## Parents Day Scheduled For Oct. 11

Football, Track,  
Open House  
Head Program

The program of the fifth annual Freshman-Parents' Day at the University of Maine, scheduled for Saturday, Oct. 11, will feature a full day of campus activities, Chairman Spofford H. Kimball announced today.

Special features will be the varsity football game with New Hampshire in the afternoon, classes and military in the morning and the final informal supper program at 6:00 p.m. The freshman athletic teams too will see action before the assembled parents as the 1945 football squad takes on Ricker Classical Institute at 9:00 a.m. and three freshman cross country teams run against Hopedale, Winter Harbor, Freedom, and Presque Isle.

Also for the benefit of the mothers and fathers will be a special military drill arranged by the Military department for the R.O.T.C. students at 10:00 a.m.

At noon parents will lunch as the guests of the University in the Alumni Memorial gymnasium and in the women's dormitories. Following the varsity football game at 2:00 p.m., dormitories and buildings throughout the campus will hold "open house" and the program will come to a close with the informal supper at 6:00 p.m. in the Memorial gymnasium.

Members of the committee making arrangements for the Parents' Day program include: Prof. Spofford H. Kimball, chairman; Mrs. Mary E. Snyder, Prof. Benjamin C. Kent, Percy F. Crane, Charles E. Crossland, Philip J. Brockway, Lawrence M. Downes, and Barbara Savage.

## 29 Students Are Auditioned By Radio Guild

Tentative Program  
Drawn Up For  
Campus Broadcasts

The first meeting of the year of the Maine Radio Guild was held Tuesday night in the campus radio studios in Lord hall. Twenty-nine students were present and all were given auditions.

Phil Pierce, president, presided and read the constitution which was drawn up by the executive committee and will be voted on by the club later on this year.

John Roberts, instructor in speech and radio speaking and adviser of the Guild, told of plans which have been made for the fall series of broadcasts, which are expected to begin late in October.

In discussing future plans, Roberts disclosed that Station WLBZ in Bangor has offered the University the half hour between 7:30 and 8:00 o'clock each Sunday night, following Jack Benny's Jello show.

A tentative program for the University shows calls for a brief up-to-the-minute newscast of campus affairs, a "thought for the week" by a faculty member, a fifteen minute dramatic offering, and a "song for the evening." The programs will begin in two or three weeks as soon as the final schedule is approved.

## Hathaway Graduates At Cochran Field

Henry L. Hathaway, a graduate of the University of Maine, was one of 83 aviation cadets graduated last Friday from Cochran Field, Air Corps Basic Flying School near Macon, Georgia.

Hathaway's class, the second to be graduated from Cochran Field, finished its training ahead of schedule. Thirty of the class will be sent to the pursuit school at Craig Field, Selma, Ala., 25 cadets, including Hathaway, to the bombardment school at Barksdale Field, La., and 28 to the twin-engine school at Turner Field, Albany, Ga.

Cochran Field is one of the newest training fields in the South East Air Corps Training Center, under command of Major General Walter R. Weaver.

## Large Crowd In Attendance At Aubert Hall Dedication

Expanded facilities for training and research in the fields of chemistry, chemical engineering, and pulp and paper technology, both from the approach of an educational discipline and of an application in terms of Maine's economy and resources, were dedicated in the ceremony opening the newly completed wing of Aubert Hall here Friday afternoon before a large crowd, including members of the Maine section of the American Chemical Society and the Maine-New Hampshire section of the Technical Association of the Pulp and Paper Industry.

Edward E. Chase, president of the board of trustees, and Paul Cloke, dean of the college of technology, spoke. President Arthur A. Hauck presided, and Rev. Harry Trust, president of the Bangor Theological Seminary offered prayer.

In the evening the two scientific societies heard an address by C. C. Furnas, associate professor of chemical engineering, of Yale university, on "The Storehouse of Civilization."

Speaking at the dedicatory exercises, Mr. Chase said that the trustees and the University realized that buildings alone are not assurance of adequate training or education but that in chemistry especially physical facilities are essential to successful teaching.

Reviewing the development of professional engineering education in this country and in the University of Maine curriculum, Dean Cloke said that "a

new chemical engineering building has been thought of, talked of, and dreamed of, for many years. When President Hauck came, dreams, ideas, and airy notions began to have a local habitation and a name."

### Maine Course First in U. S.

Dean Cloke spoke especially of the prospect of improved service the University could give to the pulp and paper industries of the state as well as other industry and manufacturing. The pulp and paper course at the University of Maine was the first course of that nature to be organized in the United States, he said.

Prof. Furnas, author of "Man, Bread, and Destiny" and "The Next Hundred Years," declared that while the men of the world were depleting the natural resources of the globe at an alarming rate, the ingenuity of chemists, physicists, and technologists was finding an answer to every depletion problem. The only danger is that men may wait too long before beginning to look for the answers.

"The role of the chemist, physicist, and technologist is to take these materials and this energy and manipulate them in some manner to our own benefit," Prof. Furnas said. "The backbone of modern civilization is an adequate supply of raw materials. If we think of civilization as a long time affair, then we must take steps now, to assure future generations of an adequate supply."

## Quota Not Filled For CAA Course

The quota of the civilian pilot training course here at the University of Maine has not yet been filled, according to Prof. Harry D. Watson, CAA supervisor. To date there is an enrollment of ten in each of the divisions, the primary and the secondary course, and it is expected that the limit will be reached within a week.

This year no girls are being admitted to the course because, as Prof. Watson stated, full advantage has not been taken of this opportunity in the past.

The cost of the course is \$25 for the primary and \$30 for the secondary training period. This year the Old Town airport will be used as the home base instead of the Bangor airport.

Recent graduates from the CAA course here are now holding positions throughout the United States in both the army and navy. According to present reports there are 20 University of Maine graduates now in the service. Some of these men are serving as regular instructors.

The purpose of the pilot training course at the University is to train for aviation men who are still attending college.

## Fall Homecoming Set For Nov. 7, 8

The annual alumni homecoming program, the biggest alumni activity of the fall season, is scheduled this year for the week end of Nov. 7 and 8, with the varsity football game against Bowdoin the chief attraction, it was announced today by Prof. Earl F. Bennett, chairman of the homecoming committee.

The program will be similar to those of recent years, one of the main features being a luncheon Saturday noon preceding the game. Special plans this year will include the honoring of an outstanding athletic team of the past and appropriate talks by prominent alumni. It is hoped that some recognition of the progress of the alumni library campaign can be given as a part of the program.

The details of the homecoming week end are being planned by the committee, headed by Prof. Earl F. Bennett, and including the following: Prof. Winthrop C. Libby, Prof. John E. Stewart, Prof. Wallace H. Elliott, Prof. Marion E. Rogers, Mrs. Leone D. Nutting, Arthur W. Hodges, Theodore S. Curtis, Miss Eleanor L. Ward, and Edward P. Barrows.

## Gates Speaks At Coburn This Evening

English Botanist  
Will Discuss  
Human Genetics

Prof. R. Ruggles Gates, geneticist and professor of botany at King's College, University of London, will speak on "Present Aspects of Human Genetics" in 15 Coburn Hall tonight at 8 o'clock. The lecture is open to the public.

A noted authority on human inheritance who has made a special study of the workings of the American "melting pot," Prof. Gates has been a member of scientific expeditions in the Amazon valley, in Russia, the Canadian arctic, and South Africa. A Nova Scotian by birth, he graduated from Mt. Allison and McGill universities and received his doctor's degree from the University of Chicago.

Prof. Gates is a member of a score of scientific societies in Canada, United States, Great Britain, and Japan. Author of articles on cytology, genetics, and human heredity published in British, American, Canadian, and German learned society publications, he has written a series of books, one of which was also published in a Russian edition. During the first world war, he was an instructor in aerial gunnery. He has held lectureships and professorships at the universities of Chicago, California, and Johns Hopkins in this country, and Oxford and the University of London.

## Off-Campus Students Meet

The first meeting of the Off-Campus Women's Organization was held last week at the M.C.A. building in the form of a supper meeting with about 50 members present.

President Elene Gleason presided and the following representatives were elected for the year: Dorothy Bell, Cecile Pinnette, Orono; Hulda Pond, Betty Albert, Maida Cosseboom, Bangor; and Marion Libby, Edith Merrill, Old Town.

The program committee was appointed by the president, consisting of: Mary Lovely, chairman; Jacqueline Greenwood, Emmy Lou Littlefield, Polly Holden, and Pauline Cowin.

The social chairman, Mildred Wooster, appointed the following girls to the social committee: Charlotte Willett, Pauline Stewart, and Julie Worthen.

Mrs. Jackman, faculty adviser of the organization, and the president, Elene Gleason, spoke briefly on defense. The president appointed Helen Mehan representative to the defense coordination council.

## Frosh Assault Hauck Home

A horde of 527 freshmen, or an approximation thereof, will storm the home of President and Mrs. Arthur A. Hauck tonight on the occasion of the annual Freshman Reception.

Large trucks have been observed moving to and from the Hauck residence all afternoon, unloading the necessary ice cream and cookies while heavy timbers have been braced against the walls to prevent possible bulging.

The faculty held its annual soiree as guests of the Haucks yesterday evening. However, the above precautions were not necessary.

## 'The Golden Apple' To Be Presented By Maine Masque

Try Outs Held  
For Besse-Hanson  
Musical Comedy

Based on a Greek myth, "The Golden Apple," a musical comedy by Beatrice Besse and Frank Hanson, promises to be one of the outstanding features of the 1941-42 Maine Masque Theatre season. This comedy will be presented in the Little Theatre on Nov. 3, 4, 5, and 6.

After winning an ASCAP prize of \$720 with their production last year, "Of Cabbages and Kings," Miss Besse and Hanson decided to "have another try" in the musical comedy field. "The Golden Apple" is entirely different from their former work, since it has a definite plot and continuity of characters.

### Ten Original Songs

Ten original musical numbers will be featured in the show. Among them are "The Duchess of Brooklyn," "One of the Girls," "It Doesn't Make Sense," and "Think Nothing of It."

Readings for this first production were held Tuesday, Wednesday, and Thursday of this week, and it is expected that the entire cast will be announced soon, and production will get under way next week. The show will be under the direction of Prof. Herschel Bricker.

## Welch Appointed NYA Administrator

Appointment of Frank K. Welch as State Youth Administrator for Maine, succeeding the late Charles G. Hewett, was announced today by NYA Administrator Aubrey Williams.

Welch has been employed by the National Youth Administration since December, 1936, first as vocational guidance supervisor for the states of Maine and Vermont and then as director of the Division of Employment and since September, 1940, as Acting State Youth Administrator.

Welch is a native of Massachusetts and attended the public schools of that state.

Prior to joining the staff of the National Youth Administration, he was employed by the Boston Council of Social Agencies, Department of Public Welfare of the city of Boston, and by a number of private manufacturing concerns.

## New Tax Announced

The following notice, affecting practically every campus organization, was received today by the President of the University from the Collector of Internal Revenue:

You are respectfully requested to advise all subordinate bodies, groups, units, etc., that on and after October 1, 1941, tax attaches to all admission charges, regardless of amount and regardless of the character of the organization to which the net proceeds inure or the purpose for which such proceeds will be expended.

## Arts and Sciences Leads Deans' Lists With 82

## 24 Named To 1943 'Prism' Staff

Hempstead Picks  
Stewart, Crossland  
As Managers

Twenty-six students have been appointed to the staff of the 1943 Prism, according to announcements made by Richard Martinez, business manager, and David Hempstead, editor-in-chief, yesterday.

Fourteen have been appointed to the business staff. John Stewart was named advertising manager, and Carleton Crossland was appointed circulation manager. Others in the advertising department include Dorothy Moran, Doris Dixon, and Mary Moynihan.

### Circulation Department

In the circulation department the following were appointed: Joanne Solie, Stanley Frost, Sally Rubinoff, Helen Deering, Mary Hempstead, and Harry Files. In charge of the directory will be Janice Thomas and Elinor Crowell.

Hempstead has announced the following appointments to the editorial staff, made this week: assistant editor, George Bearce; assistant editor, Jeanne Patten; opening section, Robert Jenkins; seniors, Arthur Carlson.

Juniors, John Dickerson; fraternity and sorority, Richard Pierce; men's athletics, Talbot Crane; women's athletics, Dorothy Ouellette; activities, Margaret Church and Betty Price; and departmentals, Willa Dudley.

## Women Sponsor Leadership Talks

Several group talks upon important phases of women's campus activities will be discussed during the annual women's leadership conference which is to be held Oct. 18 and 19 in the M.C.A. building.

Topics chosen by the conference committee include: parliamentary law, food and frolics, poster-making, entering into discussion, writing application letters, social correspondence, square dancing, group music, membership committee, planning social functions, treasurer's group, secretary's group.

Students planning the conference include: Margaret Church, Eleanor Ward, Evelyn Tondreau, Helen Muller, Freda Flanders, Joanne Solie, Dorothy Warren, Bette Barker, Mary Louise White, and Helen Weymouth.

## Fresh Frosh Frolic Freely; Sad Sophs Seem Subdued

By Tom Powers

The freshmen are playing the cards in a pretty cagey manner.

This is the opinion of a greater majority of the upperclassmen. Of course, some freshmen have been apprehended for violation of freshman rules, but, as a whole, they're a mighty sly crew.

Some, however, were caught. They entertained at the football rally last Friday night. They really had talent, but something went wrong. The entertainers had the time of their lives. This shouldn't have happened. It was against tradition. However, it did happen.

### Frosh at Rally

The show was good. The student body was amazed at the singing ability of Bob Corey and his "Wise Old Owl." They gasped and giggled at the strip tease act. It was truly amusing.

Then came the payoff—"Kiss Presnell." Everyone laughed. It was funny, but wasn't it somewhat disrespectful? After all, the Sophomore Owls were supposed to have the upper hand at the rally. Maybe they did.

The great Doctor Smaha put on a great show between classes on Friday morning. His rostrum was the Bookstore steps. He told of his wonderful football career in his own wonderful manner. It was a sure fire exhibition of modesty.

## Aggie Has 75, Technology 71, And Education 2

Two hundred and thirty University of Maine students made the deans' lists during the spring semester of 1941, according to Registrar James A. Gannett, who announced the final list this morning.

This figure shows a slight drop from last year's total of 247. The college of arts and sciences led the other colleges with 82 honor students as compared with 99 in 1940. Second best was the college of agriculture with 75 on the list, while last year's figure was 82.

The college of technology showed a slight jump this year over last with a total of 71 students making the grade as compared to 63 in 1940. Two students are on the dean's list in the school of education, one less than last year. The complete list follows:

### College of Arts and Sciences

Rachel Alden, Francis S. Andrews, Shirley G. Ashman, Rena M. Ashman, Eugene L. Bailey, Guilio J. Barbero, Elizabeth J. Barker, George D. Bearce Jr., Mary Elizabeth Brackett.

Irving S. Broder, Harvey W. Brown, Phyllis M. Bryant, Grace E. Burnell, Muriel B. Cleverly, Barbara Cole, Louisa M. Cox.

Elinor Crowell, John P. Cullinan, Gwendolyn E. Cushing, Carl F. Davis, Elbridge B. Davis, Philip F. Day, Elinor L. Dixon.

Jordan Dobrow, Frances M. Donovan, Frances Drew, Carl P. Duncan, Thomas W. Easton, Paul Ehrenfried, Murray Elashowich, Lawrence W. Emery, John S. Everett, Jr., Albion W. Fenderson, Augusta F. Foster, Rodolphe A. Gaulin.

Edward J. Geary, Frank F. Gilley, Gerard A. Goulette, Joseph H. Hanson, James E. Hastings, Sara M. Heaton, George Vane Henry.

Rebecca Hill, Arthur M. Hillman, Laura B. Jackman, Elizabeth T. King, (Continued on Page Four)

## Senior and Junior Get Scholarships

Vincent J. La Flamme has been awarded a Charles F. Woodman scholarship and Leo H. Estabrook, a Bertha Joy Thompson scholarship, according to the announcement from the office of President Arthur A. Hauck of the University of Maine here this morning.

La Flamme has previously held a Normal School scholarship and is a senior in the school of education. Estabrook is a junior in agricultural economics, has been a dean's list student, and last year he held a Woodman scholarship. He has run cross country and is a member of Phi Eta Kappa, social fraternity.

The idea of independence has evidently effected the freshman co-eds as well. They appear to be breaking freshman rules right and left. They've been warned. It's up to them from now on. Wouldn't they look cute running around the campus with green toques?

Many of the class of 1945 believe that these rules were made solely to provide a source of amusement for the upperclassmen. This is hardly true. They have a purpose—to fit the freshmen into the picture of the University of Maine campus. The freshmen have been having a wonderful time fitting themselves in—in their own lovely way.

### Not Serious Enough

Many of the '45ers are not serious enough as yet; at least, indications point in that direction. Many an upperclassman has been heard to say, "I'd never dare to act like that if I were a freshman." Personally, neither would the writer.

Many a hot shot of East Overshoe High School is building himself up to an awful let down. Maybe some day he'll learn that he's now a college student and not the hero of his one-horse home town. Things are a little different now.

For the present, however, the freshmen are a crafty bunch. How long will they remain that way? Well,

## In re Selective Service...

The cause of the draft-eligible college student is the subject of a public announcement by the presidents of Macalester and St. Thomas Colleges, and Hamline University, all in St. Paul.

Addressing the general public and local draft boards, Dr. Charles J. Turck of Macalester, the Rev. James Moynihan of St. Thomas, and Dr. Charles Nelson Pace of Hamline ask that college students be given every deferment consideration by selective service boards. Their joint statement follows in part:

"The national committee of education and defense secured from the national headquarters of the selective service system an amendment, with the full effect of law, providing for the postponement of induction for any person for whom in the judgment of the local board immediate induction would create an unusual individual hardship.

"While this amendment is stated in general terms, it provides the basis for preventing the interruption of a student's education during a semester or college year. It has been officially interpreted to include as a cause of such hardship... 'to complete a course of training or instruction.'

"President Roosevelt recently said: 'America will always need men and women with college training. Government and industry alike need skilled technicians today....' We hope selective service boards will be willing to grant students the opportunity of completing the semester's work or the year's work on which they have embarked.

"These students are not claiming exemption from selective service but merely a postponement of a few months.

The joint statement elicited a prompt "no" answer from Brig. Gen. J. E. Nelson, Minnesota selective service director, who said that blanket deferment of college students is not possible under the selective service law.

"Deferments can be granted only for students in those fields in which there is a recognized shortage, such as medicine.

"However, individual draft boards will give every consideration for a stay of induction to permit individual students to complete a quarter or a semester of school work."

—by Associated Collegiate Press

## Those Weighty Problems...

There is much to speculate on these days—who'll win the Series, what would have happened if the Louis-Nova fight hadn't been stopped, how many more terms LaGuardia and Roosevelt are good for, and locally who'll win the intramural football title.

These mental gyrations, as you can see, keep us occupied most of the time, but occasionally we take time off to ponder the more acute problems which the sages tell us are facing the modern civilized world.

This, of course, necessitates quite a bit of mental effort; in fact, more than we are ordinarily prone to expend. Sometimes we will say to ourself, we will say, "Now how about this war business. Supposing England loses?" Thereupon do we cogitate, but rarely are we successful. For we have discovered that unless the atmosphere is extremely conducive to deep thought, about 15 minutes is the longest we can keep our cerebral energy concentrated on one topic.

This rather discourages us, for if we are at all typical, we do not see much hope in store for mankind. We are consoled, however, when we think of the time we bet \$.50 on Willie.

P. E.

## "V" For Profit...

"V" for Victory is making itself manifest everywhere. Jewelry manufacturers are making scads of dough on it, artists are exploiting it, and almost everyone has at some time or another either held up two fingers or banged out three dots and a dash.

In fact it has become so prevalent that we are beginning to feel that the U. S. public is wasting a good thing.

On the Continent and in England, where people really have their backs to the wall, "V" for Victory means something other than a mode of sartorial decoration. In Occupied France, the Lowlands, and in other countries which have felt the "oppressor's heel," the "V" represents their one possible hope for ultimate freedom.

Over here we are not exactly sure what it represents. As near as we can make out, it is merely the American way of expressing sympathy... or at least we hope it is; but we also feel that the far-famed American business "acumen" is likewise involved, and we trust that Yankee ingenuity can devise an equally effective mode of symbolism when and if the United States is in similar straits.

P. E.

## Turntable Talk

By Steve Kierstead

A recent release from the Victor people gives us an album of boogie-woogie that should be the tops in that line of jazz. The eight recordings in the album (P-69) are done by none other than the boogie-woogieists to end all boogie-woogieists, Albert Ammons and Pete Johnson. Of course, boogie-woogie is strictly something that should be taken or left strictly alone, but if you go for 8 to the bar you can't go wrong with this album.

Lately the bands seem to be turning back the pages of jazz history and are bringing forth more and more old tunes that still kick in a solid style.

### Thomas Dorsey

The leader for this month in old tunes seems to be T. Dorsey and his arrangement of "Blue Skies." Cy Oliver (formerly with Lunceford) did the arrangement and it is tops. Frank Sinatra does the vocal backed by the band in a jive chorus, à la Marie. Dorsey does a nice first chorus against a fine sax background, and Ziggy Elman's horn stands out along toward the last of the recording. (Victor 27566-A).

On the other side we have "Back Stage at the Ballet," but it is little less than good commercial, and very probably would not be too interesting to the majority.

### And His Brother

J. Dorsey comes forth with "Embraceable You" done in his very best manner. The recording smacks of Lunceford as far as the arrangement goes, and Helen O'Connell does a vocal that is superb. In fact it is one of the better pieces of work that Miss O'Connell has done; it can't be beat.

On the reverse of this platter we have a brilliant demonstration of the technical ability of Mr. Dorsey on his saxophone. The title is "Fingering-bustin'," and the stuff that James does with a horn clearly tells why he is

considered one of the better saxophonists in the business.

### The Count

The Count of Basie comes forward with "9:20 Special" done in the usual fine Basie style. You can hear Clayton's trumpet to good advantage, and Basie does a tidy bit, otherwise called solid. Coleman Hawkins does a solo with the band and putting it all together, it's a record that should be had for that side alone.

However, by turning to the other side we have "Going to Chicago Blues" which features little Jimmy Rushing on those wonderful blues vocal. (Okeh 6244).

### Biggest Little Band

In the smaller band cycle we find Kirby coming forth with "Close Shave" and "Bugler's Dilemma." Here is swing in its lightest, politest, and purest form. Kirby produces very beautiful work with only six men; in fact, his style, taste, and ideas are perhaps the nearest in the dance world. Here's a band that swings in the chamber music tradition. (Victor 27568).

### Biggest Big Band

And now to a unique platter done by Claude Thornhill and his unusual orchestra. The two sides are "Paradise" and "You Were Meant for Me." The tunes are played with very fine taste and are really rich and flowing. Thornhill accomplished much when he set out to produce something different in dance music.

His band of French horns, numerous and varied woodwinds, combined with the usual brass and rhythm are able to turn out work that surpasses the average in refined jazz, if there is such. Thornhill's piano adds much to the treatment of this disc, and with Kay Doyle doing the vocals on "Paradise," it all adds up to something extremely well done. (Columbia 36298).

## Hauck Confirms Appointments

Appointment of four instructors and one graduate assistant at the University of Maine have been confirmed, according to an announcement from the office of President Arthur A. Hauck here today.

Ann E. Eliasson, who graduated from the University of Maine in 1936, has been made an instructor in home economics. From 1936 to 1938, she was head of the home economics department at Auburn high school and then until this year, head of the same department in the junior high at Needham, Mass. She is taking the place of Miss Bernice Borgman.

Nathan Rich, who graduated from the University last year, will serve as instructor in mechanical engineering. During the last year he has been with the Waterbury Farrel Foundry and Machine company of Waterbury, Conn.

Mary-Helen Raye, who graduated from the University in 1938 and received her master's degree from the University of Michigan this year, will be an instructor in zoology.

Harold A. Davis, a graduate of the

## Deferment Asked For Georgia Students

(ACP)—Georgia selective service headquarters has recommended that college students be deferred from military training as long as they "maintain a standard of academic work which is satisfactory to the college and to the local board."

Major Charles J. Brockman, state occupational deferment director, said the new deferment recommendation will include all college students not yet placed in classification 1-A.

Local boards already had been authorized to defer students taking "essential courses" such as medicine, dentistry, chemistry, engineering, biology, geology, physics, and mining, but the state headquarters wants the grades looked into first.

University of Maine, who has done postgraduate work at Columbia university, will be instructor in government. He is a native of Calais.

Ormond A. Staples, who received his bachelor's degree here last June, will serve as graduate assistant in Wildlife Conservation.

## CORRESPONDENCE

(The correspondence columns of The Campus are open to the public on pertinent subjects, and letters are welcomed. All letters should be signed with the author's real name, but a pen name will be used in publication of the letter if desired. The ideas started in these columns are not necessarily those of The Campus and should not be so considered. The editor reserves the right to withhold any letter or a part of any letter.)

To the uninitiated, the following is one in a series of letters started last year by Alan J. Day-Winter, of Surrey, England, a transfer to the University of Maine who joined the Royal Canadian air force last February.

Sept. 26th, 1941

Hi, kids!

Have a good vacation?

For the benefit of the newcomers in the class of 1945, I spent some time at Maine in the department of pulp and paper, leaving Maine in February of this year to join the Royal Canadian Air Force. Since then I have written three or four letters to the Campus and had quite a number of letters with questions and general news from some of those I knew at Maine. If any of you have any questions just drop a line and I'll try to answer them. In any case, I would like to hear from all, whether you have just started or nearly finished.

Since last writing, the five weeks of Initial Training School have disappeared far behind me. These five weeks I spent in Victoriaville, Quebec, a little town of about 3,000 people, all of whom are French with only a very few who can speak English. On three week-ends, I managed to return to Bangor and Orono but, school being out, I saw no-one.

Following a ten-day leave spent in

Bangor, elementary flying was next on the list at Oshawa, Ontario. Flying was at last under way although a good amount of ground school was involved. After learning the fundamentals of general flying, spins and acrobatics, our course wound up with two cross-country flights: one with the instructor and the other solo. On the solo flight it was surprising how many boys got "lost" and had to land—not far from their own home. We all arrived back safely without any injuries at all. As one of the boys later said in a notice: As a result of the daring operations carried out during the day of August 19th, all the pilots of 'A' flight have returned safely to their bases. Two pilots, reported earlier as missing, have since returned. This was the official communiqué of the station—not any of the belligerencies of the present war.

After elementary flying and another leave, I have at last reached the final leg of my training for wings—service flying where we have bigger, faster, and heavier planes to cope with. Having only reported yesterday, I cannot say what it is like just yet.

I would like to hear from you sometime if and when you have time to write. So till then—so long.

Alan J. "Pete" Day-Winter

## New Clothes Called Fads, Not Fashions

### Wet Weather Duds Much In Evidence, Say Campus Critics

By Betty Brackett and Bette Barker

Our editor requested a brief survey of campus fashions. We had to stop and think and look a bit, but finally after studied observations at the football game, in classes, and in "Ye Olde Booke Shoppe," we decided that fads rather than fashions was the proper word to apply to the new gear seen around campus.

Glasses used to be an indication of studiousness. But today, lo and behold, "Janie College," putting giddy nail polish to a new use, has avoided looking studious (oh, horrors!) by glamorizing her spectacles.

And have you seen those daring little tails! The college girl cribs from the sister! Patriotic red, and blue ribbons add a dash of color; we saw one bow with stars sprinkled on a field of red, white, and blue stripes. Ultra-patriotic!

### Singing in the Rain

It is evident that our glamour gals don't intend to have to come in out of the rain, for they go everywhere equipped for the heaviest downpour. Clad in those super smooth gabardine raincoats with flashy plaid linings, they strut along campus with one eye cocked at the sky, murmuring "I just dare you!"

"V for Victory," and it will be an overwhelming win if we have anything to say about it, for we are wearing V's to the utmost. On blouses, dresses, suits, sweaters, coats, hats, bags, gloves, and even car rings, the patriotic V shines forth.

And speaking of ear rings, have you noticed all of them! A definite glamour touch. Demure pearls, gay novelties, silver, and gold are all in the running. Femininity coming bravely to the surface!

### Stop, the Red Light's On

Corraling the stag line are loads of wool jersey and corduroy dresses. And all the fellows have fallen hook, line, and sinker for that very "look-at-me" red that would stop a train. Low waistlines, and fuller than full skirts set these frocks off to perfection.

V necks seem to be the thing in sweaters of the softest wool, in both plain colors, and the new Argyles, which we have to admit we copied from brother's favorite pair of socks. Sophisticated Susan tops these off with the newest long string pearls, or an odd necklace—and the odder, the better!

Jerkies are back, even stronger this year. Wool, suede, or silk, gay or sombre, plain or plaid, they're all a "must" on everyone's list.

And here our survey ends, but not for long, we know, what with all the teas coming up, where you can display your newest "dresses" dress along with one of those "I just couldn't resist it" hats. We'll be watching for you there, and at the first formal, too, where we know we'll be left breathless by all your dream dresses. Until then, g'bye now!

Dr. John R. Haynes, noted physician and regent of the University of California, is called the father of the initiative in that state. (ACP)  
We never thought it all went back to one man.

## Campus Calendar

## In The Spotlight

By Phil Pierce

A little less than two years ago the last round-up called Tom Mix, and the final curtain was rung down upon the last act of a glorious career.

A little less than a week ago the kids of a small western town paid their idol a final tribute by erecting a monument to his memory.

Although no more the youth of America will thrill to the sight of his dashing figure, astride his wonder horse Tony, thunder across the screen with flashing guns, he will live forever in the memories of the kids who worshipped him as an idol.

To the kid who lives across the street, Tom Mix stood for the triumph of good over evil, for romance and adventure.

This writer is perhaps too old to be classed as a kid; perhaps not. But he will never be too old to join the kids of the nation in a moment of tribute to a great man who brought entertainment and happiness to millions of people.

In the hall of fame of the silver screen's immortals surely there is a niche marked with the name of Tom Mix.

After having a sneak peak at the

script of Bea Besse and Frank Hanson's new show, we want to go on record as saying that it will undoubtedly be a smash hit. We might even predict it to be a greater success than last year's "Of Cabbages and Kings." In fact, we will. It is in the bag.

If you want to see a movie that is absolutely the tops in super-smart repartee, we heartily recommend "When Ladies Meet." The show stars Joan Crawford, Robert Taylor, and Greer Garson. Incidentally, Herbert Marshall was thrown into the cast. Why we can't imagine. Nor can we see how some of the cracks in it got by the Hays office.

Anyway, it is really a good show with an average good story and some really fine dramatic scenes between Crawford and Garson.

With all the propaganda being thrown at us at the present time the old expert thought that at least music was safe from tampering. Evidently we were wrong. Listen closely sometime to such numbers as "My Sister and I," "Don't Cry, Cherie," and "The Last Time I Saw Paris."

## Campus Pickups

BERLIN, Ohio.—(ACP)—Safe from bombs and invaders, 37 trees are thriving in a greenhouse here, soon to be transplanted into the Hall arboretum of Oberlin College.

According to L. S. Ries, superintendent of buildings and grounds for Oberlin, his department examined nursery catalogs for three years looking for certain species of North American trees. Last fall ten of the missing species were located in a Nursery at Winchester, England. The order was placed Oct. 16, but the trees didn't reach Oberlin until Feb. 28.

Ries had given up hope that any of the trees would survive shipment, but after being individually potted and placed in the greenhouse, all of the 37 trees show signs of life.

The annual fall tennis tournament is due to get underway shortly after classes begin next week. Entries have always been heavy for this fall event, and this year should be no exception. Bert Pratt '43 has won this tourney the past two years and stands a good chance of making it three in a row when the dust settles in late October.

Last spring the varsity tennis team won the New England Conference crown with victories over Rhode Island, Connecticut, and New Hampshire. But they did not fare quite as well in the state competition, dropping their final match to the netmen from Bowdoin.

A strong sophomore contingent joined the varsity squad last year and is expected to be available for another successful season. In addition there is a small group of seniors who will

make things look bright in tennis circles during the coming year. The freshmen are an unknown quantity at the present time although there are several good men available.

Ada Louise Comstock, president of Radcliffe College, was the first dean of women at the University of Minnesota. (A.C.P.)

(ACP)—Naval ROTC units are being established this fall at eight universities and colleges, according to Rear Adm. John Downes, commandant of the Ninth naval district.

The units are located at the University of Notre Dame, South Bend, Ind.; University of Colorado at Boulder; Duke University, Durham, N. C.; Holy Cross College, Worcester, Mass.; University of New Mexico at Albuquerque; Rensselaer Polytechnic Institute, Troy, N. Y.; Rice Institute, Houston, Texas; and Tufts College, Medford, Mass.

Meanwhile the navy announced in Washington, D. C., that expansion of the program of enrolling freshmen in naval science and tactics courses has increased to 27 the number of colleges having naval ROTC units.

Total enrollment in the present academic year is expected to reach 4,600, with a graduating class of 300. Last year's enrollment was 3,055.

Multimillionaire Paul Mellon, already a graduate of Yale and Clare College, of Cambridge University, has registered as a freshman at St. John's College, Annapolis, Maryland. (A.C.P.)

University of Minnesota ranks seventeenth among 218 colleges and universities in the number of graduates in foreign service. (A.C.P.)

Novelist Sinclair Lewis has joined the University of Wisconsin faculty as a teacher of creative writing with the rank of professor. (A.C.P.)

## TO THE COEDS AND THE FACULTY OF THE U. of M.

Announcing the opening of Ben Sklar's new Woman's Shop where you will find the newest style in sport clothes which have just returned from the market—the nicest assortment of Camel Hair Coats, Covert Cloth, and Harris Tweeds—with and without zipped in linings.

You will find the largest assortment of sweaters, skirts, sport shoes, wool and silk dresses. Our prices are known to be more reasonable than others. A 20% discount will be given on all merchandise for the opening—Friday and Saturday. Don't miss this special once in a lifetime offer.

**BEN SKLAR'S**  
OLD TOWN

By Icky Crane

## WHAT HAPPENED THIS SUMMER

August 2: Art Belliveau, Bates '41, has been appointed a teacher-coach in the Auburn school system. At Bates Art captained the nine, was an All-State back for three years, and played plenty of varsity basketball. Maine fans will well remember his play against the Bears in those three sports!

August 3: The Bobcat baseball hopes hit a new low today when Davey Schiff '42 was inducted into the army. As Bates' ace hurler Davey was one of the few pitchers in New England to defeat Northeastern during the past two years.

Another highlight of the day took place at Bailey Island. Stan Johnson, former N.A.A.U. hammer champ and outstanding Black Bear tackle and track man, hauled in a 790-lb. tuna on a hand line to take the lead in the "largest tuna" contest. Stan worked with the Cabot Mfg. Co. this summer and did considerable flying (his plan—fish for tuna with a plane!)

August 15: Danny Barrett, former assistant frosh basketball mentor at the University, was named to succeed Norby Dowd as teacher-coach at John Baptist Catholic High in Bangor.

## FOOTBALL HIGHLIGHTS

August 23: Good news for three Maine college track coaches drifted out of Brunswick today—Bob St. Pierre, Colby '44, will report for duty in the Army Air Corps within a few days. Besides his outfield play for the Mules Bob was a potential 23 ft. broad jumper and star dashman. His departure leaves a more even battle in those events for the 1942 State Meet.

September 4: Thirty-two men of the 1941 football squad turned up at Brunswick today to report to Coach Adam Walsh. Captain Bobbie Bell led the returning athletes. At first glance—plenty of backs but not too good at tackle and guard posts.

September 8: Nels Nitchman welcomed a group of about 30 grid aspirants as Colby held its first fall practice. At least a dozen frosh are listed on the Massachusetts-dominated roster. Prospects—darn good! And at Bates Ducky Pond greeted almost 30 men at the Bobcats' opening session. Gone were five line starters in addition to a backfield who played together for four years. So—plenty of building to be done by Ducky and Jimmy De Angelis.

## WITH THE COACHES

In June Fred Briggs, an outstanding guard on Fred Brice's last eleven, signed as backfield coach and teacher at Madison High. Early last month he turned up as football and baseball mentor at Orono High. After losing their opener by a 7-6 score to Bucksport (coached by Bud Brown '39), the Orono boys bounced up to take Howland 39-0 and tie Lawrence High 0-0. More power to you, Fred!... Uncle Sam finally got Rog Stearns this summer, but not before he had signed with Dover-Foxcroft as coach of basketball and baseball and grid assistant.

## HERE AND THERE

Late flash from Bates: distance runner Bob McLaughlin has joined the Naval Air Corps and will not be around for cross country and track.... Rumor has it that Hal Woodbury's son reported at the stockroom one day this week to draw a baseball uniform.... At the rally: the band just about blew itself out waiting for the Mayor and the Official Party. The Mayor met his match—thanks to the Owls! Good entertainment and good speeches by Eck, Ben, etc.... Saturday: the boys certainly got caught in a Rut (ledge) in that game. It was a different team though that second half. Good job just the same!... Glad to see Jack Creamer, ex-'43, back a while ago; too bad he couldn't stay. He was an outstanding trackman before departing for Annapolis.... Read the Sept. 16 NEW YORK AMERICAN for a colorful (!) story on the Black Bears, by Austen Lake. What a use of the English language! You would think we played our games up in the Allagash Region!

The University of Maine Tennis Club held its first meeting recently in the Little Theatre. The program for the year and the election of officers were the principal items of business.

Officers for the current year were elected as follows: President, Gene Mertens; vice president, Bert Pratt; secretary, Mal Peckham; and treasurer, Palmer Ingalls.

# Once-Beaten Black Bears Face Huskies

## X-Country Team Gets Into Shape

### Squad Hampered In Time Trials By Sickness

Although the results of Saturday's varsity cross country time trials were not entirely satisfactory, with colds hampering a number of the runners, the squad is gradually rounding into shape for the first meet, which will be with New Hampshire on Oct. 11.

Number one man on the team so far this year has been Dwight Moody, who usually ran second to Ken Blaisdell last year. With Blaisdell graduated, Moody is the logical man to step into the vacated position, but the progress of some of the other runners indicates that they may give him plenty of competition.

The first seven men Saturday were Moody, Phil Hamm, Leo Estabrook, Manley Brackett, John Stanley, Fred Kelso, and Mark Ingraham. Back several positions was Dick Martinez, a member of last year's team. He has been bothered by a cold, however, and the fact that he finished even with Moody in a longer run Tuesday indicates that he will be one of the first men again this year.

The performance of Fred Kelso was the surprise of the trial on Saturday. A senior, Kelso has run the middle distances with considerable success, but this was the first time that he ever placed so well in a varsity cross country race.

## Bert Pratt Seeded First In Tourney

The fall tennis tournament opened on Monday, September 29, with over 128 entries. Because of the serious drought only the hard-surfaced court could be used during the first two days.

The large draw-sheet has been posted on the tennis bulletin board in Stevens Hall and at the entrance to the courts. Each player is requested to get the name of his opponent and to contact him immediately. All first round matches must be completed by Saturday, October 4, and the results reported to Coach Small, Tom Moore, or Don Bryan, managers. Tournament players have the right of way on all University courts, but they are required to wear regulation tennis shoes.

## 1941 Seedings

The following seedings have been announced: (1) Bertis Pratt; (2) Bud Peckham; (3) Gene Mertens; (4) Wally Francis; (5) Dave Greenwood; (6) Gordon Tooley; (7) Howard De Shon; (8) Dave Pennell; (9) Carl Kilpatrick; (10) Joe O'Neil;

## Chief Musher A Waltham Boy!

What the Huskies look like: squad of 43 men, including 35 from the home state, three each from Maine and Conn., and one each from N. H. and N. J.; nine seniors, 17 juniors, and 17 sophomores. The starting lineup—two seniors (both backs), five juniors, and four sophomores. Outstanding among others—Captain Joe Dias '42, of New Bedford; Len Erickson '43, of Waltham, chosen on most New England Small College All-Star teams last year. 1940 schedule—won two, lost six. 1941 schedule—seven games, took Vermont 20-6, plays Bates the 18th.

## Here's The Story!

The score said—Rhode Island 20 and Maine 13, but the statistics tell a different story! And here it is—Maine outplayed the Rams except in the passing attack. Maine R.I.

|                        |     |      |
|------------------------|-----|------|
| First downs            | 7   | 4    |
| Yds. gained, scrimmage | 138 | 43   |
| Yds. lost, scrimmage   | 16  | 14   |

| Yards lost             | 0   | 17   |
| Fumbles                | 0   | 2    |
| Recovered by           | 1   | 1    |

(11) Milt Gross; (12) Phil Miller; (13) Dick Chadwick; (14) Charlie Welch; (15) Floyd Smith; (16) Joe Ingalls; (17) Tom Moore; (18) Charlie Sawyer; (19) Don Wheeler; (20) Milt Weinstein.

There are several freshmen who have had considerable tennis experience. Prominent among these are: Robert Bernard, Curtis High School, Staten Island, New York; Edward Hall, Hebron; Robert Hall, Castine High School, Castine; Martin Kelly, Maine Central Institute; Robert Krause, Staten Island Academy, Staten Island, New York; George Lotker, Clark Prep., Hanover, New Hampshire; John Marriott, Lawrence Academy, Groton, Mass.; Raymond Neal, Marblehead High School, Marblehead, Mass.; Ashley Pomeroy, Wooster School, Danbury, Conn.; Richard Ross, Hebron; George Smith, Mount Hermon Academy; Everett Smith, Coburn Classical, Waterville; Francis Thibodeau, Caribou High School, Caribou; Thomas Stanley, Guilford High School, Guilford; and Don Torrey, Mount Hermon.

## Visitors Have Heavy Line, Speedy Backs; Al Edelstein Out

Saturday afternoon will see the first football encounter Maine has ever had with Northeastern University of Boston. The two teams have met in both baseball and basketball but never football. Northeastern will come to Orono with a fine team of experienced players and an impressive 20-6 win over Vermont last Saturday. The boys from Boston boast a strong line with Krajewski and Jensen each 200 pounds at the tackle posts and Grey another 200 pounder at center.

Captain Dias at left halfback is a brilliant passer and a fine runner and will stand watching by our Pale Blues. Northeastern has a superb and dangerous pass attack that is rumored to be one of the best in the East. The weight of the whole team on the average is 180 pounds as compared with Maine's 170 pounds.

## Allen Optimistic

Coach Allen, speaking in regard to the Rhode Island game said, "I naturally was disappointed at the outcome of Saturday's game, but I was not discouraged. I feel that it was our inexperience that licked us; six of the starters had never before started in a college varsity game. The mistakes we made were very evident and we have been working hard this week to iron those out. The blocking was bad and the line was not opening the holes well enough. I was very pleased with the defensive work on the part of Burrill and Nickerson ends. Offensively Barrows and Goodchild played a fine game."

"I feel that if we had been playing full 15-minute periods Saturday, we would have won that game because the better team usually wins in a game of greater length; and I honestly believe that we had the better team, in spite of the score. Outside of the two touchdown passes and the long run, Rhode Island showed no real superiority, and we played steadier and better ball."

## Change in Lineup

For the Northeastern game, the starting lineup will be changed somewhat from last week's. Edelstein, who broke his collar bone in a scrimmage this week will be out for the rest of the season. Squires is back in uniform now after being sidelined for a shoulder injury, and he might start Saturday. The tentative lineup is as follows: LE, Nickerson; LT, Morrill; LG, Neal or Grover; C, Geneva; RG, Robinson; RT, Irvine; RE, Burrill; LH, Hutchinson; RH, Goodchild or Nutter; FB, King; QB, Barrows.

## Heavy Green Eleven Opens Frosh Season

### Work, Smaha, Lyford, And Bunker Will Start In Sezak's Backfield

The freshman football squad will make its debut here Saturday morning when it tackles a well-balanced Big Green eleven from Hebron Academy. Coach Sam Sezak and assistants Charlie Gardner and Hugh Brownlee have been bringing the team along slowly but surely; and barring injuries the class of 1945's gridiron representatives should go places.

Seventy-five per cent of the first three weeks of practice has been spent on fundamentals; in the remaining time the team has learned and run through basic plays. Both the linemen and backs are big, rugged, and fast, and shape up as one of the hardest-hitting charging freshman unit in many years.

## Hebron Reported Strong

It is expected that thirty or forty will see action in Saturday's opener as all the positions are three and four men deep. Coach Sezak is anxious to see what his charges can do under game conditions.

## Starters and Their Weights

The following will probably see service: Left end: Pratt (180) or Speirs (180), Crabtree, and Towtton. Left tackle: Sprague (208), Moulton and Vickery. Left guard: Torrey (190), Butler, Irwin, and Bernard. Center: Cahoon (185) or Gordon (185), and Rice. Right guard: Vafades (185), Camack, Thompson, and Packard. Right tackle: Mininni (228), Goodell, and Hansen. Right end: Emerson (175), Littlefield, and Morrill. Left halfback: Work (190), Gent, and Rourke. Right halfback: Smaha (165), and Thornton. Fullback: Lyford (195), Donovan, and Hazeltine. Quarterback: Bunker (170), Corey, Bean, and Smith.

## Sophomore Back

AL HUTCHINSON

## Miriam Adasko Is Girls' Tennis Leader

Upperclass women have turned out in comparatively large numbers for hockey practice. Friday afternoons at 3:20, and Saturday mornings at 10:00 are especially for upperclass women, although they are welcome at any time. Juniors and seniors who are interested in arranging teams should see their class leaders—Pete Henry and Mary Cowin, respectively.

The Women's Tennis Tournament is progressing rapidly with Miriam Adasko moving into the top bracket of the quarter finals. Results thus far are as follows:

First round—Packard defeated Kimball; Thorpe defeated Telford; Crowell defeated Troland; Le Clere defeated MacNeil; Higgins defeated Rhodes; and Cousins defeated Ryan.

Second round—Adasko defeated Robbins; Packard defeated Rubinoff; Higgins defeated Woodbrey; Donovan defeated Goodspeed; and Phillips defeated Clifford.

Third round—Adasko defeated Packard.

## Folsom Number One Harrier; Frosh Led Lee, Tied Canoers

The initial time trial for the frosh cross country runners was held last Saturday and the prospects for this year look good, Coach Chester Jenkins announced early this week.

One of the best time trials ever to be turned in by a freshman in a long time was that which was turned by Elmer Folsom who was clocked in 10:08, a mark which is exceptionally good at this time of the current season. Last year Elmer was at Higgins where he did a good job in track.

## Prospects Good

Five other marks were turned in below the 11-minute limit, and the squad as a whole looked good considering the fact that there is but one man in the whole squad that has ever run cross country before.

The frosh harriers have been practicing very hard in order to get in trim for the coming campaign which

## Champions Win Opening Game Touch Football

### Phi Eta, Phi Mu, Phi Gam Score At Will Sigma Nu Noses SAE

The 1941 fall season of intramural sports got off to a flying start on Sunday with six touch football games providing plenty of thrills for the spectators. Five winners came through with wins while the Lambda Chi Alpha-Phi Kappa Sigma battle has not been settled due to a protest.

Kappa Sigma 6—Delta Tau Delta 0. A pass on the third play of the game provided the only score in this contest as the defending champions successfully started the defense of their title. Al McNeilly to Hank Leland was the scoring combination.

Phi Eta Kappa 34—Theta Chi 0. The Phi Eta boys went on a scoring spree in this battle as they denied the Theta Chi defense time and again for scores. When the game finally came to a halt, Red Meserve had two touchdowns, Don Kilpatrick one, and Malar one, plus two touchbacks.

## Sigma Nu 8—SAE 6

Stan Gilman's touchdown was not enough to win this one even though it offset Charlie Sawyer's score for the winners. The losers' center won this one for Sigma Nu with a bad pass which went back so far that it became a touchback.

## Phi Mu Delta 24—Tau Epsilon Phi 0

The TEP team held the winners scoreless during the first half, but the steamroller really rolled during the last two periods to gain a clearcut victory behind the scoring of Ike Downes, Leon White, and Gordon Tooley.

## Phi Gamma Delta 20—Alpha Gamma Rho 0

Phi Gam had a hard time last winter trying to win a basketball game, but such was not the story on Sunday as O'Neil, John Anderson, and Dope Miller piled up the points for this win.

## Three Meets Saturday

Besides Folsom the A team was made up of Bill Marble, Fred Doescher, Bob Hanson, Lincoln Fish, Verne Bowie, and Burleigh Crockett. On the B team were Bill Bunnell, Tom Young, George Garland, John Crockett, K. H. Yorke, Stan Murray, and Barkley Goodrich.

On Saturday all three teams will go into action on the Orono course. Houlton High will journey down from Aroostook County to provide opposition for the A team while Hartland will meet the B group. Searsport will run the C team at the same time. The three races will start together at 11 a.m. but will be scored separately.

## Jones Drills Junior Varsity; Will Face Husky Frosh Oct. 23

With the first game of the season only eight days away, the junior varsity football squad has been undergoing the same strenuous practice sessions as the varsity team. Under the careful eye of last fall's frosh mentor, Phil Jones, the team is shaping up as a strong outfit.

Although the jayvees have not been practicing long enough to have a starting team already picked, there are plenty of good prospects at every position. In the backfield Bob Hay, Ben Graham, and Walt Keene will probably see plenty of service this fall.

## Meet Frosh Oct. 23

In the line Don Goodwin has shown

## Frosh Rifle Candidates Requested To Report

Lt. Lask, coach of the men's Rifle Team, reported this week that a number of freshmen had turned out, but that he wanted more men to come out. He stated that experience was not necessary and urged that all interested in the team register with him before October 6. Men who are exempted

from military and who have rifle team experience are also asked to report to him. Practice is from 1:30 to 5:00 p.m. on Monday, Tuesday, Thursday, and Fridays only.

Among the outstanding men now at work are the following: Lloyd Burnett, Calvin Friar, Wayne Hulbert, Nathaniel Bartholomae, Albert Barmby, Robert Chase, Malcolm Colby, Eliot Friedson, George Leavitt, Edward Arbo, Lawrence Towle.

**No Cramming Necessary!**  
For swell flavor and real chewing fun—the answer is delicious Wrigley's Spearmint Gum

## WHAT ARE YOU DOING WITH YOUR LAUNDRY THIS YEAR?...

A better method is to send it home regularly by RAILWAY EXPRESS—and have it returned the same way.

Our service is fast, sure—and convenient. Economical rates include pick-up and delivery at no extra charge within our regular vehicle limits in all cities and principal towns. Your choice of prepaid or collect charges. Just as convenient too, for 'most any shipment: Baggage, gifts, cake or a pet elephant.

## Campus Brevities . . .

Plans for the meetings of the newly organized Physics Club call for discussion of current developments in Physics and of experiments being conducted by seniors in the department.

Lectures by scientists and faculty members will be given for benefit of all students interested in this field.

Expectations of a very successful year are held by the club's presiding officers: president, Charles T. Kenniston; Charles Bartley, secretary; Roger White, treasurer.

Meetings will be held once a month at Auburt Hall.

Four former University of Maine students will receive preliminary flight training at the Naval Air Station at Squantum, Mass., it was announced last week by the Navy's Flight Selection Board for New England.

The quartet, Walter H. Foster, Jr., Belmont, Mass.; Thomas R. Woolley, Jr., Bridgton; Alvah Potter, Woodland; and William Laliberte, Brewer, will be assigned to units representing their respective colleges.

The Maine Christian Association will hold its weekly church service on Sunday at the Little Theatre from 11 a.m. to 12 m. Chester Darling will give a violin solo, and there will be music by the choir.

All freshmen interested in electrical engineering are invited to attend a joint meeting of the American Institute of Electrical Engineers and the Radio Club, to be held in 26 Lord Hall, Tuesday, Oct. 7, at 7:00 p.m.

Prof. W. E. Barrows, head of the department of electrical engineering, will give a talk on the "History of Lighting." Following this, the laboratories will be open for inspection and demonstration.

A picnic on Oct. 12 at the summer home of Prof. Robert R. Drummond in Lamaine will start the season's activities of the German club, according to an announcement made this week. The club will continue its activities in a series of monthly meetings throughout the year.

Officers for the ensuing year were elected at the final meeting last spring and include: president, Rudolph Haffner; vice president, Barbara Doore; secretary, Jennie Bridges; and treasurer, Paul Beegel.

The following pledge reports have been received and properly recorded by the interfraternity council, Stanley G. Phillips, secretary, announced this week: Alpha Tau Omega, Edward Falardeau; Delta Tau Delta, Paul H. Phelan; Phi Mu Delta, John F. Steinmetz.

Dean Paul Cloke of the college of technology attended a meeting of the Research Foundation, Inc., of which he is a trustee, at Boston, Sept. 25.

The Arts Club of the University of Maine will present a program on Oct. 14 at 7:00 p.m. in Stevens hall designed to introduce that organization to the freshman class, Richard Martinez, president of the club, said today.

The entertainment will consist of talent from the faculty and freshman class, as well as from the three upper classes.

In charge of this program will be the committees appointed at the executive board meeting on Sept. 26.

The appointments included: Elinor Crowell, executive chairman; Marguerite Messer and Barbara Scribner, program committee; and Anne Ring and Arabella Banton, publicity committee.

## Defense Council Holds Meeting

Representatives from 20 campus organizations were present at the first meeting of the coordinating council for the women's civilian defense program held Tuesday at South Stevens.

Freda Flanders, chairman of the committee, presided. The following were present:

Esther Randall, Barbara Savage, Esther Holden, Mary Hempstead, Dorothy Ouellette, Mary Chapman, Ruth Higgins, Dorothy McLeod, Virginia Foss, Shirley Ashman; Helen Mehan, Miriam Adasko, Barbara Farnham, Dorothy Warren, Margaret Phillips, Barbara Emmons, Marion Lundgren, Hope Moody, Elizabeth Grady, and Rita Cassidy.

The defense program will be under the guidance of Dean Edith Wilson and Miss Helen Lengyel.

## Freshmen Girls Have Home Ec Club Picnic

The Home Economics Club gave a picnic this week for the freshman girls in the home economics department in order to acquaint them with the upper-class women.

Helen Deering, the president of the club, introduced Dean Edith G. Wilson, Dean Arthur L. Deering, Dr. Marion D. Sweetman, Miss Pearl S. Greene, Mrs. Mary E. Snyder, Mrs. Calista K. White, and Miss Anna Eliasson of the faculty to the new girls. She explained the club's plans for the year, and the official program was concluded by student entertainment.

## Benjamin Promoted In Army Air Corps

Aviation Cadet Charles S. Benjamin, Jr., of the 41-I class of the Southeast Air Corps training center, was promoted last week from the basic flying school at Montgomery, Ala., to an air corps advanced flying school.

Cadet Benjamin attended the University of Maine from 1938 to 1941 and was a member of the Glee Club. He began his primary training on March 25, 1941, at Lakeland School of Aeronautics, Lakeland, Florida, where he received his first instruction in army flying, and did his initial solo flights.

Virginia Rourke was elected president of South Estabrooke house at a meeting held Monday night, Sept. 29. Other officers elected at the same meeting were: Mary Chapman, vice president; Alicia Coffin, secretary; Arlene Rodman, treasurer; and Mary Crossland and Muriel Medina, social chairmen.

## Student Wins Drawing Prize

John Frederick Kane, a mechanical engineering major who last June completed his freshman year in the college of technology, has won first place in a national engineering drawing prize competition, it was announced last week by Prof. Benjamin C. Kent, head of the department of engineering drafting.

The contest, which was open to first-year students from engineering colleges all over the United States, is sponsored each year by the Division of Engineering Drawing of the Society for the Promotion of Engineering Education. Students in advanced courses were not allowed to enter the contest.

Charles T. Keniston, a pulp and paper major, won second place in 1939, and Clifford W. Birch, Jr., a mechanical major, took second prize in that contest in 1940.

## Frosh English Scores Drop Each Year

STATE COLLEGE, PA.—(ACP) College freshmen know less and less about the "King's English" with each successive year, according to a diagnosis made by Theodore J. Gates, head of the department of English composition at Pennsylvania State College.

Professor Gates bases his observations on a study of results obtained from diagnostic tests given each entering freshman at Penn State.

The tests cover spelling, vocabulary, punctuation, grammatical usage and diction. Professor Gates said only about 25 per cent of the first-year students get 60 per cent of the answers right, while 16 per cent are denied admission to college English and are required to take a sub-freshman course.

"The scores are considerably lower than they were four years ago," he said.

Much of the difficulty, he declared, results from increased high school and college enrollment, with its lack of attention to individual instruction.

## Sports Schedules For Saturday

9:30 a.m. Hebron Academy (Frosh football)  
11:00 a.m. Houlton Hartland Searsport (All Frosh cross country, teams A, B, C)  
2:00 p.m. Northeastern (Varsity football)

**Lend me a Minute**  
and I'll give you back 15 seconds

Says PAUL DOUGLAS, well-known radio announcer

Somebody whistles a few bars of a catchy tune.

Others pick it up.

Soon the whole country's whistling it. *It's a hit.*

Somebody lights up a cigarette.

Likes it. Passes the word along.

Soon the whole country's smoking it.

*It's a hit. IT'S CHESTERFIELD.*

The big thing that's pushing Chesterfield ahead is the approval of smokers like yourself.

*Chesterfields are definitely Milder,*

*Cooler-Smoking and Better-Tasting.*

*They're made of the world's best cigarette tobaccos*

*Blended just right to give you more smoking pleasure.*

Copyright 1941, LIGGETT & MYERS TOBACCO CO.

But even these facts wouldn't count if smokers didn't just naturally like them. Once a smoker finds out from Chesterfield what real smoking pleasure is, nothing else will do. Yes, fellow smokers, *IT'S YOUR APPROVAL*

*THAT'S PUSHING CHESTERFIELD AHEAD.*

Everywhere you go *They Satisfy*

## Brace - -

(Continued from Page One)  
enough coal to keep the stove going for two hours. Sleepless nights, lack of food, uncertainty, fear—all were present in the stories he told although he made no specific mention of the hardships he encountered.

This reporter asked Dr. Brace how it was that the Germans were able to crash through the Maginot line which appeared to be impenetrable.

"That's one I can't answer," he said. "Even the soldiers who fought at the Maginot line don't know."

"Was it the element of surprise?" I asked.

**French Over-confident**

"No," he replied, "it wasn't a surprise attack at all. I had soldiers whom I knew tell me that the attack would come either in April or May. I think rather it was because the people in France were too sure of the strength of their Maginot line. If anything, the reason for its failure was over-confidence."

Well, this, in brief form, is the story of the good doctor. Personally, I think that both he and his wife, although they probably wouldn't admit it, had the time of their young lives chasing around Europe dodging "Heel" Hitler and his perverted playmates.

Nine persons from eight states have recently received scholarships from Medill School of Journalism, Northwestern University. (A.C.P.)

## To the Freshmen - - -

Make your headquarters at Ben Sklar's in Old Town to look up your needs for the coming winter season. We have catered to the students of this school for twenty-one years. For references make inquiries of the upperclass student body. For merchandise you can find in our store standard brands such as—

Timely Clothes

Clipper Craft

Dobb's Hats

Bostonian and Freeman Shoes

And several other well-known brands.

Come in and get acquainted.

McGregore Sports Wear

Woolrich Hunting Shirts

Bass Ski Boots

Manhattan Shirts
