## Maine Trackmen Defeat Bates By Single Point In Hectic Meet At Lewiston Saturday

Track history was made Saturday at Lewiston when the Pale Blue barely copped a win from the Bates tracksters, -58. A complete shut out in the high jump was the deciding factor in Maine's hard earned victory wherein Cuozzo made the deciding jump on which a win or a tie rested.

Leaving four scoring threats at home on the bench, Richardson, Maine's twomiler, and Stiles and Lufkin, hurdlers, and Dekin, a good bet in the dashes, Coach lenkins took a track team to the Dual Meet which he did not expect to score a win on the small indoor track at Bates. The Maine runners had to compete on a small track containing ten laps the mile with high banks which the Maine men were not used to running and which resulted for a complete victory for the Bates men in the running events.

Lindsay, however, was able to lower the record in the two mile to 9.34 2 and Gowell and Webber set a new record in the discus throw and shot put. Maine's complete strength in the weight events may be judged from the fact that, led by Captain Gowell, the Maine weight men scored 25 of a possible 27 points in the three events.

meet when White dashed ahead of Knox to win the 40 yard dash and Walt Riley sprung a surprise by scoring a third place, netting Maine six points where five were expected. A complete shut out in the 35 lb. weight followed for Maine when Gowell won this event with Webber second and Fickett third. In the next event, the 45 yard high hurdles, Bates had their way and Fisher copped a first place with Yerxa scoring a third.

In the one mile run, due to the absence of Lindsay who was forced to run the two mile event in Richardson's demise. Gunning fought a losing battle against the competent Viles and Hayes who came thru to an easy win on their small track. In the mean time Levi Wescott had sprung one of the sensations of the meet in obtaining a tie for second.

Captain Gowell nabbed an easy second pany, and the Edgar Station of Boston getting the decision over Pomfret of the and Zottoli will fight in the heavy class. events. Lindsay loped along to an easy door record while Brooks put up a hard fight to score a third position with Whitten of Bates copping a second. Brooks (Continued on Page Four)

## Maine Frosh Win On Aroostook Trip

The frosh basketball squad lived up to the prophecy that it would have a clean Aroostook County to defeat every team Mount Vernon Hall late for the season when they tore thru of the five quintets they competed against.

Tackling their first opponents in the Presque Isle High School aggregation they netted their first win by five baskets, 30-20. Meeting Fort Kent High School the next night they swamped this quintet period Houlton was leading by one bas- only one freshman woman living on the attack 46-21.

#### RISING NIGHT MARCH 19

Rising night festivities will take place in front of Balentine Hall Wednesday, March 19 at 6:00 P.M. The annual rope pull will be handled differently this year than in the past, having three pulls of a limited time, rather than one long pull of 10 minutes. The gun will start and stop each pull. The frosh will assemble at the north end of the field and the sophs on the south

The whistle at the power house and the bell at Wingate will be out of order and will not be used. All festivities will end with the final shot of the pistol at the field. No throwing in the river or water fights with the fire hose will be allowed because of the cold weather.

## Maine scored the first victory of the Senior Engineers Leave Sunday for **Inspection Tour**

#### INCREASE IN TUITION FOR FRESHMEN BECOMES EF-FECTIVE IN SEPTEMBER

Freshmen entering in Sept., 1930 will pay the following tuition rates in Alumni members from class of 1915: state, \$190. All students registering in sports "M" instead of the usual M.O.C. All men who took part in the boxing noon, March 7 at the Connecticut gym- Miretta Lydia Bickford, Ava Harriet the University in Sept., 1931 will pay the insignia. Winter sports will, however, tims will have their pictures taken in nasium at Storrs, Conn. On the same Chadbourne, Stephen Caldwell Clement, new tuition rates of \$150 and \$250 restill be backed by the organization which

Dormitory men, at dinner in the Commons Friday noon, were treated to an unexpected surprise when told by Dean Corbett that the men's dormitories would next year be devoted to the incoming freshman class. Details of this radical change in housing conditions at the University have not as yet been completed. The Dean, however, well aware of the consternation that the announcement would cause and of the effect that it might have upon certain men in regard to fraternity rushing, thought it best to inform the students as soon as possible in order that they might make their plans for next year accordingly.

Dean Corbett in a statement to a CAM-PUS reporter explained that the housing conditions on the campus have long been under the scrutiny of the Administration and Board of Trustees who have been only too cognizant of the shortage of accommodations. Inasmuch as the building plans of the college give priority to certain buildings necessary to the educational progress of the school, it is not probable that there will be any building letics at the University of Maine, re- of dormitories in the near future and the signed his position in this capacity in present facilities must therefore be used favor of his work as head of the Depart- to the best advantage of the school and its student body. Feeling that the present Freshman class is at a disadvantage in living in scattered quarters, with no means of becoming acquainted with each other or of mixing with upperclassmen and thereby deriving benefit from the wisdom of the experienced, it has been decided that the men's dorms shall be converted into freshman dorms in which the freshman class shall be given the To Be Presented Sat. opportunity to occupy it in place of the upperclassmen with the preference being (Continued on Page Four)

## Winter Sports Made Minor Sport by Vote Of Athletic Board

Winter sports have now gained official recognition at the University of Maine, according to the decision made by the Athletic Board last Thursday, when a petition from the Outing Club asking for the recognition of its winter sports bell, Mrs. Marion Sweetman, Mr. Louis teams was granted. #### WELCOME

The student body of the University of Maine extends a most hearty welcome to the high school basketball teams that are competing on the campus this week-end for the Eastern Maine Interscholastic Basketball Championship. It is hoped that the high school players and their fol- from the beginning of the first semester lowers will enjoy their stay at Maine and also take advantage of the opportunities offered them while on the campus. It is the wish of all uni- petition. versity organizations that their stay be a pleasant one.

The Sophomore Owl society and the Senior Skulls will act as hosts to the visitors, and will do all in their power to give the visitors any in- for his final grade on his final grade for formation that they desire, and also to show them around the campus the spring semester. during the time between games.

The University of Maine takes great pride in sponsoring a tournament for the high schools in the eastern part of the state of Maine, and it is hoped that some of the men who will play in the tournament games over this week-end may later come to Maine, and go into college athletics. Maine gets a great number of her students from high and preparatory school groups that participate in contests sponsored by the university, and there is no reason why a large number of the participants in this tournament should not be prospective Maine men.

#### COOPERATION

With the approach of spring the lawns on the campus become soft and muddy. While they are in this condition it is very easy to ruin their appearance by traveling over them. The Maine campus is a beautiful the Scabbard and Blade Fraternity. The one, and students should try to keep it so. Bare spots detract from the officers of the fraternity are Captain, appearance of our lawns. Do your part by walking on the sidewalks. John Sweatt; 1st Lieutenant, Fred L. A straight line may be the shortest distance between two points, but remember that the longest road is sometimes the shortest way home.

There is no question but that the student body should co-operate with the university in keeping the lawns in good condition, but it also seems logical that the university authorities should co-operate with the students by giving them adequate sidewalks on which to walk.

For a long time the two lines of foot traffic have vied for positions He was largely responsible for Phi mittee. on the sidewalk between the book store corner and the Arts and Sciences building. As a result of this, many of the pedestrians have been forced is a very clever floor worker and a dead off the walk and are walking on the lawn on both sides of the way. This barren, muddy path on either side of the walk is very unsightly, and mind, the best all-around forward on house dance Saturday evening in honor it is also exceedingly muddy walking.

The university could very well spend some money to good advantage threat all season. Probably no forward their annual increases their annual increases. in widening the Arts and Sciences walk. The widening of this walk is on the campus was guarded as closely not a luxury that we would like to have, but rather a necessity that we as new as. In the out of the same was closely guard-

In order to uphold the standards already established by the Student scored 25 points. There isn't another forward on the campus who scored this Senate, the various fraternities should use care in electing new delegates many points against Delta Tau. to the Senate and choose men who will speak not only their own convictions but also those of the organization which they represent.

The Student Senate has made much progress on the campus this better team he would have showed up year and to keep up this progress it must have men who are willing to spend both time and energy on projects that are of interest to the student body and the university.

WHAT YOUNGER COLLEGE MEN ARE DOING WITH WESTINGHOUSE

# Special cars were needed... railway tracks had to be lowered, to handle the transformers these men built

AT Conowingo, Maryland, is the A second largest hydro-electric development in the world. Power generated there at 220,000 volts will be fed into lower voltage transmission lines of the Public Service Electric and Gas Company at Roseland, near Newark, New Jersey.

The transformers that will perform this transfer of energy are physically the largest ever built, for their capacity is sufficient to serve the home lighting needs of a city of a million people. Four in number, each is larger than a house, weighs when empty as much as a large locomotive and holds three tank cars of oil. Four specially built railway cars and fifty-two standard cars of various types were required to transport them from the factory to the job. At one point the railway tracks had to be lowered so the units would clear an overhead viaduct, so great was their size.

When spectacular jobs like this come up, it is natural that they go to an institution like Westinghouse. Pioneers in electrical development, Westinghouse engineers often know the thrill of achieving the "impossible" in seeing their work through Westinghouse from design to erection.

(Continued from Page One)

Maine Trackmen Defeat Bates

In Hectic Meet Saturday

defeated Whitten in the two mile in the

State Meet last spring and now with

Whitten scoring a win there will be an

interesting battle fought at Brunswick

One of the upsets of the meet came

when Knowlton of Maine took over

O'Connor in the broad jump by two

inches, jumping 22 ft. 8 ins. to break the

indoor record and cop a first that Maine

felt sure of. Things looked blue for

Maine after this event and all looked

ATWATER-KENT Screen Grid Radio

forward to see what Maine could do in the 300 yd. dash to give them a possible marginal lead. Bates was now far ahead and the only bet for a victory seemed to lie in what the Maine flashes could accomplish in the 300. Raymo White first bank and drop behind while Stymiest was boxed in away from a possible lead and Bates obtained a complete shut out in this event. The score now stood 58-50 in favor of Bates and two more points

would give them a victory.

With Knowlton, a man of O'Connor calibre, in the high jump and four other good leapers in action it seemed impossible that Maine could accomplish a shut out here. Never was a high jump more exciting probably than the last hour of bar-topping at Lewiston Saturday. jumper who with a powerful kick on his O'Connor easily kept the winning height last leap cleared the bar. At the 5 foot with eight jumpers staying in up to the 8 inches altitude O'Connor led again and 5 ft., 5 ins. vicinity. Finally three Bates Burnham finally cleared the bar to tie for men were forced to withdraw and then first. The battle now settled down to a Maine lost Chase who had reached his duel between Vim Cuozzo and Chad best altitude up to date but was forced to Knowlton of Bates. In two trials each stop. Maine had Burnham, Cuozzo and neither man could succeed in clearing the O'Connor in ranks still and Bates only bar. Knowlton paced off his distance hope was for Knowlton to place. The for his last try. The excitement was five foot six measure went around with intense. There was hardly a whisper.

#### SOPHOMORE AND FRESH-MAN WOMEN CLASH

An interesting final in the sophomorewill be the basketball game to be played fought forward to a lead for the first in Alumni Hall Monday evening March few yards only to lose his balance on the 17, at 7:30. Those who are to take part in this game will be chosen from freshman teams I and II and sophomore teams I and II.

> If the freshmen win, their victory will be one deciding factor in the leaving off of freshman caps earlier in the year than is customary. Both classes will use the best possible basketball material available, for the game.

every man clearing except the Bates As he went up all the onlookers held their breath. The Bates jumper made a splendid jump but failed to clear the bar. The meet rested upon Cuozzo's final jump. A failure would mean a 58-58 tie, a clearance a win for Maine of one point. Cuozzo with a beautiful roll and a splendid kick cleared the bar and Maine had won probably the closest scored track meet in history.

As a result of the meet Maine has two new letter men, Wescott who won the pole vault and Burnham who tied with O'Connor and Cuozzo in the high jump. Captain Gowell was high man of the meet with 13 points.

You are cordially invited

## Harnessing Niagara Falls to the washing machine

1855 · SEVENTY-FIFTH ANNIVERSARY · 1930

Cheaper power! Groping after this modern over perpetual motion machines . . . informed inventors evolved the turbine...broad visioned men harnessed the rush of waters ... engineers raised pressures and temperatures to produce more power without corresponding increases of cost.

While, step by step, this progress has taken place, the many men who have contributed to it could not know what far-reaching results it would have. Now the ultimate boons grow clear. Water power development becomes a national policy, steam bids fair to rival water power for cheapness, economically produced power brings more plentiful goods, lights houses and hauls crowds in cities, is carried to rural sections to lift washday drudgery from farm women's shoulders.

Among the many industrial victories that are behind this revolution, none is more important than wider knowledge of piping materials and better materials. One of the highly prized chapters of our history is the contribution that Crane research and valve engineering has made to the general advance. The results of this research are embodied in a Crane book, Pioneering in Science. It is a fascinating story of engineering development and a valuable reference work for engineering students. A request will bring you a copy.
