KINSMAN'S LILAC FLOWER.

This cut represents the discoverer of a new and wonderful medicine known as **LILAC FLOWER**, who has suffered twenty years with dyspepsia, and six years of that period with nasal catarrh and water brash and sour stomach from his youth.

The long standing of those diseases brought on all other troubles that fall in their wake: Constipation, Liver and Kidney Trouble, Palpitation of the Heart, Catarrh, Asthma, Headache and Heartburn. All this time he was taking medicine of some kind and was treated by many doctors. Three of them were specialists in the cure of Catarrh. The last to treat him, was one of New York's best doctors, who thought he could cure him in one month. At the end of twelve found him in bed with paralysis, unable to retain a particle of strong food on his stomach. When the doctor was asked as to what he thought of his condition, said that catarrh had settled in throat and stomach, on top of Chronic Dyspepsia making a hopeless case.

LILAC FLOWER has lifted him from that low condition and fully restored him to health, being at present one of the most robust men of the U. S. A.

Not only has it proved a medical wonder in the above case, but the cold arm of death has been staid when all medical skill had exhausted, when nothing but the dark cloud of despair hung around. Thousands have been lifted as though by magic as will be seen by the testimonials in the papers.

LILAC FLOWER CO., Bangor, Maine.

Selectmen's Report.

The selectmen of the town of Holden respectfully submit the following report of the financial affairs of the town from March 1, 1893, to March 1, 1894. The appraised valuation of real and personal property liable to taxation, on the first day of April, 1893, was as follows:

G. W. CLARK, } Selectmen
 A. F. COOK, } of
 C. D. BURR, } Holden.

Holden, March 1, 1894.

Annual Report of the Supervisor of Schools, OF THE TOWN OF HOLDEN.

NO. 1, WISWELL DISTRICT.

Both Spring and Fall terms were taught by Nellie W. Dole of Holden. This was Miss Dole's first attempt at teaching. In general her government and methods of teaching were good for one new in the work. At the close of the Spring term the scholars showed improvement in their studies. At the end of the Fall term the progress was not found that was expected. Wages in Spring, \$3 25; board, \$1 75; wages in fall, \$3.50; board, \$1 75.

NO 2, CENTER DISTRICT.

This district had three terms of seven weeks each, taught by Maud M. Hart of Holden. The Fall and Winter terms were not as pleasing as we looked for. Methods of teaching and thoroughness should constantly be in mind of every energetic teacher. Spring wages, \$3 50; board, \$1 75. Fall and Winter wages, \$4 00; board, \$2 00.

NO 3, SOUTH DISTRICT.

Both Spring and Fall terms were taught by Susie M. Hart of Holden. Wages in Spring, \$4 00; board, \$1 50; wages in Fall, \$5 00; board, \$1 50.

NO. 4, ROLLINS DISTRICT.

The Spring term was taught by Minnie A. Hunt from Burlington. Miss Hunt was a capable teacher and the pupils showed improvement. Wages \$3 50; board, \$1 30. The Fall and Winter terms were taught by Mabel W. Perkins from Orrington. A third term was secured by this school uniting with District No. 8. The scholars advanced in their studies during the Fall term, but marked advancement was seen at the end of the winter term. Here is one teacher who believes in thorough work. Wages in Fall and winter terms, \$4 00; board, \$1 40.

NO 5, MANN DISTRICT.

The Spring term was taught by Venia Leighton from Scarborough. The school continued nine weeks, probably some advancement was made; in what direction we do not know. Discipline is necessary in every school. Through the influence of Miss Leighton a school flag was secured. We feel very grateful for her work in this line, and would be pleased to have others follow her example. Wages, \$4 25; board, \$1 40.

The Fall term was taught by Susie M. Hart. The scholars seemed interested in their work and attended regularly. Wages, \$5 00; board, \$2 00.

NO. 6, CLEWLEY DISTRICT.

Both terms were taught by Grace Levenseller of Holden. The schools were well governed and the scholars were interested in their studies. Particularly good work was accomplished in the fall. Wages in Spring, \$4.50; board, \$1.50; wages in Fall, \$5.00; board, \$1.50.

NO. 7, ROWE DISTRICT.

This district had but one term of school taught in the winter by Grace Levenseller. Fair progress was made. Think the money could have been expended more advantageously earlier in the season. By so doing all in the district could have shared the benefit. Wages, \$5.00; board, \$1.50.

NO. 8, BURTON DISTRICT.

A spring term of school was taught by Edith E. Sweet of Holden. This was Miss Sweet's first work as a teacher and success was the result. In the fall it was considered best to unite this school with Dist. No. 4. Wages, \$2.50; board \$2.00.

SCHOOL STATISTICS.

Whole number of scholars in town, April, 1893, 153, a loss of twenty.

No. of District.	No. of Scholars in Dist. April, 1893.	No. attending Spring term.	No. attending Fall term.	No. attending Winter term.	Average attendance in Spring.	Average attendance in Fall.	Average attendance in Winter.	Length of Spring term.	Length of Fall term.	Length of Winter term.
1	20	15	15	13	13	8	8
2	29	15	17	14	12	14	10	7	7	7
3	16	7	11	5	7	8	9
4	23	19	19	15	16	17	14	9	10	9
5	15	10	10	9	8	9	7
6	28	22	26	19	23	8	9
7	14	4	10
8	8	4	3	8

In conclusion we will give a few particulars in regard to our schools. Out of our sixteen terms of school, twelve were taught by Holden teachers. During the year the histories have been changed to "Higginson's Young Folks History of the U. S.," which is a very interesting book suited to any who wish to take up that study in our schools. A pamphlet on "Busy Work" has been placed upon each teacher's desk, that "the little ones" may be kept busy. Most of them look suspiciously clean. Districts No. 4 and No. 6 have secured globes. The supervisor has endeavored to have particular attention paid to mental arithmetic. In most cases good work has been attained. Arbor Day was observed by some of our schools. We hope this year more will be done toward beautifying our town.

To our Voters :

It is upon you largely that the success of our future school year depends. Therefore we ask you to consider the following :

1st. See that a sufficient amount of money is appropriated, that we may have at least our usual number of school weeks. This year we have fallen short owing to a decrease in our number of scholars; 173-153. Increase the number of weeks rather than decrease it.

2nd. In order that the school books may be safely cared for, empower your agent to place hard wood closets in each school-room, also to put the black-boards in a suitable condition.

3rd. It would be much to the credit of the town to support a high school in the fall. Act upon the subject during this meeting,

To our Teacher :

In order that success may be a result of your work make teaching a study. Do not be content to teach a subject as it was taught to you ten or fifteen years back. In this age of advancement as much progress is being made in methods of teaching as in other things. How many of our teachers have a school journal or teacher's paper of any kind? If you have none subscribe at once. We who have not had the advantage of a normal training can get a great many useful ideas from some nice educational journal. Teachers, remember penmanship is a study just as much as arithmetic or geography and just as careful attention should be paid to the teaching of it.

Let us enter upon the coming year with renewed energy, more determined than ever to elevate the standard of our town schools.

Respectfully submitted,

SUSIE W. HART, Supervisor of Schools.

WHITE PINE COUGH BALSAM

For years it has been known to the medical profession that the extract of the balsamic trees possesses healing, as well as protective properties of great value. For this reason people who have been in the incipient stages of pulmonary disease have been advised to go into the pine forests for the recovery of their health.

But it is not possible for everybody to go to the pines for healing; it is, however, possible to bring the very essence of the pines to everybody, rich or poor, who for one reason or another cannot go from home in search of health. This is what is done by WHITE PINE COUGH BALSAM, a scientific preparation containing among other medicinal properties an extract of White Pine Bark, together with that of Wild Cherry Bark, put up in the form of a syrup, and endorsed by the most eminent medical authority. It will relieve the most persistent irritation connected with pulmonary disease, destroy all agents which produce the irritation, heal the affected parts and prolong life.

It is the best cough medicine in the market.

PRICE, 25 CENTS A BOTTLE.

PREPARED BY

CALDWELL SWEET,

Manufacturing Pharmacist.

BANGOR, = MAINE.

For Sale by all traders.

THE
"NAPOLEON"

Is our latest and most elaborate range. It surpasses in design and finish anything yet attempted. Beauty of decoration is combined with excellence of construction. The best of iron, the highest grade of workmanship and the most accurate fitting throughout are guaranteed to every purchaser.

The fire box is ample with large feed door, and the oven opening is extra high and wide. Our triple shaking grate is the most practical. It can be replaced without removing linings. The ash pan is reached by opening a single door.

Our double damper is operated by one rod. Our patent Check damper keeps a continuous fire. The range is manufactured in two sizes, 7 and 8 inches with plain or polished edges as desired and is fitted with linings for burning wood.

— MANUFACTURED BY —

Noyes & Nutter Manufacturing Co.,
BANGOR, MAINE.

P. S. Secure the Agency for the sale of this Range in your locality at once.

WHY NOT ATTEND THE

Bangor Business College,

And receive a Practical Business Training?
