The fifth annual Libby Lecture, featuring Dr. Eric Roy, is set for November 8 at noon at Buchanan Alumni House
Dear CLAS,

We would like to invite you to participate in the 2023 Libby Lecture presented by Eric Roy, Founder and Chief Scientist of Hydroviv. Learn about how Hyrdroviv emerged from the Flint, Michigan water crisis online. Details about the lecture are below. A reception for the speaker along with a light luncheon will follow the presentation. Everyone is welcome to attend both events!

If you have questions, please email me or libby-lecture-group@maine.edu. Thank you and we hope to see you at this inspiring program made possible with funding from Larry and Lois Libby!

The 5th Annual Libby Lecture in Natural Resource Policy presents

**We Understand The Problem. Now What?**

The Opportunity For Scientists To Pursue Advocacy & Entrepreneurship

with

Dr. Eric Roy

Founder, Chief Scientist: Hydroviv (Now Part of Culligan International)

University of Maine Alum (Ph.D. 2009)

Noon on Wednesday, Nov. 8 • McIntire Room, Buchanan Alumni House

Dr. Roy will discuss why scientists are uniquely positioned to lead advocacy efforts and develop
entrepreneurial solutions to the “big problems” that face our world and discuss examples of the
types of unique challenges, opportunities, and lessons learned that accompany these types of
public-forward pursuits. The annual Libby Lecture in Natural Resource Policy was established
with a gift from Lawrence W. Libby ’62 and Lois Murdock Libby ’63. The annual lecture is a
collaborative event coordinated by the College of Earth, Life, and Health Sciences and the
College of Liberal Arts and Sciences.

For more information about the lecture, our speaker, or to request a disability accommodation, call
