Rhode Island State Is Defeated 38-23

The Game Was One of the Fastest and Cleanest Games of the Season. Capt. Coady, Holmes, and Berg Starred.

After a neck to neck race throughout a period and a half the Maine five by superior passing and teamwork defeated the Rhode Island State five by the score of 38-23. The game was one of the fastest and cleanest that has been played at the gym this season. The number of fouls called was less than usual in a game played under amateur rules. On account of the wreck at Newport the Rhode Island team did not make an appearance until four-fifteen. Dancing was enjoyed before and after the game.

The Maine team went on the floor without Dresser and Rice both of whom have been lost on account of scholastic difficulties. However, the new combination, Turner at center, Berg at guard, and Holmes at right forward, showed good passing and clever teamwork.

Capt. Coady, Holmes and Berg starred for Maine and Capt. Dunn and Haslam featured for Rhode Island. Rhode Island also had a fine player in their right forward, Treolet, a man who stood well over six feet.

THE GAME

The first score was made by Dunn who made a basket from the center of the floor. Coady made the first two points for Maine by caging a long shot. Several technical fouls were called on both teams but Berg and Haslam both failed to cage the ball. Haslam shot a basket. By a long pass Hill to Treolet Rhode Island succeeded in adding two more points. For the remainder of the period the Maine five had the edge on the Kingston boys. The ball was kept in Rhode Island territory most of the time although Haslam and the rangy Treolet succeeded in getting the ball down to Maine's basket and making their work count. The period ended with Maine 14, R. I. 13.

In the second half Hudson was sent in for Chandler, Rhode Island's center, and after Hill, Rhode Island's left forward was taken out of the game, Dunn took left forward, Chandler taking Dunn's position.

Berg, on a free try made Maine's first tally. Hudson scored two points for Rhode Island on a beautiful shot from the middle of the floor. At this stage of the game both teams tied the score several times first one team scoring and then the other. The good work of Judkins, Coady, and Holmes was noticeable. Judkins played a hard game throughout.

Mechanical Society Announces Program

The following program is announced for the remainder of the spring semester by the student branch of the A. S. M. E.

- February 16
Talk by R. A. Ranger '21
March 2
Talk by Dean Boardman on "The Conservation of Water Power"
March 16
Motion Pictures—"Uses and Abuses of Twist Drills"—Cleveland Twist Drill Company
"Combining Earth's Treasures to Give Light"—National Lamp Works
April 6
Talk by Professor Weston—"Liberal Education for an Engineer"
April 20
Motion Pictures—"The Story of Coal"—The Sullivan Machine Company
May 4
Annual Election of Officers
Talk by Professor Sweetser
May 18
Outing

(Continued on Page Three)

Annual Minstrel Show To Be Held in Bangor

The annual A. A. Minstrel Show will be given at the Bangor Opera House, on the evenings of March 18 and 19. Friday night, owing to the M. C. A. entertainment on the campus, the performance will be more for the benefit of Bangor alumni, but Saturday will be especially for the student body. Tickets will be \$1.00, 75¢ and 50¢. The proceeds of the show will be used to cover expenses which the state cannot be expected to pay.

Mr. John J. Nolan, of Boston, who so ably directed last year's show, will be in charge of this year's production. Costumes will be by Ware of Boston. Mr. Nolan will first be on the campus Feb. 10, 11, and 12, and will devote the weeks of Feb. 28, and March to the development of the show. He will pick a caste of about seventy-five.

Further information may be obtained from the committee in charge: Evans B. Norcross '21, chairman; Fred Jordan '22, Emily Kritter '21, Eleanor McCusker '23, Harold P. Wood '22, and Adrian P. Ackley '23.

Mr. Carroll, manager of the Bangor Opera House has been very kind in helping make arrangements for the staging of the show.

Intra-mural Basketball Season Nearly Finished

The intramural season is soon coming to a close there being four more regular games and about six postponed games to play. The standing of the intramural season of the North and South Leagues up to February 5, shows that Sigma Nu leads with a percentage of 1.000 in the North League and Sigma Chi leads in the South League with a percentage of 1.000. The standing of the respective teams is as follows:

NORTH LEAGUE			
	Won	Lost	Percent
Sigma Nu	5	0	1.000
Commons Council	4	1	.800
Beta Theta Pi	4	1	.800
S A E	3	2	.600
Theta Chi	2	2	.500
Delta Tau Delta	1	3	.250
Kappa Sigma	0	5	.000
Lambda Delta	0	5	.000

SOUTH LEAGUE			
	Won	Lost	Percent
Sigma Chi	3	0	1.000
Phi Eta Kappa	4	1	.800
Lambda Chi Alpha	3	1	.750
Phi Gamma Delta	3	2	.600
Alpha Tau Omega	3	2	.600
Phi Kappa Sigma	1	4	.200
Phi Epsilon Pi	0	6	.000

Postponed games: Kappa Sigma vs. Delta Tau Delta; Phi Kappa Sigma vs. Sigma Chi; Theta Chi vs. Commons Council; Alpha Tau Omega vs. Sigma Chi; Lambda Chi vs. Sigma Chi; Lambda Chi vs. Phi Gam; Lambda Chi vs. Phi Eta Kappa.

TO A LITTLE HAND

Last night I held a little hand
So dainty and so sweet
I thought my heart would burst with joy
So wildly did it beat.
No other hand unto my soul
Could greater solace bring,
Than what I held last night which was
Four aces and a king.

Secretary Towner Gives Finances of Athletics

An Estimate of Athletic Department Expenses for Remainder of Year Shows Deficit of \$2,600

To disprove the statement that the Athletic Department of the University under the new method of control is rolling in wealth, that football makes money enough to carry all other sports, that gold footballs, M sweaters and other athletic trophies can be afforded, a CAMPUS reporter approached "Pep" Towner, treasurer of the Athletic Association for the facts.

"Yes," was Pep's reply, "I understand that there has been some misunderstanding regarding the financial status of the Athletic Department since the University assumed control of the athletic activities formerly financed and controlled by the Athletic Association and the Athletic Board. Mr. Grindle, the University accountant, has just placed on my desk a copy of the Receipt and Expense account for the Dept. of Physical Training from July 1, 1920 to December 31, 1920.

"I was very much interested in comparing it with the Athletic Association report of last year. In Mr. Grindle's report you will note that by diverting \$4.50 from the tuition of 1176 students this fall semester, and 19 at \$2.25 who left college the middle of the semester, that \$5,334.75 was realized. Assuming that 1100 full time students have registered for the spring semester, the income at that rate would be \$4950, giving a total from student tuition of \$10,384. Last year's report of blanket taxes sold is \$8578. Subtracting, it will be observed that the increase in student revenue over last year is \$1806."

Upon being asked where this \$1806 in increased revenue is expended the following was elucidated: "The Athletic Board has already approved a budget for baseball of \$100 in excess of last year, for track of \$1300 (not including salaries) over last year, for tennis \$125 in excess, \$50 for girls' athletics (no expenditure last year) and will be obliged to use from student tuition \$450 for coaching salaries in excess of last year. This totals \$2025 and convincingly shows that more than the \$1806 is to be expended. Basketball too will involve an expenditure of \$1000. I did not figure this in the above calculation because we hope that the sport will prove self-sustaining."

"You will notice that last year the University, from its general funds, contributed \$3500, or 61%, toward the coaching salaries, the Athletic Association expending \$2250 or 39%. This is a total of \$5750. This year a total of \$8383.68 will be expended for this purpose. \$2700, or 32%, is diverted from student tuition fees and \$5683.68, or 68%, from the general University funds. The University therefore is not only increasing its financial assistance by over \$2000 but it is assuming a slightly larger per cent of the total salary expense.

"Mr. Grindle's report shows a deficit of \$2608.36 because the receipts from gate, guarantees, and student tuition only are shown. Inasmuch as the University has agreed to take care of 68% of the salary expense, and this amount is not shown as a receipt, a deficit up to this amount is allowable.

"To balance the account for January, the January salary expense of \$708.32 must be added to the expenditures. This increases the deficit to \$3316.68. To offset this deficit \$2841.84 from general University funds as I explained will be available. This will leave a net deficit of \$474.84.

"To clarify my own mind I've made an estimated Receipt and Expense account for the second semester. It clearly convinces me, as I am sure that it must you, that the Athletic Department cannot meet the many non-essential requests which come for funds."

RECEIPTS

Student Tuition 2nd Semester
(1100 @ \$4.50) \$4950.00
Baseball—guarantees and gate

Maine Relay Team Wins in B. A. A. Meet

Tufts and Bates Were Easily Defeated with Slow Time. Lawrence Caused Sensation Opening Up 30-Yard Lead.

Military Department Fair a Great Success

On Saturday evening, February 5 the Reserve Officers Training Corps, together with the Veterans of Foreign Wars, gave a county fair in Alumni Hall. The fair, which drew a very large crowd, was given for the benefit of the Red Cross. The chapel was made into a realistic midway. In the gymnasium were to be found side shows of all kinds and descriptions, including tigers, elephants, siberian grave diggers, fortune tellers, and dancing girls.

An added attraction was the vaudeville show which drew the people from the side shows for a half hour. During this time the audience was entertained by song hits and various selections. Dancing was announced after the show and everyone adjourned to the gym to dance until midnight.

The committee in charge was composed of "Whitie" Whitehouse '21; "Gene" Sullivan '21; "Nick" Nickerson '22; "Har" Dennison '22; R. A. Getchell '23; and "Joe" Leach '23.

Plans for Sophomore Hop Nearly Complete

On the evening of February 21, the Sophomore Hop will take place in the gymnasium. The live wire chairman, "Jerry" Dunn and his hop committee have all the details in hand, and they are planning to make this affair one of the best in years. Barring none other than the Junior Prom, this affair is one of the most formal dances held here on the campus during the college year. The dance is limited only to sophomores, upper classmen and their escorts. The freshmen are not allowed for they have a hop of their own at a later date in the year. The custom in the past has been that the freshmen hold their banquet on the same night as the Sophomore Hop. Fellows, don't forget the date, Monday, February 21.

The decorations for the Hop are to be exquisite and the gym will be transformed into a grand ball-room de luxe for this affair. The dance will last until one o'clock and at the close there will be a special car for Bangor.

The reception committee is as follows: President and Mrs. Aley; Dean and Mrs. Boardman; Mr. James A. Gannett; Mrs. D. Ferris Thomas.

The patronesses: Mrs. J. N. Hart, Mrs. J. S. Stevens, Mrs. L. S. Merrill, Mrs. J. H. Huddleston, Mrs. K. C. Estabrook, Mrs. Mary J. Parcher, Mrs. Ella J. Mason, Mrs. Mary W. Stuart, Miss Mary Hopkins, Mrs. Hendrickson, Miss Mary C. Perkins.

Floor Director: Kenneth F. Woodbury.

Aids: George H. Webb, David W. Hoyt, John M. Williams, Howard H. Randlette, Philip H. Stevens, Jacob M. Horne, George A. Holt, Oscar E. Norrell, R. Clifford Merrow, Early V. Litchfield, Clyde A. McKeeman, Frank P. Dobbins, Harold J. Cooney, Paul J. Leach, Louis O. Levine.

Grinnell College, Iowa, recently put on a week's campaign for "Grinnell in China," putting out special issues of their paper, "The Scarlet and Black" and raising \$7200 for the project.

Peru is to have a National Polytechnic Institute. A special committee comprising leaders from all other national institutions have the plans in charge.

Maine easily defeated Bates and Tufts in a triangular meet at the B. A. A. games in Boston Saturday evening. The outcome of the race was not in doubt at any time after Ned Lawrence, Maine's lead-off man, created the biggest sensation of the meet, by greatly outdistancing his opponents.

The Maine, Bates, and Tufts relay teams lined up on the track late in the evening. At the crack of the pistol, Lawrence set a fast pace for his opponents, and after less than two laps he began to leave his opponents behind. By the time he had circled the track he had opened up a gap of thirty yards. Rock, the next runner for Maine increased the lead by 10 yards. Pratt and Castle, the last two men, easily held their own during the remainder of the race.

While Maine was greatly eclipsing her opponents, Bates and Tufts were fighting for second place. Bates finally succeeded in nosing out Tufts.

The time made in the race was comparatively slow as the Maine runners encountered very little competition throughout the entire race. It is the opinion of Maine relay followers that the team could have bettered its time by 15 seconds, had the last Maine men to run been hard pressed. The Blue team ran in fine form and exhibited as much ability as any team on the floor.

Junior Girls Champion In Interclass Games

The girls' interclass basketball tournament came to a close last week. The junior girls' basketball team won the championship with three games won and none lost. The sophomore contestants for the championship, gave the juniors a hard fight for the possession of first place, while the freshmen were snowed under by their superiors.

The members of the junior team are as follows: Misses Chase, Perkins, Norrell, Jones, Connor, Bean, and Bunker. A team of the best players will probably be picked from the four class teams to play some Normal school team, as yet undetermined. They may take a trip to one or more Normal schools here in the state. The proceeds from the dance last Friday night will go to defray the expenses for such a trip.

The standing of the girls' league at the close of the season:

	Won	Lost	Percent
Juniors	3	0	1.000
Sophomores	2	1	.666
Seniors	1	2	.333
Freshmen	0	3	.000

Military Unit Honors Governor Parkhurst

More than one hundred fifty members of the R. O. T. C. unit of the University went to Bangor, February 3, to act as a part of the military escort at the funeral of our late Governor, Parkhurst. They formed at the Union Station at 2 o'clock, and waited there until the body was moved from the train to the hearse. Then the companies marched down Exchange Street and by way of State and Hammond Streets arrived at Westmarket Square, where they took the cars which brought them back to the University.

Stricken Freshmen: (to pretty co-ed) "You are the breath of my life, Blushing Co-ed: "Oh! really? Then see how long you can hold your breath."

Editorial

"I met a student the other day," a person said recently, "and in the conversation he mentioned how restless he had been. 'Gee,' he remarked, 'I believe I'm tired of going to college. It doesn't seem to me I'm ever going to get anywhere on some of the silly subjects my course demands. I'd like to be out doing something big and real in life, not frittering away my time with formulas, notebooks, lectures and laboratory problems which people have worked on for the last decade.'"

How many of us do not at some time or times feel the same way? It would be well then to listen and think over the reply which the student received from his older friend.

He likened him to a certain young man who lived and learned many years ago. He, too, felt the repression of details and apparently useless ideas. He was always looking for "the big thing" in life, something that would be a great benefit to humanity.

Finally, one day he went to a well known Master who questioned the young man and then said to him, "If I guarantee to show you a wonderful result will you promise to do what I tell you without questions?"

"Yes."

"See! there is a long road leading out of this town on the north. Every hundred feet along that road, you dig a shallow well."

Hesitatingly, the young fellow went out and began his task. He labored with infinite toil. His limbs became weary and his body sore yet he continued and at length returned to the Master saying "Sir, the work is done, but—"

"Ah," the other interrupted, "now in each of the wells you have dug, plant a dead tree."

"But," began the listener.

"You are going to keep your promise are you not?"

The youth reserved his question and wondering exceedingly went forth once more. After a time he reported again.

"Master, the work is done, but—"

"My last order, then, is for you to take this roll of wire and these glass tumblers and tie the dead trees together. Come tomorrow and I will show you your desire."

Certainly the sage was insane; he was sending the young man on a phantom project. But dizzy and weak faithfully he followed the long road.

The next evening he stood before his demented task master. "You have carried out my instructions doubtfully but well; you have learned your lesson of patience and obedience in following those wiser than yourself. Now, come."

The old man led the younger to the top story of his house and pointed down the dark road. He pressed a small button and the black avenue was one line of jeweled lights, the wire road thrilling with electric current.

"There! there is your service to man-

kind. Now along that way there shall be neither accidents nor murders nor robberies, for you have dispelled the darkness by your labor. Henceforth shall all that journey bless you for the path of light."

"Master, I have learned, indeed, my lesson of patience and trust. No detail will ever be too small for me to learn in my work, no pride too great to keep me from following the lead of experience. I have builded better than I knew."

Can we not all in our spasms of restlessness and desire for service, take home this lesson of perseverance and confidence in trained leadership? Sometimes we know—and sometimes our teachers know.

LOOKING BACK

A YEAR AGO

Maine defeated Tufts in the B. A. A. dual relay meet Saturday evening, due to a sensational finish by Pratt, anchor man for Maine.

J. Stitt Wilson, great labor leader of the Pacific Coast, will deliver four addresses to the students this week on "Christian Democracy."

The Sophomore Hop and Freshman Banquet took place Friday evening amid great excitement caused by the abduction of several prominent members of each class.

FIVE YEARS AGO

In the state relay meet held at the B. A. A. games Saturday, Maine outran Bates and Bowdoin defeated Colby.

The finals, which were to be run between Maine and Bowdoin for the state championship, were abandoned due to an injury to Ziegler, Maine's anchor man.

Bill Allen of Maine won the shot put at the B. A. A. games, placing the pill 48 feet.

William Howard Taft, president of the United States, addressed the student body in the chapel, Friday.

An inter fraternity bowling league has been formed and a silver trophy is offered to the winner by the Bowlodrome, Bangor.

TEN YEARS AGO

Maine outran Vermont in a dual relay meet at the B. A. A. games in Boston, Saturday.

The Athletic Association gave a banquet to all football men Saturday evening.

The freshman-sophomore debate will take place Mar. 14.

Dr. Hodges, dean of Harvard Divinity School, spoke in chapel Friday, on "Heroism of Every Day Life."

"The entire object of true education is to make people not merely do the right things—but enjoy the right things—not merely industrious, but to love industry—not merely learned, but to love knowledge—not merely pure, but to love purity—not justice, but to hunger and thirst after justice."

—Ruskin

FRATERNITY NOTES

PHI EPSILON PI

The fifth anniversary banquet took place at the Bangor House, Friday evening. Edward Mack '21 was toastmaster and very spirited addresses were made by Samuel Gordon '21, Max Silverman '22, Hermie Rammer '22, Abe Cohen '23, Jack Talberth '24.

Among the alumni present were Robert Cohen '17, George Levenson '19, Michael Pilot ex-'22, Maurice Jacobs '17, Harry Broder ex-'23.

Following the banquet, the entire party adjourned to the Bijou Theatre where a very excellent performance was enjoyed.

The Freshman Smoker will take place Tuesday, Feb. 15.

PHI ETA KAPPA

Scraper Hall's visits are becoming more and more systematic.

Ma Hamlin expects to return sometime in April.

Owen, McCobb, Raymond, Ames, Young, and French spent Sunday at Mr. Geery's in Bangor.

Strouty has spoiled his record. He missed one night last week.

Congratulations are due. Frank Preti succeeded in passing his bar exams, and soon expects to locate in Portland.

Bob Wells accompanied the relay team to Boston.

Everyone wonders where Frank Ellis was last Wednesday night. He, himself, wonders where he was Thursday morning.

Don Osborne spent his usual week-end in Brewer.

John Duntun spent the week-end at his home in Farmington.

PHI KAPPA SIGMA

The annual peanut drunk with the Phi Gams came off Tuesday night and proved to be some event. From the time the Phi Gams arrived peanuts were very much in evidence, especially in the atmosphere where they were traveling at a rapid rate. Feuds developed which grew more bitter. Later card games became popular; the reader will be spared the painful details, but the result was that the boys had to eat off the mantel piece the following day.

Miss Marjorie Driscoll was a week-end visitor at the house.

LAMBDA DELTA

We are glad to see that "Stubby" Leighton, who injured his knee in a basketball game some time ago, is able to get around without his crutches.

"Red" Noyes has returned to college. "Spike" Gibbs, who has been sick recently, is again attending classes.

"Tossie" Noyes is spending some time at home as a result of injuries received in a basketball game some time ago. He reports that he will be back soon.

KAPPA SIGMA

Henry Howard and Adolph Bisson who have been spending the week-end at their homes have returned.

Harold White '15 who was the sensation of the Mandolin Club in 1913-15 will play at the big Maine time.—The Maine Hop which will be given Saturday evening at Bangor City Hall by University men.

Clyde Vining has returned from Boston.

Bob Shaw has returned from his home in Haverhill, Mass.

Professor Sprague of the Department of Music was at dinner Monday.

ALPHA OMICRON PI

"Peg" Tibbets ex-'22 was on the campus over the week-end.

Ruby Hackett '21 and Ethel Packard '22 have moved to Mt. Vernon.

PHI GAMMA DELTA

A delightful house party was held at the house on Saturday evening. Twenty-one couples were present. Mrs. Murray acted as chaperon. Refreshments of punch, cake and chocolate were served. "Andy" Blethen ex-'23 spent the week-end at the house.

"Jack" Horne spent the week-end at his home in Portland.

—M—

Dartmouth's undergraduate drive for the Memorial Field has gone over the top. A mark of \$18,000 was set, but an announcement has been made that \$18,135 has been reported, with 30 of the 183 collectives yet to be heard from. This amount, more than \$2000 over the \$16,000 minimum quota asked for, will doubtless be swelled to over the \$20,000 mark when the campaign reports are complete.—The Dartmouth.

—M—

Dr. John G. Bowman, director of the American College of Surgeons, has been chosen chancellor of the University of Pittsburgh, which duties he will assume January 1. Dr. Bowman is a graduate of the University of Iowa.

Alumni Notes

Miss Christine Northrup '19 who taught at Wells during the fall, has recently gone to Deer Isle to teach in the High School.

Professor Wm. Barrows of the electrical engineering department has announced the location of his 1920 engineering graduates as follows:

Chester N. Adams, New York Bell Telephone Company, N. Y. City; Luther N. Amos, Pennsylvania Bell Telephone Company, Harrisburg, Penn.; Frederick C. Bisbee, Pennsylvania Bell Telephone Company, Philadelphia, Penn.; Henry Butler, General Electric Company, Schenectady, N. Y.; Ira C. Craig, Great Northern Paper Company, Millinocket, Maine; Lloyd Douglas, American Telephone and Telegraph Company, Pittsburg, Penn.; Lawrence E. Deering, Western Electric Company, New York City; Wallace R. Ham, General Electric Company, Schenectady, N. Y.; Dwight M. Ingraham, Pennsylvania Bell Telephone Company, Harrisburg, Penn.; Samuel E. Jones, Western Electric Company, Boston, Mass.; Lawrence E. Merrow, General Electric Company, Schenectady, N. Y.; Silas E. Merry, American Telephone and Telegraph Company, Boston, Mass.; Albert B. Moulton, General Electric Company, Schenectady, N. Y.; Everett L. Roberts, General Electric Company, Pittsfield, Mass.; Lester R. Thurston, Pennsylvania Bell Telephone Company, Philadelphia, Penn.

NOTICES

Word has been received from Paul Nixon, Secretary of the Rhodes Scholarship for the State of Maine, that the Scholarship has been temporarily increased from £300 to £350 per annum.

—M—

Two circular alto horns have been lost from the University Band instruments. These are very badly needed by the Band and should be returned to Mr. Sprague in Wingate Hall.

—M—

Basketball game, New Hampshire State, Friday, Feb. 11, 8.00. Dance after the game.

—M—

The Common's Council Dance will be held February 12. Tickets may be secured from "My" Thurrell, 203 H. H. H.; "Unk" Underhill, 203 H. H. H. and "Chubby" Holt, 205 H. H. H.

—M—

All candidates for the Sophomore Basketball team report Thursday, Feb. 10, at 8 o'clock in the gym.

—M—

All candidates for the Freshman Basketball team report to Manager "Spike" Stevens in the gym, Thursday, Feb. 10, at 9 o'clock.

—M—

The Veterans of Foreign Wars have changed their meeting from Wednesday night to Thursday night.

—M—

The Veterans of Foreign Wars dance will be held Friday, February 25.

—M—

Programs for the Sophomore Hop to be held Feb. 21 may be obtained from "Jerry" Dunn.

—M—

Due to the efforts of the English department, subscriptions have been made by the University for four of the representative daily papers of the country. The Baltimore Sun, The Chicago News, The New York Sun, and the Philadelphia Press. These can be found daily in the newspaper room of the library.

—M—

On Thursday evening, February 10, at 6.45 an important meeting of the Economics Club will be held in room 30, Coburn Hall. Sophomores who are majoring in Economics are invited to be there at 7.15.

—M—

Wesleyan has the leading drop kicker in the east, for quarterback J. K. Peck, in lifting five drop kicks over the crossbars this season, surpassed all others. Starting in the Trinity game, Peck dropped two over, and then repeated his stunt in the New York University game a week later, finishing his work for the season in that line the next week with one more against Columbia.—The Wesleyan Argus.

—M—

Co-ed: "You should change your style of dancing a little."

Fresh: "In what way?"

Co-ed: "You might occasionally step on my left foot."

That Patten has gone into the stationery business; he carries the (Hamilton) Bond.

The drop in price of candy and ice cream in the Book Store?

"Fat" Strout on his early morning walks with Miss—?

How the bowlegged men on the campus avoid the co-eds?

That the milk is almost as good as the drinking-water?

The highly polished young gent that presides behind the soda fountain?

The prevalence of red hats at Balentine?

What a serious air the seniors are beginning to take upon themselves? And the freshmen too?

Coach Wood majoring as Romeo in front of Balentine?

The magazines and newspapers in the M. C. A. room? (Neither have we.)

Don Cross's snappy appearance since he changed to A. B.?

That it's nearly time for rubber-boots?

The tea-fights round the tables in the College Store?

That Ivan Pease is taking a time course at Mt. Vernon?

That many of the boys have a hard time to explain to "her" some of the items concerning their "other" night out?

That spring is almost here?

"I had to kill my dog this morning." "Was he mad." "Well he didn't seem any to well pleased."

—M—

"Ma, are we going to have chicken for dinner?" "No, why?"

"Cause I heard Pa tell Mr. Smith that he picked up a fine chicken on the avenue last night."

—M—

Circus Manager: "So you want a job do you? What steps would you take if a lion were to escape?" Applicant: "Good long ones, guv-nor."

—M—

You can lead a student to lectures but you can't make him think.

—M—

Many co-eds believe in making headway while the moon shines.

—M—

Epie says:

"Ice cream is strange
So is a cod fish ball
But the people people marry
Is the strangest thing of all."

—M—

Snobby: "Did you succeed in getting ahold of Ethel last night?"

Nobby: "Oh! Yes."

Snobby: "Where?"

—M—

The Harvard Glee Club gave a joint concert with the College Oratorio Chorus of Smith College at Smith recently. Separate numbers were given by each organization and the program concluded by a Russian Christmas carol sung by the combined clubs.

Mechanical Society Announces Program

(Continued from Page One)

The society has arranged to hold its meetings bi-monthly, on the first and third Wednesdays of each month. The motion pictures are to be held in the chapel; the meeting place for the other meetings will be announced later. The program should be of great interest to all upperclassmen who take Mechanical Engineering. Among the meetings held thus far are two which stand out notably: Officers were elected and Merton C. Corson, '21, who was employed last summer by the Westinghouse Mfg. Co., Philadelphia, gave a very instructive talk on Steam Turbines. At another meeting, Percival B. Crocker '21, talked on "The Principles Underlying the Designing of Aeroplanes." The topic was illustrated by numerous lantern slides. Mr. Crocker was not only an aviator but a flyer and served overseas in the U. S. Aviation Corps. Among the illustrations shown, were various pictures taken from planes in France.

Members of the Junior and Senior classes receive credit in their Seminar for appropriate papers or talks presented or read before the society.

The officers of the society for the academic year are:

President, C. H. Drisko '21; Vice-President, Andrew E. Strout '22; Secretary and Treasurer, Frank S. Beale '21. Carroll C. Swift '21, is the Senior representative on the Executive Committee, James F. O'Donnell '22, the Junior representative, and John A. Sanborn '23, represents the Sophomore Class.

Rhode Island State Is Defeated 38-23

(Continued from Page One)

Time was called when one of the Rhode Island men was slightly injured. The whole team went to the rubbing room with their coach. As a result of leaving the floor they were penalized. Berg made three tries out of four good. From this time on the Maine five had the game cinched. They forced the playing and displayed almost perfect teamwork. Holmes was withdrawn on account of four personal fouls. Taylor went in for Berg at right guard. Berg shifting to forward for Holmes. The game ended with the score Maine 38, Rhode Island 23.

Swimming is receiving much attention at Harvard. Coach Prendergast announces a fifty yard record in 27 seconds, and one hundred yards in one minute and four seconds.

—Harvard

LAW

THE BOSTON UNIVERSITY LAW SCHOOL

Trains students in the principles of the law and in the technique of the profession so as to best prepare them for active practice wherever the English system of law prevails.

America's new place in international politics and commerce challenges the young American.

He must equip himself for new world conditions with a knowledge of legal fundamentals.

LAW—Its principles and application to all business is almost as necessary to the coming business man as it is indispensable to the lawyer.

Special scholarships (\$75 per year) are awarded to college graduates.

Course for LL.B. requires 3 school years. Those who have received this degree from this or any other approved school of law may receive LL.M. on the completion of one year's resident attendance under the direction of Dr. Melville M. Bigelow. Several \$25 and \$50 scholarships open in this course.

Blanchard Bill is of Vital Interest Here

In the engineering periodicals of late the features of the Bacharach bill, which has already passed the House and has been favorably reported by the Senate, is discussed to considerable extent, both by readers and by editors. The purpose of the bill is to repeal from the present tariff law the duty-free clause applying to educational institutions. Under the existing tariff the University is exempted from paying duty on imported chemicals, laboratory apparatus and glassware, a provision which has saved our colleges and universities many dollars and at the same time furnished them with the best obtainable scientific materials. It would be senseless to maintain that foreign-made apparatus has in the past been no better nor cheaper than what little the American adventurers in this field of manufacture had been able to produce.

Why, then, this proviso of the Bacharach bill? Because since 1914 very few laboratory supplies have found their way westward across the Atlantic, during which time American ingenuity and Japanese importations have come to our aid. In order, then, to protect this practically new American industry, Congress is urged to act. The technical press, naturally desirous of protecting their advertisers and undoubtedly patriotic, as a rule favor the proposed legislation. It is claimed that many institutions support their viewpoint. Without doubt the country is flooded with pro-German propaganda favoring the retention of the status quo. But it should be borne in mind that we have purchased apparatus from England and France, our allies, as well as from our late antagonist. Any student of economics will agree that, due both to the shrinkage in distances on our globe and to the intricately woven fabric of trade and economic dependency, one person, one business organization, one country, can not suffer industrial disaster without drawing others into the abyss. This fact is beginning to be understood by the governments of England and Italy with reference to the enforcement of the peace terms.

On the other hand, we are strongly desirous of seeing the new and struggling American industries not only protected from disaster but encouraged, as well. Coming as it does, at a time when all our educational institutions are growing so rapidly, need new apparatus so keenly and are so seriously handicapped by the low purchasing power of the dollar, the question is a difficult one indeed to settle.

We think that the students would like to know what our engineering and science faculties think of the Bacharach bill. Perhaps they will tell us.

One radical change in rules governing intercollegiate basketball was made recently at a session of the Intercollegiate Basketball League of America. The new ruling, whereby players taken from the game for any reason except for that of making four personal fouls may be returned later, is expected to have a far-reaching effect on the sport and will undoubtedly work well in practice.

This regulation, the purpose of which is to allow a coach to withdraw a tired player, give him the necessary rest, and then send him back into the game, will greatly affect the strategy of basketball, enabling a coach to shift and substitute players. In emergencies players of specialized ability may be sent into the game and withdrawn when they have served their particular purpose, just as a drop kicker is used in football.

Exam—The exam is a fiendish species of torture introduced by the Spanish Inquisition and closely related to the modern "third degree." The object of the exam, as declared by its perpetrators, is to wring from the unfortunate victim a statement of how much he knows. It is, however, clear to the unprejudiced observer that the true object is to discover how little he knows.

—The Tufts Weekly.

There are now ten university papers which receive the regular service of the Associated Press. Among these the *The Daily Princetonian*, the first to take this service, *Cornell Daily Sun*, *The Daily Illini*, *The Michigan Daily*, and *The Dartmouth*.

The University of California, Stanford and Washington, have formed themselves into an organization to be known as the "big three" for intercollegiate activities.

Memorial Club House For Comm. Officers

Leading architects of the country will be asked to submit competitive drawings of the \$3,000,000 clubhouse the Army and Navy Club of America is to build in New York in memory of the 3,500 officers who died in the war. The Memorial will be a national one, dedicated to the commissioned men in all branches of the service who made the supreme sacrifice.

The new clubhouse will be centrally located and will serve not only as a monument to the men who died, but also as a home for living officers, active or retired, in the army, navy, or state militia. Civilians interested in the nation's defense are also eligible for associate membership.

The memorial feature will probably take the form of a central court or hall with bronze paneled walls where the names of those who made the supreme sacrifice will be engraved.

In the new clubhouse there will be at least four hundred bedrooms. A large dormitory furnished with cots will also be provided for use on special occasions when the city is crowded with service men.

There also will be a big assembly hall and small rooms for meetings of patriotic societies. Women friends of members or women relatives of the deceased men will find a dining room and reception room for their exclusive use. Other features to be found in a modern clubhouse will be included in the plans.

The club recently broadened its scope so as to include in its membership all officers, ex-officers, and all commissioned men with the allied armies during the war, numbering approximately 200,000.

Great interest still centers in the Hebrew University on the Mount of Olives. It is planned to make it the world center for Jewish culture and education. A collection of books is being made from all over the world. One collection of 40,000 volumes has been given. Among the world famous Jewish scholars who have joined the faculty of the University are: Professor Albert Einstein, author of the new theory of relativity; Professor August Von Wassermann, discoverer of the blood test which bears his name; and Professor S. Freud, the psycho-analyst.

—The White and Blue

The University of Minnesota has installed a long distance wireless. Messages are now being sent over 700 miles.

—Minnesota

At the University of Oklahoma, the students have been informed that unless strict observance of the honor system is maintained it will be eliminated.

The Student Council at Simpson College, Iowa, has adopted the Honor System. Simmons College, Texas, is another institution where the same system has been adopted. In the latter school, the vote was 448 to 40.

Bowdoin—It has been definitely decided that Fred V. Ostergren, present coach of football at Portland High School, has signed the contract to coach football at Bowdoin next fall, so that the discussion which has been rife around the campus since the middle of December has been finally settled.

The Student Council at Simpson College, Iowa, has adopted the honor system. Simmons College, Texas, is another institution where the same system has been adopted. In the latter school, the vote was 448 to 40.

IN PSYCHOLOGY

Professor—Now I put the number seven on the board. What number immediately comes into your mind?

Class (in unison)—Eleven!

As he walked along the winding road,
There came before his view
A snake, so long and lean and black
"T'would have frightened me or you.
His heart flamed up with wrath and fear,

He seized an iron rake;
Some sticks, some stones, some old dead bones,

But he could not kill that snake.
Tho he labored with oak trees, large and small,

And a hundred pounds of lead,
He could not kill that forlorn snake,
For it was already dead.

DON'T take a fellow's pipe. Take some other possession. Because wrapped up in his pipe is a fellow's peace of mind, his relaxation, his contentment. This is more than true if it's a WDC Pipe, because then a good smoke is multiplied many times over. Our special seasoning process takes care of this by bringing out all the sweetness and mellowness of the genuine French briar. Just you go to any good dealer and select several good shapes. Put them in your rack. Smoke a cool one every time, and you'll be well on your way to pipe-happiness.

General opinion states that only five percent of the students in the universities of Holland are total abstainers. In spite of that several strong anti-alcohol societies are to be found in the different universities. The club of the University of Amsterdam, the "Academia" is making itself felt in both educational and social activities.
