Hon. Doctor Of Laws Conferred On Lie

INSTITUTE DIGNITARIES—Trygve Lie, center, secretary-general of the United Nations, is shown looking over Campus coverage with Wilfred J. Hinton, British economist, left, and Dr. Howard L. Andrews, noted nuclear physicist, as the Institute of International Affairs swung into high gear. —Newhall Photo

UN Leader Honored After Assembly Address; Large Audience Sees Ceremony

By LARRY PINKHAM

The Memorial Gymnasium took on an international air Tuesday when Trygve Lie, secretary-general of the United Nations, received an honorary Doctor of Laws degree before an overflowing general assembly audience.

Dr. Lie, who gave an address in connection with the Institute of International Affairs, was presented for the degree by Raymond W. Davis, member of the board of trustees. President Arthur A. Hauck read the citation and bestowed the degree on the U.N. official.

Discussing the United Nations at length, Dr. Lie asserted that the "continued existence of the United Nations offers the only real hope of an eventual settlement without war" of the hostilities which now exist between the East and West.

Prefers UN to Armament

"I would rather have the United Nations than all the armies, navies, and air forces of all the countries on earth, and their secret weapons," he said.

Concerning the cold war in Europe, the UN official said that the hostility between the East and the West must stop. "If it continues indefinitely," he said, "it will end in a war that will end civilization as we know it."

"It is senseless to talk of delaying the next war," Dr. Lie declared, "because if there is anything certain about another war it is that the passage of time will not make it any less deadly."

"Another war would be a catastrophe, tomorrow, five years from now, or in the year 2,000."

The former head of the Norwegian foreign ministry added that there are certain "serious and fundamental differences" which now divide the East and West. The United Nations can and must serve as a means of settling those differences peaceably, he declared.

Hinton Stresses Britain As Key To Europe Aid

By DON KING

Continuation of American economic prosperity is necessary to the plans for European recovery, said Wilfred J. Hinton, director of studies at the Institute of Bankers, London, as he opened the Institute of International Affairs Monday evening before a capacity audience in Women's Gymnasium.

Dr. Hinton stressed the greater industrial output of Britain in relation to other European countries as a factor that makes "British recovery essential to the full recovery of Europe. So is the stabilization of France and economic recovery of Germany—under suitable political safeguards," he said.

Pointing out that the net income from Europe's investments is almost nil, he stated, "The British remedy for that has been to hold down imports to 80% and push exports to 150% of prewar quantities. Hence, British austerity at this time, and the controls over consumption by rationing, by the allocation of raw materials to encourage export, by fixing prices, and securing consent of labor and industry to wage and dividend ceilings."

By this plan Dr. Hinton believes that Great Britain will be self-sufficient by 1952.

(Continued on Page Eight)

Vaughn Monroe To Play Beta Songs Saturday

Members of the Beta Theta Pi fraternity are unhappy today about their eagerness to have a party Friday night. Late Monday night the members of the house learned that the perfect setting for a party was being offered Saturday evening.

At 7:30 p.m. this Saturday, Vaughn Monroe and his orchestra will devote half an hour to the playing of Beta songs during a regularly scheduled radio program. This, all the local Beta members agree, would make a perfect setting for a party.

But, the die has been cast. Beta will have its party Friday night, and Vaughn Monroe will probably play to an all-male audience at the local Beta house Saturday.

Class Constitution Slated For Student Referendum

Following is the proposed Class Constitution as drawn up by the Constitution committee of the General Student Senate and approved for referendum by a unanimous vote of that body.

This constitution, if approved by student vote at the General Elections on May 9, would be in effect for all four classes.

PROPOSED CONSTITUTION Class of — of the University of Maine

Article I

Membership

The membership of this Class shall consist of all undergraduates who are officially listed in the University records as members of the Class of —, hereinafter referred to as the Class.

Article II

Purpose

The purposes of the Class of — Organization are, first, to promote the welfare of the University of Maine and, second, promote the best interests of the Class.

Article III

Officers

The Officers of the Class shall be a President, Vice President, Secretary, and Treasurer, who shall serve for one year, or until their successors (Continued on Page Three)

Fledgling Legislators Hold Training Session

In preparation for the second annual Hi-y Legislature to convene in Augusta in April, a training session was held last week at the University. More than 100 Hi-y and Tri Hi-y representatives heard a program prepared by Dr. Dow and Mr. Suarez of the history and government department.

This Youth and Government, which is sponsored by the YMCA in 20 states, is outlined as a preparation of young people for democratic leadership.

Plumbing Injury Brings Drought To Men's Dorms

Students in Hannibal Hamlin and Oak Halls were without cold water for three and one-half hours last week.

The incident occurred when a nipple broke on the shutoff between Fernald Hall and the main line. J. Carroll Dempsey, superintendent of buildings and grounds, said the damage was not the result of freezing or flaws in the construction of the pipe.

The break, which also affected the water supply in Lord, Aubert, Wingate, Coburn, and Fernald Halls, was repaired by maintenance men

Masque's Macbeth Thrills Capacity First Night Audience

By BOB SNOWMAN

The opening performance of "Macbeth," a five-act tragedy by William Shakespeare, was presented by the Maine Masque to a wildly enthusiastic capacity audience at the Little Theatre last night. The play is under the direction of Herschel L. Bricker, head of the group.

Charlotte Alex as Lady Macbeth, Marnel Abrams as Macbeth, and Jerome Matus as Banquo, turned in masterful characterizations, supported by a huge and extremely professional cast. Carol Carr will play Lady Macbeth tonight and Saturday, with Miss Alex resuming the role Friday night.

One of the most striking features of the presentation is the lighting, which adds immensely to the illusion

of drama. The mood is further heightened by the able organ accompaniment of Barbara Hart and Paul Payson.

"Macbeth" is presented in its entirety, and holds the audience's full attention for two hours and 45 minutes.

Because of the unprecedented demand for tickets, a special showing of "Macbeth" will be held at 2 o'clock Saturday afternoon in the Little Theatre.

The backstage crew, which deserves a good share of the credit in this mammoth production, is under the direction of the following people: makeup, Henri Casavant; costumes, Janet Pettee; lighting, Clayton Briggs; set, Larry Dunn; and stage manager, Dick Buck.

Audio-Visual Adds New Film To Big Library

The audio-visual service has recently acquired several new films to add to the approximately 500 reels which they maintain. The films are available for rental to any responsible campus organization.

Included in the new additions are six films showing scenic spots in Canada. They are in full color and prove to be both amusing and educational in the depiction of the resorts and landscape of the Dominion.

Two films, "Feeling of Rejection" and "Feeling of Hostility," are also now available to psychology, education, and child study groups.

These films present case histories of girls who developed complexes early in life, and their respective recoveries when guided by a psychiatrist to realizing the fundamental causes of the prevalent feelings.

Allowance Of Economic And Political Rights Has Not Strengthened Communism In England

"In nations that have made democracy work by allowing Communists full economic and political rights, Communism has not had the power to grow," Rev. Prentiss Pemberton told students of international relations last week.

Pemberton, secretary of the New England Student Christian Movement, cited Great Britain as an example of a country that has refused to establish un-British Activity Committees, and has insisted upon full political and economic rights for Communists. For this reason, said Pemberton, the Party has remained a very weak political force in England.

Allowed in Civil Service

Pemberton admitted that Party members were recently deprived of high civil positions in England, but added that the British leaders were careful to see that the Communists received other positions in civil service.

Pemberton asserted that nations such as Germany and Italy, which have "opened beachheads" against Communism, have unwittingly allowed it to become a firmly established force in the country.

Nations Cannot Stand War

Commenting upon U. S.—Russian relations, Pemberton said that Russia cannot be compared to "had-not" Germany in the last two wars. He pointed out that Russia and the U. S. are the two wealthiest nations in the world, but that it is doubtful if the society of either nation could stand the economic strain of another war.

Pemberton declared that each country needs what the other has to sell, and expressed the belief that our diplomacy should be based on pure selfishness, similar to the setup between England and the Soviet Union. He asserted that England and Russia are also in a cold war, but that it hasn't affected their trade agreements.

Will Demand Trade Agreements

Pemberton voiced the belief that American business men will demand vigorous trade agreements with Russia as an intelligent method of averting unemployment and a business slump.

Declaring that the cold, ideological war between the U. S. and the Soviet is here to stay, and that our primary job now is to learn how to win it, Pemberton concluded that, "We defeat our case if we feel that we can't put our beliefs against theirs in the market of ideas."

Temple Meets Tonight

The Order of the Temple will meet tonight in the Orono Masonic Temple. Worshipful Master Lloyd Ireland has announced that the initiation degree will be worked and refreshments served.

Second Lecture In Canterbury Series, Sunday

Dick Schonland, Jr., President of the Canterbury club, announced today the second talk in the series, "The Prayer Book Speaks to Us in Our Uncertain Age." The talk will be given by the Reverend Hobart Jude Gary on Sunday evening, March 20, at 7:15 p.m. in the upper lounge of the MCA building. The talk is entitled, "Power for Living from Worship."

It was pointed out that 1949 is the 400th anniversary year of the "Book of Common Prayer," the service book used by 45 million Anglicans throughout the world. Throughout the Anglican Communion this anniversary is being celebrated by special services and study groups.

This series of straight-forward and forceful talks is of interest not only to Episcopalians, but to all Christians, as it deals with the fundamental principles and applications to the world scene of the Prayer Book.

The Prayer Book was the first English service book and has served as a prose model and inspiration since its translation.

Class Constitution Proposed By General Senate Is Being Offered To Student Body For Approval

(Continued from Page One)

are elected and qualified.

Article IV Executive Committee

The officers and five other members of the Class who shall be appointed by the officers immediately after election shall constitute the Executive Committee of which the President of the Class shall be the chairman.

Article V Amendment

This Constitution may be amended by a two thirds vote of those present at any meeting of the Class provided notice of such amendment shall have been given through *The Maine Campus* at least one week prior to the date of the meeting.

BY-LAWS

Article I Duties of Officers and Executive Committee

SECTION 1. The President shall preside at all meetings of the Class and of the Executive Committee. He shall be a member ex-officio of all Class committees and the General Senate (subject to the approval of the Senate), and shall do all reasonably in his power to promote the best interests of the Class and its members.

SECTION 2. In the absence of the President, the Vice President shall perform the duties of that office.

SECTION 3. The Secretary shall keep the minutes of the meetings which shall become permanent records of the Class and of the Executive Committee and shall perform such other duties as the Class may direct.

SECTION 4. The Treasurer shall be the custodian of the funds of the Class, which funds shall be deposited in a bank or banks designated by the Executive Committee. Payment of bills shall be made by check on order of the Executive Committee or upon written approval by the President. All checks, to be valid, must bear the counter signatures of the Class Faculty Adviser. The Treasurer shall keep an itemized account of receipts and expenditures supported by vouchers for all payments, and present a report at such times as may be requested by the Class or the Executive Committee. The form in which the accounts are kept shall be in compliance with the suggestions made by the University Committee on Finances, and subject to audit.

SECTION 5. The Executive Committee shall have the authority of the Class between meetings of the Class and may transact all the business of the Class subject, however, to the ap-

proval of the Class at its meetings.

Article II Dues and Assessments

SECTION 1. The dues of the Class shall be determined from year to year by the Executive Committee.

SECTION 2. Collection of dues shall be made through the regular University term bill issued by the Treasury Department of the University.

Article III Meetings

SECTION 1. Meetings of the Class shall be held whenever necessary to transact the business of the Class.

SECTION 2. The meetings shall be held upon the call of the President, the Executive Committee, or upon request of 10% of the members of the Class, who shall present a formal petition to the President or Secretary of the Class, stating the purpose or purposes for which the meeting is desired.

SECTION 3. The call for a meeting of the Class shall be made through *The Maine Campus* and by posting notices on five or more University bulletin boards at least one week prior to the date of the meeting.

SECTION 4. The Executive Committee shall meet monthly during the college year or otherwise as occasion may require.

Article IV Elections

SECTION 1. The election of officers of the Class shall be by ballot, a plurality of votes cast shall be necessary to elect.

SECTION 2. The election shall be held on a date set by the General Student Senate.

SECTION 3. The candidates for Class officers shall be named by means of a primary election as arranged by the General Student Senate.

Article V Committees

SECTION 1. Committees shall be appointed by the Class or by the Executive Committee as may be required to carry on the business of the Class.

Article VI Class Adviser

SECTION 1. A Class Adviser shall be chosen by the Executive Committee at its first meeting following election. The Adviser may be any person serv-

ing on the Faculty or Staff of the University.

Article VII Vacancies

SECTION 1. The Executive Committee shall fill vacancies in Class officers or committees.

Article VIII Quorum

SECTION 1. 10% of the members of the Class shall constitute a quorum for a meeting of the class.

SECTION 2. Five members of the Executive Committee shall constitute a quorum for meetings of that committee.

Article IX Amendments

These By-Laws may be amended by a two thirds vote of those present at any meeting of the Class provided notice of such amendment shall have been given through *The Maine Campus* at least one week prior to the date of the meeting.

MOC Has Contest To Name Cabin

The MOC is sponsoring a contest for the purpose of naming its two cabins.

The contest is open to all students except members of the Pack and Pine. A name may be submitted for either or both cabins, and the person submitting the winning names will receive a ski-tow season pass for 1949-50, and a free trip to Mt. Katahdin. Entries should be submitted to John Stimpson, 129 Dunn Hall. The deadline for the contest is May 2.

MOC Sponsors Party

The MOC will sponsor its first cabin party in the newly constructed skating rink lodge Sunday afternoon and evening. The party will feature games and music, with a supper at 5:30 p.m.

Elms Jobs Open

The Placement Bureau has announced that applications for waitress work and for residence in the Elms should be filed before April 15.

May 9 Date Set For Elections At Meeting Of General Senate

General Elections were set for May 9 by the General Senate at its last meeting. All organizations and classes requiring general campus elections are requested to submit their nominations to Vice Chairman Martha Coles of the election committee by May 2.

The proposed class constitutions were approved by a unanimous vote and will be subject to a class referendum.

The Administrative Committee on Social Affairs through its secretary, Robert Worrick, advised that the Senate authorize the establishment of a 1950 Winter Carnival committee for the purpose of investigating the

possibilities of more winter sports activity during the three-day affair. Members named were Charles Broomhall, William Creighton, Elton Crossland, Thelma Crossland, James Elliott, Betty Friedler, Barbara Hastings, Kay Kennedy and John Stimpson.

Senate President Ralph Barnett requested that all sub-committees operating under Senate authority, Senate members serving on Faculty-Administrative committees and Senate officers submit a report of their year's activities by May 10.

These reports will be incorporated into a yearly report of General Senate activities, its projected aims and accomplishments.

Don Smith, Al Catheron, Evelyn Pratt, and Howard Wagoner were appointed to the Campus Improvement Committee.

The Nominating Committee was requested to submit nominations for '49-'50 Senate officers by the April 12 meeting.

The Senate voted a contribution to the Good Will Chest in response to a letter received from co-chairman James Beaudry, and President Barnett reported that the matter of installing washing machines in dormitories had passed a sub-committee of the Board of Trustees and would be acted upon at the next regular meeting of that body.

While discussing a recent meeting of student government representatives at the four Maine colleges, Barnett pointed out that under the present constitution of the General Senate, students who feel that they have legitimate business with that body may appear before it to state their case.

Beal Phi Eta Kappa Prexy

Blaine L. Beal was elected president of Phi Eta Kappa fraternity this week, it has been announced. Other newly elected officers of the house include Kenneth D. Masse, vice president; James E. Davee, secretary; George R. Gray, treasurer; and Clark Potter, corresponding secretary.

Chem Open House Friday

The second post-war chemistry open house, sponsored by the student affiliate of the American Chemical Society and the Chemical Engineering Society, will be held Friday in Aubert Hall. The exhibits include everything from a hill-billy still to microscopic projection of crystals.

Tomorrow is Friday.

Malt beverages are not sold on the University campus.

Institute A Tremendous Success

As Trygve Lie said at a luncheon in his honor Tuesday afternoon, the University of Maine should be proud to have sponsored such an affair as the Institute of International Relations. Further praise must be heaped upon the shoulders of the committee members, those who participated in the panels, and to the general student body for its fine turn-out.

A Consistent Winner

One of the ironic things about this society of ours is that once a person is a winner, the public expects him to remain a winner. Should he fail to win, the uproar is tremendous. But if he continues to win, no one pays notice.

This seems to be the situation with Chester A. Jenkins, track coach supreme. Last Saturday his indoor track squad won its 13th consecutive indoor meet, finishing off an undefeated season, and nobody seems to care.

The Bear tracksters met tough competition from New Hampshire, Springfield, Northeastern, and Boston University. They went through these squads like wildfire. Yet, nobody seems to give a good hoot.

Let the basketball or football squads finish off a season with a record of two thirds wins, and there's plenty of horn blowing. Everyone talks about it for days.

It certainly seems appropriate at this time to bow slightly in the direction of Coach Jenkins. He's so good, in fact, that Bates, Bowdoin, and Colby won't compete with him.

—BILL BRENNAN

Religion And World Security

Recently a certain question has been the subject of considerable speculation here on campus—"Is Religion Relevant?"

It is a healthy sign to see such a subject the object of critical student evaluation. With the current world situation in such a despicable state it is fitting and beneficial that this subject should come to the attention of those who will be tomorrow's leaders.

It seems almost as though the lack of faith and vision has at least been partially responsible for man's many failures.

Why are we always obliged to turn again to this age-old question? Perhaps it is because man in his daily living refuses to see a design in our universe as it is so wondrously unveiled by science. One finds it hard to remain a complete agnostic when he penetrates the frontiers of science and sees darkness rolled back, great secrets revealed—secrets which oddly enough tend to support religion.

Yet, in view of the far-reaching import of such thinking there are those on this and other campuses who are only too eager to ridicule those who have beliefs and who attempt to destroy these convictions.

This type of action might have been passively accepted in the past; but today we live in a most peculiarly crucial age—an Atomic Age, and it becomes necessary to make religion a strong link in world security.

If these critics would spend more time in learning why and how religion is important to our culture and less in tearing down religious convictions of others we might hope for real world brotherhood and peace again.

"Would You Mind Breaking That Chalk in Two?"

PETTICOAT ANGLES

by Marilyn Wyman

Webster says "a slimy, sticky fluid-to-plastic mixture of finely divided particles of solid material with water." University students just damn it as "Mud" but in any case the softened campus prevalent in these days of melting snows is the dismay of many.

Here and there a moan goes up, "oh, for the days of short skirts, when one wasn't obliged to carry books, attempt to gracefully circumvent puddles, and still hurry while keeping hems out of the mud."

The owners of the low-slung models produced by the various automotive companies are also at a disadvantage when they drive into the damp parking lot behind Stevens. Not only are they forced to play submarine, but ye older models had a running board from which a carefully executed leap

might clear the puddle wherein the jalopy rested. The new look was not made with mud in mind.

The New Dorm may have fancy plumbing but they also have a fair share of the campus slime. Some future Don King will be able to write the history of mud flats at Maine.

Mud may give the Men's Senate a new angle to investigate (and we thought they had investigated everything but the Men's Senate) because by tests of the muddy shoes in the various dormitories they can trace the paths of all coeds and thus determine the validity of recent editorials.

U.C.L.A. has orange blossoms, Miami has its beaches, Maine has its mud.

Moral: Pave the whole campus because it's easier to walk on tar than mud anyway.

Thots In Passing

by Dick Willis

Inventions

Square bath-tubs so that on Saturday nite you won't leave a ring.

Job for Graduates

In Florida a strongarm man to turn over bathing beauties when they are brown on one side.

Matrimonial Bureau

Aggie student with sheep would like to meet girl with knitting needles. Object: argyle socks.

Daffynitions

Is it true that a bustle is a deceitful seatful?

Credit Arthur Godfrey:

The goose that got on the crowded bus and got "peopled" four times before he got where he was going.

Fable

"Do we come from dust, mother?"

sed the little boy.

"Yes," sed the mother.

"Do we go back to dust?" asked the boy.

"The Bible says so," sed the mother.

"Well, I was just upstairs and there is someone under the bed who is either coming or going."

Sales

The new Buicks are sold like Chick Sale inventions now. You can get either a three holer or a four.

Music

How about the cow that ate the Kentucky blue grass and Mooed indigo.

Or the frog that couldn't croak too well because he had a man in his throat.

Limerick

A maiden at college, Miss Breeze Had B.A.'s and M.A.'s and Lit.D's. Said her doctor, "It's plain, You'll collapse from the strain For you're killing yourself by degrees.

My Wife

She is really a debutramp. She came out in 1939 and she hasn't been home since.

Education

I had to stay after school the other day for six hours. I got my head caught in the pencil sharpener.

Consolidated Mess

Sed the student, "My plate is damp." Sed the attendant, "You're wrong, that's your soup."

Next week is Christmas so let's dig up all of the Xmas chestnuts.

The New Look

Before you used to be able to tell if a girl was knock-kneed merely by looking, but now you have to listen.

Mail Bag

Vocation Guidance Must Be Considered

To the Editor: We have long since discarded the idea that the eldest son of a family should follow in his father's footsteps by pursuing the same trade or profession. Today, the young man who previously would have been relegated to a job, regardless of likes or dislikes, may prepare himself in college for any chosen vocation.

Although that is a great step in the right direction, it is not enough. Fresh from the sheltering walls of his high school, the college freshman is thrust into an entirely different atmosphere. Now, he is a young man and must make his own decisions. The college or university says, here are the courses, select your major and good luck.

Too many students take the wrong path. Many a student has spent four years of valuable time in the school of technology only to realize upon graduation that he is a better breadwinner as an insurance salesman.

Guidance through adequate vocational examinations and competent advisors for underclassmen would greatly alleviate the present circumstances.

Psychology, having shed its air of mysticism and witchery, is now a universally recognized science. Although the functions of the mind and germane physiological structures have not been fully revealed, psychologists have developed proficient vocational guidance methods.

Through utilization of these procedures, both the student and the state would benefit. The evaluation of aptitude and interest tests by trained psychologists would allow the student to direct his courses of study in the most profitable channels early in his college career.

Trained counselors and psychologists would undoubtedly cost much money. Nevertheless, a long range program of vocational guidance, budgeted so as to allow state sponsorship, would be the beginning toward an improved state through better prepared citizens.

JIM WHEELER

Smith Has Answer To Crowded Gym

To the Editor: In a recent issue of the *Campus*, Larry Pinkham voiced a gripe which I am sure many of us have had at one time or another. I missed the R.I. game both this year and last because the door was locked.

Now while Larry merely griped and offered no solution, I offer a solution to the problem. I have no doubt my solution will find no favor with the athletic department and little with the administration, but here goes anyway.

With more students registered than there are seats in the Gym, why is everyone compelled to buy a ticket? Why not make the Student Pass optional with the individual. If Student Passes were available at the Treasurer's office at any time I feel certain that there would still be as many tickets sold as there are seats. Furthermore, those seats would be filled with those who are truly interested instead of by those who go because they have a ticket and feel that they may as well use it.

Whether my plan is good or bad I feel that it would stop a number of gripes and create a better feeling among those who do not like to be told what they will buy and when.

Bear Facts

BY JERRY ROGOVIN

Dave Nelson's press conference last Friday gave Maine newsmen the chance to meet the man who other Maine college mentors fear. Eddy Roundy, Colby baseball coach, expressed these fears, saying, "The gray train's over now, with Nelson and those other fellows coming."

Nelson told his listeners of the philosophy and fundamentals of the Michigan single-wing. He emphasized that the grid teams would seek to make "a multiplicity of problems for the opponents on defense and offense."

The fraternity all-point race has been slightly changed after winter sports. Phi Eta Kappa leads the 17 houses with 107 points. Kappa Sigma and Phi Kappa Sigma follow close behind.

Bill Kenyon has a tremendous task ahead of him this baseball season. The first call for batterymen was answered by few veterans. Colby already has been practicing for some time, and they will leave Mar. 24 for a Southern trip during vacation. Meanwhile Maine will be hampered by weather, and the leftovers from a weak hitting 1948 nine.

The ski team's fifth place rating in the ISU further illustrates the national prominence of our winter sports representatives. Major letters for every point-getter on the team should be considered. The present plan will grant letters only to the three or four top stars, and six to nine men make up the team.

The Yankee Conference Code of Athletics states that students who have participated in varsity, junior varsity, and freshman sports "during the current college year may engage in a contest in that sport not sponsored by his institution."

Yet the intramural athletic group considers this rule in application to intramural athletics, and the ultimate result may be the forfeiture of games by teams whose players have participated in outside games. Such a move would paralyze the entire intramural program, and make it worthless. The Big Nine recently okayed outside competition in amateur basketball, even though it was against their eligibility rules. We should follow the same procedure here, or postpone action until the start of the next school year. The scholastic rule has not been enforced, so why hurt some teams now?

Intramural boxing, which is scheduled to start Mar. 22, is bigger than ever this year. More than 80 men are out for the bouts. Eliminations may have to be made to reduce the number.

One of the better intramural games in the dormitory league will be played tonight. Hannibal Hamlin meets Corbett #4 in a first place playoff. A co-feature, although it is not definite at this writing, may be the Phi Mu Delta-Kappa Sigma playoff for the fraternity title.

Apologies to Wally, for a case of mistaken orders, and extremely dirty looks, and shame to Ed Woodbrey, who was the culprit responsible for the early Sunday closing of the gymnasium two weeks ago. Twenty men remained on the floor who wished to continue playing ball, but Woodbrey wanted to go home, so the gym was closed earlier. I don't suppose the 30 minutes was not dropped from his hourly wage.

William T. (Big Bill) Tilden has won the United States men's singles tennis championship seven times, more than any other player.

Baseball Practices Point For April 16 Opener

Outdoor Track
May Follow
Indoor Record

Coach Chester Jenkins' track squad wound up its indoor season with an unblemished record with a final win over Boston University. The Bears must now point to the outdoor season, which begins Apr. 23.

The coming spring season looks promising. Coach Jenkins expects a well-rounded team, if "nothing breaks adversely." The loss of weightman Jerry Alden added to the absence of Joe Pruett, both of whom were consistent point-getters in the four indoor meets, will hamper the squad. The continued absence of 300-yd. runner Carroll Taylor will not help Jenkins' situation.

Bowdoin's defending state champions will face serious contention from the Bears in the spring. Maine placed second in the state meet last year, quite a few points behind the Polar Bears, but competition this year will be close. The comparative strengths of both teams range in different events.

Boston College and New Hampshire are scheduled for dual meets Apr. 23 and 30. The Yankee Conference meet will be held May 7. The state meet is listed for May 14. May 21 is the date of the New England meet, and the IC4A follows a week later.

Rankin Spring Drills
Emphasize Control
In Court Offense

Coach Rome Rankin has begun to lay the groundwork for next year's basketball season. Spring practice began for court hopefuls Monday.

In an attempt to get an overall picture of the basketball scene at Maine, Rankin called out all freshmen and sophomores who have not yet played for the J.V.'s or varsity.

Later, juniors in the same category will be called, and they will be followed by members of last year's teams who are not out for other spring sports.

No plans have been made for Annex freshmen this spring because Rankin's teaching duties put such drills out of the question.

The practice sessions are in line with Rankin's statement that "the system used here will not be effective unless everyone is well-grounded in fundamentals."

Rankin's contemplated 1949 offense calls for three men in and two men out. The two guards will quarterback the system. It will be modified to fit the personnel, but two clever guards who are fast and can shoot will be the answer. Maine will emphasize ball control next year.

Pugs And Grapplers Toil

Intramural boxing and wrestling takes the limelight with the intramural playoffs next week.

Monday marks the first evening of bouts, with the initial match scheduled for 7:30 p.m. The schedule lists the trials for Monday and Tuesday, and the final rounds Wednesday and Thursday.

Playoffs in the basketball leagues are set for Monday and Thursday so the bouts will start 30 minutes later than Tuesday and Wednesday.

ASSISTANTS TO FOOTBALL COACH Dave Nelson, Harold S. Westerman and Milo (Mike) R. Lude, who served at Hillsdale College, Michigan.

Four 1948 Repeaters Set Pace
On 'Campus' All-Intramural Fives

BY JERRY ROGOVIN

Another intramural basketball season has reached the closing stages. The playoffs of this and next week will complete the most ambitious schedule attempted in intramurals.

The 1949 intramural all-stars, who are divided into dormitory and fraternity divisions, were chosen by this writer from a compilation of selections submitted by coaches and referees of each league.

Fraternity Five Combines
Both Phases of Play

The fraternity five is composed of Bob Hanson, Phi Gamma Delta, and Nundi Romano, Kappa Sigma, at guards. Emmett Stevens of Sigma Alpha Epsilon is the choice at center, and Micky Schwartz of Tau Epsilon Phi and Wes Hussey of Phi Mu Delta are the forwards.

The guards on this team are tops defensively in the entire league. Hanson's play off the boards has given consistent aid to the high-scoring Phi Gam quintet. Romano overcomes his five ft., four and one-half inches of height with a fine floor game and good set shooting.

Stevens was the playmaker for SAE. Time and again he set up plays for the forwards, or scored himself.

Both forwards played center for their respective teams, but neither

man, though he certainly cannot be left off any all-fraternity five, worked hard enough to push Stevens out of the pivot post. Both have fine pivot shots, and played well off the boards.

Dormitory Five Potent Offensively

Paced by Jack Whitmore, West Oak, and Ed Hctor, South Apartments, the two leaders in the intramural scoring race, the all-dorm five is a potent offensive aggregation.

Whitmore's 277 points in 13 contests, tabs him as a potent forward. His team play was strong, too.

Center Ed Hctor has averaged 22.9 points in 11 games. He pivots with either hand, and is a constant terror off both boards.

Kennedy and Dean are good two-way players at the guard posts. Dean switched to forward when his team needed one, and performed well. Kennedy's defensive play was tops in the league.

Leathers has guided the team with his able floor leadership.

Phi Gamma Delta Awaits
Table Tennis Finalists

Phi Gamma Delta defeated Tau Epsilon Phi to win the Southern division championship in the Interfraternity Table Tennis Tournament.

Cindermen End Perfect Season
With Triumph Over Terriers

Maine's indoor track team closed its third successive season without loss by thumping Boston University. Home team runners won nine of the 14 meet events.

Discus—Won by Gordon, (M); second, McLeod, (M); third, Totman, (M). Distance 125 feet 9 inches.

16-Pound Shot Put—Won by Alden, (M); second, Millbank, (M); third, Haynes, (M). Distance 41 feet 11½ inches.

35-Pound Hammer—Won by Gordon, (M); second, Orach, (M); third, Fogler, (M). Distance 47 feet 6½ inches.

Pole Vault—Tie between McLeod, (M), and Loring, (BU); third, Higgins, (M). Height 11 feet 9 inches.

50-Yard Dash—Won by Hammond, (M); second, Simmons, (M); third, Manchester, (BU). Time 5.7 seconds.

50-Yard High Hurdles—Won by Braithwaite, (BU); second, Beal, (M); third, Webster, (M). Time 6.2 seconds.

65-Yard Low Hurdles—Won by

Braithwaite, (BU); second, Beal, (BU); tie for third between Humes, (M), and Hammond, (M). Time 7.6 seconds.

High Jump—Won by Hylander, (M); tie for second among Higgins, (M), Manchester, (M), Gallo, (BU), and Bolden, (BU). Height 5 feet 7½ inches.

Broad Jump—Won by Manchester, (M); second, Haynes, (M); third, Gallo, (BU). Distance 21 feet 2 inches.

220-Yard Dash—Won by Mackiewicz, (BU); second, Hammond, (M); third, White, (BU). Time 30.7 seconds.

600-Yard Run—Won by Brown, (M); second, Silsby, (M); third, Landers, (M). Time 1:14.4.

1000-Yard Run—Won by Fitzgerald, (BU); second, Sullivan, (BU); third, Packard, (M). Time 2:23.6.

1 Mile Run—Won by Fitzgerald, (BU); second, Johnston, (M); third, Hernden, (M). Time 4:30.2.

Two-Mile Run—Won by Knowlton, (M); second, Foley, (BU), third, Smith, (M). Time 10:6.2.

Kenyon Greet
Diamond Men
At First Drills

More than twenty-five battery aspirants answered Coach Bill Kenyon's call for pitchers and catchers Monday. They were joined by an equally large number of infielders Tuesday in the first practices in the field house.

With a large group of lettermen returning, the Bears stand a good chance of improving last year's poor record. Coach Kenyon stated that he is optimistic over the outlook for the club, but, as usual, the fickle Maine weather would play an important part in determining how quickly the squad could be rounded into shape.

Veteran flingers Paul Archibald and Norm Parrott top the list of hurling candidates. Archibald, a right-hander, and Parrott, who serves them up from the port side, have both had considerable varsity experience, and should be important cogs in the plans this year.

Big Mike Cherneski and Skip Hart are returning in the receiving department but they will be given stiff competition for the starting assignment by Val Clifford, Bob Davidson, Dan Ribbons, and Blacky Turnelle.

An all-veteran infield of Roy Dieffenbach at first, Paul Mitchell at the keystone sack, Ed Woodbrey at short, and Lowell Osgood at third will be available to Kenyon and his assistant, Sam Sezak. However, a host of new prospects are working out, and all positions are still wide open.

Although outfielders won't be called out until after the spring vacation, several men have been working out on their own. Letterman Joe Nickless is back, but last year's captain, Joe Coombs, has been lost via the graduation route. Coombs was the steadiest hitter of the '48 outfit, and his shoes will be hard to fill.

BASEBALL SCHEDULE—15

Apr. 16	Bowdoin at Brunswick
22	Rhode Island at Kingston
23	Northeastern at Boston
26	Colby at Waterville

21	Northeastern at Orono
27	New Hampshire at Durham
28	Bowdoin at Brunswick

Intramural Playoffs
Top Court Schedule

Intramural basketball goes into the playoff stage tonight with a double-header at Memorial Gymnasium. The first contest starts at 6:30.

Hannibal Hamlin meets Corbett #4 in the first game to play off the White Division's first place tie. Phi Mu Delta meets Kappa Sigma for the fraternity championship. Each has lost one game.

The winner of the Hannibal-Corbett #4 game meets NorDorms #11 & 13, the winner of the Blue Division, for the dormitory crown at 6:30 p.m. Monday.

The campus championship game will be played a week from tonight at 6:30.

The earth revolves around the sun.

Dr. Lewisohn Hillel Conclave Guest Speaker

That religion is no field for the establishment of arguments was one of the points stressed by Dr. Ludwig Lewisohn as he addressed the delegates to the Hillel convention in Waterville last Sunday.

Speaking at the banquet which closed convention activities, Dr. Lewisohn entertained his listeners with anecdotes from his many novels while he stressed the importance of knowledge in any situation.

Colby played host to the annual convention attended by Hillel representatives from the University of Maine, Bates, Westbrook, and Colby. A semi-formal dance was held in the Women's Union Saturday night for the Hillelites.

The yearbook, edited by Frances Lubovitz for the silver jubilee of Hillel, was presented the delegates by the staff.

Rabbi Milton Elefant, presented certificates of merit to the outstanding members of each chapter of the Hillel Foundation.

Dr. Bennett Is Chairman

The convention of American Society for Engineering Education, whose National Physics division's chairman is Dr. Clarence E. Bennett, head of the physics department, will be held at Rensselaer Polytechnic Institute, Troy, N. Y., June 20-24.

Maine Artist's Work In Show At Oakes Room

An exhibition of 25 oil and water-color paintings by Carl Pulcifer of Belfast is now on display at the Louis Oakes room.

According to Professor Vincent A. Hartgen, the exhibition is in continuation of a policy of presenting the works of outstanding Maine artists.

Pulcifer's works have been exhibited in several places in New England, and he received recognition for wallpaper designs in the International Wallpaper Competitions at Chicago in 1947.

Professor Hartgen says, "Pulcifer's works are realistic, exhibiting a knowledge of techniques, drawing, and composition. He is not a 'one-style' painter since he uses various methods to achieve his effects."

Sophomore Co-ed Acts As Old Town Coach

It is not common to find a student in the sophomore class a full-fledged coach of a high school athletic team, yet this situation does exist here. Miss Gloria Taylor, a sophomore, is coach of the Old Town high school girls' basketball team.

Miss Taylor, a graduate of Old Town high in the class of '47, plans to major in physical education. Her basketball team has a record of 5 and 2 for the season thus far.

FASHION CHAIRMEN—Co-chairmen Priscilla Nason (left) and Gennette MacNair, juniors from Colvin Hall, are leading the Tri-Deltas in plans for their second annual Fashion Show to be held this coming Saturday, Mar. 19, 2-4 p.m., in the Louis Oakes Room of the Library. The latest spring styles in suits, hats, street dresses, evening dresses, and shoes will be shown as previews of the coming Easter season. Sorority members and pledges will model these clothes which have been loaned by stores in Bangor and Old Town. Admission is \$.35, and tickets may be purchased at the door as well as from any member of Delta Delta Delta Sorority.

Sigma Phi Epsilon Elects New Officers

Robert A. Richter, president; Raymond A. Kenneally, vice president; Francis T. Decoteau, comptroller; Harry C. Aldrich, corresponding secretary; Harold D. Haley, recording secretary; and Oscar S. Whalen, historian.

Portland Alumnae Chapter Plans Scholarship Dance

The Portland Chapter of University of Maine Women will sponsor the annual scholarship dance to be held Friday, April 1, at the Falmouth Hotel in Portland, from 9 p.m. to 1 a.m. Music will be by Bob Percival.

Students who will be in Portland during Spring vacation, and who wish to attend the dance may obtain tickets at the door or by contacting Miss Agnes Walsh, tel., Portland 2-4866.

Senate Votes To Send Man To Skull Meetings

The Men's Senate, following a recommendation by the Moran Committee, voted Tuesday to send a representative of the Senate to Senior Skull election meetings.

At the present time, according to the Moran Report, Senior Skulls are selected from preferential ballots submitted by the presidents of all recognized student organizations. The Skulls "are not bound by the dictates of these ballots," the committee stated.

This action, in the words of the committee report, was taken "in order that all doubt will be removed concerning the legality of this election."

The report further stated that "such representation by a senator is in accord with the belief of the president of the Skulls."

The Senate also voted to recommend to the Senior Skulls "that they consider increasing their membership, and that the number of members for any given year be based on a percentage of the total male enrollment of the University for that year."

A discussion of the Veteran's Administration policy regarding expendable supplies was turned over to a committee headed by John Graffam, South Apartments, for further investigation. The committee is to submit a report at the next meeting.

Students Are Initiated Into Deutscher Verein

Deutscher Verein, Honorary German Scholastic Society, has announced the initiation of the following students:

David Akeley, Henri Albert, L. Louis Bouchard, Joan Carey, Walter Chick, Laurence Crofutt, Joan Cunningham, Barbara Foster, Robertta Foster, Douglas Hugue, Marie Johnson, Arthur Kaplan, Milton Kline, and Ruth Lippmann.

Bruno Macri, Eugenia Melzar, Inge Nachum, Lloyd Skiffington, Richard Sprague, Marian Stanley, Richard Stevens, and Leonard Whittier.

Grad Writes Article

An article by T. E. M. Carville, who received his electrical engineering degree at the University of Maine in 1924, appears in the March issue of *Westinghouse Engineer*. Carver, whose article is entitled "Application of Small Motors," is manager of Industrial Small Motor Engineering at the Westinghouse Electric Corporation, Lima, Ohio.

The University forest, located in the Stillwater-Old Town area, totals 1,746 acres.

Briscoe Home Purchased By Tau Epsilon Phi

Tau Zeta chapter of Tau Epsilon Phi fraternity, one of the three fraternities on campus previously without living quarters, has purchased the Briscoe house, on the northern end of the campus.

The house will be ready for occupancy Aug. 1.

Tau Zeta had sought a house in the town of Orono, beyond the shopping district on Maine Street, but a town ordinance, passed in November, denied this fraternity and all University fraternity groups the right to live on the principal streets of Orono without special permission of the town.

The new house which lies parallel to North Dormitory 20, and opposite "Spearin Inn" on College Avenue, was formerly owned by the late Professor Briscoe, and was purchased from Mrs. Briscoe, who now resides in Wilmington, Delaware.

The Humuhumunukunua'ia is a small Hawaiian fish.

Carnegie Hall Recital Series Opens Sunday

The first in a series of five historical recitals by students will be presented Sunday at 4 p.m. in Carnegie Hall.

The recitals will be open to the public.

The first will consist of a program of Renaissance Music by the Madrigal Singers and a brass ensemble. The singers, who will perform three groups of madrigals from the Italian, French, and English schools, include: Priscilla Goggin and Lois Ann Nicholson, sopranos; Joan Butler and Vera Edfors, altos; Paul Payson, baritone; and conductor James Selwood, tenor.

The brass ensemble is composed of Evan Johnson and John Godsoe, trumpets; Oscar Davis, horn; David Simonton, baritone; Robert Ordway, trombone; and Jerry Haynes, tuba. It will play two 16th century items by Anthony Holborne and two fantasias by Banchieri.

There are 94 beds in Estabrooke.

Town Meeting In Orono Is Set For Next Week

In addition to regular business, citizens of Orono will be asked to raise money for several new pieces of road equipment when they gather at the Town Hall for their annual town meeting on March 21.

Town Manager Seth Jackson doesn't expect any extraordinary fire works during the meeting. During the morning the past year's business will be discussed. In the afternoon town officers will be elected.

In addition to the purchase of a heavy grader and a power broom that the town officials wish to buy, the townspeople will be asked to authorize the selectmen to pay for the new fire engine from funds already on hand.

Among other articles in the warrant is a measure prohibiting the sale of fireworks in the town. Another deals with banning several comic books from local newsstands.

Foreign Movie To Be Shown By Spanish Club

An all Spanish version of the Mexican-produced movie *Ramona* will be presented by the Spanish Club Tuesday March 22 at 2, 3:45, and 7 p.m. in the Louis Oakes Room. Tickets, which are \$.45 each, may be purchased from Spanish Club members or at the door.

Adapted from the novel by Helen Hunt Jackson, *Ramona* is filmed against a Spanish background and stars Esther Fernandez in the title role and Antonio Bladee as Alejandra.

French Film At Strand

La Belle et La Bete was presented at the Strand Theatre Tuesday evening. The film, with English subtitles, is a surrealist version of the familiar fairy-title, "The Beauty and the Beast." The version was written by Jean Cocteau.

Delta Club Plans Drive To Build Campus Station

Plans for a campaign to bring a permanent radio station to the University have been announced by Herbert S. Merrill, president of the Delta Club.

The club plans to sponsor a drive which would bring the administration and interested campus organizations together to discuss the possibility of the project. If enough interest is shown, the club hopes to find a central location for the station.

The set would be student-designed and built. Tentative plans would have the station on the air from 4 to 10 p.m. and would include music and organized campus talent.

Tentative estimates as to the cost of such a station were set at approximately \$500. The set would have only campus coverage and would require no federal sanction.

Parker
"51"

NEW... FOTO-FILL FILLER... VISIBLE INK
SUPPLY... PLI-GLASS RESERVOIR... PLATHEN-
IUM-TIPPED POINT... "AERO-METRIC CON-
TROL"... 9 OTHER IMPORTANT ADVANCES

YOU'VE never owned such a pen! It's the famous Parker "51" made new and different in 14 important ways.

The new Foto-fill filler, for example, makes filling the New "51" extra fast and easy. You know it's filled—you can see the ink supply... a bigger, longer-lasting supply. You'll never have to worry about this pen going dry in the middle of an exam!

What's more, the New "51" has "Aero-metric control." It's safeguarded against leaking even at jet plane altitudes.

And that's only the beginning. There's lots more for you to see and try in the New "51". Stop in at your Parker dealer's today and ask him to show it to you. The Parker Pen Company, Janesville, Wisconsin, U. S. A., and Toronto, Canada.

Students Get Better Insight On World Affairs From Speakers

By WOODY BIGELOW

As the Institute of International Affairs swung into its final day here, students were given the opportunity of attending panel discussions held Tuesday afternoon and evening.

These panels, in which both students and faculty participated, were designed to give further insight into the present international situation.

New Positions Are Now Open

Two new civil service examinations for members of the graduating engineering class were announced this week, and the National Advisory Committee of Aeronautics representative will be on campus Friday and Saturday, Mar. 18 and 19, Philip Brockway of the Placement Bureau has announced.

The U. S. Civil Service Commission has announced that applications for engineering positions located at Wright Field, Dayton, Ohio, and for other engineering jobs in various Federal agencies in Washington, D. C., and vicinity are being accepted. Both categories have starting pay at \$2,974 a year, and written tests are not required.

Announcements and application forms for the civil service jobs may be obtained by interested persons from the U. S. Civil Service Commission, Washington 25, D. C. Applications for the Wright Field jobs will be accepted until Mar. 31, 1949, and for the Washington jobs until June 30, 1949.

Representatives of the N.C.A.C. of Langley Field, Va., will interview graduating students at the Placement Bureau Mar. 18 and 19.

As a preliminary to the individual interviews, a group meeting will be held for all interested students at 8:35 a.m., Friday, Mar. 18, in the Louis Oakes room of the Library.

The discussions ranged from the Far East situation to food and agricultural problems in the world today.

Highlight of the panel discussions was an address Tuesday afternoon by Dr. Howard L. Andrews, chief of the Nuclear Radiation Biology Section, National Institute of Health, Bethesda, Md. Dr. Andrews, an eyewitness at the atomic weapons tests at Bikini and Eniwetok, discussed the problem of national security in the atomic age.

This group of panels brought to a close the two-day Institute which featured addresses by such dignitaries as Trygve Lie, secretary-general of the United Nations, and Wilfred J. Hinton, director of studies to the Institute of Bankers, London. The main purpose of the Institute was to acquaint students with some of the major problems of peace and security.

Mrs. Maine Club Plans Talent Show

An amateur talent show will be presented by the Mrs. Maine Club Friday evening, April 15, with the proceeds used to help finance the nursery school sponsored by the club.

The place of presentation of the show has not yet been decided, and is wholly dependent on the interest shown by the students.

Prizes will be awarded to the three top contestants.

Chairmen of the event are Mrs. A. J. Buschena and Mrs. LaVerna McGowen.

Chemist Speaks Monday

Mr. Herbert Pearson, chemist, will address the Civil Engineering Club at a 7 p.m. meeting, Monday, Mar. 21, at 305 Aubert Hall. Mr. Pearson is noted for the development of the Cravanette process for waterproofing raincoats, cloth and paper.

The skunk is a small mammal.

Britain Is Key To European Aid Program

(Continued from Page One)

Discussing the problem of the revival of world trade, he called for the establishment of a world currency. Despite the lack of it, however, he said that Britain was now maintaining balanced trade with the rest of the world.

Commenting on the question of the formation of a Western European Federation, Hinton said it would be "a political miracle if it could be accomplished in 25 years." He singled out the British Commonwealth of nations as an example of this impossibility.

"One world is less a reality today, than ever before but it is a goal towards which we must strive," he concluded.

Dr. Hinton was introduced by Professor Edward F. Dow, head of the department of history and government. President Arthur A. Hauck briefly addressed the audience, welcoming them to the opening of the Institute.

"Doc sure has something there!"

It's no trick at all, Doc tells me, to take out an appendix. The tough job, he says, and the important one is knowing whether it is the appendix that's causing the trouble.

Same way with cars. Anybody who calls himself a mechanic can fix cars when somebody tells him and shows him exactly what's causing poor performance.

But the fellow who can spot the complaint right off—without costly, time-wasting guesswork and experimenting—there's a real serviceman.

And that's the only kind we have at our Chrysler and Plymouth headquarters here. Fact is, our boys are so skilled that they don't even think they know it all.

Right now every last one of them is enrolled in the Master Technicians Service Conference. This is post-graduate education in engineering principles... in the fastest, surest ways of finding mechanical difficulties... in all the newest and best service techniques.

Doc, himself, says these mechanics are tops when it comes to check-ups and diagnosis. But don't take his word for it—bring in your car and see for yourself. You'll say you never saw such thorough service.

Lie Receives Honorary Degree Following Assembly Speech

(Continued from Page One)

Nations, Dr. Lie pointed out that in the case of the 13 major issues that have been brought before the Security Council during the past three years, "effective action has been taken in practically every case to control or influence the situation in such a way that it did not cause a wider conflict."

Among these problems were the Palestine question, the dispute over Trieste, and the Berlin question.

The speaker cited the importance of the Convention on Genocide and the Declaration of Human Rights, which were recently passed by the Security Council. The first, he said, outlawed "the vile Nazi practice" of race murder, and the second "recognizes the right of all men and women everywhere to enjoy the fundamental freedoms."

Compares Maine to Norway

The UN secretary stated that as long as the United Nations exists as an international organization, where any nation may come to present its case and receive a fair hearing, there will be no excuse for any nation, how-

ever strong or however aroused, to resort to war.

Early in his address Dr. Lie compared the State of Maine to his native Norway. "They have a great deal in common," he said. "They look alike, they are both rugged, and the people who live in them are well known for the practical slant on life which a hardy existence has given them."

Directly preceding Dr. Lie's address, Antonio Papadopoulos, student from Greece, gave a short talk in behalf of the Good Will Chest drive, and the University Band played the Norwegian National Anthem.

Radio Guild To Present Second Musical Show

The Radio Guild presents its second musical of the year Wednesday night. The program will feature singers Emily Smaha, Robert B. Hutchinson, and Robert W. Gascoigne, and accordionist Dorothy Hubbard. The production was written by Walter MacMillan, and will be directed by Keith H. Fowles.

EASTER BONNETS

Dozens of colors... dozens of styles... straws and felts... the newest designs. These delightful new spring chapeaus really go to your head... and they're pure flattery for your new ensemble.
