Report of Superintendent of Schools

To the Superintending School Committee and Citizens of Jackman: I herewith submit my annual report as Superintendent of Schools.

Our total enrollment this year is 140, of whom 19 are residents of other towns, leaving a net local enrollment of 121.

HIGH SCHOOL

At the close of the school year Mr. Diehl, who had served us very efficiently for many years resigned to accept the principalship of Mechanic Falls High School.

From a long list of candidates the School Committee elected Mr. Harold Rowell to fill the vacancy. Mr. Rowell has his Master's degree from Columbia and is a thorough scholar, well qualified to teach all academic subjects.

In our Commercial Department we are most fortunate to retain Miss Curtis, whose excellent work for many years is well known to all.

Fifty-one pupils have been enrolled, of whom thirteen are from Moose River and one from Holeb.

We are continuing the long period program which was instituted last year, as it provides for a more efficient use of time for both teachers and pupils. Due to our limited faculty and the number of courses we offer, we find it extremely difficult to keep within the State regulations which permit a maximum of seven teaching periods daily per teacher. The only solution apparent under present conditions is either to offer some elective courses in which the enrollment is small in alternate years, or to eliminate one or more courses from the curriculum. If funds were available, an additional teacher who could take classes in both high school and grade subjects, would greatly increase the efficiency of the school.

GRAMMAR SCHOOL

Mrs. Anne Nichols

The enrollment by grades is as follows: Grade VIII, 13; Grade VII, 2; Grade VI, 6; Total 30.

This is a large school and not an easy one, as in addition to children who have come up through the grades, we frequently have pupils enter from other schools, who are below grade in some subjects, particularly English. In consequence, much intensive work is required to properly prepare these pupils for high school.

PRIMARY SCHOOL

Miss Helen Rock

Total enrollment, 35. By grades: Grade V, 7; Grade IV, 8; Grade III, 5; Grade II, 3; Grade I, 12.

This room is rather crowded, while the number of grades makes the recitation periods very short, with limited time for individual work with pupils needing special attention. The work has also been handicapped this year by numerous absences due to whooping cough.

Every effort will be made to have pupils make up their work, so that all who possibly can, may pass their grade.

STATION SCHOOL

Mrs. Maxie Johnson

While the total enrollment here is 27, so many have either moved from town or entered the Parochial School, that the present number is much smaller, while the average attendance seldom exceeds 15. The grading is as follows: Grade VIII, 3; Grade VI, 7; Grade V, 3; Grade IV, 1; Grade III, 2; Grade I-A, 3; Grade I-B, 5. As comparatively few pupils from this school plan to attend high school it is important that every effort be made to make their school training of the utmost practical value.

REPAIRS

So far as the preservation of the buildings is concerned only minor repair work is necessary.

The arrangement of toilet facilities in the high school building is, however, far from satisfactory. One method of solving this problem at a reasonable cost is to construct a stairway from the Grammar School dressing room to what is now the

boys' toilet room, equip this room for the girls and move the boys' to the other side and lock the door from the furnace room to the girls' apartment. There would then be no occasion for the girls to be in the furnace room while their own room would enjoy complete privacy.

RECOMMENDATIONS

All recommendations for appropriations have been carefully considered by the School Committee and have received the approval of the Budget Committee.

Respectfully submitted,

RUSSELL S. TAYLOR, Supt. of Schools

Report of Jackman High School

To Superintendent Russell S. Taylor, members of the Superintending School Committee and the citizens of Jackman, I have the honor of submitting this annual report of Jackman High School.

As to enrollment this has been a favorable year. We now have seven Seniors, ten Juniors, seventeen Sophomores and thirteen Freshmen—a total of forty-seven.

With such a comparatively large attendance it is not surprising that school activities have been carried on with enthusiasm and success. The Freshman reception was very largely attended; the school fair, held in the fall, netted the largest financial profit in several years; the three act school play, "What Happened to Jones," a rather ambitious undertaking for pupils accustomed only to shorter one act plays, was well presented and apparently enjoyed by a large audience.

In basketball the merging of the high school boys' team into the town Boys' Club has already proved a wise measure. Previously, with not enough first-string players to meet other high school teams on anything like even terms, it must have been very hard to have a very satisfactory basketball season. This year the Boys' Club has not met defeat on the home floor though playing Greenville High, Co. L, Skowhegan, Greenville Collegians, Slaters, Guilford Advertisers and Greenville Boys' Club. The summary at this date is five games won; two lost. The school is much indebted to the skillful coaching and direction of Mr. Langdon Holden for its basketball activities. Perhaps his wisest move has been to develop a grammar school team which will give a good account of itself when it is in high school a few years later.

As to quality of school work, standard tests in second year Latin showed all members of the class well above nation-wide averages at mid-years. In typewriting there have been nine various awards so far, two beginners have already exceeded the number of words per minute required for the entire first year, and all stenography pupils have awards of excellence.

Junior Prize Speaking will be held this year shortly after the coming vacation in time for the Greenville Contest—held there

this year—and the Spear Contest in Augusta. The Activities Association has voted to hire the Strand Theater for the contest here so that the public may have free admission as usual with the added convenience of a larger hall.

In the building, alterations are now in progress which will give a much needed drinking fountain on the first floor and separate stairs to the basement toilets. The lighting of the main room is inadequate. Before the dark days of next fall, windows should be put in the wall of the Science room similar to those between the typewriting and commercial room, the ceiling should be painted and modern semi-indirect lights installed.

In conclusion may I say that I have found the school well organized, records accurately kept, general tone of student body intelligent and co-operative, and standard of work comparing favorably with other class A high schools in this State. I wish to express appreciation to Mr. Taylor, to Miss Curtis, to the Board, to the Alumni, and to the many citizens who have furnished aid that has been invaluable to a principal starting work in a new school.

Respectfully submitted,

HAROLD E. ROWELL,

Prin. Jackman High School
