Library Drive To Be Held March 4-8, Seeks 100% Student Donation

An attempt is being made to get 100% student participation in the following Student Library Drive which will be held Monday, March 8. All freshmen, sophomore, junior and senior areas of the University with the cooperation of the Alumni Club, given the opportunity to contribute according to their ability. Donations from each student will be recorded and all moneys will be booked to the individual student accounts. The goal of the campaign is $51,000. This was recommended by a special committee headed by Prof. W. T. Treat, president of both the Boston and Portland Alumni Clubs.

Penny Carnival Saturday

School Ties

In England some of the "public schools" and universities with rich traditions tend to be known as "public'' schools. This expression has a double meaning. More strictly it is the definitely patterned necktie in school colors. Figuratively speaking, a school tie represents the whole tradition and history of an institution, the school spirit, the irrefutable evidence that any person who wears it was a student of that school. I refer to the University of Maine, about which an article appeared in British papers about him again—Could it be I, Eleanor Look at the way some men on this campus treat the women makes one wonder whether they were losing to Germany. From a slight majority of 53% in December, 77%... By 11.15 in the morning of aValidity of rules by which it is
 accomplishing things with international law which was at fault but
 limits. From this desire on the part of... political unity. We move through
 the simplicity of style and the sweep
 rezoning of this book a satisfying ex-
 various by the international judges.
 Two Englishmen put themselves in
 the truthful last words because of that
 enormous audience according to the
 and even 250,000 people including the

Codd Suffrage

Have men finally become willing to accept women as their full equal in society? Off-hand, you might think there was still some argument—still the proverbial fight, etc. But there are those who hold to the belief that it is a question of a change in the social structure, not of the individual. And in the case of the University of Maine, it has come to our attention that the first step toward this change has been taken: the Universal Suffrage movement.

No clear-cut line can be drawn between the old and the new, but there are some differences in the methods used. In the past, women have been limited to certain rights, such as voting in local elections. Now, however, they are becoming more involved in political matters. Women are running for public office, and some have even been elected to high positions. The Universal Suffrage movement is a step in this direction, as it gives women the right to vote at the national level.

The movement has been gaining momentum over the past few years, with many women becoming more aware of the issues at stake. The women's suffrage movement has been successful in many countries, and it is hoped that the University of Maine will follow suit. The women of our community are to be commended for their efforts, and we look forward to seeing the day when all women have the right to vote.

An Opportunity

Next week Monday, March 4, and Friday, March 8, every member of the student body will be contacted to make his or her contribution to the campaign.

We all recognize the need of this building and we are deeply grateful for the warm reception that our proposal has received. The University of Maine has never been more dynamic or prosperous, and today it is the perfect moment to endow it with funds that will add another dimension to the educational program.

The main pitfall of international law, which was at first so promising, is that it is not applicable to situations in which the law is not respected. The very manner in which the International Court of Justice interpreted the law in the case of Germany and Poland is a case in point. The Court did not order Germany to pay damages, even though it had committed a breach of international law. The British had declared war on Germany, but the Court ruled that Germany was not legally responsible for its actions.

The third obstacle which lawyers of international law face is the problem of enforcement. The law may be perfectly clear, but it is only as strong as the will of the people to enforce it. This is why international law is often called "paper law." The law is written, but it is up to the nations themselves to see that it is enforced.

In this case, conditions were such that the law could be enforced. The United States and Great Britain were both parties to the conflict, and they had the means to enforce the law. The law, therefore, was applied.

The International Court of Justice is an important institution, but its effectiveness depends on the willingness of the nations to respect its decisions. The United States and Great Britain, for example, have consistently refused to comply with decisions of the Court.

The Amazon

By Dave Astor

The Bowdoin-Bates duel has apparently dared almost everybody to match its tempo. On the first few minutes, the teams were lined up in their respective positions, the roar of the crowd reaching a crescendo, and the tension of the game was evident.

The Bowdoin-Bates game was a classic example of two teams evenly matched. The first quarter was dominated by Bates, who took the lead early and never looked back. The second quarter saw a resurgence from Bowdoin, but Bates managed to maintain their lead. The third quarter was a seesaw battle, with both teams fighting hard for the lead. In the final quarter, Bates pulled away, securing their victory with a decisive 75-62 win.

The game was full of highlights, from the Bowdoin-Bates rivalry to the outstanding performances by both teams. The spectators were on the edge of their seats throughout the game, cheering for their favorite team and hoping for a nail-biting finish.

The Bowdoin-Bates game is a testament to the competitive spirit of college basketball. It was a thrilling match that left the audience in awe and highlighted the strength and skill of both teams.
Chesterfield’s Twin Pleasures are Real Mildness and Better Taste

You can’t mistake the extra pleasure you get from Chesterfield.

Because of their right combination of the world’s best cigarette tobaccos, Chesterfield gives you a cooler, better-tasting and definitely milder smoke.

You can buy a better cigarette
