JAY, FEB. 19, 1892.

REPORT OF SUPERINTENDING SCHOOL COMMITTEE.

TO THE CITIZENS OF JAY :—The remarks that may be made from year to year upon the cause of education, and in reference to the schools in any town, of necessity, must be somewhat of a repetition of facts. The teachers during the past year have generally performed their work in a satisfactory manner. Excellent work has been done in some schools and good work in most of them.

There has been but little friction to mar the harmony and general advancement of any of the schools. While we are pleased that we can with sincerity make so encouraging a report, yet there are many things that might add to the efficiency of our schools.

A better attendance on the part of pupils would enable the teachers to perform their duties in a more satisfactory manner and make possible a greater advancement in the studies pursued. We would respectfully call the parents' attention to this fact as in their hands almost entirely rests the remedy. We know this to be a crying evil and a very great hinderance to the most effective work in the school-room. It is necessary for the pupils to be present at every session in order to obtain good and lasting results. One of the most important factors of a good school is local pride and interest, and we should be pleased to see the parents show their interest by visiting the schools in their respective locality, by being present at the close. The children who receive the most encouragement at home are the most interested and studious and give their teachers the least trouble.

Criticism of the teachers by the parents, especially in the presence of their children, is a source of much evil and causes the teacher much trouble. A few hours spent in the school-room each term with the teacher would give you a better idea of their cares and trials and you would be less liable to unjustly criticise their methods.

The Otis Falls Pulp Co. have built and furnished for the town, at Otis Falls, an elegant school-house with two rooms and seating capacity for about ninety pupils.

We append brief reports of the several schools :

There have been four Free High Schools in town the past year.

The High School at North Jay last fall was taught by J. L. Wilkins. Whole number of scholars, 41; average, 38. Mr. Wilkins is one of our most methodical, practical and earnest teachers.

Spring term of High School at Stone's Corner was taught by J. J. Hunt of Farmington. Whole number scholars, 26; average, 19. Mr. Hunt is a teacher of experience, having taught forty schools before this, and well adapted to meet the wants of the school.

The High School at Bean's Corner last fall was under the instruction of John Butterfield. Whole number of scholars, 19; average number of scholars, 17. Mr. Butterfield is a good teacher and the school should have been patronized by a large number of scholars.

Spring Term of High School at Jay Bridge was taught by R. B. Parsons who maintains his former reputation as a good teacher.

CLAY BROOK SCHOOL.—Spring Term taught by Belle Haskell. Whole number of pupils, 12; average number of pupils, 9. Winter Term taught by Addie S. French of Chesterville. Whole number of pupils, 13; average number of pupils, 9. Both of these teachers maintained good order and labored hard for their pupils and were rewarded with success.

BLAISDELL SCHOOL.—Spring Term taught by Eva M. York. Whole number of pupils, 9; average number of pupils 8. This was Miss York's second term of school and the examination at the close of school showed that thorough work had been done. Winter Term taught by Mrs. Cora M. A. Bean. Mrs. Bean is a first-class teacher and I hope this town will secure her services in the future.

NORTH JAY SCHOOL.—Spring Term taught by Mrs. Rosa Benjamin. Whole number of scholars, 29; average number of scholars, 21. This school was rated as very profitable by parents, scholars and Committee. Winter Term by M. J. West of Wilton. Whole number of scholars, 34; average number of scholars, 30. Mr. West is an experienced teacher this being his twenty-fifth

term. Good order and interest were maintained throughout the term.

INTERVALE SCHOOL.—Spring Term taught by Nellie Farrington. Whole number of pupils, 10; average number of Pupils, 9. Thorough work was done and we regard Miss Farrington as one of our best teachers. Winter Term taught by Mable Palmer. Whole number of scholars, 14; average number of scholars, 13. This was Miss Palmer's first school but we found in tact, discipline and ability to teach that she was equal to most of our older teachers.

BEAN'S CORNER.—Spring Term taught by Maud Searles.. Whole number of scholars, 21; average number of scholars, 18. Her school was appreciated by parents and scholars. Winter Term taught by Nettie Sewell. Whole number of scholars, 26; average number of scholars, 22. Miss Sewell is a fine lady and scholar but failed to get the good will of her scholars so not as much improvement was made as was desired.

CANADA CORNER.—Spring Term taught by Myrtle Dascomb. Whole number of scholars, 10; average number of scholars, 9. Winter Term taught by Sadie E. Allen. Whole number of scholars, 10; average number of scholars, $9\frac{1}{5}$. Both teachers labored earnestly for the welfare of the school and met with a good degree of success.

MORSE SCHOOL. —Spring Term taught by Florence Wilkins. Whole number of scholars, 10. Average number, 9. Winter Term taught by Blanche Wilkins. Whole number of scholars, 19. Average number, 17. Both teachers gave general satisfaction.

MACOMBER HILL.—Alice Jackson teacher. Whole number of scholars 17. Average number of scholars 16. It is enough for Miss Jackson to say that in her own district she succeeded to the satisfaction of every one. Not one instance of tardiness. Winter Term was taught by Lillian Ellis. Whole number of scholars 19. Average number of scholars 18. Miss Ellis started in finely but had to close at the end of the sixth week on account of ill health. We were fortunate in securing the service of Luman Gould who is now finishing out the term.

STONE'S CORNER.—Spring Term was taught by Vesta Record. Whole number of pupils, 11. Average number of pupils, 9. Miss Record's school was well organized but she was obliged to close at the end of the eighth week on account of ill health. Winter Term was taught by A. L. Moulton. Whole number of scholars, 16; average number of scholars, 15.

STUBBS' MILLS.—Spring Term was taught by Hattie E. Webber. Whole number of scholars, 7; average number, 6. This was Miss Webber's first attempt at teaching but was sufficient to show that she was faithful and successful in her work. Winter Term taught by Miss Isa M. Russell of Livermore. Whole number of pupils, 7. Average number, $5\frac{1}{2}$. Miss Russell labored hard in her school and rapid advancement was made.

JAY BEND.—Spring Term was taught by Algie Green. Whole number of scholars, 17; average, 15. The hearty co-operation of the parents with the teacher makes this one of the most profitable and easily taught schools in town. Winter Term, Nellie Farrington, teacher. Whole number of scholars, 19; average, 17.

LAKE SCHOOL.—Spring Term was taught by Celinda Bean. Whole number of scholars, 14; average, 11. Miss Bean's school made good progress in their studies. Winter Term was taught by Mrs. Rosa Benjamin. Whole number of scholars, 13; average, 11.

JAY BRIDGE — Spring and Fall Terms were taught by Miss S. M. Whittemore. Whole number of scholars, 44; average, 37. In our visits to this school we found it in successful operation, although some of the parents, who did not visit it, thought otherwise. The instruction in Hygiene was superior to anything we have seen in this town. Winter Terms in the Grammar Grade were taught by W. C. Allen, who is doing excellent work, and Algie Green in Primary Grade. Whole number of scholars, 26. Miss Green was earnest in her efforts and succeeded fairly well.

DAVIS SCHOOL.—Spring Term was taught by Mrs. Abbie Merchant. Whole number of scholars, 6; average, 5. Although the school was small the scholars improved very fast under Mrs. Merchant's instruction. Winter term was taught by H. W. Coburn.

Whole number of scholars, 6 ; average, 6. This was a model school.

School at Otis Falls began January 11, under the instruction of Miss S. M. Whittemore. This is Miss Whittemore's thirtieth school and at our first visit we found her getting them into line for the best possible work.
