CYRUS KINDRICK, Treasurer.

Litchfield, February 20, 1903.

Auditor's Report.

To the Inhabitants of the town of Litchfield:

Your Auditor having made a careful examination of the books and accounts of the Selectmen and Treasurer for the municipal year ending February 19, 1903, presents the following report:

The selectmen's accounts show that for all orders drawn on the treasurer, they have proper vouchers on file; and all orders paid by the treasurer are correctly charged on his books, and the books are correctly balanced and agree.

The treasurer's books show that he had:

Cash on hand February 18, 1902.....	\$ 164 83

GRADING.

We have continued the work of grading this year by taking graded examinations in each school, two each term. This work was fully explained in our report last year. We continued the examinations in arithmetic, grammar and geography, in the fourth and fifth grades. In the spring term, in the fifth grade, we added physiology, history and algebra, and the examination at the end of the spring term was made an entrance examination to the Academy, with a chance, for those who failed, to have another trial examination before the beginning of the fall term of the Academy. During the spring term it was supposed that the Academy would come under the Free High School plan, and the added interest and eagerness of pupils to fit for the Academy was very noticeable. Under that plan our pupils could be retained in the common schools until fitted to enter the Academy. The very reason why many graduates of the Academy pass unsatisfactory examinations for teachers is because they entered too young and were not properly fitted. One of the greatest benefits of the Free High School plan would be the help and stimulus to our common schools.

The most of the teachers have followed the Course of Study and good work has been done in the different grades. Most of the pupils have sent in neatly executed work. They are ranked on the actual work done. If they get ninety or one hundred per cent. in their work they have to earn it. If they do fifty per cent. work, they get a fifty per cent. rank. The ranks have been better than last year, and fewer examinations have had to be taken over. In various ways we have satisfied ourselves that a majority of the pupils carefully look over the marked and ranked papers which are returned to them.

The work in graded examinations greatly increases the work of the superintendent, but we consider it time well spent, and we heartily recommend the continuation of it.

*25 cents per week additional wages for attending Summer School for Teachers.

TEACHERS AND THEIR WORK.

Five of our teachers have taught in the same school throughout the year. The most of our teachers have done good faithful work. They are interested in teaching, read educational papers, attend conventions, and most of them own cyclopedias and other reference books which an up-to-date teacher must have.

Country towns do not pay wages enough to retain their best teachers. The ideal teachers for us would be Normal-trained residents of our own town; but we could not hold them here, for after a few terms' experience they can command almost double the wages in other states.

S. I. L. M.

One new league has been organized the past year, the Stetson league at the Farrin.

Several of the leagues have done considerable work. The Willard and Lincoln schools have secured bookcases. The Washington, Whittier and other schools have had entertainments to raise money for needed appliances, books, globes, maps, etc.

CONVENTIONS.

Our teachers united with the W. Gardiner teachers and held a convention at Spear's Corner, which was one of the best we have ever held. These meetings are profitable not only to teachers but to parents as well. We hope the attendance of parents at these meetings may increase. One feature of these meetings is a "question box" which is usually conducted by Superintendent Stetson. Any question on school laws, methods of teaching, etc., may be asked.

We purchased sixty copies of Greenleaf's Complete Arithmetic for our schools, and sixty copies of Southworth's Language Lessons. Our grammars are all right for a while but when we make a change we should by all means get the Southworth's, which should follow the Southworth's Language Lessons.

Our spellers have been in use six years and are almost useless. A new book on exchange will cost us about 14c per copy and we need 130 copies.

The supplies consist of crayon, tablets, pencils, examination paper, hyloplate blackboard, etc. We have partly furnished the Farrin and So. Oak Hill schools with blackboards.

FREE HIGH SCHOOL.

The amount paid from the State treasury the past year to different towns for the support of Free High Schools was \$44,379.35 and the number of pupils receiving benefit of the same was 13,283.

Our town had to help pay that sum and *our pupils received no benefit* of the same. Section 34 of the School Laws reads as follows:

Sect. 34. Any town may from year to year authorize its superintending school committee to contract with and pay the trustees of any academy in said town for the tuition of scholars within such

town, in the studies contemplated by the six preceding sections, under a standard of scholarship to be established by such committee; and when such contract has been made, the school committee with an equal number from the board of trustees of such academy shall form a joint committee for the selection of all teachers, and the arranging of the course of study in such academy, when such academy has less than ten thousand dollars endowment; and the expenditure of any town for tuition in such academy shall be subject to the same conditions, and shall entitle such towns to the same state aid as if it had made such expenditure for a free high school.

TO THE PARENTS.

Upon you, to a certain extent, depends the welfare of our schools. The best teacher, without the co-operation of the parents, will fail to do good work. If you criticise the teacher in the hearing of your children, they will bring you plenty of tales from school.

Remember that the teacher may see the faults of your child to which you have been blind. Ninety-nine out of one hundred young children, and sometimes older ones, will tell only their side of the story. Before judging it is a good plan to hear the other side.

In conclusion we wish to heartily thank the people for their generous support.

Respectfully submitted,

M. H. DUSTIN,

Supt. of Schools.

Feb. 20, 1903.

RECOMMENDATIONS OF S. S. COMMITTEE.

We respectfully submit the following recommendations and resolves:

We recommend a meeting of teachers once or twice each term for the purpose of better co-operation with the Superintendent, and with each other in the work of grading, etc. And we resolve that the attendance of teachers at the meeting shall be part of their regular work, and under this condition they accept the position. We resolve that all teachers holding a certificate showing that they have attended a summer school for teachers during the summer of 1903, shall receive twenty-five cents per week additional wages during the remainder of the year.

We recommend that teachers secure State certificates, and that those, wishing to become teachers, take a Normal training course. An examination of teachers will be held at the Longfellow school building on Saturday, March 21, at 9 A. M. in the studies required by law. No postponement.

PER ORDER.

SUPERINTENDING SCHOOL COMMITTEE.
