Ochmanski Voted Senior President

Constitution Changes Approved; Spencer, Hayes, Taylor Elected

By Ron Drogin

With nearly 40% of the student body voting, sixteen class officers were selected in the annual Class Elections held earlier this week. In a separate ballot, the revisions to the Student Senate constitution received affirmative approval by an overwhelming majority, 1379 to 149.

Charles "Bud" Ochmanski garnered 209 votes in defeating Robert Sterritt with 121 votes for Senior class president. Ochmanski will be aided in his new position by Richard Sturgeon, Betty Colley, and Ira Stockwell. With 214 ballots in his favor, Sturgeon won the vice presidency over Eliot Rich with 120. Betty Colley's 175 was enough to capture the office of secretary over Carolyn Atkins' 147. For treasurer, Stockwell collected 107 while Jon Ord (90), Philip Curtis (71), and Norris Thurston (63)

In the closest presidential contest, Wilbur Spencer returned to power as president of the Junior class. Spencer

with 129 was only eleven ahead of Bernard "Reb" Mire, while Nelson Zand with 62 and Robert Morin, 55, also ran. David Arnold's 106 earned him the vice presidency. He was followed by David Mosher, 91; William Meissner, 77; David L. Smith, 45; and Bruce Collins, 44. Elected secretary with 221 was Judith Fowler over Laurette Martineau, 132. For treasurer, Jane Chiarini's 196 won out over Suzanne French's 164.

With 416 sophomores going to the polls, Donald Hayes, Peter Henderson, Midge Munroe, and Annette Walker were elected. Hayes received 219 votes for president, while William Lawlor had 111, and Guy Whitten took 83. For vice president, Hender-

son, 123; Dana Deering, 105; Philip McCarthy, 95; and William Jenkins, 86. With 224 voting for her, Midge Munroe was selected secretary while Virginia Cushman with 181 ran a close second. In another close contest, Annette Walker outpolled Peter Keene by 12 votes, 209 to 197, to become treasurer.

Seven freshmen ran for president of that class with B. Clark Taylor the ultimate victor. Taylor received 167 votes, Robert Craig, 82; Perry Clough, 79; Renaud Guite, 50; Sumner Lymburner, 38; S. William Ireland, 21; and Robert Hamel, 9. Four co-eds contested for vice president with Sandra Reid winning. Her 168 defeated Eleanor Clapp, 113; Jane Shapiro, 104; and Rosalie Wilson, 50. Winning the secretarial nod was Gail Hoxie with 143, as Janet Donovan, 134; Susan Edel, 93; and Diane Nash, 73, all fell short. Elected treasurer with 169 was Deborah Chapman running ahead of Debora Dee Cutler, 114; Dorelei Shraybman, 86; and Suzanne Ramsley, 67.

Maureen Henry Crowned Queen

Maureen Henry was crowned Homecoming Queen and Phi Kappa Sigma took top honors in the Homecoming display last weekend to mark the 59th Homecoming.

Contending for Homecoming Queen were Carolyn Vickery, Linda Worcester and Maureen Henry. Miss Henry was crowned queen at the dance after the rally. Each candidate presented a skit at the rally.

With a display entitled "Butcher Bowdoin," Phi Kappa Sigma won the

contest. Beta Theta Pi was awarded honorable mention, and Hannibal Hamlin won the men's dormitory division. North Estabrooke won the women's dormitory display with "Bowdoin's Explodin'."

Alumni Black Bear Awards were given Saturday to Philip Brockway, Placement Director; Marion Buzzell, professor emerita of Romance Languages; and Frederick Youngs, retired treasurer of the University. The award is given for outstanding service to the University.

Farmers' Fair Highlighted By Coronation Of Queen

By Glenn Philippon

The field house will be the scene of the Farmers' Fair this Saturday from 9 a.m. through to the evening when the festivities will move to the gym for the Calico Ball.

The highlight of the day will be the crowning of the Calico Queen at the Ball. The feature event of the day (comparable to last year's man vs. horse race) is as yet undisclosed for publicity.

The six candidates for the Calico Queen title, chosen by the women's dorms are Lee Reed, a junior from the Elms, Babs Connor, a senior in Balentine, Nancy Bishop, a sophomore from Stodder, and Estabrooke Hall is sponsoring June Toulouse, a junior. Freshman queen candidates are Penny Hendershot, Colvin, and JoAnn Pratt, Chadbourne.

The "Dixielanders" will have a jam session at 12:30 in the field house.

Booths and displays by different departments of agriculture will be found in the field house all day Saturday. Extra features of the day include the blueberry pie eating and the co-ed and queen candidate milking, bucksawing and barrel-rolling contests.

Twaggies and freshman men in agriculture will have a cattle showing and there will be cattle, sheep and poultry judging.

Bill Stetson's orchestra will provide the music for the gala Calico Ball that evening. Intermission is the time anticipated by the six candidates for the title of Calico Queen.

The six girls were introduced to the entire area last Sunday on the University of Maine Hour on television.

"Maine by Maine Artists" is now on display in the Men's Commons, the first of such displays ever to be put in the dining hall. The display is an attempt to "bring the art to the students," Vincent Hartgen, head of the Department of Art, said.

The Mrs. Maine Club will hold their annual Fashion Show "Glamour on Parade," Tuesday, November 17, at 8:00 p.m. in the Main Lounge of the Memorial Union

Building. There will be fashions, entertainment and refreshments all for 75¢. Tickets will be on sale at the door.

Students Served Art With Meals In Dininghall

A project to "bring the art to the students" is in the process of being tried this week at the Men's Commons. Professor Vincent Hartgen of the Art Department has on exhibit in the Commons, a display entitled "Maine, by Maine Artists" which has been shown much attention by students.

"Maine, by Maine Artists" is a collection of paintings depicting Maine scenes. It was arranged through the cooperation of the Ford Motor Company. All of the paintings were originally commissioned to illustrate the *Ford Times* and the *Lincoln-Mercury Times*, publications issued by the Ford Motor Company. They were done by artists either living or painting in Maine.

Some of the paintings included are: "Log Drive" by Carl Sprinchorn, "Moonlight Penobscot Bay" by Alphonse J. Shelton, "Among the Fish Houses, Monhegan" by Andrew Winter, "Blue Hill Across Harbor at Castine" by Waldo Peirce and "Waterfront at Portland" by Bradford Brown.

"Getting art to the student in an effort to help him develop culturally is our responsibility," Hartgen says. "but it is the students' responsibility to scoop up the food."

"The collection should be especially interesting to the students since they can see how artists depict Maine scenes," Hartgen added. The exhibit will last through November 13.

William Wells, director of student housing, expressed his attitude toward the project in this way: "There are 1200 men in the vicinity of the Commons; therefore I think it is an ideal place for an exhibition of this kind. I hope the student reaction will be so good that there will be many more of these exhibitions."

University T.V. Will Feature Dr. Meyer

Dr. Marvin C. Meyer, professor of zoology, will be the featured guest on "The University of Maine and You," WABI-Bangor and WAGM-Presque Isle, Sunday at 12.

Dr. Meyer, author of "The Larger Animal Parasites of the Fresh Water Fishes of Maine," recently received a \$30,000 grant from the U.S. Public Health Service for research in the field of parasites in fish, birds, and animals.

Dave Robinson will have the "Maine Steiners" as his student guests.

Agricultural Engineers Will Meet November 18

The Maine branch of the American Society of Agricultural Engineers will meet November 18 in the Memorial Union. The speaker will be Bernard P. Rines, president and treasurer of Agricultural Engineers Inc. of Gorham, Maine. Rines will speak on his personal experiences in dealing with practical engineering problems. Refreshments will be served following the meeting and the public is invited.

ESSO RESEARCH works wonders with oil

Helping you jet there sooner!

You get your "welcome home" hug hours sooner—in today's jet age. And the jet age itself arrived here sooner, thanks in part to a special oil developed by Esso Research. Every jet engine throughout the free world grew up on it. And most pure jets flying today still use it and it alone. For happy homecomings or "happy motoring"... **ESSO RESEARCH** works wonders with oil.

Phi Kappa Sigma won the Homecoming display for fraternities last weekend with "Butcher Bowdoin."

Rain, Mud Fail To Stop Activity

Diane Wiseman

The rain, mud, and all around miserable weather did not seem to dampen the spirits and the enthusiasm of the students or the grads for Homecoming was successful and bustling with activity.

Maureen Henry was crowned Homecoming Queen at the stag dance in the Gym sponsored by the Senior Skulls and the All Maine Women. Bundled up in parkas, fatigue hats, or any other gear that would keep them warm, students and alumni were on hand to watch Maine triumph over Bowdoin in the last game of the season.

Theta Chi held an after-game social Saturday followed by a buffet at the Oronoka. Sigma Nu and TEP both had alumni banquets and dances Saturday evening. The Beta's held a dance party with Oscar Davis furnishing the music. In fact, all along fraternity row the lower lights were burning with parties and dances at Phi Mu, Phi Gam, TKE, Sig Ep, Sigma Chi, and Delta Tau.

Alpha Gam held its annual alumni banquet followed by a dance with Jack MacDonough's Orchestra Saturday night. Dale Huff's band provided the music for a jam session and dance at Lambda Chi and Phi Kap had Johnny Weeks for their Homecoming party Saturday evening.

Pinned: Nancy Kennedy to Haddon Libby, Phi Mu Delta; Pat Leavitt, Farmington State Teachers College, to Dean Stearns, Sigma Chi; Sarah Robinson, University of Vermont, to Dayton Wakefield, Alpha Gamma Rho; Joyce Pagurko, '59, to Tom Moore, Phi Gamma Delta.

Engaged: Josie Brackett to Ed Hall, Phi Mu Delta.

LUCKY STRIKE presents

Dear Dr. Frood:

DR. FROOD'S MORAL OF THE MONTH

Brevity is the soul of wit. Which is why the sight of a girl in a Bikini invariably brings a smile to a man's face.

Dr. Frood, Ph.T.T.

Dear Dr. Frood: I read a great deal so I never have time for girls. Am I missing anything?

Literate

Dear Literate: Only a few marbles.

Dear Dr. Frood: The guy nex to me copys frum my paper. What shoold I do?

Truthfil

Dear Truthfil: Warn him. Quick!

Dear Dr. Frood: When I refuse to go out with unattractive girls, my friends say, "Beauty is only skin-deep." What do you say?

Fussy

Dear Fussy: That's deep enough.

Dear Dr. Frood: Do you think next year's dresses will cover the knees?

Clothes-Conscious

Dear Clothes-Conscious: They'd better cover more than that.

Dear Dr. Frood: I admire my roommate very much, so I try to be like him. He smokes Luckies. Do you think I should smoke the same cigarette he does?

Awed

Dear Awed: No. Ask him for an unused Lucky.

Dear Dr. Frood: Do you think a boy should kiss a girl on their first date?

Shy

Dear Shy: She would seem to be the logical choice.

DR. FROOD ON QUERIES
BEST LEFT UNQUERIED

Years of experience have taught me never to ask a girl these questions:

Shouldn't we skip the garlic?
What happened to the fraternity pin?
Wow! Is that your roommate?
Do you mind turning out that light?
You mean that isn't a beanie?
How come you never wear shorts?
Why don't you smoke your own Luckies?

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.

TOBACCO AND TASTE TOO FINE TO FILTER!

Product of The American Tobacco Company—"Tobacco is our middle name"

Famed String Quartet Will Give Concert

Members of the Eastman String Quartet, scheduled to give a concert at the University on November 18, are nationally known artists who have played with leading orchestras and symphonies of the country.

Joseph Knitzer, first violinist, made his debut under Walter Damrosch. He was for many years soloist with

the Cleveland Orchestra and has appeared as soloist with symphony orchestras in New York, Philadelphia, Detroit, and Boston. Mr. Knitzer has been artist-teacher of violin at the Eastman School of Music since 1955.

John Celentano, violinist, is a native of Montreal. He studied in Europe and holds degrees from the Eastman School. He is soloist with and former concertmaster of the Roches-

ter Civic Orchestra and is now on the Eastman faculty, having previously been artist-lecturer at Iowa State University. He is concertmaster of the Eastman Chamber Orchestra.

The violist in this quartet is Francis Bundra, at native of Pennsylvania. He holds a degree from State Teachers College in West Chester, Pennsylvania, and master's degrees from New School of Music in Philadelphia and Eastman. He is a member of the Rochester Philharmonic and Rochester Civic orchestras.

Georges Miguette, cellist, was born in Lille, France. His talent as a young man won him first prize and highest honors at the Paris Conservatoire. He made his first appearance with the Boston Symphony Orchestra.

The concert is to be given in the Women's Gymnasium, beginning at 8:00 p.m. The doors will be opened at 7:30 p.m. It is open to students, faculty, and the public without charge. Seating capacity will be limited.

News From UMP

by Arthur Meyer

The Student Council is happy to report that the constitution is now in the final stages of preparation. Ratification by the student body is the next step. Another two weeks should see the official adoption of this organ.

There is also an interesting issue coming up for vote, the proposal that a \$4.00 yearbook assessment be included in the spring registration fee. The success (or failure) of this issue will be a good test of student morale and responsibility. A tentative plan to apply \$.50 of the surcharge toward the UMP newspaper fund is rapidly gaining emphasis.

The invasion of this manly campus by a new species is now definite. The word from "up-front" is that enrollment applications for 1960 have been received from women and early assurances of admission will be issued soon. The girls are coming to UMP—Ta-ra-ta-ra-ta-ra.

Chris Smith, President of the Student Council, voiced an opinion that

the campus is showing higher spirit this year. In checking with the organizations on campus it seems that most are in an active stage already. Those that aren't seem to be solving their individual problems rapidly.

The Freshmen have chosen Mr. Abraham Kern, our new Zoology teacher, as their advisor. Here's a man with a zest for life! Their choice seems to be a reflection of their own spirit.

Davey Crockett, Freshman Class President, has his muzzle-loader aimed at the success of a Blood Bank. Dave and his assistants have undoubtedly heard that turnips don't give blood so they are out for a pint from each student. "Benevolent Vampires" personified, that's what they are!

The UMP Debate Club is a new organization this year. Officers are President, Francis Delano; Vice President, John Hachey; Secretary, Richard Wandke; and Treasurer, Albert Duclos.

On November 3, Richard Wandke, John Hachey, Albert Duclos, Earl Crosby, and Joseph Fullerton traveled to Brunswick to engage in two rounds of practice debates with Bowdoin College debaters. They were accompanied by Advisor William Whiting.

At Colby Tuesday John Hachey, Francis Delano, John Manderson, and Joseph Fullerton represented UMP at a State of Maine practice tournament.

Coach Sullivan is remaining non-committal concerning his hoopsters' future but he is obviously impressed by their spirit. Some observant pre-season fans are more outspoken and predict a good season. Could a Boosters Club for the athletic activities be formed to insure a spirited following where a large number of fans is a statistical improbability?

Don't give fires a place to start, advises the Maine Farm and Home Safety Council.

How to advance through lateral movement

THE LATERAL PASS is a perfect example of how to get ahead by first going sideways. And lateral movement is a philosophy we use at Koppers.

Here's how it works. Let's say you're a new employee at Koppers. We give you a specific assignment. You find it exciting, challenging. You do a good job. But do we leave you there? Not at all. Once you understand the products and the function of that particular operation, we try you on a different assignment. Here, again, you'll find the work new and stimulating.

You'll never be buried at Koppers. You'll never stand still intellectually. Moving from one operation to another, you'll move ahead. Your assignment won't be to learn just a job, but a vast, diversified corporation. Your compensation? Advancement, responsibility, success.

Your youth won't be held against you. Neither will short tenure. If you have the ability and the desire to get ahead, you'll move fast! Our system of continuous appraisal and evaluation is your guarantee of that.

Koppers is so widely diversified that you can almost name your job. Want to work with chemicals, jet-engine sound control, plastics, sintering plants, wood preservatives, road surfacing materials, electrostatic precipitators? Interested in research? Production? Sales? These are only a few of the fascinating opportunities at Koppers.

Why not find out how you can fit into the Koppers picture? Write to the Manager of Manpower Planning, Koppers Company, Inc., Pittsburgh 19, Pennsylvania. Or, see your College Placement Director and arrange an appointment with a Koppers representative for the next recruiting visit.

Union News

The **Campus Union Calendar** is a full one as usual. Thursday, November 12, the Bridge Club will meet in the Union. Last week's master point winners were (1) Walter Macomber, Eino Leinon, (2) Paul Putnam, Peter Russell, (3) Irving Hibbard, Thomas Murphy, (4) Al Adams, Robert Warren and (5) Dwight Starbird, William Crondall.

This weekend's movie is "Tea and Sympathy", starring Deborah Kerr and John Kerr. The movie is in the Bangor Room with the shows starting at 7 and 9 p.m.

There will be a special movie Sunday afternoon at 3:00 p.m. The movie, "The Informer", is about betrayal and punishment in the 1922 Irish Rebellion.

Monday afternoon at 4 p.m. in the Main Room another Musical Hour will be presented. Watch for posters for names.

The Tuesday Poetry Hour will feature Edward Ives doing William Carlos Williams' *Paterson*. That night, the Camera Club will meet at 7 p.m. in the Bumps Room.

Every Thursday at 4 p.m. in the Women's Lounge there will be Oral Readings by everyone attending. Material will be that which the reader brings.

Wednesday night the Chess Club meets at 7 p.m. in the Totman Room. At 4 p.m. that afternoon there will be another special movie. *Land of the Long Day* is a documentary on the customs and manners of the Eskimos.

A special note is the planned **Beatnik Party**. The Union committees don't care if you've ever heard of Zen, Kerouac, Greenwich Village or Venice, California. The Public Relations committee and the Music Committee of the Memorial Union would like to hear from any interested persons who would like to make this a success and a possible annual affair. Leave your names at the Activities Office or the Newscounter in the Union. Watch for developments of a brand new type of entertainment for Maine to be presented December 5.

South Apartments . . . Slow Down

Their Lives Are In Your Hands

The Traffic Committee is in the process of studying several proposals that are intended to make the South Apartment area a safer place for the children that live there. The necessity for this study arose after several near accidents on South Apartment streets.

As yet the committee has made no specific arrangements, but the possibility of one-way traffic in the area is being given the most serious consideration.

Of course, the greatest responsibility for safe driving on South Apartment roads falls on those living there. But these people are more conscious of the hazards that exist, namely children in the streets, than most dormitory residents, faculty personnel, or fraternity men that use these roads only "on occasion."

It is these "on occasion" drivers that present one of the major problems. Many of them are unaware of the conditions on South Apartment streets and fail to judge their speed accordingly.

The ideal situation for the South Apartments would be to have a supervised playground to keep the children off the streets, but this has been tried twice in the past, and both times the attempt was unsuccessful. So much for the ideal. Now for the reality.

The South Apartment streets are a definite hazard for drivers and until the new housing is constructed they will remain so. One way traffic would help alleviate the possibility of accidents, but will not solve the problem completely. Only extreme caution, on the part of drivers in the area, can come close to solving the problem.

So if you have to drive through this part of the campus, please remember that it is a dangerous section and drive accordingly.

A Bit Of Perfidy

Welcome To The Vegetable World

By John J. Thibodeau

"I hear that CBS is moving CHURCH OF THE AIR into prime evening time!" — Time Magazine; author unknown.

It is not inconceivable that the above move could easily take place now that Dr. Frank Stanton has adequately cleansed himself of all CBS wrongdoing; Columbia University, Heaven be praised, has cleansed itself of the unhealthy Van Doren situation; everyone has suddenly become so clean that I have no doubt that Lux soap will become relatively unknown in the next decade. Yes, Dear Student, the old saying, Cleanliness is next to Godliness, has suddenly become a way of life.

Speaking of old and honored sayings, let me introduce you to my cabbages, carrots and parsnips. The cabbages are the aristocrats of this vegetable world of mine. They never marry out of their class and as a result there has been a noticeable weakening of the strain of late; the carrots are the bourgeoisie of the plot (vegetable); and the parsnip is the lowliest form of all. He lives in the slimmest, dampest section of the garden . . . which is all right with the parsnip. Frankly, he wouldn't have it any other way.

The cabbages hold all the important political offices in this tight-knit little vegetable kingdom, and, from time to time,

their politicians will return from the capitol and address their lowly constituents with such sublimity as, "a rolling stone gathers no moss," or, "a stitch in time saves nine," or "Hurrah for the orange, white and palid!" (the kingdom's official flag). This is fine! Everyone cheers and welcomes the speeches. Even the parsnips listen, but somehow, the parsnips feel that all is not well. The old and honored sayings fall short somehow, but everyone knows that the cabbages are very wise, and, since the sayings are old and honored, they must be so.

After the speeches, all inhabitants would return to their respective places. The cabbages, naturally, occupied the highest ground; the carrots lived in long rows of neat urban developments slightly below and to the left of the high ground; we've already seen the homes of the parsnips, not that the statesmen had never promised to change their living area! They promised every year, but economic conditions being what they were, the parsnip had remained where he was, but, maybe next year . . .

You have seen the background of the carrots, parsnips and cabbages. Quite interesting, don't you think?

Next week, a tale of domestic equality, plus a brief observation about two children and sandboxes that are exactly alike.

From The Colby Echo

Maine Black Bears Prove To Be Big Disappointment

This story is reprinted from last week's COLBY ECHO. For an answer to the statements made by the Colby writer, turn to page ten for Rick Brennan's BEAR FACTS. We are printing the Colby story on this page in its entirety so that our readers may have a chance to read all of the article and not just selected quotes. The headline on the story is Colby's also.

The Black Bear from Maine was found to be nothing more than a small cub. Fortunately, our Mules uncovered and discovered a great imposter. There can be no excuses or explanations — Colby was simply a better football team and deserved to win.

After just missing on a couple of long passes in the first half, quarterback Kent Davidson hit Bob Burke early in the third period and the latter showed surprising speed in outracing three defenders to the goal line. On this particular play, Pete Cavari, the star Mule end was used as a decoy. He went out short and then cut to the sidelines giving Burke an opportunity to move across the center. Another interesting feature in the pass patterns is that usually the

three other backfield men stay and block instead of one slipping out with the two ends. This, of course, lessens the chances of completion but provides the quarterback with more blocking and gives him more time to throw — an essential on a rainy day like Saturday.

The Mules played without the services of their ace back, Bob Nigro, but Wayne Fillback came through handsomely. The big senior ran harder than at any time this season and he was a standout in the Colby victory. The defense, though outweighed considerably, performed remarkably well. They used a lot of gang tackling and were quick to pounce on any fumble. Steve Carpenter, a sophomore end, deserves credit for his fine defensive play. He is improving with each game and should be a big help next year. If some of the other second year men can come through, this will offset the weak Colby frosh grid outfit.

Manch Wheeler showed little as quarterback for the visitors and highly touted lineman Hal Violette was too busy looking for battles instead of tackling opposing ball carriers. No longer will anyone gasp in horror

when Maine loses. Coach Hal Westerman and his squad have now reached the summit of frustration and humiliation. Here is a big university with many players to choose from and with supposedly superior talent. Yet we now find that Maine plays in a not too tough Yankee Conference and has been unable to win a state series title since 1955. The "ferocious" black Bears have created the biggest joke of the football season. They are not champs, but rather prize chumps. After last weekend's lackluster performance, they will be lucky indeed to defeat Bowdoin tomorrow.

The Mules, of course, play host to Bates tomorrow at Seavern's Field, with their second straight title almost in the bag, it's difficult to see how Colby can blow this one. Of course, the Bobcats have nothing to lose and everything to gain, but they appear to be no match for the rampaging Mules eleven. Colby must however, watch over-confidence and complacency. However, they realize that no Colby eleven has ever won two consecutive outright championships. Tomorrow should be the day and a pleasant ending to a surprisingly successful season.

Mail Bag

To the Editor:

Those of you who went to your class meetings during the past election period no doubt heard several candidates promise to unite the class and promote class spirit. More of you did not go to your class meetings, but have heard the rumor that there is a need for class unity and class spirit.

Why? . . . Why do we need class unity? To what end is class spirit directed? Until these questions are answered, and students are convinced of the worth and validity of the answers, they are not going to support a candidate whose campaign is based on the above platform or any candidate, much less come to class meetings. If there isn't a reason for a class to exist united in spirit and effort, then it would be best that we not waste able leadership in the direction of a class executive, but have, instead, a cleric to attend to the necessary arrangements and duties to keep the class a part of the university.

Fraternities, sororities, honor societies, religious, professional and social organizations on the campus certainly provide ample opportunities for leaders to lead, interests to develop, and social needs to be met. In high school, especially those in which classes were small, class organization was often one of only a few avenues through which these needs were met — perhaps this is where our belief in the worth of class unity and spirit is seated. If we are trying to translate this belief into the basis for the college-class concept, we are working at a useless and superfluous task.

Several other reasons can be put forth to provide an excuse for the existence of a united and spirited class, but for the most part they are weak and easily disproven. Why should we strive for a united and spirited class?

LITTLE MAN ON CAMPUS

I ask this question not as a skeptic, but because as we start off as "a class" under new leadership, we should examine where we are going, or being led, and why.

Sincerely,
Liz England

Engineering Jobs Open For Feb.

February graduates in engineering may now apply for employment opportunities with the U. S. Bureau of Reclamations. The job opportunities primarily concern irrigation, water supply, water control, and related projects. Openings are mainly in the western states.

A descriptive letter and pamphlets on the opportunities along with instructions on how to apply and the necessary application form No. 57 may be obtained at the Placement Bureau, 102 East Annex.

The University of Maine High School Debate Clinic to be held tomorrow, November 13th, will feature Dawn Daly, Joyce Higgins, Andy Harvey and Joe McKenna in an exhibition debate on the national inter-collegiate debate proposition, "Resolved: that Congress should be given the power to reverse decisions of the Supreme Court."

Three Panel Speakers Will Discuss Relations Of Science And Religion

A panel discussion on "Science and Religion" will be held Thursday, November 19, at 7:30 p.m. in the Physics Lecture Room 141. Opening speakers will be Dr. Benjamin Speicher, head of the Zoology Department, Dr. Clarence Bennett, head of the Physics Department and Rev. Harvey Bates, director of the Student Religious Association.

Each speaker will make a five

or six minute presentation. The panel will then discuss the subject. Following the panel talk the subject will be open to discussion from the audience for the rest of the meeting.

The major purpose of the discussion, sponsored by the Student Religious Association, is to open a dialogue between these two seemingly opposing factors.

The panel is open to the public.

New "post-grad" program helps engineers move ahead at Western Electric

MANHATTAN'S COLISEUM TOWER building houses Western Electric's New York training center. Here, as in Chicago and Winston-Salem, N. C., Western Electric engineers participate in a training program that closely resembles a university graduate school.

Careers get off to a fast start — and keep on growing — at Western Electric.

One big help is our new Graduate Engineering Training Program. This unique full-time, off-the-job study program starts soon after you join Western Electric... continues throughout your career. Students are offered courses in various fields including semiconductors, computers, feedback control systems, and problem solving techniques. What's more, they study methods for improving skills in communicating technical information and the art of getting ideas across.

You'll find the work at Western Electric stimulating, too. As manufacturing and supply unit of the Bell System, we pioneered in the production of the transistor, repeated submarine cable, and the provision of microwave telephone and television facilities spanning the country. Engineering skills can't help developing—careers can't help prospering—in the lively, exciting technical climate at Western Electric.

Western Electric technical fields include mechanical, electrical, chemical, civil and industrial engineering, plus the physical sciences. For more information pick up a copy of "Consider a Career at Western Electric" from your Placement Officer. Or write College Relations, Room 200E, Western Electric Company, 195 Broadway, New York 7, N. Y. And sign up for a W. E. interview when the Bell System Interviewing Team visits your campus.

Western Electric

MANUFACTURING AND SUPPLY UNIT OF THE BELL SYSTEM

Y.; North Andover, Mass.; Lincoln and Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Teletype Corporation, Chicago, Ill. and Little Rock, Ark. Also Western Electric Distribution Centers in 32 cities and installation headquarters in 16 cities. General headquarters: 195 Broadway, New York 7, New York.

ROTC Rifle Team Defeats Vermont

Thursday, November 5, the University of Maine ROTC Rifle Team defeated the University of Vermont by a score of 1384 to 1379 in a postal match. High man for Maine was Team Captain John Almond with 285 out of possible 300. The other scores:

Tom Staples	283
Bill Townsend	276
Jack Toomey	270
Mac Waskiewicz	270

This was the first match of the season for the Maine sharpshooters.

On Campus with Max Shulman

(Author of "I Was a Teen-age Dwarf", "The Many Loves of Dobie Gillis", etc.)

DIARY OF A COED

MONDAY: Prof. Pomfritt sprang quiz in English lit this morning. If Shakespeare didn't write *Canterbury Tales* I'm a dead duck... Lunch at the house—turkey hash. Question: how can we have turkey hash when we never had turkey?... Smoked a Marlboro after lunch. I dig those better makin's the most!... Played bridge with sorors in afternoon. When game was over, my partner stabbed me several times with hatpin. Must learn weak club bid... Dinner at house—lamb hash. Question: how can we have lamb hash when we never had lamb?... Smoked a Marlboro after dinner. What filter! What flavor! What pack or box!... Chapter meeting at night. Motion made to abolish capital punishment for pledges. Motion defeated... Smoked more Marlboros. *Quelle joie!*... And so to bed.

TUESDAY: Faculty tea at the house. Spilled pot of colong on Dean of Women. She very surly. Offered her a Marlboro. Still surly. Offered skin graft. No help... Dinner at Kozy Kampus Kafe—24 hamburgers. But no dessert. Have to watch waistline... And so to bed.

WEDNESDAY: Got our marks in English lit quiz. Lucky for me Shakespeare wrote *Canterbury Tales*!... Afternoon date with Ralph Feldspar. Purely platonic. Ralph wanted to consult me about love trouble he's having with his girl Nymphet Calloway. I assured him things would get better. Ralph said he certainly hopes so because last four times he called on Nymphet, she dumped vacuum cleaner bag on him... Smoked several Marlboros. Wonderful cigarette. No confusion about which end to light. Saves loads of time... Dinner at house—bread. That's all; just bread... And so to bed.

THURSDAY: Three packages from home—laundry, cookies, records. So hungry I ate all three... Quiz in American history. If Millard Fillmore didn't invent cotton gin, I'm in big trouble... Dinner at house. Big excitement—Nymphet Calloway announced her engagement to Ralph Feldspar. While sorors flocked around to congratulate Nymphet, I ate everybody's side meat... Then smoked Marlboro. Oh, what a piece of work is Marlboro!... And so to bed.

FRIDAY: Got our marks in American history quiz. Was shattered to learn that Millard Fillmore did not invent cotton gin. He wrote *Canterbury Tales*... How very odd!... Lunch at the house—bread hash... Marlboro after lunch. Great smoke. Must send valentine to manufacturers... Spent entire afternoon getting dressed for date tonight with Norman Twonkey. Norman is dall, dark, loaded—a perfect doll! Only thing wrong is he never tells a girl where he's going to take her. So I put on a bathing suit, on top of that an evening gown, and on top of that a snowsuit. Thus I was ready for a splash party, a dance, or a toboggan slide... So what do you think happened? He entered me in a steeplechase, that's what!... Would have taken first prize easily if I hadn't pulled up lame in the last furlong... And so to bed.

© 1959 Max Shulman

Yes, the college life is a busy one and you may be having trouble choosing the cigarette that's right for you. Here's a handy guide: For filter plus flavor—Marlboro. For flavor without filter—Philip Morris. For filter plus flavor plus coolness—Alpine... All made by the sponsors of this column.

Homecoming queen Maureen Henry begins her weekend activities by dancing with Senior Skull Don Lewis.

Queen Views Alumday

Fire and heat couldn't keep Maureen dry during the bonfire.

The Beta dragon received honorable mention from Maureen and the judges.

Maureen was there to view Maverick's "wishy washy" entrance.

This queen could inspire any team on to victory.

Familiar scene, all you lovers of spectator sports?

MacFarland To Talk About Amplifiers

Howard MacFarland, associate professor in Electrical Engineering, will talk on parametric amplifiers pertaining to radio astronomy November 19 at 7 p.m. in the Lown Room of the Memorial Union. The talk is sponsored by the American Institute of Electrical Engineers and the Institute of Radio Engineers. All technology and mathematics students are invited.

MacFarland graduated from Massachusetts Institute of Technology in 1950. He is a member of the American Institute of Electrical Engineers, The Institute of Radio Engineers and the American Society of Electrical Engineers. He is doing research at the Lincoln Laboratories, an M.I.T. Affiliate, and teaching here.

Scabbard And Blade Changes Pledge System

The first meeting of the Scabbard and Blade was called to order October 13 by Captain Robert Sterritt. The executive board proposed policy changes aimed at raising the standards of the organization.

These changes include a new system of pledging and initiation of new members and possible expulsion for present members missing two consecutive meetings without notice of absence before the meeting.

The rushing committee headed by first lieutenant Barry Kilday sent out circulars to all juniors in the advanced program and invitations were extended to those interested. Any juniors who wish to join, who have not turned in their applications should do so before the next meeting.

Agriculture Club Meets

The Agriculture Club will meet November 12 at 7:30 p.m. in the Louis Oakes room of the Library. Highlights of the meeting include a humorous talk by Donald Taverner, University Director of Development; presentation of the Alpha Zeta outstanding freshman award, and an interview with the Calico Queen candidates.

Daly, Kimball Display Valiant Effort As Maine Wins NE Title

by Art Conro

In a magnificent display of grit and desire, an underdog University of Maine cross country team overcame superior odds to win the coveted New England championship at Boston Monday. It was the fourth time in the last five years that Maine has copped the New England crown from such "name" schools as Holy Cross, Boston University, Boston College, and Connecticut.

The pale blue dalers opened the season with a pair of losses to Massachusetts and New Hampshire, buried a weak Bates squad, and then served notice that they were ready to go by beating a fine Vermont team. Last week the Black Bears upset this same Vermont team, and New Hampshire, to take the Yankee Conference title.

Even after this late season surge, the Bears were given only an outside chance to win the New England title, as Brown University had what was supposed to have been their best team in 14 years. Obviously, they were not good enough, as Maine came through with another team victory, surpassing even that of a week before at Durham.

Bill Daly, the fiery leader of the Maine harriers, proved for the second

week in a row that he is at his best when the chips are down by being the first Maine man in, finishing sixth. After having run sixteenth the week before, a gallant Mike Kimball bounced back from his bout with the flu to take eighth place.

Charlie Akers came through with one of his best races ever to nail down seventeenth. Nineteenth went to Bob Dean, who has only recently begun to look like his old self. Dave Verrill, the surprising sophomore stand-out from UMP, placed twenty-third in his first big time race. Harold Hatch was thirty-sixth and Chet Grindell finished to round out Maine's team. About 110 men were entered in the meet by seventeen different schools.

Brown with 86 points came in just seven behind the winning

Maine squad. Wesleyan was third, Holy Cross fourth, New Hampshire fifth, and defending champ Vermont sixth. Massachusetts was eleventh, while UConn was completely out of the running.

It was Coach Ed Styrna's third New England title since he came to Maine four years ago. Last year his team finished second to Vermont. Over the years Maine has a total of fifteen wins, three more than that of Rhode Island, the second best team in the all time New England standings.

Next weekend the pale blue thin-clads will journey to New York to compete in the IC4A meet. This meet will close out the season for the Bears.

Colbys' Sportsmanship Poor

by Rick Brennan, Sports Editor

One of the most repulsive displays of lack of sportsmanship was strongly evident in the November 6 issue of the Colby Echo, the Colby campus newspaper. The article to which I refer was one indicative of extreme immaturity and lack of character. Its ignorant author obviously preferred to remain incognito rather than have his name associated with a writing of such distasteful content. If the article was indicative of the attitudes and opinions of the Colby student body, administration, and athletic department, it was quite poorly handled.

We make no excuses and offer no explanations. We have to live with ourselves. It is always admirable to find the quality of humility in a team, especially in victory. Colby definitely does not manifest this quality. This, however, may be attributed to human nature, but the odious remarks in that newspaper can be attributed to nothing but vindictiveness and poor sportsmanship.

Quotes from the Colby Echo—

"—highly touted lineman, Hal Violette, was too busy looking for battles instead of tackling opposing ball carriers—"

For the information of those quick to jump to conclusions, Hal Violette diverted the possibility of a "battle" by intervening when a fight seemed unavoidable.

"—Here is a big university with many players to choose from and with supposedly superior talent. Yet we now find that Maine plays in a not too tough Yankee Conference and—"

Men play football for Maine because they like and want to play. The players give of their own time and receive nothing. No one flashes a roll of greenbacks in front of them.

"—the ferocious Black Bears have created the biggest joke of the football season. They are not champs but rather prize chumps—"

Namecalling, especially in view of the fact that Maine made no tangible claim to being "champs," is certainly uncalled for in this instance and is only further evidence of immaturity.

Rather than avoid the over-confidence and complacency mentioned in the article, it appears that the author would aid in the promotion of such attitudes within the Colby student body and football team. It is regrettable that the reputation of such an institution should be marred by an unworthy newspaper and even more regrettable if the administration were to condone such actions.

PLAYER OF THE WEEK: Jim Cutler, Maine guard.

Old Town

Seniors—find out what Kearfott's flexible training program offers You

Check the experiences of four '59 graduates at Kearfott

JAMES KEATING
Villanova University '59

Not at all sure of the area of engineering (development, design, test, manufacturing) which would interest him most, Jim has been most impressed by the way Kearfott Project Engineers STAY WITH A PROJECT from study phase right through to production, assuming full technical and financial responsibility for the quality and salability (price-wise) of the finished hardware. He finds that this Kearfott philosophy enables him to operate across the broad spectrum of engineering.*** Coming from out-of-town, Jim was also pleasantly surprised by the wide choice of living quarters readily available.

LENNART G. JOHANSSON
Lafayette College '59

STANLEY WALLERSTEIN
Ohio University '59

The very advanced nature of many Kearfott projects fired this engineer's imagination. He joined the Electronics Systems Lab, where he worked on the development of a tiny counter—part of what is believed to be the most accurate test equipment yet devised for missile guidance systems. After exposure to the diversity of the projects in the Systems Lab, Stan has decided to look no further, but requested permanent assignment here, where work ranges over space navigation, digital computers, guidance systems, solid state physics, industrial automation systems and diverse electronic systems.

GARY WOERNER
Newark College
of Engineering '59

Gary has worked by choice in two laboratories since he joined Kearfott last June—Astronautics and Electronics. He values the opportunity he had to work in direct contact with senior engineers and scientists who have played a leading role in developing the Kearfott inertial systems and components which have been selected for application in over 80 aircraft and 16 major missile systems. Gary now leans to the choice of a permanent assignment in the Electronics Lab but has decided to work a few months in the advanced Gyrodynamics Division, before coming to a decision.

Len is pleased with his six months' experience at Kearfott on two widely different counts. First is the combination of both theoretical and practical knowledge he has gained in a field that has fascinated him for a long time—transistor applications. The other is Kearfott's location. Finding midtown New York only 40 minutes away by car, Len, a veteran, is planning to continue his studies for an MS at one of the many colleges in the New York/New Jersey area: Columbia, N.Y.U., Stevens, Newark College of Engineering are all close by. This semester, Len has enrolled for two Kearfott sponsored courses taught at the plant.

Opportunities at Kearfott are expanding

Long occupying a unique position in the fields of electronics and electro-mechanical components and precision instrumentation, Kearfott—in recent years—has moved more and more into the development of complete systems. This has led to major staff expansion at all levels, including a sizable number of positions for recent graduates in all 4 major company units:

The Systems Division
The Gyrodynamics Division
The Electro-Mechanical Division
The Precision Component Division

Through its flexible TRAINING PROGRAM, Kearfott offers young engineers freedom to explore the field, before selecting the broad area best fulfilling individual interests. Remarkable rapid professional advancement is possible—and likely—through the PROMOTION BY MERIT POLICY. For detailed information, see the Kearfott representative on campus.

ON CAMPUS INTERVIEWS NOV. 4 FOR ASSISTANT PROJECT ENGINEERS

Make an appointment now with your Placement Director, or write to Mr. Francis X. Jones.

Women's Sports

Gwen Merritt

Fay Miles won the tennis tournament by defeating the defending champion, Marie Ifill.

The All Maine Hockey Team beat the Alum-Student Team Saturday by a score of 5 to 0.

The Annual Basketball Jamboree was held yesterday at the Women's Gym. The Officials Club gave a demonstration of rules and pointed out new rules and rule changes.

Modern dancers are still needed for the Christmas program.

INTRAMURAL ANNOUNCEMENT

Intramural boxing and wrestling will begin next Monday, November 16, in the boxing and wrestling room of the Memorial Gym. Boxing and wrestling will take place between 3:00 p.m. and 5:00 p.m. and instructors will be on hand.

Golf Tournament

In the Fall Golf Tournament, Arthur Dickson won the varsity tournament, and Bob Birchenough won the freshman tournament.

Simons Gives Talk

S. C. Simons will give a talk at the joint meeting of the Student Branch of the American Institute of Electrical Engineers and the Institute of Radio Engineers in the Lown Room of the Union on November 12 at 7 p.m. Simons will speak on the technical features of nodules and illustrate how other designs can be accomplished. He is a field application engineer for the RCA Micronodule program.

The talk should be of interest to all mathematics and technology students.

Surge In First Half Gives Maine State Series Victory Over Underdog Polar Bears

By Art Zalkan

Neither the torrential rains nor the Bowdoin Polar Bears were able to show enough collective power to block Maine's ferocious running attack last weekend.

Playing before a Homecoming crowd of 6800 drenched fans, the Maine Bears galloped through the mud and the Bowdoin team for a total of 330 rushing yards and three touchdowns to down Bowdoin, 18-8.

Maine's first touchdown came as the result of an 82 yard drive that started on the Maine 18. Following a Bowdoin kickoff that saw Maine's Dave Cloutier take the ball to the 18, the Bears moved quickly. Three successive carries by Cloutier took the Maine team into Bowdoin territory. With the ball resting on the Bowdoin 48, Maine's quarterback called on co-captain Jack Welch for assistance. Taking a hand-off, the crew-cut blond cut off tackle and headed for the sidelines. A diving tackle by Ted Gardiner prevented the senior from going into the endzone. He was stopped on the two. How-

ever, one play later, the Maine co-captain sliced off tackle for the touchdown.

Unable to move the ball against Maine's line in three plays, Bowdoin punted to Maine on the 29 yard line. Welch carried the ball to the Bowdoin 45 where the Bears started another scoring drive.

Using Randy White and Dave Cloutier to carry the ball to the 44, Wheeler faked a hand-off on the 44 and dropped back to throw his first pass of the game.

Wheeler spotted Maury Dore free on the Bowdoin 23. Dore took the pass and didn't stop running until he was safely in the endzone with Maine's second touchdown.

Six minutes after the start of the second period, the Black Bears were knocking at Bowdoin's door again. Starting on Bowdoin's 45-yard line, Maine headed downfield for its third touchdown. Cloutier broke to the outside for 15 yards. Welch and Dale Curry took the Bears to the 16 where Cloutier went for the first down on the eight.

Cloutier then took a hand-off and raced around end for the third touchdown. Wheeler's pass to Don Desroches for the extra-points was incomplete, but the Bears led 18-0.

Bowdoin's only score of the game came in the fourth period. On a drive that started on the Maine 47, the Polar Bears moved on nine plays into the endzone. Half-back Ted Gardiner carried the ball over from the Maine 4. A quick pass from Dexter Bucklin to co-captain Bob Hawkes gave Bowdoin two more points, making the score 18-8.

KOOL ANSWER

Phi Mu Cops Gridiron Title With Win Over Sigma Nu

Phi Mu Delta is the new fraternity intramural football champion.

In spite of a very soggy field and near-freezing weather, a great game put the cap on the homecoming weekend in an exciting fashion. The final score was Phi Mu 12, Sigma Nu 6.

The exchange of long punts was the way the play went in the first quarter, as both teams got used to the playing conditions. Sigma Nu was playing without the services of varsity basketball star Larry Schiner.

In the second quarter a 20 yard pass play from Densmore to Atherton set up the first score, as Joe hit John Dudley for the touchdown one

play later. Sigma Nu, led by Mike Needleman behind a line led by Joe Dumont, kept banging away, but couldn't quite find the play to go all the way. The first half ended with Phi Mu on top, 6 to 0.

The men from Sigma Nu started off the half in "Never say die" fashion. Gallops of 20 and 8 yards by Needleman put them on the 3 yard line. A bullet pass from Mike to Dave Lovett tied the score up at 6 all. Both teams stiffened defensively and the score at the end of the third quarter was still tied.

Half way through the fourth quarter a razzle-dazzle pass play: Densmore to Atherton to Densmore put Phi Mu on the five yard line. From there, Densmore hit Dana Deering for the final touchdown of the afternoon. The contest ended with Phi Mu's line of Kent, Littlefield, Bryan and Cook making a goal line stand against the hard-trying Sigma Nus.

Intramural basketball will begin next Tuesday Sam Sezak of the Physical Education Office has announced. The schedule will be as follows: Tues. Nov. 17 at 7:00: Sig. Ep vs. Phi Gam, TEP vs. Delta Tau—at 8:00: Lambda Chi vs. Alpha Gam, SAE vs. Theta Chi—at 9:00: Kappa Sig vs. ATO, Phi Mu vs. TKE. Wed. Nov. 18 at 7:00: Cabins vs. ND 4 & 5, ND 2 & 3 vs. So. Apts.—at 8:00: Off-Campus vs. Newman Hall, Gannett 1 vs. Gannett 2—at 9:00: Gannett 3 vs. Gannett 4, Hart 1 vs. Hart 2. Thurs Nov. 19 at 7:00: Hart 3 vs. Hart 4, Corbett 1 vs. Corbett 2—at 8:00: Corbett 3 vs. Corbett 4, Dunn 1 vs. Dunn 2—at 9:00: Dunn 3 vs. Dunn 4, Phi Eta vs. Sigma Chi.

Bowdoin Frosh Crushes Bear Cubs In Last '59 Grid Contest

by Darryl Clement

The Frosh footballers wound up their season Friday afternoon as they bowed to the Bowdoin Frosh 26-14, in the Homecoming opener. The loss gave the Bear Cubs a final record of one win and four losses.

Maine scored their touchdowns in the first half, marking the first time this season they have scored in the first half. However, they wobbled on their defense in the second half, and Bowdoin won the game.

The first Maine tally came on a pass from quarterback Joe Austin to end Bob Johnston. Bump Hadley kicked the point after. The Cubs' second TD came late in the first half when back Ray Caldwell plowed through the heart of the Bowdoin line and romped 35 yards for the tally. Hadley kicked his second conversion

of the game for the Frosh.

Bowdoin scored in the second period and went on a spree in the fourth period scoring three TD's and two conversions to put the game on ice.

In commenting on the season finale, Frosh Coach Sam Sezak said, "Although the season was not good on a won-lost basis, I feel that the boys will be well-served when they move up to varsity level. There are no really outstanding stars, but possibilities are there for some very good ballplayers."

Prism Pictures Taken November 17, 18

The photographers for the *Prism* will be on campus November 17 and 18 to take pictures of those organizations whose pictures were cancelled due to rallies, and for those who did not come but would like to try again.

The following schedule has been set up and it is the last chance for pictures to appear in this year's *Prism*. All pictures will be taken downstairs in the Union.

November 17

	P.M.
Agricultural Club	7:00
All Maine Women	7:10
Amateur Radio Club	7:20
American Chemical Society	7:30
American Institute of Chemical Engineers	7:40
American Society of Agricultural Engineers	

Anyone wanting a retake on their *Prism* portrait may sign up downstairs in the Union on Friday, November 13, from 1-5 p.m. A \$2.00 fee is required at the time of the sitting.

Masque Play Tryouts Scheduled

The Maine Masque Theatre's second production of the year will be *The Pajama Game*, presented December 9, 10, 11, and 12.

The schedule for tryouts is as follows: November 12 and 13, 6:45 p.m. dialogue and dancing; November 14, 6:45 p.m. singing and dancing; and November 15, 6:45 p.m. dialogue, singing and dancing.

All those who have tried out previous nights should return on Sunday,

November 15. Those wishing to sign up for backstage work may report on any of the above nights.

Discuss Cuban Situation

Dr. William H. Jeffrey, professor in Latin America studies, will lead a discussion on the Castro situation in Cuba and its relation to the United States in the Women's Lounge of the Memorial Union on Wednesday, November 18, beginning at 7:30 p.m.

Dr. Johnson turns another elegant phrase:

*Sir, if it hasn't got it there,
it hasn't got it!*

Old Dr. Sam has done it again—brought his dictionary up to date in terms of modern Winston usage.

Winston (win'ston), n. A cigarette with Filter-Blend on one end and a wise man on the other.

Taste (tast), n. What decorators argue about and Winston smokers enjoy.

Filter-Blend (fil'ter-blend), n. A happy marriage of art and science. Light, mild, flavorful tobaccos are artfully selected, then scientifically processed for filter smoking.

Slogan (slo'gan), n. (e.g., Winston tastes good like a cigarette should). A statement of disputed grammar but unquestioned fact.

Front (frunt), n. (used in conjunction with the preposition "up"). The section of a filter cigarette where if it hasn't got it, it hasn't got it. Also, the section that counts, the section where exclusive Filter-Blend is to be found.

Boswell (boz/vcl), n. Nickname for a guy who is always hanging around to cage Winstons from you.

*"There is nothing which has yet been contrived by man
by which so much happiness is produced . . ."*
