## SCHOOL REPORT.

The Superintending School Committee, at its first meeting, elected Mr. E. L. Adams, Superintendent of schools and the members congratulated themselves that the town had the best man available for the place. On July 27, 1905, Mr. Adams resigned and the present incumbent was elected to fill the vacancy.

There have been no radical departures from former years, as regards the management of the schools. Your Superintendent has employed local teachers where it seemed profitable, and they have given excellent satisfaction.

The schoolhouse at No. Fryeburg has been put in good repair. Some of the citizens thought the S. S. Com. ought to make an addition to the building, making another room but the Committee did not consider that they were authorized to do this. Some radical change ought to be made in this school, as satisfactory work cannot be done where there are so many scholars of all ages. This does not imply any criticism of the teacher, who is doing as well as could be expected under the conditions

existing there. Let me say here, that the teachers in all the schools are doing excellent work. I do not believe they can be bettered at the wages we pay.

The schoolhouses throughout the town are in fairly good repair; painting and repairing seats being about all that is necessary.

The school-books, especially the Readers and Arithmetics are badly worn and need to be replaced by new ones. The teachers complain that the Arithmetics in use for the younger scholars are not as good as some other text books and I agree with them and think a different book should be used. An appropriation, sufficiently large, should be made, so that the school rooms may be provided with suitable dictionaries, charts, etc. One of the schools has no dictionary, and some of the other schools, mere apologies.

There has been a misunderstanding in regard to the liability of the town for the tuition of its High School scholars. The course taken must be of standard grade and the state Superintendent has decided that a business course in any school is not of standard grade.

There has been a tendency, and this tendency is increasing, year by year, to advance the town scholars into the Academy before they are prepared to enter the same. This tendency should be discouraged by teachers and parents. In order for the scholar to have his tuition paid by the town, he must have a certificate from the Superintending School Committee and the Superintendent of schools, stating that he has completed the common school studies and is entitled by scholarship to enter a secondary school of standard grade.

We ought not to expect our scholars to accomplish in

nine years of 27 weeks, as much as is accomplished by the Mass. schools, in nine years of 36 weeks each.

There have been several flagrant cases of truancy, and unless this abuse is corrected, the law in regard to same will have to be enforced. The following is the itemized account of the schools expenses.

Respectfully submitted,

E. F. DOUGHTY,

Superintendent of Schools.

Fryeburg, Feb. 19, 1906.

### Auditor's Report.

I hereby certify that I have examined the accounts of the town officers of the town of Fryeburg for the year ending Feb. 19th, 1906. I find the financial standing of the town to be as stated in their respective reports. I find that your chairman of selectmen, Mr. Hutchins, who has had charge of the town books has kept his accounts correctly and has been very careful and painstaking in having when possible, all orders drawn by him, vouched for by itemized bills. Although these bills do not appear in this town report they are on file with the town officers and can be examined by any one, and I think this system continued every year will show our taxpayers where and in what manner every dollar of the towns money is expended.

I recommend that an approved itemized bill, (or in case of part payment a receipt for the same) should accompany each and every order given to the selectmen, in order that they may have a proper voucher for every order they draw on the town treasurer, and that these itemized bills shall be properly filed and kept in their possession for reference at least one year.

C. W. PIKE,

Auditor of Accounts.

Fryeburg, Feb. 19, 1906.
