assembly as part of the Maine Masque Theatre's 50th anniversary celebration.

Author of many Broadway hits, Connelly will address student-faculty and administration in Memorial Gym at 10 a.m.

### Was Newspaperman

Connelly was born in McKeesport, Pa., and was educated at Trinity Hall in Washington, Pa. He began his career as a newspaperman for various Pittsburgh newspapers.

In 1915 he moved to New York City where he secured work as a newspaperman and soon gained attention as a play writer. In collaboration with George Kaufman, he wrote a play around a character called Duley which became a success.

The partnership of Kaufman-Connelly then went on to the creation of a number of successful plays and musical comedies including "Merton of the Movies," "Beggar on Horseback," "To the Ladies," and "Helen of Troy, N.Y."

When they decided to work separately, Connelly wrote "The Wisdom Tooth" and "The Green Pastures." He collaborated with Frank Escher in writing "Farmer Takes a Wife."

Connelly is a past president of the Authors League of America and president of the National Institute of Arts and Letters. He is also a member of the executive committee of the U. S. Commission for UNESCO.

Col. James T. Walker, Professor of Military Science and Tactics at Maine, presents Dale Starbird a loving cup after she was crowned Honorary Lieut. Colonel at the annual Military Ball last Friday night in the Gym. Story on page 5. (Photo by Meinecke)

## Publish Feb. 9

The Maine Campus will not be published for the next two weeks due to the finals examination period. The next issue of the paper will be Feb. 9.

## Maine Parking Problem Becomes More Complex

(Fifth in a series of articles concerning the growth of the University)  
BY MILT HUNTINGTON

Unless you are a proverbial "early bird," finding a commuter's parking place in the rear of Stevens Hall is a perpetual impossibility.

A futile swing around the block to the rear of Stevens Hall in the hope of gaining a parking slot usually ends up in a far corner of the lot beside the Gym. If you can crack the 100 yard distance in 10 seconds, the chances are 50-50 that you will get to class on time.

### Complex Problem

As enrollment surges upward at Maine, the problem will become even more complex, and it is a hard one to find a solution to.

Before the parking problem can even be considered, the administration and trustees feel that funds must first be spent on new classrooms and living quarters.

Francis McGuire of the Plant and Facilities Department feels it may become necessary to restrict parking, possibly allowing parking privileges only to upperclassmen.

The estimated cost of a parking lot reached as high as \$10,000 including the cost of drainage, labor, and the amount of fill necessary.

Dean of Men, John Stewart, felt a parking lot as a Maine Day project would be unsuccessful due to the fact that most of the work involves grading and work that could not be handled properly by students.

### Propose Site

The site of a new parking lot proposes quite a problem in itself. Dean Stewart and McGuire both feel the most logical spot would be across the road in the rear of the Memorial Union.

A new auditorium in the rear of the Union is included in President Arthur A. Hauck's 10-year plan presented to the 97th Legislature. A

parking lot to the rear of this proposed auditorium would then serve a dual purpose, handling automobiles of students using Stevens Hall and taking care of the crowd using the auditorium.

McGuire points out, however, that we already have a big parking area in that vicinity and too much conversion of cars in that section will cause a great deal of congestion on entering and leaving the lots.

One bright point in the plan is the intention of the administration to build a new road from the parking lot at East Annex straight out to the road which leads up to the rear of the Library. This new construction would eliminate the congested circle at the left front side of the Memorial Union, which is now a definite traffic hazard.

### A Good Location

J. Carroll Dempsey, Superintendent of Buildings and Grounds, says the area across the main road by Stillwater River next to the Steam Plant would be a good location for a parking lot. At the present time this area is being used as a fill, and has been leveled off from time to time.

At one time, this area was considered as a site for the Union building but the administration and trustees preferred to locate the building more centrally. To make a park of this area was another thought of University officials.

Dempsey stated the possibility of building a tunnel under the road for pedestrians or slowing traffic down by adding traffic lights at the crossing.

## Hartgen Arranges Exhibit Of Drawings At Carnegie Hall

Prof. Vincent Hartgen, head of the University's Art Department, has arranged an exhibition of 35 drawings by Paul Ducharme, Woonsocket, R. I., formerly of Bangor, in the print room of Carnegie Hall.

Ducharme was employed until recently by Crowell, Lancaster, and Higgins, Bangor architects. He first began making drawings when he was named an artist for his high school yearbook. Later, 15 full pages of his pen and ink drawings were printed by Excelsior. When he entered the Armed Forces he had an opportunity to do sketching in Germany and England.

During the Berlin airlift he painted backdrops for Hollywood shows and traveled throughout Europe with the Bob Hope, Danny Kaye, and Celeste Holme troupes.

He originated a comic strip called Alex Flapjack in 1949, later worked as chief draftsman in an architect's office, and served as a reporter and staff artist on a newspaper.

Other accomplishments have included drawings with three-dimensional effects for a safety campaign, which resulted in guest appearances on radio and TV; drawings and story material for "The Day of the Return" which was published in four installments; and designs for the second prize-winning float of the Mardi Gras parade.

### SCHOLARSHIPS

Application forms for scholarships for the 1956-57 school year should be returned to the Student Aid and Placement Office, 107 East Annex before Jan. 31.

## English Instructor To Give Program Of Folksongs-Ballads

Edward D. Ives, English instructor, will sing a program of folksongs, traditional songs, and ballads to guitar accompaniment Sunday, Jan. 29, at 4 p.m. in the Memorial Union.

Ives does not attempt to reproduce the Drinkin' Gourd," and "Long John."

### Varied Program

On Sunday he will sing four American numbers: "Lolly-too-dum," "Hangman, Hangman," "Ox-Driver's Song," and "The Escape of Old John Webb." His three English selections will be "Brigg Fair," "Swansea Town," and "The Sweet Nightingale." "The Bonnie Earl of Murray" and "Waly Waly" come from Scotland, "Sh-ta-ra-dah-dey" is Irish-American, and "The Rising of the Moon" is Irish. He will also sing three American Negro songs: "Brady," "Follow

## Hauck Is Named

President Arthur A. Hauck has been named to the Commission on Pre-Professional Education of the Association of American Colleges. President Hauck was named to the commission at the annual meeting of the association last week in St. Louis.

## Elect Four Girls To Leader Group

WSGA Council elected four girls to serve on the Leadership Conference Committee next fall. Representatives will be Virginia Freeman, Judith Webster, Mary Louise Cook and Dorothy Lovely.

Judith Pendleton, Anita Ramsdell, and Elva Brackett have been named to serve on the nomination committee to nominate seniors for the Senior Watch Award to be given at Commencement.

Senior women will not be allowed late permissions during the final examination period. Any women who do not have finals on Monday or Tuesday, the last two days of finals, will be permitted 12:10 a.m. permissions.

## Union News

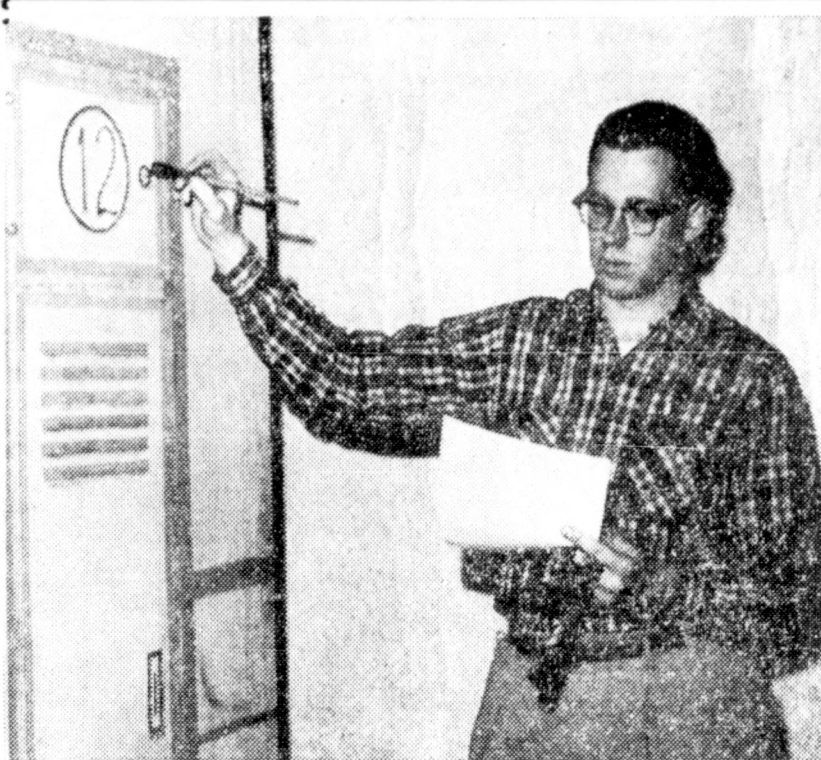

The embossograph, poster maker, of the Union will not be in operation until Feb 9 because of maintenance work being done on the machine.

During the period between semesters the Union's facilities and services will be open during regular hours with the exception of Sunday morning, Feb. 5. The Union will not open until 1 p.m. that morning and the Bear's Den will open at 5 p.m.

A movie, "The Snows of Kilimanjaro," will be shown in the Bangor room Friday and Saturday, Feb. 3-4, at 7:30 p.m.

The Games and Tournament committee will sponsor a straight rail tournament Feb. 8-9. The tourney will be held between the hours of 3-5 p.m. and 7-9 p.m. on those two days.

The finals of the University intercollegiate billiard tournament will be held Wednesday, Feb. 15.

Pete Baker, president of the Maine Masque Theatre, adds a final touch to a scene for a Masque play. Pete, who was elected president of the theatre group last spring, is a senior. He became interested in theatre while in high school. (Photo by Johnson)

## Masque Head Has Long Had Interest In Theatre

By WAYNE JOHNSON

Harold "Pete" Baker, president of the Maine Masque Theatre, first became interested in theatre when a junior at Marblehead, Mass., high school. A friend asked him if he would do the sound effects for a school play. He conceded with many misgivings, but found that he liked it and has been working in the theatre ever since.

The following two summers he worked at the Marblehead Playhouse. He did scenery, lights and general backstage work. His interest in the theatre grew and it was at this point that a former Maine student convinced Pete that he ought to come to the University of Maine.

### Gets Acquainted

The first day at school here he went over to Prof. Herschel Bricker's office to get acquainted. In the first show that year, "Lady in the Dark," Pete ran the lights. Also that year he was chief electrician for "Death of a Salesman." At the end of the first semester he became a member of the Maine Masque Theatre.

In his Sophomore year Pete was elected chief electrician for the Maine Masque Executive Council and served in that post for all four Masque shows and the movie "The Black Cat."

The next year Pete continued as chief electrician, designed the lighting for "My Three Angels," "Mr. Roberts," and "The Moon Is Blue" for

which he also designed and built the set. For "Peer Gynt" last year Pete did the background recordings. He spent two months getting these recordings ready and had over 7,200 feet of tape for use in the show.

### Receives "Gold Apple"

At the end of the year Pete was elected president of the Maine Masque and received a "Golden Apple" for his work in "Peer Gynt."

Pete, an English major, has many hobbies including music, theatre, art, electronics, old cars, photography, and travel.

## Bodine Photos Are On Display

Ninety photographs by A. Aubrey Bodine, a Baltimore photographer, are being exhibited now in the Louis Oakes Room of the Library.

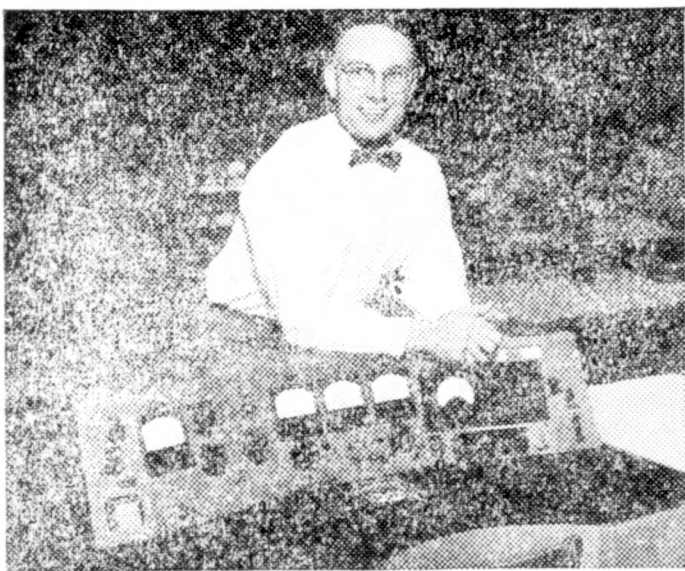

This is one of three exhibits arranged at the University during January by Prof. Vincent A. Hartgen, head of the art department.

The exhibition of photographs draws heavily from prints which Bodine used in the preparation of his two books on the state of Maryland. Bodine has made a comprehensive study of places, persons, and historic events in his state. He is said to have a better knowledge of the Chesapeake Bay area than any other resident, with the possible exception of the fishermen and watermen who live and work on it.

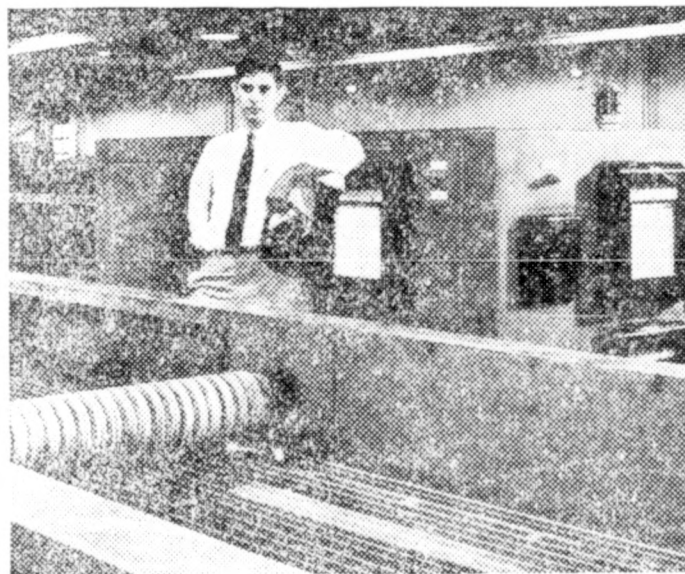

Some 700 of his photographs concerned with the maritime life of the Bay have been placed in the world renowned Mariners' Museum in Newport News, Va.

## Young engineers making news

### at Western Electric

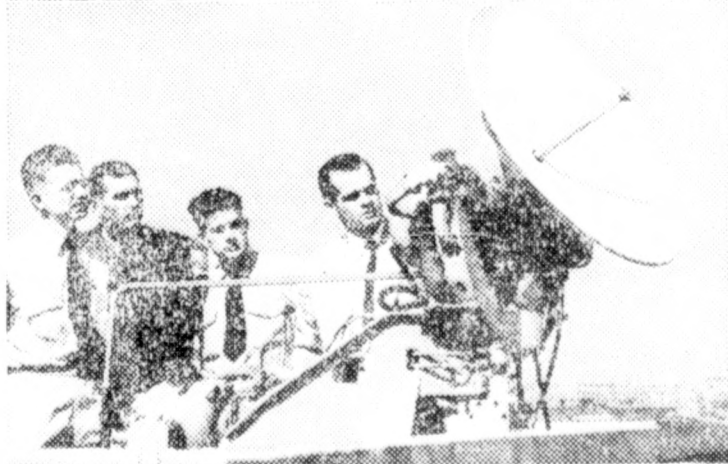

Richard C. Shafer, B.S. in mechanical engineering at Lehigh, was one of 16 engineers assigned to one of Western Electric's toughest post-war projects—developing manufacturing techniques for mass-producing (with great precision!) the tiny but amazing transistors which are already causing a revolution in electronics.

Paul J. Gebhard, B.S. M.E. at the University of Maryland, was one of a team that helped develop Western's new electroforming process for coating steel telephone wire with copper, lead and brass in one continuous operation. His job: to develop conductor resistance-annealing equipment and electrolyte filtration and circulating systems.

Bobby L. Pettit (at right), an E.E. from Texas A. & M., is one of several hundred members of Western Electric's Field Engineering Force. These F.E.F. men can be found all over the world—working most closely with the Army, Navy and Air Force—advising on the installation, operation and maintenance of complex electronic equipment made by W.E.

Western Electric's primary job—which goes way back to 1882—is to make good telephone equipment that helps Bell telephone companies provide good service. It's a very big job—and a very important one—which calls for the pooling of varied types of engineering skills.

New manufacturing processes and methods are constantly required to produce better telephones, better central office equipment, better wires and cables, new types of electronic equipment to keep pace with the nation's ever-growing need for more and better telephone service at low cost.

In addition to doing our job as manufacturing unit of the Bell Telephone System, Western Electric is busy producing many types of electronic equipment for the Armed Forces. Here again, young engineers of varied training are doing important work in connection with the manufacture of radar fire control systems, guided missile systems and special military communications systems.

Write for booklet "Your Opportunity at Western Electric." College Relations Dept., Room 1029, 195 Broadway, New York 7, N. Y.

### International Club Plans Sukiaki Dinner Monday

The International Club will sponsor a Sukiaki Dinner for the benefit of the Good Will Chest Drive Monday evening, Jan. 23, from 5-7 p.m. in the Women's Lounge of the Union.

The dinner, a popular meal served in Japan, will be prepared by Yon Kinoshita, a foreign student from Japan.

The price of the meal will be \$1.25 per plate.

A limited number of tickets are available from Shirley Brown, Chadbourne Hall; Nancy Whitham, Elms; Abdul Bari Awan, Oak Hall, or from the SRA office in the Union.

## Editorials

### Let's Sign Those Letters!

We have received several letters to the editor recently with no name at the end. Without the signature we can't print them.

Letters are an important source of information and reflect your opinions on various issues. We like to receive them and always print them. The only stipulations are that they be signed and not too lengthy (because of space limitations).

There are two major reasons why we can't print an unsigned letter. One reason is that we have no way of determining the reliability of the information without a signature. We don't know if the writer is serious or not, whether he is playing a joke or making a hoax out of the thing. For instance, if we receive a letter criticizing or commenting on some issue, that is not signed, how in heck can we print it if we don't know what the source of information is?

The second reason why letters must be signed is the idea that the person writing should have enough gumption to sign it. The letter contains his views on an issue or event and are credited to him. Therefore, he shouldn't have any qualms about signing the letter, since he composed and wrote it.

We are glad to withhold a signature from print for any good reason.

The editorial page of *The Campus* reflects student opinions. Editorials, columns, letters from the readers and cartoons all illustrate what the students are thinking about, their stands on various issues and comments on happenings. Reading the page over gives the reader a good cross section of student viewpoints and remarks.

A lot of the anonymous letters we have received have presented excellent criticisms on current campus issues. It is regrettable to have to file them because the writers failed to sign them.

When you feel like sounding off on some issue or just commenting on something, write us a letter. We'll be glad to get it and the readers will be interested in your viewpoint.

Just don't forget to sign it—then we know the scoop.

While we are on the subject of letters to the editor, we'd like to correct an error that appeared in a letter last week. There are approximately 800 not 400 vets on campus.

### Fraternities Are Catching Up

Does the voting out of Hell Week by one of the fraternities here at the University last week have any significance? We think so.

We think that the fraternities here at Maine are finally catching on to the nation-wide trend of dropping Hell Week and adopting a Greek Week or similar program in its place.

Many fraternities deserve credit for taking it upon themselves to drop Hell Week, realizing as one house did the "immature tactics" of the program. This trend, however, has come about in some quarters largely due to pressure applied to fraternities by college administrations and by public opinion. It is regrettable that more fraternities cannot see the light of day for themselves and judge Hell Week for what it is really worth—nothing!

Fraternities here at Maine except for a few have been reluctant to break away from Hell Week altogether, preferring a sort of combination of Hell Week-Greek Week. This is a step in the right direction and we along with the Dean of Men predict that eventually Hell Week will some day disappear on the Maine campus.

The handwriting is on the wall and it's high time for fraternities here to bring themselves up to date.

M. L. H.

### LITTLE MAN ON CAMPUS

by Dick Bibler

"COME ON NOW—WHICH ONE OF YOU GUYS HAVE OUR 'CLASSIC COMICS'—WE GOTTA STUDY FOR A LIT TEST TOMORROW."

### Letters

To the Editor,

It's now the time to order the black coffee, a pack of No-Doze pills, and if the nerves permit it some benzedrine... the masterpieces of the faculty are arriving in disguise of final exams.

There are certainly some major fallacies in the present system of final examinations, and I give credit to the student body for facing up to the coming disastrous week. Not many have flunked early to avoid the rush.

The freshmen may read this with no apprehension, but wait till two weeks from now. By the time one is a senior, he cannot help being frustrated at the final exam methods. Students, don't let it worry you, there is no psychologist that has devised a proper method of examination and there never will be.

First of all let us take a look at the poor underpaid college teachers. From my experience at student-teaching and with the opinion of a majority of the instructors, how is it possible to give a fair exam to the student? Just think of the different capacities, the 3,000 different backgrounds, the cramming of approximately 45 hours of classes into a measly 2 hours!

**Must Have Them**  
Final exams don't mean a thing! But we must have them, and the poor instructors have the burden. They have to write the exam (that's not too bad), now they must correct the exams, and mind you within 48 hours... this is entirely ridiculous. I would like to know what the instructors do for some courses where it takes three days to read the papers!

Is our present system the honor system? If it is, it's definitely not working too good. I thought the cribbing, cheating, and whispering were left back in the high school days. How can 1 (one) instructor supervise 120 students taking an exam? Some of the exam reminds me of the honor system West Point Academy had several years ago... remember who was involved?

It's high time Maine fell in line with some of the other schools. The student is always good to criticize but he can also give some pertinent advice; too many of us sit back and wait to see what will happen. Let's do something to remedy this unjustifiable situation.

Here are a few suggestions for the students to mull over, and the rational, conservative Academic Policy Committee to classify in their circular files.

How about the general European system of examination. No prelims, no quizzes, one does not even have to go to class, just take a final exam. No, this pill is too hard to swallow. It is too drastic a change from our present system.

One that is often in favor—have the final mark be the overall average of the semester's work. The argument presented "We need the review to retain what we have learned, we need the final exam." Even if you do review, two months after, you still retain only 20% of what learned.

#### Pet Formula

And for my pet formula—it shouldn't knock the administration over—let the student have an option on the final examination if he has a grade of B or better in that particular course. The student who feels he needs the review, let him take the final exam. It is true this would be limited to a number of students but it is the best incentive for studying all through the semester. Some students would not have any finals, some others a few; it certainly would be a small minority that would not profit by this scheme. And furthermore just think, faculty members, the reduction in number of papers to correct!

There are some details to fill in in this acceptable scheme but what's the use for enumerating them. Certainly it will take several generations before the administration reconsiders some changes in the present, infamous methods of final examination. How long did the student body wait for a break between semesters to rest their weary brains? The faculty found out they needed a break more than the students!

SENATOR GILLES AUGER  
401 Oak Hall

What's going on here? *The Campus* "Chatterbox" attacks the faculty one week before finals. If I were a psych major, I'd be inclined to ask "What kind of psychology is that?" As an old horsetrader with a little horse sense, I'd venture the opinion that this policy "ain't hep—cat."

From a purely personal standpoint, here I am trying to prepare myself for the eventual care and support of an undetermined (as yet) number of offspring through diligent study and application to all conventional norms of academic life and what happens—torpedoed in sight of land!

Didn't you consider the effect of your article on the already overworked, underpaid dispatchers of knowledge and wisdom? Even the most benevolent professors will downgrade one or two letters. The only grades that won't drop will be those given by heartless (but fair) statisticians. They'll give the same old poor (but honest) grades as usual.

Honey (Bev, Chatterbox), for your own good, as well as those of countless hungry infants in years to come (infants whose parents, one or both, failed to pass the introductory course in elementary weaving technique)

### Campus Humor

In last week's column we printed what a coed at the University of Pennsylvania thinks of the college male. In all fairness, we would like to present the other side of the picture. It is original and written by Neil Troost, a transfer student from the University of Arizona.

#### WHAT IS A COLLEGE GIRL?

A college girl is a gossip column with two faces, naïvete with false courage, and a perfume factory with a high I.Q.

A college girl is an unusual composite—she has the beauty of Cinderella's sisters, the disposition of Marie Antoinette, the trustworthiness of Bathsheba, the worldliness of Maud Muller, and the elegance of Annie Oakly.

She likes soda pop, milk shakes, candy, classes, expensive dates, dolls, cosmetics, new clothes, the T.V. show "Secret Storm," bridge, dancing, studying, telephone calls, praise, new cars, athletes, Liberace, mommy and daddy, and any college male with a bank account.

She hates alcoholic beverages, spicy books, burlesque shows, good jokes, bold males, males without money, working, walking, silence, Marilyn Monroe, mice, excessive weight and any grade below a B.

A college girl is a versatile creature. She can't cook, sew, drink, smoke, tell jokes, argue politics, understand sports, fish or hunt, play football, drive a car, or use a slide rule.

She is dedicated to a four-year search for a husband—and although she hunts diligently, she is already married—to her mirror. She is a proud creature with a subtle talent for trapping men. Her mask is deception—it is independence, sweetness, and studiousness. Her excuse for entering college is the pseudo-pursuit of a career.

A college girl is a hypocrite with an Italian haircut, but she is still the idol of every college boy's dream. She deceives, flirts, and plots to apprehend her male friend, until she succeeds. Often, and without conscience, she breaks the hearts of would-be-lovers.

Despite her variety of defects and her insidious disguises, she is irresistible and indispensable—the college boys would be bored stiff without her.

#### A FINAL VERSE

Manhattan, Kan. (ACP) With finals looming ominously ahead, Ann Weathers sat down and penned a short verse in her column in the *Kansas State Collegian*. It reads:

Tests, tests, everywhere,  
With drops and drops of ink;  
And never a prof who'll leave  
the room  
And allow a guy to think.

#### BOY-GIRL-DISCUSSION

This has nothing to do with culture, but is has a lot of humor.

A couple of weeks ago a student and his date drove out to a beach on the Willamette River to discuss atmosphere conditions on the moon and other such trivia. Later, when they started to leave, they found the car wouldn't start. The fellow got out to look at the engine and stepped knee-deep in water. It seems they had been so involved in their discussion, the couple failed to notice that the river had risen and flooded the beach. They had to wade to shore getting back late and pretty muddy.

#### NEWS FROM ABROAD

Montreal—A new and original club, known as the Canadian Rocket Society, has been formed at St. George William College. Its purpose is to build and test solid and liquid fuel rockets.

desist from this attack on our beloved tutors!

At least save it 'til the beginning of next semester. They'll forget it by the time spring exams roll around.

This letter is, of course, all in fun. What I mean to say is that "it's been fun!"

NAME WITHHELD

## University Press Publishes Book

The University Press has just published a 70-page book entitled "Seaports in Maine: An Economic Study." Author of the book is Dr. Henry Austin Peck, associate professor of business and economics.

The book is one in a series published as University of Maine Studies. Copies of this and other publications in the University Studies Series may be obtained at a small fee from the Librarian of the University.

The preface of Dr. Peck's book indicates that the purpose of the study is "to survey the maritime commerce of the state of Maine and to analyze some of the economic factors which influence it."

"Waterborne commerce in Maine has had a long history," the preface points out, "and at times in the past Maine ports have been among the most active in the nation. In more recent years, however, business has fallen off, and it has only been very recently that some revival has occurred."

Robert Deveau, capt. of D Company, Seaboard and Blade society, leads Pat Wade, last year's Honorary Lieut. Colonel, through the sabre arch at the Military Ball Friday evening in the Memorial gym. Dale Starbird, the new Lieut. Colonel, can be seen behind Miss Wade. (Photo by Meinecke)

## Dale Starbird Crowned At Annual Military Ball

By CAL GERALD

The annual Military Ball was a big hit at the Memorial Gym last Friday night. Dale Starbird was given her commission as Honorary Lieut. Colonel at intermission, having been chosen by the student body who went to the polls Friday. Col. James T. Walker, Professor of Military Science and Tactics, presented Miss Starbird with a cup, and Miss Patricia Wade, former Honorary Lieut. Colonel, presented her with a bouquet. Nat Diamond and his orchestra provided the music. Chaperons were Lt. Col. and Mrs. Clinton Merrill and Lt. Col. and Mrs. John Wiggs. Guests were President and Mrs. Arthur A. Hauck, Mr. and Mrs. Henry Doten, Mr. and Mrs. Prescott Vose and Col. and Mrs. Walker.

Alpha Gamma Rho gave an informal dance Friday night and couples danced to the music of Dale Whitney and his orchestra. Bob Parker was in

charge and chaperons were Prof. and Mrs. Richard Saunders and Prof. and Mrs. Cecil Howes.

The Square Dance Club sponsored the "Hoe Down Hop" Saturday evening in the main lounge of the Memorial Union, with Capt. Otis Rodgers calling the dances.

Jim Smaha was in charge of the vic dance at Beta Theta Pi Saturday night. Chaperons were Mr. and Mrs. John Nichols and Prof. and Mrs. Frederic Martin.

Chaperons at Kappa Sig's vic dance the same night were M/Sgt. and Mrs. Earl Eastwood and Mrs. May Hamilton. Mike Nagem was in charge.

Members of Delta Zeta sorority and their guests, members of Phi Mu sorority, were entertained Monday evening, Jan. 9, by Prof. Horace Quick of the Forestry Department. Prof. Quick showed a movie, "Dogs in the Bush," which he and Mrs. Quick made on their trip to Alaska in 1947. Arrangements for the program were made by Jessie Sargent, standards chairman for Delta Zeta.

**PINNED:** Jackalyn Anderson to Charles Mosher, SAE; Barbara Bauer to William Manek, SAE; Cherie Hicks to John Buzzell, Phi Kap; Shirley LaVasseur to Edward Olson, Phi Kap; Elizabeth Kononen to "Hank" Berry, Delta Tau; Sally Gay to Edson Blodgett, Sig Ep; Jean Goodeill to Kenneth Kinney, Beta Theta Pi; Marlene McKenney to Arthur Allen, Lambda Chi; Constance Brow to Daniel Day, Colgate University, N. Y.

**ENGAGED:** Joann Hanson to James Powers, Tufts College, Mass.; Gayle Prince to A/C Eugene A. Erb, U.S.A.F.; Claudette Coffin to George Sylvester, Phi Gam; Mary Jane Mitchell to Rolando Pizarro, Delta Tau.

**MARRIED:** Anne Marshall to Allen Anderson, SAE.

### New Signs To Go Up In So. Apartment Area

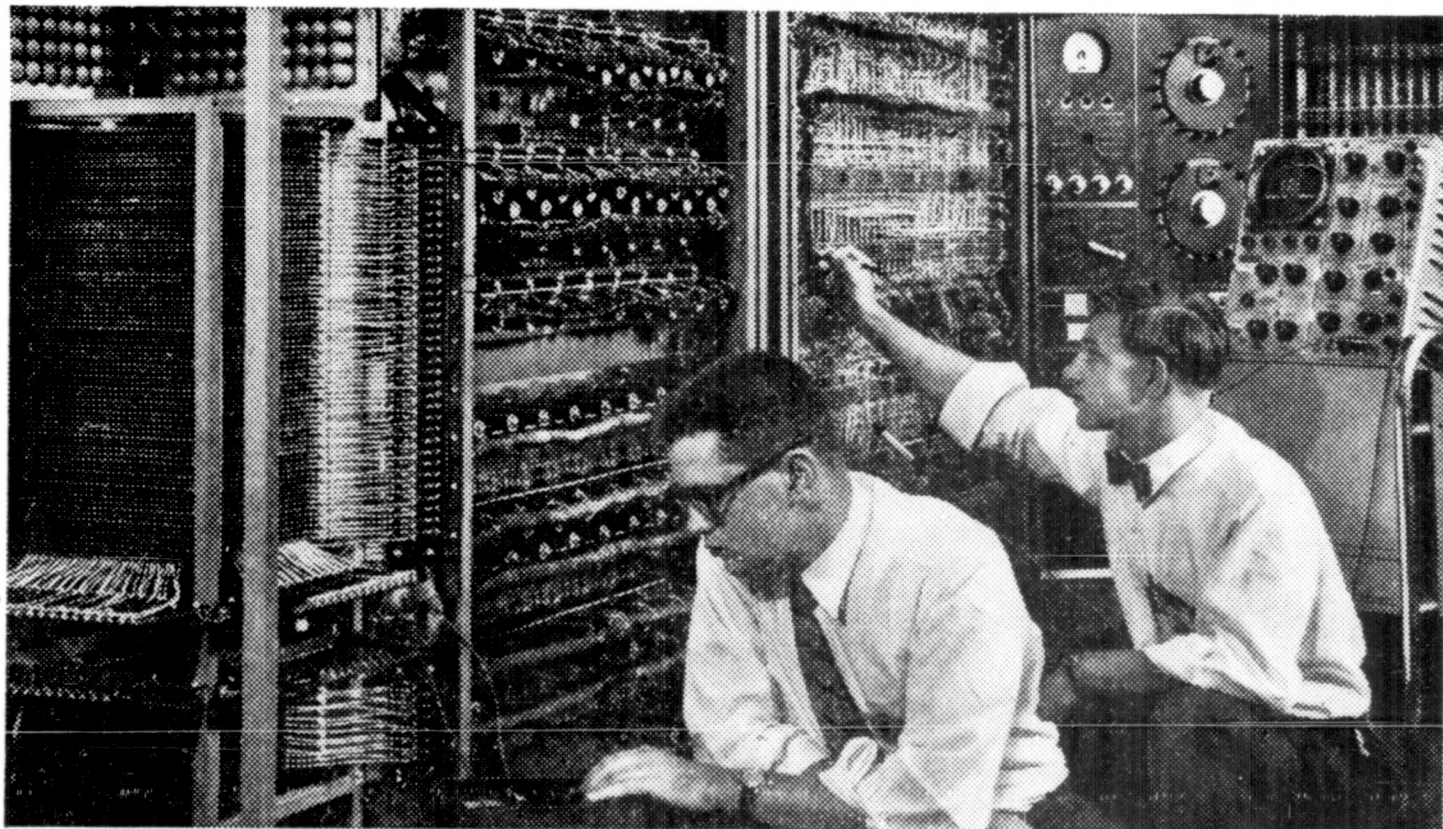

Colorful reproductions of Donald Duck, Mickey Mouse, the Three Little Pigs, and other comic characters will be used to add emphasis and eye appeal to speed limit and other precautionary signs in the South Apartment area, the University Student Safety Committee announced this week.

The project is part of a child safety campaign in the South Apartment area sponsored by the Safety Council and the Mrs. Maine Club.

## THIS FIELD IS AS YOUNG AS YOU ARE

One of the best growth opportunities for a young engineer today lies in the new and rapidly expanding field of digital computer development and design.

The rapid progress which electronic giants have achieved in business, science, and government is dwarfed by their potential. Fulfillment of this potential offers unusual challenge to an engineer's ingenuity.

Young engineers have made substantial contributions to IBM's recognized leadership in computer development and design. For example, the average age of the engineering team which built the famous 701 computer was only 28! Young IBM engineers also play important roles in solid state materials research and in the development of advanced computer components.

At IBM, engineers enjoy a climate which encourages achievement—eminent associates, advanced facilities, creative freedom. Out of this climate has grown a tradition of engineering excellence.

Should you choose computer engineering as a career, what more logical place to start than with the leader? At IBM, you will have unrestricted professional opportunity.

FOR FURTHER INFORMATION about IBM make an appointment through your college placement office to see our campus representative, or write to W. M. Hoyt, International Business Machines Corp., 590 Madison Avenue, New York 22, N. Y.

## Many Attend String Concert

By PAT JONES

In spite of the heavy rain last Sunday afternoon, approximately 170 people crowded into the Main Lounge of the Memorial Union to hear the University's String Ensemble Concert.

The program consisted of "Menuet" by Valensin, "Concerto grosso V Op. 6 No. 5" by Handel, "Concerto II, G dur-Sol maggiore K. No. 107 by Mozart, "Dances for Harp and Strings" by Debussy, "Adagio, from Sonata in D minor Op. 108" by Brahms, "Night Soliloquy" (for flute and strings) by Kennan, "Aria in Classic Style" (for Harp and String Orchestra) by Grandjany, and "Holiday for Strings" by Rose.

### Treat For Audience

As many students in this vicinity don't have an opportunity to hear strings accompanying flute or harp, the performance was a treat for the audience.

Jean Ann Davidson played her mournful contemporary flute solo with technical facility.

Members of the ensemble are Earle R. Melendy, conductor; Roberta White and Gene Melendy, 1st Violins; Constance Eberhardt, Marilyn Graf-fam, Lora Lenz, and Nancy Bradford, 2nd Violins; Helene Beyer and Faith Varney, violas; Klaus Kroner, violon-cello; Greyson Lane, bass; Jean Ann Davidson, flute; Beverly Antonitis, harp; and Priscilla Pfeiffer, piano.

## Bear Facts

By

MAX BURRY

(Sports Editor)

The varsity basketball team which has been running hot and cold since the season began, finally got their offense to click Saturday at Bowdoin. The squad has the talent to win games, although there is a decided lack of height in the ranks.

We hope that the Bowdoin game was the turning point for the hoop Bears. Actually the season hasn't been as dismal as the record shows. The Woodburymen lost two games by one point and another by only three. The squad faces a tough post-exam schedule against Rhode Island, Connecticut, and New Hampshire. The Bates game Saturday will also be a big obstacle to Maine in their quest to better last season's 4-13 record.

Conference rivals are expected to give the Bears the proverbial "run for their money," but don't count the Maine team out yet. Anything can happen in basketball and if the Maine squad is "up" for the Yankon duels the outcome may be surprising.

Just Jottings: tough to take... ski team in top shape but week-long rain eliminates all traces of the necessary white stuff. Anybody taking bets that it will rain during Winter Carnival? We're looking for Colby to nominate a member of their present coaching staff to fill the vacant football slot left open with the resignation of Frank Maze. Against Bates two weeks ago Stan Furrow ran the last mile and one-half of a two mile event wearing only one shoe... on a cinder track no less. Tough on the feet but it makes us proud to have an athlete bearing Maine's colors fight so hard for a win. Still on track: one of the better Pale Blue broad jumpers may not see action against Bowdoin Saturday because of an ankle injury. Dud Coyne has teamed up with the Kappa Sig intramural hardwood combination and looks like the man to watch during the remainder of the Greek campaign... unless, of course, he dons a varsity suit. The Kappa Sigs have come a long way since the outset of the season... watch out Phi Mu... Although the handball season has just gotten underway, Don Douglas and Cal Anderson get our nod as the circuit leaders. Jack Butterfield's yearling aggregation is the answer to a coach's prayer. The frosh boast an "A" and "B" team of equal power. The only hitch in the situation is the ever-present shadow of ineligibility. And, as a final note, one of the top scorers on the rifle squad may be dropped from the squad for failure to attend matches.

Elsewhere on this page is a letter on intramural basketball officiating... some of the games are a little rough, but cheer up, some of the student whistle-blowers are doing a great job. Where else could they get the experience? We don't feel that the situation is quite that bad... New ski school at Sugarloaf presents an opportunity for some excellent instruction at moderate prices.

## Within The Walls

The fraternity basketball circuit standings changed during the past week and one-half, with Kappa Sig rolling out into the number one spot. Phi Mu knocked off Phi Gam for the second place slot, and as of Tuesday Phi Gam and Phi Eta were deadlocked for third place honors.

Beta and SAE still threaten the leaders with identical 3-2 records.

### Stun Beta

Kappa Sig stunned Beta with a 14 point victory last week, sparked by Dud Coyne, former freshman cage ace. Coyne led the Kappa Sigs to victory with one of the fastest offenses seen in the intramural loop in some time.

Phi Mu, last year's campus champs, downed Phi Gam 66-49 to unseat the Fijis from the sunspot. Phi Eta has lost only one decision in six outings, while Beta and SAE have posted 3-2 tallies.

In the fraternity handball league Phi Mu, Kappa Sig, Phi Eta, Sig Ep, and Delta Tau have all gone undefeated while scoring victories over Beta, Sigma Nu, Phi Gam, Alpha Gamma Rho, and Lambda Chi.

The basketball schedule remaining before exams:

**Tonight**  
**7:00**  
**Kappa Sig vs. Phi Mu**  
**Newman vs. Corbett 4**  
**8:00**

### MOC To Start Ski Tow

The Maine Outing Club will operate the ski tow across the river week ends, snow and weather conditions permitting. For additional information contact Mike Shannon, North Dorm 5.

Beta vs. SAE

TKE vs. Phi Eta

9:00

Theta Chi vs. Delta Tau

ATO vs. Lambda Chi

## Bear Sharpshooters Boast 23-5 Record, 2-2 League Tally

Coach Captain M. A. C. Gardiner's Pale Blue rifle team has piled up an impressive 23-5 record since the outset of the 1955-56 season.

The Black Bear marksmen, paced by Milton Friend, have won almost all of their postal matches, but boast only a 2-2 New England College Rifle League record.

Last week the Maine sharpshooters were eked out by Colby with a 1341-1348 verdict, but went on to down Bowdoin at Brunswick with a 1374-1329 decision. The team has been traveling with the varsity basketball squad.

Milt Friend, high man for the rifle combination, has placed first in all of the team's matches. He has fired as high as 291 out of a possible 300 score in actual competition.

### ROTC Team

The ROTC squad, separate from the varsity team, has gone undefeated in 26 matches, while the freshman squad has piled up 11 victories against only one defeat.

Paul Firlotte

## Firlotte, Coach To Be Honored

Paul Firlotte and Coach Chester Jenkins, two outstanding Maine track and cross country figures, will be honored at the annual *Bangor Daily News Sports Award* dinner Saturday evening, Jan. 28.

The event will be held in the auditorium of the *Bangor Daily News* Building on outer Main Street in Bangor. Firlotte has been named to receive the outstanding Maine amateur athlete for 1955 award, and Jenkins will be honored for his outstanding contributions to Maine track over the past 28 years.

Firlotte, hailed by sports writers in New England as the "Ellsworth Express," started his career at Ellsworth high school. After three years of highly successful cross-country at Ellsworth, Firlotte came to Maine.

During the past four years the stellar trackman has set a number of records. Last fall he won the Yankee Conference championship cross-country meet for the third consecutive time, and went on to blaze a victory in the New England in Boston.

Firlotte, an electrical engineering major, is the state and Yankee Conference two-mile titleholder. He is a member of Phi Eta Kappa.

"Chet" Jenkins has coached track and cross-country at the University of Maine since 1928. He has produced 13 state cross country champions and 13 state track champions. Jenkins has also coached his Maine thinclads to five New England championships and one national freshman cross country title.

In 1950 his cross-country team tied Vermont for the Yankee Conference title and last year won it outright. A graduate of Dartmouth College, he coached track at Bates College before coming to the University.

Paul Piggott and Don Martin are both "better than some of the varsity marksmen" according to Gardiner. Gardiner said that Piggott particularly is outstanding.

The next varsity shoulder-to-shoulder match the Bears will compete in will be against the University of New Hampshire at Orono, Feb. 18. This match will mark the first time that an out-of-state team will compete against Maine on the Maine rifle range.

Maine State Series basketball play began in the 1937-38 season with Colby winning the first championship that year.

## Maine Cagers To Face Powerful Bates Quintet At Orono Saturday Night

*Bates Offense, Paced by Callenda, Hartleb and Manteiga, Upsets Colby*

After defeating Bowdoin to capture their second victory of the 1955-56 season, Coach Harold Woodbury's varsity cagers will face Bates Saturday night at 8:15 in Memorial Gym for their last pre-exam test.

### Bates Topples Colby

Bates routed Colby over the week end in one of the biggest basketball upsets in the State Series circuit for some time. Colby has compiled a 47-4 record in the State race during the last six campaigns. Friday's defeat for the Mules at Lewiston was their first Series loss in more than two years.

Will Callender, Jack Hartleb, and Johnny Manteiga are the nucleus of the Bobcat team which has turned into a State power this winter. The Garnet forces slashed the Maine quintet in an outing last month by a comfortable margin.

The only other Series clash this week also involved Bates. The Bobcats made a home stand last night against Bowdoin.

After the between-semester break the Bears will lunge into their Yankee Conference schedule, meeting with Rhode Island, Connecticut, and New Hampshire. The Pale Blue quintet will travel to Kingston and Storrs February fourth and sixth, but will return to the court in Memorial Gym for the New Hampshire duel February 8.

### Defeat Bowdoin

Maine's Saturday decision against the Bowdoin combination gave the Bears their second victory since the season's opener against Vermont. The Woodburymen shone on the free throw line, posting 42 of their 82 points on fouls.

Bowdoin, however, out-scored the Pale Blues from the floor 25-20 in the game at Brunswick. Maine dunked 42 of 63 foul attempts and set up a strong defense to upset the Bowdoin aggregation.

Although Maine lagged behind 40-36 at halftime, Pete Kosty, junior guard and playmaker, sparked the Bears in the last frame to take the 16 point victory. Kosty piled up five buckets and 16 free throws to post 26 points and grab scoring honors for the game.

## Test Proposed For Intramural Hoop Officials

The *Campus* sports department received a letter Monday from a student who is dissatisfied with the student officiating at the intramural basketball games. We have reprinted the letter below:

If Coach Westerman is looking for good football material, he needs only to scout a few intramural basketball games.

Intramural ball has reached the "riotous" stage chiefly through the incapability of the officials employed. Most of these so-called referees would have difficulty controlling a woman's sewing contest, let alone a pressure-packed basketball game in which tempers sometimes can and often do, flare. Their chief difficulty seems to evolve from a complete disregard of the rule book, the results of which not only lead to genuine confusion, but also possible injuries. Participants consider themselves fortunate to escape unscathed, so rough are these tilts.

### Proposes Test

This situation should definitely be alleviated. Perhaps the solution lies in the testing of prospective officials. Such a test, promoted by either the intramural council or by the Physical Education department, could include a rigid rules examination, and examination of the applicant under fire—under actual game conditions.

Improvement in officiating would be instrumental in raising the calibre of basketball now displayed. No longer would only the roughest, toughest clubs dominate the league.

BUD FOLSOM

## Thinclads To Meet Bowdoin Here Saturday Afternoon

Coach Chester Jenkins' indoor track team will make its first home appearance of the 1955-56 season at 1 p.m. Saturday against Bowdoin in the Maine field house. Bowdoin has a squad this year that is reported to be the best Polar Bear combination in several years.

Maine, which won a decisive victory over Bates in the first meet of the season, has been working hard for the past two weeks in all events for the meet Saturday. Bowdoin is particularly strong in the weights, with Bill McWilliams pacing the Polar Bears in the hammer and shot-put events.

### Bears Improve

The Jenkinsmen, however, have shown a wide margin of improvement since the encounter against Bates and should give the visitors plenty of competition. Since their defeat at the hands of Maine two weeks ago, Bates set back the University of New Hampshire, 67-60.

Maine will be relying heavily Saturday on the efforts of Frank Beyer, Jim Varner, Stan Furrow, and Dick Law. Beyer has been pacing the squad in the high jump, posting a 6' 1/2" performance against Bates. Varner, a top performer in the hurdles, dashes and broad jump is expected to do well in these events. Furrow heads the Pale Blue distance

runners, while Law should be strong in the 600 and 1000.

Bill Johnson, senior weight man, will draw the weight chores in the Bowdoin duel.

## Need Snow For Ski Meet This Weekend

The Maine-University of New Brunswick ski meet will be held in Orono Saturday if snow and weather conditions improve. Ski Coach Ted Curtis said Tuesday that the meet has not been postponed.

Curtis said that hay has been spread on the ski jump in hopes that the meet will be run according to schedule. Even if only a few inches of snow fall by Saturday, the jump should be in meet shape.

The veteran Bear ski mentor told the *Campus* that although week-long rains have washed out practically all traces of snow, the team has been working out regularly.

## Senate Votes To Adopt ID Cards For Student Wives

(Continued from Page One)

displeased with certain parts of it which seemed to have political implications.

Hickey explained that he urged the passing of the six page resolution at the last meeting as it was actually the only way the issue could be brought up again.

After discussion and amendments the resolution was rescinded and Senate President Starbird was given the power to appoint a study committee.

Named to the committee were Senator Frank Hickey, Suzanne Bogert, and Richard Offenberger.

As originally passed at the last Senate meeting the resolution listed the following areas where segregation and discrimination should be prevented or eliminated: admissions; issuing of scholarships, grants, loans, classroom procedure and curricula; student teaching training; college employment policies; student placement; student social organizations; campus housing and boarding; off campus accommodations and services; health facilities; physical education; and recreation.

The Senate approved sending two delegates, to be chosen from the student body, to two conferences at Dartmouth College Feb. 10-12 and March 2-3.

Any University student interested in attending the seminar should contact his senator or Senate President Starbird before Jan. 23.

The Senate will provide registration fees for the Seminar and the second conference concerning politics, March 2-3.

Fifteen students participating in the international relations seminar will be eligible to receive grants covering two thirds of transportation costs and three fourths of costs above \$10 for lodging and \$3.50 for food.

## Training Class Set For Tonight

The final class of the *Maine Campus* training program for reporters and students interested in journalism will be held tonight at 7 in room 3 Fernald Hall.

A review of all material covered at previous meetings will be covered and students will practice actual news-writing.

Coffee and doughnuts will be served.

### REGISTER

Registration in the School of Education for the Spring semester will be held on Monday, Jan. 23, Tuesday, Jan. 24, and Friday, Jan. 27, in the Dean's office, South Stevens.

When in Bangor stop at  
**The Pilot's Grill**  
Opposite Dow Field—

## Skit Night Is Added To Winter Carnival Program

(Continued from Page One)

Saturday afternoon the various ski tournaments will continue at the following times: 1:15-1:25, Women's Snowshoe Obstacle Trials; 1:25-1:35, Men's Ski Dash Obstacle Trials; 1:35-1:45, Women's Snowshoe Obstacle Finals; 1:45-1:55, Men's Ski Dash Finals; 1:55-2:05 Women's Ski Dash Trials; 2:05-2:15, Men's Relay; 2:15-2:25, Women's Ski Dash Finals; 2:25-2:35, Men's Novelty Race; 2:35-2:45, Women's Novelty Race; 2:45-2:55, Combined Men and Women Novelty Games; and 3-4, Jumping Matches. Those participating in the various athletic events will find the ski cabin on the slope and the M.O.C. cabin open Friday afternoon through Sunday evening.

### Variety Program

For those who prefer to stay indoors, a variety program entitled,

Commedia Die Cabaret, will be held in the Main Lounge of the Memorial Union from 2:30-4 p.m. The Modern Dance Club and Varsity Singers will be included on the program. Refreshments will be served.

Immediately following the presentation of the Skit Night Program, a Ski Tog dance will be held with Dale Whitney and his orchestra providing music. Students are urged to dress in ski clothes.

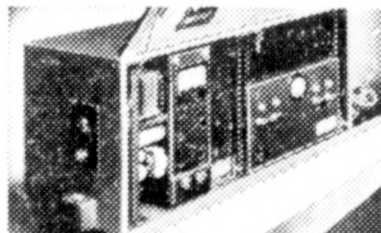

A jam session in the Women's Gym on Sunday afternoon at 2 o'clock will conclude Carnival festivities. The "Quintones" will be featured and there will also be an opportunity for anyone to "jam" during the intermission.

The registrar's office has announced that Winter Carnival week end is an official school holiday and reminds students that the cut rule will be in effect.

# PACKS MORE PLEASURE

*because it's More Perfectly Packed!*

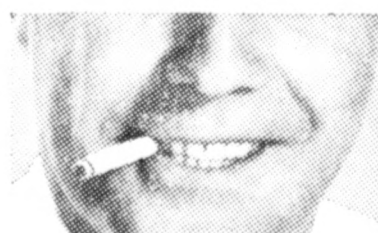

Satisfy Yourself with a Milder, Better-Tasting smoke—  
packed for more pleasure by exclusive Accu-Ray

The more perfectly packed your cigarette, the more pleasure it gives... and Accu-Ray packs Chesterfield far more perfectly.

To the touch... to the taste, an Accu-Ray Chesterfield satisfies the most... burns more evenly, smokes much smoother.

Firm and pleasing to the lips... mild yet deeply satisfying to the taste—Chesterfield alone is pleasure-packed by Accu-Ray.

# CHESTERFIELD

MILD, YET THEY Satisfy!
