Repaving MaineStreet

November 2022 Update

What is Repaving MaineStreet?

The [Repaving MaineStreet initiative](#) consists of projects to transition the [PeopleSoft®](#) [MaineStreet](#) Human Resources (HR) and Financials systems to Oracle Cloud platforms and a reimplementation of MaineStreet Campus Solutions (Student Information System). The overarching goals are to provide:

- **Improved MaineStreet Experience** for everyone!
- **Expanded Opportunities** for collaboration between campuses and cross-campus access for students.
- **Enhanced Consistency** to support process improvements and data consistency across all platforms.

The **Oracle Cloud** project is split into three phases:

- **Phase One** - Implement the Oracle Cloud HR *Recruiting* module that will replace Hiretouch, the current University of Maine System (UMS) employee applicant tracking system. The go-live timeframe is **May 2023**.
- **Phase Two** - Implement the Oracle Cloud Core HR, Payroll, Time & Labor, Benefits, Onboarding, and Performance Management modules. The go-live timeframe is **January 2024**.
- **Phase Three** - Implement the Oracle Cloud General Ledger, Purchasing, Accounts

Payable/Receivable, and Financial Planning modules. The go-live timeframe is **July 2024**.

The **Campus Solutions Reimplementation** project is in the analysis and discovery phase which will inform the overall project approach and timeline. The project will officially kick off in late fall 2023.

See our website for [more information about the Repaving MaineStreet project timelines](#).

What's Happened Since the Last Update?

- **September 29** - A virtual Town Hall was conducted for Campus Solutions Implementation Discovery session participants.
- **October 10-14** - David Demers, UMS Chief Information Officer (CIO), held Repaving MaineStreet overview sessions on each campus.
- **October 12** - Initiated Campus Solutions Reimplementation Discovery sessions that include representatives from academic functional areas, faculty, and students.
- **October 31 & November 1** - Conducted Initial review sessions of the Oracle Cloud *Recruiting* and *Core HR* modules.

Upcoming Milestones

- **Early-Late November** - The Oracle Cloud Recruiting/Core HR teams will conduct self-guided sessions to identify where system configuration and data adjustments are necessary.
- **Early January** - The second round of Oracle Cloud Recruiting review sessions will be conducted. This round of reviews will include a broader group of stakeholders.
- **November-February** - Discovery sessions for the Campus Solutions Reimplementation project continue, including dedicated sessions for faculty and students.

What Can You Do?

Submit questions and input about the project, or request inclusion in a discovery session or focus group via the [project input form](#).

Give us your input

- Continue to be on the lookout for Repaving MaineStreet news and updates, including ***Sneak Peeks of the new Oracle Cloud Recruiting module***.
- Visit the [project website](#) for more information including access to project presentations and recordings, FAQs, discovery session schedules, glossary, information about project timelines, etc.

Sincerely,

Your Repaving MaineStreet Project Team
