Love Data Week Event Series

Raymond H. Fogler Library • Live via Zoom

Love Data Week is a week-long international celebration of data, dedicated to raising awareness of the importance of research data management, security, sharing, and preservation. This year's theme is [My Kind of Data](). Join us for an exciting series of free events on practical tips and resources for everyone. Whether you're working on qualitative or quantitative data, we've got events for you! All members of the Maine community are welcome to attend. If you would like to host an event, please email um.arcsim@maine.edu.

List of ARCSIM Events:

(1) Managing Your Code: Introduction to Git and Github – Monday 2/12, 2:00pm – 3:00pm

(2) The Sewall Co. Aerial Photographs Collection – Tuesday 2/13, 1:00pm – 2:00pm

(3) Data Security Best Practices – Thursday 2/15, 1:00pm – 2:00pm

(4) Introduction to Containers: Creating Reproducible, Scalable, and Portable Workflows – Friday 2/16, 1:00pm – 2:00pm

To register, please visit the ARCSIM
Love Data Week website for more details.
