Sec. 53. No person affected with smallpox, scarlet fever, diphtheria, or other quarantinable disease, and no person having access to any person affected with any of the said diseases, shall mingle with the general public until such sanitary precautions as may be prescribed by the local board of health shall have been complied with.

Penalty for Violation.

Sec. 65. Whoever wilfully violates any provision of the twenty-six preceding sections, or of said regulations

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Committee and Citizens of the Town of Fryeburg:

Herewith my first annual report of the progress, condition and needs of the schools of the Town of Fryeburg. In this report I shall attempt to cover the subject only in so far as it deals with the schools since I came to this position, July 1, 1923.

Teachers:

Schools opened September 14, 1923, with the following teachers in charge:

Primary, Miss Christine Hunter, West Benton.

Intermediate, Miss Edna Ellis, Skowhegan.

Grammar, Mrs. Emily Steadman, Fryeburg.

West, Miss Hattie Kelley, Everett, Mass.

North, Mr. Roy C. Berry, Woodfords.

Harbor, Mrs. Annie Eastman, Fryeburg.

Toll Bridge, Miss Sylvia Wyman, West Benton.

Center, Miss Esther Lambert, East Corinth.

East, Mr. Horace Morse, Hanover.

Among these teachers, four are Normal School Graduates, three are teachers who have had considerable experience, and two are beginning teachers.

Attendance:

Although attendance has been fair yet there is always room for improvement. Many children are allowed to stay from school for light and transient reasons. Thus far we have escaped any serious epidemic, the weather has not interfered to any great extent and conditions have generally favored good attendance. Parents should always bear in mind the fact that the lower the attendance the less are the State Funds received, since a part of the apportionment is based on aggregate attendance.

Student Activities:

During the year thus far the several schools have carried on extra-curriculum activities of various kinds. American Education Week in November was duly observed in all schools. The School Improvement League is flourishing and eight schools have qualified for and received the \$10.00 provided by the town in case they could show \$10.00 earned during the year. I strongly advise that this encouragement be continued.

Parties and entertainments have been held from time

to time. I believe that extra-curriculum activities should be encouraged, but always with much consideration to their consistency and relative importance.

A town-wide spelling contest is now going on in all the schools.

Visitation:

While visits by parents and friends have been of the usual frequency, it would appear that here as elsewhere parents may well take more time to visit their schools and to know more of the school home of their children. We have no regular visiting day, but let it be known that every day is visiting day in our schools.

Text-books:

The question of suitable and sufficient text-books is rather a large one. We have a large number of books which are not in suitable condition to use, and a still larger number which are out-of-date. Neither have we enough text-books of the same kind and edition to equip all pupils in the same grade in different schools. There should be enough text-books to "go around," that is, we should have enough books of the same kind and of the same edition so that all the pupils in town in each grade may study the same text at the same time. In this way a pupil in any grade in any school will cover the same ground as a pupil in that grade in any other school in town. Transference from one school to another, when necessary, may then be made without loss or confusion. Our aim in this direction should be a uniform course of study, and uniform sources of information in all schools. In order to bring this condition about large expenditures will be necessary.

Repairs:

The following repairs have been effected.

The interior of the village building was redecorated in light green and new curtains were hung. The interior of the building is now very neat and attractive.

At Toll Bridge the old shed and toilets were removed and a new connected shed with toilets in accordance with the law were built. At Harbor the same arrangements as at Toll Bridge were effected. The lighting was changed in both buildings.

At North a partition was built in the corridor, thus insuring warmth in the toilets. By this arrangement we hope to escape the danger of freezing of the chemical toilets.

At East a portion of the cellar wall was planked.

New stoves have been purchased for Harbor and Center. Other minor, upkeep repairs have been made where necessary. The floors in all buildings have been oiled.

The following repairs should be made this year:

Rearrangement of the toilets at East. Interior painting at Harbor and North. New curtains at North. The shed at Toll Bridge should be painted. Other minor repairs will appear necessary from time to time.

Training of Teachers:

It is becoming more and more obvious that to obtain the best results teachers must be well trained. Equipment of the latest pattern in modern buildings goes a long way, but in the last analysis the teacher makes the school. There is a State-wide movement towards the securing of better trained teachers. Opportunities for securing this training are ample. Our Normal Schools, both during the regular year and during the summer sessions offer attractive and appropriate courses. I wish that among many of our teachers, and I have found most of them very faithful, there might grow up more of a professional attitude and more of an ambition to

secure further training. Any town which pays a higher salary for a trained and consistent teacher is making a paying investment when results are considered.

I wish to express my appreciation for the courtesy which I have experienced at the hands of the School Committee, teachers and citizens of the town of Fryeburg. The relations between the School Department and other departments and officials have been uniformly pleasant.

Respectfully submitted,

CHARLES A. SNOW,

Superintendent of Schools.
