Stevens Lectures On Stratosphere

Noted Balloonist Presents
Pictures Taken on
Record Flight

By Catharine Rowe

Before a large and appreciative audience of faculty, alumni, and students, Captain Albert W. Stevens '07 gave an illustrated lecture on his stratosphere flights at an assembly held Monday evening, April 27, in Memorial Gymnasium. He was introduced by President Arthur A. Hauck who welcomed the noted balloonist and photographer and cited some of the outstanding achievements of his varied career.

CAPT. ALBERT W. STEVENS, Who Spoke at the Assembly Monday

Captain Stevens' talk, which was illustrated by lantern slides and moving pictures, was made particularly interesting by his explanation of some of the scientific data which has been accumulated about the stratosphere. "The importance of the flight from a scientific viewpoint," he said, "was not to see how high we could go, but to study the region above the earth's atmosphere."

One of the main objects of the flight was to measure the amount of ozone present at different elevations. Although ozone is present only in minute quantities in the air, it obstructs most of the ultraviolet rays and plays a very important part in the temperature of the earth. During the course of their flight, Captain Stevens and Captain Anderson discovered many interesting things about the performance of radio cosmic rays, and the activity of electricity due to ionization of the air.

The flight that started from the "Stratobowl" in South Dakota on November 11, 1935, lasted for eight hours, only one and one-half hours of which time was actually spent in the stratosphere. The gondola of the balloon was equipped with measuring instruments for a wide variety of factors. There was also an efficient system of cameras for aerial photography, in which field Captain Stevens is a recognized expert.

Honored by Tau Beta Pi

Maine Alpha chapter of Tau Beta Pi, honorary engineering society, made Captain Albert W. Stevens an honorary member in the society in a ceremony performed at Lord Hall at 1 o'clock Wednesday.

Captain Stevens was elected to membership at the regular meeting of the society held on Tuesday, April 14, for his outstanding attainments in the fields of engineering and science.

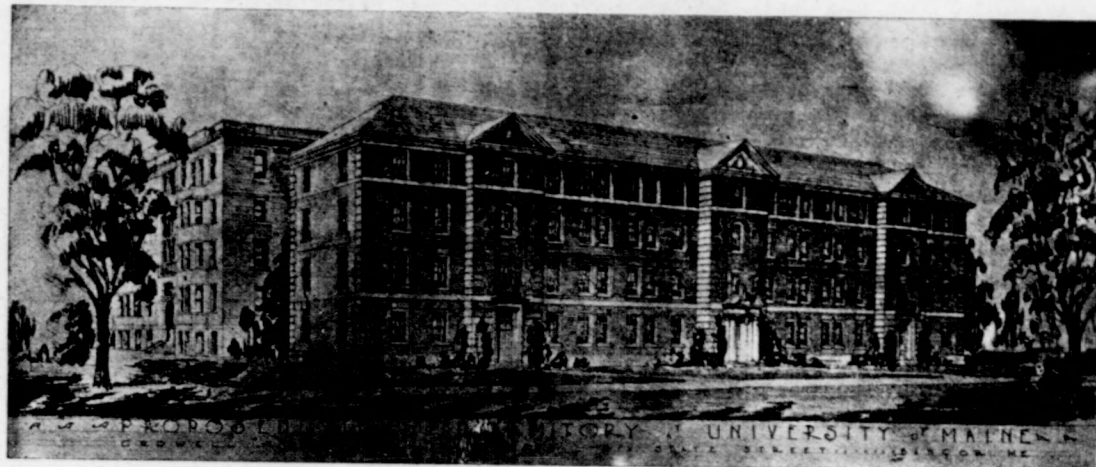

Rowlands Expects 1937 Prism To Be Completed by Mid-May

Willett Rowlands, editor-in-chief of the 1937 Prism, announced this week that the Prism will be completed and available to students by the middle of May. The Prism is off the press and on its way to the bindery.

This year's Prism will be bound with an attractive black cover with deeply embossed blue letters. The Memorial Gymnasium will be featured on a two-page spread inside the cover both back and front. The feature section of bleed-off cuts has been increased to fifteen pages in an effort to give a characteristic picture of all phases of Maine campus life.

One of the best departments in the new Prism is Harold Webb's sport section. Webb and his assistants have put forth every effort to develop a live, interesting chronicle of current Maine athletes and their achievements. They have filled this section with action pictures of all phases of Maine sports.

Proposed New Dormitory To Replace Oak Hall

Student Government Delegates Meet Here

Miss Eva Wunderlich, German professor at Bennington College, Bennington, Vermont, and authority on international relations, is to be the chief speaker at the annual convention of student government associations of New England co-educational colleges and universities, which is being held at Maine this weekend.

The conventions began today, when delegates from Connecticut State University, University of Vermont, University of New Hampshire, Bates, Colby, Rhode Island State University, and Middlebury College arrived at the campus. There was a meeting open to all campus women in the Little Theatre yesterday afternoon, when Miss Wunderlich spoke on "The Student Government Experiment at Bennington." Miss Wunderlich will speak at two sessions of the conventions tomorrow. One of her subjects will be "The Part Women Play in European Politics."

On Saturday morning there will be an open discussion period, in which the rules and procedures of the student governments of the various colleges will be compared and criticized.

The convention delegates attended the Masque presentation of Berkeley Square last evening. Today they will be entertained at a luncheon at the Penobscot Valley Country Club. In the evening there will be a formal banquet at the Bangor House and, following this, a dance at the Phi Gamma Delta House. While on campus the delegates will stay at Colvin Hall. They will leave Bangor Saturday noon.

The officers of the University Student Government Association are Elizabeth Schiro, president; Faith Folger, vice president; Carol Stevens, secretary; and Mary Wright, treasurer. This convention has been held once before at the University of Maine nine years ago in 1927.

Demonstration Forest Being Developed North of Campus

During the past two or three months the Resettlement Administration which is a branch of the U. S. Department of Agriculture has been employing from ten to 300 men daily on an area about a mile north of the University, developing it for a demonstration forest.

During the past seven or eight months, plans have been in progress to secure approximately 2,000 acres of land near the campus. This project involves the surveying, appraisal and eventual purchase of this land for a demonstration forest. On the demonstration forest will be located all sorts of projects that are found on the larger public forests throughout the United States. These projects will include investigations in methods of handling timber lands, methods of handling wild life populations, and the setting up and operation of camp sites, picnic areas, and other recreational facilities which will be open to the public.

The present plan involves the development of the area by the Resettlement Administration and the eventual lease to the University as a laboratory for the Department of Forestry and Division of Wild Life Research. For many years such an area has been needed to round out the program in this field of research, and administration. The work projects being carried out at the present time include the removal of fire hazards, the improvement of timber stands, the construction of picnic and other recreational areas, and the planting of forest trees.

Mr. John W. Hart, of Bangor, is the project manager for the Resettlement Administration and is handling four other areas of a similar nature in other parts of the State. These other areas will eventually be leased to the State of Maine and administered by the Park Commission of the State for recreational purposes.

Council Accepts Fall Rushing Plan

Sealey Urges Seniors To
Vote in Election for
Class Parts

At a joint meeting of the Student Senate and the Interfraternity Council held in Rogers Hall at 6:45 o'clock Tuesday evening, April 28, the Council voted 12 to 2 to adopt the tabled motion to amend the constitution of the Council to prescribe a rushing period of three weeks, starting Nov. 23 and ending on December 13 at 5 o'clock. Pledging will take place at Alumni Hall starting at 2 o'clock on the following day.

The rushing rule that all upperclassmen must be out of the dormitories and all freshmen must be out of the fraternities by 7 p.m. except on Friday and Saturday nights has been retained.

The adoption of the new rushing period came as the result of expressed dissatisfaction with the long period used this year and a desire to try a period coming at a more convenient time of the school year.

At the meeting of the Student Senate which preceded that of the Interfraternity Council, President John Sealey urged that the students vote in the elections to be held in Alumni Hall on Tuesday, May 5, for Senior Class parts, the Washington Alumni Watch, and Athletic Association officers.

Nominations were then made for the sophomore marshal and the officers of the Student Senate for the coming year. The following nominations were made:

For Sophomore Marshal: Waldo Hardison, Donald Adams, Fred Beck, Edward Sherry, Philip Rogers, Lewis Edwards, Francis Jones.

For President of the Student Senate: William Hunnewell, Thomas Houghton, Wendell Brewster, James Morrison, Leslie Hutchings.

For Vice President of the Senate: Elwood Bryant, William Stillman, Raynor Brown, Lester Smith, Wendell Brewster.

For Secretary of the Senate: John Bennett, Burleigh Roderick, Charles Cain.

Annual Banquet Held By All-Maine Women

The 12th annual banquet of the All-Maine Women was held at the Penobscot Valley Country Club Tuesday night.

Virginia Nelson announced the 13 girls who were chosen to receive the highest non-scholastic honor that a Maine woman can earn. The new pledges are: Seniors: Helen Buker, Alice Campbell, Edith Gardner, Ruth Goodwin, Cathryn Hootner, and Frances King; Juniors: Elizabeth Ashby, Faith Folger, Barbara Lancaster, Carol Stevens, and Alice Stewart; Sophomores: Mary Leighton and Mary Wright. Professor Evelyn Faye Wilson was elected an honorary member of All-Maine Women.

President Hauck was the main speaker of the evening. His subject was the progress made in the education of women. Virginia Nelson, president of All-Maine Women, was toastmistress and introduced the following program:

Hello Marie Archer
Still Growing Carol Stevens
Why "Y" Madeline Frazier
Women After All Elizabeth Ashby
So Easy Mary Helen Raye
In Days of Old Mildred Haney

New England colleges recently held the ninth annual League of Nations session at Williams.

The next war will be won by the nation having the best gasoline, says Dr. Merrell R. Fenske of Pennsylvania State College. Excess of religious fervor rarely leads to insanity, according to Dr. E. W. Twitchell, University of California neuropsychiatrist.

Senior Skulls Named At Junior Assembly

In an impressive ceremony which brought the annual Junior Assembly to a close, nine outstanding Juniors were "tapped" by the present Senior Skulls. Each year the Senior Skulls pin the coveted red and blue ribbon on nine Junior men who are prominent in extra-curricular activities. Those who were honored by this distinction are: Wendell Brewster, Dexter; Leslie Hutchings, Portland; Seth Williams, Augusta; Burleigh Roderick, Augusta; Alton Bell, Dennysville; William Hunnewell, Madison; John Murray, Bath; James Morrison, Bradford Center; Robert Ohler, Newton Center, Mass.

Brewster, a member of Alpha Tau Omega, was All-Maine fullback his Sophomore year, played Freshman football and basketball. He is now vice president of his class and a member of the Pale Blue Key.

A center on the Varsity football squad, president of Alpha Zeta, secretary of the Maine Day Committee and a proctor in the dormitory, Hutchings is one of the few four-point men on campus. A member of Phi Mu Delta, he was president of the Freshman class, and an Owl his Sophomore year.

Williams, a member of Beta Theta Pi, was on the Varsity football squad, is a member of the Scabbard and Blade, and is a Dean's List man. He was also on the Fresh football squad.

Class president for the past two years, a member of the Pale Blue Key, and a proctor in the dormitory, Roderick is a regular guard on the Varsity team. A member of Beta Theta Pi, he was also a Sophomore Owl.

A member of the Varsity teams in baseball and track, active in the Scabbard and Blade and a member of the Pale Blue Key, Bell is the holder of the University javelin record. He was chairman of the Junior Day Committee, a Sophomore Owl and on both the Fresh baseball and track teams. He is a member of Phi Mu Delta.

Captain of the cross country team, Hunnewell was National Cross Country Champion his Freshman year. A member of Sigma Alpha Epsilon, active in the Pale Blue Key and outstanding in both indoor and outdoor track, Hunnewell is Chairman of the Afternoon Maine Day Committee. He was also an Owl his Sophomore year.

Murray, a member of Kappa Sigma, is an outstanding track and dash man. A member of the relay team and also of the Pale Blue Key, he was an Owl his Sophomore year.

On the Varsity baseball team, active on the Junior Prom Committee, Morrison is a member of Phi Kappa Sigma. He was a Sophomore Owl, and played baseball his Freshman year.

Ohler, a member of the Maine Masque, outstanding in Winter Sports, and active in both the Maine Outing Club and the Maine Christian Association, is a member of Lambda Chi Alpha.

These men who have been selected as Senior Skulls have achieved the highest non-scholastic honor attainable in the University of Maine. Their duties will include drawing up Freshman Rules for next year and generally aiding student affairs.

Honorary Lieutenant Colonel To Review Maine R.O.T.C.

The Maine R.O.T.C. unit is to give a review and parade before Miss Elizabeth Story, honorary lieutenant colonel, next Saturday morning, May 2, in the outside field if weather permits; inside, if it does not.

Miss Story received her commission at the Annual Military Ball sponsored by Scabbard and Blade last December.

Scabbard and Blade, at a meeting held April 16, elected the following officers for the year 1936-37: captain, James F. Dow; first lieutenant, George S. Williams, Jr.; second lieutenant, Edward F. Brannan; and first sergeant, Elwood D. Bryant.

Arts College To Introduce New Plan for Graduation Honors, Dean Announces

Masque Presents Berkeley Square

Unique Play Is Produced
Before Appreciative
Audiences

ATWOOD LEVENSALE, Who Played the Lead in Berkeley Square

The Maine Masque brings its season to a close tonight at 7:30 with the second performance of John Balderston's *Berkeley Square*. The first presentation took place last night in the Little Theatre.

Atwood Levensaler plays the lead in one of the most interesting Masque plays of recent years. The action concerns itself with a young man who fell in love with the past and finally succeeded in projecting himself backward into the eighteenth century, where he falls in love with a distant cousin. He is finally forced to return to the twentieth century, and the play closes as he reads the obituary of the girl, who has been dead 150 years.

This unique plot is well acted on a set representing the mansion in Berkeley Square where the story takes place. Stage design was under the direction of Professor Herschel L. Bricker and stage manager Robert Homstead. Professor Bailey, head of the speech department, directed the play.

The members of the cast are Atwood Levensaler, Clarke Kune, Louis Thibodeau, Ralph Higgins, Harry Mickalide, Dorothy Nutt, Kay Hootner, Margaret Thayer, Marion Hatch, Charlotte Davis, Rachel Fowles, Elizabeth Philbrook, Helen Buker, and Professor Bailey.

Music is provided by the University String Trio.

Brown Wins Contest With Talk on Peace

David S. Brown '36 won first place in the state intercollegiate peace oratorical contest held in the Little Theatre in conjunction with a peace assembly on Wednesday, April 22. Second place was won by Harold W. Hickey, of Colby, whose talk was entitled "This Way Out." Third place was taken by William J. Greenwood, of Bates, whose piece was entitled "Thou Shalt not Covet."

First, second, and third places carried prizes of \$50, \$30, and \$20, respectively. The winning orations are being entered in a national contest in which first and second prizes will be given of \$60 and \$40.

The three judges of the contest were Myer Epstein, Bangor attorney; the Rev. Wayne L. Robison, and Prof. Cumming of the Bangor Theological Seminary. Dean Muilenburg was chairman.

"The outstanding characteristic of the present-war system," said David Brown in his prize-winning oration, "is nationalism." He went on to state that wars are fought between nations and end in national victories and defeats. Nations in themselves would not bring war on its present scale if it were not for a more profound cause which lies behind state frontiers: national economies.

"Each nation endeavored to be self-sufficient and then to secure the markets of its neighbors. The necessary—not incidental—culmination of such a situation was war."

(Continued on Page Three)

NOTICE

Registration in the College of Arts and Sciences will begin May 4, and will extend to May 17. This is a correction of the dates announced in the April 23 Campus.

Plan Aims To Offer Superior Students Advantages

PLAN IS FLEXIBLE

New Program Emphasizes
Tutorial Honors
Courses

An important change in the program of graduation honors adopted by the College of Arts and Sciences has been announced by Dean James Muilenburg. The aim of the new plan is to provide students of exceptional ability and enthusiasm with a broader and better-rounded education and an opportunity to develop some particular line of interest in a creative way.

The plan is intended to be flexible enough to take account of superior ability wherever and whenever it is discovered. It may be modified upon the advice of the committee in charge of Honors Work and the Dean to meet the requirements of particular individuals. Tutorial guidance and the development of particular capacities are emphasized in every feature of the program. The old system of departmental honors is to be discontinued.

A student in the College of Arts and Sciences completing this program will receive a degree "With Honors," "With High Honors," or "With Highest Honors" according to the merit of his work. Those who do not find it advantageous to undertake Honors Work of this character may still be graduated "With Distinction," "With High Distinction," and "With Highest Distinction," however.

The *Campus* is publishing the details of the new plan in Question and Answer form below in order that it may set forth the solution to any problems that the new system may suggest in a more direct and understandable way.

1. Q.—What will be expected of the student who anticipates graduating with honors?

A.—He will be expected to begin his Honors work proper at the beginning of the junior year, take two honors courses; one outside his major field (Tutorial Honors), and one in his major field (Major Honors), and pass with notable success a comprehensive examination, in the conduct of which the examiners in the student's major field will be assisted by one or more representatives of other fields.

(Continued on Page Two)

Registration To Start in Arts On Monday, New Courses Given

Registration for the College of Arts and Sciences will take place from May 4 to May 16, inclusive. During this period freshmen will register with their faculty advisers, and sophomores with the heads of the departments in which they elect to major.

Several new courses are being offered for the fall registration. A course in Chinese Culture is to be given by the department of art history with the idea of unfolding some of the ancient ideals of China's higher life.

The department of physics is to give a course in Intermediate Physics. It is designed specifically for those students who wish to acquire a more thorough grasp of the whole subject than can be acquired in the introductory course, which is necessarily limited in scope. This will be a three-hour course.

Students interested in the field of photography will be pleased to learn that a course in this subject will also be given by the Physics department. The course will consist of two lectures and one laboratory period a week and should prove of much practical value.

Dr. Little, Former President, To Speak at Coming Assembly

Dean Olin S. Lutes has announced that the final assembly of the school year, the annual Scholarship Recognition Day Assembly, will be held Thursday, May 14. Dr. Clarence Cook Little, former president of the University of Maine and the University of Michigan, is to be the speaker. Dr. Little is at present managing director for the American Society for the Control of Cancer and is also president of the American Birth Control League. The subject of his address is to be announced later.

The assembly is being sponsored by Phi Kappa Phi in conjunction with the Assembly Committee.

Greetings to Student Government Delegates!

This week, for the first time in nine years, the annual convention of student government associations of New England co-educational colleges and universities is being held at Maine. Delegates from seven colleges are present. To these young women we extend a cordial welcome from the Maine Campus and from our fellow students. We hope their visit here will be a pleasant one.

A Disappointment

The Junior Week assembly was decidedly mediocre. It utterly failed to interest, entertain, or inspire, and, therefore, from the undergraduate viewpoint at least, may be regarded as a complete fizzle. It was concocted according to the same time-worn formula, and cut to the same unaltered pattern of its predecessors. There was no element whatsoever of the unusual to break its barren monotony.

We give Dr. Bradshaw full credit for his well-presented talk on "Wise Men of the East." We would suggest, however, that in the future a subject more pertinent to the occasion or more general interest be selected and that a more varied and appealing program be developed in order that Junior Week may retain the monumental significance to the student that it well deserves.

A Progressive Step

The announcement of the new system of graduation honors in the College of Arts and Sciences should meet with general approval. It marks a definite step forward in the direction of stimulated interest in academic excellence and a higher standard of student intelligence.

Briefly stated, the new system offers the undergraduate doing work of a sufficiently high caliber a degree of elasticity in his curriculum which has long been needed. It offers him an opportunity to obtain academic credit for intensive study in a field of special interest, while at the same time insisting that he broaden his interests in other fields. It gives the freshman and sophomore the incentive of recognition in the immediate future for which to strive—namely, eligibility for Honors Work.

The new plan should prove more satisfactory to all concerned. It is a decidedly progressive step.

Campus Staff Holds Banquet, Kappa Gamma Phi Pledges 12

By Miriam Hilton

Informality was the keynote of the Campus staff's banquet held at the Bangor House Thursday, April 23. At 6:30 o'clock forty members of the staff filed into the dining hall, to find their places marked by print slugs—to be read upside down and back side to.

Editors, reporters, and members of the Business and Circulation departments, all adorned with the gayest paper hats, joined in heckling (with horns and snappers provided for the occasion) the after-dinner speakers, who included Roger Levenson, new editor, George Clarke, retiring Business Manager, Ernest Saunders, Robert Burns, and Donald Mayo. George Clarke presented Ray Galey, another former chief, who acted as toastmaster, with an appropriate gift.

Roger Levenson, president of Kappa Gamma Phi, journalistic fraternity, announced twelve new pledges: Oliver Eldridge, Thomas Lynch, George Clarke, Harold Webb, William Saltzman, Richard Berry, Edwin Costrell, Robert Cabene, Robert Burns, Merrill Eldridge, Donald Kelley, and Donald Mayo.

Keys honoring their receivers for service on the Campus were presented to Robert Cabene, Roger Levenson, Merrill Eldridge, James Haggart, Ernest Saunders, George Clarke, Margaret Sewall, Elizabeth Philbrook, and Ruth Goodwin. A key also went to Jane Stillman, who was unable to be present.

CHURCH NOTICE

Fellowship Church

A propos of the season, Dr. Charles M. Sharpe will speak upon the theme: "We Are Fishermen All."
Service at 10:30 a.m., May 3.

At the Young People's Meeting, 6:30 p.m. Mr. Kenneth Johnson, a colored student of Colby College, will speak upon "Economic and Social Aspects of the Negro Problem." All students and young people are invited.

WHILE BURNS ROAMS

By Robert Burns

REO RITA

(Or did you ever see a dream walking?)

Spring is just the thrilling time of the year for Rita. Feverishly she counts the days until the birds return in April—the birds with their young about who come flying back to land outside her window pane and go *peep peep*, and the birds with their runabouts who likewise come flying back to land outside the window and go *beep beep*. She's wild about birds is Rita, especially the latter variety, as you can doubtless see. It must pay, because to our personal ken, she gets around more than any sweet young thing east of La Harlow which is covering a lot of turf indeed. Rita, we suppose we ought to tell you, is the co-ed who simply dotes on a man with eight cylinders in hand. Or to put the thing a trifle less delicately, Rita is a co-ed. Far be it from her to watch the Fords go by; she's right up there on the front seat and having a good time generally.

We get a delightful kick out of watching Rita's specialized technique. She makes it a point during the long winter gambol to be exceedingly clubby with as many downy-cheeked young eligibles as possible because one never knows what youthful bairn is going to drift back from spring recess with an automobile or something along that line "of his very own."

In the spring, the poet poeted, a young man's fancy, but fancy or not, if he has a convertible chariot at his command, our Rita is out to get him, and you can fancy that. He may have about as much background as the stern of an East River tug, but when he telephones the dorm and manages to spout "How's about a breeze in the country this p.m." (in spite of a rather prominent hair-flip) the chances are excellent that Rita will answer in the affirmative absolute and without benefit of heavy thinking. It somehow tickles her peculiarly feminine aplomb to be spotted whipping through town in somebody's V8 with glad rags flying. Or, more to the point, perhaps, it downright galls her to have to stand to one side and gaze while her sisters-under-the-skin go skimming by in sleek streamlined jobs and trailing clouds of something or other.

Of course the lad behind the wheel, the gee who has to stand the charges for petrol, deterioration, etc., doesn't pause to think about these things. In fact so torn up is he in the thought of what a downright lucky gent he is that he can't think of anything—which is probably just as well. Sad to relate, however, the Depression played ducks and drakes with the monumental bank accounts of a lot of the young lads' Daddies and consequently, when Junior had to give up his wagon, it wasn't very long before Rita was giving up Junior. This seems funny to us in a gold-digging sort of way.

Back in the dawn of civilization, "The Man With The Hoe" was the fair-haired boy of the ladies; the dawn cracked (decidedly) and now, it's "The Man With The Car" who gets the call. And how he gets it! The front of Balentine Hall on any Large Evening reminds us of the taxi stand outside of Grand Central, the only difference being that down there you have to pay the driver for services rendered and it makes no never mind whether you are Eleanor Roosevelt or the Toast of the Follies—up 'yar, there isn't any pay-off, at least, not in legal tender. We were warned beforehand that a "colyum" of this nature wasn't exactly the best way to go about gathering orchids. But we're like that; we never learn. Anyhow, we got the thing off without giving the slightest offense, except a possible pain in the neck.

David Brown Wins Speaking Contest

(Continued from Page One)

"If economics is the major cause of war, only by treating this cause can we have peace. To follow other paths is to treat merely the symptoms. The teacher asks for education, but education is dependent upon economics. To be effective it must be free. And it is not free, nor can it be free where capitalism has reached its climax in the fascist governments of Germany, Italy, and Japan.

"On the other hand, the politician asks for isolation, and the militarist asks for preparation. Because of the interdependence of states, the first is impossible; and since militarism is the weapon with which national economics fights, more militarism is greater armament for existing economics. Thus, both must be put aside.

"We are now at a point where we can draw our theories to their inescapable conclusion. Capitalism in the past has afforded us benefit; but to think that it can do so forever is fallacious. In its place we must create an intelligent internationalism. Only when production for use on an international basis replaces the selfish monopolistic tendencies of today can we have security and peace."

An overdose of vitamin D can be fatal, in the opinion of University of California experts.

Dean Corbett Is Sworn in as Dog-Catcher

Photo by Cabene

By Walton Grundy

Over one hundred students and faculty members attended the April meeting of the Agricultural Club held Wednesday evening, April 22, in Winslow Hall. The feature of the evening was the mock town meeting, a climax to the demonstrations of parliamentary procedure which have been presented at previous meetings by Fred R. Loring, the director of short courses.

Following the adjournment of a brief business meeting, the town meeting of Agriculture commenced. The warrant was read by Clyde Higgins, acting clerk. Fred Loring was elected moderator and Leigh Plaisted, clerk. The Socialistic-Townsend party succeeded in electing their candidates to office. "Generous" George Findlen, "the little man for the big job," was elected third selectman for

Maine Masque Announces Pledges for This Season

The pledges and associate members of the Maine Masque for this year were announced by Bettina Sullivan, secretary of the Masque, at the showing of Berkeley Square last night.

Those elected from both stage crews and casts are the following:

Clark Kuney, Neil Sawyer, Rachel Fowles, Paul Woods, Wallace Gleason, Elizabeth Philbrook, Faith Folger, Frances Austin, Robert Cail, Parker Troland, Donald Haskell, Elmer Crowley, Althea Millett, Norma Lueders, Eleanor Delaney, Geneva Epstein, Louis Thibodeau, Donald Kelley, Phyllis Porter, Frances Smith, Ruth Kimball, Evelyn Adriance, Marion Hatch, Howard Crafts, and Helen Buker.

Associate members: Bernice Hamilton, Lucille Epstein, Mary Archibald, John DeLong, Robert Hussey, Howard Goodwin, Faith Shesong, Harold Young, Frank Clarke, Barbara Jones, Winifred Lamb, Mary Leighton, Barbara Whitledge, Cora Sharon, Barbara Brown, Emily Elmore, Lucille Rankin, Miriam Hilton, Foster Higgins, Ralph Higgins, Catharine Rowe and Mary Bearce.

Well turned out

To acquire a gay, easy feeling of nonchalance, it is necessary to know that you are well turned out. . . .

Before your next formal, call on the Arrow dealer and request an Arrow dress shirt, collar, tie, and handkerchief, and be assured of authentic, correct style to the last detail.

ARROW SHIRTS and TIES

the town of Agriculture. Dean L. S. Corbett, "the animal man for the animal job," received the office of dogcatcher. The unsuccessful candidates were: Republicans, "Durable" Dana Drew and "Honest" Howe Hall; Democrats, "Tom" Barker and Professor Maurice Jones. Order was maintained by town constable Dean Arthur L. Deering with the able assistance of his deputy, President Arthur

This meeting was the best attended of the year. The program of a mock town meeting, which had been preceded by a week of vigorous campaigning by the respective candidates, was enthusiastically received by students and faculty alike as was indicated by their active participation in the program.

A. Hauck.

Two deputation teams were sent out by the M.C.A., one to East Boothbay and one to Sangerville, Sunday, April 26.

The team that went to Sangerville consisted of Josephine Profita, Ross Newcomb, Lucinda Rich, and Chester Smith. Services were held at East Sangerville and East Dover. "Peace Sentiment in College" and "Vocational Guidance" were the topics used. Miss Profita furnished special music.

Howard Goodwin, Gwendolyn Baker, Beulah Fitch, Harold Taylor, and Francis Bradbury comprised the team sent to East Boothbay. Different phases of Kagawa and his work in Japan furnished subject matter for the services.

Foreign films have been made a regular part of Amherst language courses.

Dr. W. T. Foster To Speak Before Commencement

The Commencement speaker for the exercises at the University of Maine, Monday, June 8, will be Dr. William Trufant Foster, director of the Pollak Foundation for Economic Research, according to an announcement made today by President Arthur A. Hauck.

Dr. Foster was born in Boston, January 18, 1879; received his A.B. degree from Harvard University in 1901, his A.M. from the same institution in 1904, and his Ph.D. degree from Columbia University in 1911. He has been granted Doctor of Law degrees from Colorado College and Western Reserve University. He married Miss Bessie Lucile Russell, of Lewiston, Maine, and has four children.

He has taught at Bates College, Bowdoin College, Harvard University, and Columbia University, and was president of Reed College, Portland, Oregon, from 1910 to 1920. He is a fellow of the American Association for the Advancement of Science, a member of Phi Delta Kappa, and of the Harvard Clubs of Boston and New York.

Dr. Foster is the author of many books, including "Essentials of Exposition and Argument" and "Should Students Study," and is a regular contributor to newspapers and magazines. The subject of his Commencement address here will be announced later.

Coach Jenkins Expresses Optimism Concerning Maine's Chances

Harold L. Webb

A prediction that Maine might possibly win by one point came from Coach Chester A. Jenkins in forecasting the results of the track meet with M. I. T. at Cambridge, Mass., Saturday. "And that is giving us a point in the half and quarter mile, which seems hardly probable," the Bruin coach states.

In an endeavor to strengthen the team for Saturday, Jenkins will switch Fuller to the half. The former Deering runner was tried out in the mile last week and failed to come up to expectations, indicating that the distance was a bit too long.

M. I. T. presents several outstanding performers that will cause no end of trouble for the Maine men. Headed by blond Stan Johnson, the engineers placed fourth in the Greater Boston intercollegiate meet last Saturday at the Harvard Stadium. Johnson is the top ranking broad jumper in the East, being a consistent 23 foot jumper. He set a new record Saturday of 23 feet 7 1/2 inches. Besides this event, the Tech star is an excellent hurdler. While Maine's Johnny Gowell should take the high jump, he will be hard pushed in the low.

In the sprints, Murray and Huff will have Nygarde as their chief opponent, with Murray a slight favorite to cop. The former Morse High sprinter looked very good against Springfield and appears in for a highly successful season.

Maine will offer Hurwitz in the quarter mile. The opposition will come from McLellan who ran second in the Harvard Meet Saturday. The dual between these two ace quarter milers promises to be a good one.

In the half mile and mile runs, Maine has nothing in the way of competition to offer their hosts. Whatever Coach Jenkins can pull from his sleeve seems hardly potent enough to do much damage. A scorching race is on the card in the two mile, however, with Hunnewell, of Maine, and Guerke, of M. I. T., as chief performers.

The remaining events are fairly well split. Should things go according to schedule, Maine should take the javelin, hammer, and high jump, with M. I. T. winning the broad jump, discus, and possibly the shot.

BASEBALL BUNTS

Bill Saltzman

Although sixteen members are away on the New England trip with Coach Bill Kenyon, the remainder of the varsity baseball squad will still have their daily dozen. Bill Wells, the Frosh mentor, is to hold the reins during Kenyon's absence.

The Maine diamond, considered by many as the best in New England and certainly the peer of Maine fields, is in perfect shape. In fact, in such good condition that Dave Brown, intrepid and ambitious journalist, undertook to examine the turf himself. While he was strolling in the outer garden, a batted fly struck him on the back. Brown immediately forgot the condition of the field and retraced his steps to the bench where he viewed the rest of the day's proceedings beside Kenyon.

Many of the baseball players on the varsity squad played ball with real fast teams last summer. Hal Woodbury covered first base for the Fro-Joy nine in Portland; Hal Grodinsky filled the short-stop post on the Trenton club of the Eastern Maine League; Clarence Keegan, Frank Tapley, and Phil Rogers were leading men on the A.C.I. team that copped the Aroostook League; Gus McLaughlin played on an Aroostook League outfit; Alton Bell and Ernie Reidman were stars on shoe factory teams; Frankie Burke captained the Hose Five Associate team, champions of Bangor; and Carl Golding was a second base man on the Milo team of the Eastern Maine League.

Arts College Adopts New Honors (Continued from Page One)

2. Q.—How may a student qualify for Honors Work?

A.—In general an average of B in the first two years will be required. Candidates, however, will not be accepted or rejected automatically on this basis. Acceptance or rejection will be determined by the Dean, acting in conjunction with the Committee on Honors Work. A list of students eligible for this work will be prepared prior to advance registration for the fall semester.

3. Q.—What courses will be considered especially suitable as preparation for Honors Work?

A.—The two courses to be strongly recommended will be the Freshman Tutorial Course of two hours credit in the second semester of the freshman year, and General Reading of three hours credit in either semester of the sophomore year. The latter course is to be created. Its

Maine Team Defeats Springfield Trackmen

The University of Maine Track Team successfully opened its 1936 outdoor season Saturday afternoon, by defeating Springfield College, 80-55, on Alumni Field. Taking a commanding lead from the very beginning, the Jenkins cohorts were never seriously threatened.

Despite the rather overwhelming defeat administered to the Massachusetts institution, the caliber of both teams was not so far apart as the score might indicate. Although Maine collected 11 first places, the Bears were able to make but one clean sweep—in the two mile run. The remaining 14 events were hotly contested.

The feature event of the day was the javelin throw in which Al Bell, of Denysville, Maine Junior, shattered the State record of 195 feet 10 inches for the javelin with a heave of 197 feet 2 1/4 inches. The feat was accomplished despite the fact that a cold wind was sweeping across the athletic field.

Johnny Gowell, entering his first outdoor season as a member of the Pale Blue varsity squad, continued his sparkling performances of the indoor season by capturing first places in the 120-high and 220-low hurdles and a second in the broad jump to win individual high scoring honors of the day with a total of 13 points.

The summary:

120 yard high hurdles: Won by Gowell, Maine; second, Noble, Springfield; third, Ellis, Springfield. Time, 16 sec.

100 yard dash: Won by Murray, Maine; second, Huff, Maine; third, Walmsley, Springfield. Time, 10 sec.

Mile run: Won by Dattola, Springfield; second, Smith, Maine; third, Fuller, Me. Time, 4 mins. 42 1-5 sec.

440 yard dash: Won by Hurwitz, Me.; second, Boyden, Springfield; third, Slikus, Springfield. Time 52 and 1-5 sec.

Two mile run: Won by Hunnewell, Maine; second, tie between Clifford and Ohler, both of Maine. Time, 0 mins. 10 1-5 sec.

880 yard run: Won by Dattola, Springfield; second, Suitor, Springfield; third, Haggett, Maine. Time, 2 min. 3 sec.

220 yard low hurdles: Won by Gowell, Maine; second, Boyden, Springfield; third, Plumb, Springfield. Time, 25 4-5 sec.

220 yard dash: Won by Murray, Maine; second, Huff, Maine; third, Nelson, Springfield. Time, 22 1-5 sec.

High jump: Won by Turner, Springfield; second, Webb and K. Ireland, both of Maine. Height, 6 ft.

Discus: Won by Frame, Maine; second, Candy, Springfield; third, Harvey, Maine. Distance, 128 feet 3/4 in.

Javelin: Won by Bell, Maine; second, Raymond, Springfield; third, Sherry, Maine. Distance, 197 ft. 1/4 in. (New state record.)

Shot put: Won by R. Ireland, Maine; second, Walmsley, Springfield; third, Frame, Maine. Distance, 41 ft. 1 3-8 in.

Pole vault: Won by Hardison, Maine; second, Hawkes, Springfield; third, Gould, Springfield. Height, 11 ft. 6 in.

Broad jump: Won by Turner, Springfield; second, Gowell, Maine; third, Russell, Springfield. Distance, 22 ft. 9/4 in.

Hammer: Won by Frame, Maine; second, Allen, Springfield; third, Raimo, Springfield. Distance, 154 ft. 11 in.

Freshman Track Squad Wins In Meet with Deering High

The Maine Freshman track team opened its spring schedule Saturday by defeating Deering high school in a dual meet, 81-45.

The Higgins twins and Dyer and Smith, weight men, provided the power by which the Frosh were able to overwhelm their visiting rivals. Allen, Lee, Hoy, and Flaherty were the major point winners for Deering.

Neil Allen, of Deering, a brother of Charlie Allen, brilliant Bowdoin hurdler of several years ago, won the opening event of the afternoon, the 100 yard high hurdles, placed second in the 220 yard low hurdles and secured thirds in both the broad and high jumps.

In the 440 yard dash, won by Hoy of the visitors, Gammon, Deering's outstanding entrant, fell less than 150 yards from the tape while he was in second place, but recovered in time to finish fourth, pressing the leaders.

Flaherty, of Deering, won the hammer event with a brilliant toss of 169 feet, 1/2 inch, only four inches ahead of Smith, of Maine in second.

purpose will be to acquaint the student with some of the great books of the world.

4. Q.—Of what will the Honors Work proper consist?

A.—The Honors Work proper will consist of Tutorial Honors and Major Honors. The purpose of the Major Honors course will be to enable the student to make an intensive study of some special subject within his major field and will be conducted by the tutorial method. The major requirement of the course will be a thesis embodying the results of the student's investigation of his special subject.

5. Q.—How will Honors be awarded?

A.—Honors will be awarded by the faculty of the college, acting upon the recommendation of the Dean and the Committee on Honors Work. The Honors will be awarded in three grades—Honors, High Honors, and Highest Honors—and will so be entered on the student's diploma and the Commencement program.

6. Q.—Will the student obtain credit for his work in Honors Courses?

Baseball Squad Goes On N. England Trek

The University of Maine baseball squad, numbering sixteen men, left Tuesday afternoon on its annual New England trek. On Wednesday the team played Brown University at Providence. Rhode Island, Northeastern, and Bates follow on successive days.

The highlight of the tour will be the Bates game, the first state series contest for both teams, to be held this Saturday at Lewiston. While Kenyon regards the out of state meles as merely practice sessions, he is determined that his team win the Bates fray.

Johnny Greene, speed ball veteran; Don Kilgour, lanky southpaw; Ernie Reidman, a very promising sophomore; Billy Haskell, another newcomer; and Lefty Shea, portside second year man, are the pitchers who are making the trip. Greene and Kilgour are veterans of last year, while the remaining trio are seeing their first taste of varsity intercollegiate play.

Hal Woodbury, at the initial sack, Hal Grodinsky, second base, Frank Tapley, short-stop, and Dwight Lord, hot corner, round up the infield that is seeing service. Roddie Elliott is listed as a utility infielder, but also plays the outfield if necessary.

In the outfield are Alton Bell, Clarence Keegan, Phil Rogers, and Myron Collette. The latter is also a capable infielder.

Dick Braley, stocky junior, and Ken Pruett, a senior, represent the back-stopping crew. Grodinsky, however, will also catch if necessary.

Maine Racqueteers To Engage Bates, Bowdoin in Competition

The University of Maine tennis team is to leave the campus this weekend to engage in competition with Bates College at Lewiston on May 2 and with Bowdoin College at Brunswick on May 4.

Those to make the trip will be chosen by Coach George W. Small from the men who made the practice trip in New England last weekend. They are Leslie Brookes, Edward Perkins, Charlie Buck, William Veague, Hale Lull, George Hitchings, Charlie Holbrook, and Elmer Lippa. Darrell Currie and Clarence Place, who were prevented from making the New England trip because of sickness, are also expected to be in a challenging position for places on the team.

"The spring training trip," Dr. Small said, "has put the boys in much better shape than in any preceding year, and I think we shall make the practice trip a regular affair."

On the last practice trip Maine played Rhode Island State and Massachusetts Institute of Technology.

Tech Notes

Mr. Fred V. Overlock, U. of M. '32, of the Maine State Planning Board, was a visitor on the campus April 13 and 14. Mr. Overlock, in cooperation with E. H. Sprague, professor of Sanitary Engineering, is organizing a statewide conference of people interested in the subject of waste disposal and water pollution. This conference will be held May 22, in the Little Theatre on the University of Maine campus.

A request has been received from the

Professor E. H. Sprague, 21 Wingate Hall, has received from Mr. J. Edgar Hoover, U. S. Dept. of Justice, Washington, D. C., fingerprint blanks for the civilian fingerprint records. These cards may be filled out at the option of anyone interested and will be forwarded to Washington to be entered in the civilian file, in which there are now about 4,000,000 cards on file. The value of this service would be evident in case of loss of memory, mutilation in fire, accident, and drowning. The civilian cards are kept in a file by themselves and have no connection whatever with fingerprints of criminals. The city of Berkeley, California, through the efforts of its mayor and an interested committee, have obtained the fingerprints of every citizen in the city and sent them to the civilian file at Washington.

Rollins College, Florida, is the latest to give President Franklin D. Roosevelt an honorary degree.

A.—Yes. The Tutorial Honors Course will give two hours credit and the Major Honors Course will give three hours credit for each semester for two semesters. This may be applied toward graduation. Honors Students are not expected to do more work, but better work.

Luckies
a light smoke

OF RICH, RIPE-BODIED TOBACCO—"IT'S TOASTED"

Luckies are less acid

Excess of Acidity of Other Popular Brands Over Lucky Strike Cigarettes

PROPER AGING

Tobacco in its natural state is harsh and strong. Though "cured" by the grower before sale, it is unsuited for use without further aging. During this aging period (which ranges in the case of Lucky Strike from 1 1/2 to 3 years) important changes occur. These "Nature" changes result in the partial "smoothing out" of the original harsh qualities of the leaf. Our process of manufacture carries these improvements many steps further—as every Lucky Strike Cigarette exemplifies: A Light Smoke of rich, ripe-bodied tobacco.

LUCKIES ARE LESS ACID!

Recent chemical tests show* that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.

*RESULTS VERIFIED BY INDEPENDENT CHEMICAL LABORATORIES AND RESEARCH GROUPS

Dr. Bradshaw Speaks At Junior Assembly

Dr. Marion Bradshaw, of the Bangor Theological Seminary, addressed the student body at the Junior Week Assembly held last Friday at 9:30 p.m. in the Memorial Gymnasium.

The Assembly opened with an invocation by the class chaplain, Howard Stagg. Burleigh Roderick, president of the Junior class, then spoke on the subject: "The University of Tomorrow in Comparison with the University of Today." Following this address, Roderick introduced Dr. Bradshaw, who spoke on the subject, "Wise Men of the East." Dr. Bradshaw has just returned from a year's study and travel in the East, and spoke of some of his talks with the philosophers of the Orient.

The University of Maine Band played at the Assembly under the direction of Charles Jacques.

Lambda Chi Alpha Entertains At Vic Party Held Saturday

Lambda Chi Alpha held a victrola party Saturday night. Mrs. Mae MacDonough and Mr. and Mrs. Frank Chadwick chaperoned.

Those present were: Leonard Shaw; Dorothy Craig, Frank Doe; Alice Crowell, Harold Lord; Dorothy Davis, Ernest Dinsmore; Frances Austin, Donald Washington; Margaret Avery, John Getchell; June Clement, Harold Boardman; Marion Roberts, Robert Ohler; Barbara Harlow, Emery Wescott; Beatrice Louise Hodgkins, Thomas Shannon; Margaret Snow, David Wellman; Anita Miller, Charles MacLean; Julia Moynihan, Karl Larsen; Ruth Lewis, Ira Dole; Betty Drummond, Wallace Gleason; Charlotte O'Keefe, Craig Cameron; Josephine Profita, Robert Cameron; Kay

Johnson, Darrell Jordan; June King, Edward Merrill; Harriet Stewart, Thomas Reed; Gladys Babbitt, George Trimble.

Colvin Entertains at Dinner, Program by Students Follows

Colvin Hall held a formal dinner last Thursday at 6 o'clock. The tables were attractively decorated with spring bouquets. Frances King, president of Colvin, introduced Elizabeth Schiro, who acted as toastmistress. A few of the guests were called upon for brief impromptu speeches. After dinner a short program was presented. Marion Hatch played a cello solo, Bernice Hamilton gave a reading, Hilda Scott an acrobatic dance, and Faith Shesong a song. Georgia Fuller and Evelyn Adriance were accompanists. The guests were President and Mrs. Arthur Hauck, Dean and Mrs. Hart, Dean

and Mrs. Muilenburg, Dean and Mrs. Lutes, Dean Edith Wilson, James Gannett, Mrs. Hayes, and Miss Cope.

Tri-Delta Sorority Entertains At Pansy Breakfast at Ledges

Delta Delta Delta sorority held its traditional pansy breakfast Sunday morning, April 26, at the Ledges. The breakfast was sponsored by the initiates in honor of the Senior members. Margaret Hinkley acted as chairman. The Seniors were presented with attractive yellow and purple pansies. The traditional procedure was followed of serving as part of the breakfast strawberries, cucumbers, and tomatoes. The patrons were Professor and Mrs. Chadbourne and Mr. and Mrs. James Moreland.

Sackett's Orchestra Plays at Junior Prom

Nearly three hundred couples danced to the music of Reggie Sackett and his orchestra at the Junior Prom held in the Memorial Gymnasium Friday evening. In the front of the gymnasium was the green and white 1937 banner on a green and white striped background. Colored lights in each corner furnished illumination. Many new spring formals were in evidence. The dance programs were a novel feature, displaying a reproduction of the Memorial Gymnasium.

President and Mrs. Arthur A. Hauck, Dean and Mrs. Paul Cloke, Dean and Mrs. A. L. Deering, Dean and Mrs. L. S. Corbett, and Mr. and Mrs. E. H. Kelley were the patrons and patronesses, while Professor and Mrs. Paul Bray and Pro-

fessor and Mrs. Stanley M. Wallace were the chaperons.

The committee in charge included Edwin Bates, chairman, James Morrison, Katherine Bunker, Barbara Bertels, and John Bennett.

Contributors' Club Chooses New Officers in Sunday Elections

The Contributors' Club met Sunday evening, April 26, in the English Seminar Room, Stevens Hall, to elect officers for next year. They are: President, Jane Stillman; vice president, Celia Cohen; secretary, Carolyn Brown; treasurer, George Weatherbee; executive committee, Charlotte Davis, Rose Snider, Jane Stillman, and Donald Stewart were appointed to consult with Dr. Ellis concerning plans for next year.
