# School Report

---

At the beginning of the year, when the school committee met for the purpose of reorganization and transaction of the usual routine of business, Mr. A. W. McKeen was duly elected chairman.

Although the committee have met only a few times during the year, yet they have been able to perform the work as a unit, from the fact that a specified portion of the repairs and general supervision of the school buildings is entrusted to each member, by this division of labor each school building with its necessary repairs has the personal attention of the one in charge.

While it seems almost impossible to obtain the ideal teacher for each school with its varied conditions and requirements, yet we feel that we have met the needs and demands of the majority of the schools in our selection of teachers, many of whom have had special preparation for teaching.

We feel assured that the progress and general improvement of the scholars has been quite satisfactory, which commends the teachers for their methods of instruction and discipline.

During the last year the village and East Fryeburg school houses have been painted, new seats and desks placed in the Toll Bridge school room, and numerous smaller repairs made on other school houses, such as new doors, locks, curtains, etc. As the paint on the outside of nearly all the school houses is in good condition and many of the roofs have been so recently recovered, we would recommend that the greater part of the repair appropriation for the ensuing year be expended on the interior of the school rooms. A little new paint is not only attractive, but sanitary.

We recommend the maintenance of the Smart's Hill and Haley schools for the year ensuing.

As usual the cost of conveying the pupils is large and in view of a possible reduction in this item of expense, we would recommend that the school committee, after making due notice, receive bids and sell conveyance of pupils to the lowest responsible bidder.

Thanking all who have assisted in the general welfare and prosperity of our schools, we recommend that the following sums of

money be voted and raised: Common School, General Fund, three thousand dollars, School Books, three hundred dollars, Repairs on school buildings, three hundred dollars.

The financial statement of the receipts and expenditures is as follows:
