Superintendent of School's Report.

To the S. S. Committee of Lubec,
Gentlemen:—

I herewith present for your consideration, my report of the public schools of Lubec, for the fiscal year ending March 12, 1900.

Available for Common Schools.	
Appropriated by the town,	\$2100 00
Interest on school fund,	75 00
Balance from 1899,	336 17
Received from State,	2241 45
Total,	\$4752 62

Available for High School.	
Appropriated by the town,	\$900 00
Received from State,	250 00

Total,	\$1150 00
Expenditures for Common Schools,	
Teachers' salaries,	\$4,199 62
Janitors' " "	88 00
Paid for fuel,	430 29
	\$4,717 91
Unexpended,	34 71

Expenditures for High School.	
Principal's salary,	\$750 00
Assistant's, " (23 weeks)	230 00
	\$980 00
Unexpended balance,	170 00

The assistant's salary for the spring term of 14 weeks is to be paid from this balance, leaving \$30.

Cleaning and Repairs Account.

Appropriation,	\$100 00
Expended,	137 42
Overdrawn,	\$37 42

In order to seat the pupils in the primary school, where 103 have been registered, it was necessary to purchase some new seats, which, with two tables for teachers in recitation rooms, cost us \$45.25. It was also necessary to supply blackboards for recitation rooms in High School; these cost \$13.12. The freight on these was \$15.92, making a

total of \$74 29. As no provision had been made for these improvements, Mr Peacock and myself agreed to pay for same and wait for an appropriation this year, which has been done.

Supplies Account.

By an oversight the necessary appropriation for this account was omitted last year which will necessitate a double amount for this year.

Amount expended	\$118 12
Book acc't.	
Appropriation	275 00
Rec'd for books sold	5 05

Total, \$280 05

Expended \$299 85

PRIMARY SCHOOL.

The large attendance in this school, made it absolutely necessary to employ an assistant teacher. This added \$238 to our expenses for teachers' salaries. The same arrangement will need to be carried out another year, as the number enrolled increases each year. Good work has been done in this school during the year, and needs to be continued

It was with regret that we learned of the death of Miss Bartlett, a former teacher in this grade, who labored with us long and faithfully, and who was beloved by all who knew her true worth.

INTERMEDIATE

This school is one of the most difficult in town. During the winter term there have been 65 in attendance and about the same number will be enrolled next term. Some ten or twelve of these pupils will grade into the grammar school, while about 20 will come from the primary room. Besides, there are always some coming in from families moving here during the year. In the fall, the attendance is not so large. This school will register at least 80 pupils next winter and spring, which will make an assistant indispensable, and will add about \$200 to our expenses.

GRAMMAR SCHOOL.

The attendance in this school has not been as large as usual this year, but will be better next year, as there are more to come in than will grade out. If our citizens would pass through the different grades they would be much surprised at the falling off in numbers when they reach this room. It shows how few even pass through this grade. I see no excuse for this condition unless you call the absolute indifference of parents an excuse.

HIGH SCHOOL.

During the year, 33 pupils have been registered, not quite so many as we hoped to have. We find it difficult to raise the standard in this school, as many seem to think more of graduating than they do of preparing themselves for some useful position in life.

Miss Geary has proven herself to be a very able assistant and has done much to improve the school.

During the year the school has been placed on the list of fitting schools for "The University of Maine."

It is entirely useless for teachers and school officers to attempt to maintain a successful school without the co-operation of parents and pupils. We are sorry to be obliged to complain in this particular, but it is true. The advantages offered to our young people in this school are not fully appreciated. We need missionary work in connection with schools as well as churches.

The other schools have been successful in a general way yet not a single school in town is what it ought to be.

We were obliged to change teachers at the Ridge during the winter term; which is always undesirable, but in this case it seemed the best thing to do. Mr. Bucknam has given good satisfaction.

At the Mills, complaint has been made about a lack of sufficient seats, and more should be provided.

We were unfortunate in securing a

teacher for No. 4, last Fall. This case has aided in convincing me that it is unwise to engage teachers without seeing them. Some people can write a very good letter and that is about all they can do.

Considerable unpleasantness has arisen from Miss Kingsley leaving her school before the close of the term. The agreement was distinctly understood, and there was no good reason for violating it, but we find a few teachers—in fact a few in all the callings of life—who are perfectly willing to sacrifice the interests of others, if by so doing their own selfish ends can be attained.

I have nothing special to say regarding the other schools, they have all been running smoothly and fairly good work has been done.

The school buildings in Dist. No. 6 and 11 should be painted this year.

Outbuildings should be provided for all school-houses and they should be entered from the school room.

SUPERVISION.

The school question of paramount importance to-day is that of supervision. Our schools are not properly superintended, nor have they ever been. It is impossible for this work to be well done, except by a person who has given it especial thought and has been thoroughly trained for it.

I trust all who are interested in our public schools will give this matter careful consideration and be cautious how they vote.

The following appropriations will be needed for another year.

For common schools,	\$2500 00
" interest on school fund,	75 00
" free High school,	900 00
" cleaning and repairs,	*175 00
" appliances etc.,	225 00
" text books,	300 00

*Seats and boards purchased last year to be paid for from this amount.
