# Report of the Superintendent of Schools

---

To the School Committee and Citizens of Fryeburg:

In accordance with the usual custom, I have the pleasure to submit to you at this time my third annual report of the condition, progress and needs of our schools. I can confidently say that this has been a good year for the schools of Fryeburg. In general efficiency I believe that they will rank favorably with those of other towns.

TEACHERS—At the close of the spring term six of our teachers resigned, and the following were secured to fill the vacancies: Grammar School, Miss Eva E. Meserve, a graduate of Gorham Normal; Intermediate, Miss Alice H. Fossett, a graduate of Gorham Normal; Primary, Mrs. H. E. Eastman, a graduate of Fitchburg Normal; West Fryeburg, Miss Mattie Buzzell, a graduate of Gorham Normal; East Fryeburg, Miss Esther Lord, a graduate of Castine Normal; Harbor, Mr. Archie Hurd, a graduate of Fryeburg Academy. On account of illness, Mrs. Eastman was obliged to resign and Miss Buzzell was transferred from West Fryeburg to this school. Miss Marjorie Locke, a graduate of Nasson Institute, was secured to fill the vacancy at West Fryeburg, and Miss Lulie Crockett, a graduate of Farmington Normal, to fill the vacancy caused by the resignation of Miss Meserve at the close of the fall term. The teachers have given general satisfaction and are doing excellent work in their schools.

EDUCATIONAL MEETINGS—One teachers' meeting has been held and a part of our teachers attended the Educational Rally at Cornish, a very bad storm preventing a full attendance. In the spring Miss Florence Hale, State Agent for Rural Education, was secured to visit the schools and to give an address in the evening under the auspices of the Woman's Library Club. Miss Hale's address was an inspiration to all who heard it. Educational meetings are being held under the auspices of the five Granges on the District. A very successful one has been held with Paugus Grange, more than two hundred being present. The Village Schools gave an exhibition of work in physical training and also exercises on the State of

Maine. Educational quotations were given by a large number, and the questions: "What the School Expects of the Citizen," and "What the Citizen Expects of the School," were very freely discussed. The enthusiasm for the schools and the marked satisfaction in their management expressed by all speakers was a source of much encouragement to the school officials and teachers. This was easily the most enthusiastic community get-together the village has seen for some time. Similar meetings are to be held with East Fryeburg Grange, Fryeburg Grange and at North Fryeburg with the Improvement League. The school officials appreciate the splendid co-operative spirit of the Woman's Library Club and the Granges in the matter of these public meetings.

**SECONDARY SCHOOL ATTENDANCE**—Throughout the town efforts are being made by Superintendent and teachers to encourage pupils to go on to the Academy. I would most strongly urge all parents to supplement these efforts. Today a high school education is as necessary to a young person as was a common school education twenty years ago. It is, however, most desirable that pupils complete the common school course in a satisfactory manner before advancing. The few who could do high school work before finishing that prescribed for the grades could certainly do much better should they complete the grade work. The extra year of age and drill before entering upon high school work makes possible a deeper grasp of the new work with correspondingly better results.

The record which Fryeburg is making in the matter of secondary school attendance is one of which the town may justly be proud. For each one hundred pupils in the common schools thirty are in secondary schools, the average for the State being only seventeen and one-half pupils for each one hundred pupils in the common schools.

Upon the advice of Miss Hale, State Agent for Rural Education, and the request of the people of North Fryeburg, a second teacher, Mrs. Sadie Adams, is now employed for one-half of her time, and four pupils are there taking the first year high school work. Besides doing the high school work, Mrs. Adams spends one hour in helping on the crowded program of the grades. The Batchelder Fund provides \$100 toward Mrs. Adams' salary, leaving less for the town to pay than the tuition of the four pupils elsewhere in high school. All four had given up taking a high school course; but as they are doing ex-

cellent first year work it is hoped that they will find it possible to continue their course in the Academy next fall. Should this first year work be continued, I believe that it would interest a much larger number of pupils in high school work and eventually bring a larger number of pupils into the Academy from that section of the town.

**THE HELPING TEACHER**—We were fortunate in being able to retain Miss Carolyn Baker as our helping teacher. Her visits are very inspiring and helpful especially to the new teachers. The teachers are also getting much practical help by visiting Miss Baker's school. The helping teacher in no way does any of the work which the superintendent should do. It is supplementary to that of the superintendent who makes just the same number of visits as if there were no helping teacher.

**PHYSICAL TRAINING**—We were sorry to lose Mrs. Howard as Physical Director as she did very good work in the schools last year. The teachers have continued the work following the directions in Clark's Physical Training and are getting very good results. One of the advantages of trained teachers is shown in this work as all normal teachers are well trained along this line.

**THE SMALL RURAL SCHOOLS**—The two pupils from the Haley District are being conveyed to the village, and the three pupils at Smart's Hill are conveyed to Lovell Village. On account of the difficulty of securing conveyance it was decided to reopen the Toll Bridge School, and although the average attendance is below eight, it would be advisable to continue this school another year.

**IMPROVEMENT LEAGUE WORK**—The Village Leagues have raised \$40 with which they are planning to purchase a victrola and records.

The East Fryeburg League has raised \$11.45 and has expended \$6.75 for improvements.

The North Fryeburg League has raised \$23 and has purchased a clock, six victrola records and subscribed for the National Geographic Magazine.

The Center League has raised \$12.50 which it plans to apply toward the purchase of a victrola.

The Harbor League has raised \$19 and has purchased a new section for the bookcase and three victrola records.

The Toll Bridge School League has raised \$20.69 and has purchased a new bookcase and a number of pictures.

Besides the fourteen entertainments given to raise money the parents and friends have been invited to the schools for special occasions. One of the most valuable things in League work is the training which the members get in preparing programs and conducting meetings which are usually held each week.

With the Town School Improvement Fund 125 books have been added to the school libraries, also 200 National Geographic pictures, one set of maps and charts, and \$10 paid towards a cyclopedia. Several schools are planning to use their \$10 towards a victrola. I find this fund a great incentive to the leagues to work for improvements.

**THE WEST FRYEBURG SCHOOL BUILDING**—The lighting of the school room has been made to come from the rear and left of the pupils, a new Smith heating and ventilating system and a Smith chemical toilet have been installed. These changes have made the room much more attractive and comfortable for the pupils.

**TEXT BOOKS**—Atwood's "New Grammar School Geography" and Starkey's "History of Maine" are being introduced. These are both excellent books, each containing the latest data available.

**SALARIES OF TEACHERS**—The average salary paid for the year is \$17.13, an increase of \$2.40 over that paid last year. At the present time the average is \$18.90, an increase over last year of \$4.17. This amount multiplied by the number of teachers and weeks of the school year gives \$1,351.08 the initial increase in school expenditures on the supposition that teachers can be secured at the present salaries, which is not at all certain, and explains why it will be necessary to raise the \$1,000 voted at the special meeting together with the amount recommended by the Committee. This may seem a large increase, especially as approximately the same increase was made last year. But our salaries are only averaging with those of other Maine towns and are still below those of nearby states.

## RECOMMENDATIONS

1. That authority be given the Committee to continue the Toll Bridge School.
2. That the policy of remodelling one building each year be continued, and the North Fryeburg School building be remodelled and equipped with chemical toilets.

3. That a Smith heating and ventilating system be installed in the Center School building.

4. That the following amounts, which the School Committee after careful consideration voted to recommend, be raised:

Academy tuition .....	\$1,800 00
Common schools .....	6,000 00
Text books .....	300 00
Supplies .....	300 00
Repairs .....	375 00
North Fryeburg for remodelling .....	500 00
School improvements .....	60 00

Respectfully submitted,

CHARLES L. CLEMENT.

### HONOR LIST OF PUPILS NOT ABSENT OR TARDY FOR A TERM

Grammar School—Pearl Haley, Grover Stillings, Viola Kiesenman, Guy Whitaker.

Intermediate School—Guy Whitaker, Willis Ela, Ruth Peterson, Leura Haley, Leon Ballard, Royal Ela, Wildie Stillings.

Primary School—Annie Bemis, Edmund Emerson, Carl Johnson, Clyde Johnson, Aldine Lord, Esther Pike, A. O. Pike, Jr., Ruth Wiley, Woodrow Stillings, Walter Watson.

West Fryeburg—Donald McKeen.

East Fryeburg—Marcia Berry, Averil Harnden, Leona Pike, Arthur Smith, Helen Pike.

North Fryeburg—Eva Crouse, Everett Hill, Lois Farrington.

Center—Evelyn Baker 2, Harold Eastman, Harold Gains, Wendell Nickerson.

Harbor—Beatrice Bemis, Owen Hall.

Toll Bridge—Annie Richardson, Ned Richardson.

I wish to call attention of parents to the Honor List and to ask their co-operation in securing a much longer one next year. The percentage of attendance is only eighty-four which means that from each one hundred pupils sixteen are absent each day. This is far too large a proportion and an effort should be made to make a better record in the future.
