Several hundred students were present.

The body of Ingraham, the walking candidate, was carried to the Gym in an ancient hearse, drawn by an old saddlebacked horse and escorted by his faithful followers. He was borne into the Gym in a plain casket and placed on the platform. His followers, carrying lighted candles, were led by Johnstone, a former opponent, dressed as a minister.

"The big man for the big job," Sam Reese, was the last to arrive. Announced by trumpets and horns he rushed in after his party men, who carried a huge ban ner bearing the words, "Reese for Mayor." Sam's little animal that has jeered at his rivals all during the contest was still clasped in one hand while Sam lifted at the attractively decorated banquet the observance of Scholarship Recogni- his derby with the other. Despite the table at the Penobscot Valley Coun- tion Day at a special assembly for the frantic attempt of the Reese men to place their banner on the platform, they were forced to take it to one side and the speeches of the evening got under way. The chairman, John Sealey, stepped to the mike and announced the order of the speakers. He pleaded for silence while candidate had only five minutes to state his cause.

> In a broken voice, Reggie Naugler told his life story. He told of his many hardships and griefs during his childhood. Not the least among these was the passing of Calvin Coolidge, "the best friend I ever had." Once more on a level with his rivals, "Honest Naugler" spoke of his devotion to the people he loved and re-stated his platform, emphasizing the plans he had for the co-eds of the college.

Bill Bessom, who had discarded his Through the assembly committee an campaign garb, stepped forward next.

Maine Day

Maine's first annual Maine Day came to a close Wednesday night. An evening of entertainment followed an afternoon of recreation and a morning of hard work.

That the first Maine Day was a success is unquestioned. It brought forth the greatest exhibition of Maine spirit that the editorial board of the Campus has ever been privileged to witness.

In the dimmed light of Memorial Gymnasium Wednesday night, as students cheered faculty and faculty cheered students, and then both groups joined in singing the Stein in recent years, it made one realize University, not merely a collection of students and faculty.

Maine Day has already established itself as a Maine tradition, the University will ever have.

VIRGINIA NELSON GETS OHIO ALUMNI AWARD

Miss Virginia C. Nelson of Guilford received the first award of a \$50.00 scholarship recently established by the Ohio Alumni Association of the University of Maine, Pres. Arthur Hauck announced this week. This scholarship, created last fall as part of the scholarship program of the General Alumni Association, is awarded to any student in financial need who displays qualities of campus leadership, outstanding character, and good scholarship.

Miss Nelson, a Junior, is highly qualified for this initial award, having participated in many campus activities. She is Vice President of her sorority, a member of the student government, and of the Junior Week Committee. She has been chosen to membership in two language clubs and other honorary societies. In addition she has maintained a high schol-

A truly severe critic would say that she could wear clothes, but he would perhaps be prone to overlook her virtues in other respects. She didn't give a professional aspect to her role, but I venture to say that no other Masque member could have played it with such precision and charm. Her tender understanding of Jerry, her patient dallying with Victor, and her subsequent revolt with the Hallam group was displayed with a vigor, and at the same time a restraint, that merits

Talk of the Campus

By Carl Bottume

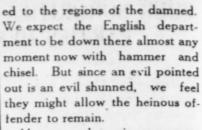

It seems as if we've been on the wrong trail for quite some time on the subject of the duties of public monuments. You see we always thought that they had a two-fold purpose; in the first place that they served as reminders of a past, good or bad; and in the second place, and a more important use it is, too, that they served as examples for the youth of to-

day. But it doesn't seem that way, not at least in respect to the Civil War monument in the square in Orono.

Now, Orono is a college town. It should be an example for youth. As far as we can see, monuments have only a few really utilitarian purposes; to tie on "April 28, 1867," Laura Wesolowska horses to, and dogs, and to lean against when under the weather. Suppose you are in that condition and you lean up against that monument in a very impressionable mood, quite groggy you know, and you see the word that Mr. Woolley and the entire English department has yapped at you about spelling it wrong. Separate be so much worse. room of M. C. A. Those who received mind you spelled with an e. You the Tri-Delt pins were Annette Youngs, never are able to spell it correct-

However there is movement afoot to have the thing removed and we'll have to tell you about it from the beginning. It seems that when the monument was erected there was a large plot or grass about it with just room for a little road all the way around. But soon, not many years after the War, the town fathers had a portion of the gress plot cut away to make room for additional traf-

fic. And then some few years later the rest of the grass was taken away and cement put in its place and the thing stood as it does now. But, alas, the Civil War has long been over, and Maine is a long way from the South, and so every few years lately there has been a movement in town meeting to have the thing carted off to the cemetery to be stuck up carelessly we suppose in some corner. Orono is such a metropolis now, you see, that they need all that road space. But in a few years they'd stick a dummy cop in there which would

The male lead drops from the sublime to the regrettable. John Clark may have been a high school Hamden previous to his matriculation at Maine, but the jump from secondary school to college dramatics is a big one, and Mr. Clark evidently didn't jump far enough. In a scene that should easily have held the audience breathless, he clowned about the stage, finally grabbing Miss Sawyer by the shoulders and talking to her as a four year old girl would have scolded her rag doll. Physically he had everything in his favor. A tribute to the director-he was perfectly cast, but he utterly lacked all understanding and appreciation of his role. Perhaps a freshman isn't supposed to realize his obligations, and if that is the case he was perfect. Stella couldn't possibly have loved a man as hard and course as Mr. Clark's portrayal of Victor. Even had he grown tenderless he never could have become quite as vulgar as that.

Rachel Fowles, billed Richard on the program, was perhaps the character that gave me the great est thrill of the evening. Her part was not an outstanding one, but she made it such. By thrill I don't mean that she positively gave the best performance of the cast, but in my estimation she is a discovery for character roles,

Dear people who make Arrow Shirts:

I used to be known as the loneliest man on East 57th Street. Other fellows had dates with swell-looking girls. All I did was to draw pictures of them Finally I discovered Arrow Mitoga shirts, S.S.* They looked great -- they fitted great. As a result, look at me now up there in the picture. See that blonde clinging to my right arm, and that vision clutching my left. That'll give you just a rough idea of how I'm doing. And, my friends, I owe it all to Arrow Shirts.

Gratefully yours,

*Sanforized-Shrunk.

A man who visited a Chesterfield factory recently, said: "Now that I have seen Chesterfields made, I understand better than ever why people say Chesterfields are milder and have a better taste."

> If you too could visit our factories you could see the clean, airy surroundings; the employees in their spotless uniforms, and the modern cigarette making machinery.

> You could notice how carefully each Chesterfield cigarette is inspected and see also how Chesterfields are practically untouched by human hands.

> Whenever you happen to be in Richmond, Va., Durham, N. C., or San Francisco, California, we invite you to stop at the Liggett & Myers plants and see how Chesterfields are made.
