**Boys and Girls Have Opportunity for Winter Sports**

The University of Maine athletic authorities have decided to have an indoor hockey team. It was deemed advisable to make the sport a major event this winter. If the sport proves to be a success this season, it would be possible to have a team of Maine have a varsity indoor hockey team next year. The sport will be managed by the Athletic Council, and the managers of the four classes.

Aift the Maine men have already been through the Little River and a large squad of boys are reporting for practice. It is impossible to predict the strength of the team at this time. A number of players who are on the hockey team are not expected to be available for the games because of the considerable number of men connected with the various activities of the school, but the chances of the university being successful are good."

**Boxing at Maine is Rapidly Coming to the Front**

At the recent convention of the A. A. U. B. A. at New York City, the meeting went on record as favoring the development of boxing. If this is carried out in this section of the country, Maine should be well prepared to hold her own in this branch of sport.

The first call for boxing candidates was issued on Wednesday and a large number of men have volunteered for the coming season. The tournament will be conducted with the cooperation of the Intra-Mural Athletic Association with Mr. Baldwin in charge of the sport. The campus who were champions of the state in every any indication, the gym will be used. Each bout will consist of four rounds of two minutes each.

Training will start in earnest on Monday, Jan. 19, at 8 a.m. Weekly bouts will be held until the championship of each class is decided. The champion of each class will receive a belt. According to the present indications, the largest number of champions will be quite a collection. The tournament will be held on the Maine campus who were champions of the state in every any indication, the gym will be used. Each bout will consist of four rounds of two minutes each.

**Weekly Bouts are to be Held and Medals Will be Awarded the Champions**

particularly the character of sportsmanship, in short the EUSEX of the individual athlete.

There has been some little comment by certain of our readers in regard to this nature, or in other words, talk back to an official is permissible to the extent of disqualification. It is quite univers- ally recognized that a good sportsman will not appeal to a judgment or final (except in a case where the inter- pretation of a rule is in question) and will refrain from any remarks that might reflect upon his team or thereby jeopardize their chance of winning.

It seems to me that good sportsman- ship is demonstrated by the team that, even defeat, can all in its way come forward with a cheer for the winning team, a courtesy that it is easy for the winning team to cheer the lost, but the real test is to see if the loser will cheer the winner. This par- ticular question has been well handled, but it seems to me that this type of cheer that exists and should al- ways exist in inter-Mural sports as well as varsity athletics.

It is my desire that at the close of this inter-Mural athletic season, that each organization represented may truly say "That was a fine sea- son, we did our best and the BEST TEAM won.")

Mr. Rider Expresses Opinions of Basketball

"To clear up certain notions that have been in circulation," Mr. Rider was asked to state his opinion of the Theta Chi-Phi Kappa Sigma basketball game.

If there is no fair management, a very interesting and closely contested series of basketball games is on the way. Since the beginning of these games it has been interesting and in many respects amusing to note the comments made relative to the basketball and by the officials of the games. It is most certain that all of us may come to the feeling of an official in a basketball game are not always of the most peace- ful nature, but that the players de- serve from the game is determined solely by the spirit in which the contesting teams accept his decisions. It is the opinion of the official of the game. Thus it is quite evident that one man may call a foul on a player while another will call it. It is private that it is the official that is in charge of the game.

Mr. William Baldwin and I agreed that the last game of Theta Chi-Phi Kappa Sigma was quite a game from the field. of course, the most important thing is to make sure that the official does his job. That is what makes a basketball game exciting. The next game I am quite sure will be a very interesting and closely contested game. I am also quite certain that there will be a lot of good basketball played and it will be up to the officials to make sure that the game is played fairly.

Last League Talk Is Great Success

The last of the opportunities of basketball on the Leagues of Nations was held last Saturday evening at the Cumberland Union, which was quite a game.

The object of the League is to secure peace; instead, it will make the situation worse. Therefore, it is quite reasonable to believe that the League is going to be a success, and it is to be hoped that it will be. The last game was quite a success, and it is to be hoped that it will be the same next year.

The final examination for the fall semester are not a short time distant. To the freshmen they represent their first encounter with a formal examination system. It is very important that they be prepared for these examinations and the students in the grading scheme. Many a time a good commen-

Mr. Drashworth Speaks in Chapel on Thrift

Friday morning in chapel, Mr. Drash- worth, of the Economics department, delivered the sermon. His topic was "Thrifty," he said, "means good management of property; good management, saving is a necessary factor. For thrifty people are more likely to be successful in the present, for future needs and a better future. Good management is well carried out when thrift is practiced and understood and practiced in manhood and womanhood. Thrifty should be the watchword of every one of us. Financial matters should be handled at all times to be thrifty, but not at all times to be cheap. Thrift is a very real thing and a convenient plan, with no power to act, might be purely unbiased and impar- tial, if this is accomplished we may start in our work next year with one great handicap removed.

THAT the relay team is progressing in great style. There is plenty of good material and the team is going to be a good team.

THAT the V. C. A. is going to put on a show on Thursday night. The admission prices are reasonable and the coaches should make an effort to see the show. It will be in Saturday night.

THAT the students women as well as men should attend the inter- mural basketball games.

When the United States went into the war, he was mustered out June 11.

But upon the success of the team as a whole, thus. If Maine is successful in victory at B. A. A., each member of the team will receive his letter. This is the third time the award was the joint purpose of adding incentive to the players and to the result of the value of the letter to its recipient, and the letter of the honor roll of the team, the players. The team will be greatly strength-ened by the presence of the "Hop" Pratt and Roger Castle, the only men from Maine to win the honor roll this season. Among the prominent material who are expected to have a fine time is a good one for the season are McBride, recently returned from the University of Maine's absence. Pichaud, who was a substitute on last year's team; Simmons, Lawrence, McMillan, Xolab, Tiernan, and others who have gained fame as athletes in the Wildcats, is a distinct addition to the picture. The pictures include not only those of the "Misleading Widow," but all of those who were engaged in warfare, of which there were several.
