## Auditor's Report

I hereby certify that I have this day examined and audited the accounts of the selectmen and treasurer of the town of Guilford for the year ending March 1915, and find the same correct.

FRANK O. MARTIN, Auditor. Guilford, Maine, Feb. 23, 1915.

## Report of Superintending School Committee

To the Citizens of Guilford:

The school committee organized soon after the last annual town meeting with A. C. Genthner, chairman; Chas. Turner and Henry Elliot, second and third members. During the early part of the year we were handicapped considerably by the fact that we were all new members and entirely inexperienced in this particular line of work. During the year it has been our aim to become familiar with the duties of this office and to make our schools as efficient as possible.

As we were instructed to do at the last annual meeting, we endeavored to engage Mr. McKusick of Parkman to serve us as superintendent, but were unable to make satisfactory terms with him. Negotiations were made with the Monson union and finally satisfactory arrangements were made whereby the present union was formed, which consists of Abbot, Blanchard, Guilford, Monson and Willimantic. The proportional part of the salary to be paid by this town for the first year was fixed at \$150.00. H. M. Pullen was elected as superintendent. As the regular year of the old union did not close until July 1st, it was not possible for the new union to go into effect until that During the intervening time W. F. Holman date. assumed the duties of superintendent.

Four of the rural schools have been maintained during the year. The school at Low's bridge was opened in the spring with an enrollment of eleven pupils, three of these being Sangerville scholars. The two Rogers children at North Guilford have attended the Bates school in Abbot. Last year \$100.00 was raised to buy organs for the rurals schools. On investigation we found, that wherever there were musical instruments in schools that these had been purchased by funds raised by the respective schools, therefore this money has not been expended as we felt that it would be more wisely expended for musical instruction than for instruments. The conveyance problem we have tried to settle as fairly for all concerned as possible. Several repairs are needed on the rural buildings. The Center, Grover and Low's bridge houses shoud have the walls and ceilings patched and calsomined and the inside wood-work painted. Some repairs need to be made on the foundations, and the Center, and Low's Bridge buildings should be painted outside. We estimate that \$150.00 will be sufficient for repair work on the rural buildings.

The appropriation made for laying concrete walks about the village buildings was expended accordingly. These walks have proven to be very satisfactory and most beneficial during the wet seasons. Two new hardwood floors were laid in the High school building during the summer, one in a recitation room and the other in the Grammar schoolroom. These were greatly needed as the old floors had become badly cracked, worn and splintered, being unsafe and extremely unsanitary. The desks in both buildings were varnished, as was the woodwork on the lower floor of the High school build-The flue of the furnace in the High school baseing. ment was changed and made larger. By this improvement the efficiency of the heating plant has been greatly increased.

A hood is needed in the laboratory room of the High school to prevent the odor of obnoxious gases from spreading throughout the whole building. A covering is also needed for the air shaft at the new building which will not interfere with the ventilation but at the same time keep out the rain and snow.

Several of the insurance policies expire this year. The premiums on these will be \$355.20. This accounts for the increase which we ask for in the repair and insurance acount.

In the financial report of last year it will be noted that there were overdrafts in three accounts, textbook, supply and common school. As shown by the report. the overdrafts in the textbook and supply acounts were comparatively small. We have taken care of these this year as our report will show. There were, however. as the last annual report did not show, outstanding bills in the textbook and supply accounts which amounted to \$113.55 and \$74.49 respectively. As these bills were not reported, we have not felt that we were responsible for their settlement out of this year's appropriation, and furthermore, this would not have been possible, as \$300.00 in each of these accounts are the smallest amounts with which it is practicable to try and conduct our schools successfully. The overdraft in the common school acount has been considerably reduced this year with the resources with which we have had to work.

NOTE CAREFULLY THE FOLLOWING FACTS

1st. The actual cost of maintaining our schools per week when all are in session, as near as can be estimated, is \$143.00; teacher's wages, \$110.00; janitors, \$12.00; conveyance, \$5.00; tuition, \$1.00; fuel, \$15.00.

2nd. If we have thirty-six weeks of school, which we believe we should have, the approximate amount which must be supplied for common schools is \$5,148.00

3rd. The amount which we have received from the State during the past year has been cut down \$96.73 from that of the previous year, leaving a total from the State of \$2.792.21.

4th. The amount received from tuition will generally be about \$175.00, although it has been somewhat more than that this year.

5th. The amounts received from the State and tuition give a total of approximately \$3,000.00, leaving a balance of about \$2,150.00 to be supplied by the town.

6th. \$2,150.00 and about \$400.00 overdraft from last year makes approximately \$2,500.00 needed for the following year. During the past year we have endeavored to obtain a clear knowledge of the financing of our schools and as a result of these investigations we strongly recommend that the following appropriations be made for the different departments. Our recommendations in the textbook and supply accounts are sufficient to take care of the old bills mentioned above.

| Common schools,                   | \$2,500 | 00 |
|-----------------------------------|---------|----|
| Music and drawing,                | 200     | 00 |

ARTICE C. GENTHNER, CHAS. P. TURNER HENRY A. ELLIOTT Superintending School Committee.

# Report of Superintendent of Schools

To the superintending school committee: Gentlemen:

It gives me pleasure to submit a short statement of the progress of the schools of the town for the spring term of 1914.

At your request I assumed the duties of Superintendent March 15th, with the understanding that my position should be temporary, and should terminate with the formation of the union of towns then under consideration. I retained the office until July 1st under that arrangement.

During the spring term the same corps of teachers remained in force as submitted in the previous report, with the exception of Miss Crocker, in the Brown school whose resignation made a change necessary at the begining of the spring term. Miss Alice Storer of Milo was engaged to fill this vacancy for the remainder of the year.

On account of my work in the High school I was unable to devote to the rural schools the time that they should have received. I was able, however, to keep in touch with the teachers, and to supply all necessary material. The school at Low's Bridge which had been closed for some time was opend with an enrollment of eleven pupils, and I think that the results of the year have shown it to be essential that a school be maintained there.

At the close of the spring term I submitted the necessary reports to the State Department, and issued contracts to all teachers who were to be retained for the coming school year. The usual promotions were made in the grades, and the work well completed. In conclusion let me say that I fully realize that I could not have carried the double duties of teacher and superintendent without the assistance of the school committee, for which I am very grateful.

Respectfully submitted,

W. F. HOLMAN.

To the Superintending School Committee and Citizens of Guilford, I respectfully submit my first report of your public schools:

As I did not assume the duties of this office until the present union of towns went into effect I was unable to give an authentic report covering the first half of the year. This part of the report Mr. Holman has kindly consented to make, which I have submitted above.

No doubt many expected that marked changes would be made in the school system during the past year on account of the election of an entirely new board of school officials. I believe, however, that I express the sentiments of your committee as well as my own when I state that in our opinions it is not by radical changes and inovations but by gradual and carefully considered remodelling that the greatest and most lasting results are obtained. There have been some rearrangements made which we feel confident have been for the advancement and increased efficiency of our schools.

#### HIGH SCHOOL

This has been a very prosperous year in this school. Although there have been unavoidable changes in the teaching force, these have been made as far as possible without any marked interruption in the general work. We were fortunate in retaining Mr. Holman for the third consecutive year. He is a man of strong personality, and of great value to the school, both as an instructor and executive. The vacancies caused by the resignation of Miss Arnold and Miss Pike were filled at the opening of the fall term by Miss Bessie Patten, a graduate of Bates college, and Miss Rebecca Fogg, who taught in the Center school last spring. Miss Patten, although coming to us inexperienced, has proven herself to be an able and efficient instructor and to be untiring in her efforts to make the work in her classes most successful. Miss Fogg resigned at the end of first half of the year and Miss Barbara Pfaff was elected to fill this vacancy in the English and History departments. Miss Pfaff's success in these departments is very evident. During the first half of the year courses in elocution were offered to the juniors and seniors. Much credit is due Miss Fogg for the success attained in this branch.

### **COMMON SCHOOLS**

Fortunately we have been obliged to make but one change in the teaching force of the village schools during the year. Miss Emma Coombs resigned at the close of the spring term and Mrs. Harold True was elected to fill the vacancy. I believe that it may rightly be said that we have a very efficient corps of teachers in our village schools, teachers who are striving to maintain a high standard in all the school activities. Mrs. Harold True has been giving a course during a part of the year which has included a very through study of the history, geography and physicial features of the town and county. This has been of much value to the school and should be given in alternate years. Some promotions have been made during the fall and winter terms in cases where conditions would permit.

### RURAL SCHOOLS

I have endeavored during the fall and winter terms, as far as I have been able, to bring about as great a uniformity as possible between the rural and village schools. I believe that this particular work should be strongly emphasized in order that pupils who change from one to the other may continue their work without its being seriously interrupted. The first step in bringing this condition to pass is the employment of competent teachers. I believe that we have been fortunate in this particular during the year. We were sorry to have Miss Storer resign from the Brown school at the close of the spring term. Considerable difficulty has been experienced in hiring teachers for this school during the year on account of the distance of a boarding place from the school-house. Due to this fact the school was closed at the middle of the winter term, with the understanding that the school would have a longer term in the spring.

Very satisfactory progress has been made in the other rural schools which is very largely due to the trained and experienced teachers whom we have been fortunate in securing for these positions.

As stated in the committe's report, repair work is needed on some of the rural buildings in order to make them more sanitary, and also more attractive to pupus, teachers and parents. The best work of pupils and teachers can be done only when the environments are in their best conditions.

The courses in Music and Drawing have been supervised during the year by Miss Helen Marsh. Very good progress has been made. I'strongly recommend that arrangements be made if possible whereby music and drawing may be more systematically taught in the rural schools.

Visitors are always welcomed in the schools. I believe that during the past year there have not been enough visits made by parents and friends. It seems to me that the only fair way for those who commend or criticise our schools is to observe the work which is being done during the school hours. Friendly criticism and suggestions are gladly received. We urge that visitors be more numerous during the coming year. I wish to extend to the committee my sincere thanks and heartiest appreciation for their most loyal support. The meetings of this board have been frequent and all problems have been fully discussed and considered before being settled.

I am pleased to submit to you the reports from Prin. W. F. Holman and Dr. J. L. Potter.

#### REPORT OF THE HIGH SCHOOL

To the Superintendent of Schools:

In the brief summary of the year now closing in the High school, which I enclose, I would respectfully call attention to a few points which I believe to be pertinent to the welfare of the high school department especially.

At the begining of the spring term of 1914 the total enrollment in the school numbered sixty. During the term three students entered on transfer papers from other schools, making a total of sixty-three. I recommended eight students for graduation. Three weeks before graduation we were saddened by the sudden death of the class president, Cyrus Chamberlain, and while it not my purpose to enter at this time into a discussion of the loss we as a school sustained, may I say that I have known but few students, whose life and character were such a source of inspiration to a teach-As a consequence of this our graduation exercises er. were somewhat altered and but seven received their diplomas publicly. At the begining of the fall term I enrolled sixty-three students. During the year I have transferred one to Deering High, one to Belfast High, and one to Edward Little High, leaving the present enrollment sixty students.

No student has dropped school this year, and I may say that present indications point next September to one of the largest entering classes in the history of the school. If the work of the present year is concluded satisfactorily I expect to recommend sixteen students for graduation in June. Now just a word as to conditions. I am very glad to note the fact that the average attendance for the year past has been 98.3% for the spring term, 98.1%for the fall term, and 97% for the winter, the best record since I have had anything to do with the High school. This is encouraging, but the per cent of tardiness is not so much a source of pride, being 92.3%. Can we not remedy this at home?

Our High school has no right to exist unless its aim is first the making of a decent citizen. We need an additional course of study for the boys and girls who cannot go beyond High school, and an extra teacher for the same. It is bound to come if the times demand it. How unfair it is to base a course of study on the twenty per cent that may continue their education, and neglect the eighty per cent that never will. Other schools are falling into line on this proposition. Let us work for it. Fiske tells us "The secret of success is just doing the thing when it needs to be done" and if we apply it to education it simply means, give the boy and girl the best surroundings possible as to buildings and equipment, and do a few things well in school. I have said again and again that we need to put the school first in the mind of the boy or girl, not some thing I claim that for nine months in the year we have else. a right to the time and attention of the student if you are in turn to demand anything of us. To secure that we need a good spirit on the part of instructor, and pupils alike, fair play, personal contact, whenever possible, as little red tape as possible, and a realization on the part of the pupil that whoever gets anything out of school must first put something into it. To realize some of these things the past year has been my aim, and in closing this report I wish to express my appreciation of the courtesy and aid extended me in all departments by your superintendent.

Respectfully submitted,

W. F. HOLMAN, Principal.

#### **REPORT OF SCHOOL PHYSICIAN**

The duty of a school physician is to examine every scholar in the schools for diseases, defects and deformities. If diseases, defects or deformities are found he notifies parents or guardians of the same that they may seek the proper treatment.

It is to be regretted that there is not more attention paid to notifications sent to parents. Certainly it is for their interest as well as the scholar's to see that they grow to be strong and useful men and women and intellectually qualified to meet the demands of life's work.

The tabulated results of examinations follow:

| Number of examinations made,             | 300  |
|--|------|
| No. cases bad nutrition,                 | 0    |
| enlarged cervical glands,                | 0    |
| chorea,                                  | 0    |
| cardiac diseases,                        | 2    |
| pulmonary diseases,                      | 0    |
| skin disease,                            | 1    |
| defective extremities,                   | 2    |
| defect in vision,                        | 10   |
| defect in hearing,                       | 11   |
| bad teeth,                               | . 75 |
| deformed palate,                         | 3    |
| enlarged tonsils,                        | 85   |
| post nasal growth,                       | 6    |
| bad mentality,                           | 8    |
| Number of notifications sent to parents, | 100  |
| Respectfully submitted,                  |      |
|  |      |

J. L. POTTER, School Physician. Feb. 20, 1915.

# REPORT OF TRUANT OFFICER

Guilford, Feb. 22, 1915.

To the Superintendent of Schools:

Your truant officer begs leave to submit the following report:

| Number of absentees reported, |   | 10 |
|-------------------------------|---|----|
| Found to be truants,          | 5 |    |
| Found and returned to school, | 1 |    |
| Leaving school at recess,     | 4 |    |
|                               |   |    |

10

## Respectfully submitted, GEORGE H. WISH, Truant Officer.

Respectfully submitted, H. M.PULLEN, Superintendent of Schools.

## Report of Guilford Memorial Library

The Trustees of Guilford Memorial Library respectfully submit the following report for the year ending February 1, 1915.

The Library has been open 102 days.

No. of books issued for home use,11,654Largest number issued one day,183

Average number issued in one day,

The following splendid sets of books have been added:

, "American Nation and Dictionary of United States History," "Shakespeare," "Dickens," and "The Childrens Hour."

The reference books are used more each year.

Patrons of the library enjoy the open stack, which allows them to choose books for themselves.

Any gifts of books or magazines are gratefully received.

The Treasurer's report showing the financial condition of the Library is given below.

#### Respectfully,

114

MRS: R. H. MARSH, Secretary of Trustees.

#### TREASURER'S REPORT

The treasurer of the Guilford Memorial library submits the following report for the year ending March 1, 1915.

## Report of Board of Health

To the Selectmen of the Town of Guilford:

The Board of Health submits the following report.

The town has been remarkably free from the more contagious diseases for the past year. No epidemics whatever. Two cases of typhoid which, however, were contracted out of town, and a few cases of measles has been the extent.

A few nuisances have been abated and the board would especially recommend that all drains from sinks, which now empty on the surface of the ground, should either be connected with the sewer or a suitable pit dug.

A word about tuberculosis. This is the most serious contagious disease that we have to contend with, as it is the hardest to manage, few people realizing the danger It is earnestly hoped and urged that the town will see fit to raise the amount asked for to provide for a district nurse as this seems to be the best way to get at the problem.

> C. W. STEVENS, F. M. BRIGGS, G. E. DORE, Sec. Board of Health.

C. S. BENNETT, Town Clerk.

## Town Warrant

STATE OF MAINE

PISCATAQUIS, SS.

To FRED A. HEATH, a Constable in the Town of Guilford in said county,

**GREETING:** 

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the town of Guilford, qualified by law to vote in town affairs, to assemble at the Town hall in said town on the 8th day of March, A. D. 1915, at ten o'clock in the forenoon to act on the following articles, to wit:

Art. 1. To choose a moderator to preside at said meeting.

Art. 2. To choose a Town Clerk.

Art. 3. To hear all reports to be made at said meeting.

Art. 4. To choose three Selectmen, Assessors and Overseers of the Poor.

Art. 5. To choose a Town Treasurer.

Art. 6. To choose a Town Agent.

Art. 7. To choose a member of the Superintending School Committee.
