# Report of Auditor for 1937

---

Houlton, Maine  
August 1, 1939.

To the Board of Selectmen  
Town of Madawaska.

In accordance with Chapter 216 of the Public Laws of Maine in 1937, I have audited the books of the Selectmen, Treasurer and Tax Collector for the fiscal year ending March 1st, 1938.

No evidence was found of any official audit having been made since the State Uniform System of Municipal Accounts was installed March 1st, 1927. Therefore I have verified and prepared Comparative Balance Sheets of both the Town and Water Department books as of March 1st, 1938 showing the change in each as result of the audit together with an analysis of the Debt and Surplus accounts.

To the best of my knowledge and belief the Balance Sheet herewith presented reveals the true financial condition of the Town at the close of the fiscal year. The Town Clerk's records were found to be in excellent condition, since taking office he has prepared a card record of all Mortgages which gives instantaneous access to any information required and is available to any person interested. He has in addition to the above indexed all birth records back as far as 1871.

The only criticism to be made on this office is the absence of any fire protection for these valuable records. The Statute specifically provides that they must be protected and under the present method should any Mortgagee suffer a loss due to the absent availability of records the Town would become liable for such loss. I would recommend that steps be taken to provide adequate safe protection for the records of this office.

The Selectmen's books have been well kept, with the exception that no Capital Accounts have been set up only the appropriation and Tax Collector's accounts appearing

---

I have now spread upon these records all of the Capital Accounts shown in the Balance Sheet making them a complete double entry set of books.

The Treasurer's records have been exceptionally well kept and his cash on hand reconciles with the Bank Statement. All money received having been deposited before the books closed.

The Tax Collector's unpaid taxes equal their respective accounts due the town. No verification of unpaid taxes has been made other than preparing a list to support the account.

It has been necessary to install a complete new system for the Water Department to meet the requirements of the Public Utilities Commission effective January 1, 1938.

W. FRANK GARDINER,

Public Accountant and Auditor.

Houlton, Maine.  
February 25, 1939.

To the Board of Selectmen,  
Madawaska, Maine.

Having been officially appointed Auditor for your town for the current year I herewith submit my report.

I have audited the books of the Selectmen, Treasurer's and Tax Collectors' for the year ending February 25, 1939 and find them correct. All records have been well kept, and the audit was completed in record time.

The Selectmen's Ledger was found to be in balance, all disbursements were properly authorized by the board bearing their signatures. Bills and vouchers are on file to support each expenditure.

The Treasurer's cash balance on hand reconciles with his two bank statements. All receipts having been deposited before the books closed.

The Tax Collector's unpaid taxes equal his account with the town.

To the best of my knowledge and belief all transactions have been properly recorded and the foregoing Balance Sheet reveals the true financial condition of the town at the close of the year.

W. FRANK GARDINER, Auditor.

### AUDITOR'S REPORT

Houlton, Maine  
February 25, 1939

To the Board of Trustees

of the Madawaska Water Department

I have audited the accounts of the Madawaska Water Co. for the year ending December 31, 1938.

I have prepared the following schedules: Receipts and Disbursements, Income and Expense, and Comparative Balance Sheets with analysis of Debt.

The revenue this year is reported on an earned basis, all cash received being credited to Accounts Receivable.

Included in the additions to plant during the year is a contribution from the Federal Government amounting to \$2,766.01, this has been added to plant and set up in Bal-

---

ance Sheet as contributions to construction with others, as required by the new classification as prescribed by the Public Utilities Commission.

The statistical record of this department since origin appears in the front of this report as a result of the audit for 1937, and shows a very rapid growth with increased earnings each year.

I would recommend that the corporate status of the department be reinstated and stock issued to the inhabitants of the town of Madawaska in an amount to represent the town's investments in the plant and that the Board of Trustees be changed to a Board of Directors consisting of five instead of three.

This is the customary form of management employed by most all municipally owned utilities.

W. FRANK GARDINER, Auditor.
